

CENTENNIAL JING-ZHANG AI BELT / OPEN URBAN DESIGN / 2026

PARALLAX JING-ZHANG

京张视差

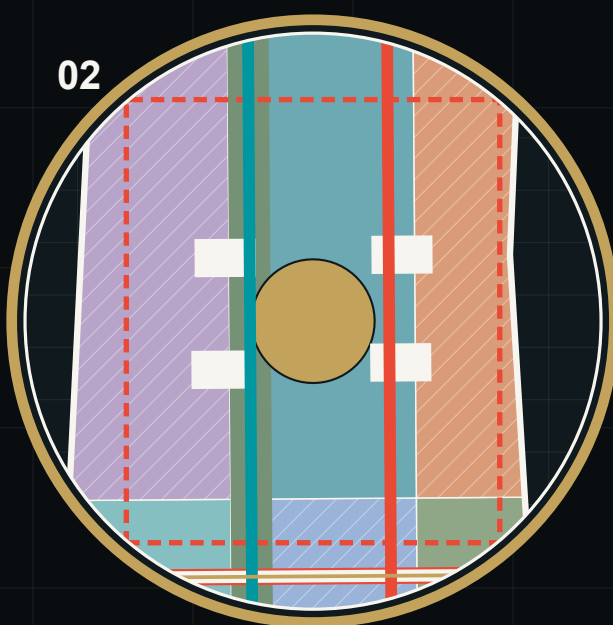

ONE CITY. MORE THAN ONE ANSWER.

Place model judgement beside lived experience, so the city can compare before it commits.

PROVISIONAL KEY AREA

THREE YARDS, THREE SPATIAL GRAMMARS

The model line records system judgement; the lived line records bodily passage; windows let each correct the other.

