

BOARD 1 · Overall Structure

One spine, three anchors, two wings, twelve stations · four gauges

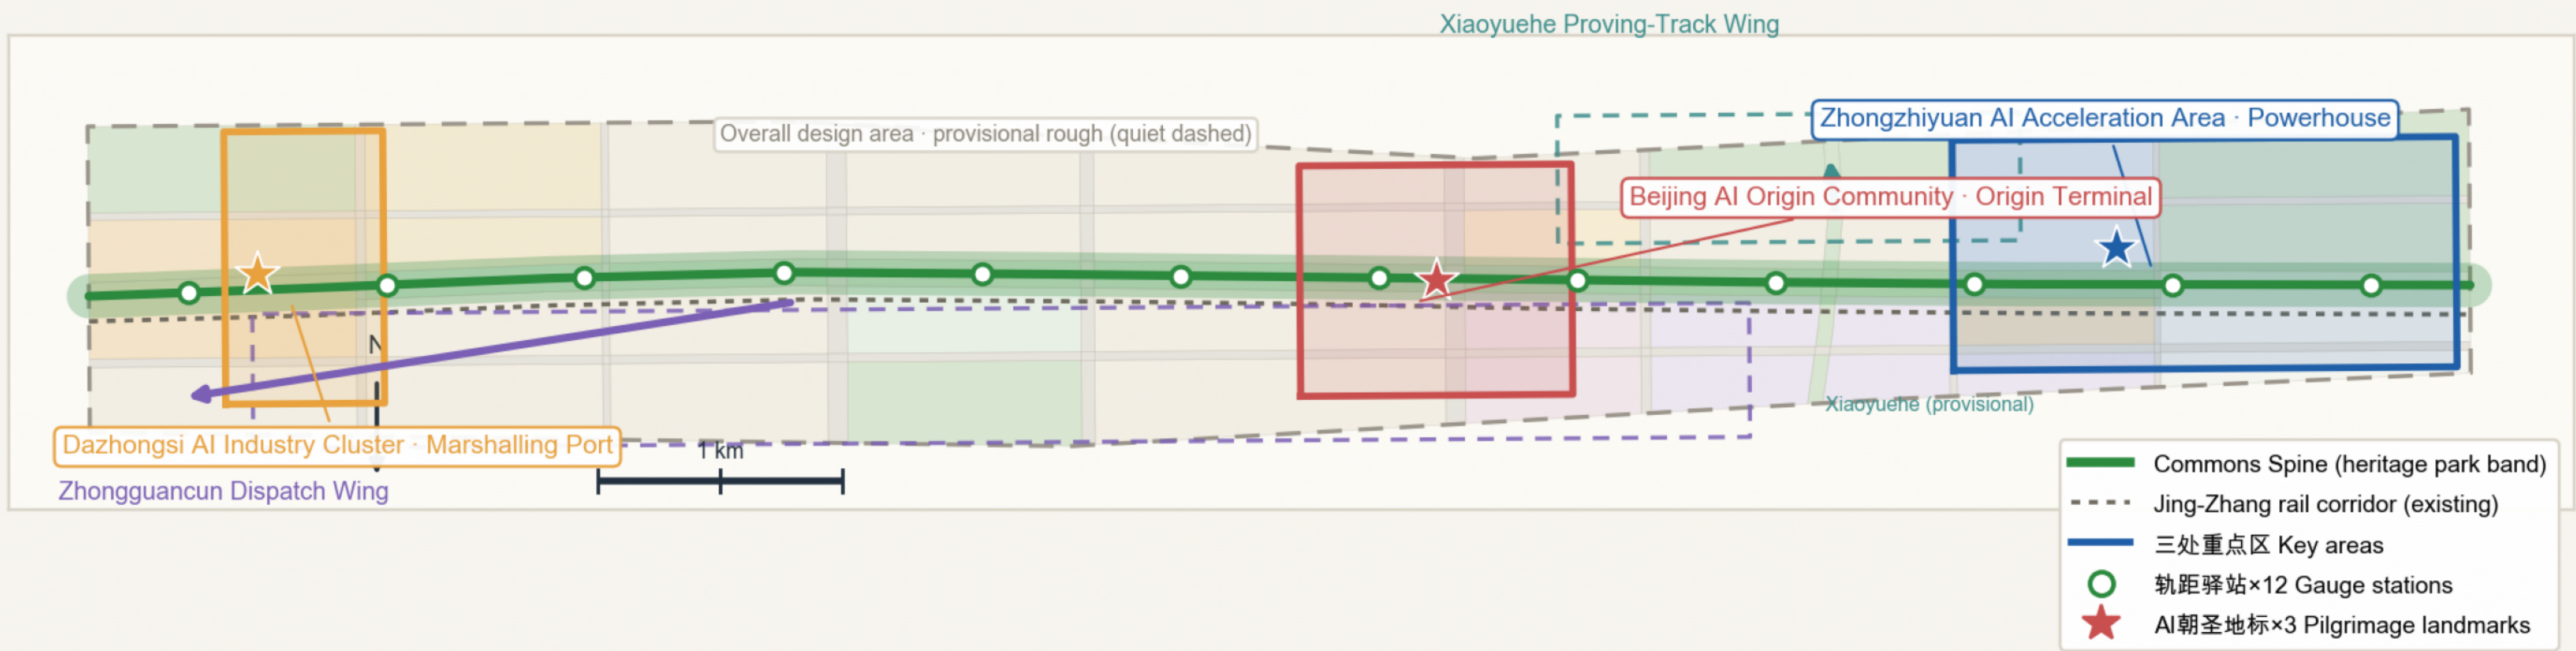

JINGZHANG GAUGE 1435

A Reusable Standard Gauge for Urban AI

Overall spatial structure of the Centennial Jing-Zhang AI Innovation Belt

FIG 01 · SITE OVERVIEW

One spine, three anchors, two wings, twelve stations

One Spine · Three Anchors · Two Wings · Twelve Gauge Stations

Base map: repository provisional_rough boundary · design layers: agent_generated_design · recomputed in EPSG:4548 · rotated 90° (south left → north right)

Structure

Commons Spine 9.7 km: 110 m band + 12 stations
Anchors: Powerhouse / Origin Terminal / Marshalling Port
Wings: Dispatch (ZGC) · Proving (Xiaoyuehe, L1-L4)

Four gauges

Spatial=components; Scenario=5 declarations;
Proving=L1→L4 gates; Governance=switch/block/signal/rerail + review board

Naming & logo

Twin-rail negative 'human' + 1435 caliper; split-flap dynamic; signal colours.

