

JING-ZHANG SPARK LINE

京张·星火带

From the first spark of self-driven innovation to an intelligent-age constellation

京张·星火带 / JING-ZHANG SPARK LINE • 总体设计范围总览

临时边界（虚线） 仅示意非官方红线；星火主脉与三区(进发→蕴育→燎原)为概念设计 / Provisional boundary (dashed); Spark-Line spine and three zones are concept-level

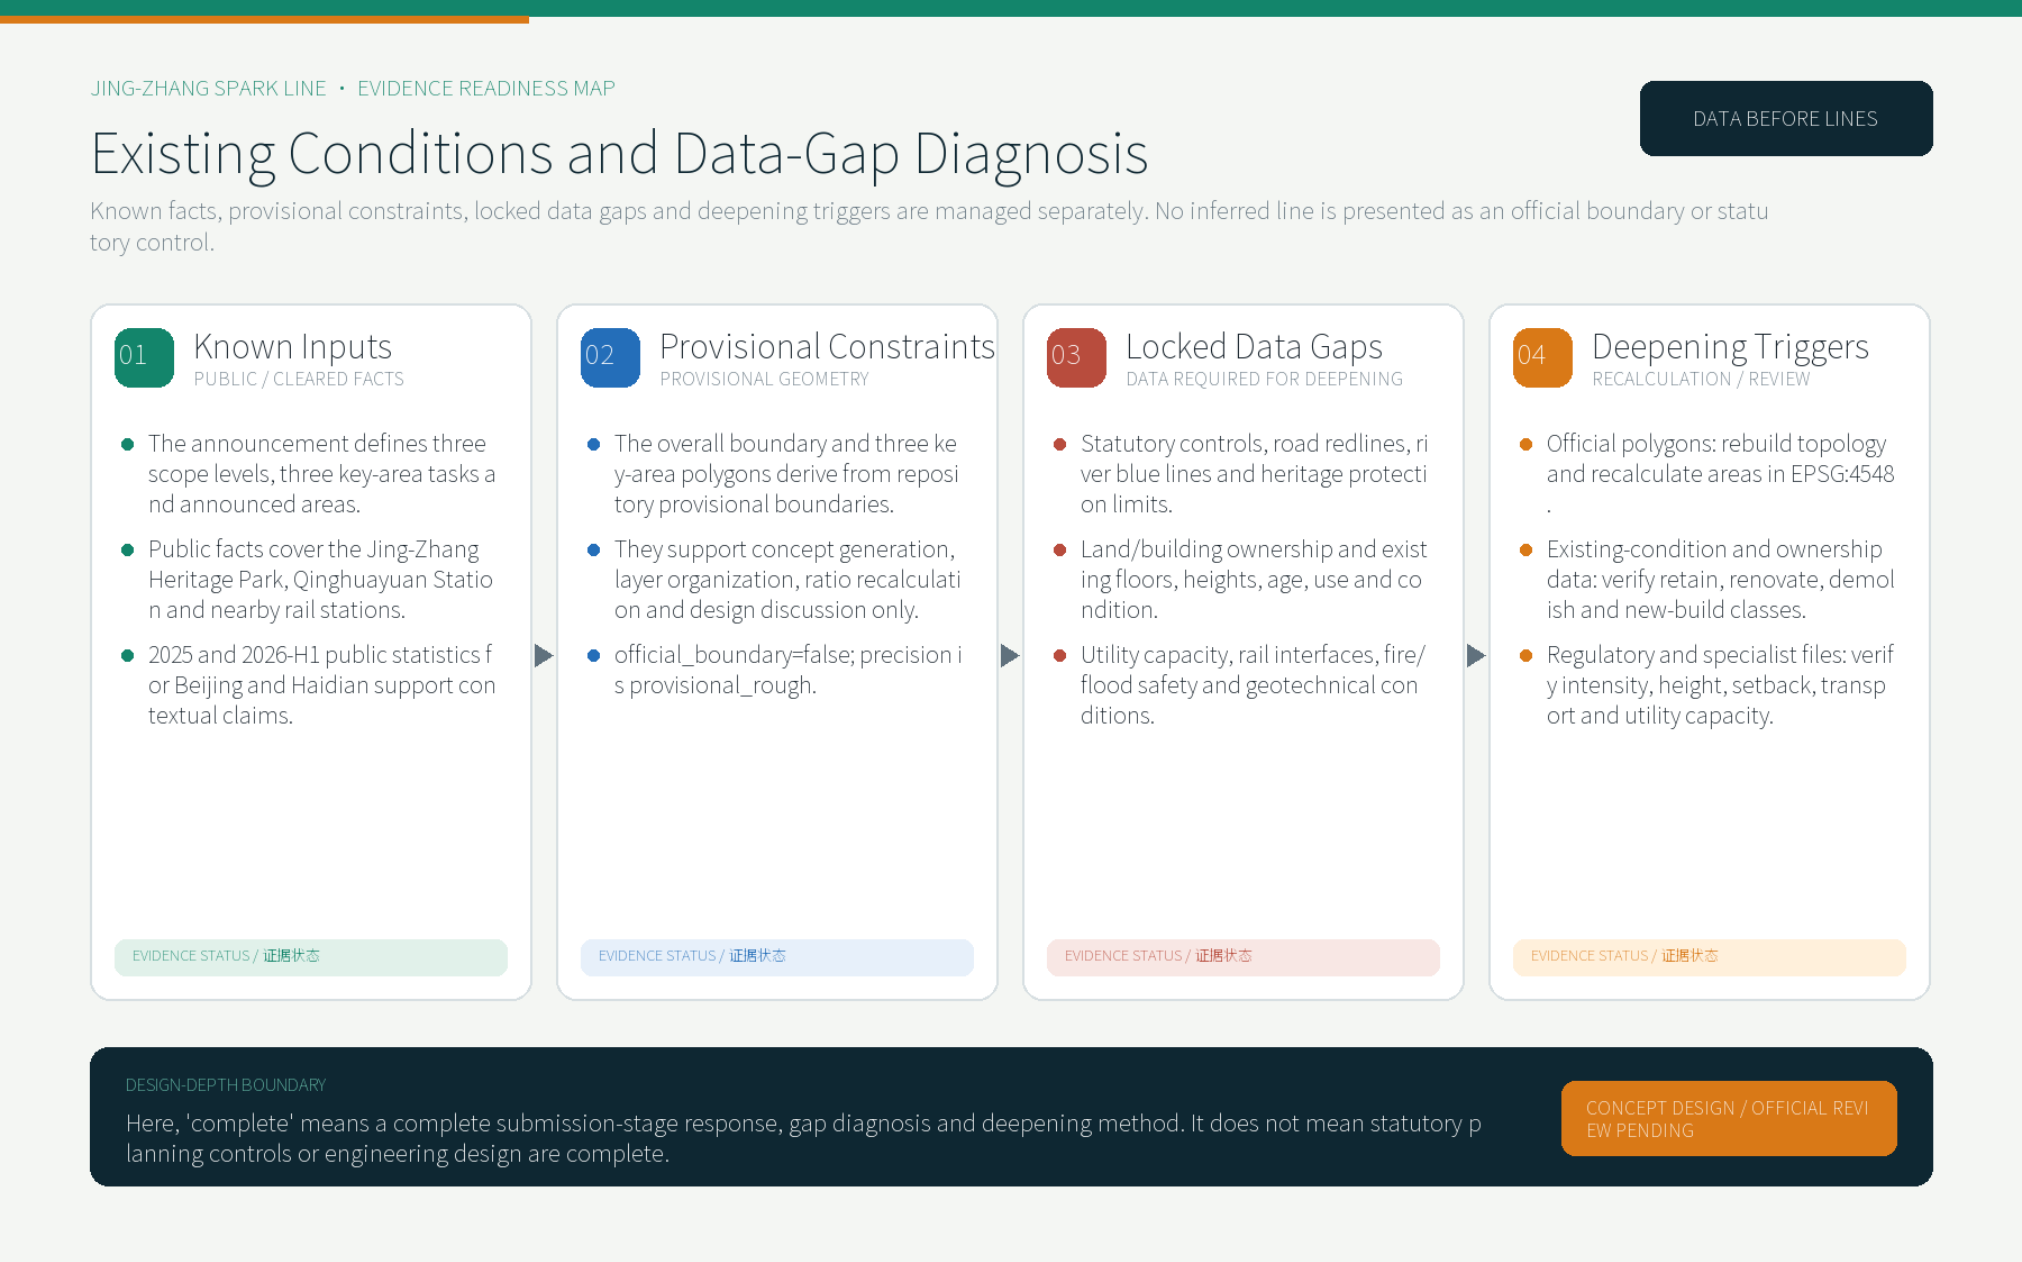

Design judgment	From the first spark of self-driven innovation to an intelligent-age constellation
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

Concept design / provisional evidence / official review pending

Design Basis and Evidence Boundary

Known inputs, provisional constraints, locked gaps and triggers

Submission-stage completeness means a complete response and deepening path, not completed statutory planning or engineering design.