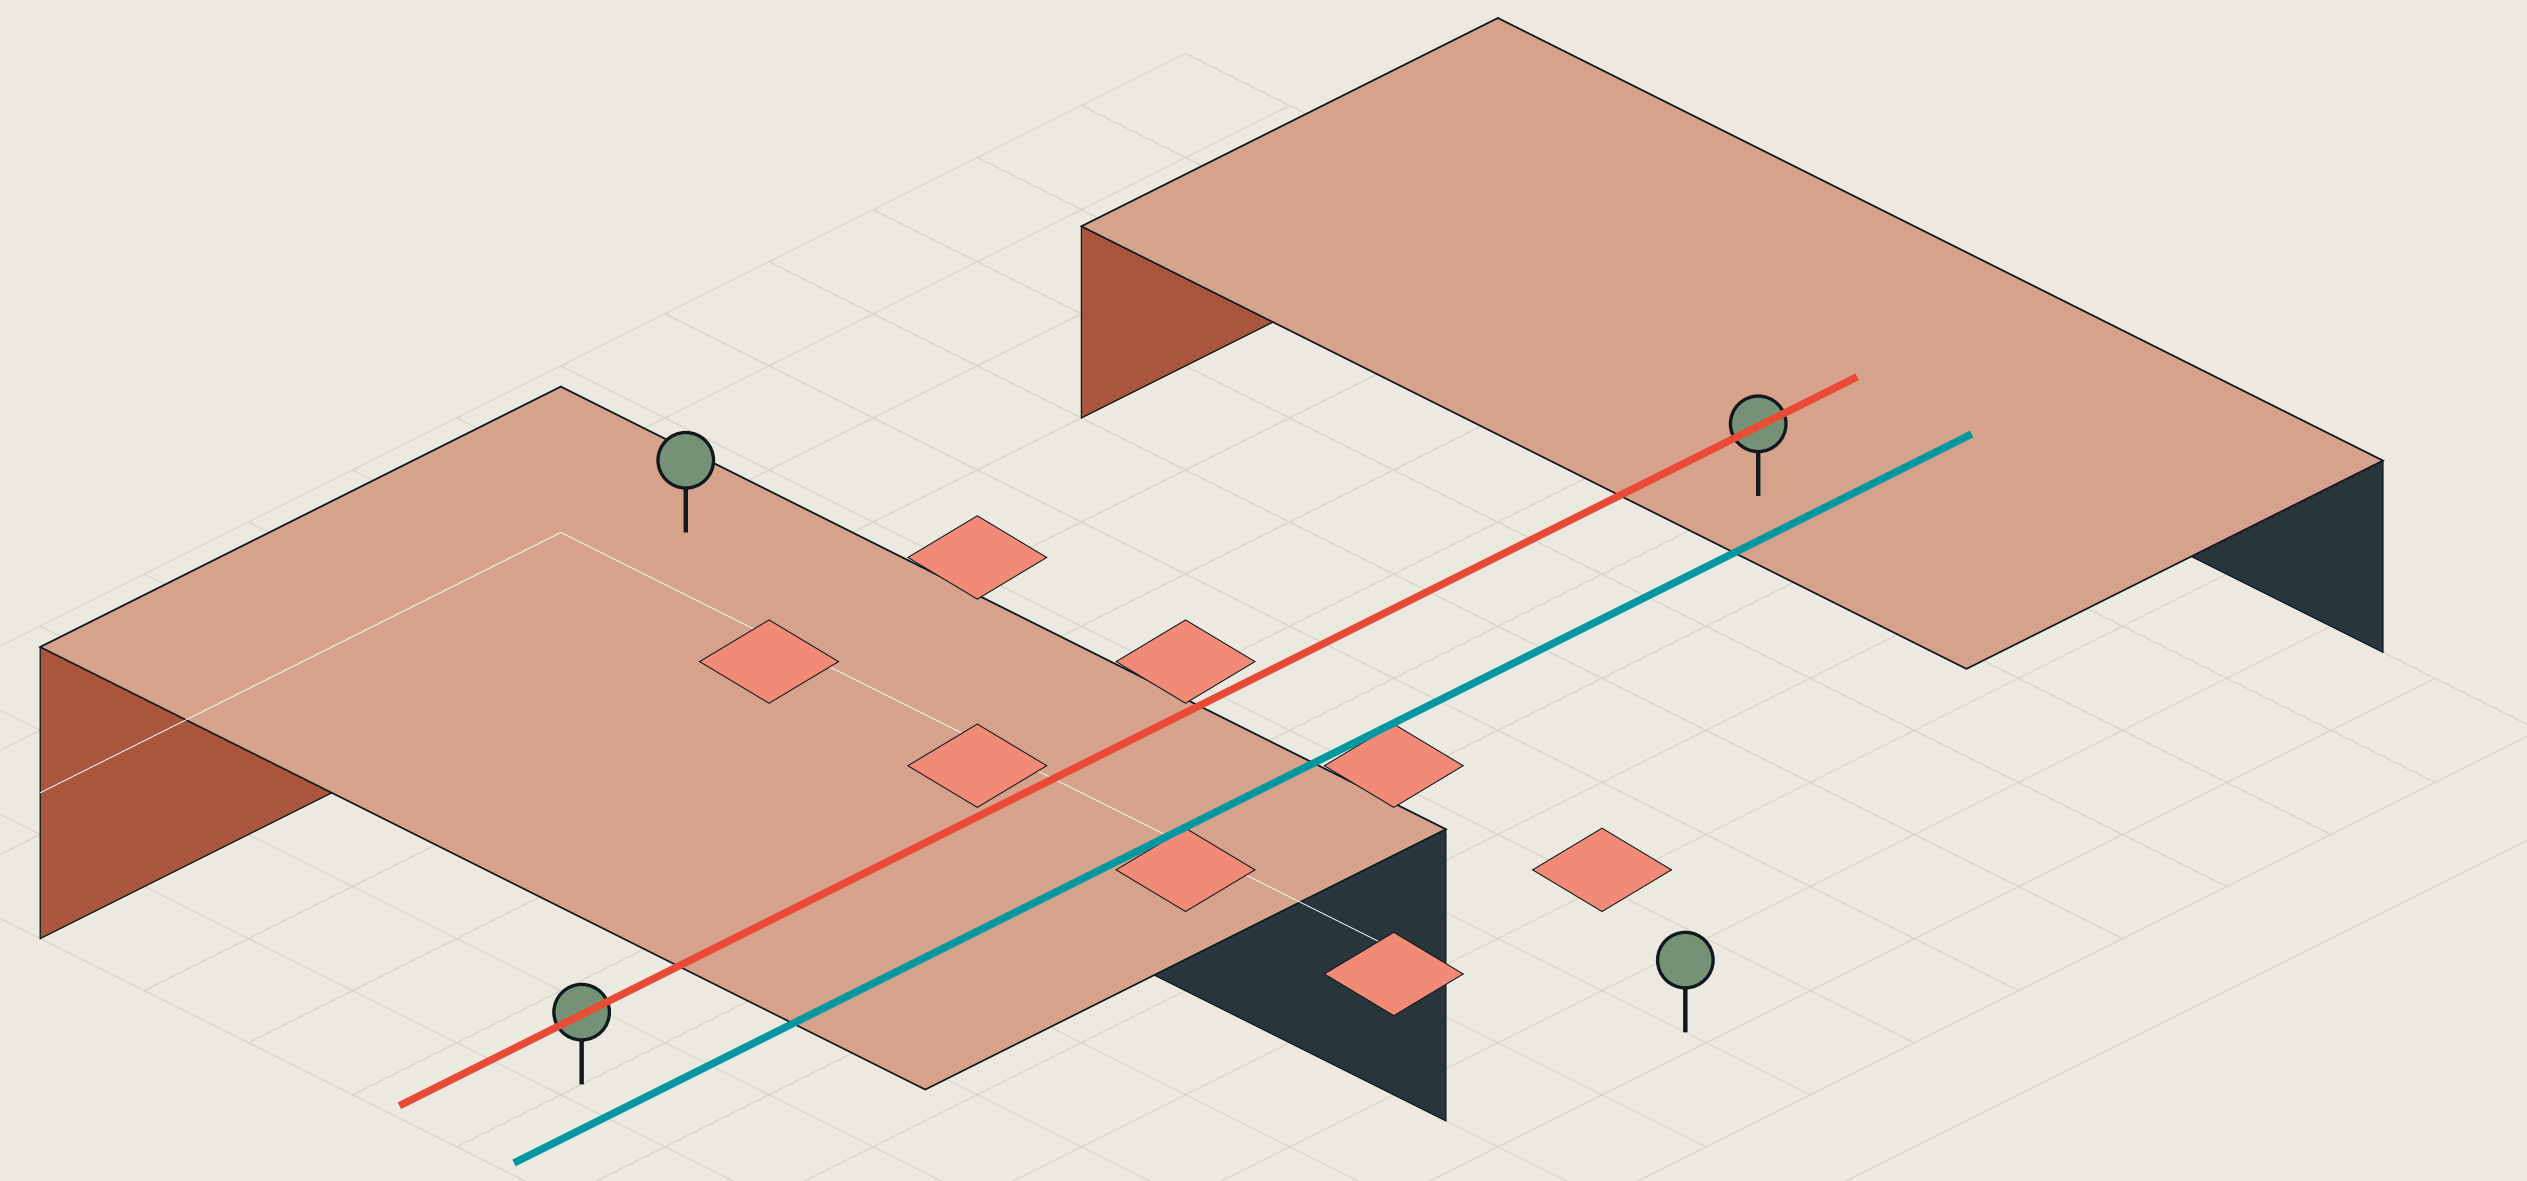

01 MODEL DIVERGENCE YARD

02 PUBLIC PARALLAX FORUM

03 POST-ADOPTION MARKET

