

- 01

VALIDATION COMMONS

Cross-lingual models, dialects, embodied navigation
- 02

CO-TRANSLATION COMMONS

Universities, communities, open terminology
- 03

GLOBAL RELEASE COMMONS

Global forum, AI-native commerce, talent services

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

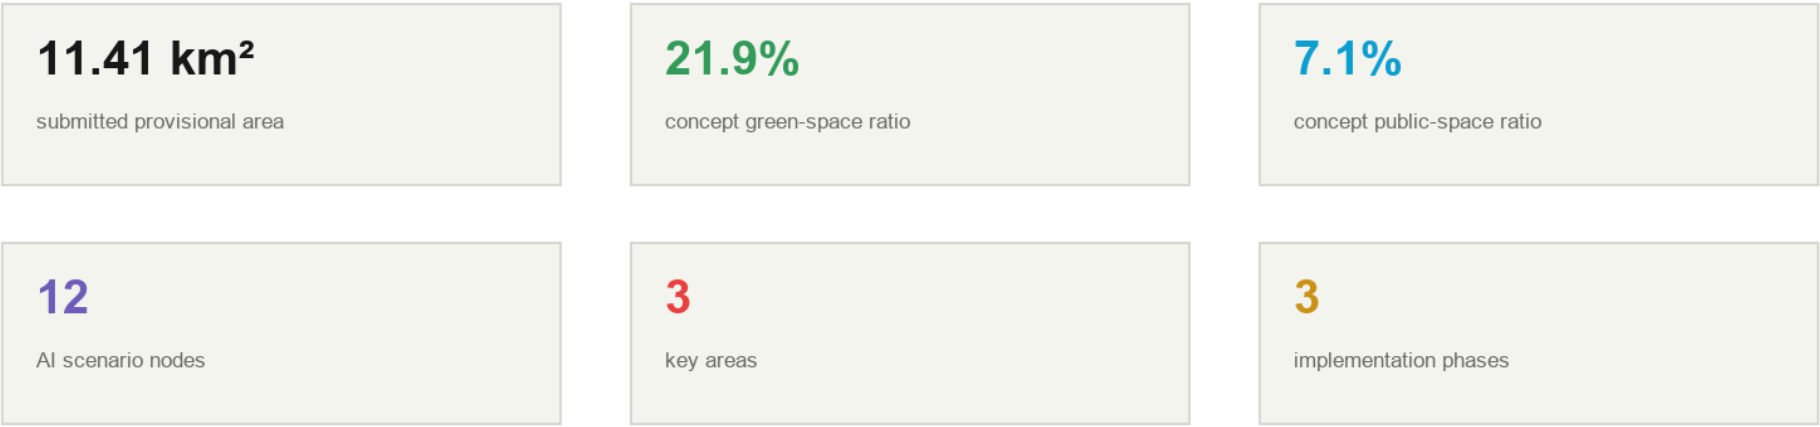

GeoJSON → Metrics → Figures → Review

A MULTILINGUAL CITY INTERFACE FOR GLOBAL AI TALENT

DESIGN BASIS AND PROVISIONAL BOUNDARY

METRIC RECALCULATION AND EVIDENCE CHAIN

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

FAR / HEIGHT / ROAD REDLINES / OWNERSHIP / MUNICIPAL CAPACITY: PENDING OFFICIAL DATA

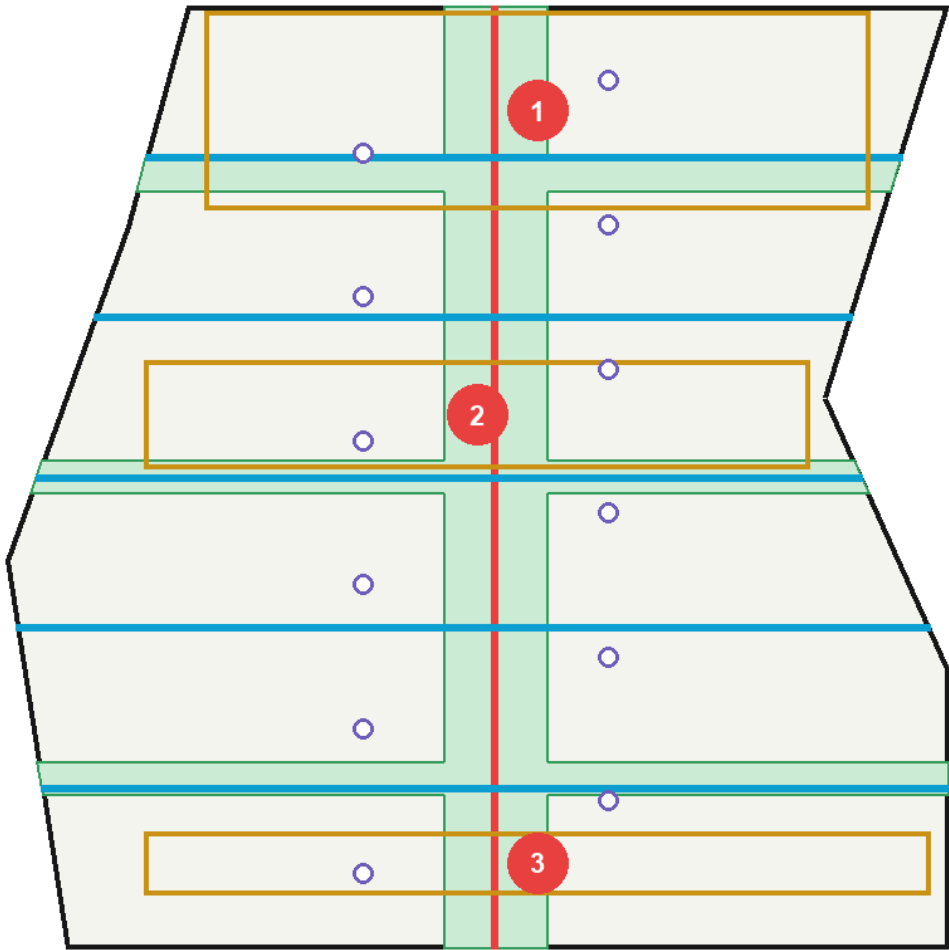

Values describe submitted geometry only; they are not approved planning controls.

