

MASTERPLAN: TESTING AND VALIDATION INFRASTRUCTURE

JING-ZHANG AI PILOT LINE
ONE LINE · THREE STATIONS · TWO WINGS · THREE GATES

A verification chain connecting invention, live testing and delivery—not a technology image alone

Zhongzhiyuan Integration Pilot Station

One Spine · Two Loops · Four Test Courtyards

Beijing AI Origin Trust Co-testing Station

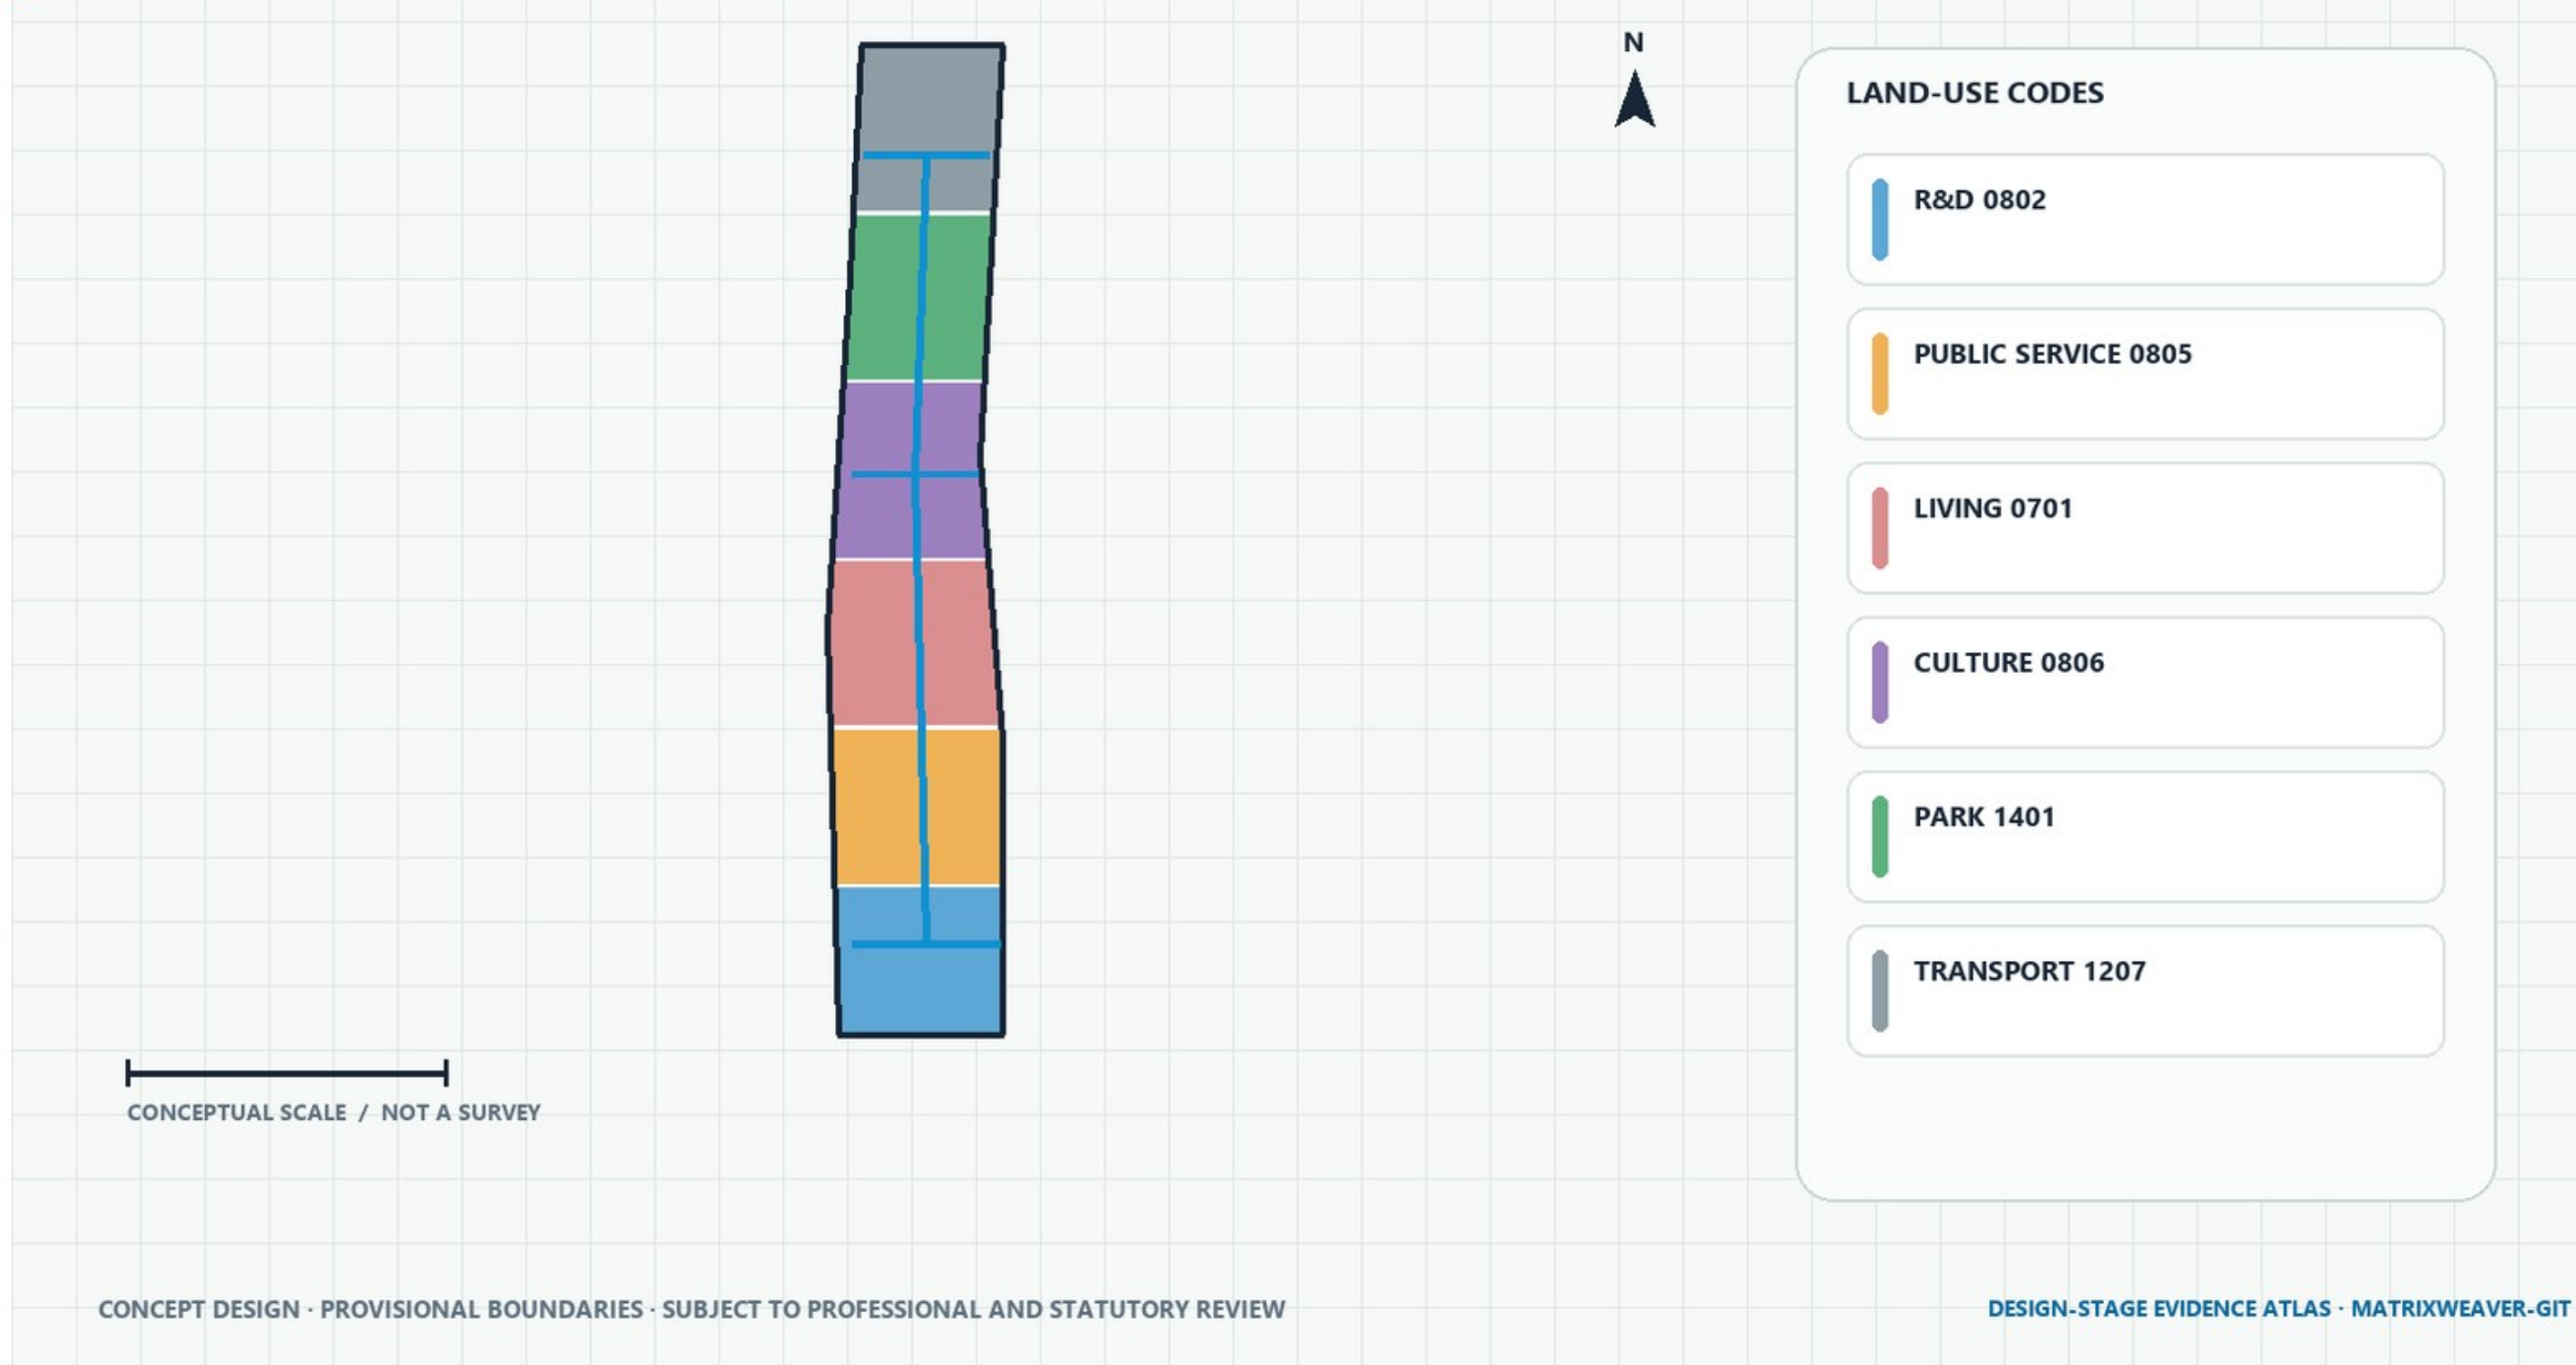

One Co-test Street · Three Interfaces · Six Micro-courtyards

