

A walkable and auditable AI innovation belt

- Design commitments
- One heritage spine: park, memory, public culture
 - Three cores: research, origin community, smart economy
 - Two wings: enterprise services + Xiaoyuehe scenarios
 - Ten cards: AI+life, mobility, education, health, legal, culture
 - Human review, privacy by design, public and cleared data only
 - Near / mid / long-term phasing; no unverified construction promise

Evidence chain

GeoJSON layers -> metrics -> figures

proposal.md -> HTML report

compliance / standards / depth matrices

self-check: deterministic + spatial + visual + professional
