

THE LAST SERVICE LINE

A way home for the last people leaving the innovation district

ONE SPINE • THREE STAFFED HALLS • SIX GATES • TWELVE REVERSIBLE SCENARIOS

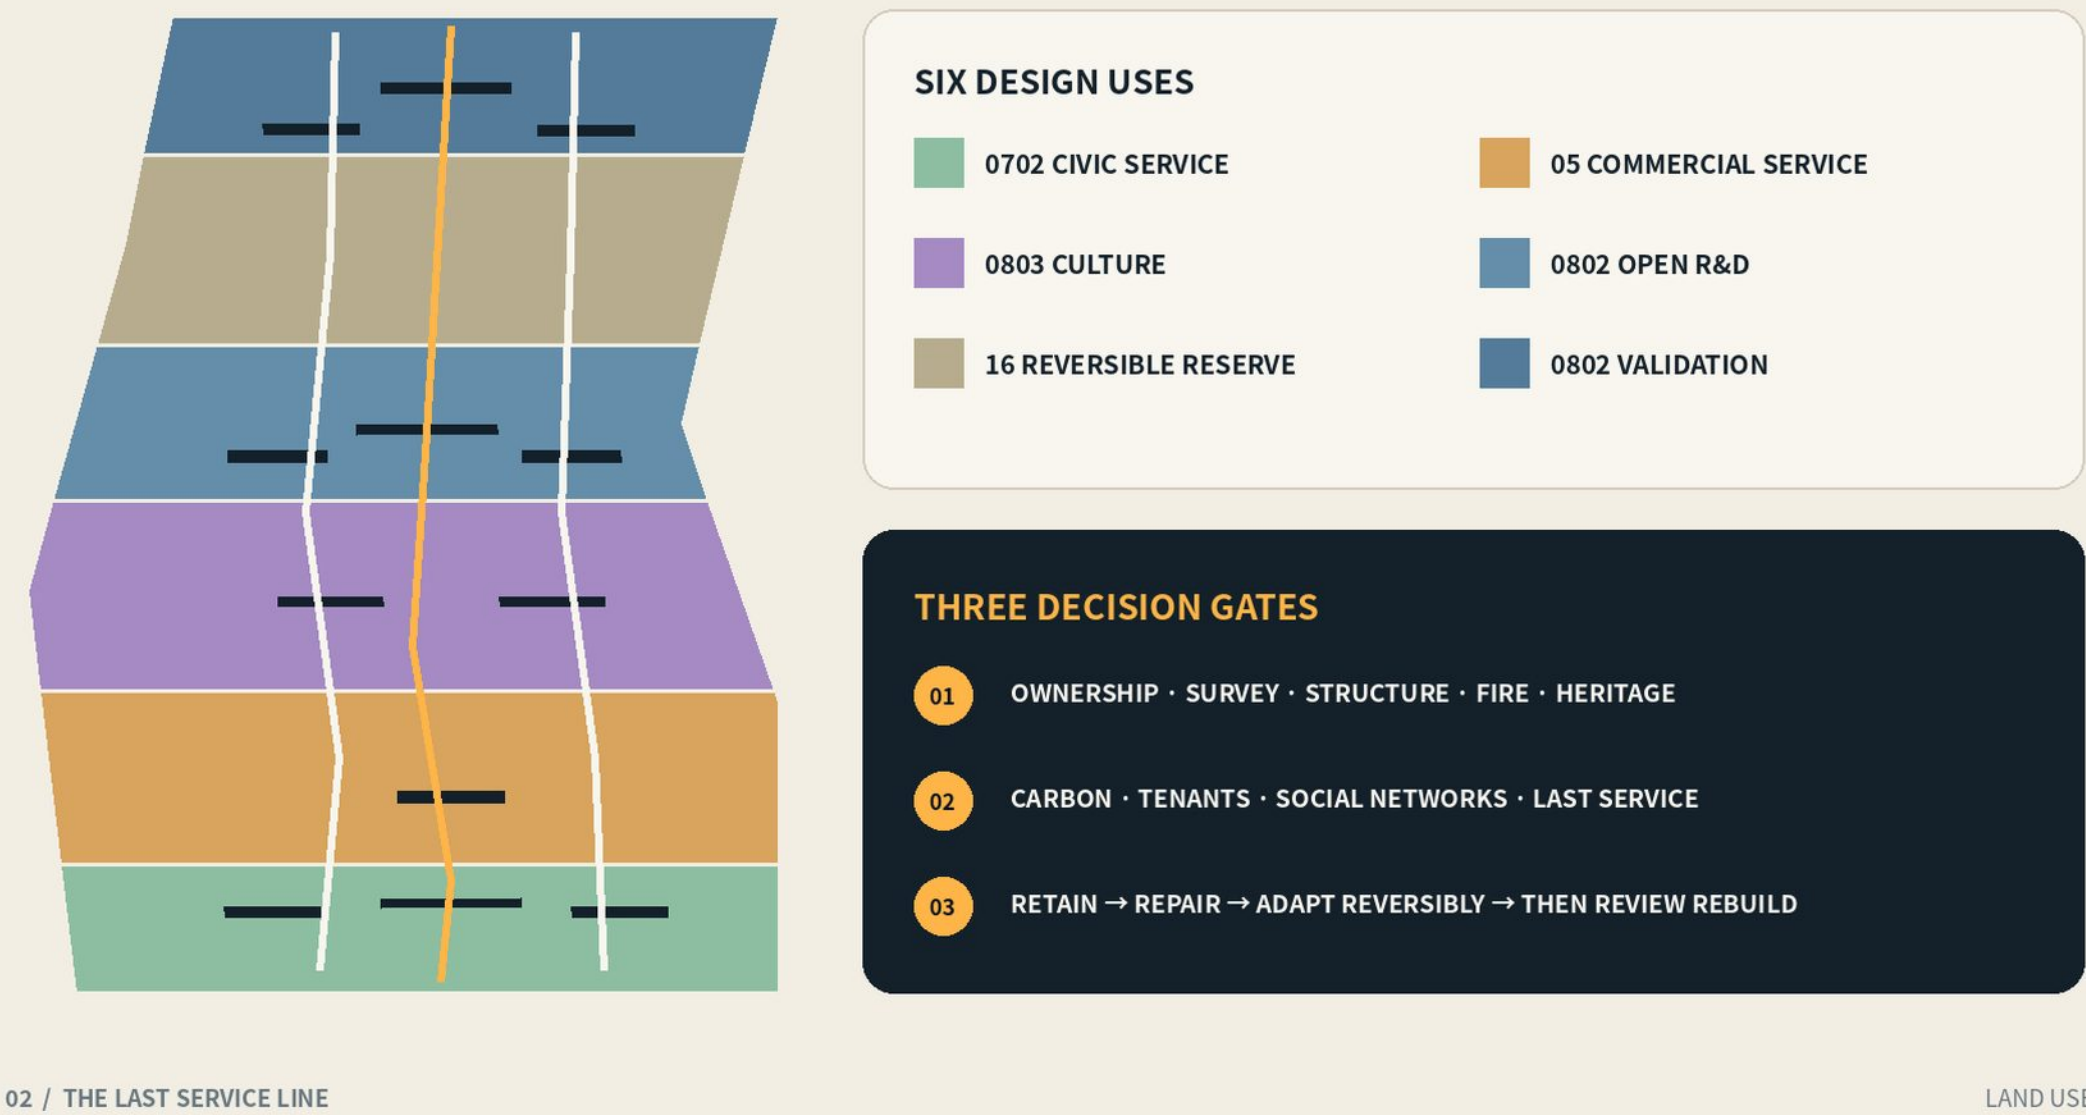

Land Use and Crew Courts

Design use partition, conceptual crew courts, and decision gates

DESIGN PARTITION / NOT STATUTORY

LAND USE & CREW COURTS

A complete coded partition. Concept envelopes test permeable ground floors, service cores, and courts—not development rights.

