7	3	5	3
智轴空间	创新引擎	朝圣地标	三站三形

Heritage park as the public display layer of the innovation chain.
Tested · Translated · Adopted · Seen throughout.
English display counterpart · conceptual only · not a statutory plan

People-first Blueprint · Everyday AI

Seven story lines · three verbs (recalculate / stop / continue) · twelve scenario cards.

A blueprint that can be recalculated, stopped, and continued

TECH × HUMANITIES MEET HERE

People first · tech and humanities meet here

Humanities slope (an ordinary day) × tech slope (reliable · trustworthy · controllable AI) → merge ignition → clear four urban slopes: information / action / service / participation

Make the Jing–Zhang heritage a public display and capability layer of the innovation chain: verified · translated · adopted · seen throughout — usable, correctable, and exit-able on its own

01	02	03	04	05	06	07
Geographic space	Population scale	Mobility	Industry	Livelihood	Talent	Capital
11.41 km²	District calibration	9.1 km	Three engines · seven gates	2 scenarios	7 personas	West-wing platform
One axis · two wings · seven spaces · three habitats	10.1M · seven talent personas	Openline · 9 stitches · walk-first	Verify → translate → adopt	East wing intake · offline-usable · exit key	Fellow · maintainer · short-stay · co-create	Activate after Validation · milestone-bound
Provisional boundary calc — not an official red line	Do not downscale district pop to the site	Station coverage stays unknown	Passport gates — display ≠ validation	4 controlled validations	Voluntary personas — no tracking	No rent-subsidy race

Three verbs: tell the space–people story clearly — and keep a stop key and recalc pipeline

Recalculable

Same-source geometry → EPSG:4548 metrics → figures / PDF · HTML → six self-checks

Stoppable

Stronger the boundary lines to stop keys; capital stays dark until the gate; humans own highlights

Continuable

Highlights · three-station loop → global node; design roadmap — not investment / approval / build comm

Success: not how many screens were built, but whether research can be verified, public issues closed, and failures recorded honestly.

Known vs submitted geometry

Boundary · land cover · concept green/public
Slow mobility · phasing · counts

Unknown vs official data pending

FAR · mass · height · density
Station coverage · ridership · engineering

The century-old railway is not only memorialized.
The next century of public intelligence is co-submitted here.

Belt Brand VI

Core identity · application mockups. Place brand — not drawing layout.

OPENLINE 100 Visual Identity

Tech rail × Humanities rail → curved symmetrical ren. The center is people, not machines.

BELT BRAND VI · NOT DRAWING LAYOUT · agent.1

A Mark construction · Tech × Humanities → ren

Exact mirror of ren: steep apex, open feet, curves tuck inward vs the chord — not an be-bulge.

Left = technology (Warm Ink #2C241C) · Right = humanities (Umber #8B5342), equal width
Shape matches ren: steep join at top, flare below — curves bend inward vs chord; never be-bulge
Centerlines and stroke widths are exact mirrors · clear space is 0.5x mark height

B Color system

Warm Ink

#2C241C

Tech rail / mark left

Signal Umber

#8B5342

Humanities rail · equal width

Axis Steel

#2F455C

Axis & Interfaces

Ballast Paper

#F7F8F7

Quiet ground

Umber = signal blocks, not wallpaper; Warm Ink = cold pure black.

C Naming lockups

SPACE LAYER

Tech × Humanities

Suzhou + 1-2-3
mid-range language

ZH: Song / Heib for space names · EN: geometric sans for OPENLINE
Wayfinding: bilingual · high contrast · braille/tactile · paper fallback
Clear trademark / type / Suzhou-numeral rights before formal use.

E Do / Don't

DO: curved dual rails as ren · equal-width Warm Ink / Umber · garden base · failure cases visible · reversible installs

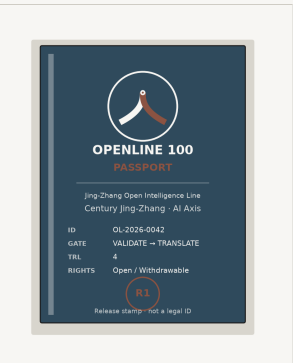

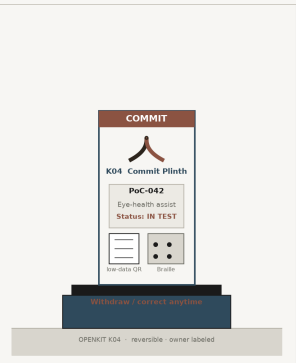

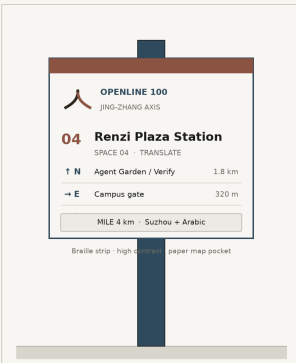

DON'T: straight-line stems · 0-1 letter-games · neon wash · robot statues · swap rail colors · confuse belt brand with cultural wayfinding (agent.5)

Concept VI direction only — not a registered trademark or procured design system.