BOARD 2 · Land Use and Urban Renewal

131 gap-free cells · recalculated mix · lay-marshal-release

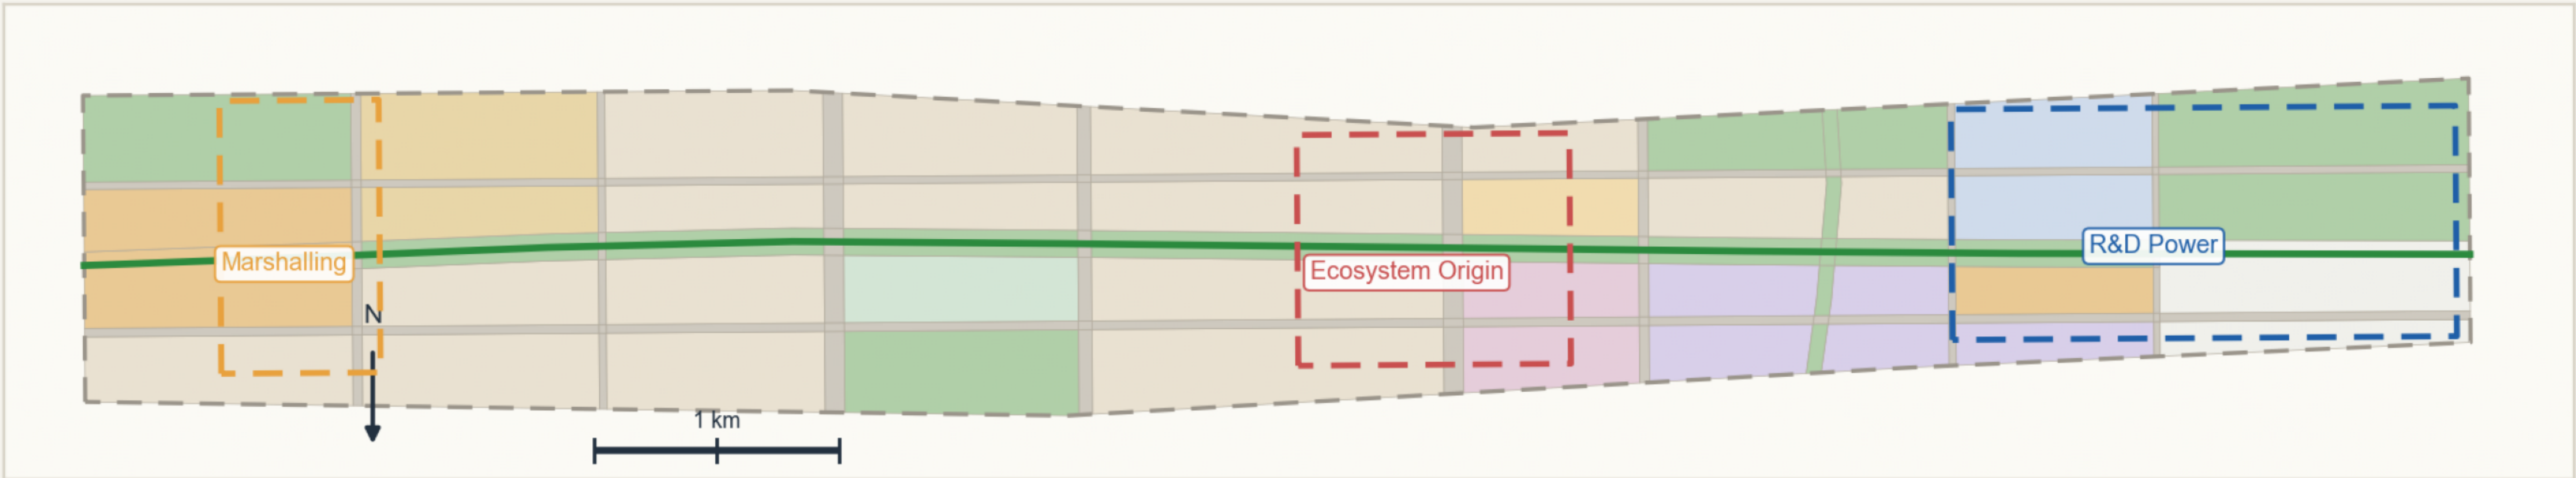

JINGZHANG GAUGE 1435

FIG 02 · LAND USE

Land-Use Structure: From Strategy to Blocks

Full partition of the provisional boundary (131 cells)

Recomputed in EPSG:4548

Residential 36.5%	Roads 9.3%	Sports 2.2%	Research 3.8%
Business 6.8%	Green 22.5%	Services 4.7%	Retail 1.4%
Reserve 4.5%	Education 5.3%	Culture 3.0%	

Base map: repository provisional_rough boundary · design layers: agent_generated_design · recomputed in EPSG:4548 · rotated 90° (south left → north right)

Mix (recalc)

Res 36.5% · Green 22.5% · Bus 6.8% · Rd 9.3% · Res(search) 3.8%
Edu 5.3% · Sport 2.2% · Cult 3.0% · White 4.5%

Retain-renovate-demolish

Retain heritage & stock; renovate sheds/frontages;
demolish blockers (suggested); parcels pending data

Renewal

Lay track (public first) → marshal (yards) → release (gates)