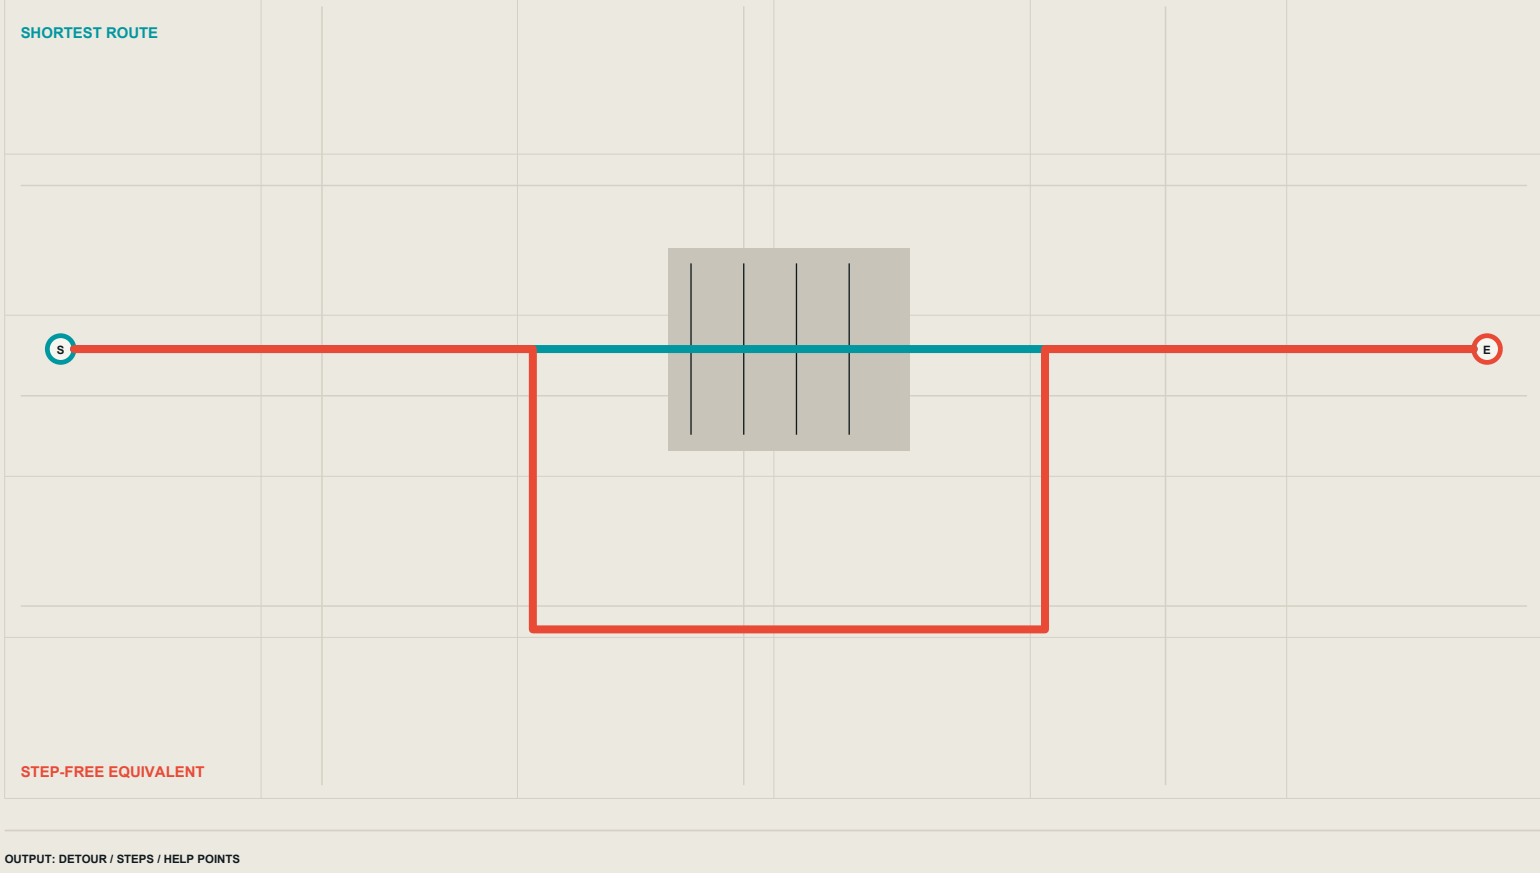

FIVE WINDOWS. FIVE DIFFERENT CHECKS.

Five comparison windows test accessibility, accountability, bodily comfort, risk boundaries, and post-adoption performance.