VI Applications: Sign · Commit Plinth · Passport

CONCEPT MOCKUPS · NOT PROCURED PRODUCTS

Three proof points that the belt brand can live outdoors, on street furniture, and in the mechanism layer.

01 WAYFINDING

Bilingual totem · mid-age · tactile

Chinese characters, English, Arabic, or legal ID documents.

02 COMMIT PLINTH

K04 pedestal · exhibit · withdraw

Umber commit band, low-data QR, braille, owner on base.

03 PASSPORT COVER

Mechanism lockup · Release seal

OPENLINE 100 primary, Chinese axis as secondary line.

Case Comparison · Mechanism Translation

Not "Haidian already adopted." Each row: extract · this scheme translates · why it fits THIS project · do not copy.

agent.2 · case_study_table · v0.5.7

Case	Mechanism extracted	This scheme translates	Why it fits THIS project	Do NOT copy
Boston The Engine	Tech/IP/market/finance readiness blueprint + stage gates	On-site engineering managers + passport stage gates	Seven-gate chain needs human translation, not desk parks	Desk-park model: copy campus brand
Paris Station F	Rail freight hall → startup campus; programs + shared services under one roof	Heritage rail stock as innovation host; open programs on park & stations, not tear-down	Jing-Zhang is a rail heritage line—reuse & program first, same genus as Halle Freyssinet	Copy campus scale, partner logos, or claim signed Station F ties
Nesta Challenge	Define problem → open call → staged reward & support → judge by outcome	City Pull Request + scene vouchers; data & procurement run as separate procedures	East-wing demand intake needs a challenge grammar, not a tenant list	Import prize money / contracts; Sidewalk-style data-for-space deals
Singapore 100E	Real problem owners + engineers + PMs co-deliver AI PoC/NVP	100 City PMs with named asker / translator / tester seats on passport	AI-specific co-delivery fills the Validation→ Adoption gap on-axis	Import their datasets, co-funding, or contracts
Helsinki Maria 01	Reuse hospital stock; phase expansion; operate first	Operate → light retrofit → build last on heritage park	Site package forbids early FAR/tear-down; heritage park is the host layer	Fake heritage pastiche; tear-down first
Seoul AI Hub	City-founded multi-node R&D + incubate + international	Microgrants + public- value thresholds before scale; three-station nodes	Three engines need multi- node logic; prevent resource capture by top firms only	Claim compute capacity or exclusive firm deals
Tsukuba	Industry-academia-gov- finance + urban living lab	Linear public commons + Commit Pledges to fix "strong labs, weak streets"	Haidian density is high; the gap is walkable public display, not another closed campus	Science-city island with closed streets

Scheme translation only—not local adoption evidence. Medical first-users anchor to Haidian public AI+health refs, not a foreign charter. Sources in sources.json.

v0.5.7

page.

Three Factor Mechanisms · Capital / Compute / Data

ONE PAGE · CHECKABLE · NO FAKE COMMITMENTS

Each factor: who asks · entry gate · service stack · exit trigger. Capital only after validation gate.

01 CAPITAL West-wing Capital Dock	02 COMPUTE Zhongzhiyuan low-carbon test window	03 DATA Passport + open-scene protocol
Who asks Founders after Validation pass; city order pilots needing first invoice	Who asks Teams needing trusted energy/carbon evidence before scale	Who asks Problem owners, maintainers, pilots needing lawful data paths
Entry gate Passport: Validation PASS · model/data card · public-value note · next milestone	Entry gate Facility-level metering plan + fire/energy/cyber pre-clear	Entry gate Purpose limit · minimize · human responsible · appeal path on passport
Stack PoC voucher · scene first-order · IP pledge advisory · industry capital · patient fund	Stack Shared test slots · energy display (SC-07) · heat-recovery study · end-side reuse first	Stack Data/model cards · synthetic/red-team sets · revoke/correct rights · paper offline
Binding Each yuan → next gate only; no rent-subsidy race	Binding No machine-room build without net environmental gain	Binding No personal trajectories for pretty heatmaps; no auto high-risk decisions
Exit Two cycles: no maintainer / no real demand / safety fail → leave pool	Exit Fire/energy boundary hit or no verified benefit → stay exhibit-only	Exit Appeal over line / purpose creep / unauthorized sharing → freeze + audit

Concept mechanisms only — not approved funding, compute capacity, or data-sharing agreements.

v0.5.4

Eight Factor Master Table

Landing · entry gate · exit/stop — same grammar for all eight rows. Concept only.

