

JING-ZHANG CIVIC FOUNDRY

Cultural production turns AI into civic products

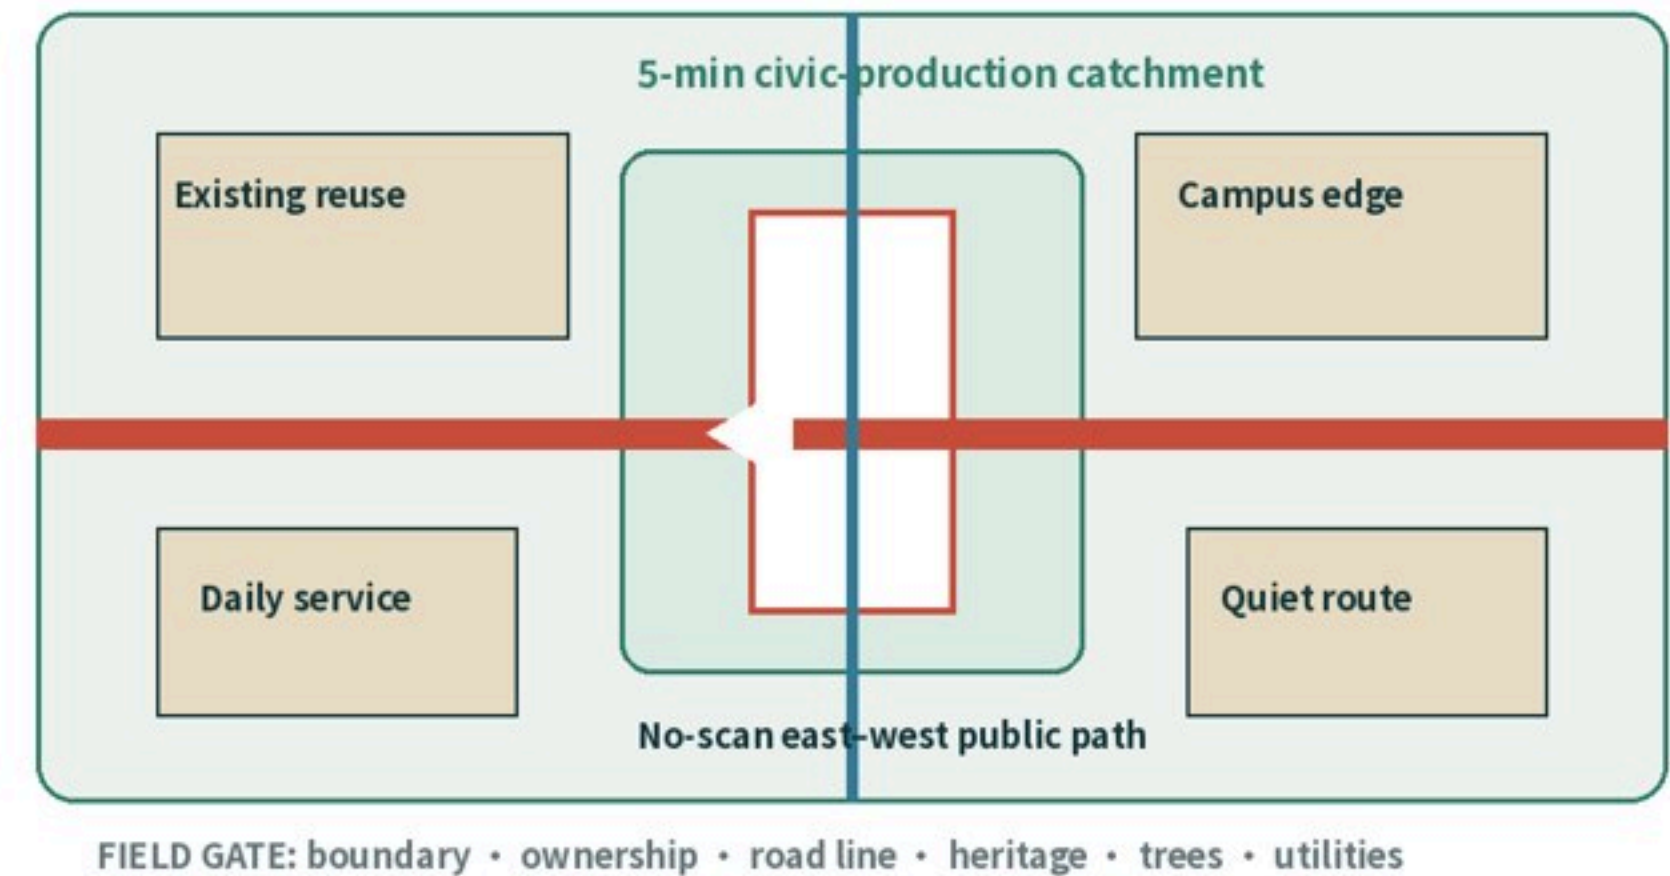

AI ORIGIN PROTOTYPE NODE

V7.4

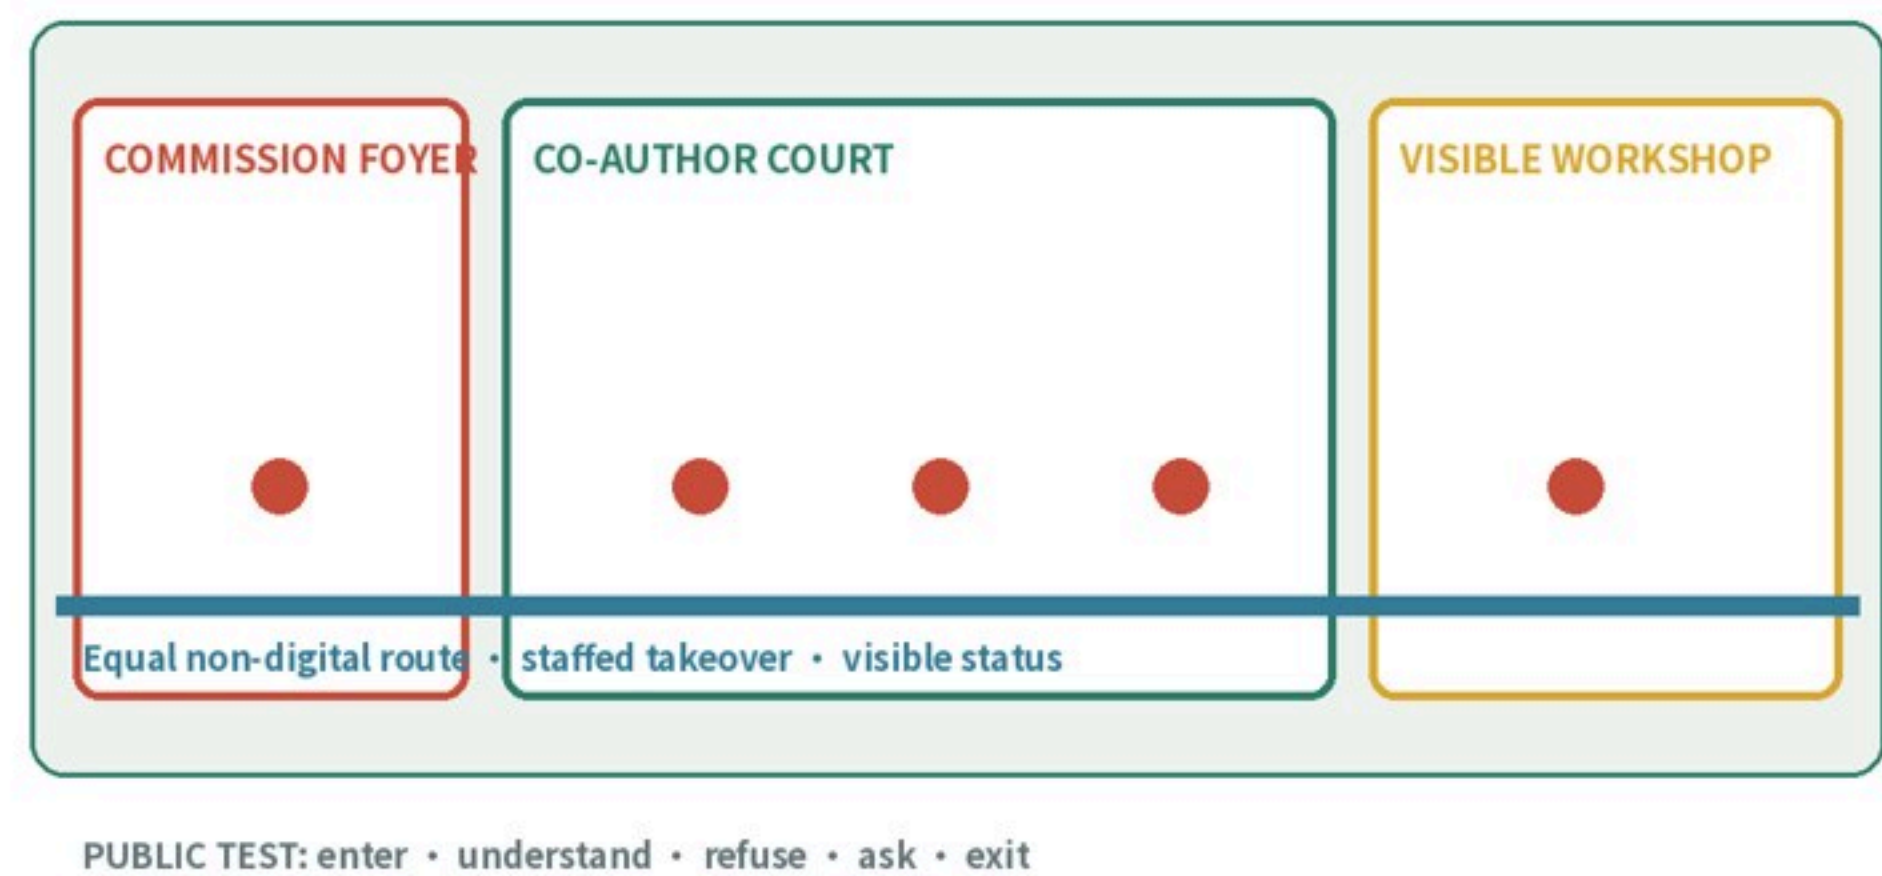

AI Origin: a drawing-task-signoff interface

1:1000 block plan • 1:500 ground floor • 1:200 section • day × seasons

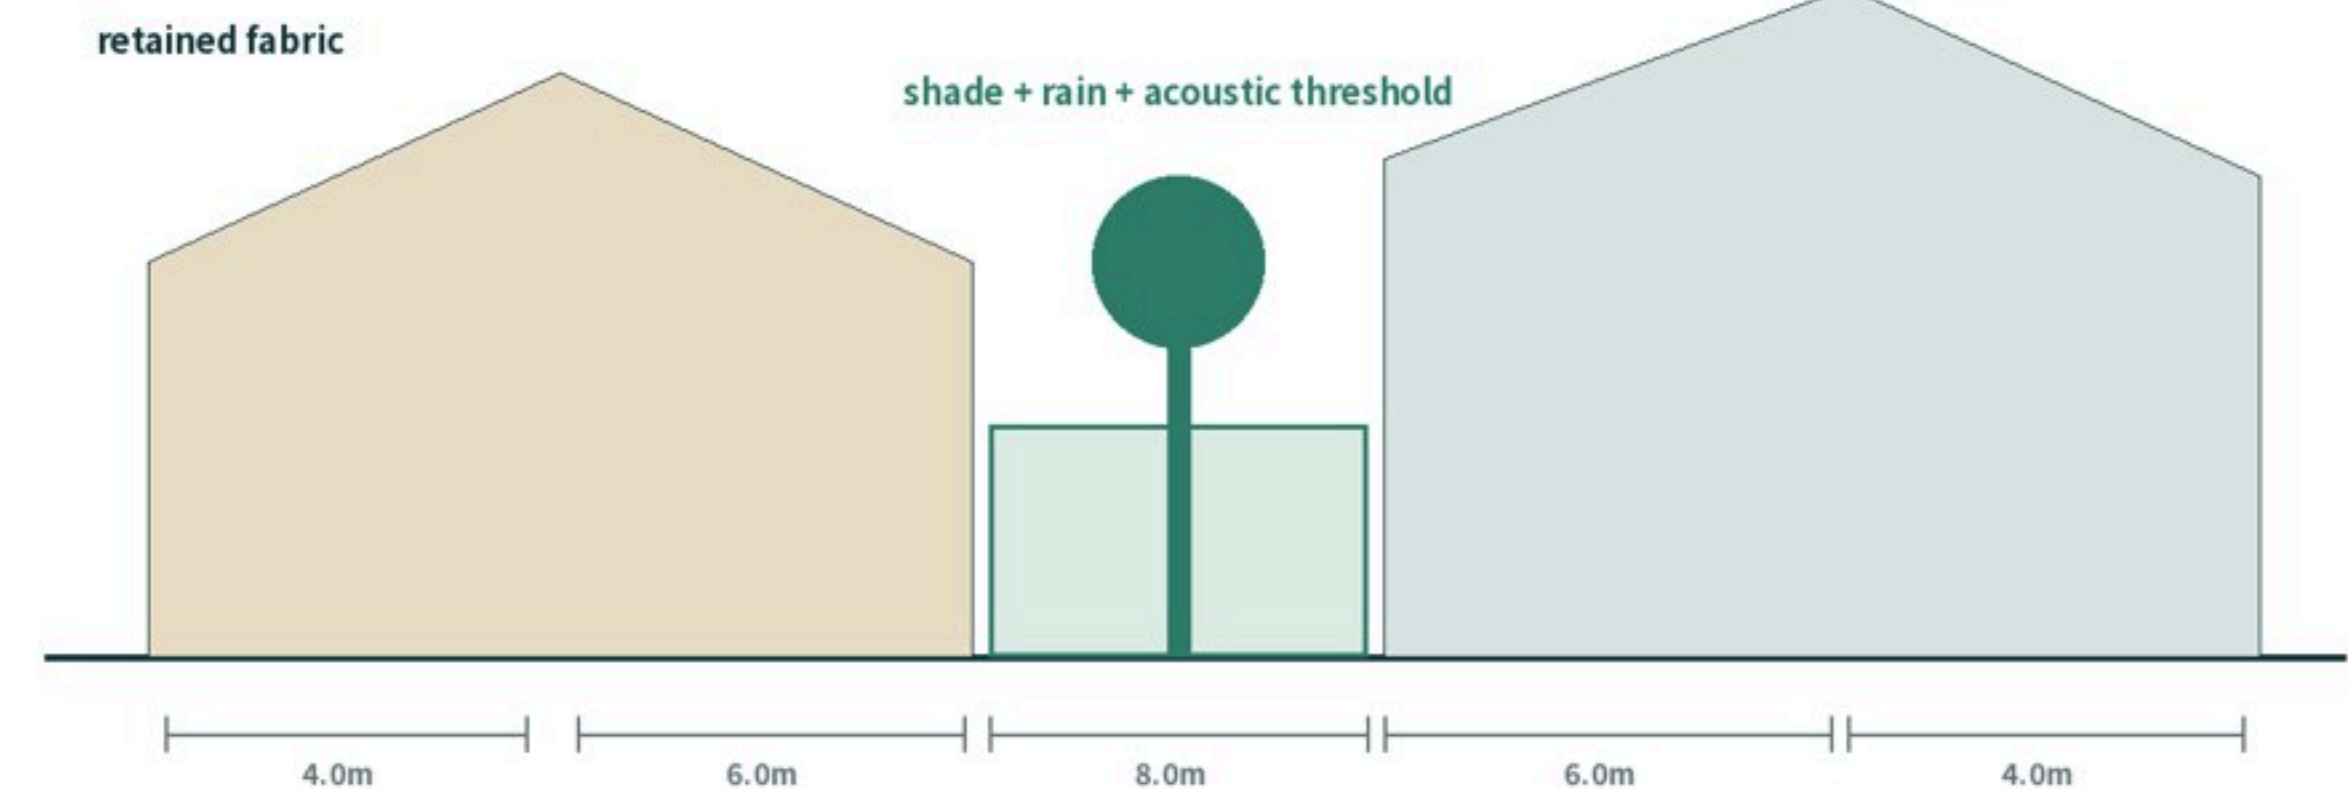

01 / 1:1000 BLOCK PLAN

02 / 1:500 GROUND FLOOR

03 / 1:200 SECTION

04 / DAY × SEASONS

- 09:00 Residents commission
- 14:00 Co-production
- 18:30 Public retest

SPRING open court

SUMMER 60% shade

AUTUMN maker market

WINTER wind-buffered room

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

Submission v7.4 • fixed title and direction • review-ready package

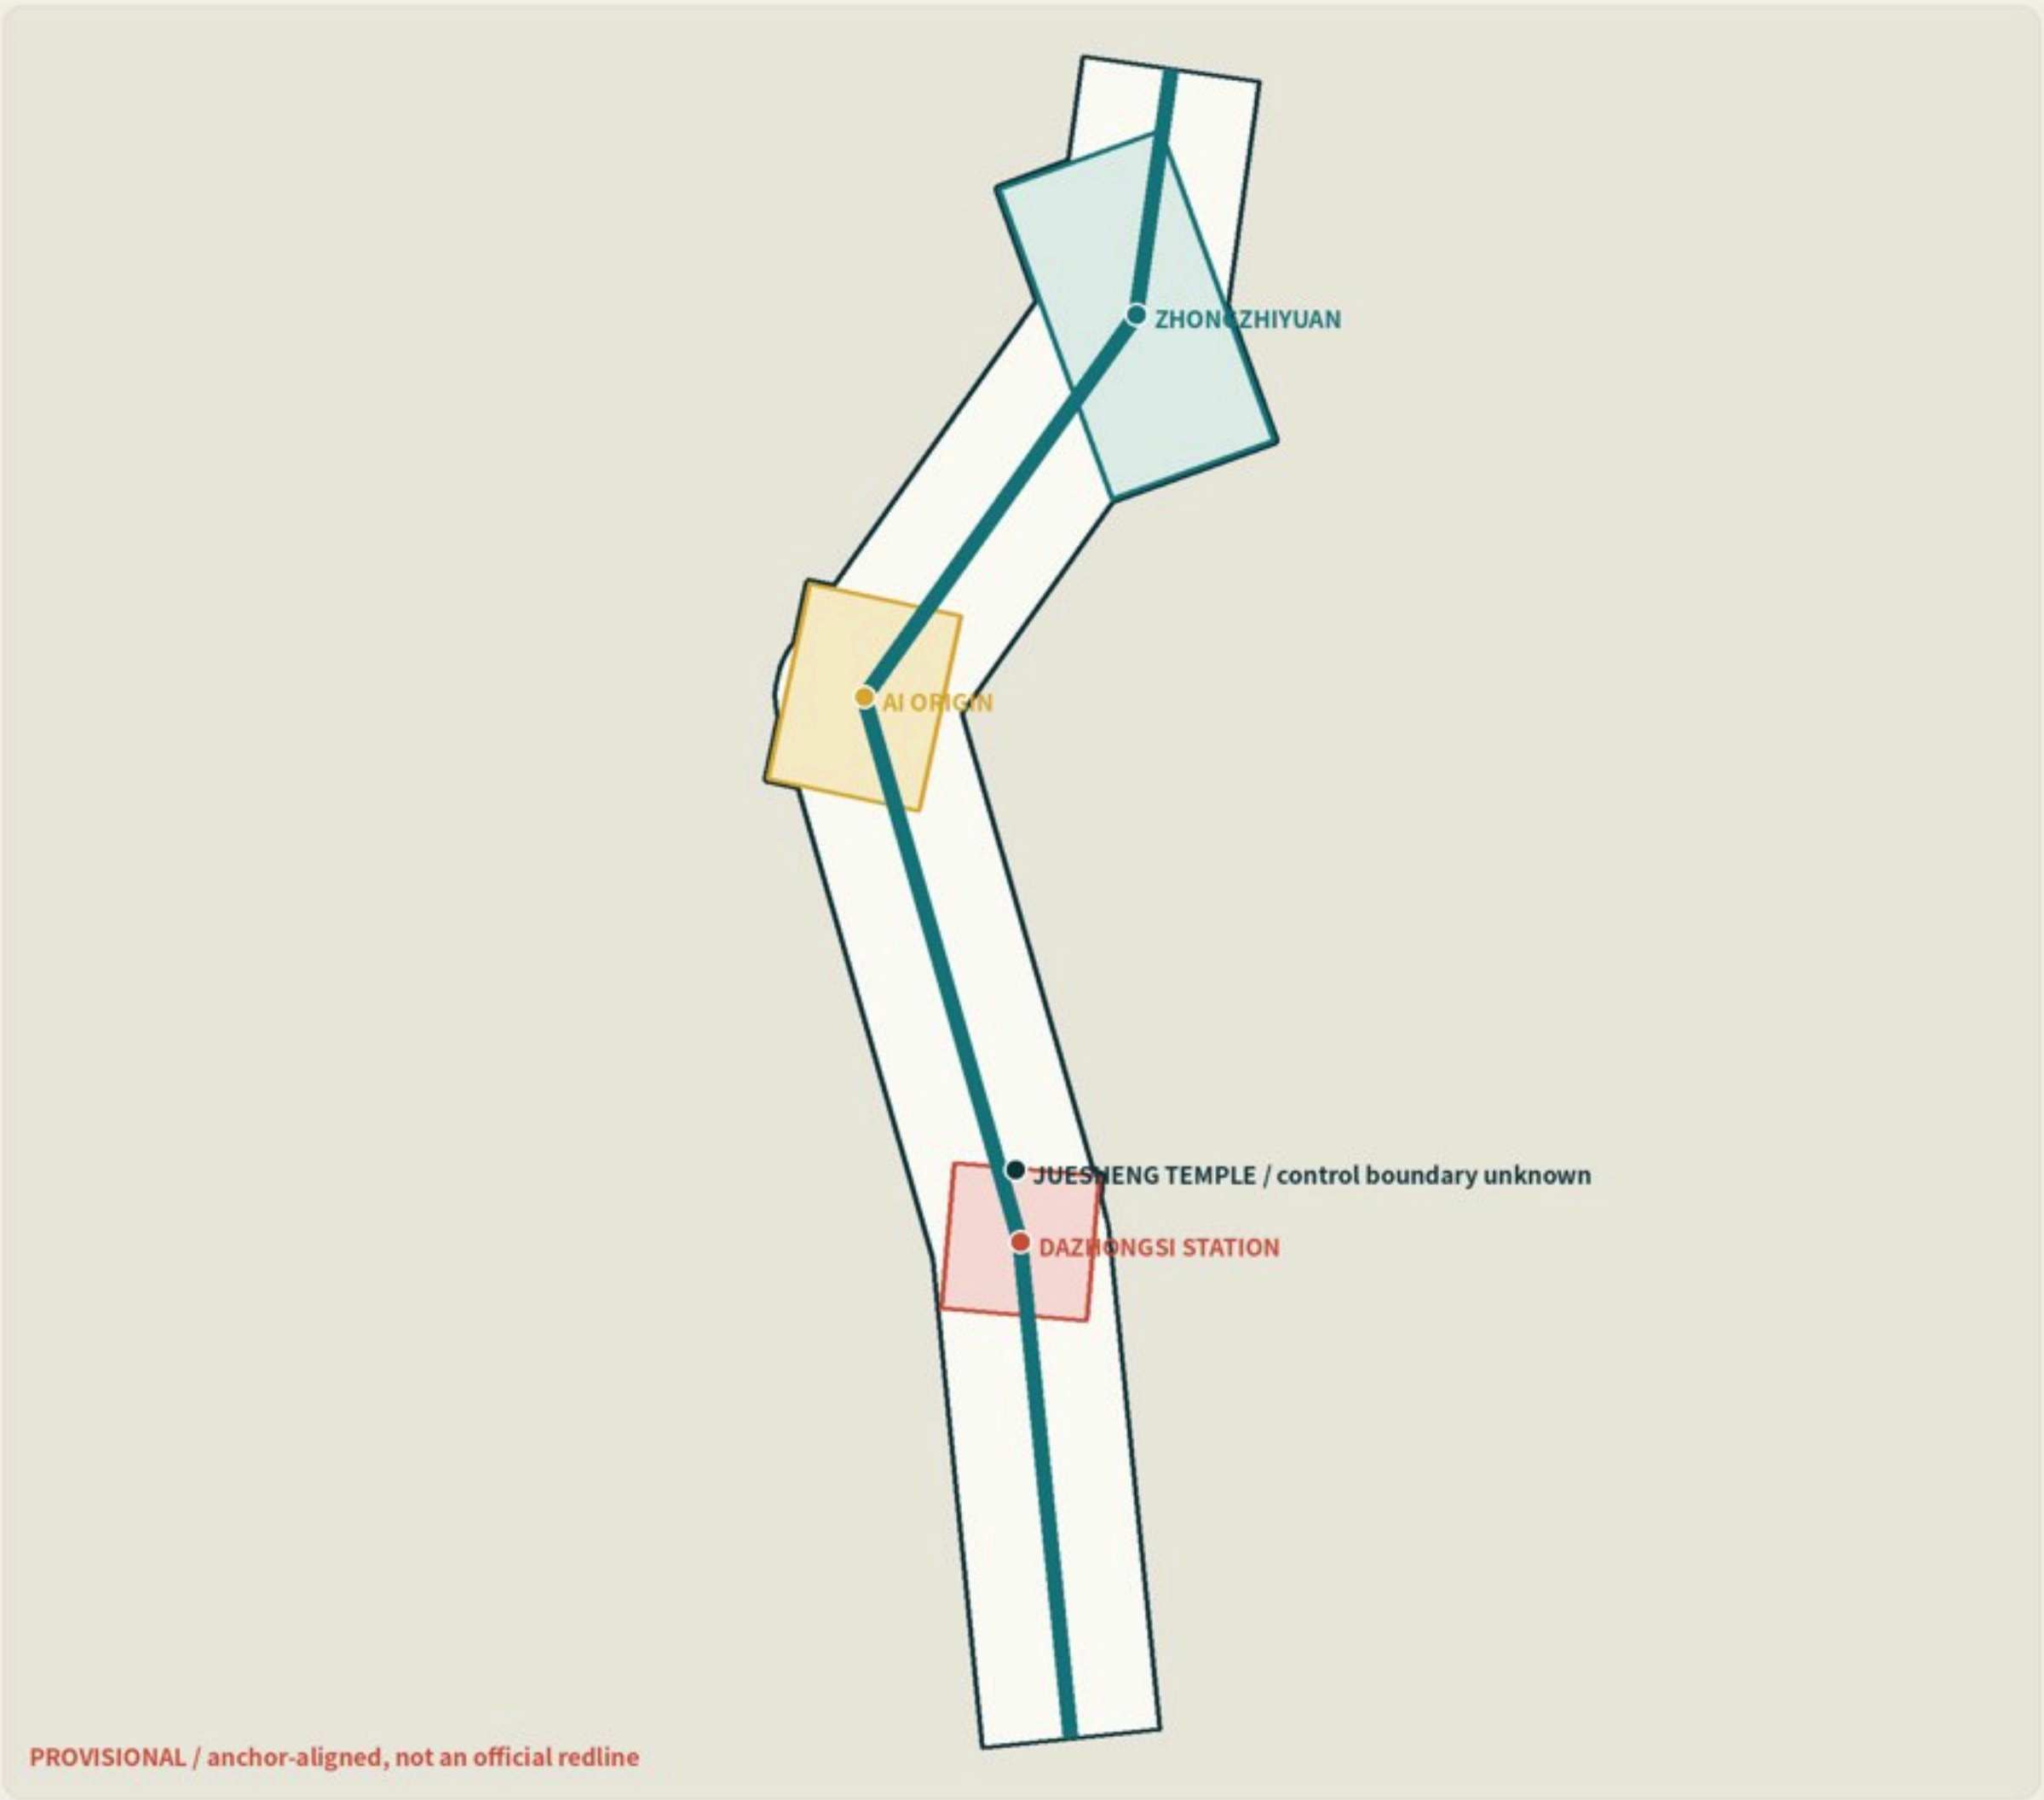

REAL SITE EVIDENCE

Three scales and four background anchors

V7.0 / 01 SITE EVIDENCE

JING-ZHANG CIVIC FOUNDRY | THE SITE IS NOT A STRAIGHT STRIP