The proposal separates official task evidence, provisional geometry and conceptual design; official polygons and controls remain pending.

THREE-LEVEL SCOPE AND OVERALL STRUCTURE

JINGZHANG POLYGLOT COMMONS

ONE SPINE · THREE COMMONS · FIVE LINKS · TWELVE SCENARIO NODES

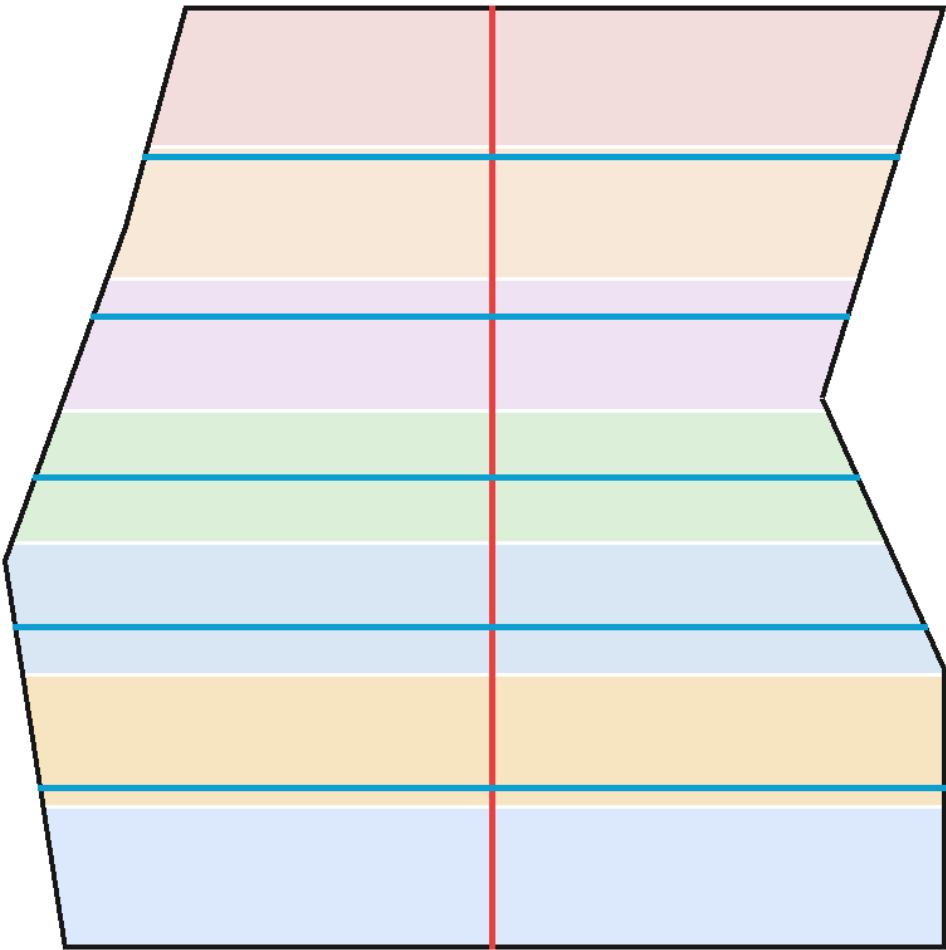

- 01 VALIDATION COMMONS**
Cross-lingual models, dialects, embodied navigation
- 02 CO-TRANSLATION COMMONS**
Universities, communities, open terminology
- 03 GLOBAL RELEASE COMMONS**
Global forum, AI-native commerce, talent services

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY
GeoJSON → Metrics → Figures → Review

The coordinated area organizes global collaboration, the overall area carries the commons spine, and three key areas test spatial prototypes.