Eight Factor Master Table

agent.2 · SAME GRAMMAR · CHECKABLE

Each row answers: WHERE it lands · WHAT must be true to enter · WHEN it stops. Aligned to passport gates; concept only.

Factor	Landing (where / who)	Entry gate (must be true)	Exit / stop (trigger)
Land	Provisional boundary (~11.4 km²) + topology LU-001: 0802 R&D · 0804 education · 0806 health · 05 services 0701 living · 0702 civic · 0803 culture · 1401 green. Intensity only as S1–S3 sensitivity envelopes.	No FAR / height / density claim until control-plan, tenure and building survey are in hand. Any intensity scenario must state assumption, required data, and test question—no locked pick.	Official controls / tenure arrive → replace constraint layer and recompute all nine GeoJSON + metrics. Wrong class used as statutory → void.
Space	Seven axis spaces + three station forms (Switchback / Renzi / Four-Way Stitch). OPENKIT K01–K08 on Developer Walk & landmarks; 3+6 stitch interfaces.	Before fixed install: heritage mapping, fire, access, and owner+patrol+removal trigger on each kit piece. Temporary first.	Two seasons unmaintained · blocks free passage · event capture of commons → cut slots & remove. Failure reasons enter Failure Cabinet.
Industry	N Zhongzhiyuan = Validation×Accept; M Origin = Translate×PoC/IP/incubate; S Dazhongsi = Adopt×order feedback; W wing = IP/engineering after test gate.	Passport seats filled: asker→translator→service→test→incubate/capital→feedback. Station KPIs not duplicated; capital after Validation only.	Missing critical seat → no “closed loop” claim. Two Release cycles: no demand / no maintainer / safety fail → leave resource pool.
Capital	West-wing Capital Dock (services wing). Stack: PoC voucher · scene first-order · IP-pledge advisory · industry capital · patient fund. Not a rent-subsidy race.	Passport: Validation PASS · model/data card · public-value note · named next milestone. Each yuan binds only the next gate.	Two cycles no maintainer / no real demander / safety miss → exit pool. Early capital before Validation → revoke activation.
Talent	Seven personas across three stations: Fellow rooms (N) · IP clinic & short-stay (M) · international desk (all) · community compilers. SC-11 collaboration passport at service desks.	Voluntary language/skill/interest only. No mobility tracking · no person scoring. High-risk roles keep human responsibility.	Harassment / match bias appeal over line → freeze account + human review. Forced entrepreneurship pitch → stop Fellow use.
Compute	Zhongzhiyuan indoor + Qinghe interface: shared test slots · SC-07 verified facility energy/heat display · end-side reuse first. No claimed MW capacity.	Facility metering plan + fire / energy / cyber pre-clear. Independent carbon check for any public claim. Net environmental gain required before any machine-room engineering.	Boundary hit or no verified benefit → exhibit-only, no build. Unverified load shown as “performance” → pull display.
Data	One project passport + open-scene protocol along the axis. Model/data cards; synthetic & red-team sets for public tests; paper offline fallback at Commit Plinths.	Purpose limit · minimize · human responsible · appeal path on passport before any pilot. No personal trajectories for heatmaps; no auto high-risk decisions.	Purpose creep / unauthorized share / appeal over line → freeze + audit. Contributor revoke/correct must be honored.
Scenario	12 street cards: SC-02–05 controlled validations (health/edu/mobility/commerce); SC-12 shared red-team infra. Demand intake = Xiaoyuehe wing → City Pull Request → station demand gates.	Card complete: place · proposed owner · data/human boundary · KPI · stop key. Ethics/safety/procurement/data review before formal pilot (esp. A–D).	Stop key tripped → pause / cut slots / withdraw. Reasons logged to passport + Failure Cabinet. Major unrepaired SC-12 issue → no city pilot.