01 Reading: heavy line means passage; ring means human service; dashed line means pending data.

02 Boundary: the repository geometry is provisional, not an official redline, parcel, or road line.

03 Governance: basic services have no app, registration, face-scan, or algorithmic-score gate.

04 Recalculation: official geometry triggers complete regeneration of layers, metrics, HTML, and PDFs.

Three Key Areas

Three prototypes: testing, handover, and transfer

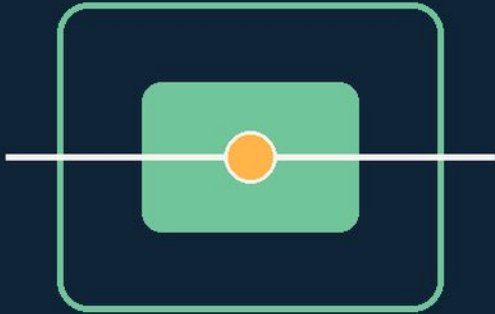

THREE HALLS / THREE DIFFERENT JOBS

TEST · HANDOVER · TRANSFER

Not three interchangeable tech plazas: controlled validation, knowledge handover, and the final transport leg.

01

NIGHT TEST YARD

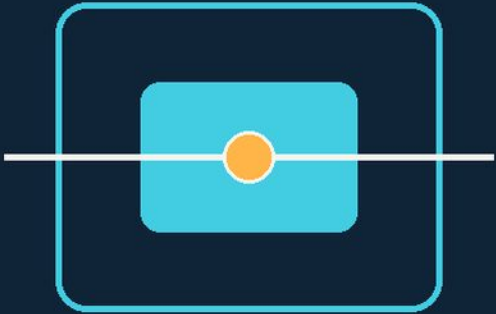

- Declared test window
- Supervisor + physical stop
- Returns to public use

PROVISIONAL LOCATION

02

SHIFT EXCHANGE COMMONS

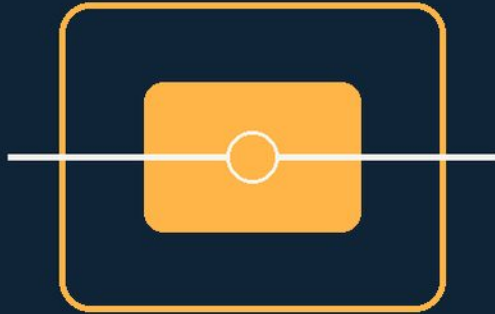

- Open-source releases
- Paper map + intercom + seats
- Service state + failure review