Design judgment	Submission-stage completeness means a complete response and deepening path, not completed statutory planning or engineering design.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

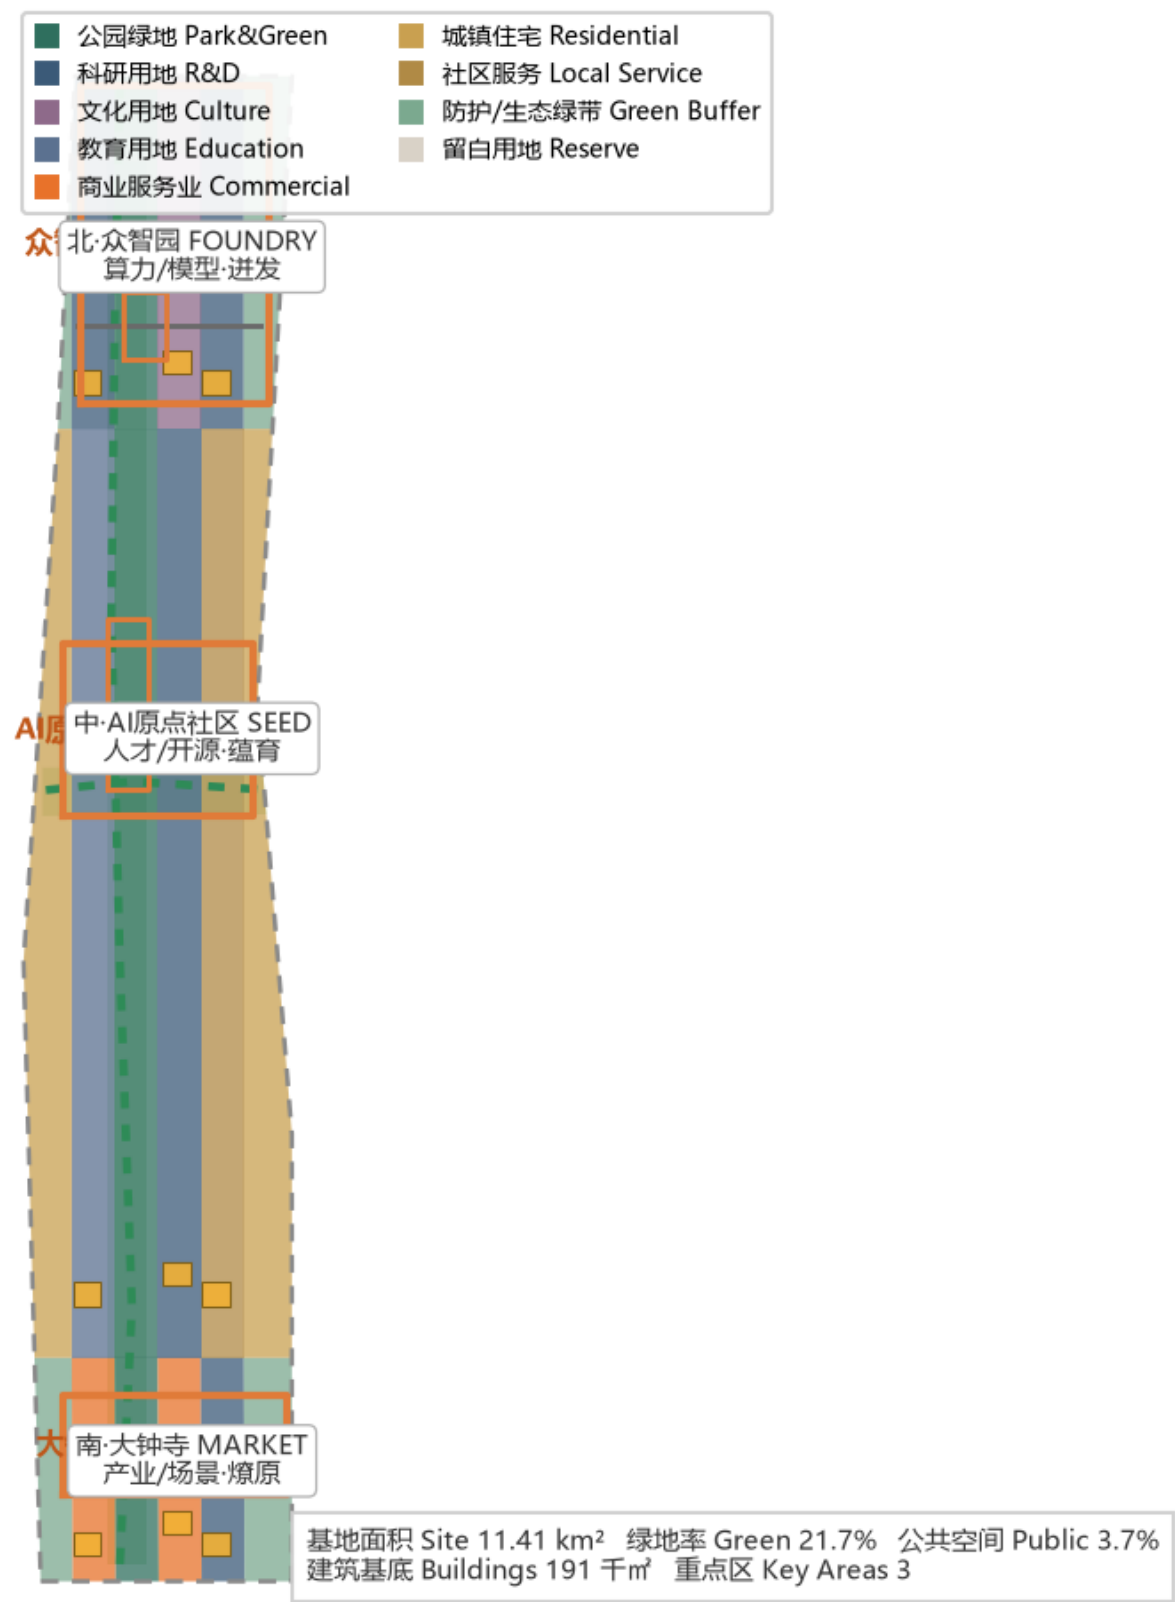

Concept design / provisional evidence / official review pending

Evidence Chain

Human reading and machine audit

GeoJSON and metrics are authoritative; proposal, figures, PDFs and visual pages explain them.