Scenario Pin Map

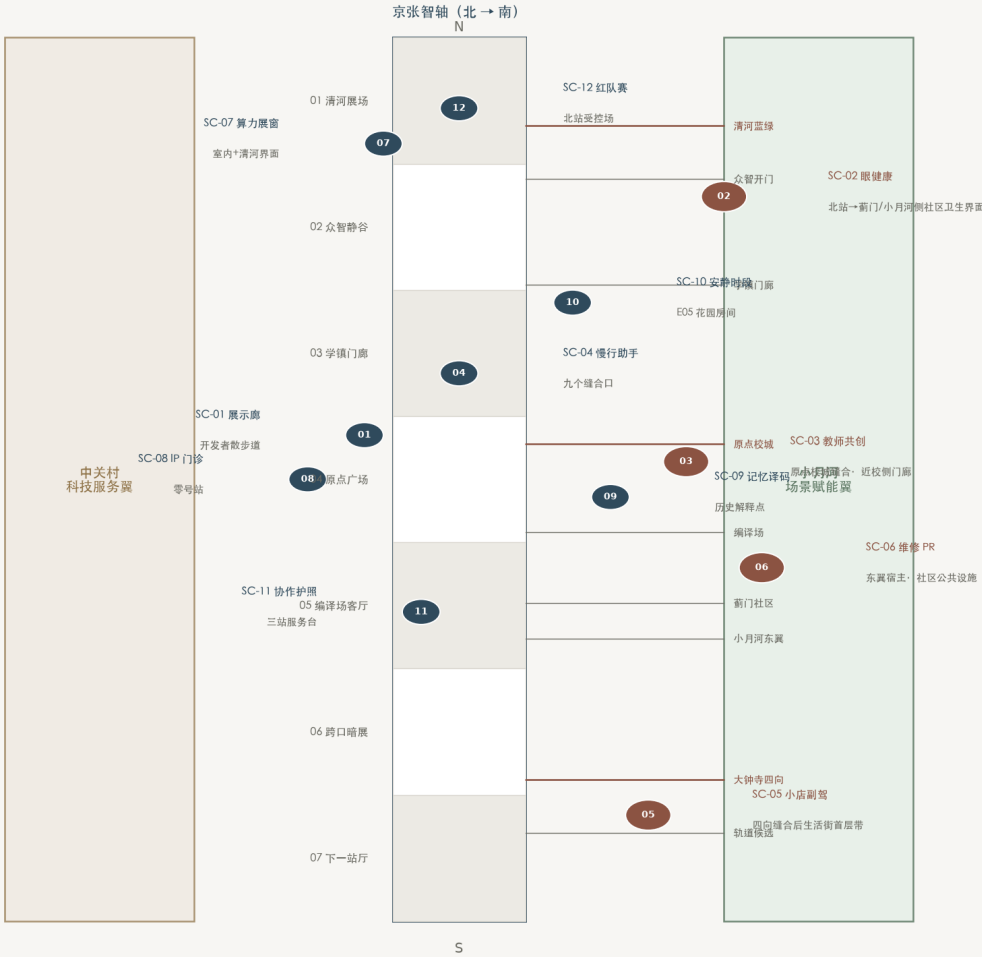

Twelve SC on seven spaces · nine stitches · east wing. Street pins for health / education / commerce.

OPENLINE 100 · EN

Scenario Pin Map

场景钉点图 · 落到街区

十二张 SC 钉到七空间 · 九缝合 · 小月河东翼。概念点位，不写门牌、诊所名或学校名。

agent.3 · 概念点位 · v0.5.8

验证 A SC-02

街区钉：北站腔前门/小月河日常缝合到东侧社区卫生服务界面；
不写具体诊所名，深化时用公开名录替换。

验证 B SC-03

街区钉：原点校核战略缝合的近校侧门廊界面；
教师共创室落在校核接口，不宣称校内房间权属。

验证 D SC-05

街区钉：大钟寺四向步行缝合之后的生活街首层带；
店招界面，不是封闭展厅。

钉点 = 方案空间/接口上的概念优先序。官方地块、卫生/教育设施公开名录与店铺普查到位后整体替换。禁止伪造门牌。

Twelve SC pins on seven spaces · nine stitches · Xiaoyuehe east wing.

Concept pins — not parcel IDs or clinic names.
English display counterpart · conceptual only · not a statutory plan

数据示意 · 不构成已确定活动 · 每一站仍服从其场景卡的目的限定 · 人工负责与停止键 · 不写门诊 · 不写真实数据 ·

v0.5.8

Three personas · five to six stops · stop keys stay on.
Narrative only — not a scheduled program.
English display counterpart · conceptual only · not a statutory plan

OPENLINE 100 · EN

Twelve Scenario Cards

十二张场景卡：落到街区，也留停止键

12 SCENARIO CARDS / 4 CONTROLLED VALIDATIONS (A-D)

每张卡回答四件事：在哪发生 · 谁负责 · 数据与人工边界 · 怎样停止 · SC-02~05 为四个受控验证；SC-12 是共性安全基础设施 · 不计入应用验证 ·

