

BASELINE FIRST. AI MUST EARN CIVIC ADOPTION.

ONE SPINE · THREE STATIONS · TWO WINGS

Three hero scenarios turn AI from a deployment project into a reversible civic choice through same-task, same-user, same-space public tests.

KNOWN 12 / 3 / 9 / 3 scenarios / heroes / components / stations
NOT FIELD-RUN 12 / 12 All operational outcomes await field establishment; no fabricated results.
AUTHORITY HUMAN ADOPT / REVISE / STOP
01 BASELINE
02 SAME TASK
03 NO REGRESSION
04 RECORDABLE
05 HUMAN AUTHORITY

LOOP COURT, POROUS HALL, TRANSIT FORECOURT.

T2 · Controlled robot trial

T2 · Controlled robot-pedestrian-accessibility test · 1:200

Prototype dimensions, not field measurements; the baseline route never crosses the AI trial boundary

S2 · International arrival

S2 · International arrival and civic-service navigation · 1:200

Prototype dimensions, not field measurements; the baseline route never crosses the AI trial boundary

S7 · Transit interchange

S7 · Conventional transit interchange with optional low-speed feeder · 1:200

Prototype dimensions, not field measurements; the baseline route never crosses the AI trial boundary

DRAW PROOF, DECISION AND EXIT AS A CIVIC RECEIPT.

01 Baseline stands alone	02 Same task-user-space	03 Common metrics recorded	04 Human evidence review	05 Public decision & restore