SEVEN PROGRAM BANDS AND NORTH-SOUTH TRANSFER

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

PROGRAM INDEX

- 01 Zhongzhiyuan multilingual model validation and full-stack F**
MNR 0802 | 184.1 ha
- 02 Global talent arrival and community services**
MNR 0702 | 175.9 ha
- 03 University collaboration and cross-lingual knowledge comm**
MNR 0804 | 174.6 ha
- 04 Jing-Zhang cultural interpretation park**
MNR 1401 | 158.9 ha
- 05 Multilingual public culture and release venues**
MNR 0803 | 146.3 ha
- 06 Talent living and inclusive public services**
MNR 0702 | 145.2 ha
- 07 Dazhongsi global exchange and AI-native commerce**
MNR 05 | 156.3 ha

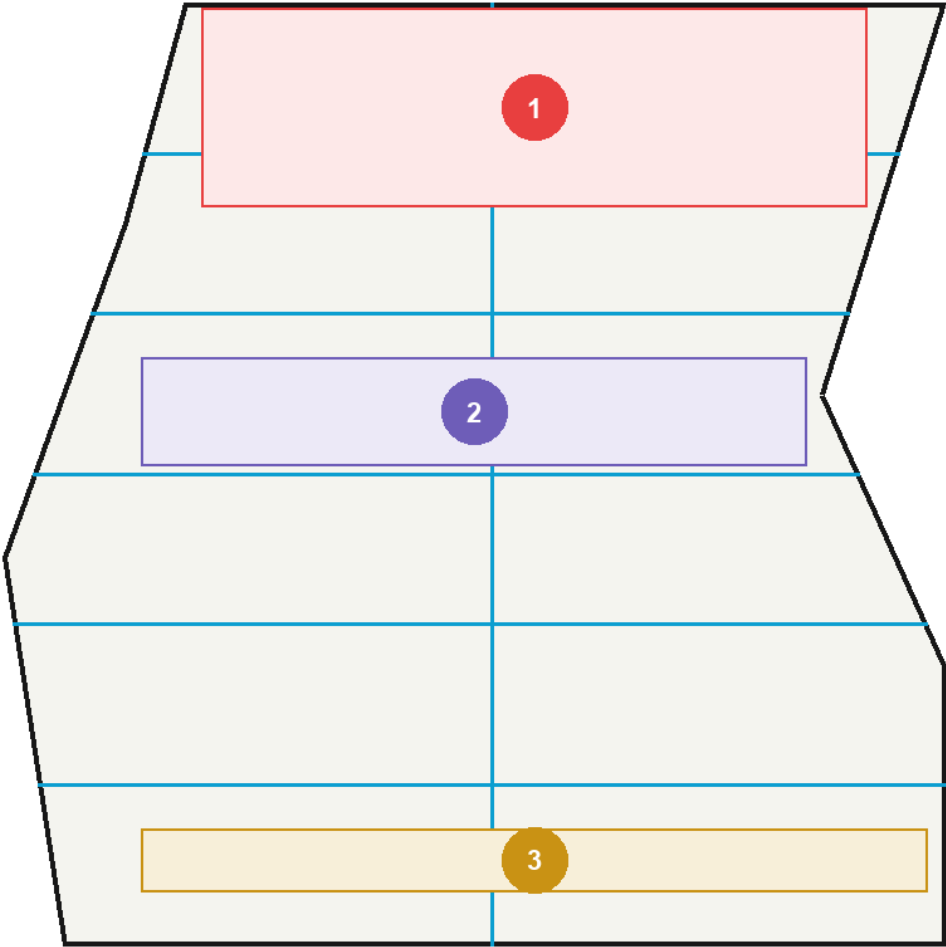

Land-use codes describe a concept, not an approved regulatory plan.

Seven program bands form a topology-safe partition; retain-renovate-demolish choices, scale and height require professional review.

