

CONCEPT / PROVISIONAL GEOMETRY: not a redline, engineering drawing, or approval basis.

One heritage line, three civic commons

CONCEPT / PROVISIONAL GEOMETRY

资料：公开征集与资料包 | 空间图层：概念建议 + 暂定几何，非红线、非工程图、非审批依据

A continuous walkable public frame carries the railway's temporal memory.

Verification, translation, and return are spatially distinct—not one generic AI campus.

Source, test, release, review, return: each names a steward, review date, and stop condition.

Zhongguancun service wing: make IP, capital, compute, and conversion approachable. Xiaoyuehe scenario wing: test ecology and everyday service with low data and a clear exit path.

One heritage slow-mobility, climate, and service spine joins verification, translation, and return into a readable, questionable, pausable daily civic interface.

Shade, rainwater, inclusive pause, low-glare information, and human help share one section. AI is an explainable, pausable, cared-for service.

Verification, translation, and return each receive a walkable, bookable, maintainable public interface.

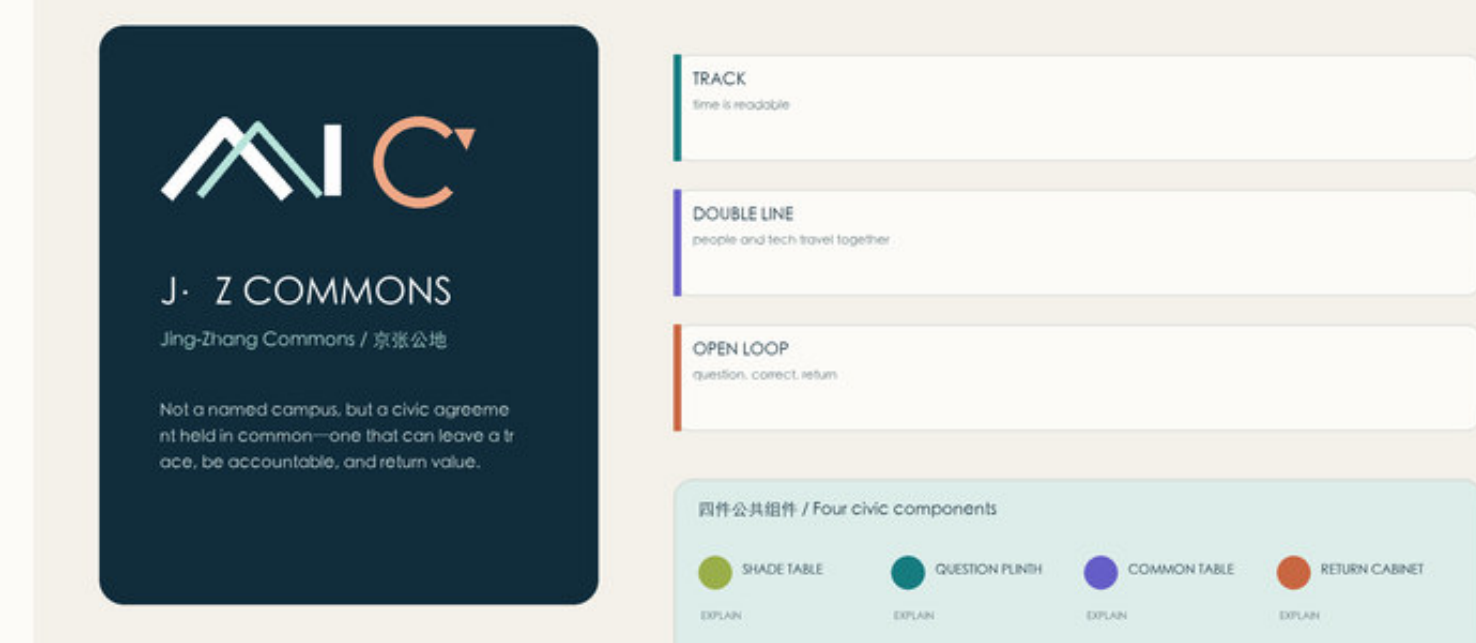

资料：公开征集与资料包 | 空间图层：概念建议 + 暂定几何，非红线、非工程图、非审批依据

Zhongzhiyuan: Verifiable Window | AI Origin: Translation Arcade | Dazhongsi: Return Station. Landmarks are service interfaces, not isolated sculpture.

J. Z COMMONS: not a logo, but a civic promise

Track is time, double line is companionship, and an open loop is a civic relation that can be questioned, corrected, and returned.

7. CONVENTION • 2.0.0.0

Implementation is not a schedule: trust before scale

RESEARCH: CONVENTION, CREDIBILITY, COMPETENCE, COMMUNITY, COMPATIBILITY

Trust comes before scaled adoption

Plan Design Build Deploy

Three constraints, three aspects of trust

- COMPATIBILITY**
CONVENTION (CONVENTION) (CONVENTION)
- COMPETENCE**
CREDIBILITY (CREDIBILITY) (CREDIBILITY)
- COMMUNITY**
COMPATIBILITY (COMPATIBILITY) (COMPATIBILITY)

Kube and K8s

- PROVIDES**
CONVENTION (CONVENTION) (CONVENTION)
- PROVE**
CREDIBILITY (CREDIBILITY) (CREDIBILITY)
- COMPATIBLE**
COMPATIBILITY (COMPATIBILITY) (COMPATIBILITY)

Provisional area 11,412,825 m²; rerun spatial values when official geometry arrives.
