

01 PROOFLINE | OVERALL CONCEPT AND SPATIAL STRUCTURE

One civic spine | three Proof Stations | two service wings | five validation steps

JING-ZHANG PROOFLINE

PROVISIONAL | CONCEPT ONLY

FULL-STACK PROOF

OPEN TRANSFER

CITY EXPERIENCE

CORE PROPOSITION

Urban AI should not merely display capability. Questions, tests, decisions, exits and contributions must be publicly visible.

CIVIC VALIDATION LOOP

- 01 **DEFINE THE QUESTION** Residents, developers, companies and professional teams define it together.
- 02 **TEST IN PUBLIC** Run a minimum-scale trial at three Proof Stations and twelve scenario nodes.
- 03 **HUMAN DECISION** Accountable professionals decide and keep appeal and exit available.
- 04 **RECORD CONTRIBUTION** Archive traceable rules, failures, corrections and civic contributions.
- 05 **TRANSFER AND REUSE** Move validated components into products, places and operations through two wings.

PROVISIONAL BOUNDARY

The red dashed extent is a provisional constraint for concept generation and self-check. Recalculate every area, alignment and key-area form after official polygons.

THREE PROOF STATIONS AND AN INCLUSIVE MOBILITY SPINE

Full-stack proof | open transfer | opt-out urban experience | six cross-connections

03 THREE PROOF STATIONS | ONE SPINE, THREE INNOVATION LOOPS

Key-area polygons are provisional | each station pairs civic value with an evidence gate and exit

JING-ZHANG PROOFLINE
PROVISIONAL | CONCEPT ONLY

01

Zhongzhiyuan

FULL-STACK PROOF STATION

- Model safety and standards sandbox
- Edge-computing carbon ledger
- Qinghe ecological innovation interface

EVIDENCE GATE BEFORE DETAIL

Heritage | waterway | transport | ownership | energy

02

Beijing AI Origin

OPEN TRANSFER STATION

- Open-source launch and contribution lineage
- Research transfer clinic
- Talent learning and everyday-life loop

EVIDENCE GATE BEFORE DETAIL

Campus | ownership | buildings | transit interface

03

Dazhongs

CITY EXPERIENCE STATION

- Opt-out intelligent-terminal experience
- International demonstration and referral
- Four-quadrant walking connections

EVIDENCE GATE BEFORE DETAIL

Road | rail | utilities | commercial operations

04 WALKING AND CYCLING x BLUE-GREEN PUBLIC SPACE | SIX CROSS-CONNECTIONS

Walking first | companion cycling | accessible continuity | transit referral | low-impact scenario nodes

JING-ZHANG PROOFLINE
PROVISIONAL | CONCEPT ONLY

ONE CONTINUOUS CIVIC SPINE

The Jing-Zhang direction becomes a civic-validation spine. A companion cycling route separates speeds; six east-west interfaces connect communities, campuses, transit and parks into one everyday network.

PROOFLINE LENGTH

9.3 km

WALKING + CYCLING NETWORK

24.4 km

AI SCENARIO NODES

12

INDUSTRY VALIDATION

3

INCLUSIVE OPERATING PROTOCOL

01

DEVICE-FREE BY DEFAULT

Every service retains a staffed window, ordinary wayfinding and a non-smart alternative.

02

VISIBLE BOUNDARIES

Purpose, retention, responsible person, exit and appeal are readable on site.

03

LOW SPEED AND TIME SLOTS

Robot trials use speed limits, physical separation and on-site takeover.

04

FAILURES ENTER THE RECORD

Withdrawal reasons and negative results are archived alongside successes.

Conceptual connection diagram, not a road boundary, rail alignment, bridge/tunnel scheme or engineering approval.

ONE COMPONENT, ONE PROOF-MILE

No generic process advances the whole line

one pass ≠ line-wide pass ≠ construction approval

K01 WAYFIND

K02 REST

K03 WATER

K04 INFO

K05 E-STOP

K06 MEMORY

L1 ORDINARY-SERVICE BASE

passage / wayfinding / rest / staffed help without a model

L2 REVERSIBLE TEST POCKET

authorized · removable · outside clear width · optional

L3 PUBLIC EVIDENCE RAIL

operator / baseline / negative findings / stop / removal

THREE PROOF STATIONS · THREE HANDOFFS

ZHONGZHIYUAN

AI ORIGIN

DAZHONGSI

TECH / SAFETY / FAILURE

RIGHTS / CARE / TRANSFER

USE / OPT-OUT / COMPLAINT

Minimum per component: location · problem · gate · non-AI baseline · positive/negative evidence · stop owner · reinstatement

BOUNDARY: Geometry, metrics and phasing unchanged; this is not a construction drawing, investment program or approval.

EVIDENCE LEDGER UPDATE | HOW TRUSTED DATA ENTERS DESIGN

Clear provenance is sufficient for use only when license, statistical scale, purpose and limits are also registered. Background facts are not corridor measurements; catalog leads are not retrieved datasets.

01 | OFFICIAL ADMINISTRATIVE BASELINE

BEIJING 2025

209 filed and launched large models
180.7 high-value invention patents per 10,000 people
30 rail lines, 909 km; 2.74 billion express parcels

Calibrates the innovation, mobility and last-mile problem list; no demand is allocated to the Jing-Zhang corridor.

02 | OPEN-DATA CATALOG

60 SCHOOL-BUS CATALOG RECORDS

Fields list route, origin, destination, school, boarding place and departure time
Catalog says unconditional open; file link currently redirects to unified login

Register as a lead. Join aggregated records to stations and schools only after the file, coverage, time and license are verified.

03 | INDEPENDENT SPATIAL CHECK

0% INTERSECTION | 412.5 m NEAREST

17.49 ha mapped heritage park in OSM
100% covered by the research scope
Independent EPSG:4548 rerun matches Issue #846

Location-discrepancy risk only. Crowdsourced OSM is not a statutory redline and does not move PROV-SITE-001.

THREE USE CLASSES | NO CATEGORY LEAP

BACKGROUND FACT

Explains scale and context
Never enters corridor metrics

CATALOG LEAD

Registers fields and access path
No count claim before retrieval

DISCREPANCY FLAG

Exposes provisional-boundary risk
Official polygon adjudicates

DESIGN DECISION IN THIS PASS

CHANGED | Evidence explanations in sources, assumptions, risk, bilingual reports, HTML and formal drawings

UNCHANGED | GeoJSON, metrics, spatial placement, quantities, action packages and phasing

USE RULE: CLEAR PROVENANCE + COMPLIANT LICENSE + FIT-FOR-PURPOSE USE + VISIBLE LIMITS

Sources: Beijing 2025 Statistical Bulletin | Beijing Open Data catalog 'Haidian school-bus route information' | OpenStreetMap/Overpass (ODbL), Issue #846 / merged PR #850
