

THE CIVIC CRAFT LINE | OVERVIEW

ONE LINE, THREE WORKSHOPS, TWO WINGS, CIVIC CRAFT NODES

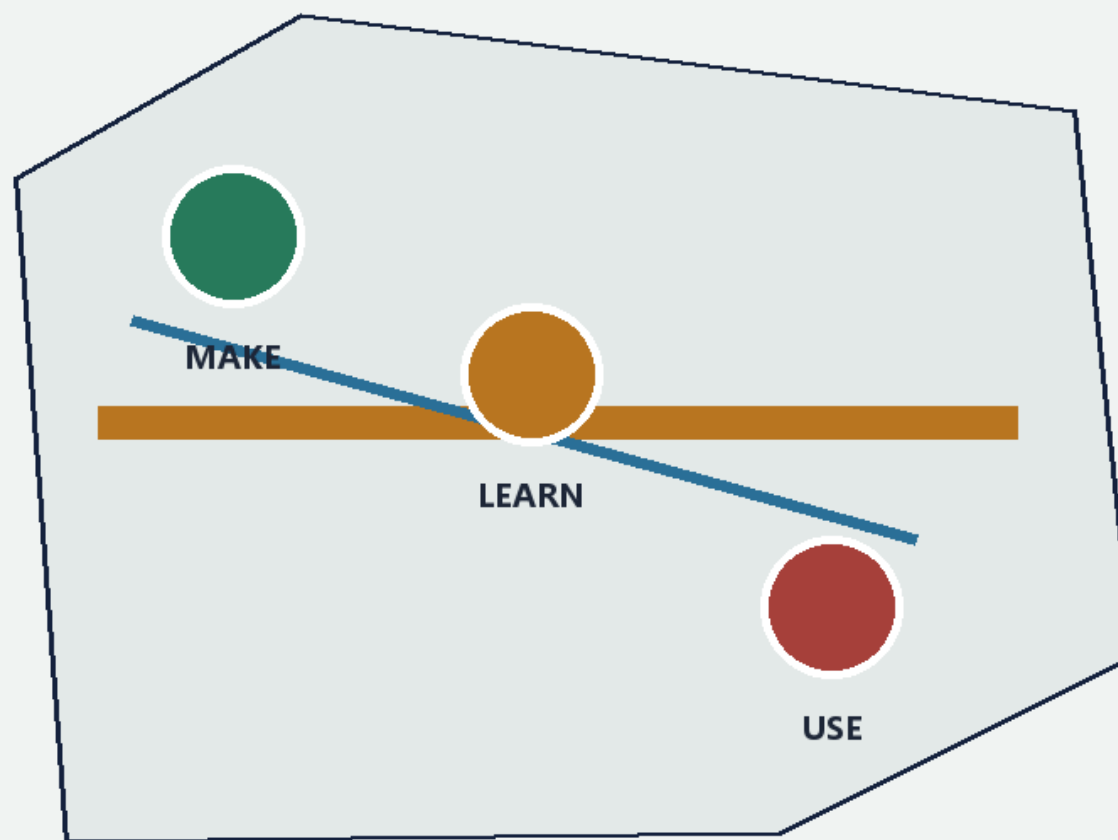

THE CIVIC CRAFT LINE: one line, three workshops, two wings, civic

Generated from the submitted geometry, metrics, matrices and self-check

Concept design. Provisional public-data envelope; not a statutory boundary or engineering basis.

CONCEPT STRUCTURE

Not a parcel map; diagram of functions and relations only.

