Core Metrics Recalculation & Evidence Chain

known metrics recomputed from GeoJSON in EPSG:4548; missing official regulatory-plan items listed as unknown

Overall design area metric:site_area_sqm	11.41 km²	known
Building footprint metric:building_footprint_area_sqm	71.0 ha	known
Green ratio metric:green_ratio	13.5%	known
Public-space ratio metric:public_space_ratio	7.7%	known
AI R&D land ratio metric:land_use_rd_ratio	10.0%	known
Key area count metric:key_area_count	3 sites	known
Floor-area ratio metric:floor_area_ratio	Pending	unknown

Evidence: metrics.json <- geometry/" .geojson (recomputed) <- site-package provisional boundary
All known metrics are independently recomputable; unknown items do not fabricate precise control values.

临时边界 / 非官方红线 — provisional boundary, not an official red line. 正式数据发布后复算 / to be recalculated on official release.

Key Metrics

Overall design area
~11.41 km² (known)

Building footprint
~71.0 ha (known)

Green ratio
~13.5% (known)

Public-space ratio
~7.7% (known)

AI R&D land ratio
~10.0% (known)

Key area count
3 (known)

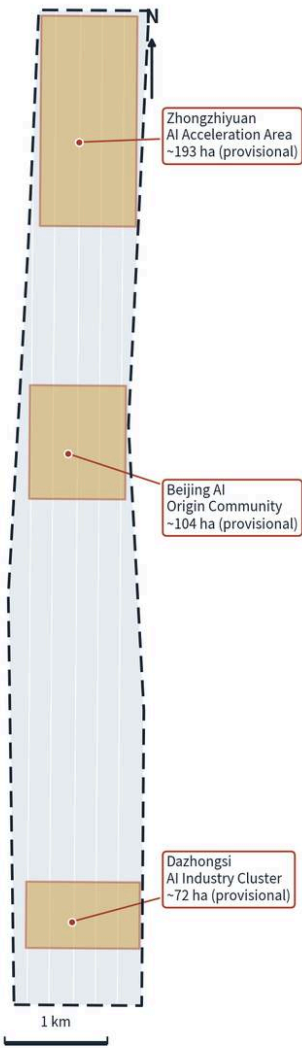

Floor-area ratio
Pending official plan (unknown)

Three Key Areas • Detailed Design

Zhongzhiyuan • Beijing AI Origin Community • Dazhongsi (provisional)

Three Key Areas Index

Zhongzhiyuan • Beijing AI Origin Community • Dazhongsi

临时边界 / 非官方红线 — provisional boundary, not an official red line. 正式数据发布后复算 / to be recalculated on official release.

Base: geometry/" .geojson • EPSG:4548 • Font Noto Sans CJK SC (OFL)

Zhongzhiyuan AI Acceleration Area

~193 ha (provisional)

Garden-style full-stack independent innovation: national AI platform, standards, safety governance, industrial display.

Beijing AI Origin Community

~104 ha (provisional)

Near-campus commercialization & talent community: campus-park slow-traffic stitching, open-source collaboration.

Dazhongsi AI Industry Cluster

~72 ha (provisional)

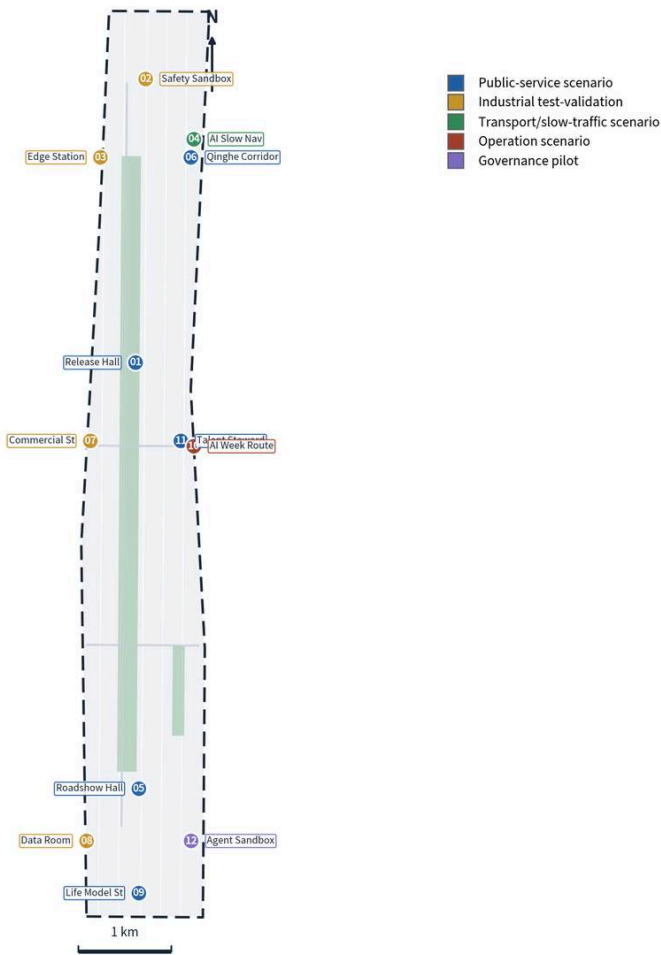

Urban intelligent economy & international exchange: leading enterprises, agents, data elements, station integration.

