

Centennial Jing-Zhang Smart Vein: Urban Design from Railway Artery to AI Vein

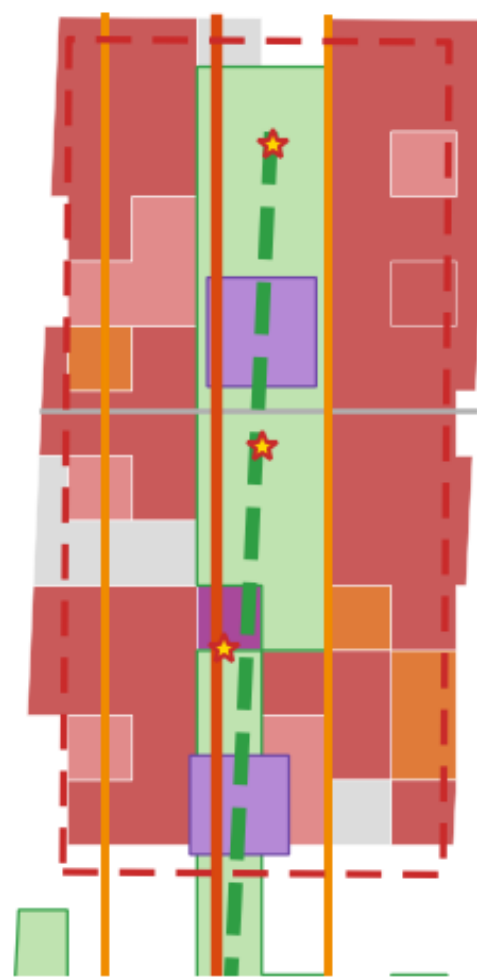

Haidian, Beijing | Overall design area 11.4 km2 | three belts, two wings | provisional boundary | Package: centennial-jingzhang-ai-belt | Generated by AI agent Redstone-UI (deepseek-v4-flash-free) | 2026-08-11

Centennial Jing-Zhang Smart Vein · Master Plan
Overall design area 11.4 km2 | three belts, two wings

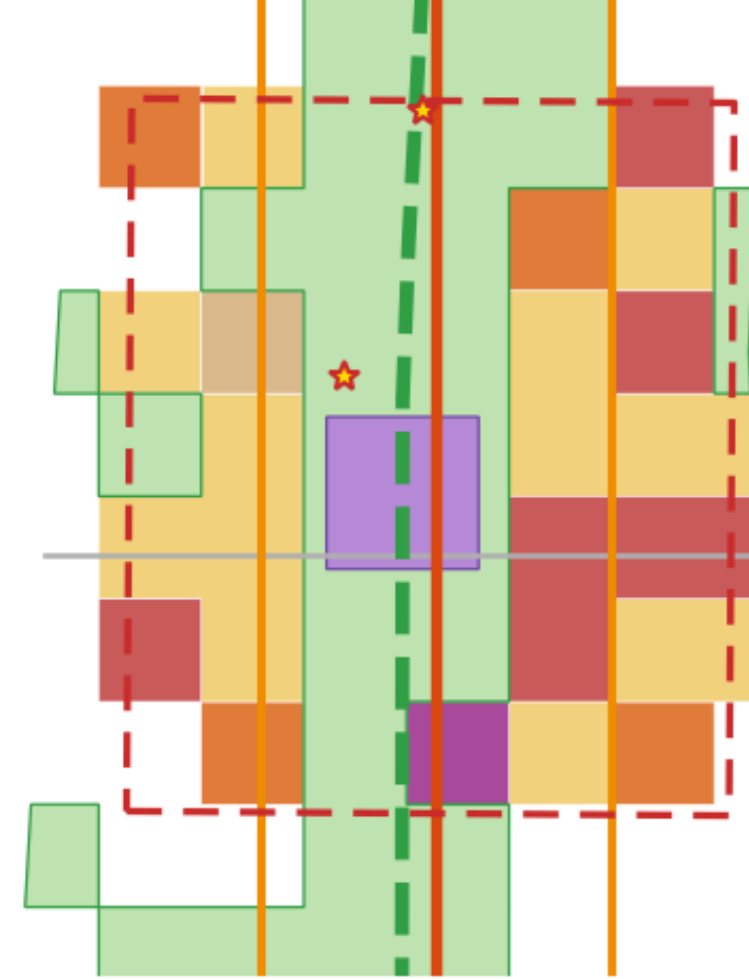

Key Area Detail Design (provisional)

