

Dazhongsi detail: four spatial gates of the 100 m Public Acceptance Street

NO AI / TIME-LIMITED RUN / FAILURE RECOVERY REVIEWED ON ONE SHEET

JZ-04 · A=STREET OPERATOR · L2 · G1-G3

FIRST EVIDENCE: NO DIGITAL GATE + ≤ 30 s HUMAN HANDOVER + PAPER RECEIPT

RESTORE: REMOVE PLUG-IN; RETURN TO STAFFED ORDINARY SERVICE

NO AI

ORDINARY SPACE COMPLETE

TIME-LIMITED

PASS CLOSED + STAFF PRESENT

FAILURE RECOVERY

REMOVE PLUG-IN + KEEP ORDINARY SERVICE

One PASS, three non-interchangeable urban spaces

EACH AREA SHOWS SCENE, CONCEPT PLAN, SECTION, ACCOUNTABILITY AND FAILURE RECOVERY

ZHONGZHIYUAN | SAFETY ACCEPTANCE GARDEN

STOPPABLE

JZ-02 · A=SITE OPERATOR · L2 · G1-G3

FIRST EVIDENCE: DUAL PATH + PHYSICAL STOP + CONTINUOUS GARDEN

RESTORE: REMOVE TEST KIT; KEEP THE PUBLIC GARDEN

APPROX. 1:1000 SPATIAL PROTOTYPE | NOT SURVEY / CONSTRUCTION

AI ORIGIN | RIGHTS + CONTRIBUTION ARCADE

WITHDRAWABLE

JZ-03 · A=CAMPUS OPERATOR · L2 · G1-G3

FIRST EVIDENCE: SOURCE-QUESTION-CORRECT-WITHDRAW LOOP

RESTORE: REMOVE AI; KEEP THE ORDINARY PUBLIC ARCADE

APPROX. 1:1000 SPATIAL PROTOTYPE | NOT SURVEY / CONSTRUCTION

DAZHONGSI | 100 m PUBLIC ACCEPTANCE STREET

HAND-BACK READY

JZ-04 · A=STREET OPERATOR · L2 · G1-G3

FIRST EVIDENCE: NO DIGITAL GATE + ≤30 s HUMAN HANDOVER + PAPER RECEIPT

RESTORE: REMOVE PLUG-IN; RETURN TO STAFFED ORDINARY SERVICE

APPROX. 1:1000 SPATIAL PROTOTYPE | NOT SURVEY / CONSTRUCTION

Eight delivery contracts: place, owner, cost, gate, KPI and exit locked project by project

IMPLEMENTATION IS NOT ONE GLOBAL RACI: EACH PROJECT ENTERS, PASSES, STOPS AND RESTORES INDEPENDENTLY

JZ-01

Commons-spine continuity diagnosis

A: corridor programme lead | L1 | G0-G1

0-30

publish known-assumed-unknown gap atlas and field-audit route

31-60

walk every conditional segment with ordinary and step-free route checks

61-90

issue prioritized stitch briefs; no capital work

MIN

six-segment gap atlas + one field-audit route

KPI

100% of six segments has a source status, ordinary route, owner and next evidence

STOP / RESTORE: stop spatial claims when provenance is absent; retain the existing ordinary route

JZ-02

Zhongzhiyuan Safety Acceptance Garden

A: Zhongzhiyuan site operator | L2 | G1-G3

0-30

mark the no-AI garden route and verify logistics separation

31-60

assemble one removable test bay and rehearse the physical stop

61-90

run only time-limited, staffed public acceptance sessions

MIN

1 removable test bay + 1 physical stop + 1 ordinary clear route

KPI

dual-path drill passes; ordinary 3.0 m target clear route remains continuous

STOP / RESTORE: loss of control, blocked clear route or absent operator returns the site to an ordinary public garden

JZ-03

AI Origin Rights and Contribution Arcade

A: AI Origin campus operator | L2 | G1-G3

0-30

clear one output's provenance, licence, human contact and withdrawal route

31-60

fit one reversible window-desk-table sequence without closing the ordinary lane

61-90

publish, question, correct and withdraw one test output

MIN

1 output window + 1 rights desk + 1 co-test table + 1 everyday lane

KPI

100% public outputs show source, licence, owner, version and withdrawal state

STOP / RESTORE: unclear source, missing withdrawal or blocked passage returns the arcade to a non-AI public display

JZ-04

Dazhongsi 100 m Public Acceptance Street

A: Dazhongsi street operator | L2 | G1-G3

0-30

confirm an ordinary phone-free route, staffed counter and conditional A/B/C connection type

31-60

install removable four-gate furniture and rehearse handover, appeal and rollback

61-90

admit one reversible scenario only after its own PASS closes

MIN

100 m concept PASS Street + 4 removable gates + 1 staffed counter

KPI

zero mandatory digital gate; human handover target <=30 s; appeal receipt available

STOP / RESTORE: failed handover, unavailable appeal or blocked passage removes the plug-in and restores staffed ordinary service

JZ-05

Twelve-scenario public-acceptance protocol

A: public-acceptance programme office | L1 | G0-G2

0-30

complete owner, data, human-final, retention, appeal and no-AI fields for every passport

31-60

run twelve pass and twelve blocked synthetic paths offline

61-90

publish failures and permit only independently accepted scenario pilots

MIN

12 scenario passports + 24 offline synthetic paths

KPI

12/12 complete passports and 24/24 expected tabletop results

STOP / RESTORE: any missing gate or red-line failure keeps AI off and invokes that place's no-AI baseline

JZ-06

Jing-Zhang contribution and memory nodes

A: heritage interpretation curator | L1 | G0-G2

0-30

clear citations and label every known, assumed and unknown heritage claim

31-60

prototype one reversible marker and one paper archive card

61-90

publish corrected narrative and contribution record

MIN

1 reversible marker + 1 paper archive card

KPI

100% displayed historical statements have a public citation and human editor

STOP / RESTORE: disputed or unverified material is removed; ordinary wayfinding remains

JZ-07

Data consent and appeal living room

A: independent appeal-office lead | L1-L2 | G0-G3

0-30

staff the ordinary desk and publish a paper route before any AI service

31-60

rehearse receipt, correction, deletion and escalation

61-90

audit every accepted pilot's appeal route weekly

MIN

1 staffed desk + paper receipts + weekly independent audit

KPI

acknowledgement target within one workday; response target within five workdays

STOP / RESTORE: unavailable independent appeal pauses linked scenarios and retains the staffed ordinary desk

JZ-08

Annual Open Intelligence Commons programme

A: commons programme secretariat | L1 | G3-G4

0-30

publish open problem, eligibility, rights and safety rules

31-60

select only teams with named responsibility and exit evidence

61-90

run the accepted pilot and publish successes, failures and corrections

MIN

1 open call + 1 accepted pilot + 1 post-mortem

KPI

every public programme publishes owner, rights, failure record and next decision

STOP / RESTORE: no named owner or rights clearance cancels the AI programme; ordinary public use continues

DISTRIBUTIONAL FAIRNESS CHECK
