

CO-GROWTH JINGZHANG

An AI innovation and living belt for the next generation

THE LONG LINE

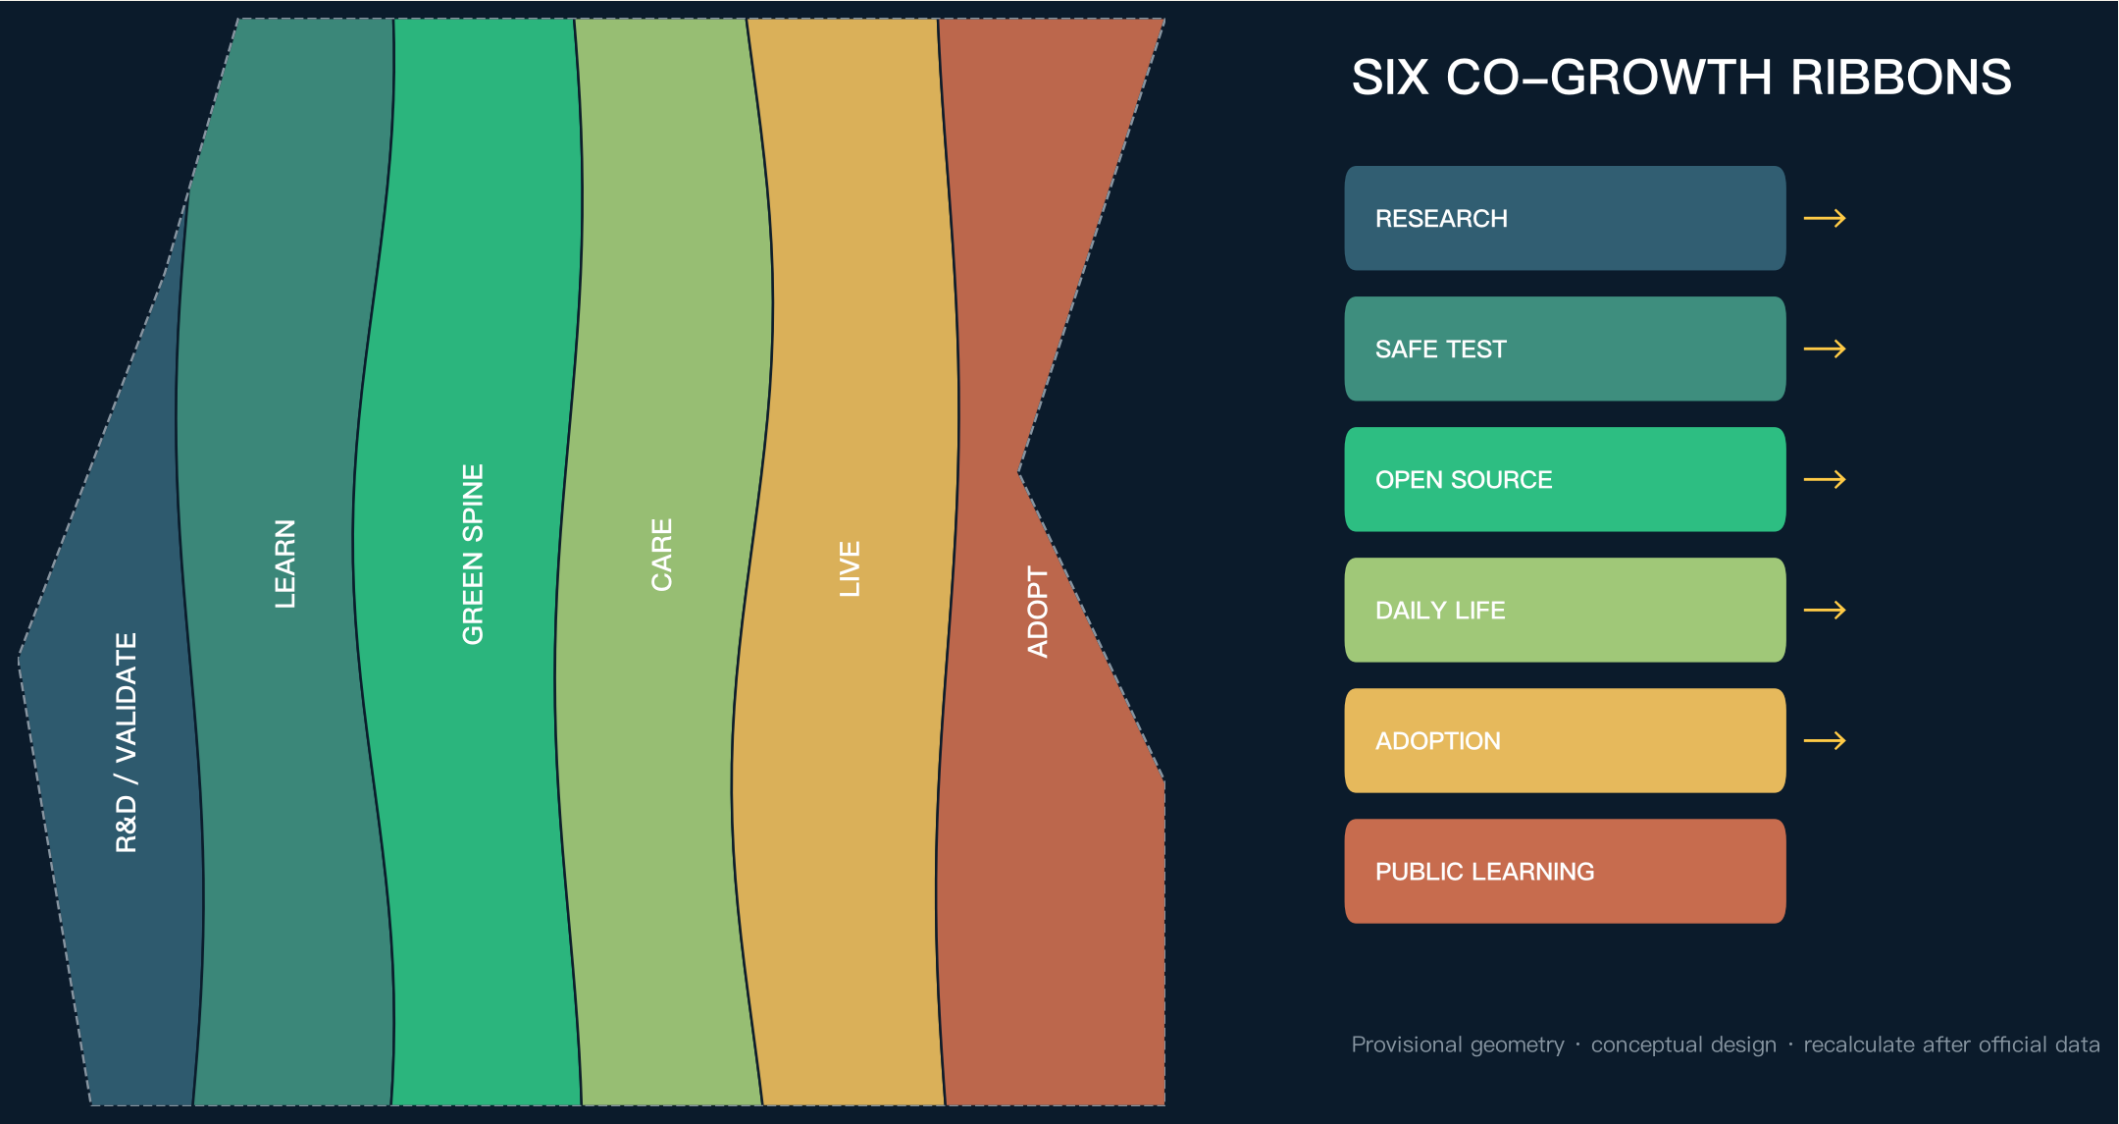

Technology and people mature together: research, safe testing, family life, public adoption and open review.

STRUCTURE

One spine · Three courts · Two wings · Twelve co-growth nodes

EVIDENCE RULE

No official controls, no false precision.