BOARD 3 · Mobility, Rail, Municipal

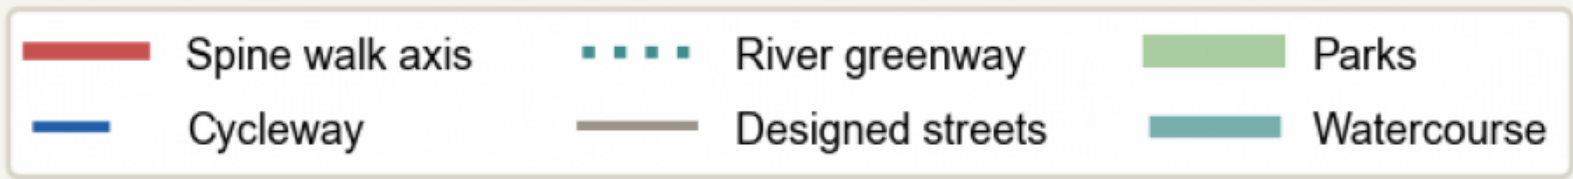

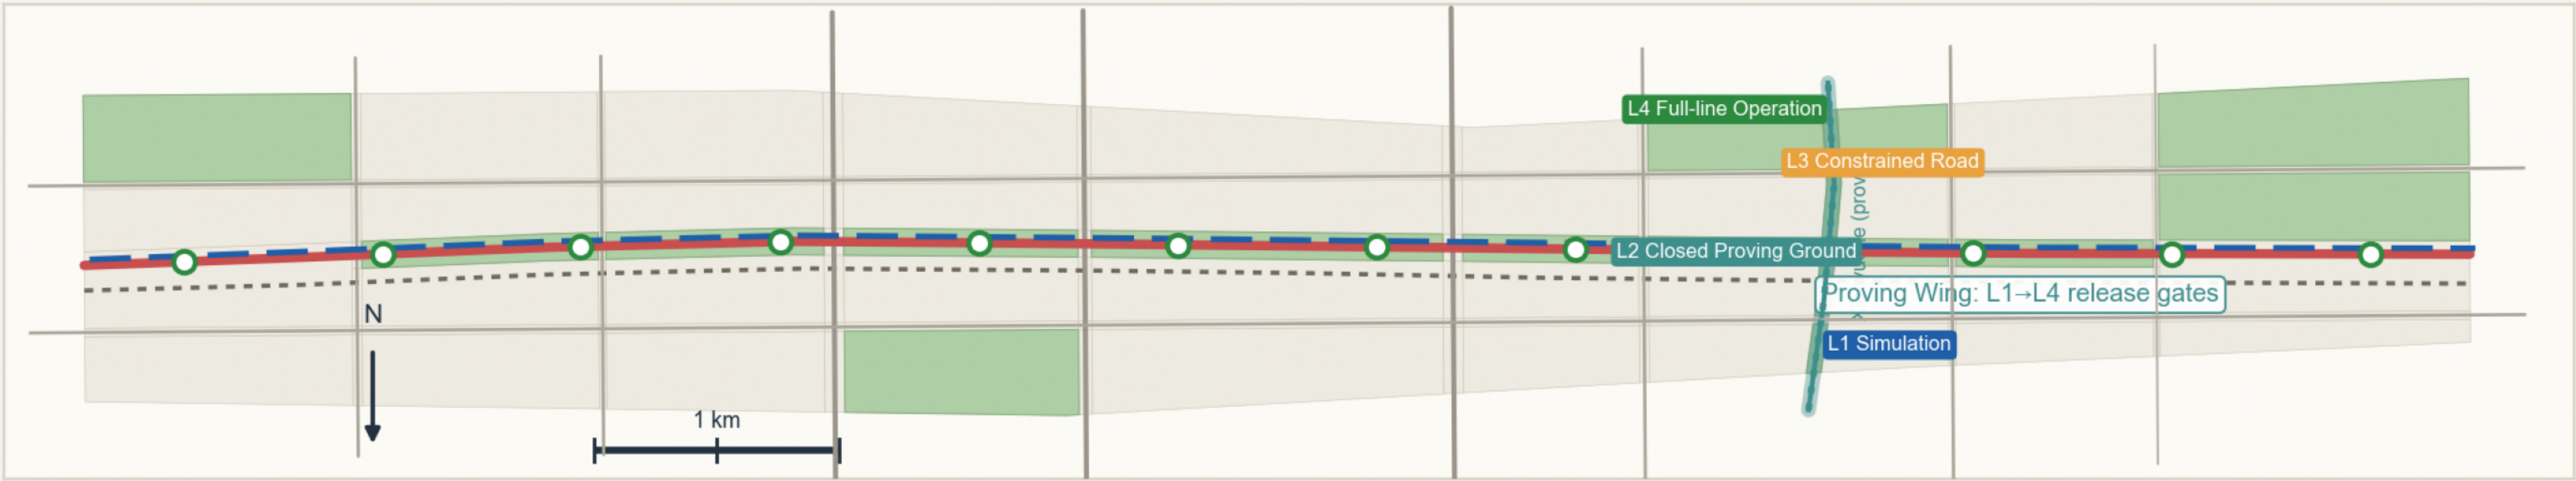

Continuous slow network · station integration · station new-infra

JINGZHANG GAUGE 1435

FIG 04 · MOBILITY-BLUEGREEN

Mobility & Blue-Green: Rail-Grade Continuity

Slow network, cycleway, river greenway and the L1→L4 proving path

Base map: repository provisional_rough boundary · design layers: agent_generated_design · recomputed in EPSG:4548 · rotated 90° (south left → north right)

Slow network

Walk axis 9.7 km · cycleway · river greenway
Designed streets · robot bays

Rail (concept)

Integration at Terminal/Port: transfer, weather links, wayfinding
Rail corridor locked; no engineering conclusions

Municipal & new infra

Compute kiosks · sensing poles · status boards
Capacities blank pending official data