JING-ZHANG SPARK LINE • Overall Site Overview / 京张·星火带总体设计范围总览

Provisional boundary (dashed), concept-level design intent only; Spark-Line spine and three zones

Design judgment	GeoJSON and metrics are authoritative; proposal, figures, PDFs and visual pages explain them.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

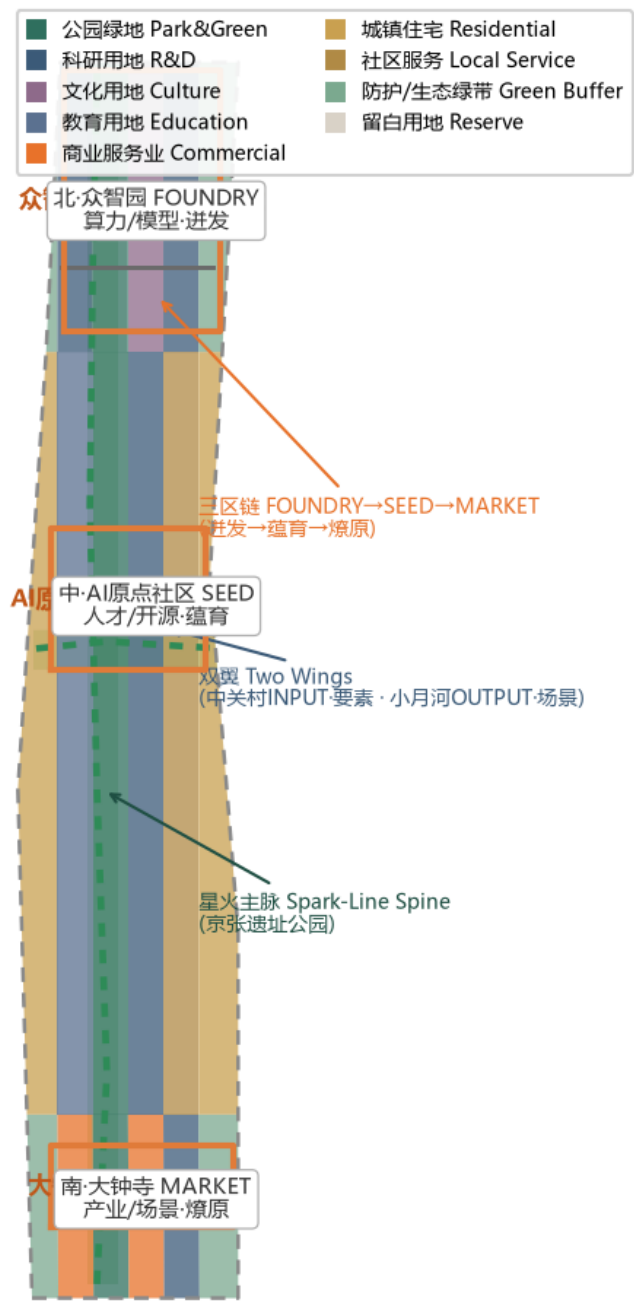

Concept design / provisional evidence / official review pending

Three Scope Levels

Strategy, structure and key areas

The 43.6 km² research scope is strategic; the 11.4 km² overall and three key areas use provisional polygons.

JING-ZHANG SPARK LINE -- Spark-Line Spine & AI Full-Stack Land-Use Structure

Land-use partition covers the full submitted boundary without gaps or overlaps (EPSG:4548 recalculated). Provisional boundary only.

Design judgment	The 43.6 km ² research scope is strategic; the 11.4 km ² overall and three key areas use provisional polygons.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

Concept design / provisional evidence / official review pending

AI-Era Evidence

Beijing and Haidian industry, talent and mobility

Core evidence comes from public 2025 and 2026-H1 reports; low-confidence estimates are excluded from the main figure.

JING-ZHANG SPARK LINE • 2025/2026 EVIDENCE

Primary public data, used as context rather than site-specific planning control

GENERATIVE AI

602M users

42.8% penetration · CNNIC 57th

BEIJING AI

> CNY 450B

2025 core-industry estimate

HAIDIAN

CNY 1.369T

2025 GDP · 123 filed models

BEIJING MOBILITY

3.57B rail trips

2025 · green travel 76.5%

All values are registered in sources.json; provisional geometry remains separate.

Design judgment	Core evidence comes from public 2025 and 2026-H1 reports; low-confidence estimates are excluded from the main figure.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

