

THE NEW CREW

FROM A TECHNOLOGY CORRIDOR
TO A CITY-MAKING LINE THAT
CAN HAND OVER

Centennial Jingzhang was built by generations of crews.
Its AI city should not replace people with one platform;
researchers, firms, residents, professionals, maintainers
and Agents share named duties.

原创概念表现 / CONCEPTUAL VISION

01 OVERALL STRUCTURE

ONE LINE · THREE CREWS · TWO
WINGS · TWELVE WORKSTATIONS

- 1 ORIGINATE
- 2 PROVE
- 3 TRANSLATE
- 4 FIRST-USE
- 5 MAINTAIN
- RFVIFW

NOT A BELT OF AI SHOWROOMS

Every scenario names who owns the problem, supplies
technology, holds professional duty, operates onsite, can stop
it, and receives public return.

02 THREE SCALES AND KEY JUDGEMENTS

43.6 km² COORDINATED STUDY

Innovation chain, services, global links

11.4 km² OVERALL DESIGN

Renewal, mobility, blue-green, facilities

368.4 ha KEY AREAS

Programme, buildings, public space, delivery

工作假设 / WORKING ASSUMPTION

Official polygons, parcels, buildings, ownership, road lines and
utilities are missing. Every location is a recalculable design model,
not statutory control.