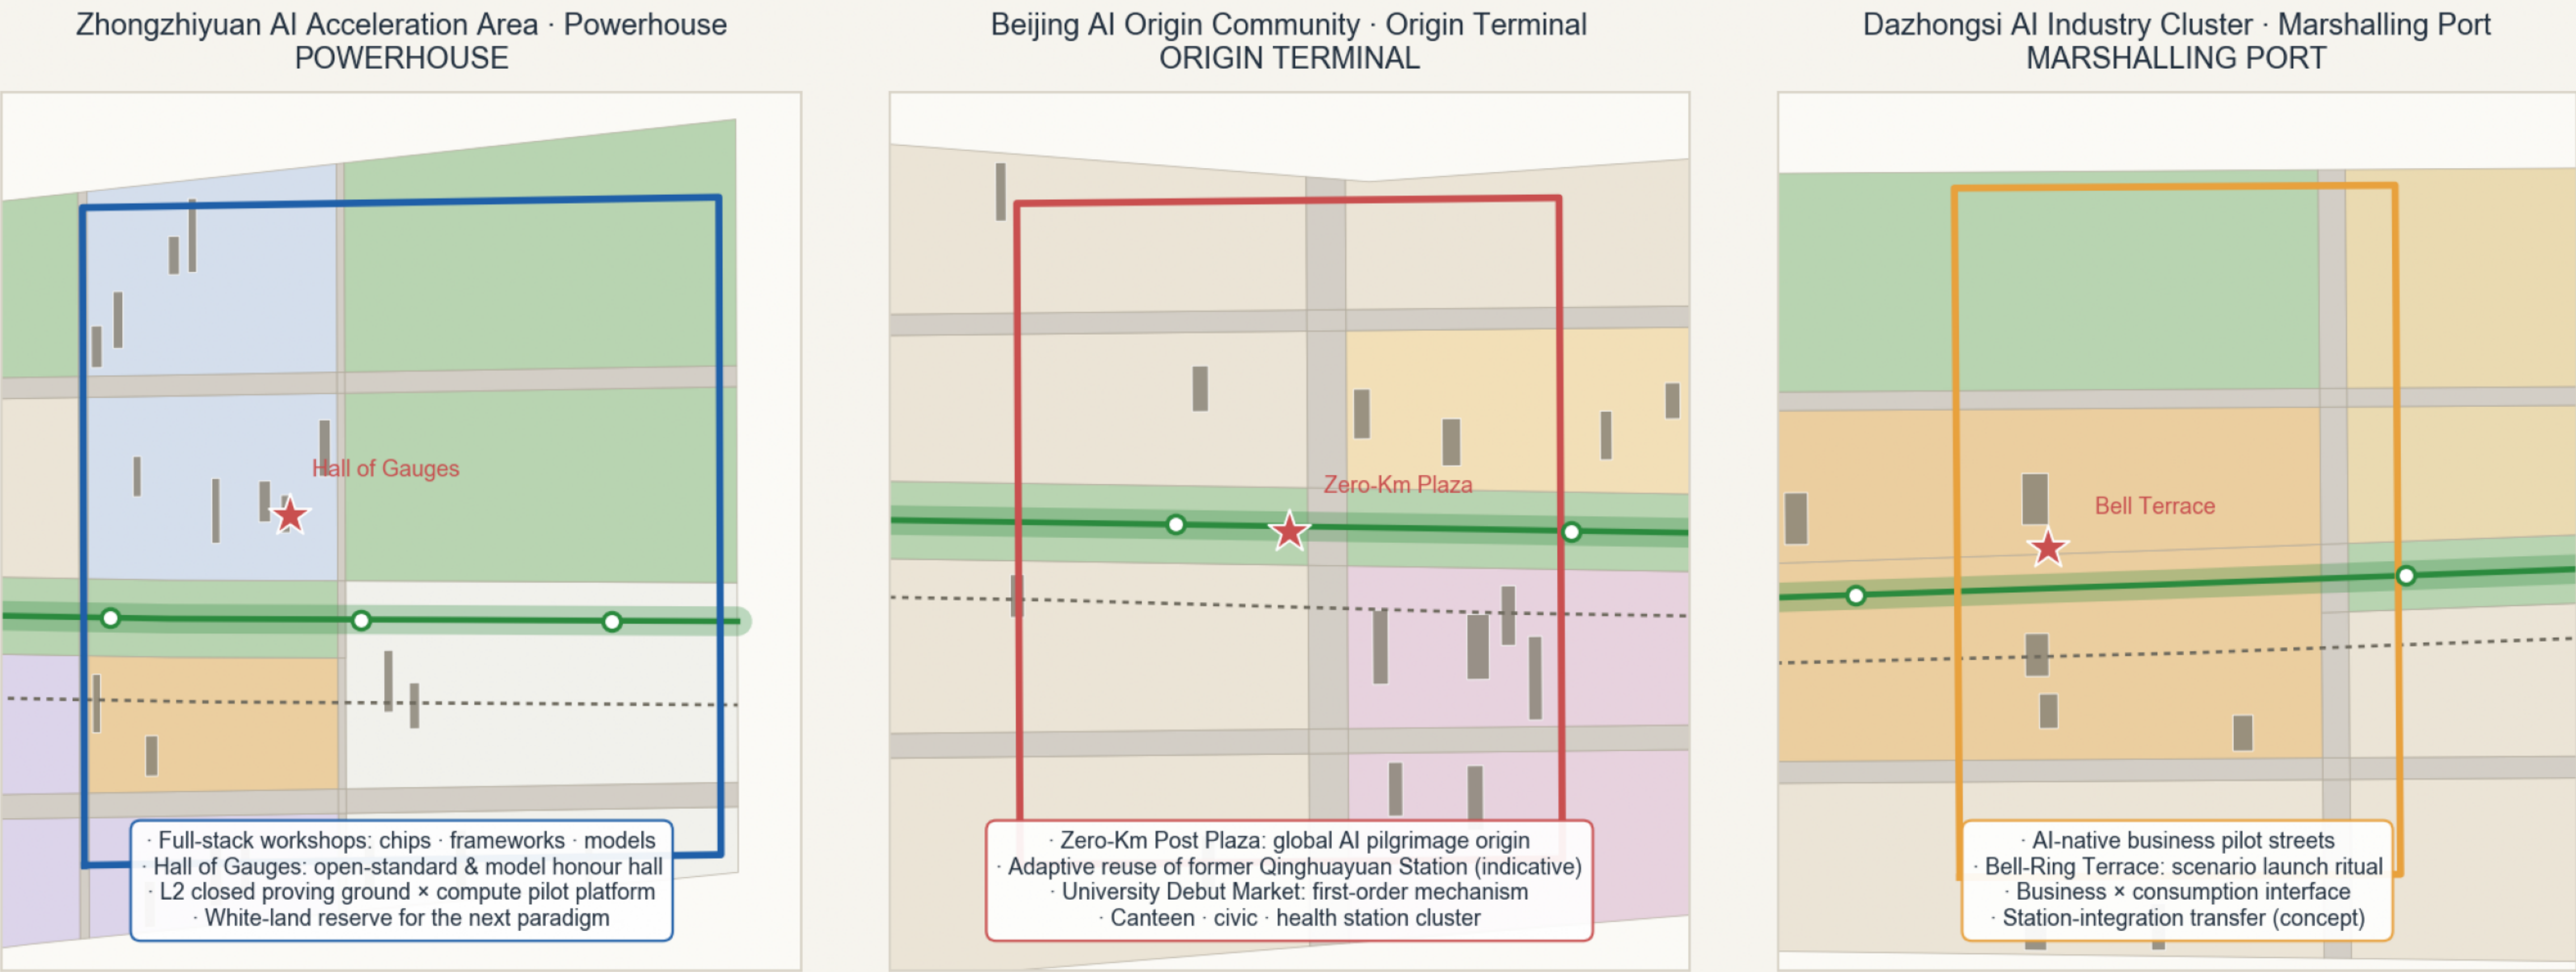

BOARD 4 · Heritage Park Band and Blue-Green

One belt one river · three hearts twelve stations · low-transparent-slow

Key Areas: Three Depots, Three Missions

FIG 03 · KEY AREAS

Key-area polygons are provisional rough; all moves are conceptual suggestions; recalculate once official boundaries arrive

Public-space system

Band = public-space spine (public_space layer)
Landmarks: Zero-km Post · Hall of Gauges · Bell Terrace
12 station squares + pocket parks

Blue-green metrics

Green 16.3% · Public 7.0% (recalculated)
Xiaoyuehe band (provisional alignment)

