

Centennial Jing-Zhang

REN BELT

People-first AI urban design · operable conceptual suggestions

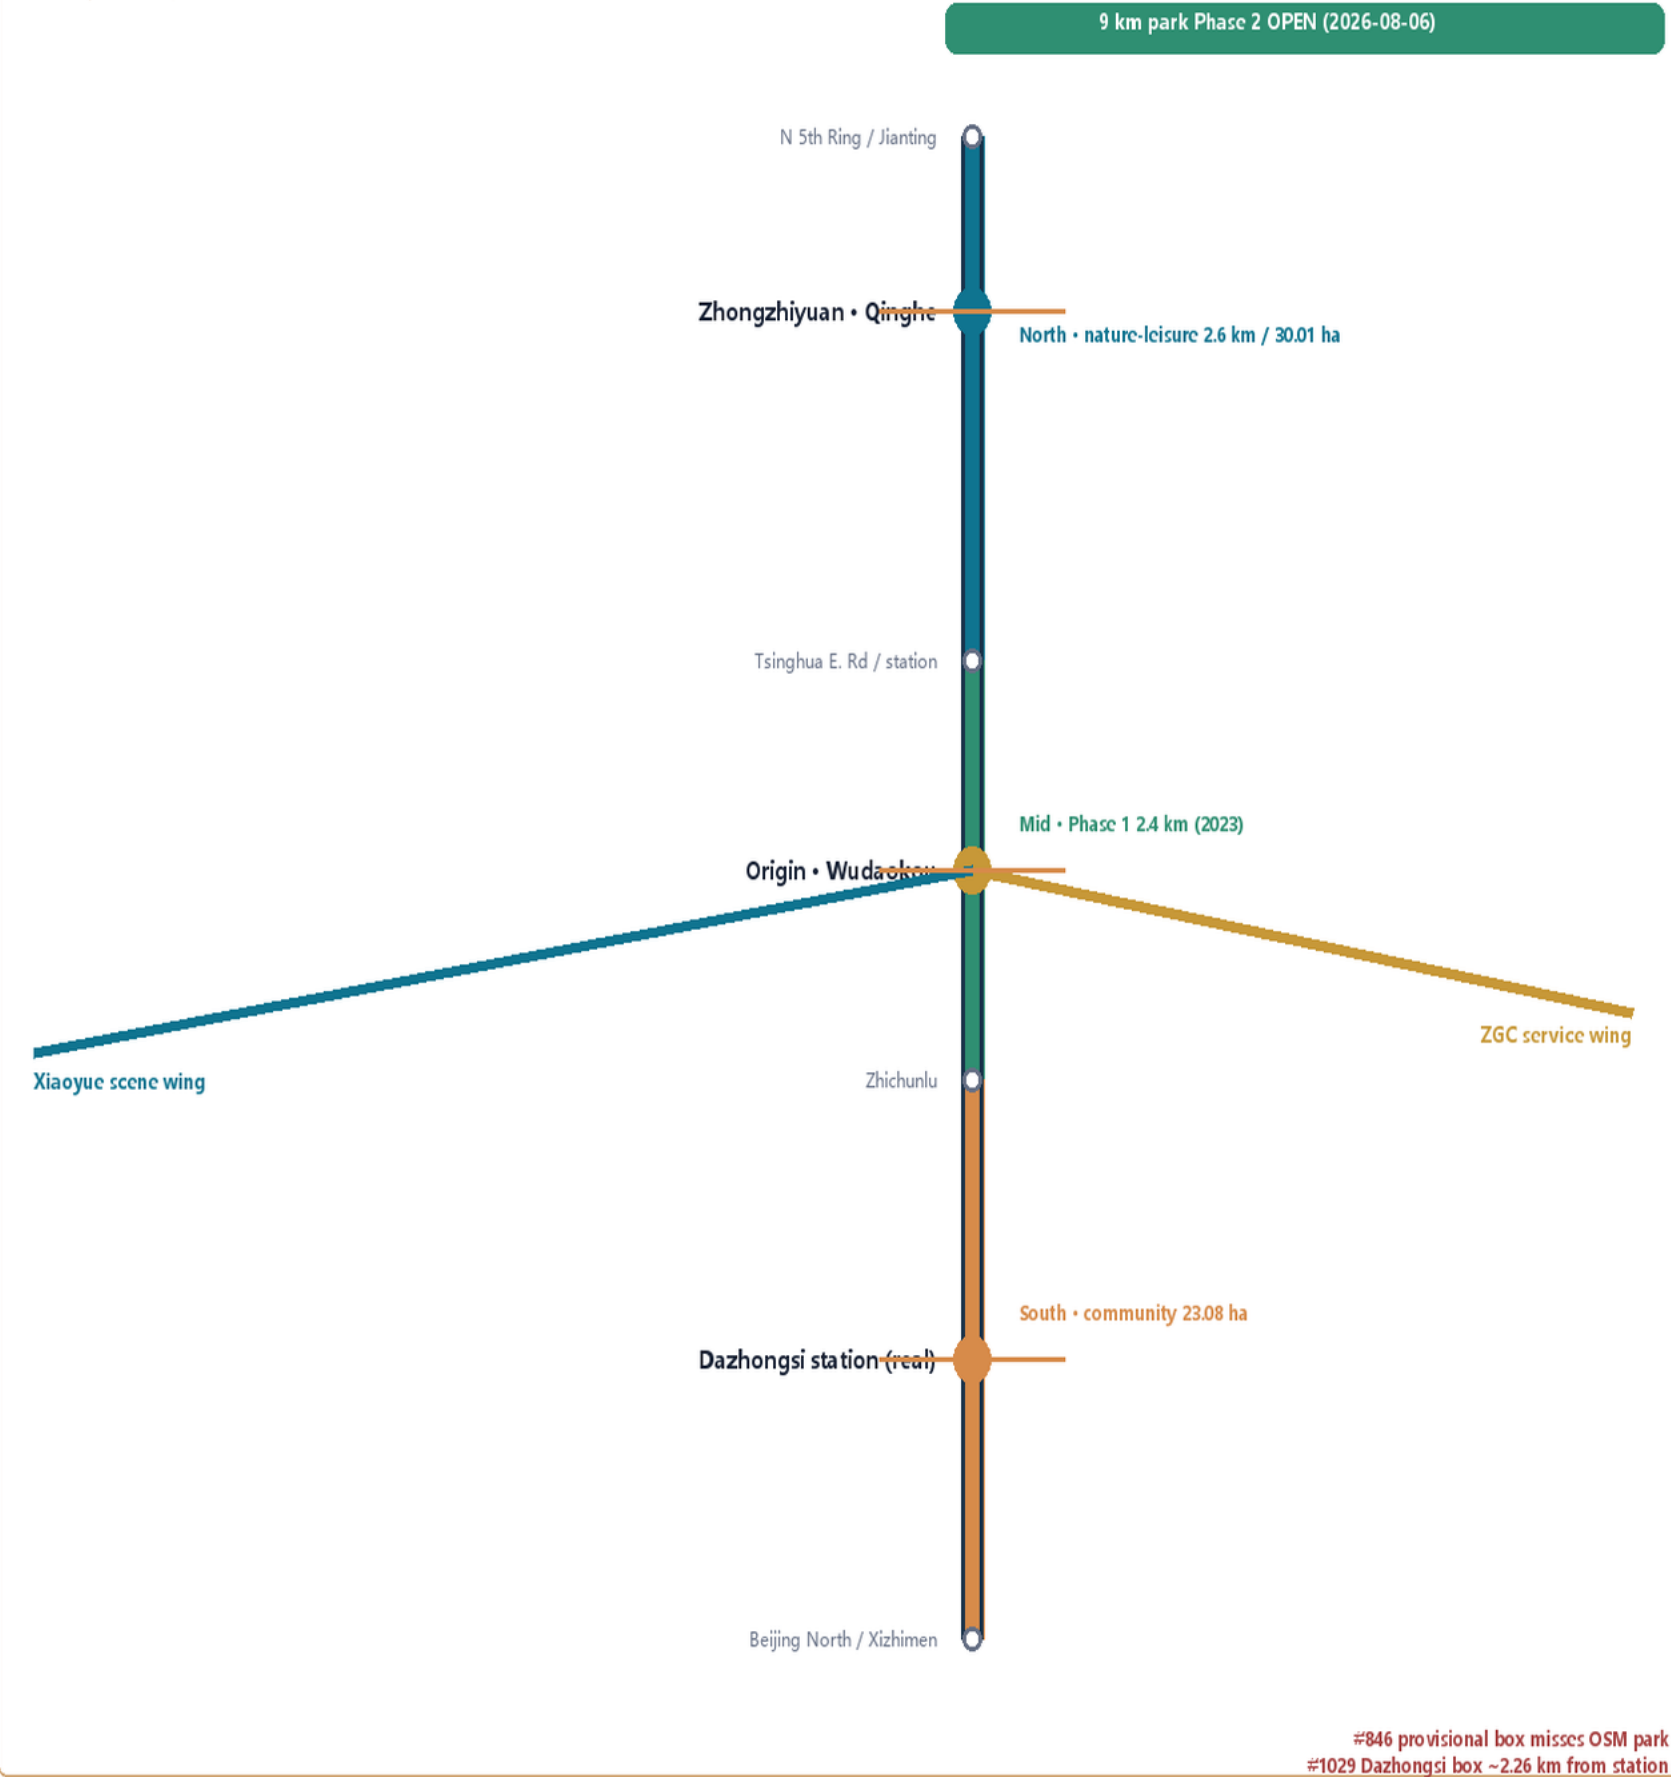

Dashed = provisional, not a redline

v1.4 operating rule

1. Park Phase 2 is about 9 km; opened 2026-08-06.
 2. North / mid / south assign scenes, not redlines.
 3. Cross-district work keeps checkable interfaces only.
 4. Year-1 events land on already-open places.
 5. L0 built → L3 redline; boxes are not redlines.

Implementation rule (this revision)

The greenway is already open. This package does not treat "complete the 9 km" as a future build.

Near term: operate the three slow-traffic ways, fix access gaps, overlay switch-off AI scenes. Demolition, rail protection and redline engineering stay mid/long-term and talk to already-gazetted projects.

L0 built

9 km three ways, 9 streets, Origin block, 1733 station-city

L1 reversible

JZ-01/03/05/06/11: wayfinding, plaza, guide, AI Week, access audit

L2 permitted

JZ-02/04/08/10: Qinghe, transfer street, frontage, retail street

L3 redline

JZ-07/09/12 talk to Lanjinglijia; no official polygon → no works

Year 1 on already-open places

Q1 Origin block (Wudaokou)
Open Call Lab

Q2 North Jianting–Qinghe
Blue-green repair week

Q3 South greenway / 1733 backup
AI Belt Week

Q4 Tsinghuayuan–Phase 1
Audit + memory walk

Cross-district: checkable interfaces only

Huilongguan cycleway

53 ha opened park ≠ 273.5 ha schematic green

Keep the two areas apart: public reports give the opened park at about 53 ha; this package's green_space (~273.5 ha) is a schematic layer inside the provisional box, not a surveyed park area.