One provisional base model aligns the official text extent, announced areas and four public background anchors—without pretending to be a statutory boundary.

DO NOT MIX SCALES

43.6 km² coordinated research / 11.4 km² overall design / 368.4 ha across three key areas. The 16 ha existing AI Origin core and ~3 km² influence range are background only.

FOUR ANCHORS

Xuezhuyuan–Zhongzhiyuan, Origin Building, Dazhongsi Station and Juesheng Temple. Coordinates support orientation only; statutory polygons remain missing.

ONE SPATIAL PROPOSITION

Embed cultural evidence, civic commissions, public prototypes and one-year adopt-or-exit decisions into actual ground floors and public-space sequences.

RECALCULATION CONTRACT

When official polygons arrive, regenerate all nine GeoJSON layers, metrics, five figures, A3/A0 and offline HTML—not just the basemap.

Provisional geometry only. Official boundaries, parcels and statutory controls remain a mandatory data gate.

THREE DISTINCT URBAN TISSUES

Garden innovation superblock • fine-grain court fabric • rail-city-heritage quarter

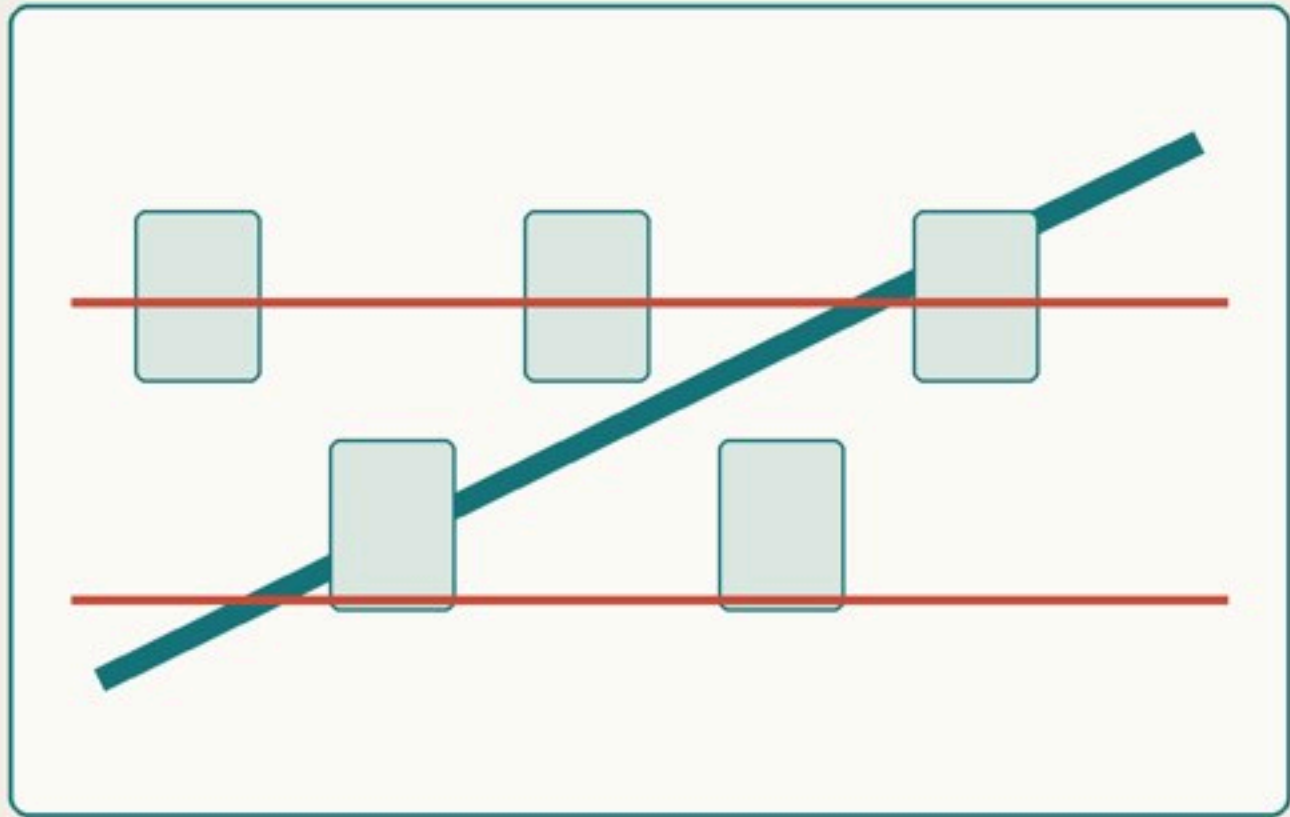

V7.0 / 02 THREE URBAN TISSUES

THE THREE KEY AREAS ARE NOT ONE GENERIC AI DISTRICT

Street–block–plot–building logic gives each area a different five-minute sequence, ground-floor contract and acceptance focus.

ZHONGZHIYUAN | GARDEN SUPERBLOCK

192.1 ha provisional

QUIET → TEST → OBSERVE → GARDEN → EXIT

Open long blocks: station–sunken forecourt–controlled test edge–garden/water–quiet exit. Separate logistics from public observation; reject blank compound walls.

BLOCK OPENINGS

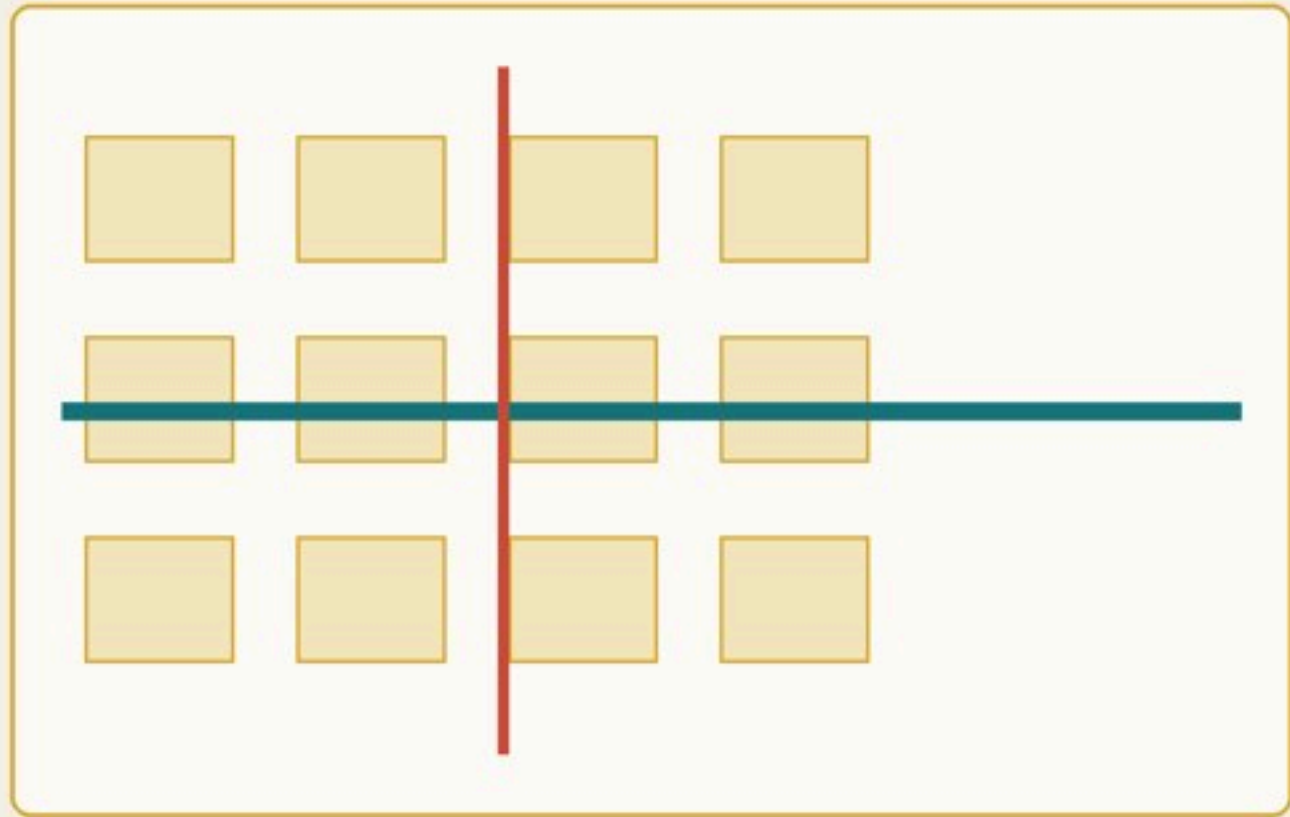

ACTIVE GROUND FLOOR

SEPARATE LOGISTICS

REVERSIBLE PROTOTYPE

AI ORIGIN | NEAR-CAMPUS COURTYARDS

104.3 ha provisional

STREET → ARCADE → COURT → WORKSHOP → CAMPUS

Retain–repair–reuse the street–lane–court–workshop sequence. Daily retail, learning, care and human service precede programmed events.