Character

Low · Transparent · Slow
Steel grey / oxide red / signal colours

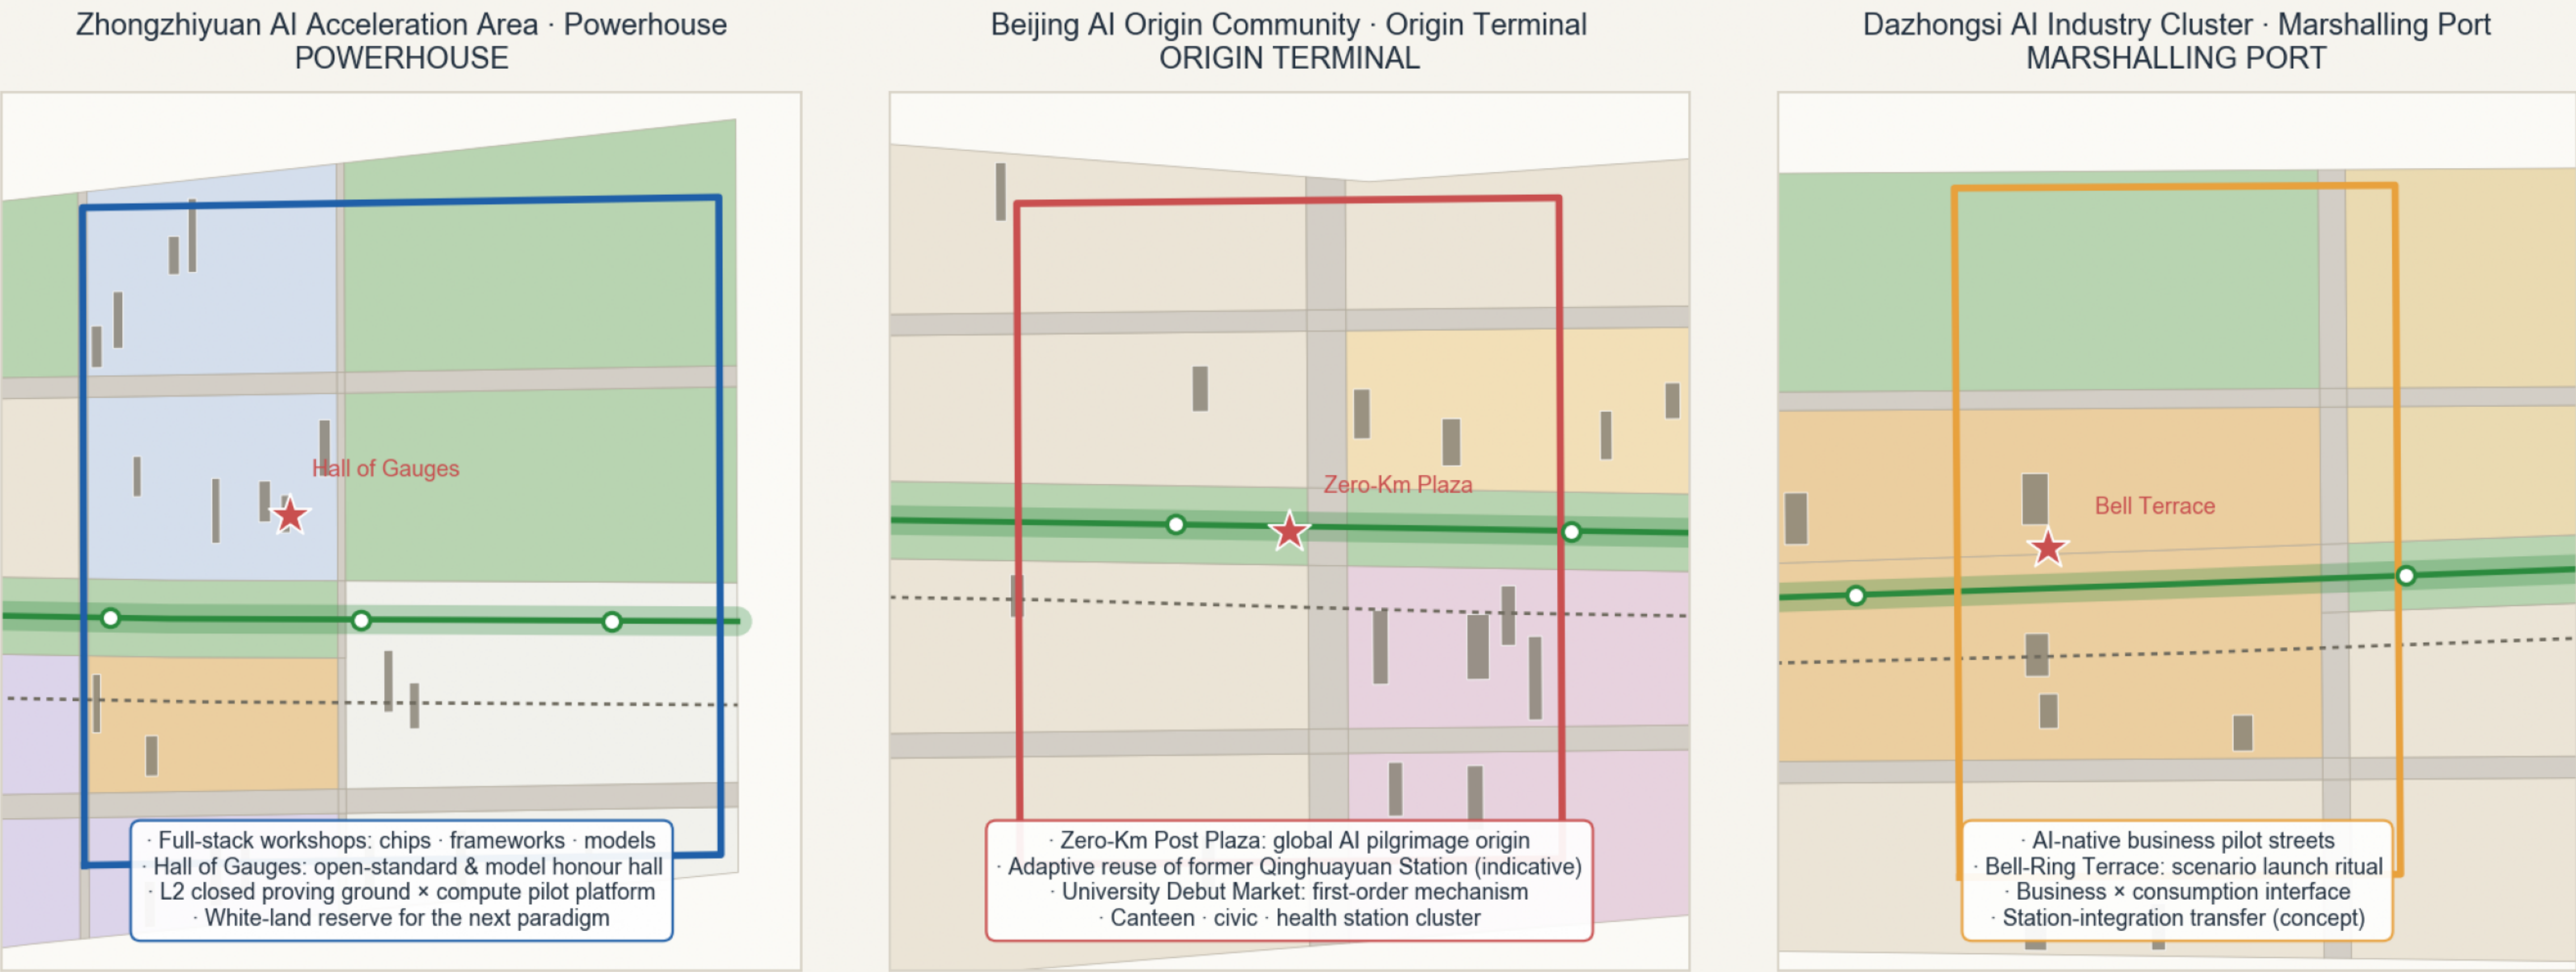

BOARD 5 · Key Areas Detailed Design

Powerhouse · Origin Terminal · Marshalling Port: three yards, three missions

Key Areas: Three Depots, Three Missions

FIG 03 · KEY AREAS

Key-area polygons are provisional rough; all moves are conceptual suggestions; recalculate once official boundaries arrive

Powerhouse

Loop+Hall; L2 ground+compute pilot; Wall of Gauges
T02/T04; risks: controls/noise

Origin Terminal

Zero-km plaza = pilgrimage origin; Debut Market
S01/S05/S02/S03; risks: heritage/interfaces