THREE KEY AREAS

THREE POLYGLOT CO-CREATION COMMONS

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

- 01

ZHONGZHIYUAN

MODEL VALIDATION · STANDARDS · GLOBAL COLLABORATION

Official polygon pending
- 02

BEIJING AI ORIGIN

OPEN TRANSLATION · TALENT LIFE · COMMUNITY CO-DESIGN

Official polygon pending
- 03

DAZHONGSI

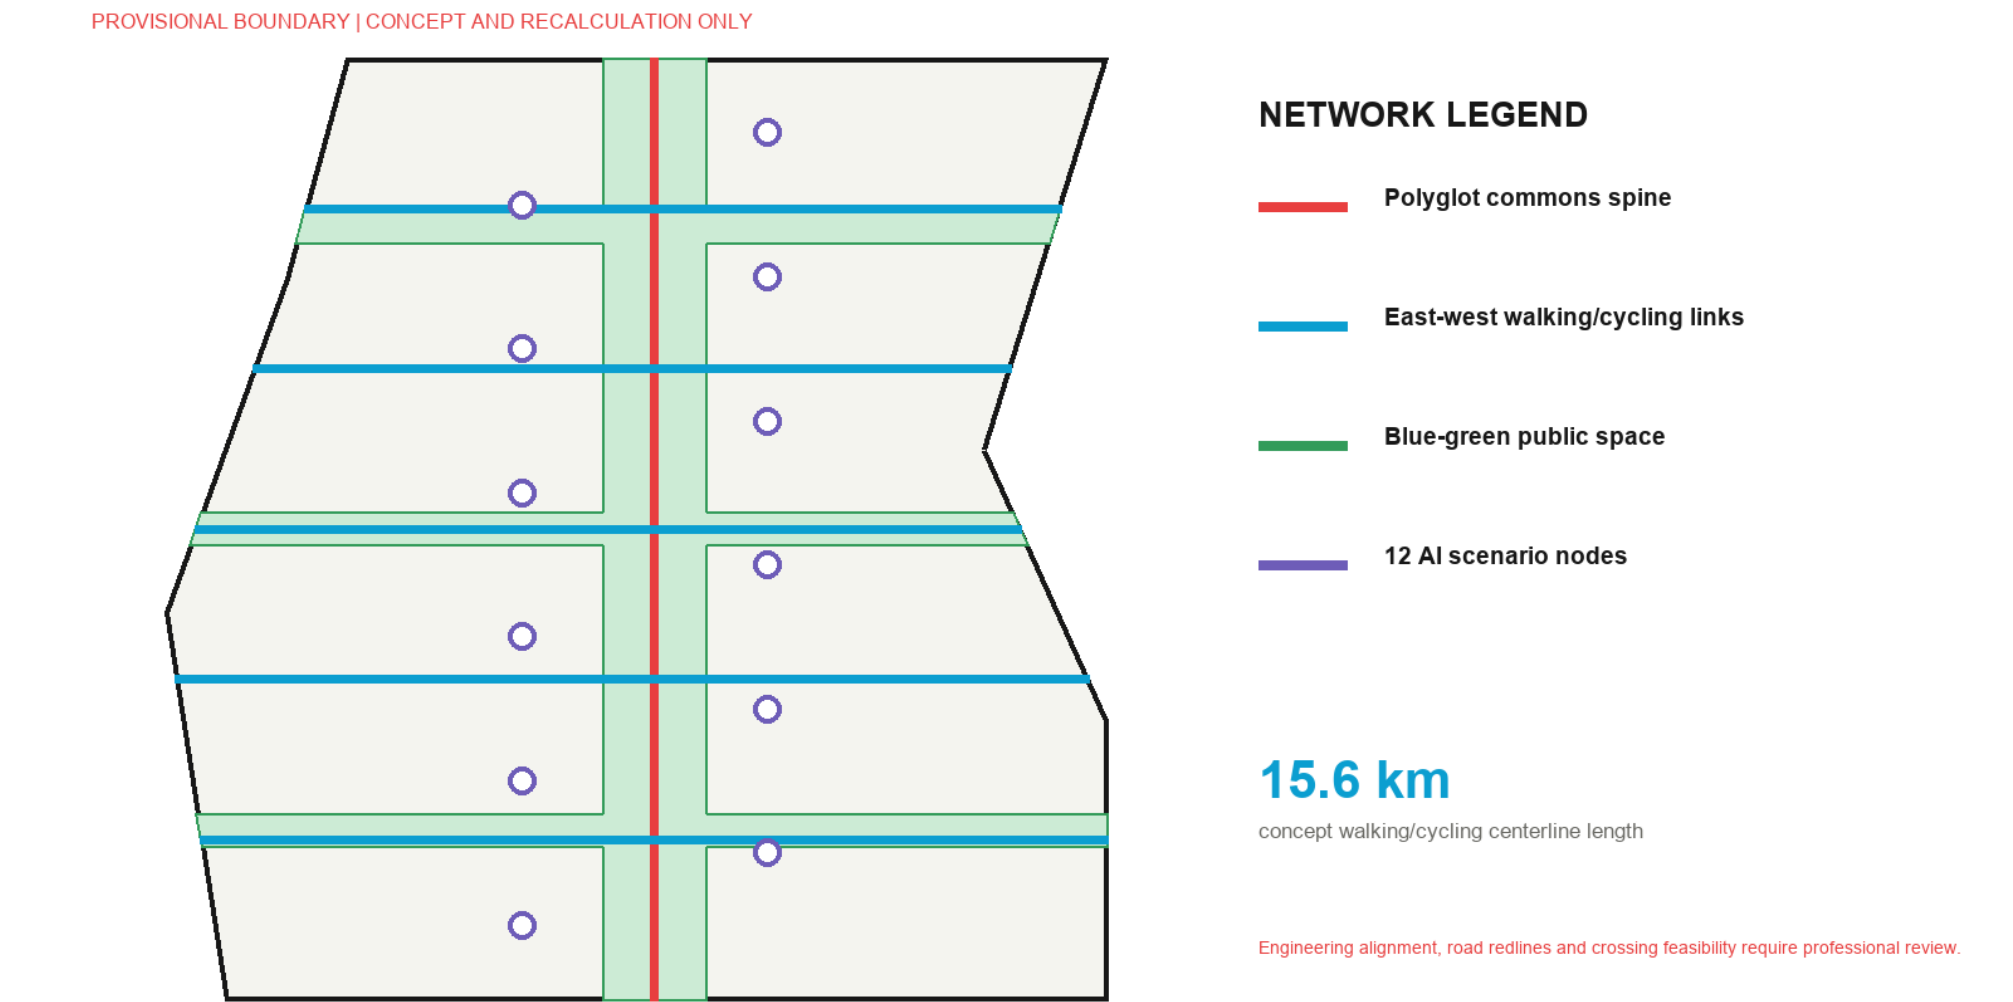

GLOBAL RELEASE · AI-NATIVE COMMERCE · CITY EXPERIENCE

Official polygon pending

Zhongzhiyuan tests cross-lingual models, AI Origin hosts open co-translation, and Dazhongsi supports global release and adoption.