PROVISIONAL LOCATION

03

LAST-MILE TRANSFER HALL

- Fixed meeting point
- Staffed accessible waiting
- Passenger / freight split

PROVISIONAL LOCATION

03 / THE LAST SERVICE LINE

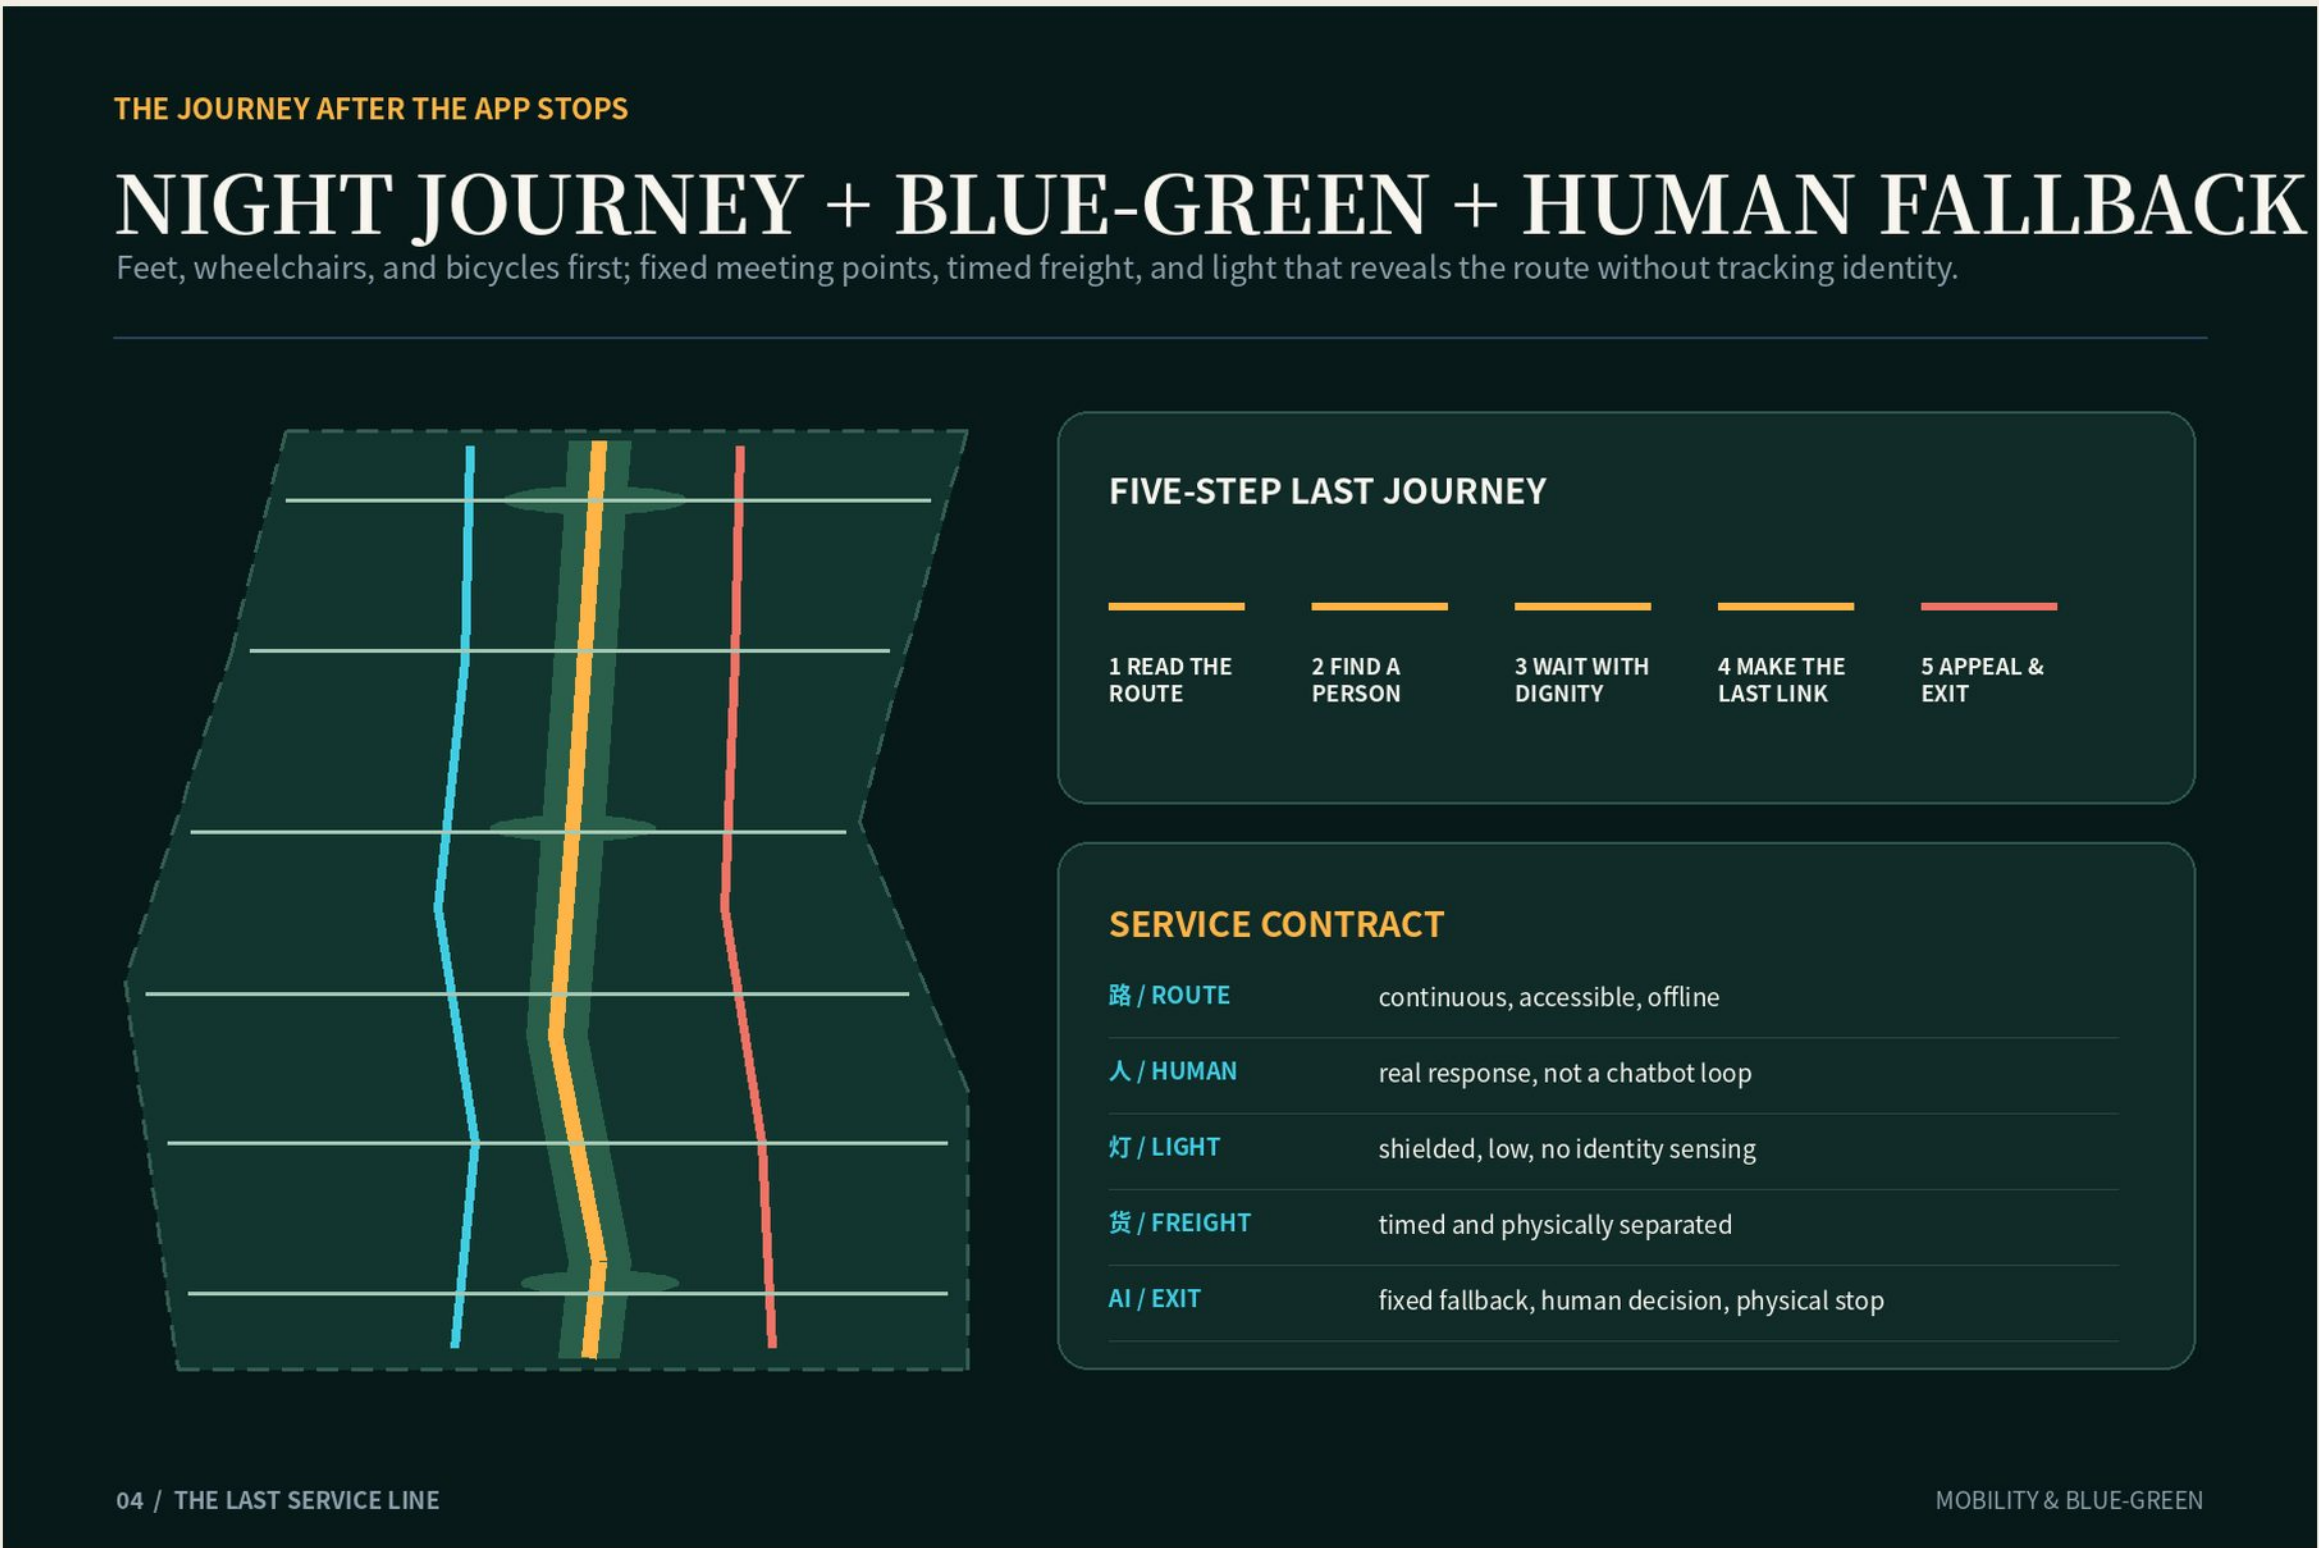

KEY AREAS

01 Reading: heavy line means passage; ring means human service; dashed line means pending data.

02 Boundary: the repository geometry is provisional, not an official redline, parcel, or road line.

