

Jing-Zhang Compute Belt

Centennial Jing-Zhang AI Innovation Belt - Open Call Formal Package (v1, provisional-boundary concept)

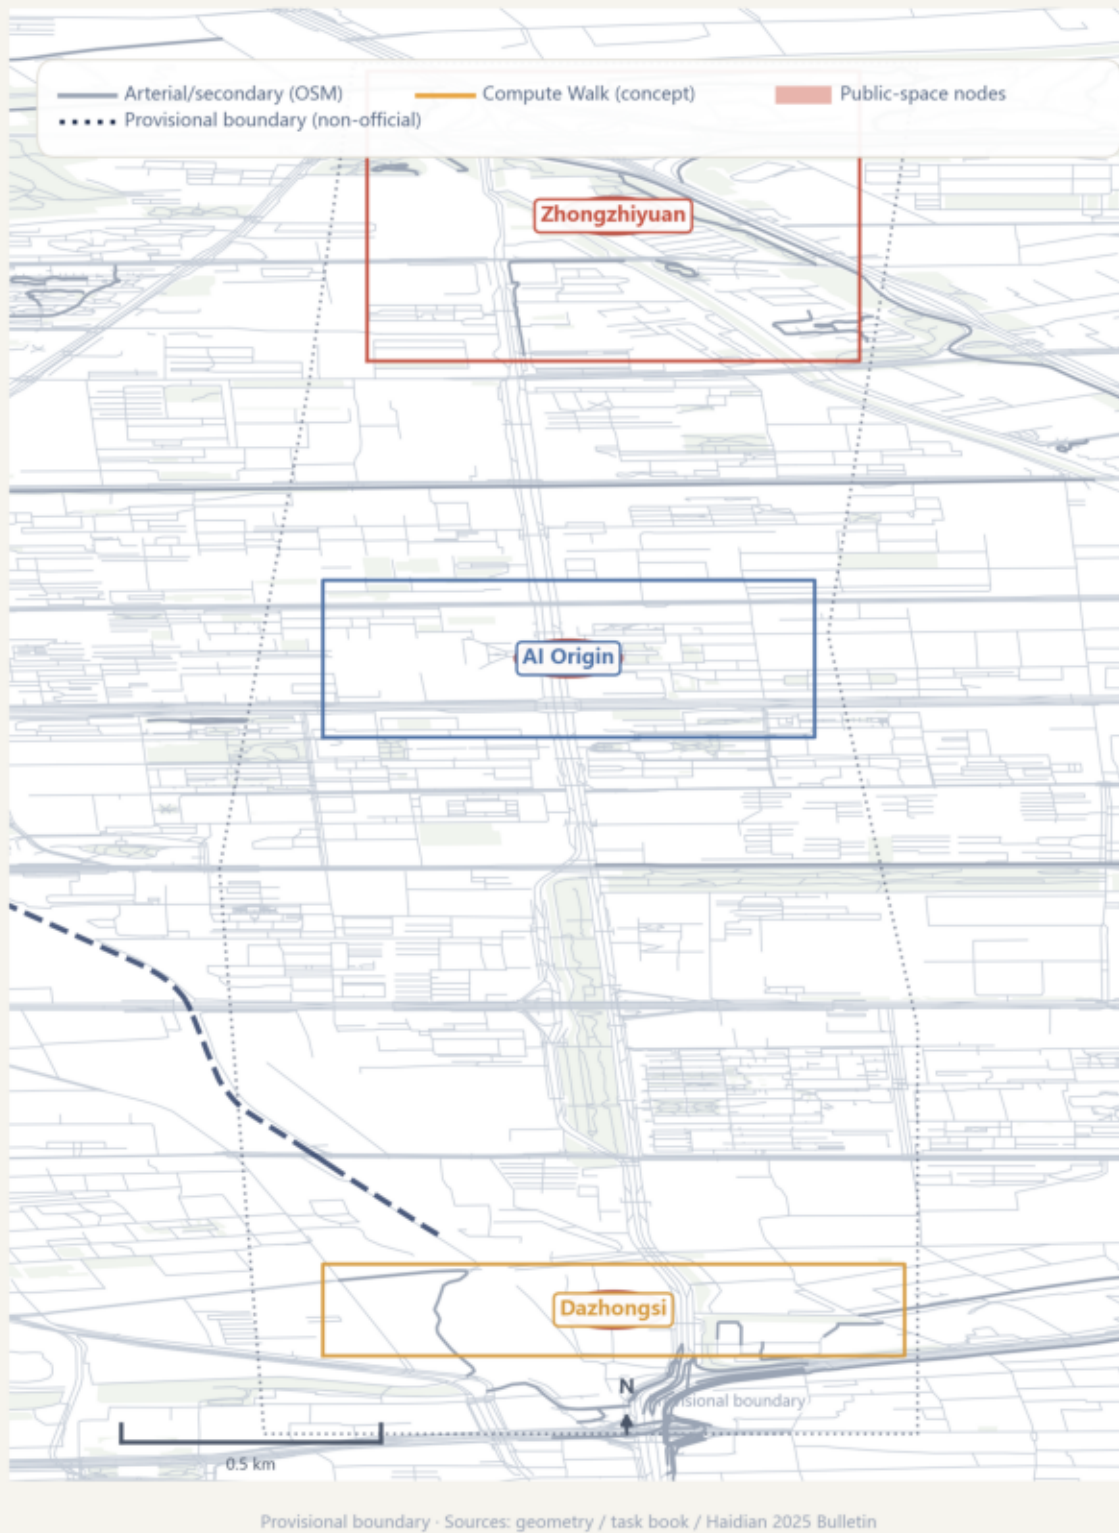

Jing-Zhang Compute Belt: One Spine, Five Stages, Two Wings

Innovation-chain triple helix: university → accelerate → industry → capital → scenario