Dazhongsi Market Delivery Station

One Hub · Four Quadrants · One Delivery Salon

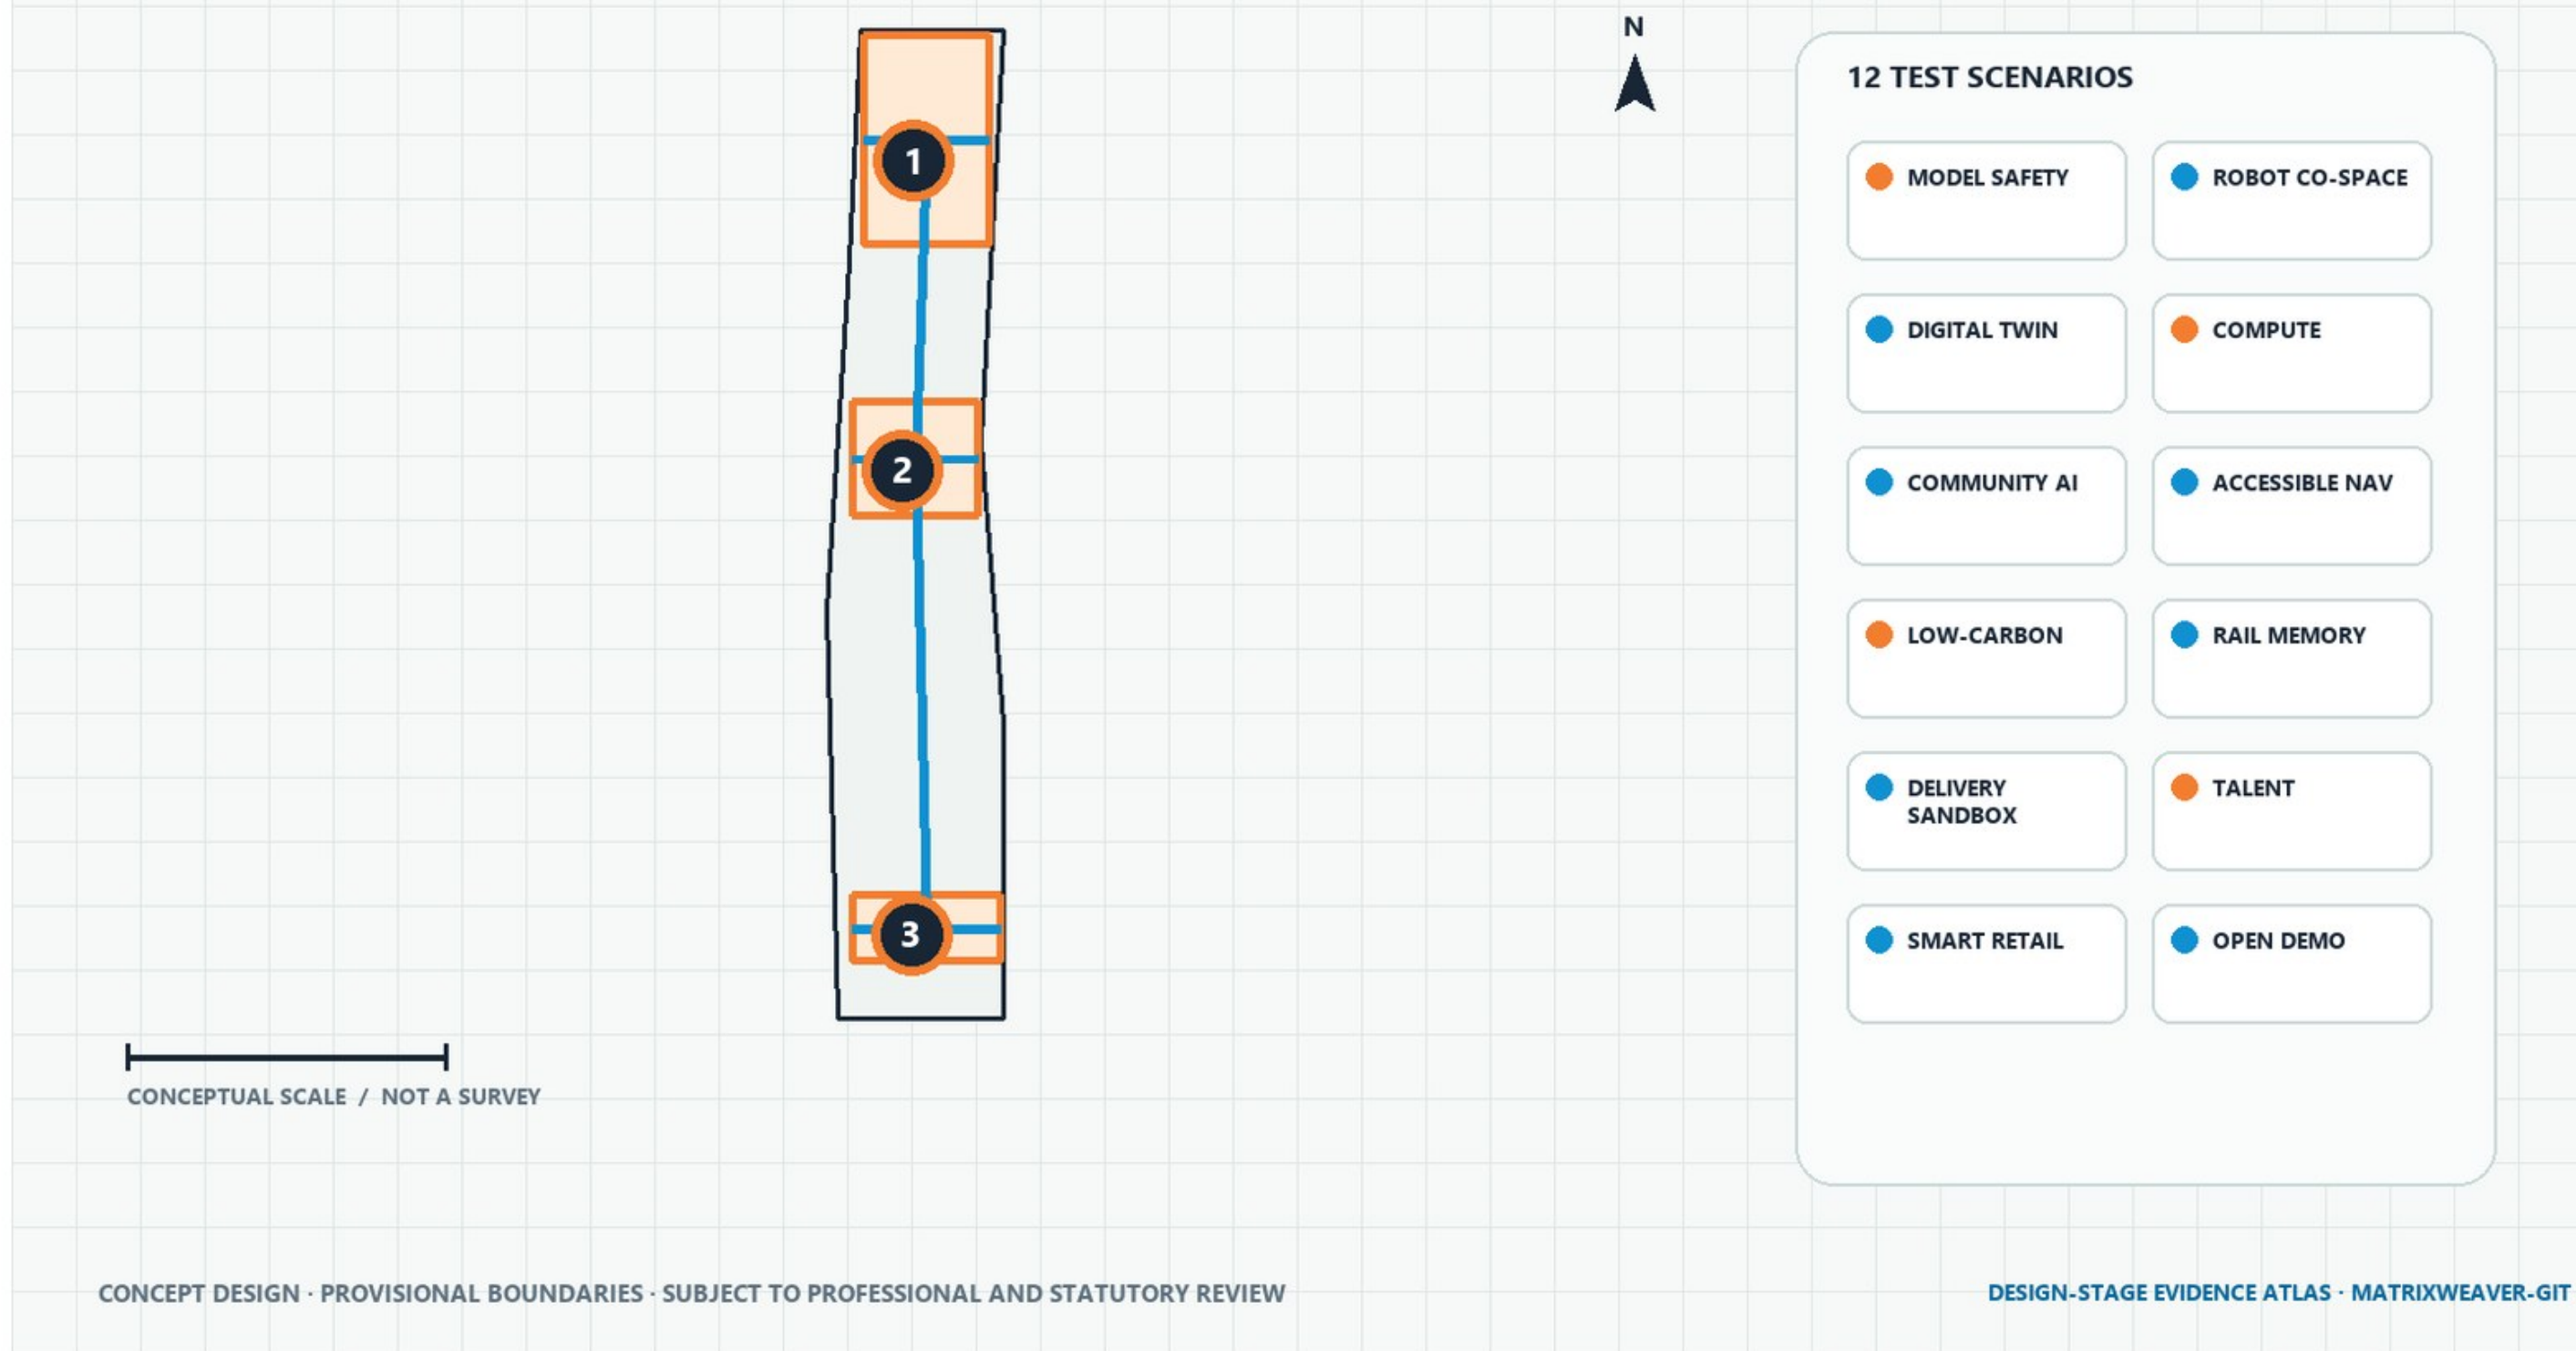

JING-ZHANG AI PILOT LINE
RECALCULABLE LAND-USE STRUCTURE

Six conceptual classes cover the provisional site while preserving statutory confirmation interfaces