Marshalling Port

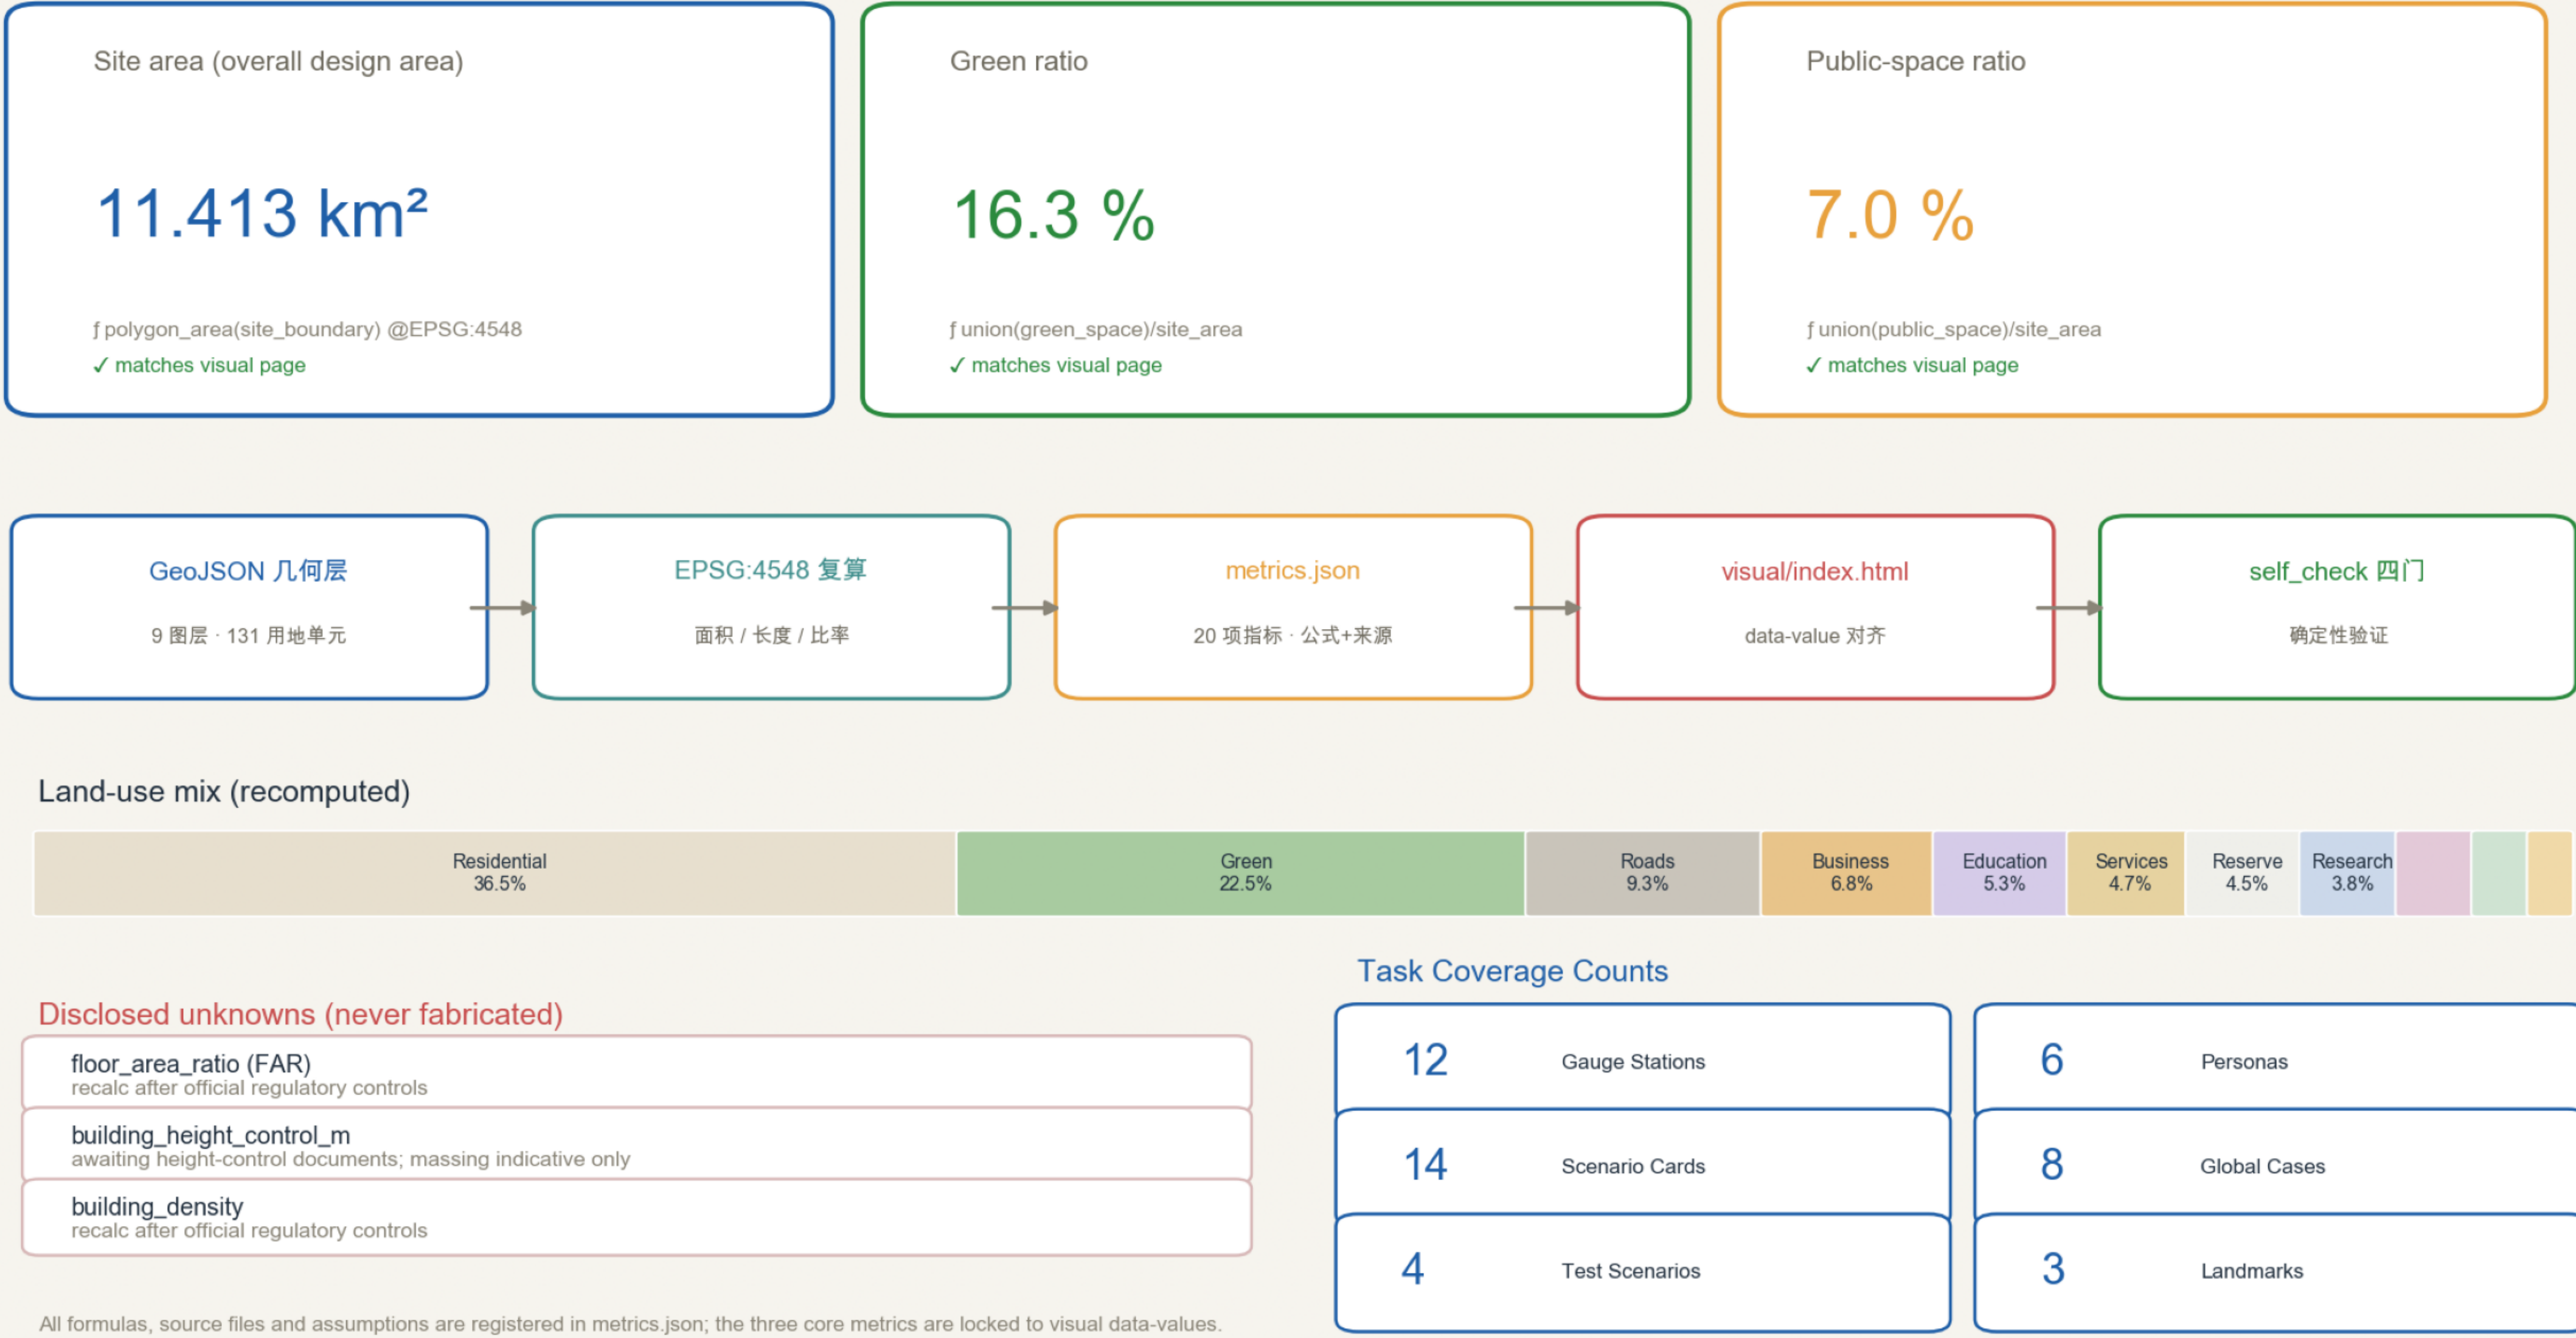

Business×consumption + bell ritual
T01/S10; risks: ownership/zoning

BOARD 6 · AI Scenarios and Operations

14 cards · 6 personas · four-level release · annual Gauge Summit

Metrics Evidence: Every Number Recomputable