TWELVE AI SCENARIOS

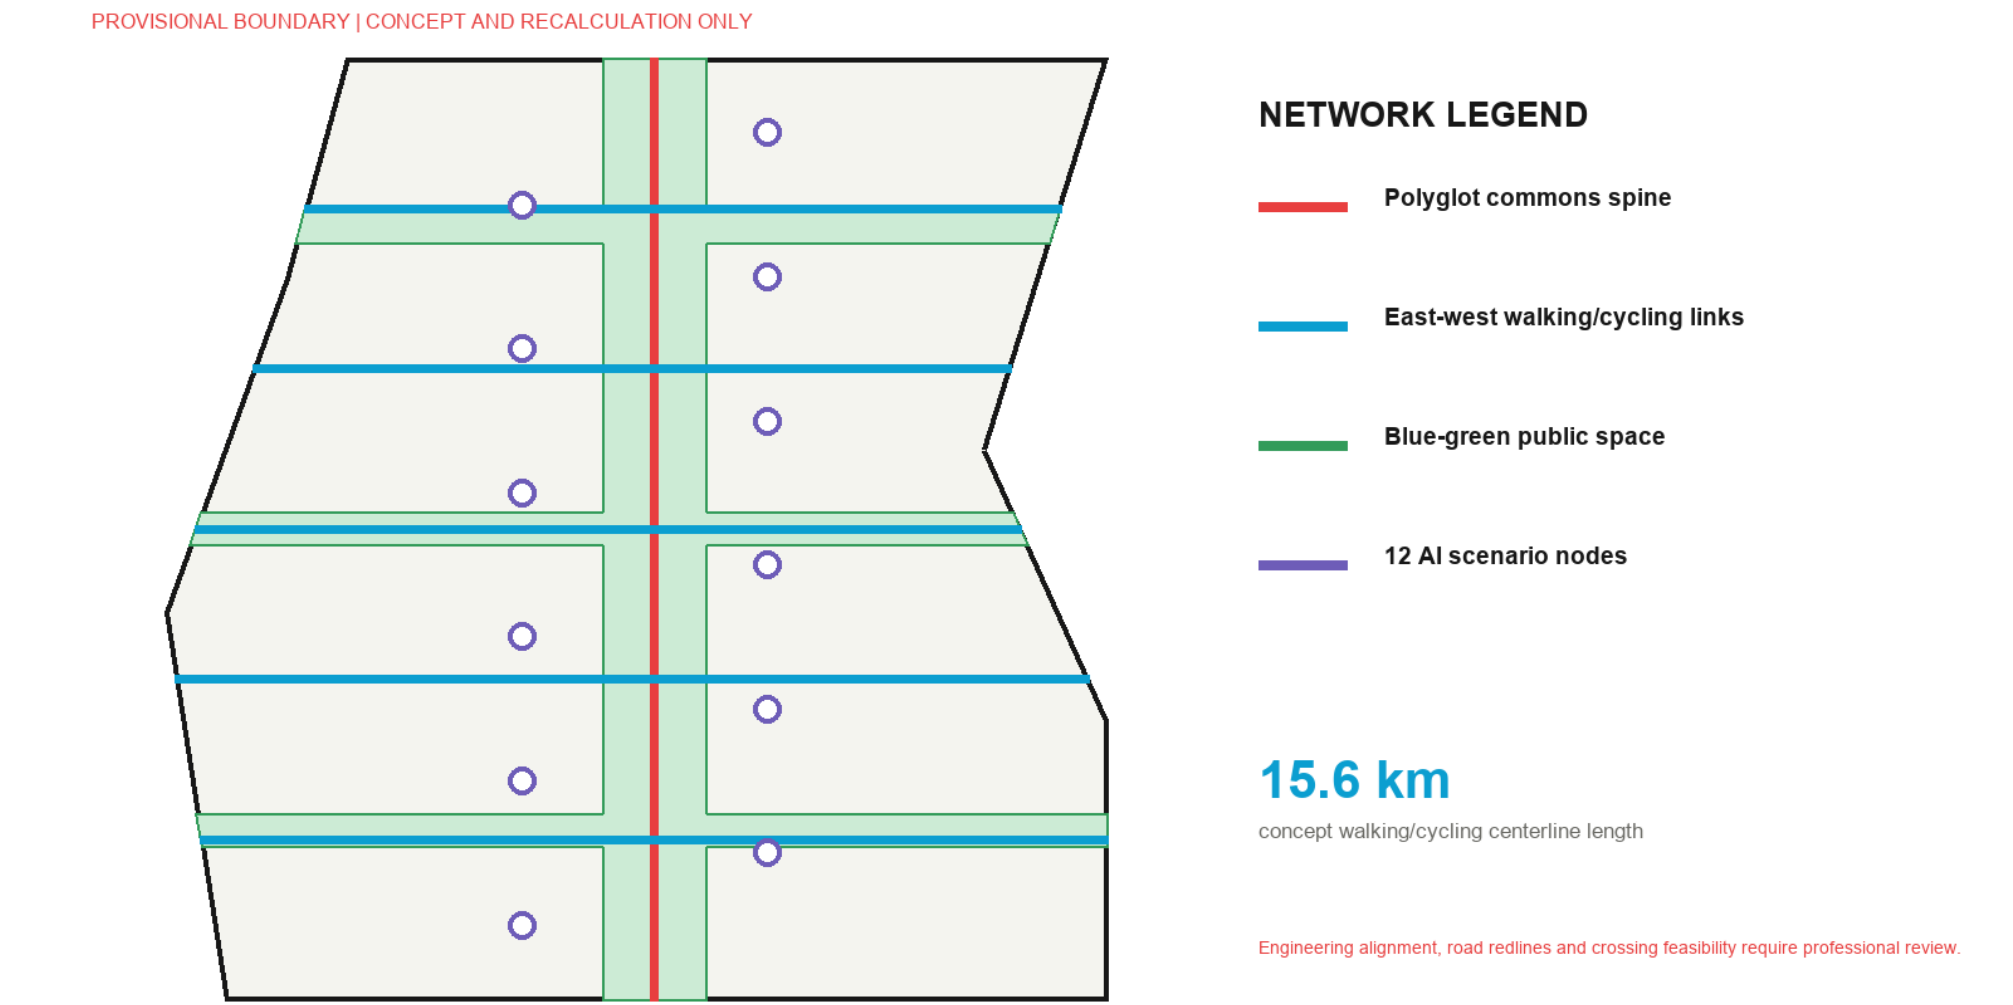

FIVE CROSS-LANGUAGE LINKS AND BLUE-GREEN MOBILITY

Three industry tests and nine public scenarios require human review, non-digital fallback and exit conditions.