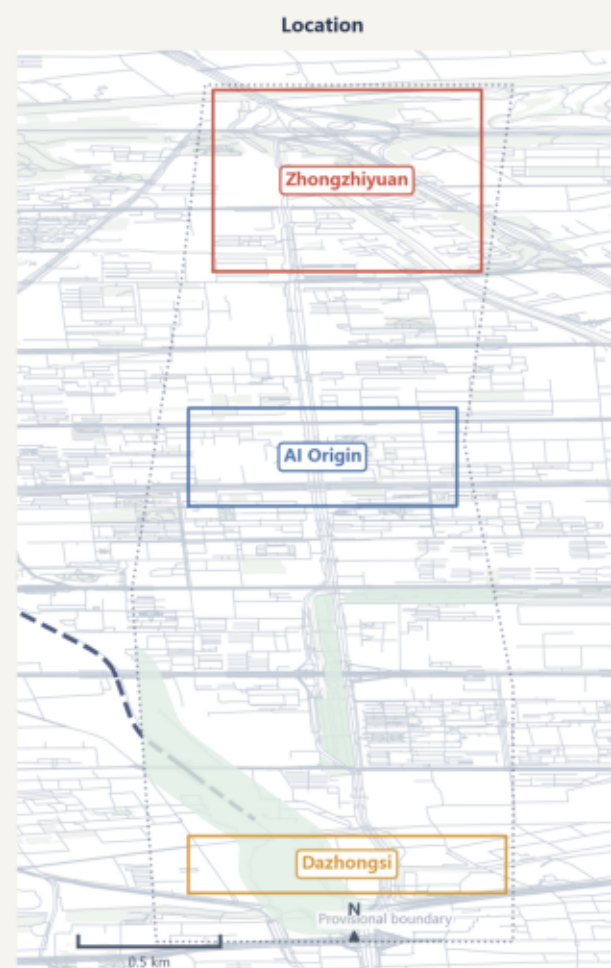

Compute Belt: Mobility and Blue-Green Space

Existing roads as base; concept greenway and public space as design layer

Jing-Zhang Compute Belt: Three Key Areas

Positioning + space + scenarios

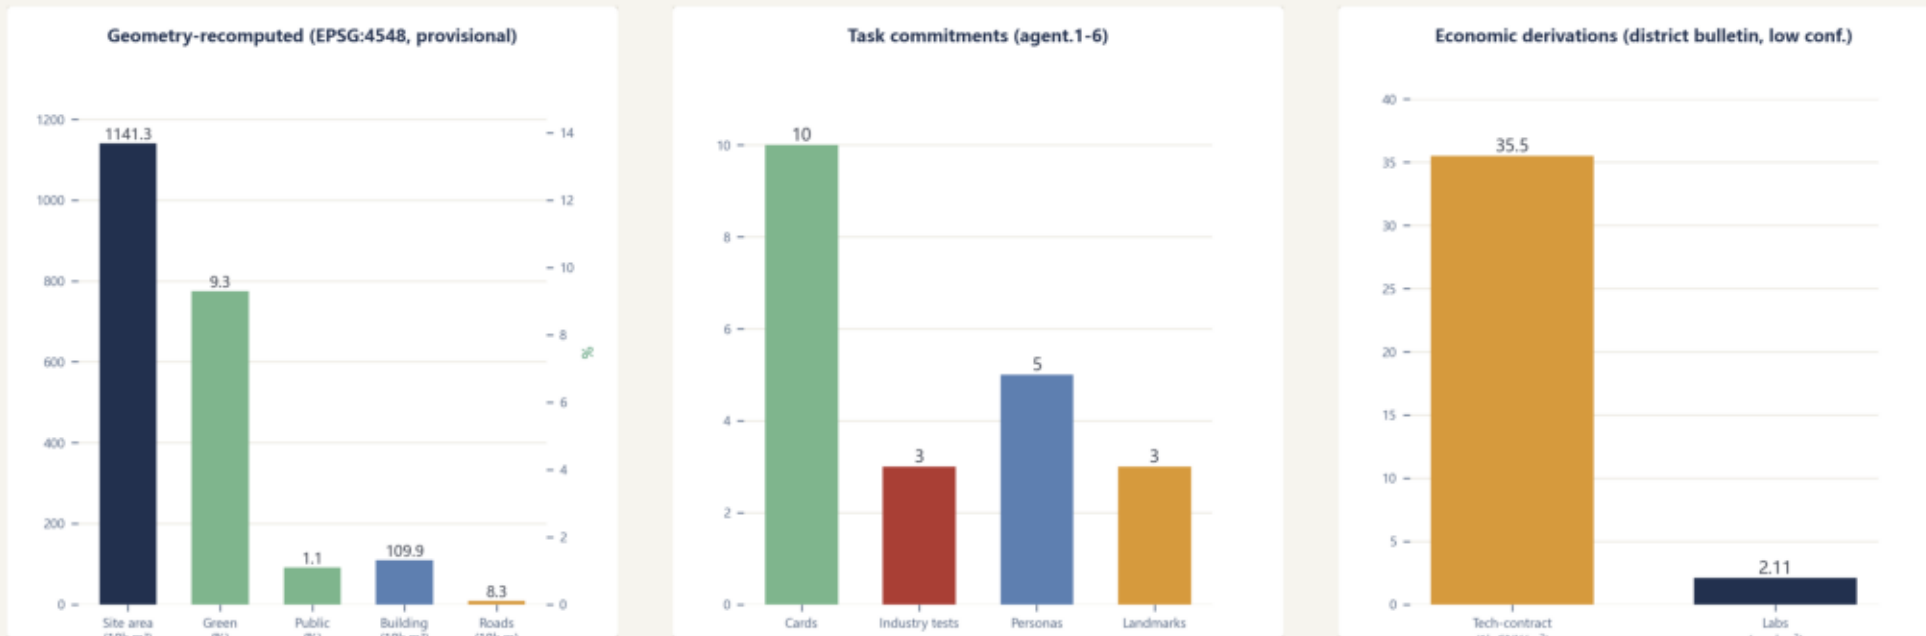

Zhongzhiyuan Open-source pole	AI Origin Community Service pole	Dazhongsi Operation pole

Provisional boundary - concept, recompute when official data arrive / Provisional boundary - concept, recompute when official data arrive / Provisional boundary - concept, recompute when official data arrive

Compute Belt: Core Metrics and Evidence Chain

Geometry re-computed (EPSG:4548, provisional) · Task commitments · Economic derivations

Metric	Value
Site area (provisional recompute)	1,141.28 ha
Green ratio (concept)	9.3%
Public-space ratio (concept)	1.1%
Building footprint (concept)	1.099M m²
Road network (OSM + greenway)	83 km
Cards / tests / personas / landmarks	10 / 3 / 5 / 3

Note: all geometry is provisional-rough - not official redline/regulatory/approval basis; regulatory metrics are unknown pending official conditions. Sources: Haidian 2025 Statistical Bulletin, OpenStreetMap (ODbL), task book.
