

CENTENNIAL JING-ZHANG

JZ-AI ORIGIN BELT

Conceptual Urban Design for the Centennial Jing-Zhang AI Innovation Belt

With Jing-Zhang heritage as a cultural layer, a civic intelligence axis links research, open collaboration, translation and public life through verifiable, reversible and durable operations.

KEY-AREA DOSSIERS

THREE KEY AREAS | BUSINESS SCENES, SPATIAL STRATEGY + OPERATIONS

Three premium business scenes map directly to the submitted key-area GeoJSON, with positioning, spatial and operating fields

01 DESIGN SCENE

ZHONGZHIYUAN

AI INNOVATION ACCELERATOR · FULL-STACK VALLEY

SUBMITTED-LAYER DETAIL

PROVISIONAL

POSITIONING

GATEWAY FOR AUTONOMOUS-INNOVATION VALIDATION + INDUSTRY COLLABORATION

SPATIAL STRATEGY

Open production ground floors to the heritage park, a public green valley links display, testing and business meetings

OPERATING MODEL

Bookable validation + weekly pitching + shared meetings and product experience

REVIEW EVIDENCE

PROV KEY 001 | ROAD PARCELS + GREEN CORRIDOR + NODE NETWORK

02 DESIGN SCENE

AI ORIGIN COMMUNITY

OPEN-SOURCE NEIGHBORHOOD · URBAN LIVING LAB

SUBMITTED-LAYER DETAIL

PROVISIONAL

POSITIONING

HUB FOR OPEN-SOURCE CULTURE, COMMUNITY SERVICE + YOUTH CO-CREATION

SPATIAL STRATEGY

Embed community services in a continuous city-edge pocket parks connect release, learning and daily life

OPERATING MODEL

Open-source release + community classes + youth co-creation + small-business events

REVIEW EVIDENCE

PROV KEY 002 | CIVIC REALM + SERVICES + POCKET PARK

03 DESIGN SCENE

DAZHONGSI

AI INDUSTRY CLUSTER · INTELLIGENT COMMERCE HUB

SUBMITTED-LAYER DETAIL

PROVISIONAL

POSITIONING

PREMIUM AI BUSINESS GATEWAY FOR INTERNATIONAL EXCHANGE

SPATIAL STRATEGY

Connect the station gateway to a continuous business living room framed by renewed industry and new urban edges

OPERATING MODEL

Enterprise pitching + business meetings + city showcase + premium evening programs

G0-G4 DELIVERY EVIDENCE GATES

AI RECOMMENDATIONS ARE NON-BINDING

G0

BASELINE LOCK

VERIFY

Verify official boundary/rights, heritage controls, accessibility and existing assets.

STOP: unresolved boundary, rights or safety baseline.

G1

INCLUSIVE CO-DESIGN

VERIFY

Log alternatives, dissent, priorities and inclusion co-test findings.

STOP: material dissent uncovered; no design freeze.

G2

1:1 PROTOTYPE

VERIFY

Test accessible routes, offline service, human takeover and night use.

STOP: no accessible fallback or human takeover; no trial.

G3

CONTROLLED TRIAL

VERIFY

Track uptime, complaints, incidents, exclusion events and human response.

STOP: safety or exclusion event triggers pause + review.

G4

INDEPENDENT SCALE REVIEW

VERIFY

Audit whole-life cost, operating handover, data and public value.

STOP: no independent pass; no scaling.

INCLUSION CO-TEST