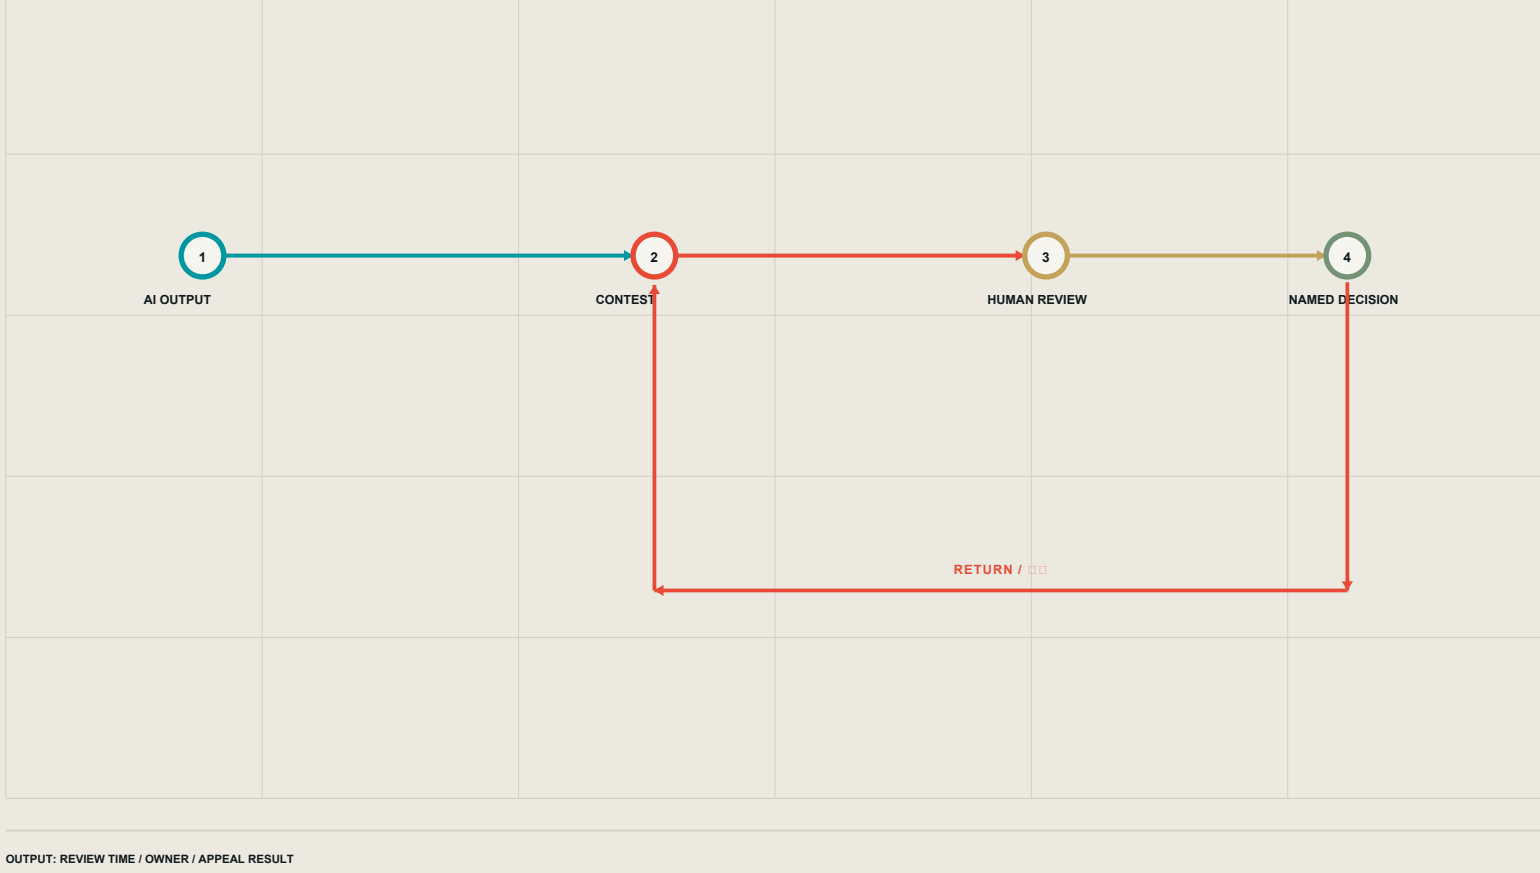

01 EQUIVALENT PATH

Can wheelchair users, seniors and people without physical access equity?