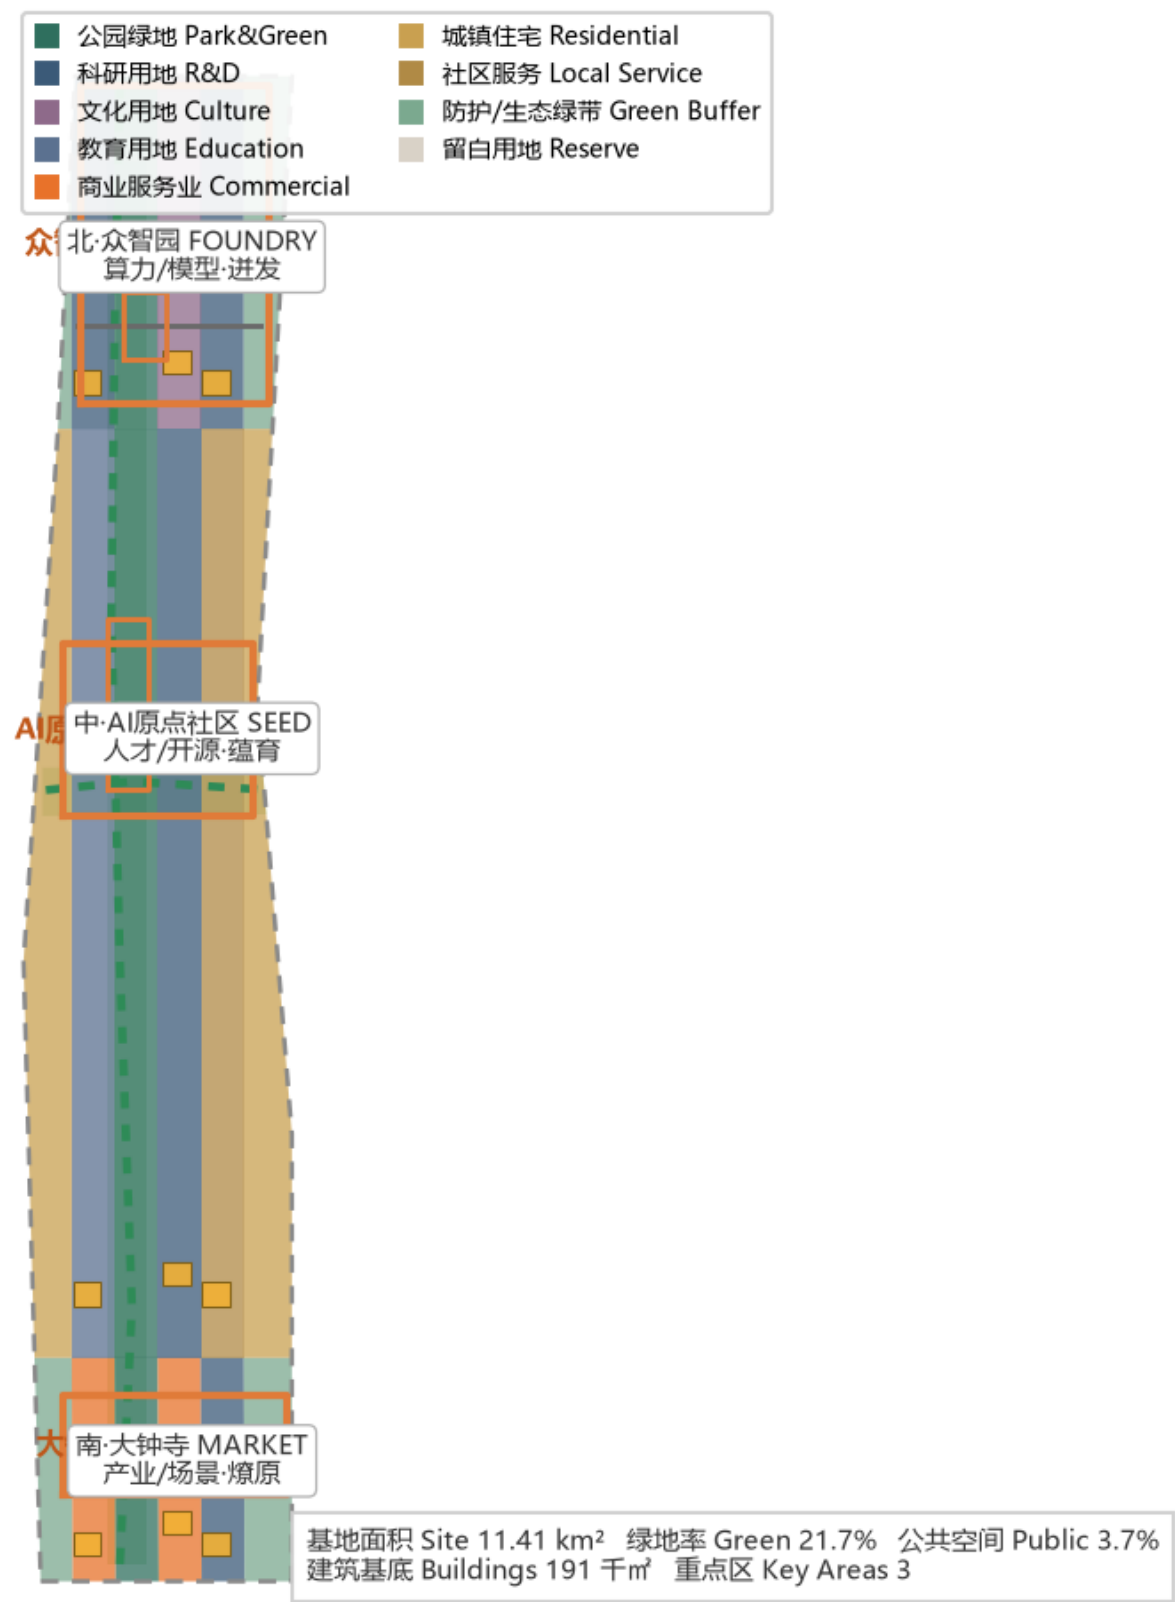

Concept design / provisional evidence / official review pending

Overall Structure

Spark spine + three-zone chain + two wings + ecological corridor

The heritage-park slow spine links full-stack innovation, transfer, market scenarios and public life.

JING-ZHANG SPARK LINE • Overall Site Overview / 京张·星火带总体设计范围总览

Provisional boundary (dashed), concept-level design intent only; Spark-Line spine and three zones

Design judgment	The heritage-park slow spine links full-stack innovation, transfer, market scenarios and public life.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

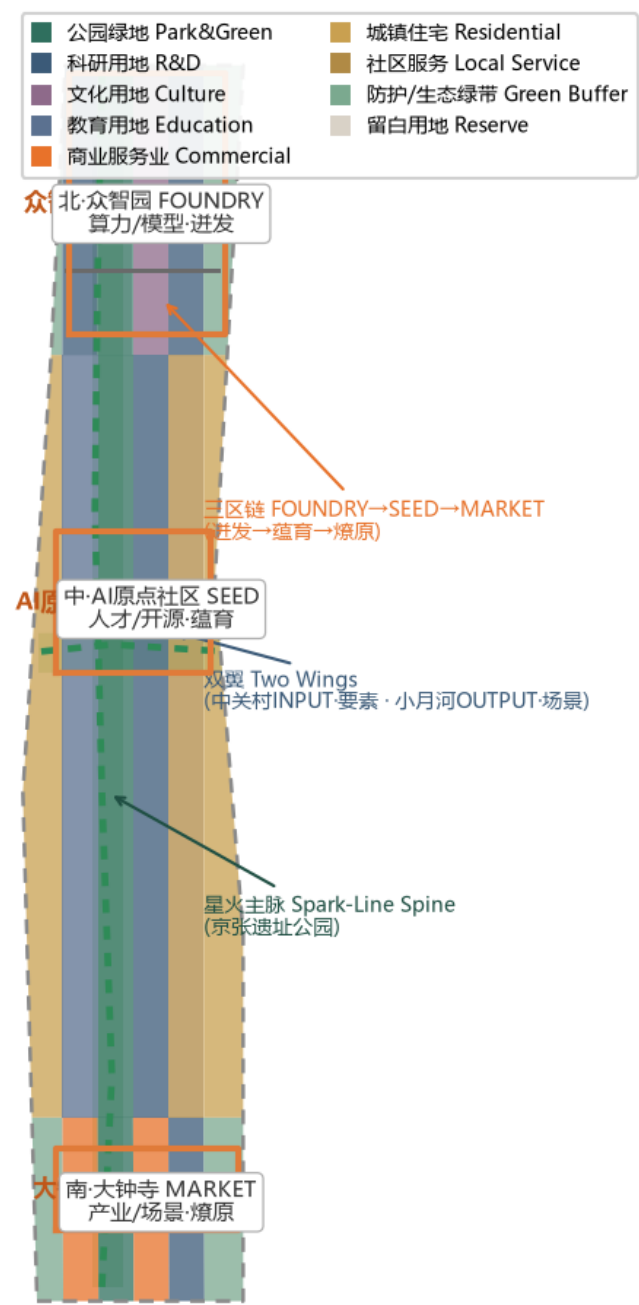

Concept design / provisional evidence / official review pending

Land Use and Renewal

18 concept zones and nine concept building footprints

Land use covers the provisional boundary; footprints express intent, not a survey or statutory scale.

JING-ZHANG SPARK LINE -- Spark-Line Spine & AI Full-Stack Land-Use Structure

Land-use partition covers the full submitted boundary without gaps or overlaps (EPSG:4548 recalculated). Provisional boundary only.