SC-01 文化+科研 开源成果展示廊 落点 原点 · 开发数据步骤 (E04) 边界 授权公开 · 可撤回更新 停止 无维护或授权撤回	SC-02 AI+医疗 验证 A 基层健康体检协作站 落点 北站→南门/小月河侧社区共生界画 边界 医生复核 · 不自动诊断 停止 临床安全/诉讼风险	SC-03 AI+教育 验证 B 教师备课共创室 落点 原点/校城融合 · 近校侧门廊 边界 教师备课 · 不自动处分 停止 错误或退出投诉风险	SC-04 AI+交通 验证 C 无感但非监控慢行助手 落点 九个绿台口 (3 站响+6 日常) 边界 匿名聚合 · 不执法 停止 重识别风险或高误报
SC-05 AI+商业 验证 D 小店经营副驾驶 落点 双向缝合后生活街侧画景 边界 商户自愿 · 数据数据数据 停止 数据定价或净收益下降	SC-06 AI+治理 城市维修 Pull Request 落点 小月河东岸 · 社区公共设施 边界 AI 只分类 · 人工接单 停止 分类错误长期不改修	SC-07 AI+能源 低核算力热回收展窗 落点 众智回室内 边界 设备数据数据 · 先测后建 停止 未获数据/消防条件	SC-08 AI+专业服务 法律与知识产权门诊 落点 零号站 边界 执业者出具意见 停止 数据意见被误认正式意见
SC-09 AI+文化 城市记忆译码器 落点 历史解节点 边界 数据数据 · 文保数据 停止 文保数据未满足	SC-10 AI+公共空间 公园安静时段调度 落点 五个常规画景 边界 人工决定 · 自由开放优先 停止 画景/保景投诉风险	SC-11 AI+人才服务 国际访客协作护照 落点 三站服务台 边界 自愿数据 · 不记档案 停止 画景/保景投诉风险	SC-12 安全基础设施 智能体花园红队赛 落点 北站受控测试场 边界 合成任务 · 分修公开 停止 重大问题未修复不得进入城市试点
共同底线 数据最小化 · 目的限定 · 人工负责 · 可解释 · 可申诉 · 可退出	受控验证 A-D 医疗 / 教育 / 交通 / 商业数据进入正式试点前需经过处理 · 数据与专业审查	SC-12 红队 合成任务安全 · 重大问题未修复不得进入城市试点	

Each card: place · responsibility boundary · stop condition.
SC-02~05 are controlled validations; SC-12 is shared safety infrastructure.
English display counterpart · conceptual only · not a statutory plan

Five Landmarks Master Table

Public act · street pin · kit · honor/exit — same grammar as scenario pins.

Five Pilgrimage Landmarks · Master Table

agent.4 · BEHAVIOR, NOT MEGALITH · v0.5.9

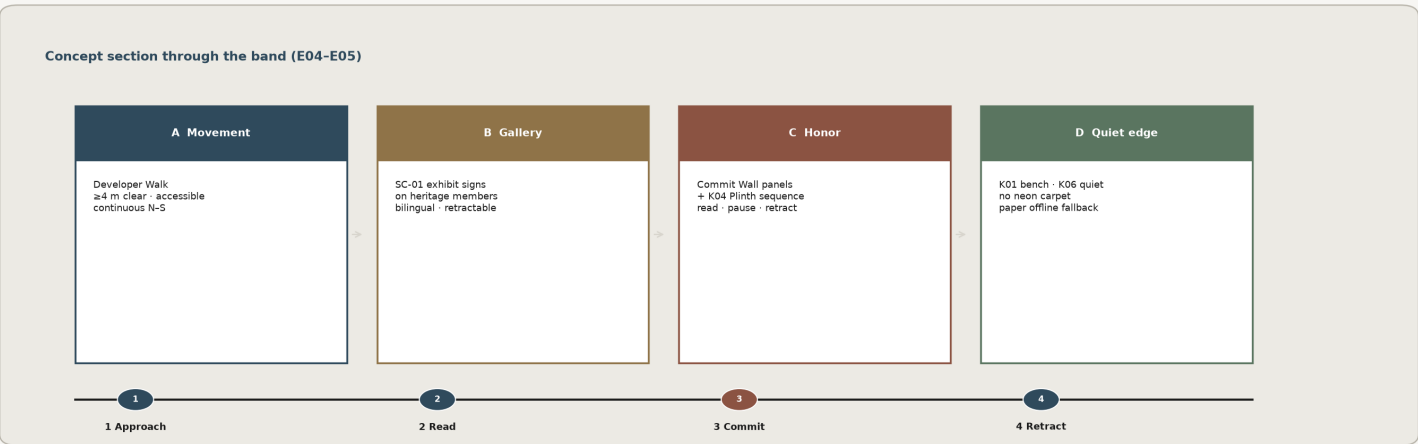

Not sculptures. Each landmark = one public act · a street pin · OPENKIT parts · honor/exit rule.

