

PROVISIONAL — not an official planning boundary or statutory area

- Everyday equivalence
- Maintenance debt
- Civic handoff
- Exit as service

02

JZ / CIVIC AI COMMONS

Land-use structure and three responsibility layers

Conceptual partitions cover the provisional area; AI enters only after ordinary service and maintenance responsibility are clear

Everyday layer

mobility / care / learning / commerce / culture

Civic AI layer

explain / assist / handoff / exit

Maintenance layer

shift / work order / review / retirement

04

JZ / CIVIC AI COMMONS

24-hour mobility, blue-green space and maintenance shifts

The public realm remains usable in ordinary, heat, night and offline conditions

OFFLINE: physical guidance, paper maps, phone and staffed support remain in service

Everyday equivalence

Compare digital and non-digital routes task by task; ordinary service remains after tool exit.

Maintenance debt

Make deferred repair, handoff, training and archiving visible and attributable.

Civic handoff

Residents, maintainers, operators and AI assistance form an open relay with named responsibility.

Exit as service

Pause, replacement and retirement are part of the public-service contract, not a failure.

Zhongzhiyuan

L01 Open Validation Yard

pre-release tests / failure archive / reversible trials

CONCEPTUAL / PROPOSED

AI Origin

L02 Civic Commons Desk

app, phone, paper and staffed equivalence

CONCEPTUAL / PROPOSED

Dazhongsi

L03 Centennial Handoff Hall

cultural memory / small commerce / international exchange

CONCEPTUAL / PROPOSED

Everyday equivalence

Compare digital and non-digital routes task by task; ordinary service remains after tool exit.

Maintenance debt

Make deferred repair, handoff, training and archiving visible and attributable.

Civic handoff

Residents, maintainers, operators and AI assistance form an open relay with named responsibility.

Exit as service

Pause, replacement and retirement are part of the public-service contract, not a failure.