JING-ZHANG AI PILOT LINE
THREE STATIONS · TWELVE SCENARIOS · THREE LANDMARKS

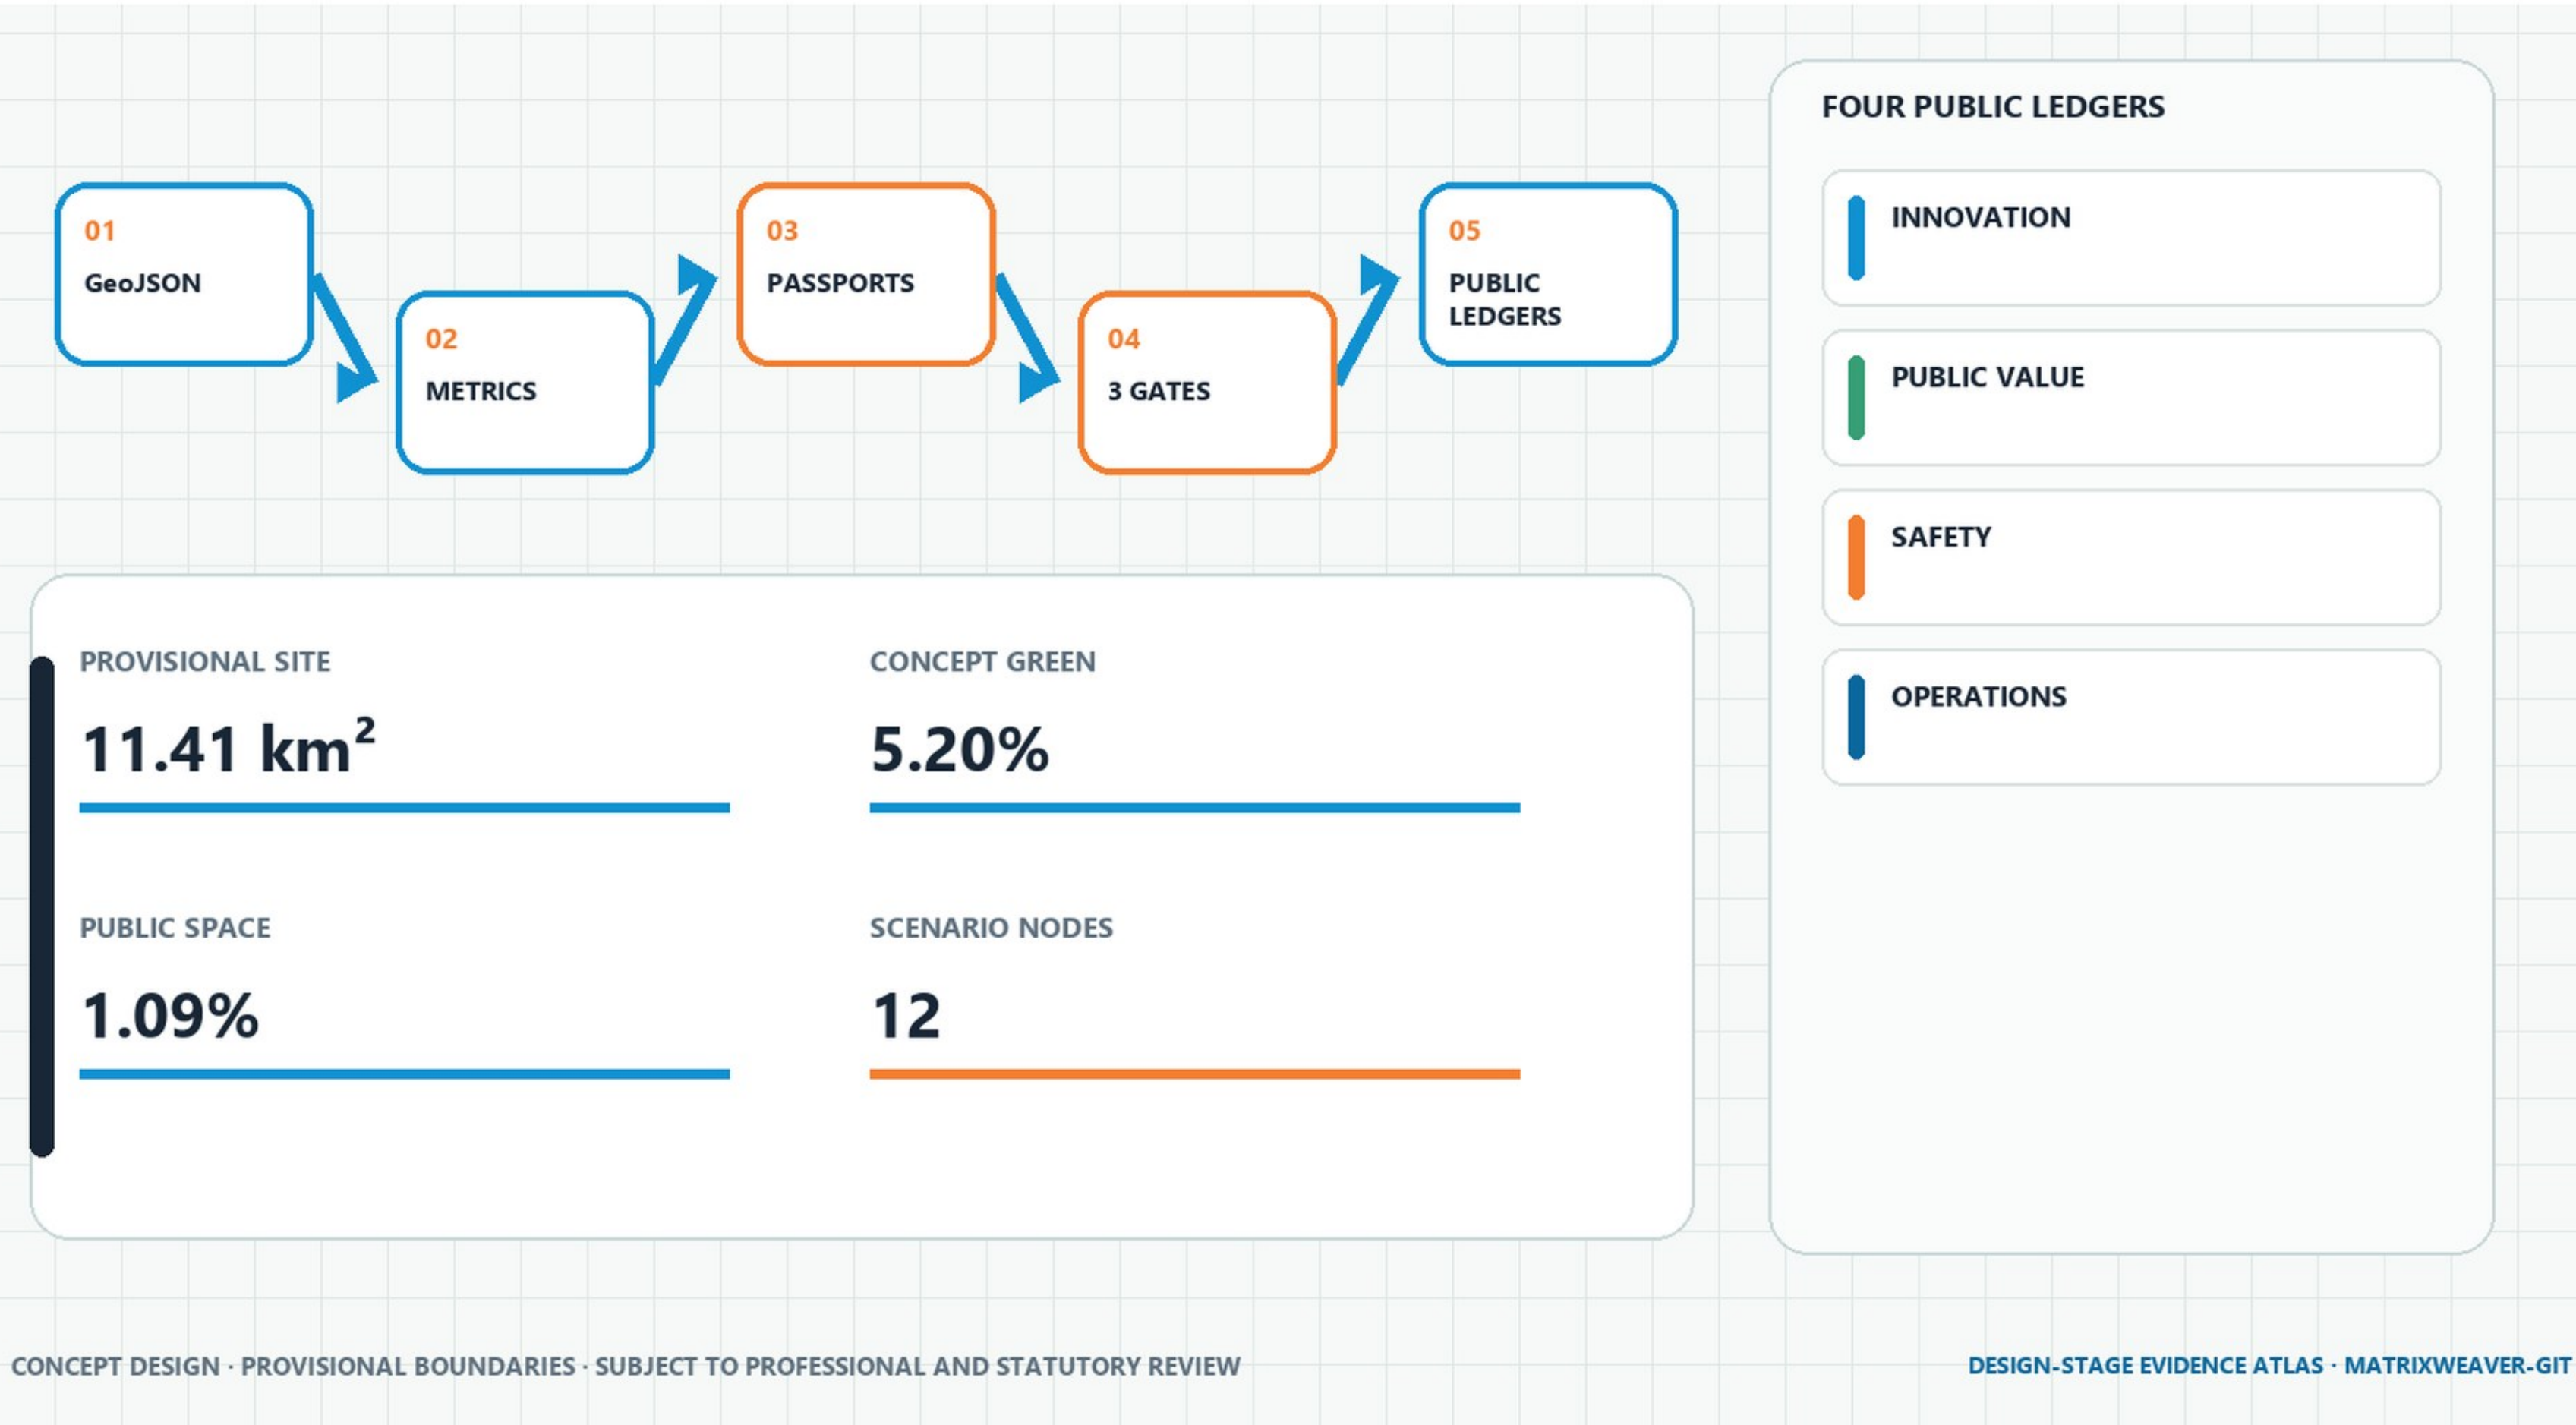

Zhizhiyuan verifies, AI Origin tests, and Dazhongsi prepares delivery through an auditable loop

MECHANISM: FROM GEOJSON TO PUBLIC LEDGERS

JING-ZHANG AI PILOT LINE
FROM SPATIAL DATA TO PUBLIC LEDGERS

Every judgment links recalculable metrics, evidence passports, gate reviews and accountable owners

- 01 Multi-robot Coordination Yard**
A closable, reversible modular yard and low-speed loop.
- 02 Edge-cloud Coordination Loop**
A controlled network loop spanning indoor and outdoor nodes.
- 03 Safety Red-team and Failure Library**
An isolated sandbox, adversarial test room and review space.
- 04 Open-standard Toolchain**
Shared equipment rooms, open-source benches and a release hall.