Landmark	Public act	Street pin	Kit / carrier	Honor · exit
01 Agent Garden	Make trusted testing publicly intelligible	North Station E01 indoor sensitive / outdoor explainable	K05-K07 · Switchback Loop form	Watch ≠ validated. Fail gate → switchback. Two seasons empty → remove
02 Station Zero	Publish PoC / IP / failure archive from 0→1	Origin E04 Renzi Plaza frontage	K04 Plinth · K08 frame · Renzi Plaza form	Failure Cabinet on. Low use → revert to commons
03 City Commit Wall	Honor reproducible contribution — not funding rank	Developer Walk mid-band (E04-E05)	K04 Commit Plinth sequence + wall panels	Voluntary · retractable · correctable. Dispute → take down
04 Commons Compiler	Compile city problems with builders in one public table	E05 Compiler living room / everyday stitch	K01 bench · K08 pop-up · paper fallback	Not opinion box. No owner → pause intake
05 Next Station Hall	Adopt into everyday city + write feedback to passport	South E07 after four-way walk stitch	K02-K03 · K08 night market frames	Orders & stop reasons logged. Noise/fire miss → cut nights

Contribution Visibility Band

Developer Walk + SC-01 open-source gallery + City Commit Wall become ONE band — not three separate props.

WALK · GALLERY · HONOR WALL · v0.5.9

Rank by Reproducible contribution · public value · years maintained — never funding size	Must keep Voluntary wall · appeal path · Failure Cabinet adjacent · offline paper twin	Must stop Unmaintained two seasons · contested honor unresolved · heritage/fire uncleared
--	--	---

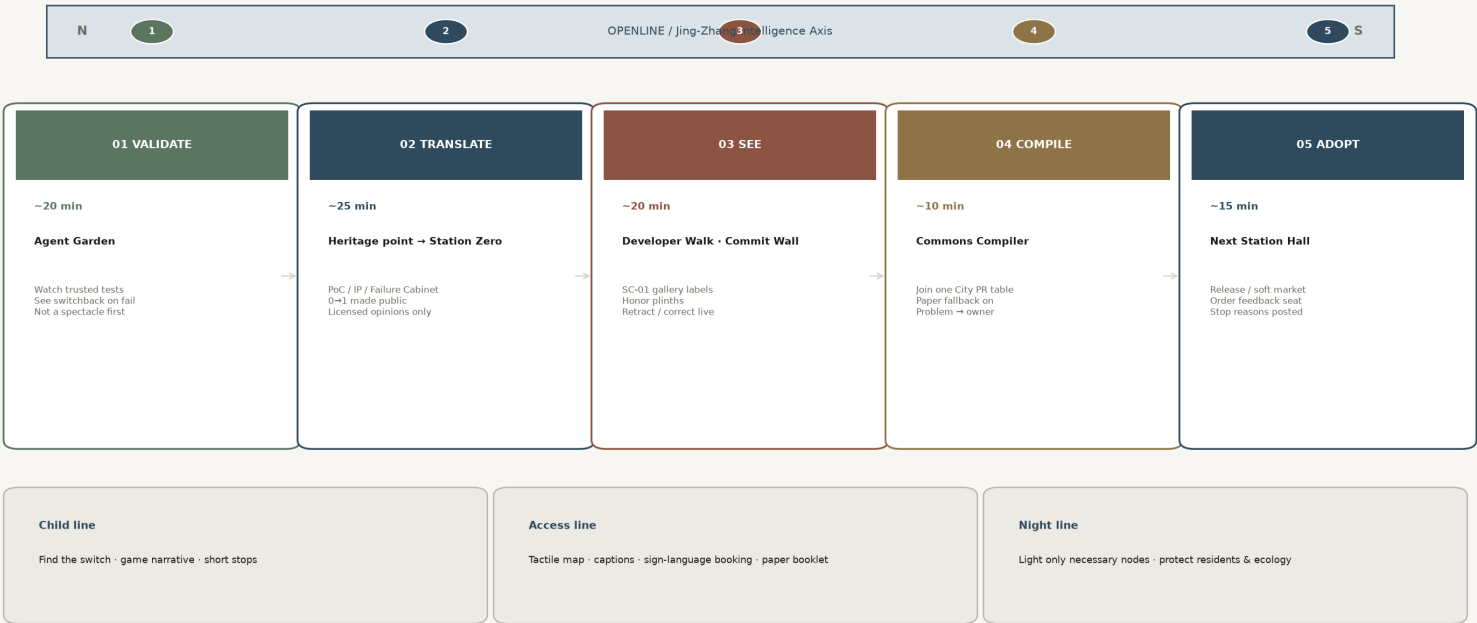

Concept section — not engineering. Fixed install only after heritage survey, fire and access clearance.

v0.5.9

Pilgrimage Path · ~90 min concept tour

Same spine as the innovation chain. Duration is curatorial rhythm — recalculate after official entries and walks.