MOBILITY, BLUE-GREEN AND PUBLIC SPACE

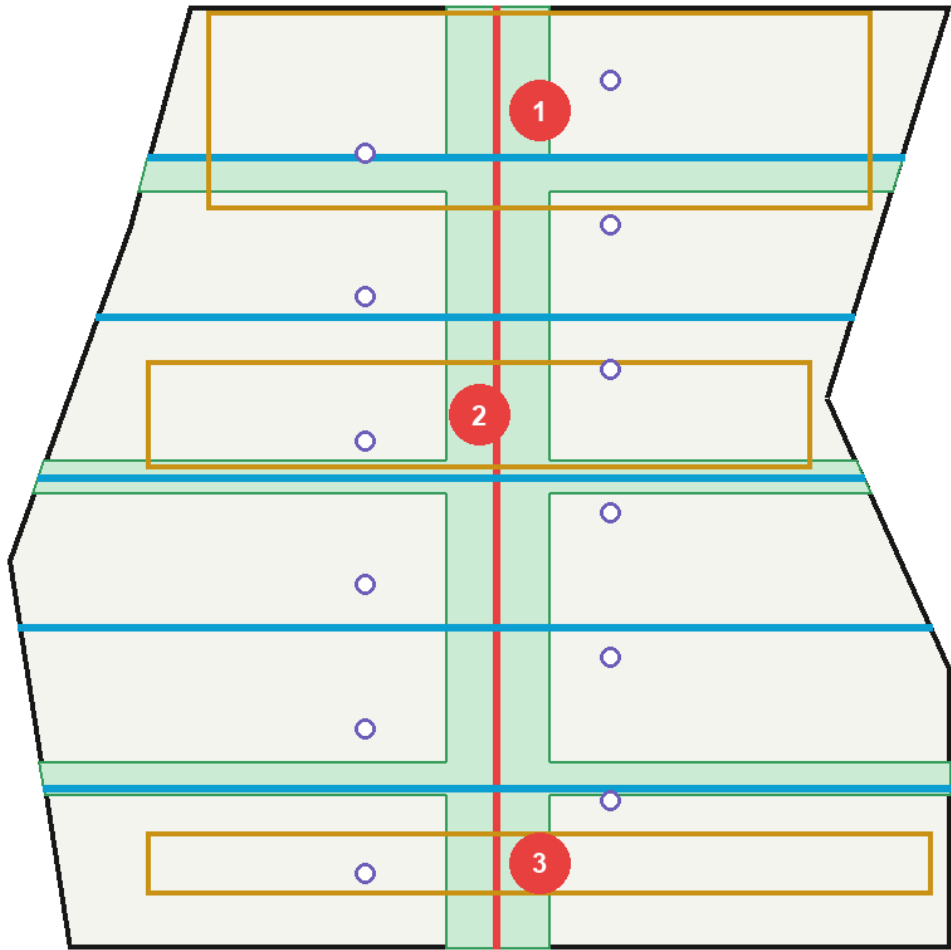

FIVE CROSS-LANGUAGE LINKS AND BLUE-GREEN MOBILITY

One north-south spine and five east-west links form the public experience network; engineering conditions remain to be verified.

JINGZHANG POLYGLOT COMMONS

ONE SPINE · THREE COMMONS · FIVE LINKS · TWELVE SCENARIO NODES

- 01 VALIDATION COMMONS**
Cross-lingual models, dialects, embodied navigation
- 02 CO-TRANSLATION COMMONS**
Universities, communities, open terminology
- 03 GLOBAL RELEASE COMMONS**
Global forum, AI-native commerce, talent services

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

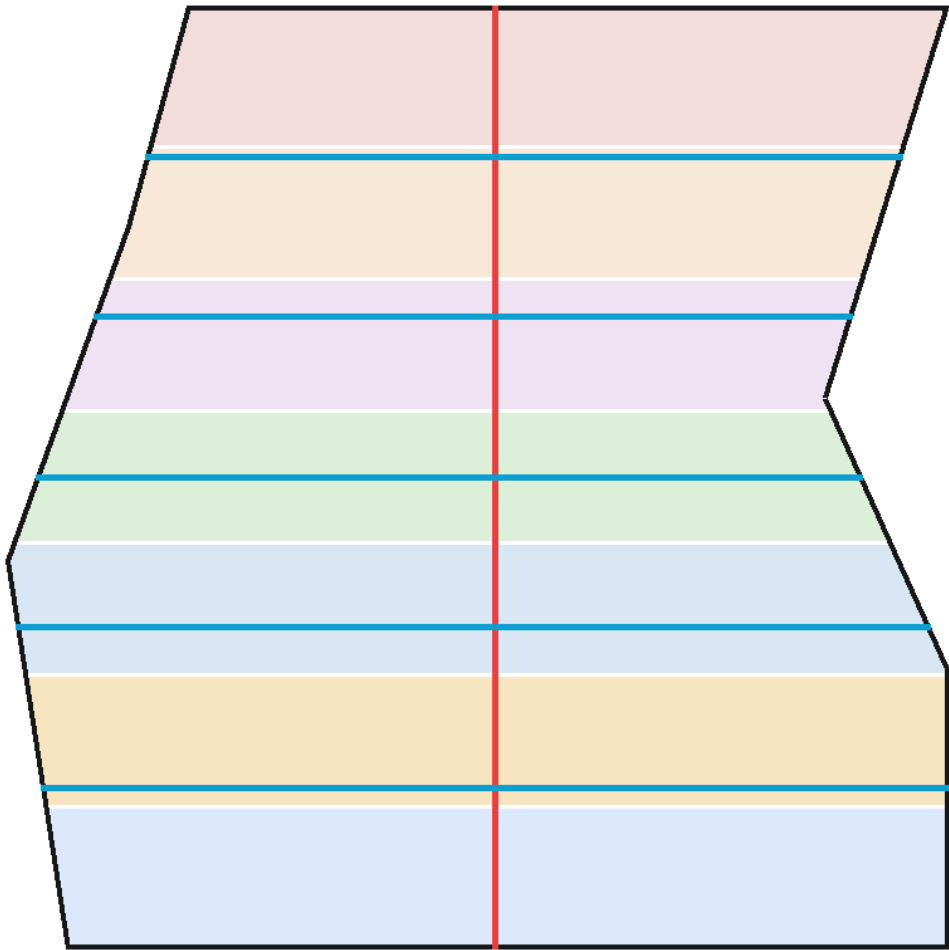

GeoJSON → Metrics → Figures → Review

An original identity combines rail gauge, dialogue forms and multilingual rhythm; landmarks act as public interfaces rather than monuments.