BLOCK OPENINGS

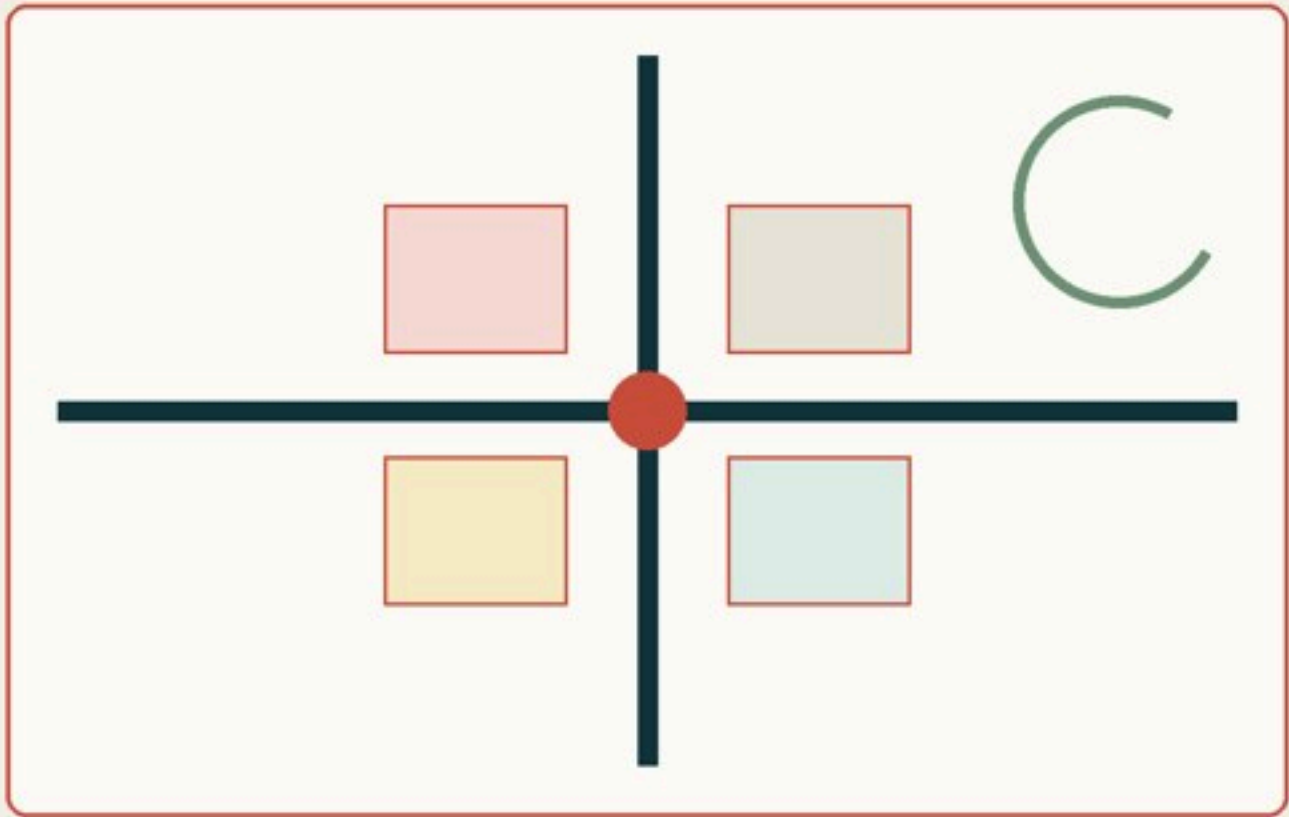

ACTIVE GROUND FLOOR

SEPARATE LOGISTICS

REVERSIBLE PROTOTYPE

DAZHONGSI | STATION-CITY-HERITAGE

72.0 ha provisional

STATION → STREET → SQUARE → HALL → QUIET

Link all four station quadrants and cycle parking to active ground floors and civic-premiere space; form a quiet relationship to Juesheng Temple without inventing its control line.

BLOCK OPENINGS

ACTIVE GROUND FLOOR

SEPARATE LOGISTICS

REVERSIBLE PROTOTYPE

EACH AREA MUST DELIVER: existing/proposed plan + block/plot map + ground-floor interface + section + serial vision + statutory control sheet

Each key area uses a different block, frontage, mobility and public-exposure logic.

MORPHOLOGY AS A DELIVERY METHOD

street-block-plot-building

V7.0 / 03 METHOD INTO DRAWING

TURN CLASSIC METHODS INTO REQUIRED DELIVERABLES

These books are not decorative references: every method produces a reviewable drawing or control sheet.

KROPF / PANERAI

STREET-BLOCK-PLOT-BUILDING

Existing/proposed tissue matrices for all three key areas: retain, repair, open or replace.

SPACEMATRIX

FAR × GSI × OSR × LAYERS

Parcel intensity sheets only after statutory inputs arrive; no invented regulatory values.

ALLAN B. JACOBS

MEASURE THE STREET

Five existing/proposed sections: walking, cycling, traffic, shade, frontage, loading and access.

GORDON CULLEN

SERIAL VISION

One five-minute sequence per key area tests arrival, reveal, enclosure, turn, quiet and exit.

5 张必须成对的断面 / FIVE PAIRED SECTIONS

01 Xuezhuyuan-forecourt-garden/water

WIDTH / REDLINE TO SURVEY

02 Chengfu Rd-Origin-Al lane/campus

WIDTH / REDLINE TO SURVEY

03 Dazhongsi quadrants-Bluejing/Fangheng

WIDTH / REDLINE TO SURVEY

04 Jing-Zhang spine-east/west stitch

WIDTH / REDLINE TO SURVEY

05 Qinghe/Xiaoyue blue-green edge

WIDTH / REDLINE TO SURVEY

Morphology, intensity, paired sections and serial vision are translated into drawing obligations.

FIVE PAIRED SECTIONS

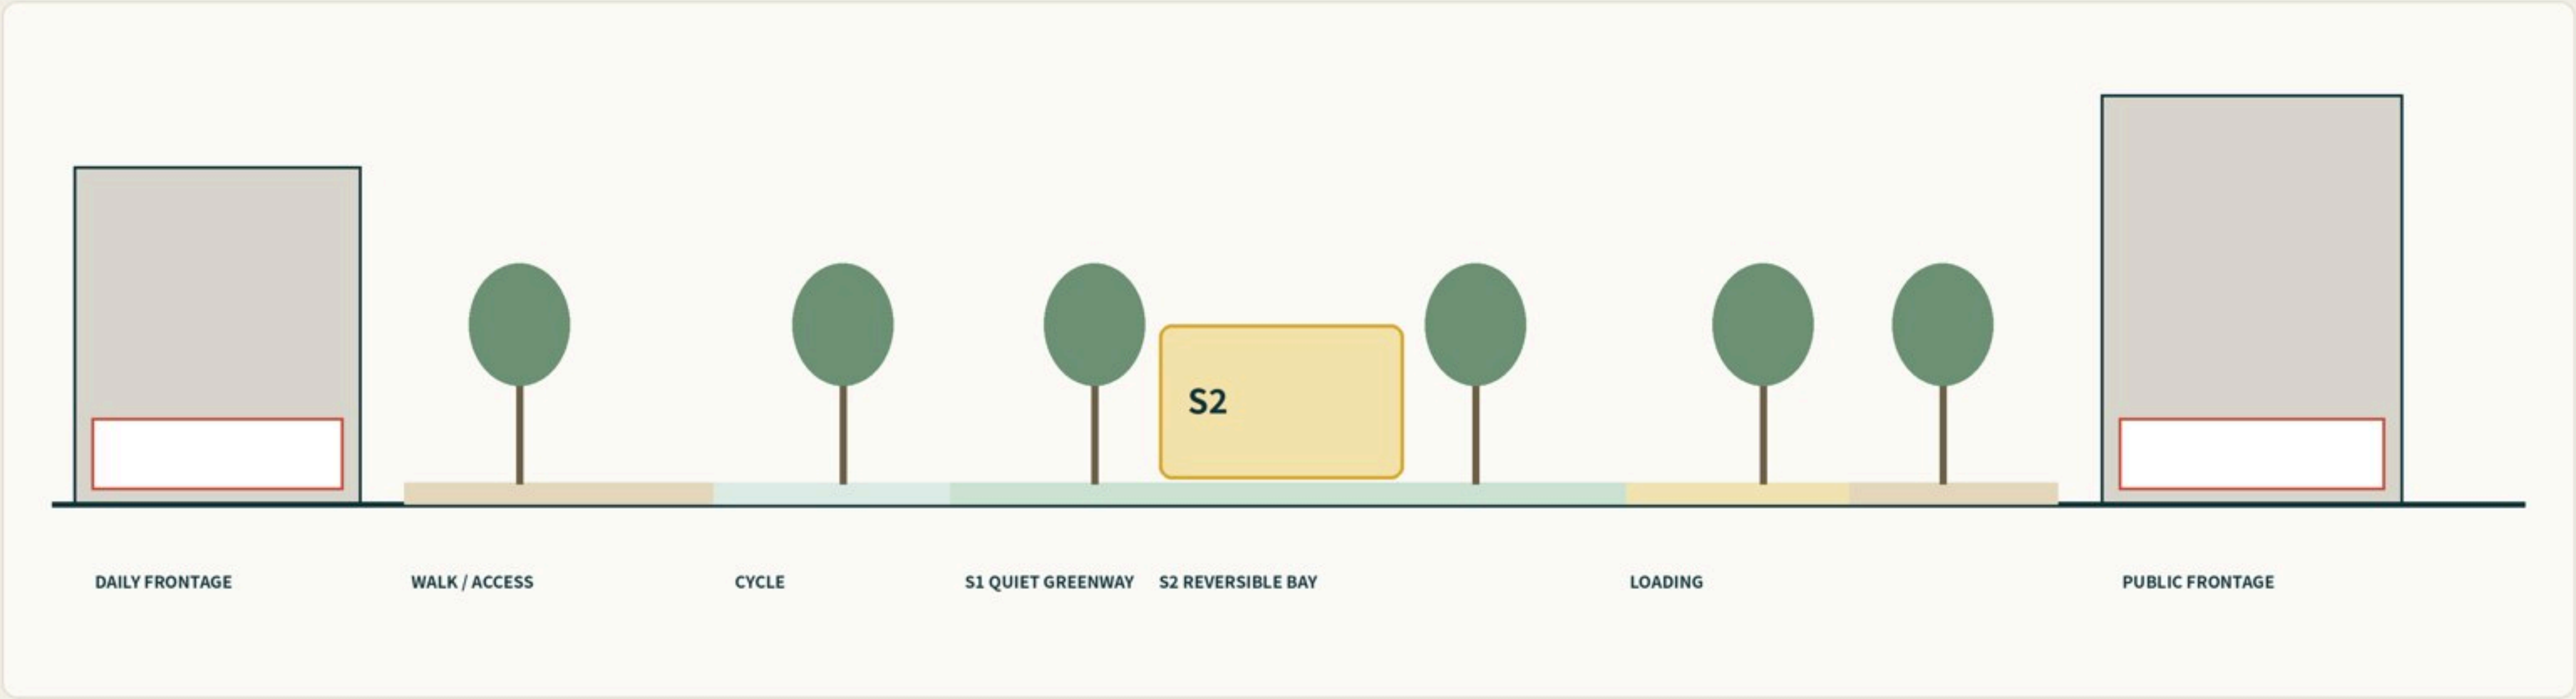

pedestrian • cycle • vehicle • shade • ground floor • service • fire • access

V7.0 / 04 INTERFACE & MOVEMENT

DELIVER STREET SECTIONS BEFORE AI DEVICES

Five section types protect continuous walking, access, shade, daily frontage, separate loading, quiet bypasses and removable interfaces.

S1 PERMANENT PUBLIC BASELINE 24/7 passage, universal access, physical wayfinding, human help, shade and seating; it works offline.	S2 REVERSIBLE CIVIC INTERFACE Commission arcades, workshop edges, status boards and climate elements record occupation, maintenance and restoration.	S3 TIME-LIMITED AI SERVICE Hours to 12 months; risk level, human takeover, non-digital path, stop and exit are mandatory.
--	--	---

SECTION ACCEPTANCE IS MEASURED: width, slope, canopy, frontage opening, conflict points, night lighting, fire access and restoration after removal.

NUMERIC RULE: when statutory redlines and intensity are unknown, state performance, data request, professional check and hold point—never invent a number.

Dimensions remain unknown until surveyed road lines and special reviews are supplied.