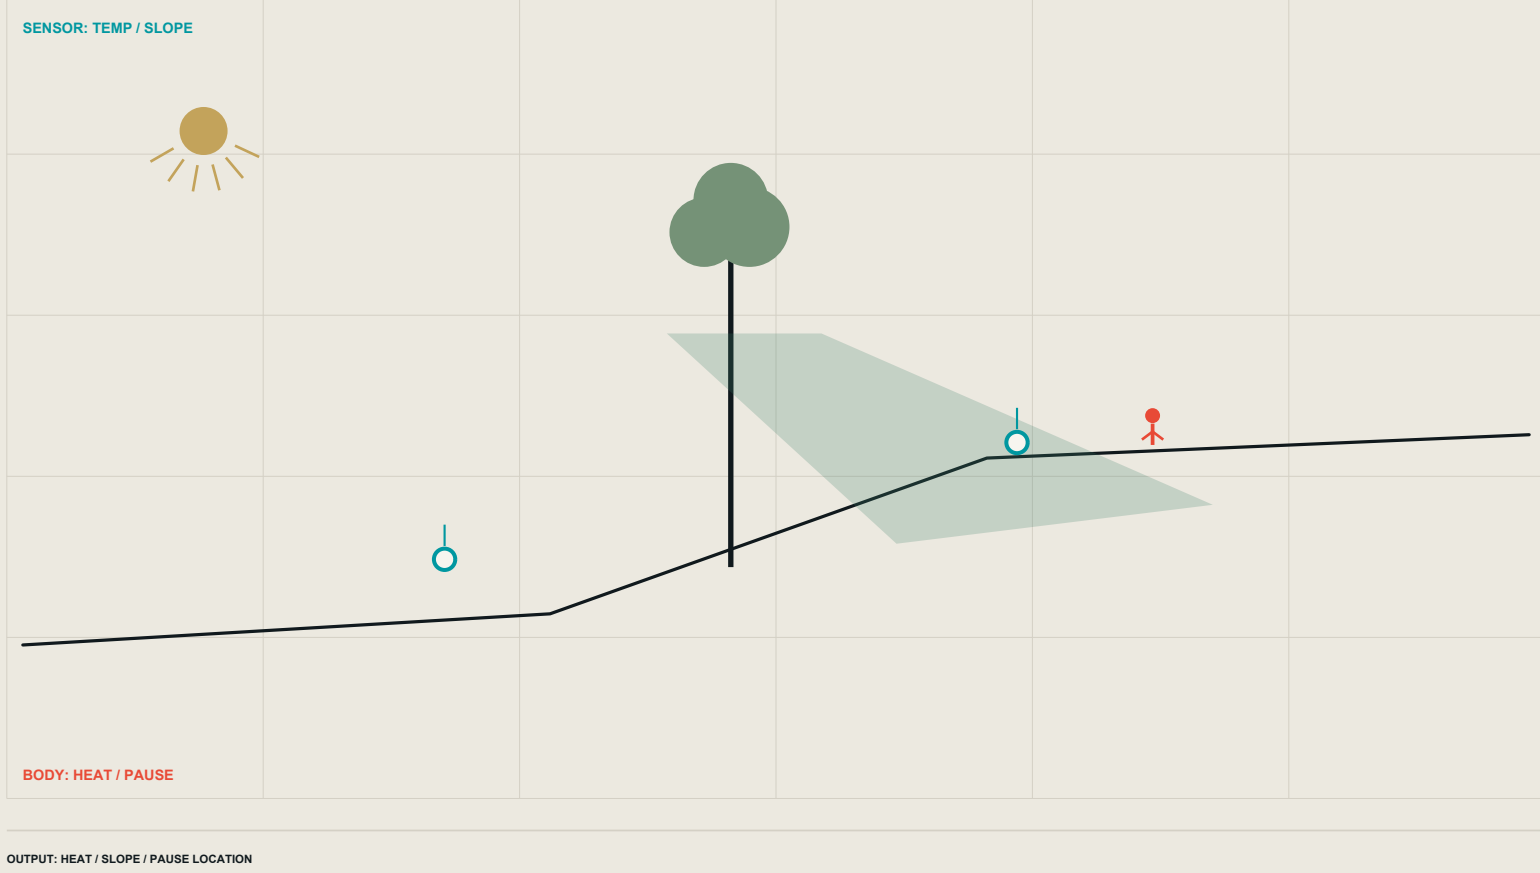

02 HUMAN REVIEW

Can a validated output reach a target person and inform a decision?