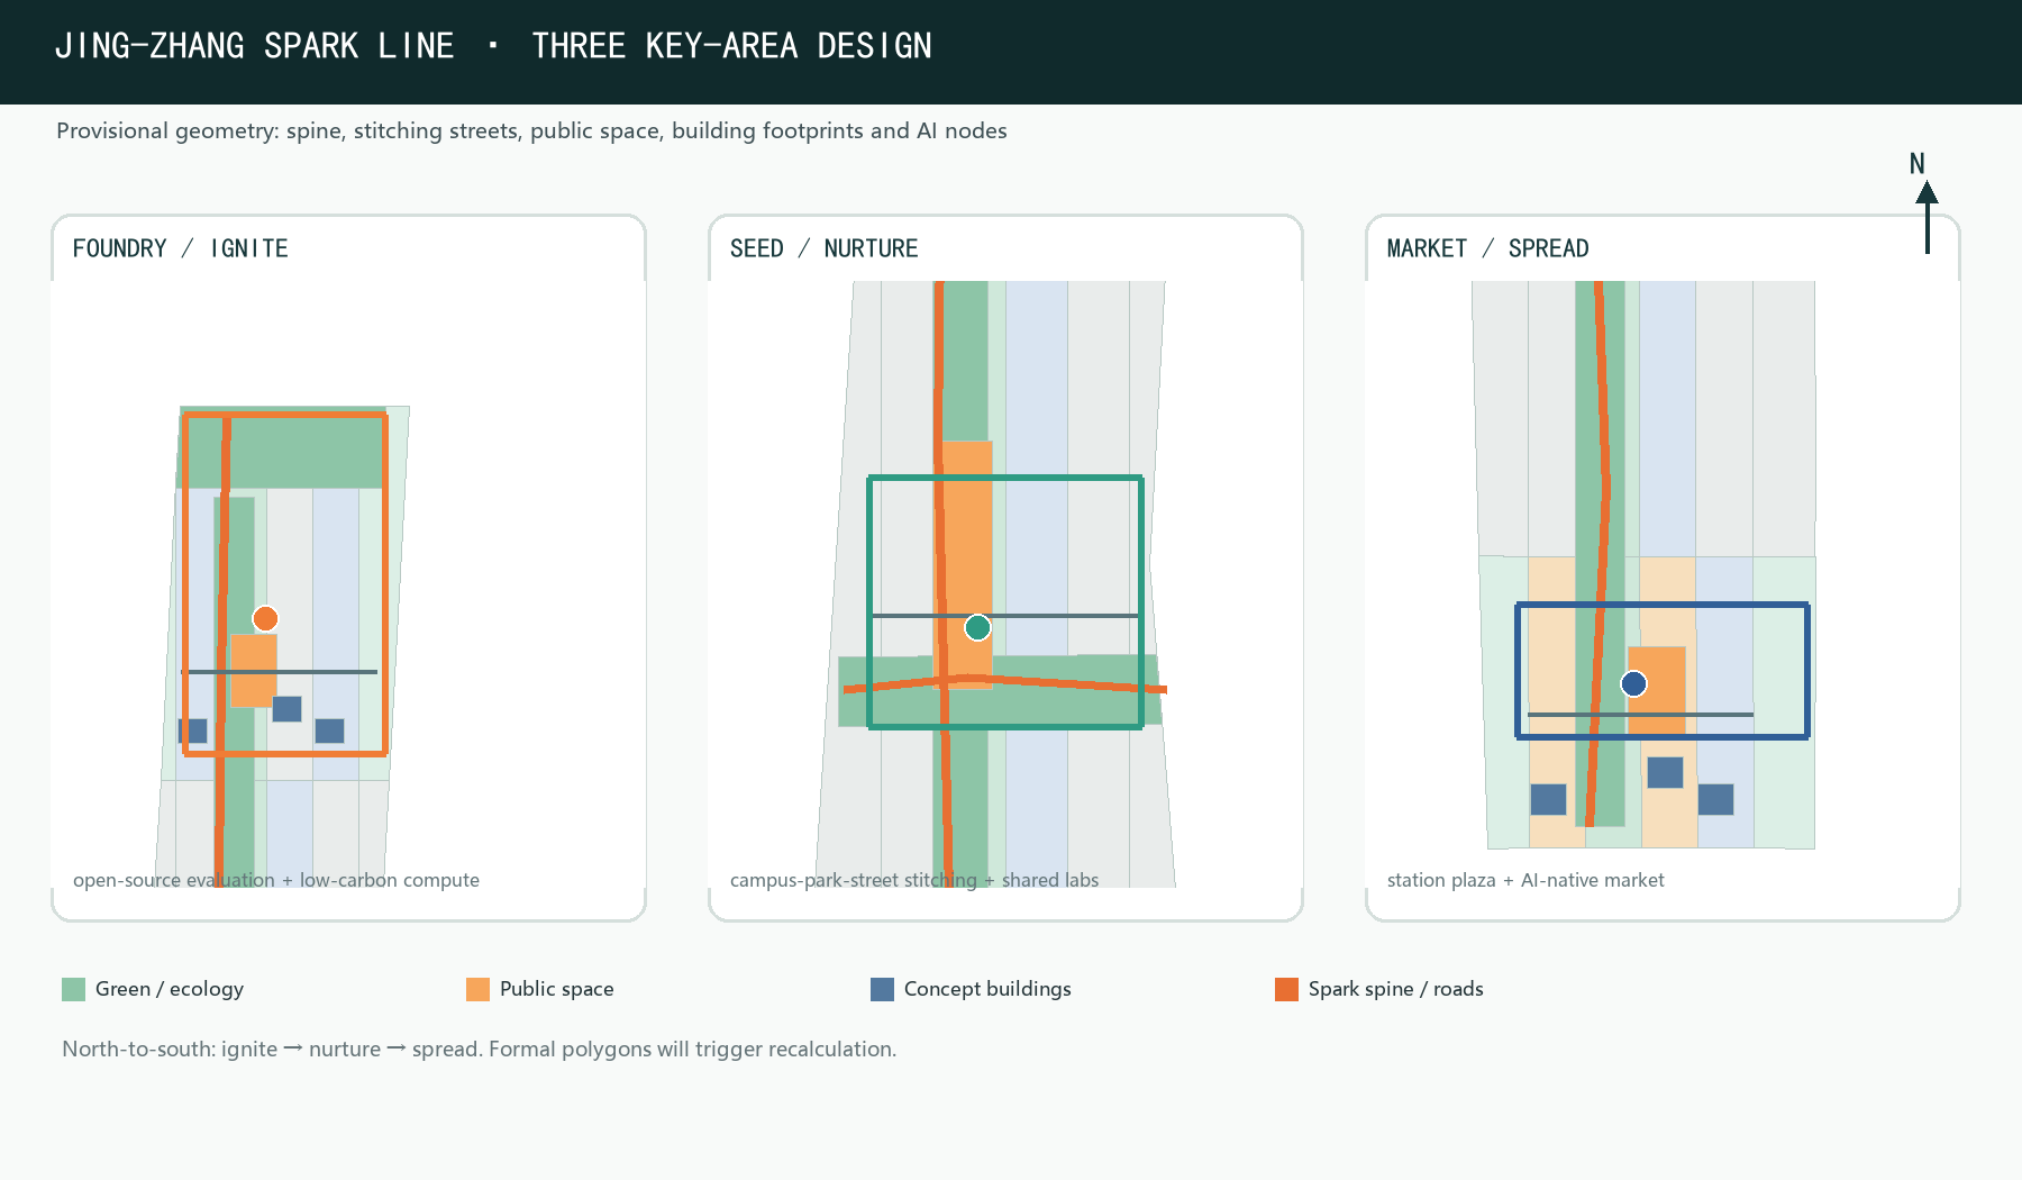

Design judgment	Land use covers the provisional boundary; footprints express intent, not a survey or statutory scale.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

Concept design / provisional evidence / official review pending

Three Key Areas

Zhongzhiyuan, AI Origin Community and Dazhongsi

Each zone responds to positioning, structure, renewal, mobility, public space, AI scenarios and risk; parcel conclusions await official data.

Design judgment	Each zone responds to positioning, structure, renewal, mobility, public space, AI scenarios and risk; parcel conclusions await official data.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