VALIDATE → TRANSLATE → SEE → ADOPT · v0.5.9

Concept pilgrimage — not a timed product. Fixed facilities near heritage need survey + approval first. [assumption:A-MOTIF-001] [source:QINGHUAYUAN-HERITAGE]

v0.5.9

Three Cultures · One Narrative Table

agent.5 · RAIL × ZHONGGUANCUN × AI · v0.5.10

Not three slogans. Each culture = spirit · public anchor · street pin · readable object · do-not.

Layer	Core spirit	Public anchor	Street pin	Readable object	Do not
RAIL Railway culture	Autonomous survey, design, build, manage (1909)	Jing-Zhang history · Qinglongqiao switchback wisdom (public record)	Suzhou-numeral milestones · Renzi / Switchback motifs	Heritage members as exhibits · bilingual mileage dual-notation	False antiquity · false heritage purple lines · neon memorial
CODE Zhongguancun culture	Dare to try · fail & restart · lab=venture · open forums	Public ZGC innovation memory (street / campus / forum culture)	Origin school-city stitch · Failure Cabinet · west-wing service door	PoC / IP path boards · maintainer microgrant notes · restart stories	Only IP/capital wing as 'culture' · hero myth without failure
COMMONS AI new culture	Verify · translate · adopt · be seen · retract / correct	Open source · model cards · City PR · stop keys on	Commit Wall · SC-01 gallery · Next Station Hall feedback seat	Commit Plinth · passport Release · paper offline twin	Robot statues · shown= validated · forced portrait / surveillance

agent.5 closes the triangle: Zhongguancun is a cultural layer, not only the west service wing. VI (agent.1) ≠ cultural wayfinding symbols.

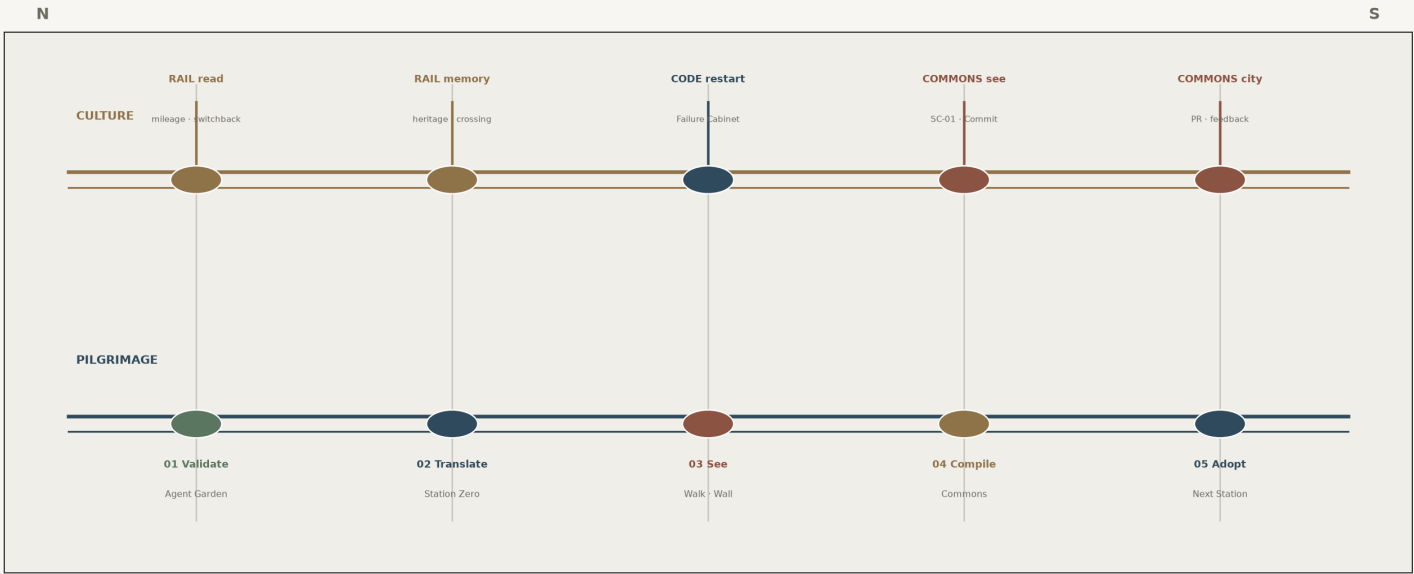

v0.5.10

ards.