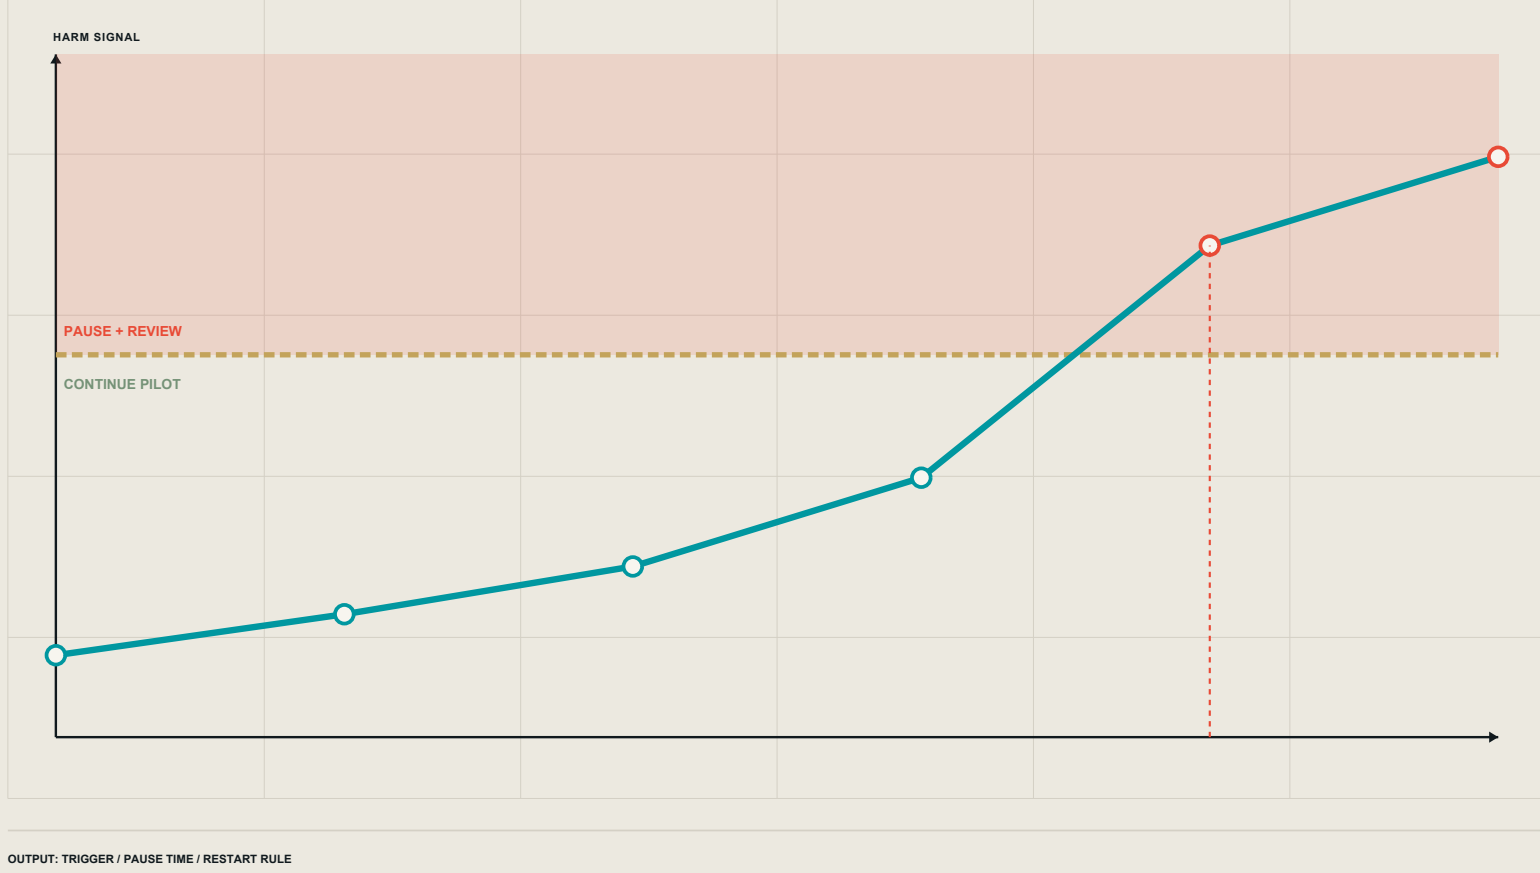

03 SHADE + SLOPE

Does sensor assessment agree with bodily heat and pass?

04 STOP TRIGGER

Which harm signal stops expression immediately?

05 POST-ADOPTION REVIEW

How far do long-term outcomes change from launch promise?