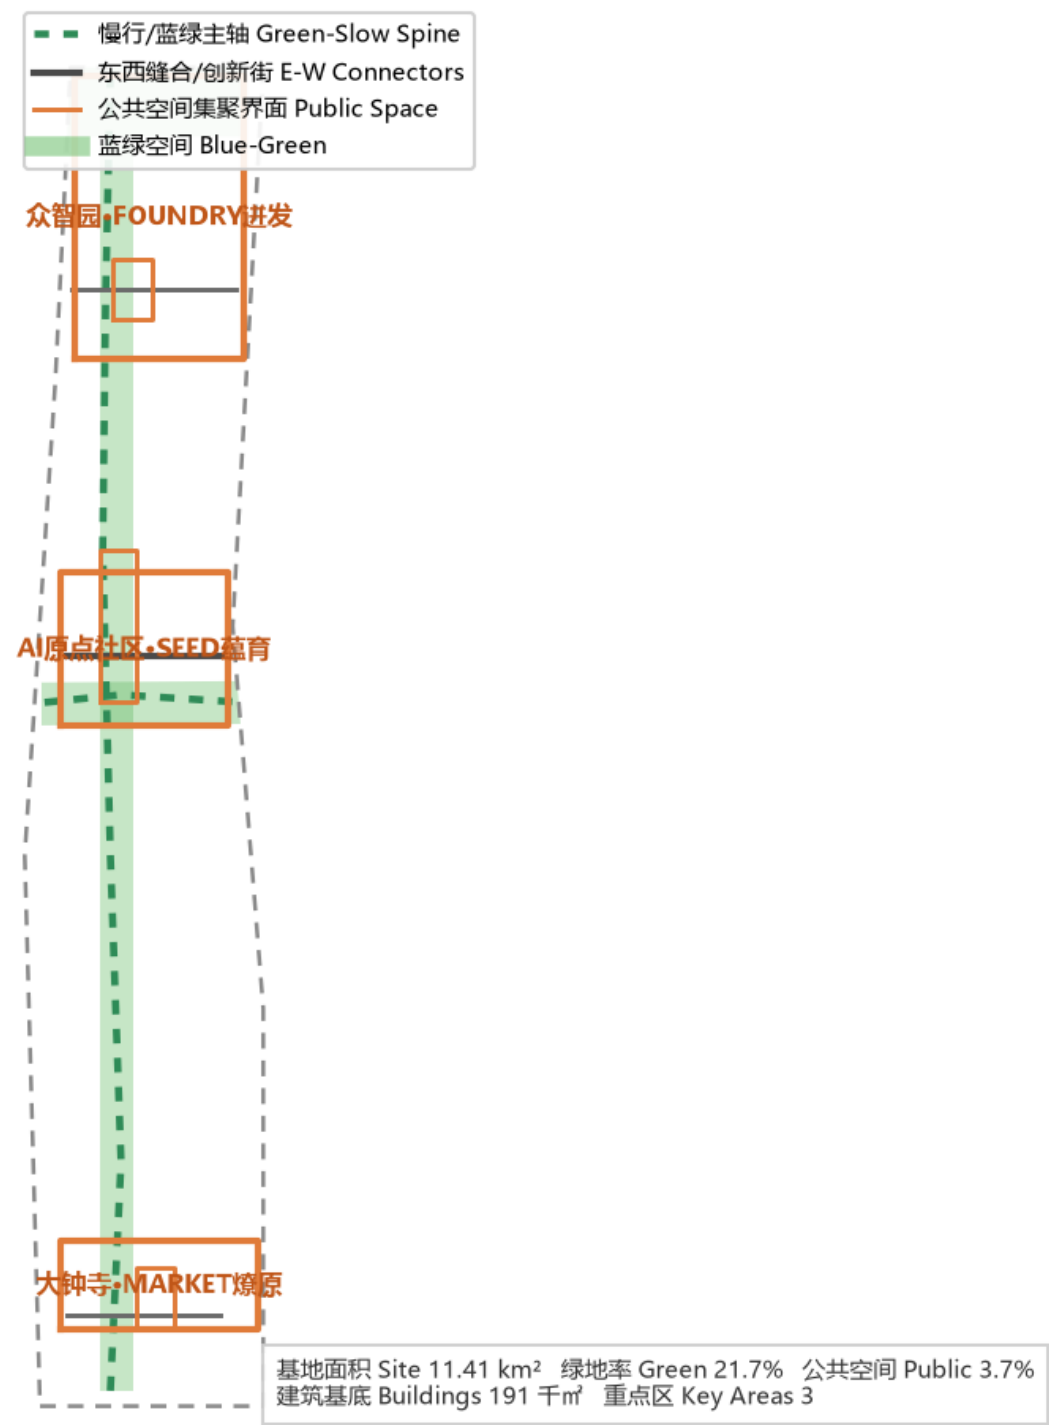

Concept design / provisional evidence / official review pending

Mobility

Rail interchange, transverse stitching and slow spine

Five concept lines express strategy; redlines, parking demand, rail interfaces and simulation await specialist work.

JING-ZHANG SPARK LINE -- Mobility & Blue-Green Public Space Network

Concept-level mobility and blue-green network; slow-mobility breaks and crossing nodes need official road/rail verification.

Design judgment	Five concept lines express strategy; redlines, parking demand, rail interfaces and simulation await specialist work.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

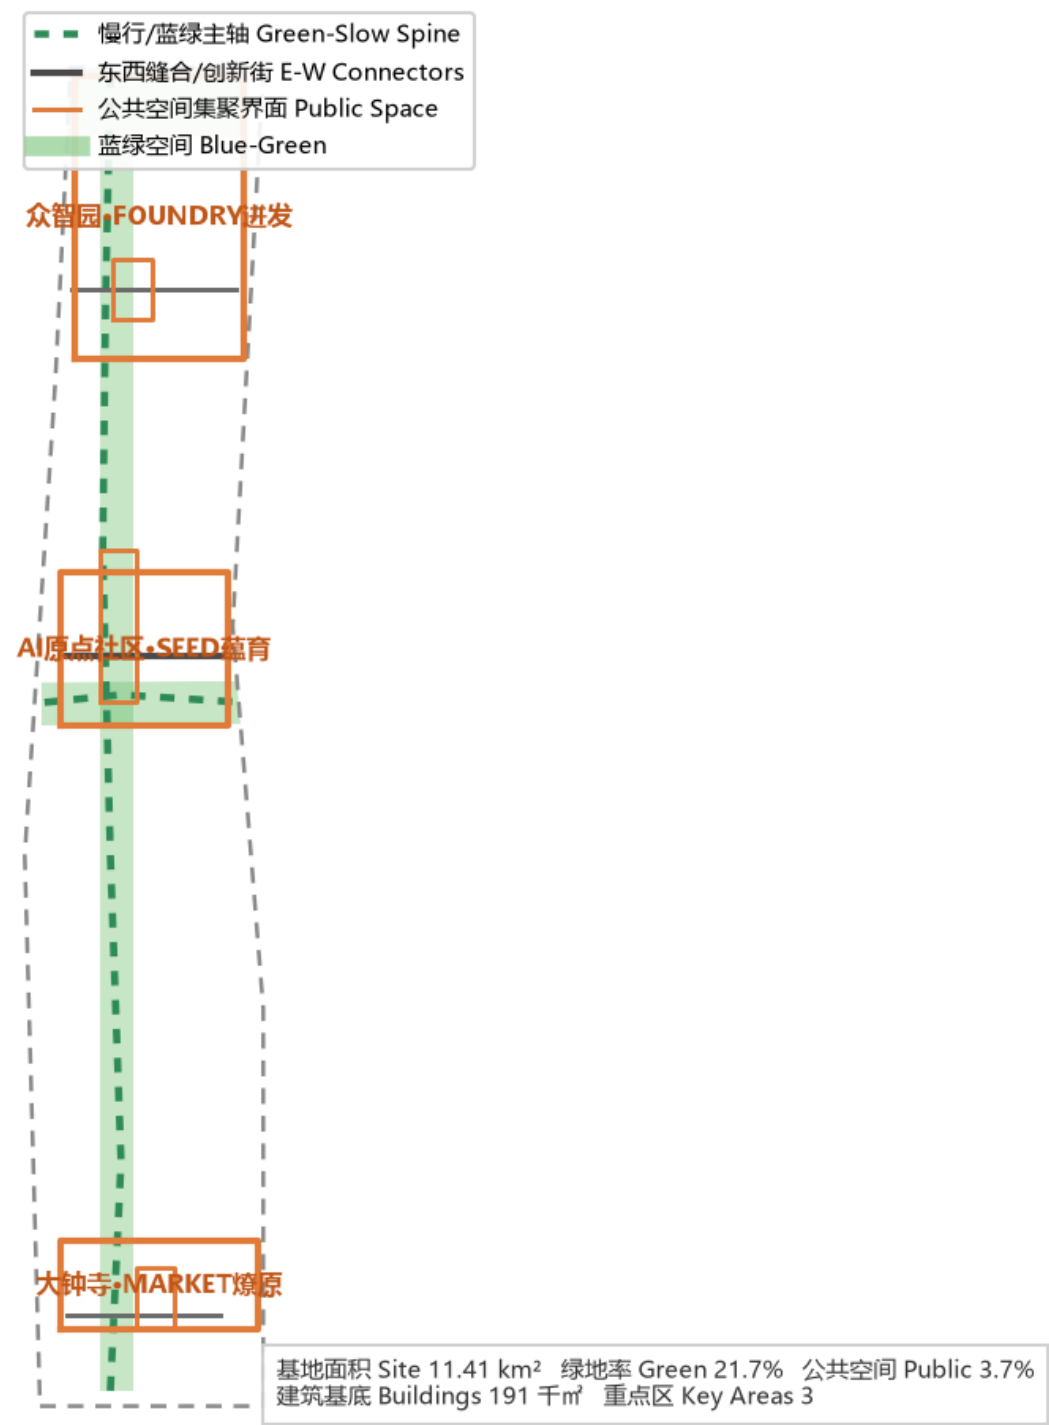

Concept design / provisional evidence / official review pending

Blue-Green Public Space

Jing-Zhang spine, Qing River and Xiaoyue River corridors

Ratios derive from submitted geometry; blue lines, flood conditions and delivery boundaries await official files.