AI ORIGIN PROTOTYPE

1:1000 + 1:500 + 1:200 + day × seasons

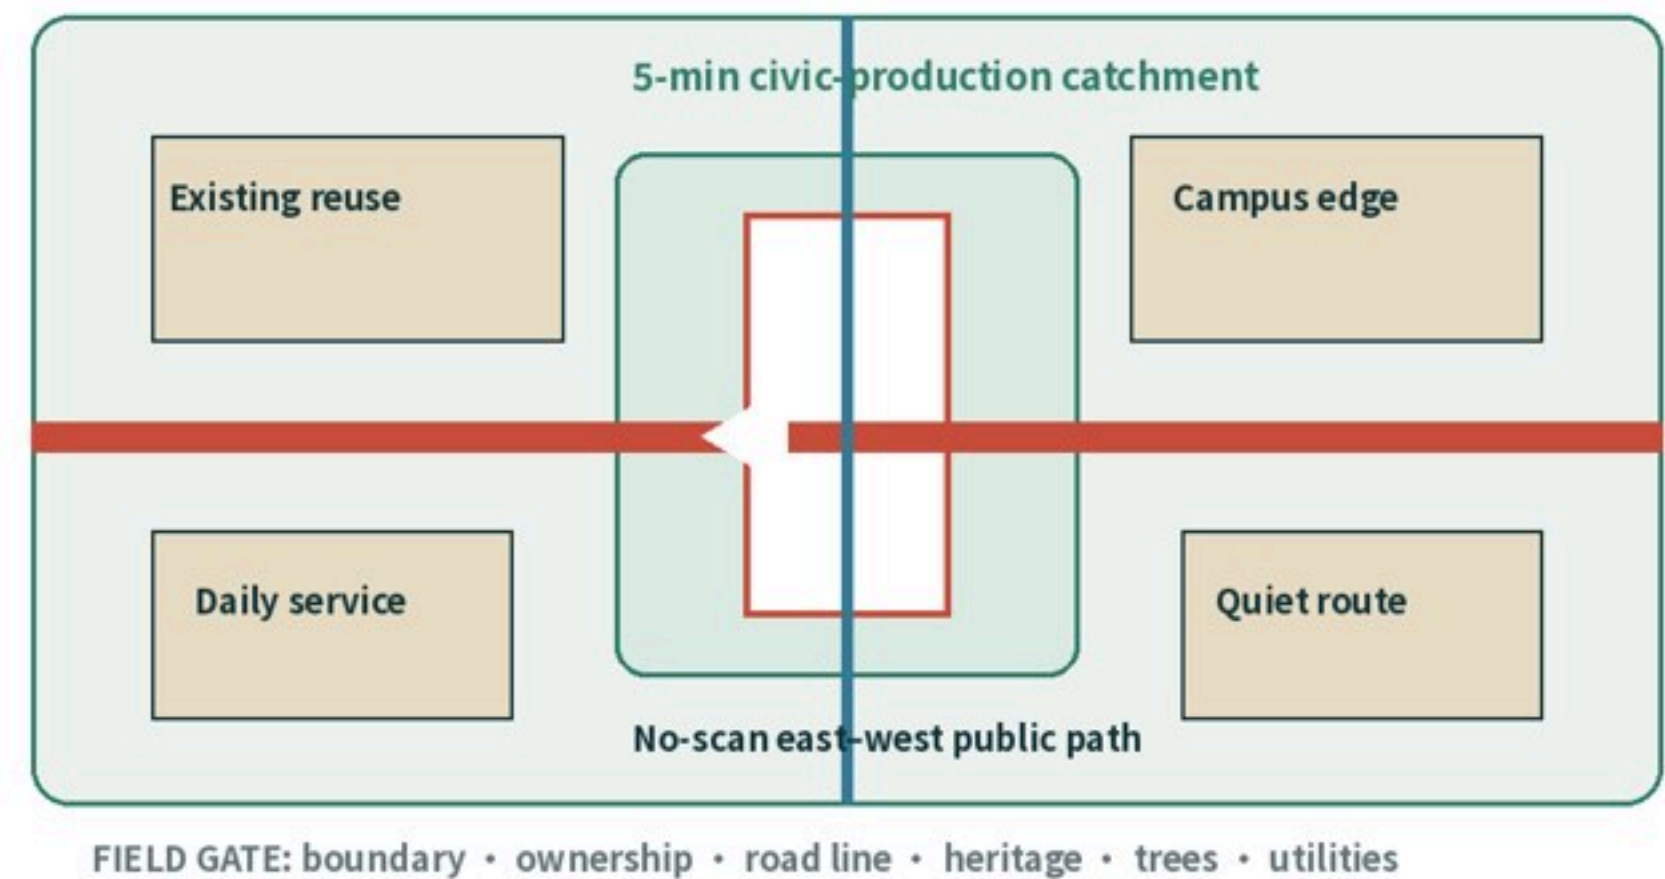

AI ORIGIN PROTOTYPE NODE

V7.4

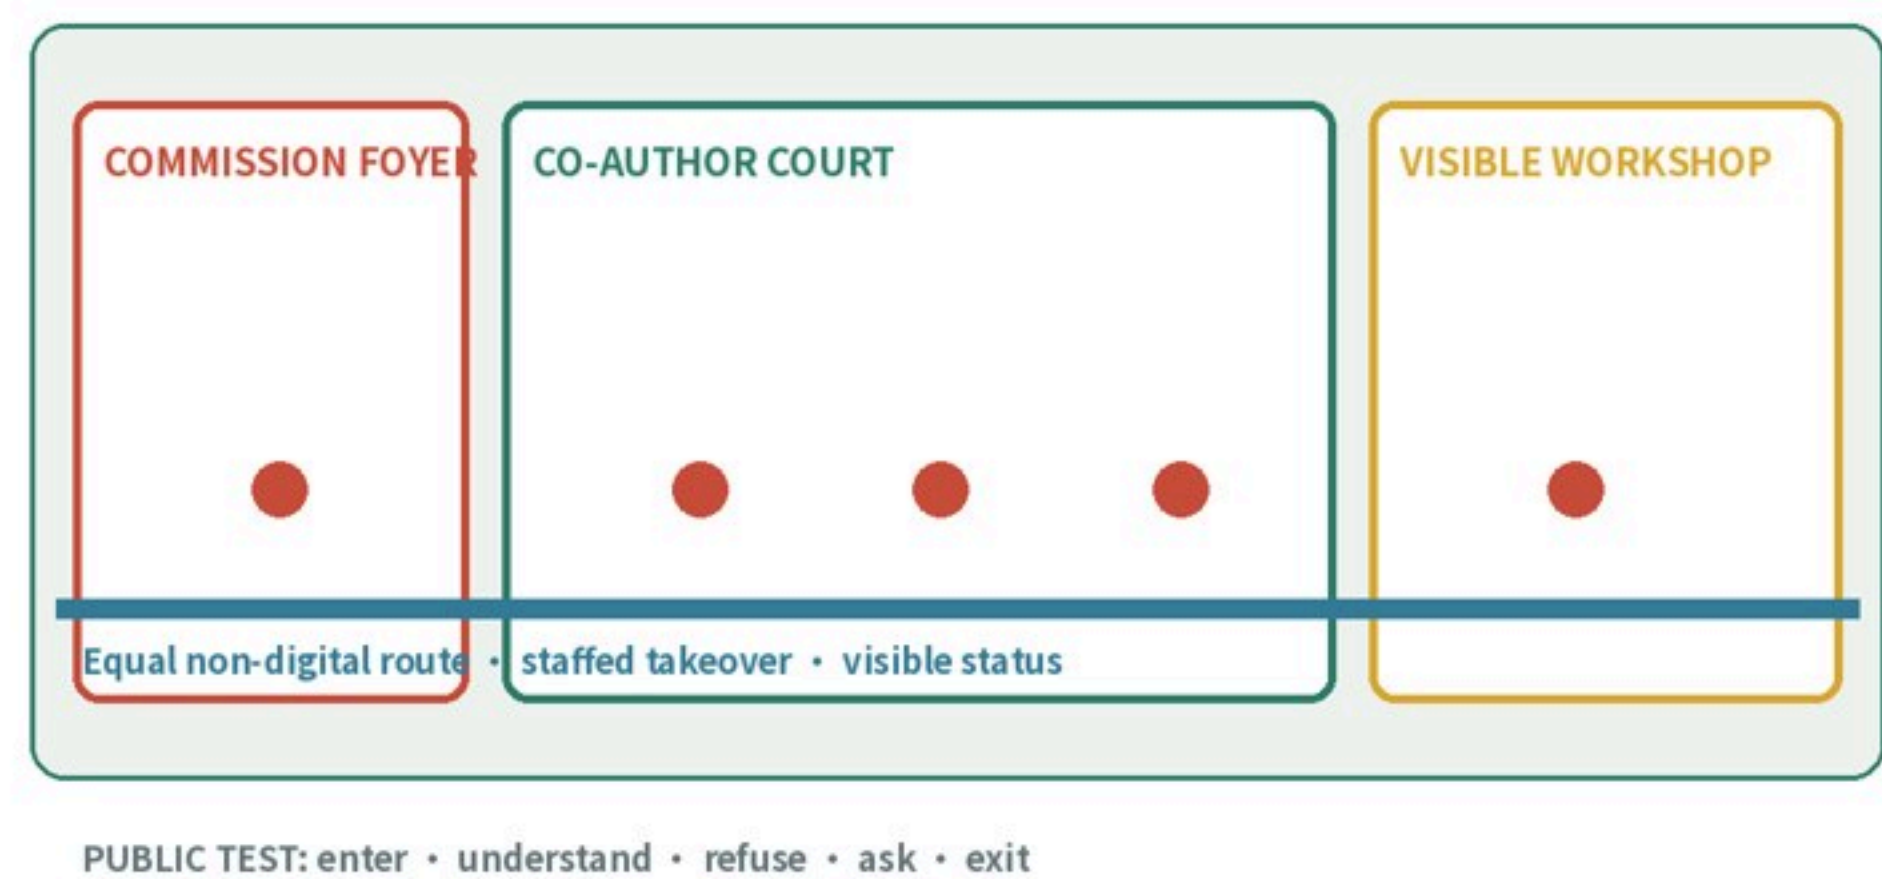

AI Origin: a drawing-task-signoff interface

1:1000 block plan • 1:500 ground floor • 1:200 section • day × seasons

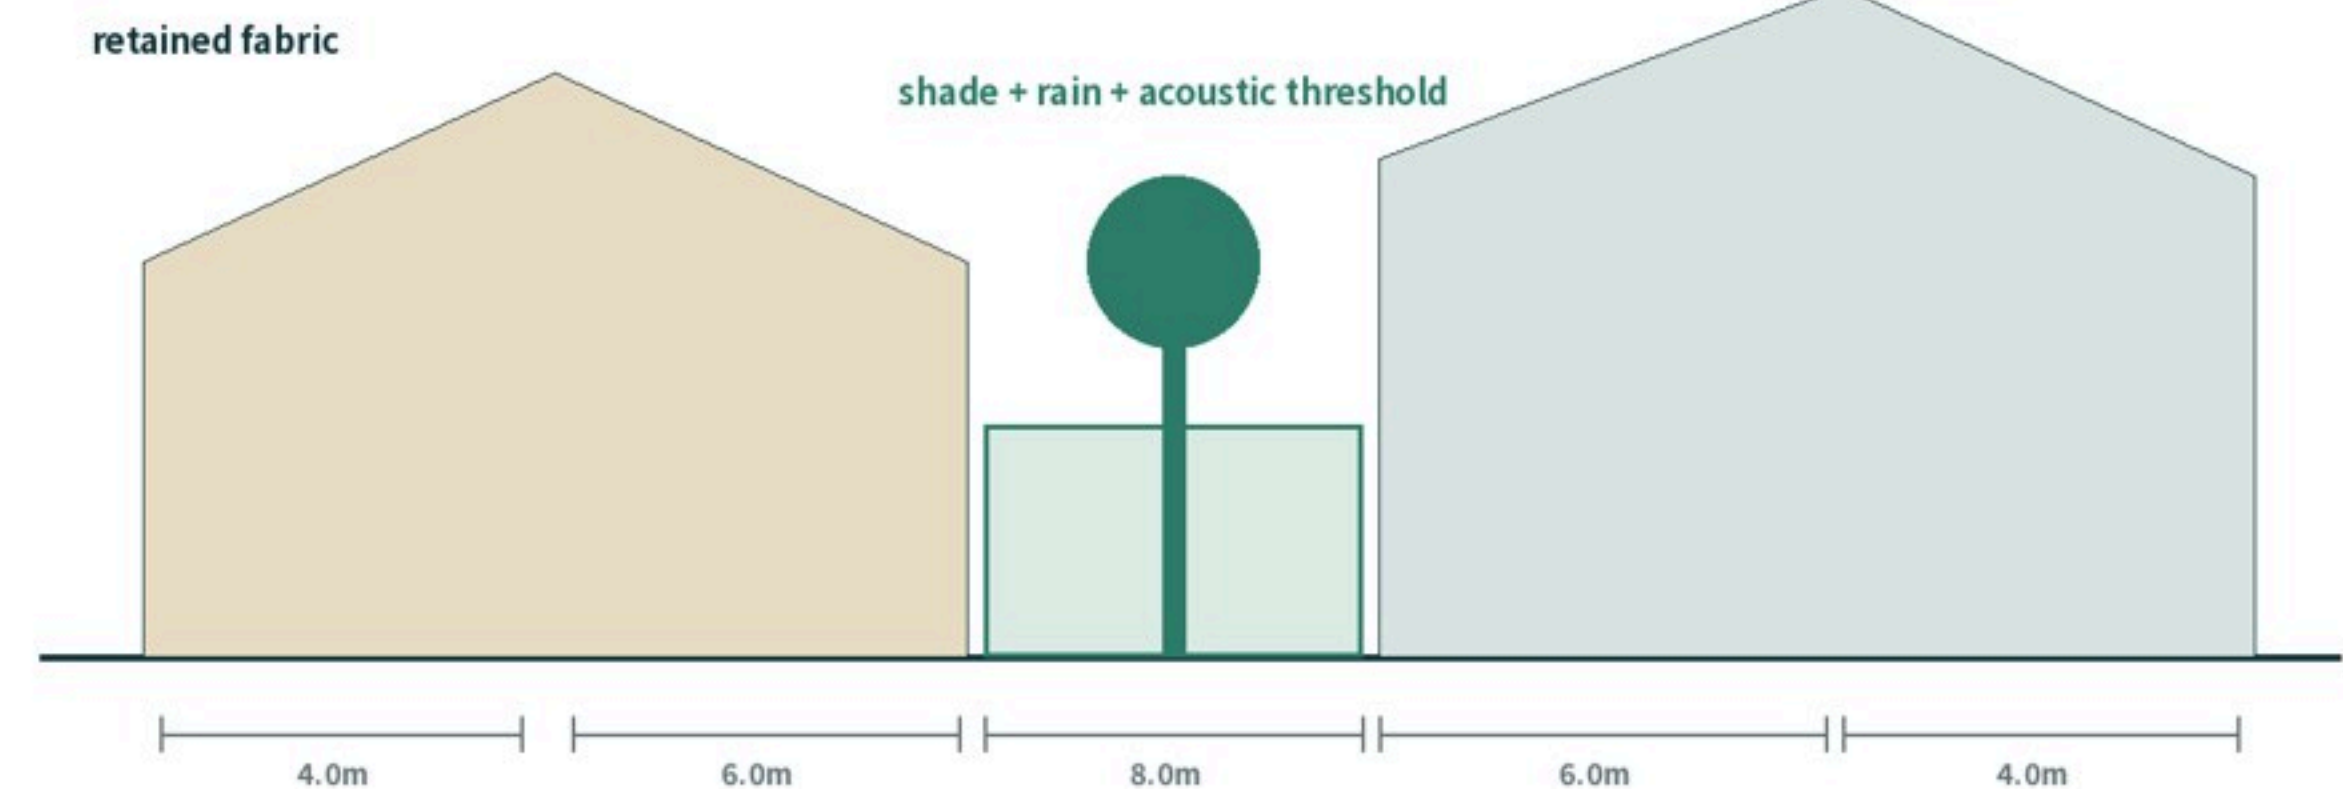

01 / 1:1000 BLOCK PLAN

02 / 1:500 GROUND FLOOR

03 / 1:200 SECTION

04 / DAY × SEASONS

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

Commission foyer — co-author court — visible workshop. It is a transferable drawing-task-signoff interface, not a standard building.