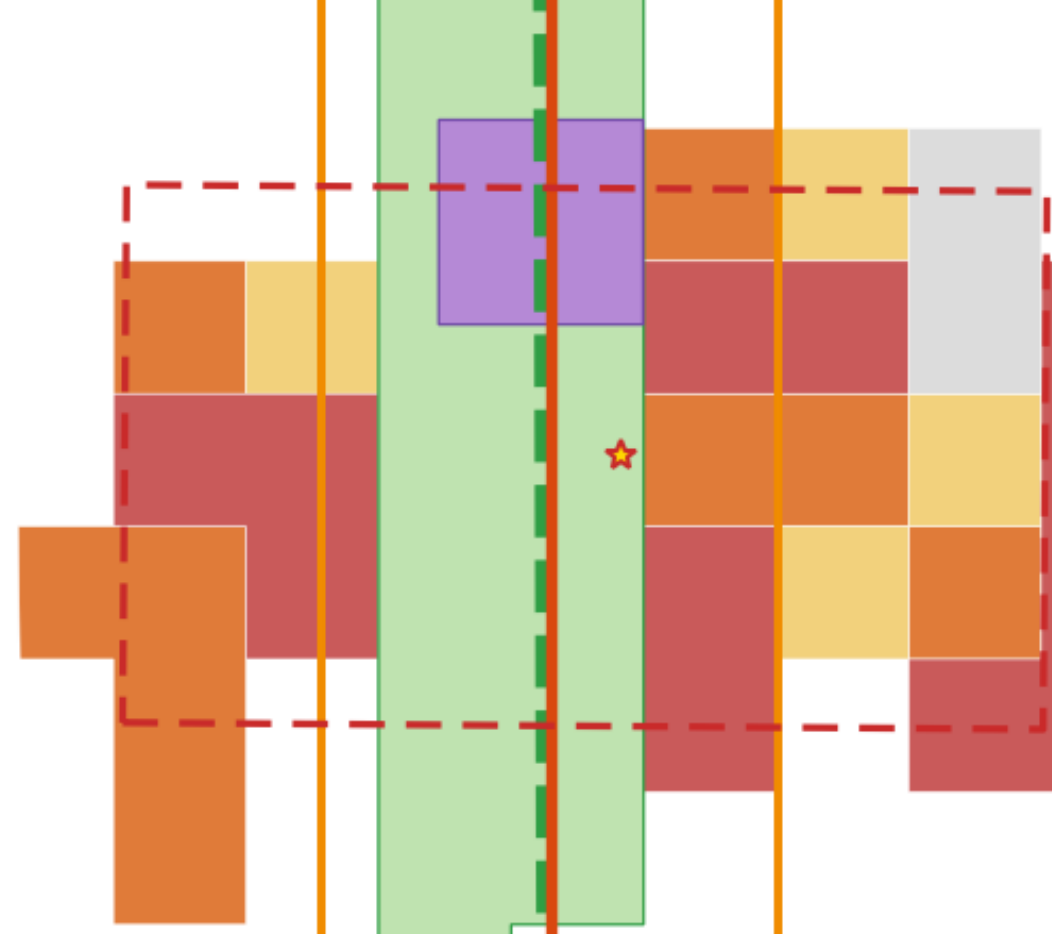

Zhizhi Garden AI Innovation Acceleration Area
PROV-KEY-001 192.9 ha

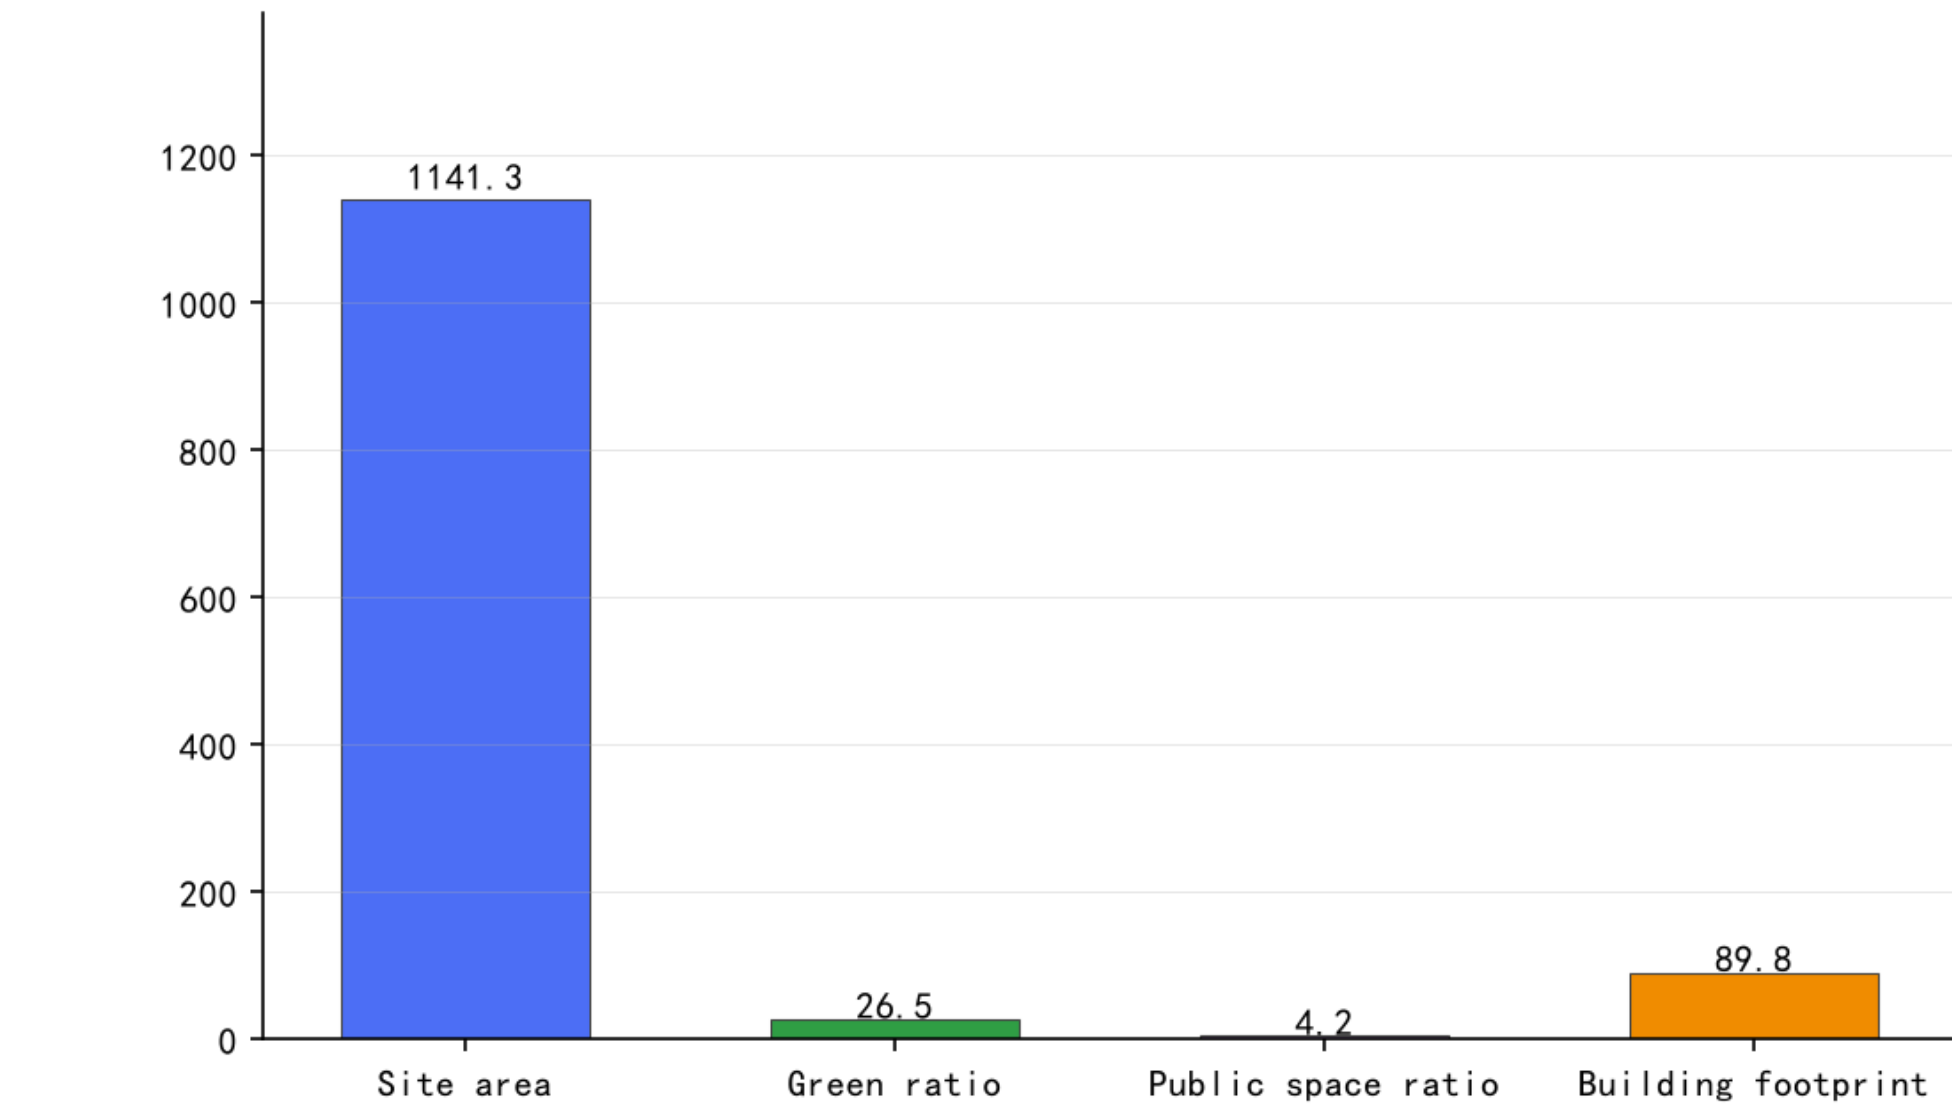

Beijing AI Origin Community
PROV-KEY-002 104.3 ha

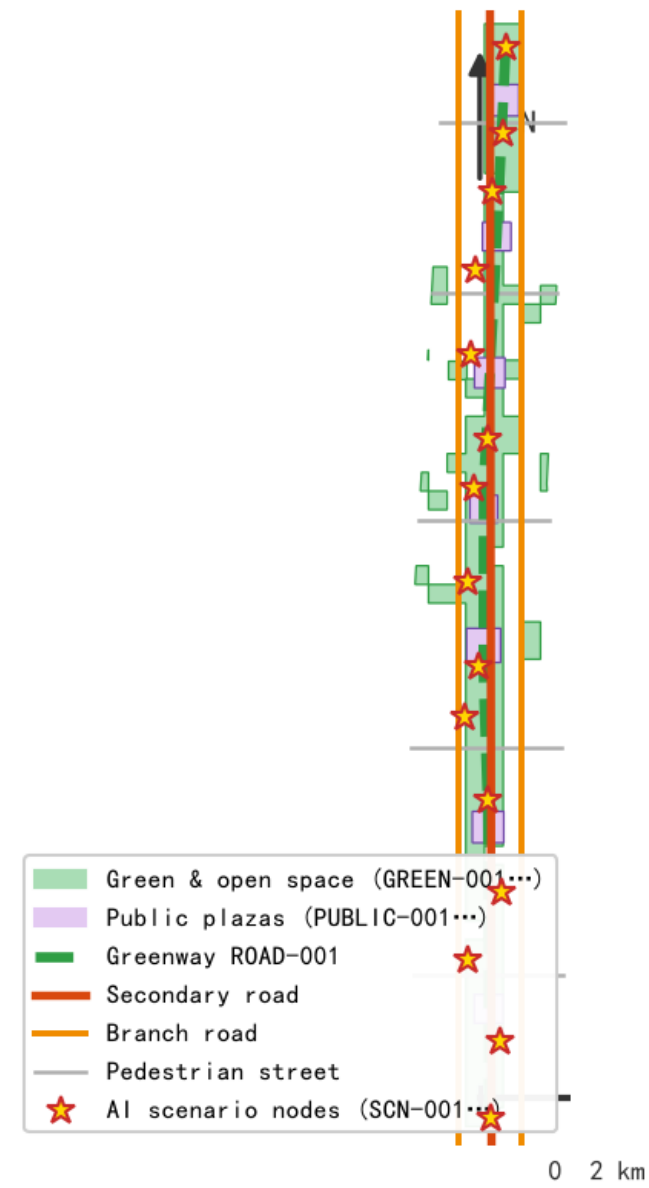

Dazhongsii AI Industry Cluster
PROV-KEY-003 72.0 ha

Metrics Evidence (recalculated by spatial_review.py)
all reproducible

Blue-Green Spine and Slow-Mobility Network
9 road segments | greenway ROAD-001 linking 12 green spaces and 7 public plazas

Data: submitted geometry layers (EPSG:4326); displayed in CGCS2000 / EPSG:4548 projection

Generated by AI agent | 2026 Redstone-UI | Data: geometry/, metrics.json, compliance.matrix.json | Status: deterministic validation PASS (intake) -> spatial review PASS (3 minor KEY_AREA_PROVISIONAL) -> visual packaging check -> professional evidence review.

This drawing set derives from the submitted geometry layers (geometry/*.geojson) and metrics.json for review discussion only; it is not statutory or a precise-area basis until official boundaries and controls are supplied.