JING-ZHANG SPARK LINE -- Mobility & Blue-Green Public Space Network

Concept-level mobility and blue-green network; slow-mobility breaks and crossing nodes need official road/rail verification.

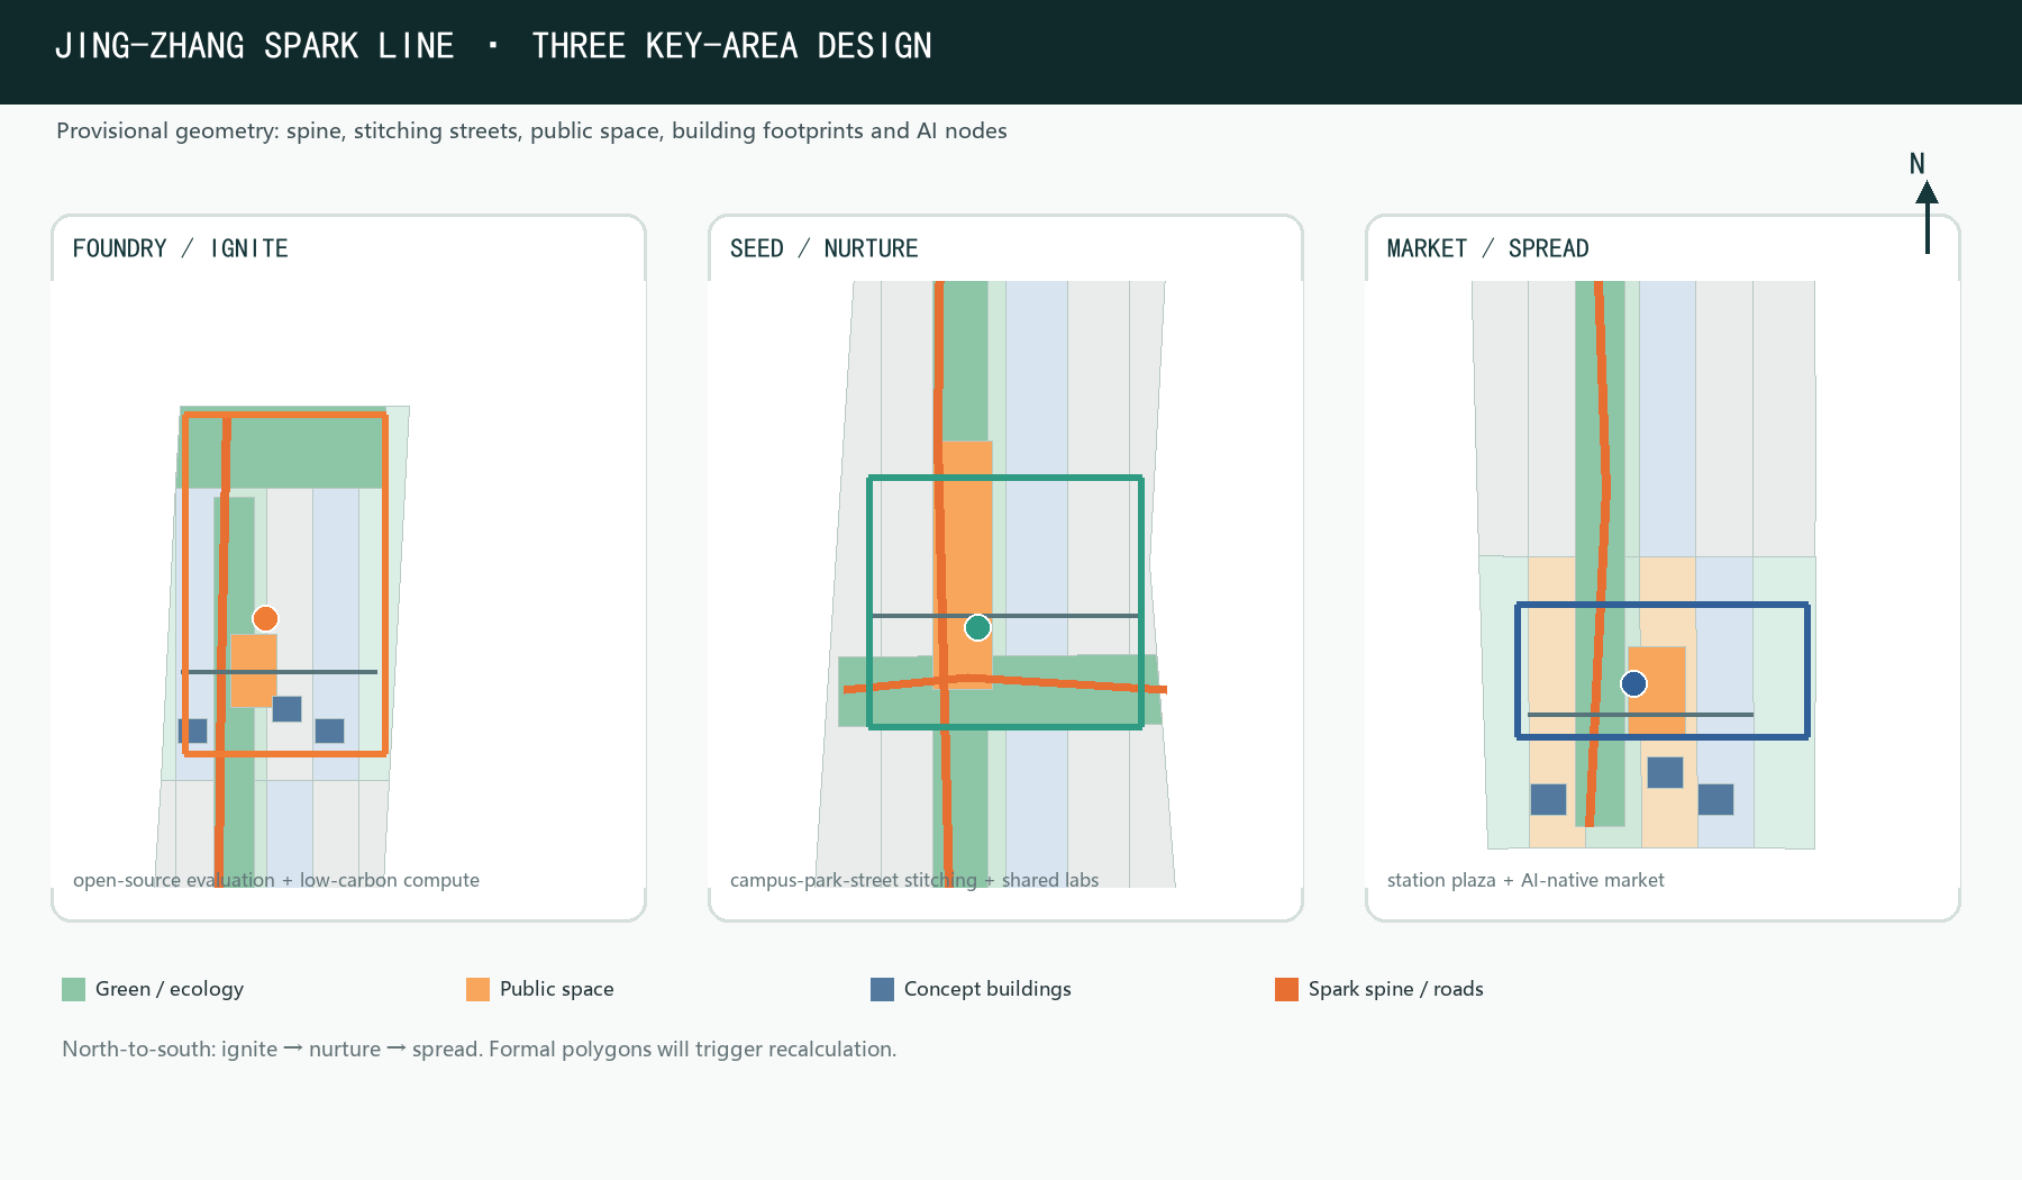

Design judgment	Ratios derive from submitted geometry; blue lines, flood conditions and delivery boundaries await official files.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

Concept design / provisional evidence / official review pending

AI Scenarios and Talent

10 cards, 3 test types and 7 personas

All are supervised, auditable and human-takeover concept scenarios, not deployed systems.