- 05 Community Assistive Co-test Yard**
A community micro-yard with a human desk, bypass route and observation zone.
- 06 Public-service Co-test Street**
A street-level public-service test interface retaining offline counters.
- 07 Privacy and Fairness Sandbox**
A de-identified evaluation micro-lab disconnected from production systems.
- 08 User-research Micro-courtyard**
A bookable, small-scale and opt-out interview and prototype co-test space.
- 09 Terminal Experience and Training Field**
A terminal experience area with switchable roles and abnormal conditions.
- 10 Urban-product Delivery Hall**
A delivery hall for joint review by procurement, legal, operations and scenario owners.
- 11 Compliance Translation Workbench**
A traceable workbench shared by legal, standards, product and scenario staff.
- 12 International Delivery Salon**
A bilingual, comparable delivery salon showing failures and limits as well as successes.
- Engineering Qualification Gate**
Verify reliability, interoperability, failure boundaries, energy use, edge-cloud coordination and red-team results.
- Public Value Gate**
Verify explainability, fairness, privacy, accessibility, human takeover, appeals and real-use feedback.
- Delivery Readiness Gate**
Verify procurement interfaces, operating manuals, training duties, insurance links, replication and exit conditions.

JING-ZHANG AI PILOT LINE
MOBILITY · BLUE-GREEN · NEW INFRASTRUCTURE

The Pilot Line is a connector and an interface for open tests, railway memory and public experience