AUDITABLE AI-SPATIAL STACK

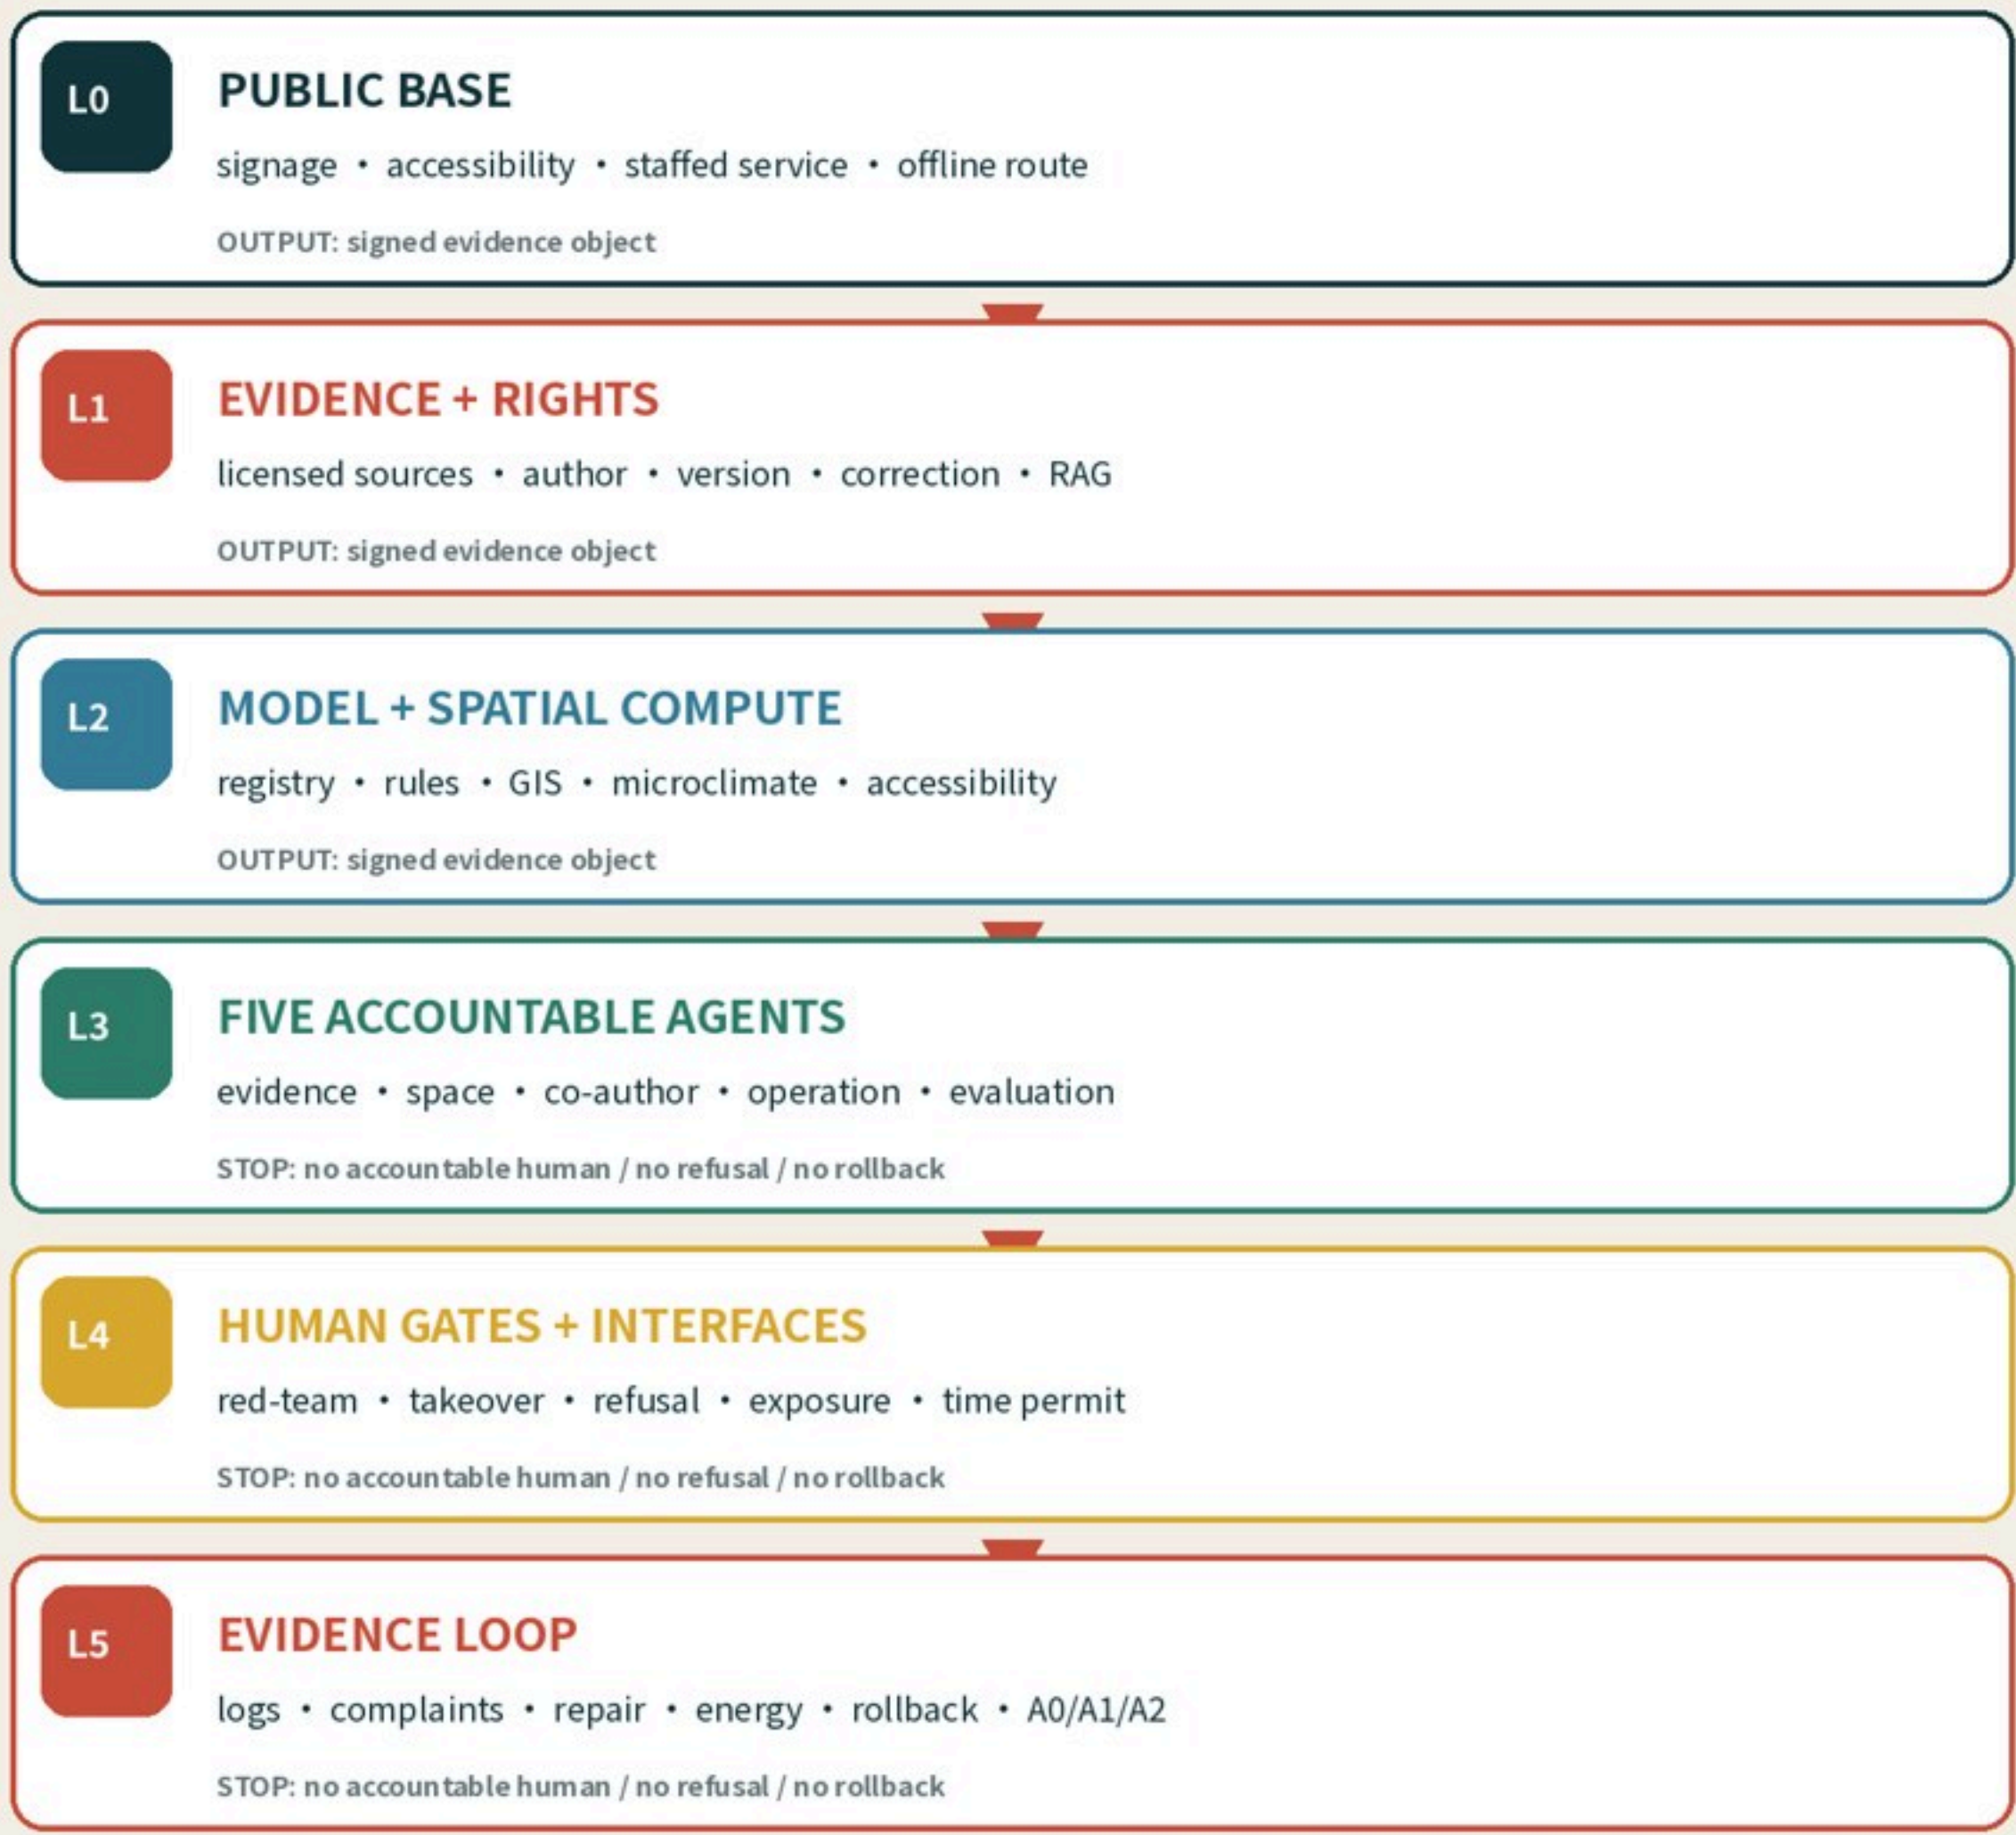

AI is optional and accountable

AUDITABLE AI-SPATIAL STACK

V7.4

AI must prove incremental public value

evidence ☒ model ☒ five accountable agents ☒ human gates ☒ spatial interface ☒ feedback

PUBLIC-INCREMENT TEST

NORMAL SERVICE

physical + staffed + non-AI task

OPTIONAL AI

same task • same users • same window

REPORT SEPARATELY

completion • time • correction • exclusion • frontline load

RENEWAL DECISION

KEEP BASE / REMOVE AI

No verified increment or more exclusion

LIMIT + REPAIR

Value exists but risks or burdens remain

EXPAND WITH NEW A0

Public result improves and AI increment holds

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

Evidence, rights, model registration, five accountable agents, human gates, spatial interfaces and rollback are separately auditable.

1+4+3 PUBLIC-VALUE ACCEPTANCE

no composite score

1+4+3 PUBLIC-VALUE ACCEPTANCE

V7.4

Not a composite score: sign each value and act on failure

1 non-tradable baseline + 4 public values + 3 review moments

1

NON-TRADABLE LEGAL + SAFETY BASELINE

official source + approval date + all applicable professional reviews + construction-critical unknown = 0

NO OFFSET

V1 SPACE + PUBLIC LIFE

no-scan path 100% • accessibility tasks 100% • daily active frontage ☒70% • summer 14:00 shade ☒60%

SIGN: operator + independent public-interest reviewer

V2 CULTURAL PRODUCTION

source/author/licence/payment/withdrawal records 100% • ☒3 real civic commissions/quarter • reuse in ☒2 independent contexts

SIGN: operator + independent public-interest reviewer

V3 INCLUSIVE, REFUSABLE AI

equal non-digital path 100% • staffed takeover 100% • compare completion/time/correction/exclusion/frontline load

SIGN: operator + independent public-interest reviewer

V4 RESILIENT, REVERSIBLE OPERATION

maintainer/resource/alternative/rollback 100% • basic public function restored within 24h

SIGN: operator + independent public-interest reviewer

3 REVIEW MOMENTS

A0

BASELINE CONTRACT

freeze object, comparator, numerator/denominator, window, target, signer, failure action

A1

OPENING CHECK

drawing = built work = field task; all minimum guarantees passed; red-team + takeover + recovery

A2

USE RE-TEST

D30 / D180 / D365 evidence; adopt, repair, shrink, move or exit

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

One non-tradable legal baseline, four separately signed public values and A0/A1/A2 review moments.