Design judgment	All are supervised, auditable and human-takeover concept scenarios, not deployed systems.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

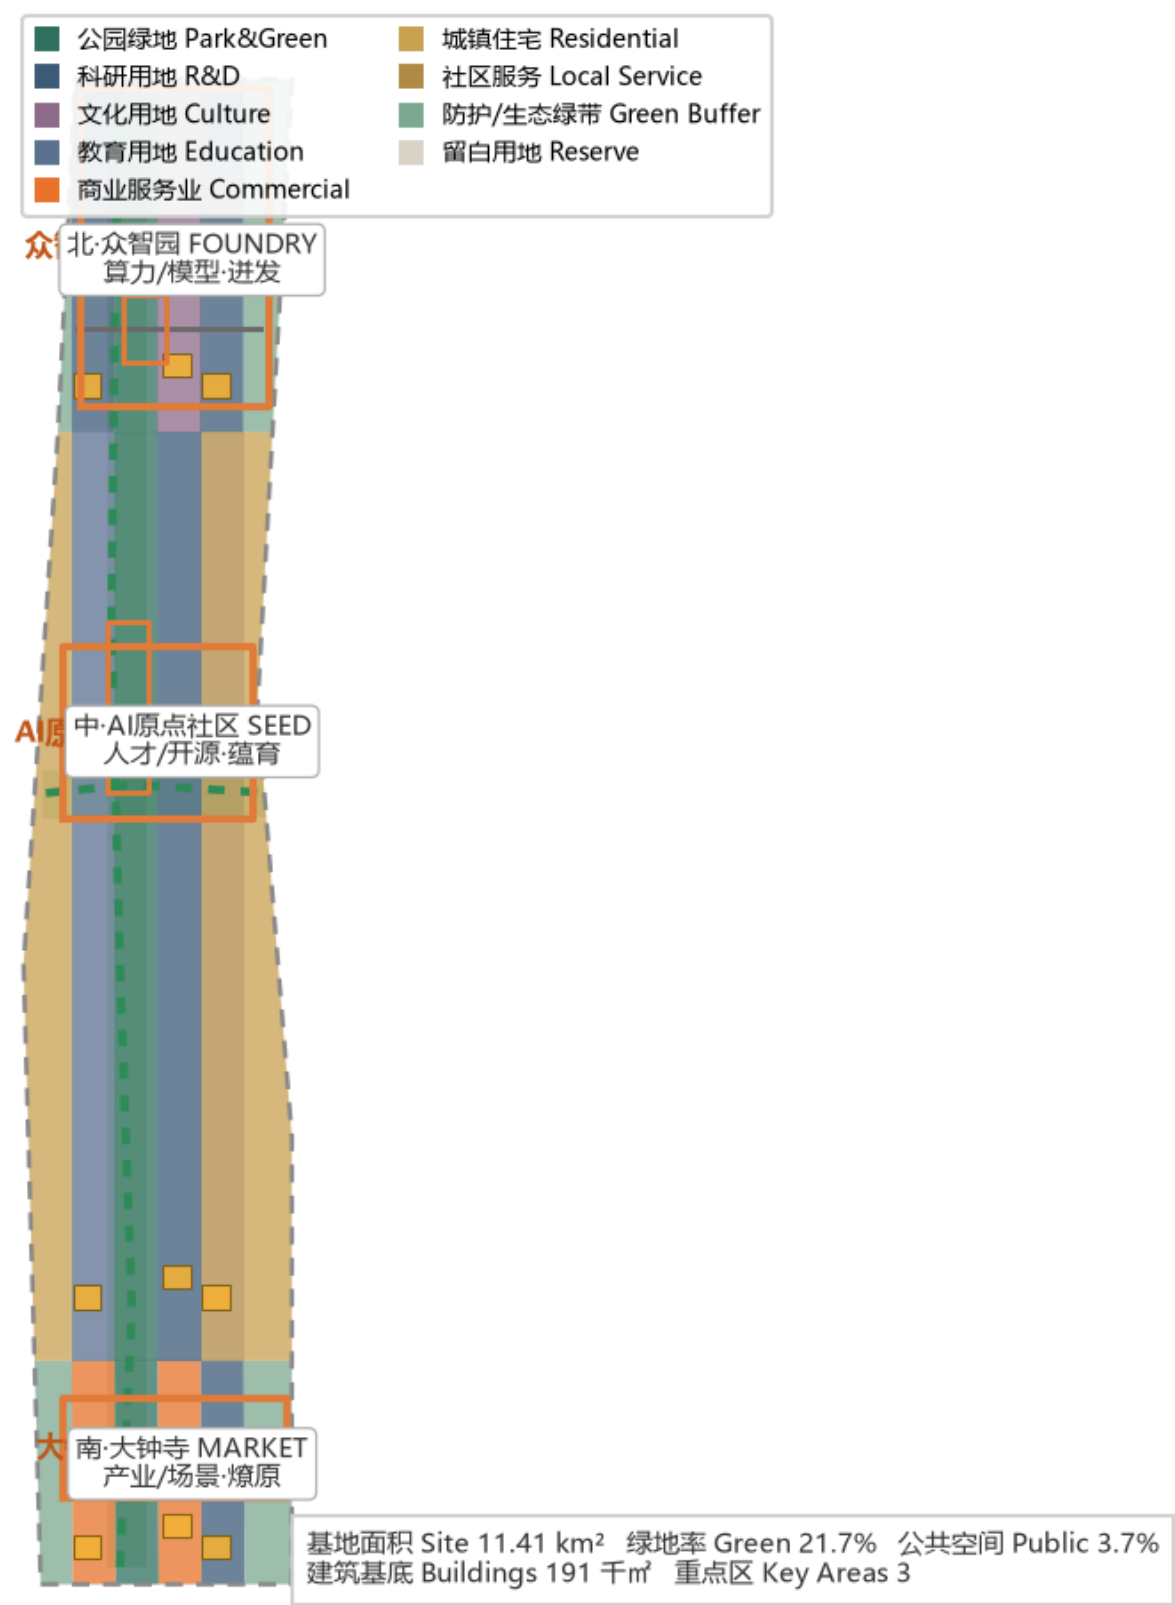

Concept design / provisional evidence / official review pending

Renewal Projects and Phasing

Eight projects and P1/P2/P3

Each includes actor, users, stage, target, tools and checks; budgets, ownership, approvals and operators remain pending.

JING-ZHANG SPARK LINE • Overall Site Overview / 京张·星火带总体设计范围总览

Provisional boundary (dashed), concept-level design intent only; Spark-Line spine and three zones

Design judgment	Each includes actor, users, stage, target, tools and checks; budgets, ownership, approvals and operators remain pending.
Evidence status	Geometry and known metrics are traceable to local structured files; presentation artifacts explain but do not override them.
Locked gaps	Official boundaries, statutory controls, ownership, existing-building survey and engineering conditions remain pending where relevant.
Next review	Rebuild topology and metrics after official polygons; then verify buildings, transport, utilities, heritage and safety with responsible disciplines.

Concept design / provisional evidence / official review pending

Metrics and Evidence

Area, green space, public space and concept footprints

Known metrics link to geometry and formulas; unknown FAR and height retain explicit data triggers.