PROJECT LIST AND PHASING

SEVEN PROGRAM BANDS AND NORTH-SOUTH TRANSFER

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

PROGRAM INDEX

- 01 Zhongzhiyuan multilingual model validation and full-stack F**
MNR 0802 | 184.1 ha
- 02 Global talent arrival and community services**
MNR 0702 | 175.9 ha
- 03 University collaboration and cross-lingual knowledge comm**
MNR 0804 | 174.6 ha
- 04 Jing-Zhang cultural interpretation park**
MNR 1401 | 158.9 ha
- 05 Multilingual public culture and release venues**
MNR 0803 | 146.3 ha
- 06 Talent living and inclusive public services**
MNR 0702 | 145.2 ha
- 07 Dazhongsi global exchange and AI-native commerce**
MNR 05 | 156.3 ha

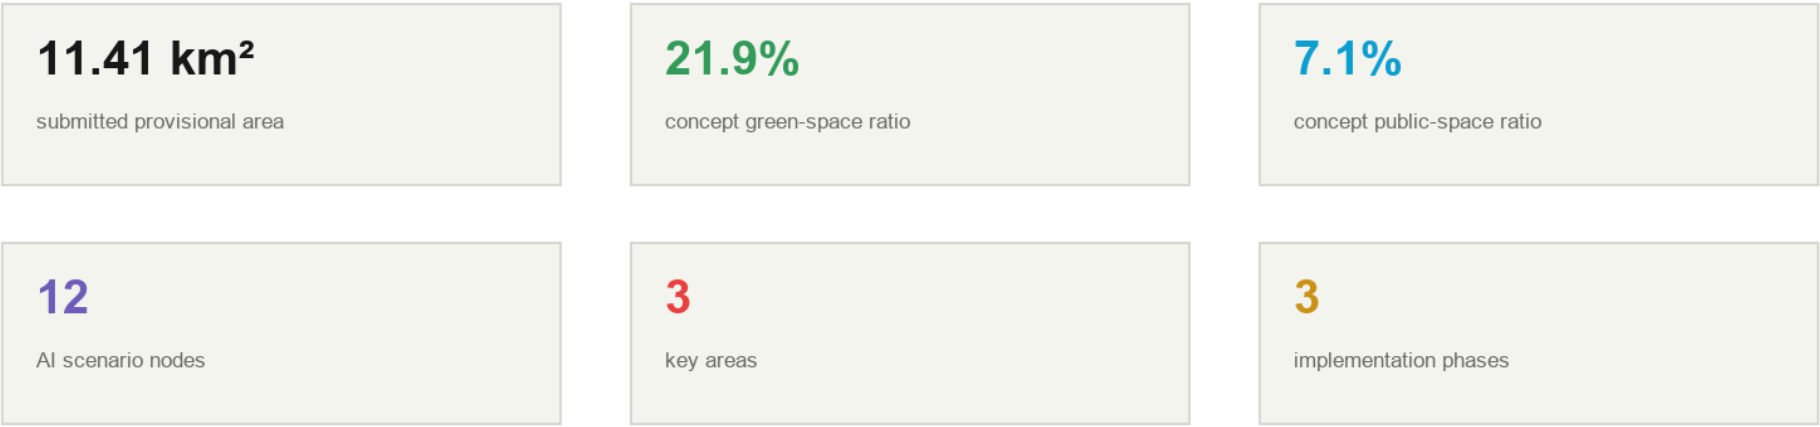

Land-use codes describe a concept, not an approved regulatory plan.

Near term: validate service prototypes. Medium term: connect public space. Long term: sustain operation and professional deepening.

METRICS, COMPLIANCE AND RISK

METRIC RECALCULATION AND EVIDENCE CHAIN

PROVISIONAL BOUNDARY | CONCEPT AND RECALCULATION ONLY

FAR / HEIGHT / ROAD REDLINES / OWNERSHIP / MUNICIPAL CAPACITY: PENDING OFFICIAL DATA

Values describe submitted geometry only; they are not approved planning controls.

Known metrics are recalculated from submitted geometry; FAR, height, road redlines, ownership and municipal capacity are not asserted.