AI Scenarios & the Standard-Gauge Mechanism

12 scenario cards • submit—calibrate—pilot—close reviewable loop

AI Scenario Nodes • 12 Scenario Cards

Scenarios anchored to public space / slow traffic / industry • Standard Gauge

临时边界 / 非官方红线 — provisional boundary, not an official red line. 正式数据发布后复算 / to be recalculated on official release.

Base: geometry/"_geojson • EPSG:4548 • Font Noto Sans CJK SC (OFL)

Standard Gauge • Four Calibrations

1 Interface standard

Open, portable protocols; not vendor-locked.

2 Data minimization

Collect only what is needed; state purpose & retention.

3 Human review

Rights-affecting decisions keep a traceable human party.

4 Exitable

Human channel and offline alternative retained.

Operation Loop

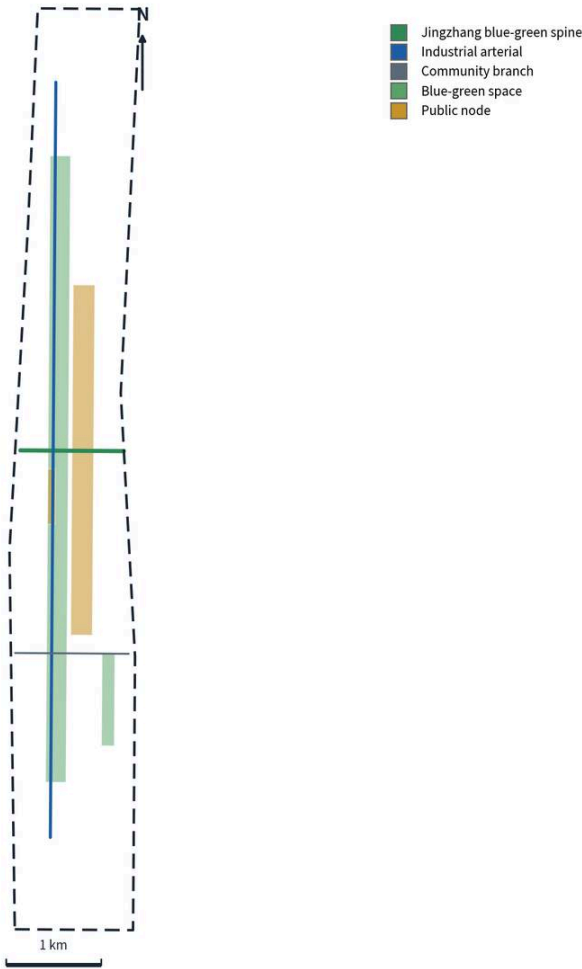

Submit (gauge self-check) -> Calibrate (review publication) -> Pilot (limited operation, on-site responsible person, human takeover) -> Close (public success/failure/pivot record)

Slow Traffic • Blue-Green • Phasing

Blue-green spine + industrial arterial + community branch • two phases

Slow-Traffic & Blue-Green Public-Space Composite

Blue-green spine + industrial arterial + community branch

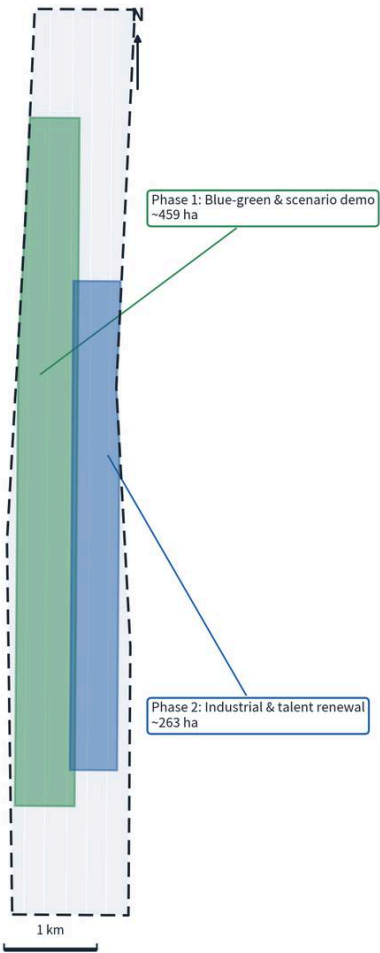

临时边界 / 非官方红线 — provisional boundary, not an official red line. 正式数据发布后复算 / to be recalculated on official release.

Base: geometry/" .geojson • EPSG:4548 • Font Noto Sans CJK SC (OFL)

Implementation Phasing • Near-term demo → Mid-term renewal

Phase 1 blue-green & scenario demo • Phase 2 industrial & talent renewal

临时边界 / 非官方红线 — provisional boundary, not an official red line. 正式数据发布后复算 / to be recalculated on official release.

Renewal Projects (JZ-01···06)

- JZ-01 Jingzhang Park slow-traffic gaps
- JZ-02 Zhongzhiyuan Qinghe innovation interface
- JZ-03 Origin Community commercialization street
- JZ-04 Dazhongsi station 4-quadrant walk
- JZ-05 AI public service & edge-compute node
- JZ-06 Global AI Activity Week public route