PUBLIC-INCREMENT COMPARATOR

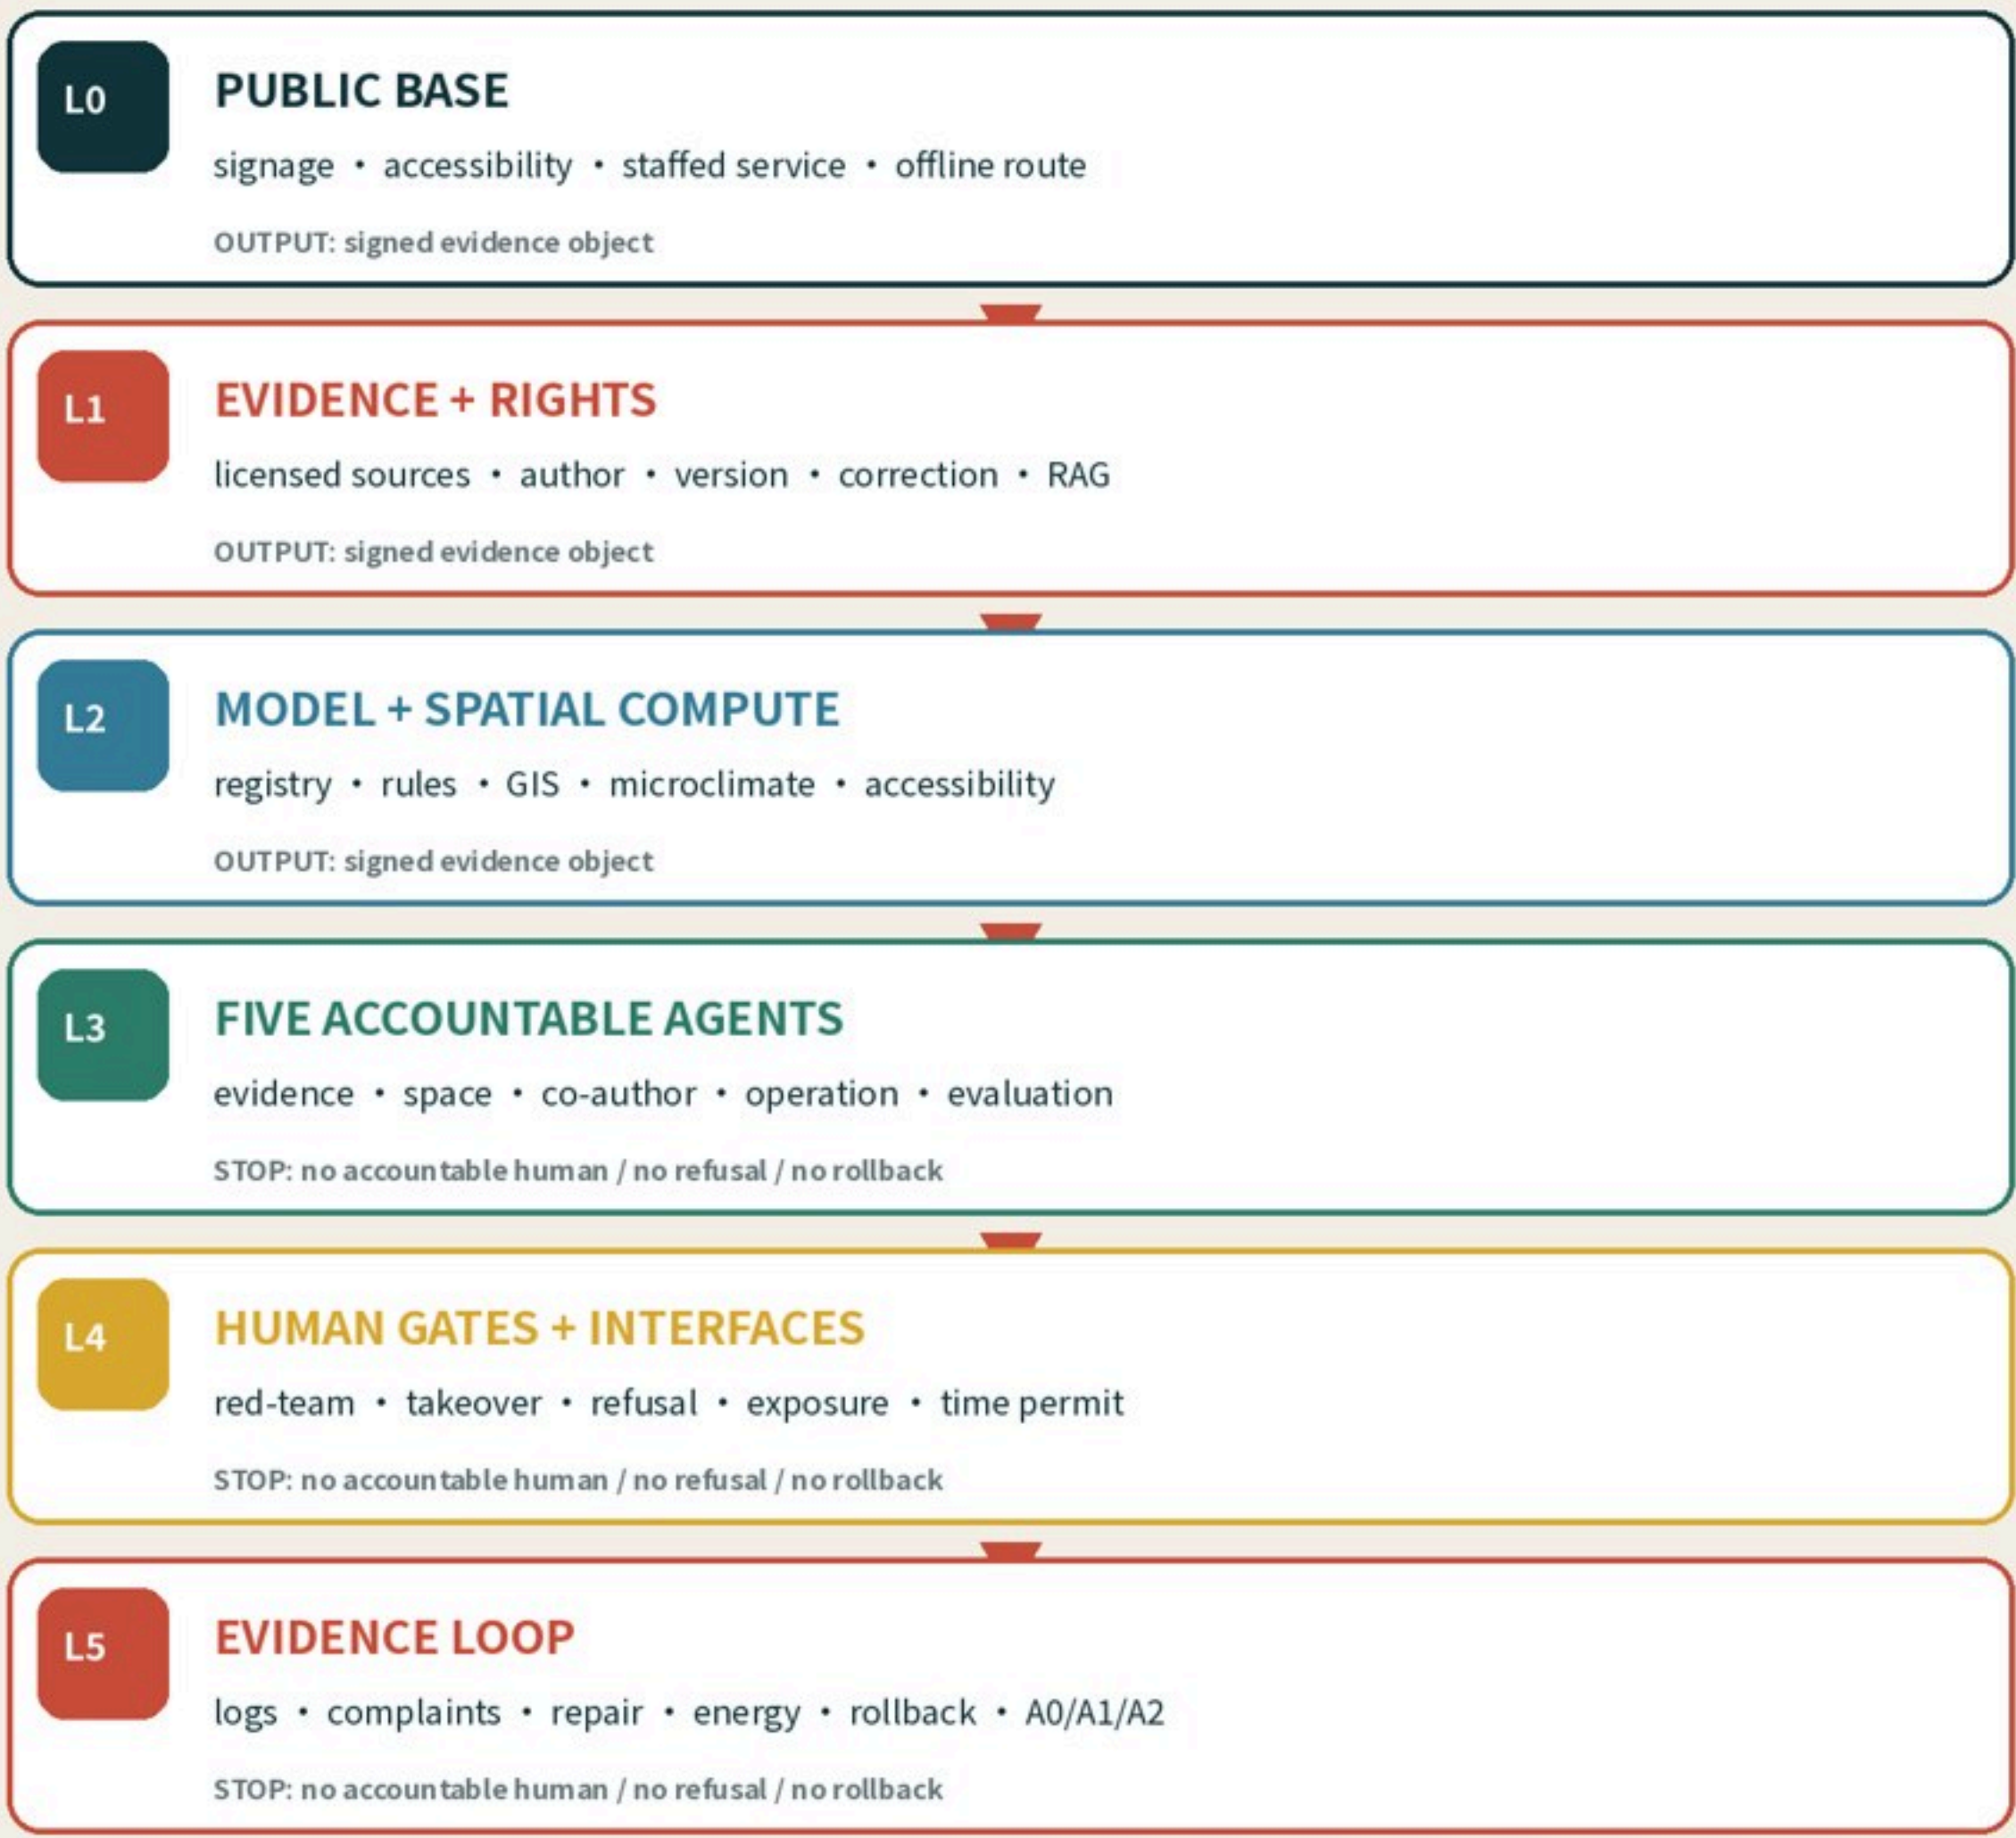

normal service versus optional AI

AUDITABLE AI-SPATIAL STACK

V7.4

AI must prove incremental public value

evidence ☒ model ☒ five accountable agents ☒ human gates ☒ spatial interface ☒ feedback

PUBLIC-INCREMENT TEST

NORMAL SERVICE

physical + staffed + non-AI task

OPTIONAL AI

same task • same users • same window

REPORT SEPARATELY

completion • time • correction • exclusion • frontline load

RENEWAL DECISION

KEEP BASE / REMOVE AI

No verified increment or more exclusion

LIMIT + REPAIR

Value exists but risks or burdens remain

EXPAND WITH NEW A0

Public result improves and AI increment holds

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

AI is renewed only when it improves public results without more exclusion, error or frontline burden.

CULTURAL PRODUCTION IN SPACE

real commissions and reusable civic products

1+4+3 PUBLIC-VALUE ACCEPTANCE

V7.4

Not a composite score: sign each value and act on failure

1 non-tradable baseline + 4 public values + 3 review moments

1

D30 / D180 / D365 evidence; adopt, repair, shrink, move or exit

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