03 Governance: basic services have no app, registration, face-scan, or algorithmic-score gate.

04 Recalculation: official geometry triggers complete regeneration of layers, metrics, HTML, and PDFs.

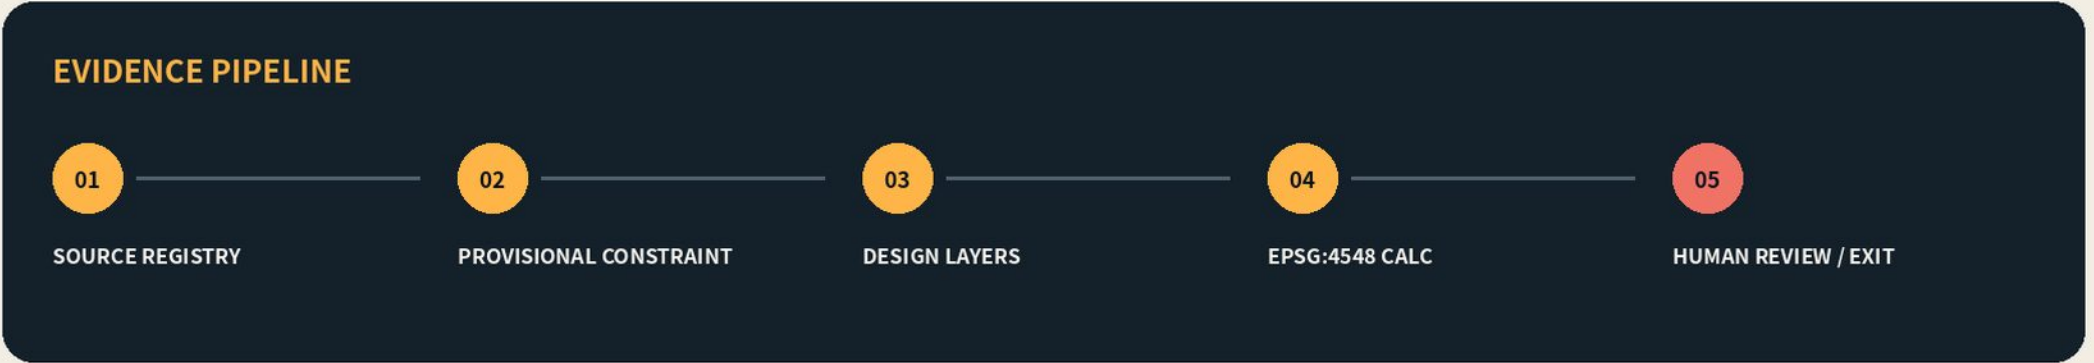

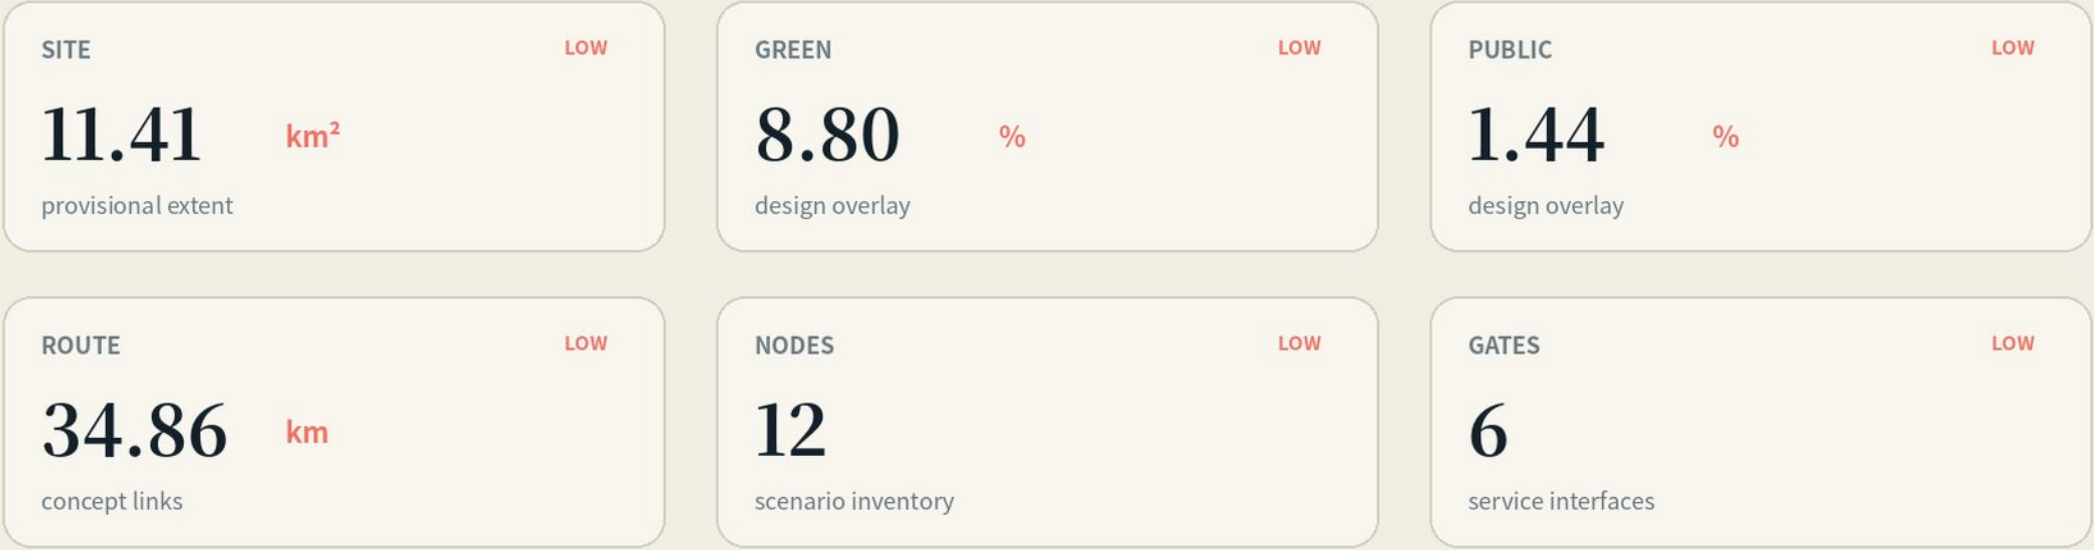

- 01 Reading: heavy line means passage; ring means human service; dashed line means pending data.
- 02 Boundary: the repository geometry is provisional, not an official redline, parcel, or road line.
- 03 Governance: basic services have no app, registration, face-scan, or algorithmic-score gate.
- 04 Recalculation: official geometry triggers complete regeneration of layers, metrics, HTML, and PDFs.

KNOWN ≠ OFFICIAL

METRICS & EVIDENCE

Known values are reproducible from submitted layers but inherit low confidence; statutory controls, engineering, and cost remain unknown.

- 01

Reading: heavy line means passage; ring means human service; dashed line means pending data.
- 02

Boundary: the repository geometry is provisional, not an official redline, parcel, or road line.
- 03

Governance: basic services have no app, registration, face-scan, or algorithmic-score gate.
- 04

Recalculation: official geometry triggers complete regeneration of layers, metrics, HTML, and PDFs.