Dual-Rail Score · Culture over Pilgrimage

agent.5 · SCORE NOT CARDS · v0.5.12

One spine, two staves. Upper = Rail→Code→Commons. Lower = validate→adopt. Measure lines = stops.

agent.4 validate → translate → see → adopt

agent.5 Rail → Code → Commons

agent.4 pilgrimage ≠ agent.5 culture — same axis, different stave.

v0.5.12

Cultural Nodes Catalog

Ten stops C01–C10: layer · pin · carrier · clearance/exit. Feeds Commit Walk / Passport.

Cultural Nodes Catalog · 10 checkable stops

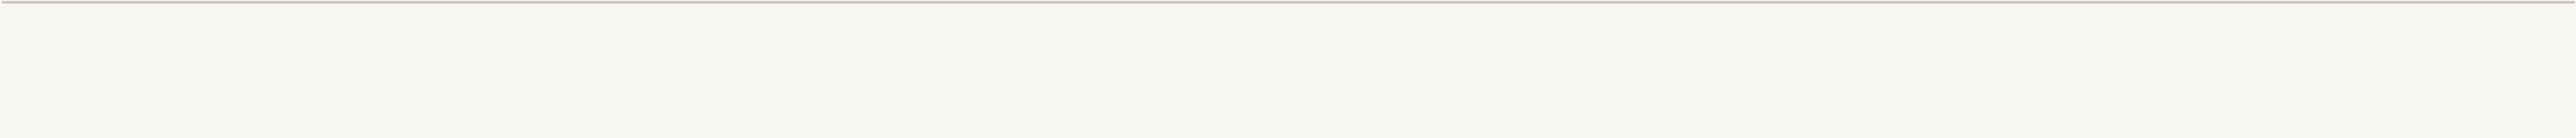

agent.5 · LAYER · PIN · CARRIER · CLEARANCE · v0.5.10

Same grammar as landmark / scenario pins. Concept pins — not parcel IDs.

ID	Layer	Street pin	Carrier / readable	Clearance · exit
C01	RAIL	Suzhou-numeral milestone sequence	Dual notation + Braille + voice alt	History rights check [A-MOTIF-001]
C02	RAIL	Switchback / Renzi motif points (N/Origin)	Form reading boards · no fake antiquity	Motif stays abstract if survey fails
C03	RAIL	Tsinghuayuan interpretation point	SC-09 memory decoder curator-reviewed	No fixed install before protection polygon
C04	RAIL	Chengfu Rd / Wudaokou crossing memory	Medium-severance memory exhibit	Audit first; no bridge claim without red lines
C05	CODE	Origin school-city stitch porch	Knowledge capillary + forum / talk slot	No campus room claim without tenure
C06	CODE	Station Zero Failure Cabinet	Restart stories · PoC / IP path boards	Empty two seasons → revert to commons
C07	CODE	West-wing everyday service stitch door	Engineering / IP / ethics service window (post-gate)	Capital only after Validation gate
C08	COMMONS	Developer Walk SC-01 gallery	Model cards · licenses · failure notes	Withdraw / correct; unmaintained → delist
C09	COMMONS	Commit Wall + K04 Plinth band	Voluntary honor · QR + Braille	Dispute unresolved → take down
C10	COMMONS	Next Station Hall feedback seat	Release board · stop reasons posted	Noise/fire miss → cut night program

Annual Ops Catalog A01–A08

Rhythm · host · owner · in→out · KPI/stop. One week ≠ fifty-one weeks.

Annual Ops Catalog · A01-A08

agent.6 · 1 WEEK ≠ 51 WEEKS · v0.5.11

Same grammar as scenario cards. Week is one product; the other 51 weeks close the loop.

ID	Rhythm	Host	Owner (proposed)	In → Out	KPI · stop
A01	JAN	Commons Compiler + east wing intake	Ops + public problem parties	City issues → problem pool	Valid closes ↑ Privacy hit → stop
A02	MAR	Station Zero + Developer Walk	Maintainer / foundation type subject	Teams in → resident cohorts	Docs+uptime Empty → end seat
A03	APR	Culture nodes C01–C10 spine	Brand + culture + access orgs	Walkers → cultural tour log	Task complete Force reg → cancel
A04	JUN	Agent Garden test field	Indep. eval + Zhongzhiyuan ops	Agents in → test reports	Fix+retest Major open → no pilot
A05	SEP	Next Station Hall + axis high-display	Four-seat roundtable coord cell	Year work → annual Release	Public value posted Commons capture → cut
A06	OCT	Next Station Hall roadshow quadrant	Intl desk + research / enterprise seats	Partners → coop checklist	Named owners next yr No confirm → no claim
A07	MONTHLY	Failure Cabinets @ three stations	Station ops + independent audit	Stops → failure archive	Reasons public Myth-only → pause
A08	ALWAYS	City PR platform + microgrant ledger	Ops + fund-type subject	Issues/grants → close + ledger	Close rate / diversity Unmaintain → exit pool