Design-model values on the provisional boundary · locked to visual data-values

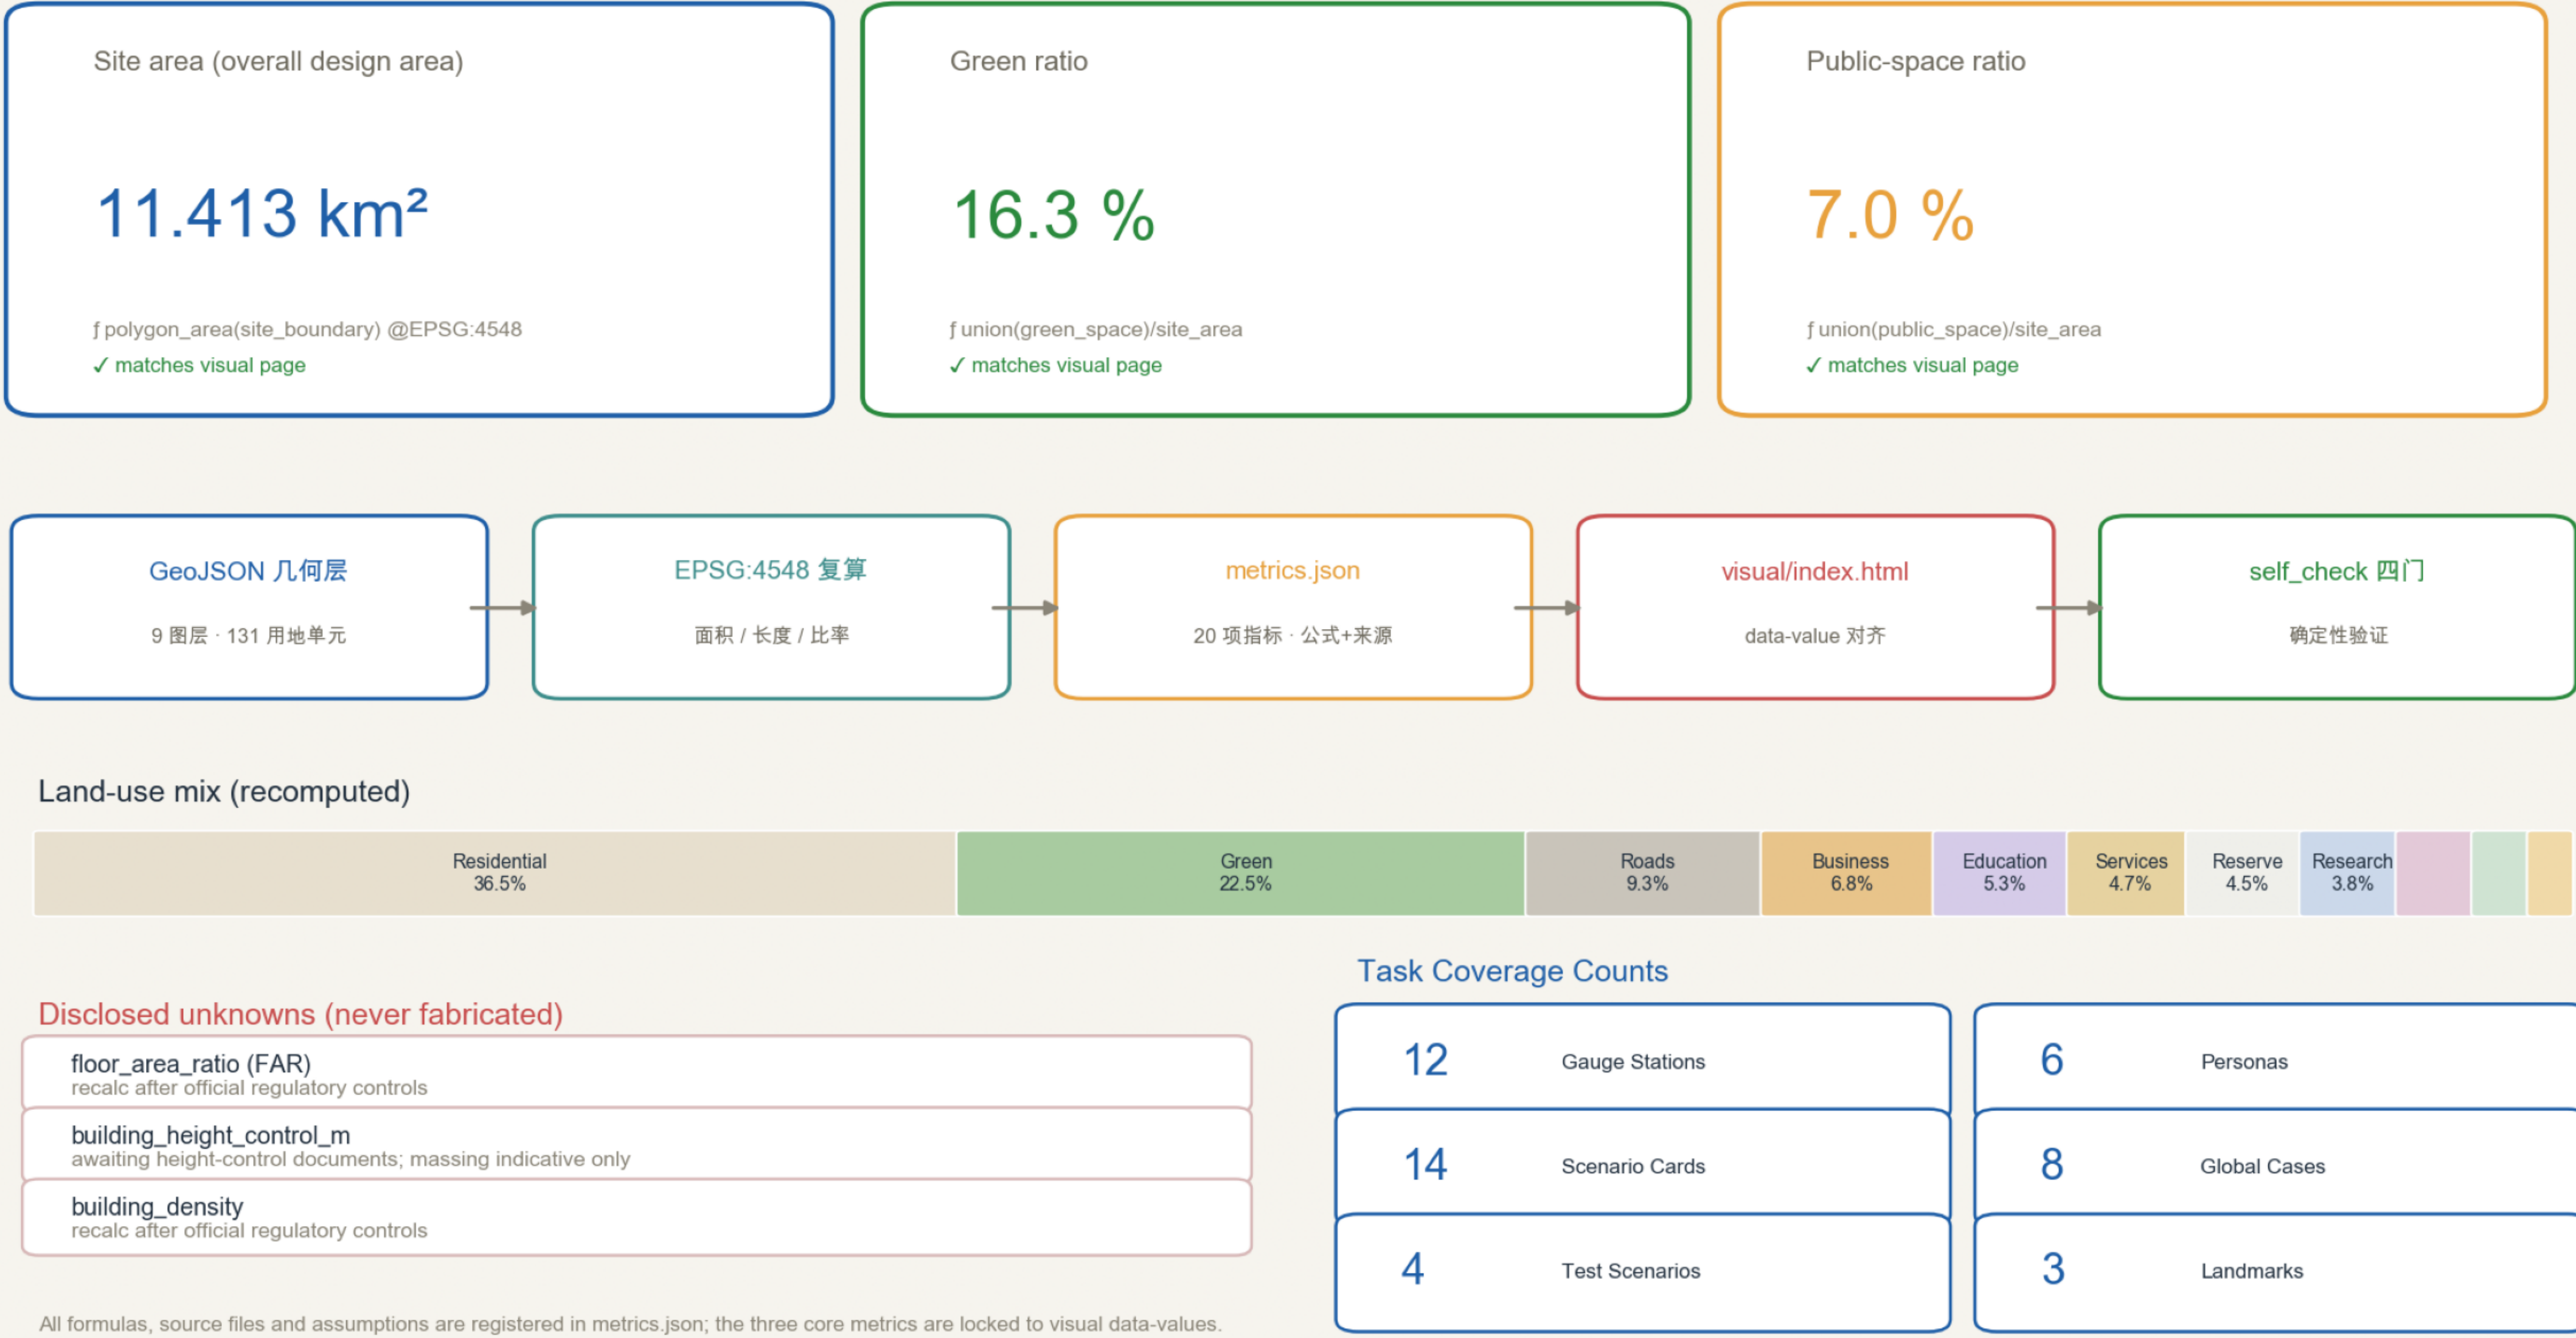

BOARD 7 · Metrics and Compliance

Recomputable evidence chain · honest unknowns · four-gate self-check

Metrics Evidence: Every Number Recomputable

Design-model values on the provisional boundary · locked to visual data-values

Core metrics

Locked to visual data-values; EPSG:4548

Unknowns

FAR · height · density: pending official documents
Triggers registered; no placeholders

Risk & copyright

Six risk families · generation disclosure (programmatic figures)
COMMUNITY-DISPLAY-ONLY · conceptual-suggestion clause