一线

京张遗址公园活力带被转译为一条可学习、可维护、可交接的公共创新线。

三坊

众智园造器、AI 原点授业、大钟寺用世，分别承担研发、学习与应用回路。

两翼

科技服务翼提供算力、法务、知识产权和融资协作；社区服务翼承接生活与微型试点。

百工节点

每个节点公开服务说明、人工接管点、维护责任与退出路径。

FUNCTIONAL STRUCTURE AND SPATIAL RESPONSIBILITY

FROM CONCEPT PARTITIONS TO HANDOFF-READY SERVICES

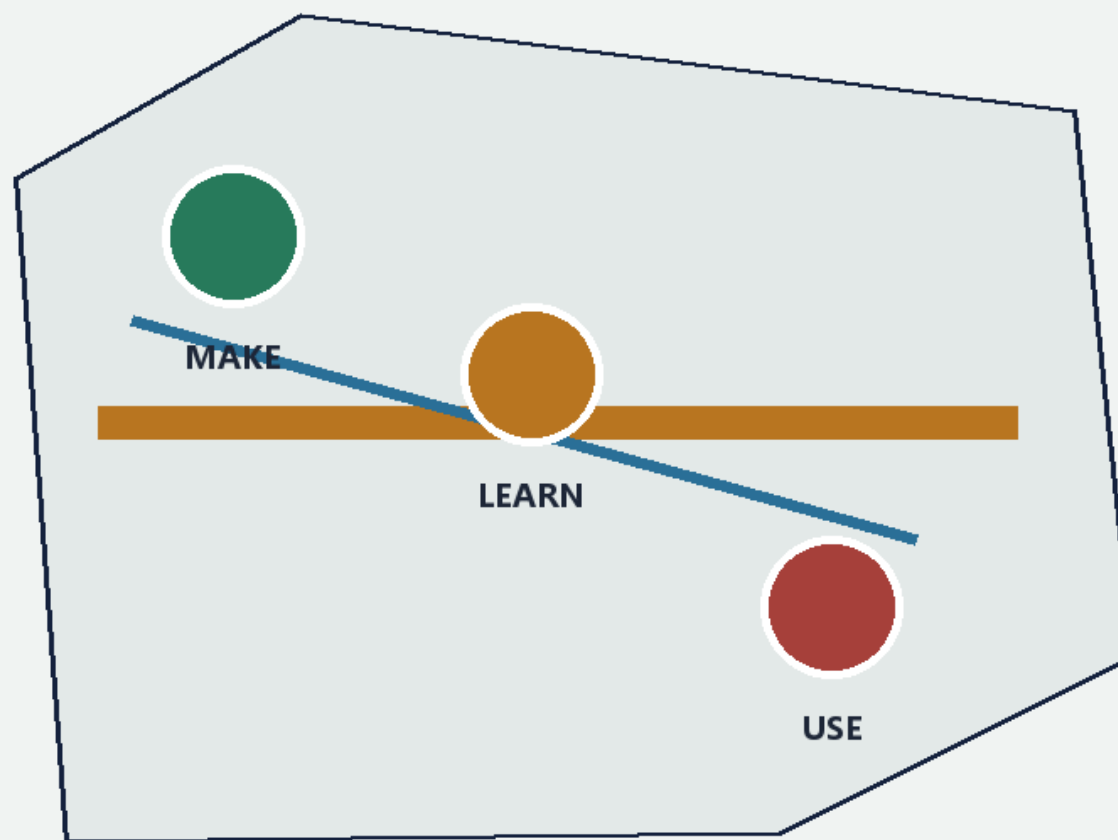

FROM FUNCTIONAL ZONES TO HANDOFF-READY CIVIC CRAFT

Generated from the submitted geometry, metrics, matrices and self-check

Concept design. Provisional public-data envelope; not a statutory boundary or engineering basis.

CONCEPT STRUCTURE

Not a parcel map; diagram of functions and relations only.

创新制造

以研发试验、标准讨论、原型展示为方向，不预设容积率、高度或建设规模。

公共底盘

连续绿地、遮荫停留和可达服务点构成低门槛的日常公共空间。

服务转化

以咨询、展示、协作、维修和学习支持连接企业与社区。

住区支撑

以社区服务和无障碍替代路径保证不使用智能服务的人也能获得同等服务。

THREE WORKSHOPS AND TEN SCENARIOS

MAKE, LEARN, USE; every service has human handoff and stop conditions

THREE WORKSHOPS: MAKE, LEARN, USE

Generated from the submitted geometry, metrics, matrices and self-check

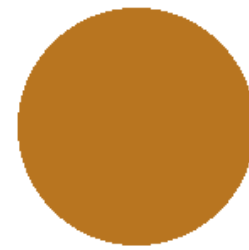

Concept design. Provisional public-data envelope; not a statutory boundary or engineering basis.