SIX RIBBONS

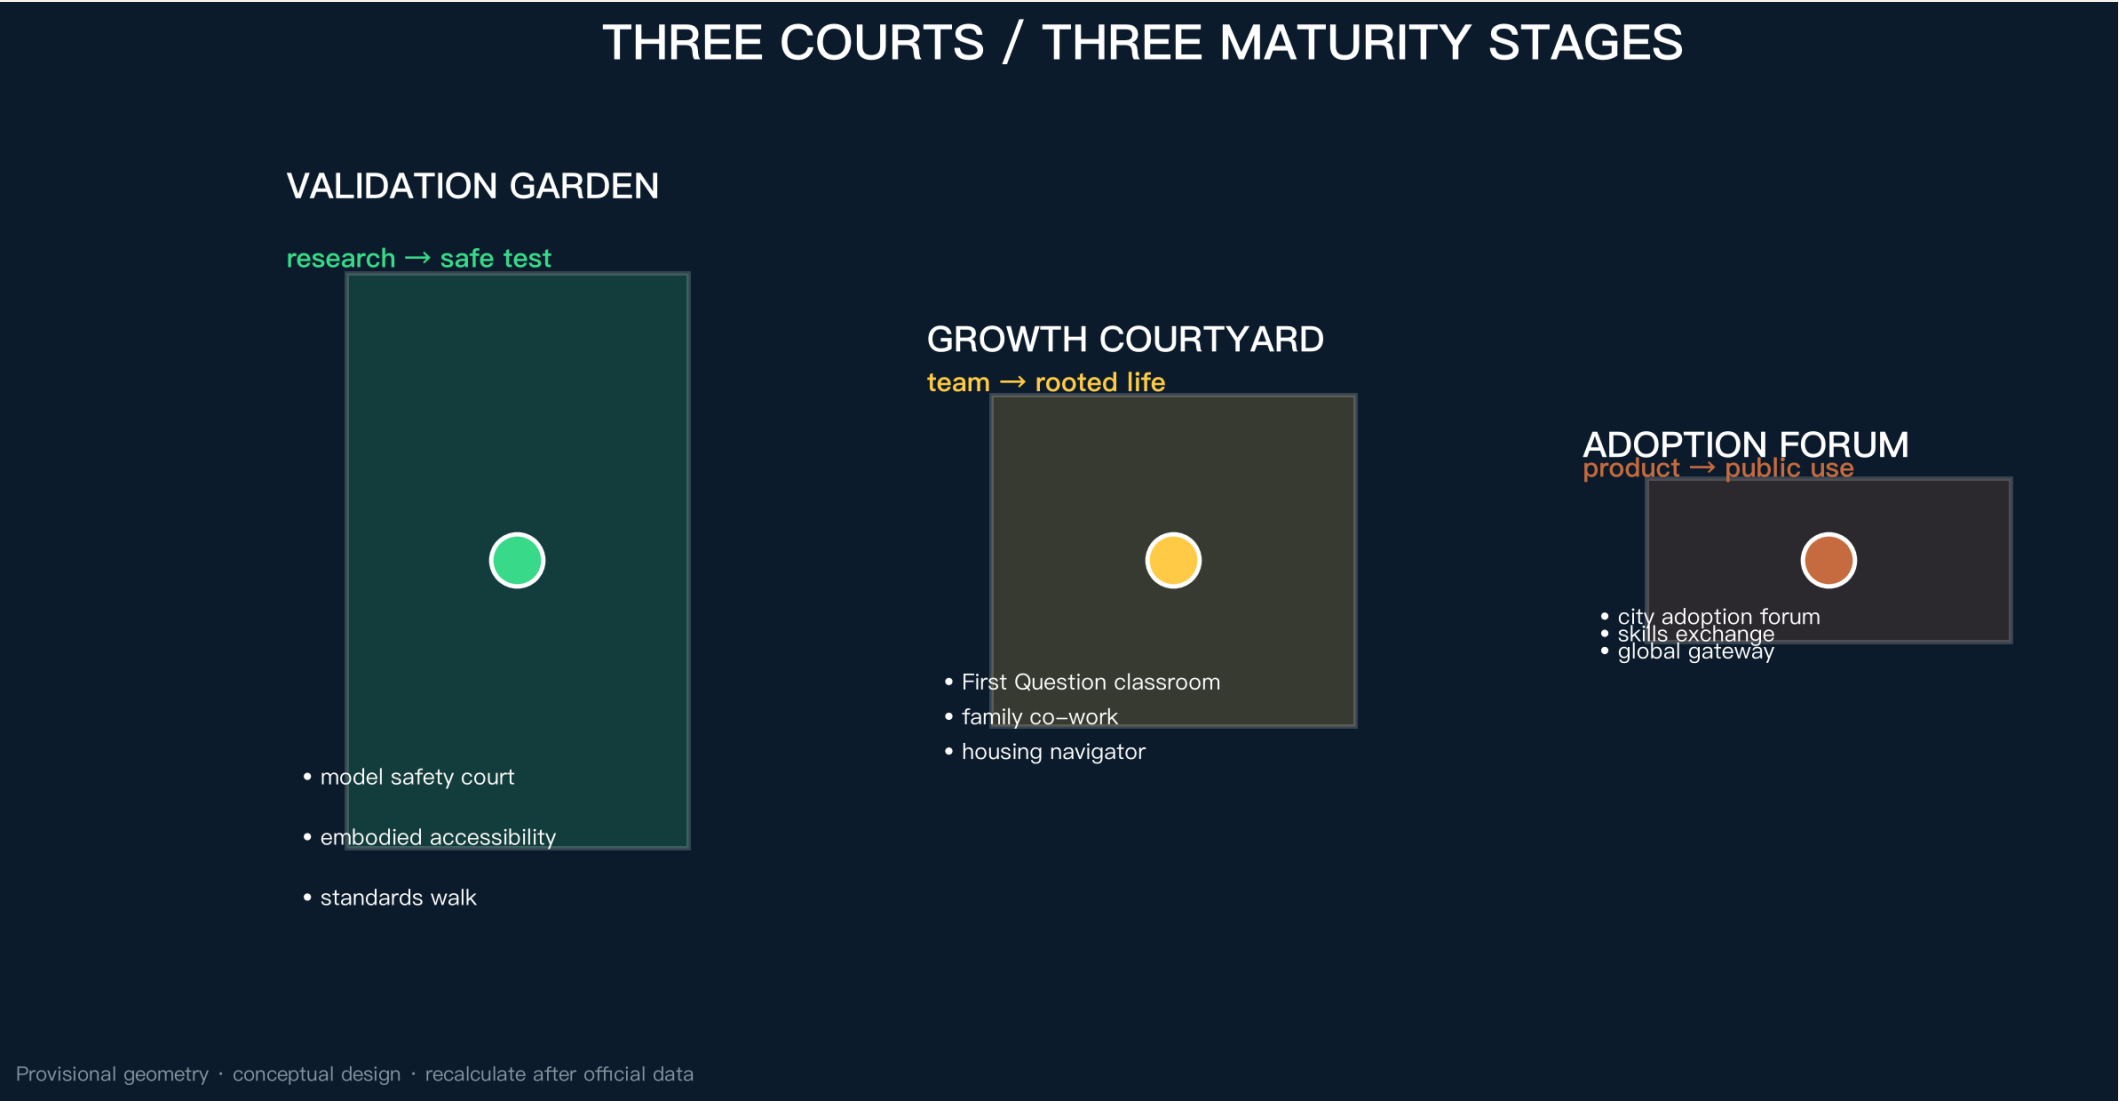

Research, public learning, green spine, care, housing and adoption form a topology-safe conceptual partition.

THREE SCALES

43.6 sq km research frame; about 11.4 sq km design frame; three provisional key areas.

BOUNDARY

The submitted polygon supports visualization and intake only.

VALIDATION GARDEN

Research → safe testing; controlled validation before public exposure.