造器坊 / MAKE

众智园: 原型工场、可信测试、标准对话和共享展示。以可测试的服务而非封闭园区形象组织空间。

Concept location; verify with official geometry

授业坊 / LEARN

AI 原点社区: 公开课程、开源协作、人才服务和成果解释。让学习者、居民与团队共享同一张服务桌。

Concept location; verify with official geometry

用世坊 / USE

大钟寺: 应用验证、设备维护、商服协同和使用复盘。每项服务都有维护人、人工接管与停止条件。

Concept location; verify with official geometry

三处重点区的公布面积只作为任务尺度；图示矩形并非精确范围。

MOBILITY, BLUE-GREEN SPACE AND IMPLEMENTATION GATES

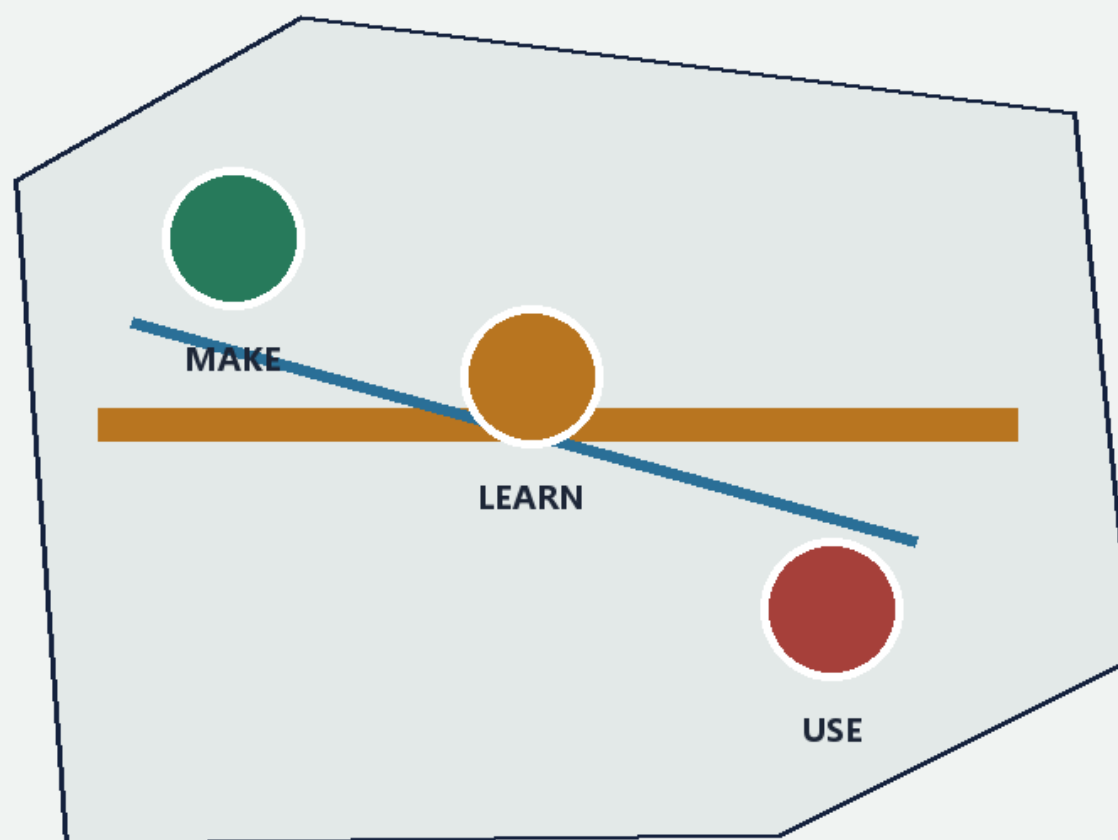

READ THE SITE, RUN SMALL TESTS, THEN HAND OFF

THE CRAFT LINE: WALKABILITY, BLUE-GREEN SPACE, AND PUBLIC

Generated from the submitted geometry, metrics, matrices and self-check
Concept design. Provisional public-data envelope; not a statutory boundary or engineering basis.

CONCEPT STRUCTURE

Not a parcel map; diagram of functions and relations only.

步行优先

把换乘、停留、校园周边和公园入口作为待现场复核的慢行改善对象。

蓝绿降温

以连续植被、雨洪友好和可停留空间构成环境韧性建议。

服务可达

线下服务台、纸质导引与人工帮助是数字服务的同等入口。

轻量试点

任何设备部署均以可撤回、小范围、可观察和人工复盘为前提。

METRICS AND EVIDENCE CHAIN

GEOMETRY, METRICS, MATRICES, DRAWINGS AND SELF-CHECK STAY CONSISTENT

RECALCULABLE METRICS AND IMPLEMENTATION GATES

Generated from the submitted geometry, metrics, matrices and self-check

Concept design. Provisional public-data envelope; not a statutory boundary or engineering basis.

FOUR RECALCULABLE VALUES

设计包把临时设计范围、概念建筑基底、绿地与公共空间比例、重点区数量写入 metrics.json；计算基于 EPSG:4548。面积与比例描述的是提交几何，不等同于法定控制指标。

Provisional envelope

11.41 km²

Green ratio

12.34%

Public-space ratio

7.33%

Key areas

3

THREE IMPLEMENTATION GATES

第一道：官方边界、权属和控制规资料复核；第二道：公共安全、无障碍、隐私和运维责任审查；第三道：小范围可撤回试点和公众反馈复盘。未通过任何一道门槛，不进入建设或常态运营。