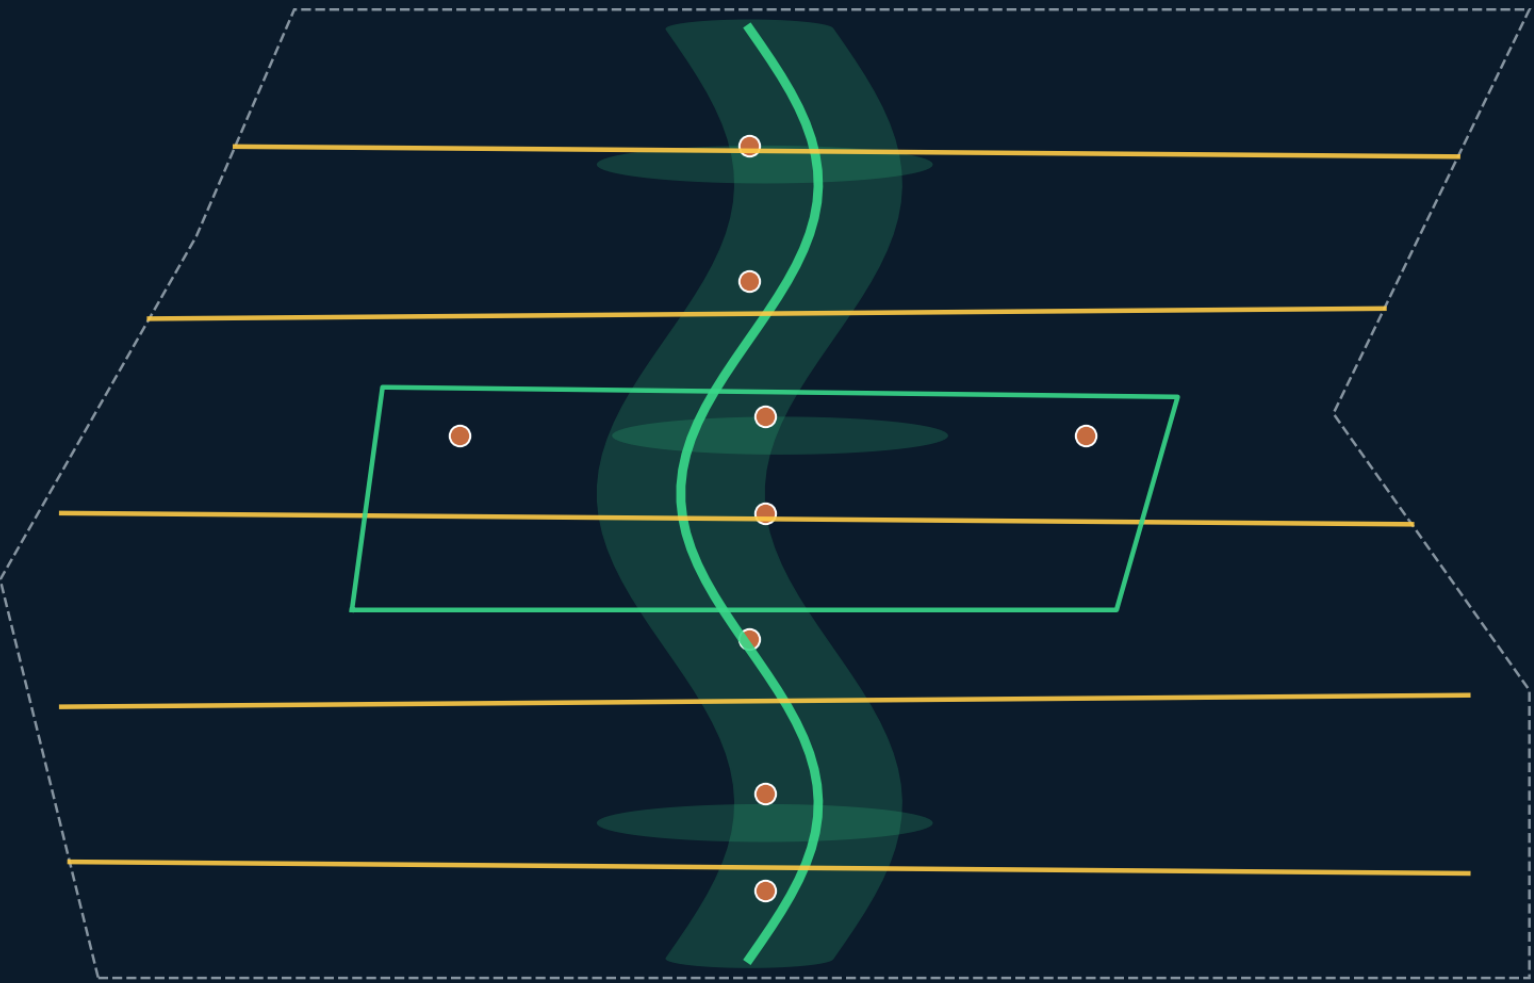

GROWTH COURTYARD

Team → rooted life; learning, housing navigation and family co-work.

ADOPTION FORUM

Product → public use; transparent feedback, handoff and exit.

FAMILY-SAFE MOBILITY + BLUE-GREEN COMMONS

- co-growth spine
- east-west stitch
- public-service room

Provisional geometry · conceptual design · recalculate after official data

FAMILY-SAFE LOOP

Children, wheelchairs, pushchairs, bicycles and older walking speeds define continuity.

PUBLIC ROOMS

Learning, care, standards, exchange and human handoff become visible civic infrastructure.

PENDING

Road redlines, sections, traffic, utilities and safety review remain required.

EVIDENCE BEFORE SCALE

Pending: official polygons · controls · roads · buildings · ownership · heritage · utilities

Provisional geometry · conceptual design · recalculate after official data

RECALCULATE

Every known spatial metric derives from submitted GeoJSON in EPSG:4548.

KEEP UNKNOWN

FAR, height, total floor area and road-area ratio remain unknown.

HUMAN GATES

Rights, safety, evidence and public review precede scale-up.

Three controlled industry-validation concepts; every service keeps a non-AI path, human review and exit.

01

First Question classroom

Human review · non-AI path · exit

02

Research-to-real sandbox

Human review · non-AI path · exit

03

Model safety court

Human review · non-AI path · exit

04

Embodied accessibility street

Human review · non-AI path · exit

05

Youth housing navigator

Human review · non-AI path · exit

06

Family co-work

Human review · non-AI path · exit

07

Family-safe mobility

Human review · non-AI path · exit

08

Intergenerational skills exchange

Human review · non-AI path · exit

09

Health navigator

Human review · non-AI path · exit

10

Heritage guide

Human review · non-AI path · exit

11

City adoption forum

Human review · non-AI path · exit

12

Global Co-Growth Week

Human review · non-AI path · exit