Public result and AI increment are reported separately; adopt, repair, shrink, move or exit.

STATUTORY DELIVERY GATES

G0 data ☒ G1 controls ☒ G2 space ☒ G3 technical ☒ G4 use

V7.0 / 04 INTERFACE & MOVEMENT

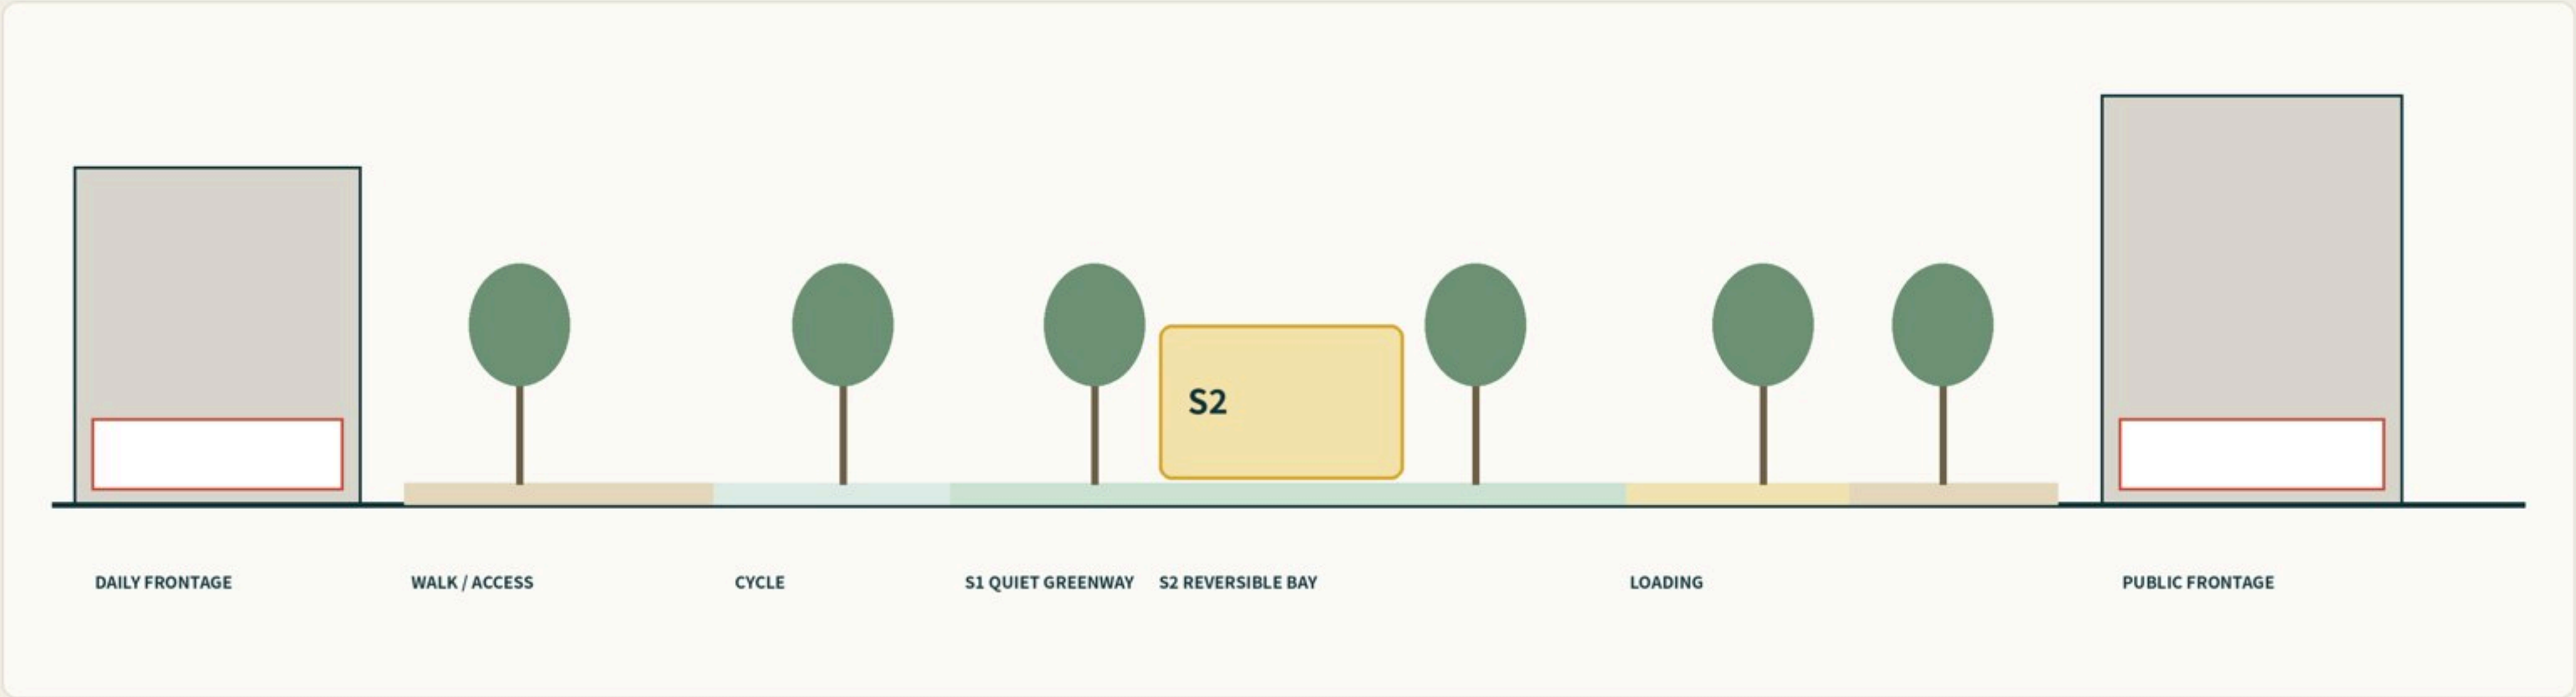

DELIVER STREET SECTIONS BEFORE AI DEVICES

Five section types protect continuous walking, access, shade, daily frontage, separate loading, quiet bypasses and removable interfaces.

S1 PERMANENT PUBLIC BASELINE
24/7 passage, universal access, physical wayfinding, human help, shade and seating; it works offline.

S2 REVERSIBLE CIVIC INTERFACE
Commission arcades, workshop edges, status boards and climate elements record occupation, maintenance and restoration.

S3 TIME-LIMITED AI SERVICE
Hours to 12 months; risk level, human takeover, non-digital path, stop and exit are mandatory.

SECTION ACCEPTANCE IS MEASURED: width, slope, canopy, frontage opening, conflict points, night lighting, fire access and restoration after removal.

NUMERIC RULE: when statutory redlines and intensity are unknown, state performance, data request, professional check and hold point—never invent a number.

No visual effect, visitor count or AI metric can offset a blocking legal, safety or professional-review condition.

STRUCTURED EVIDENCE

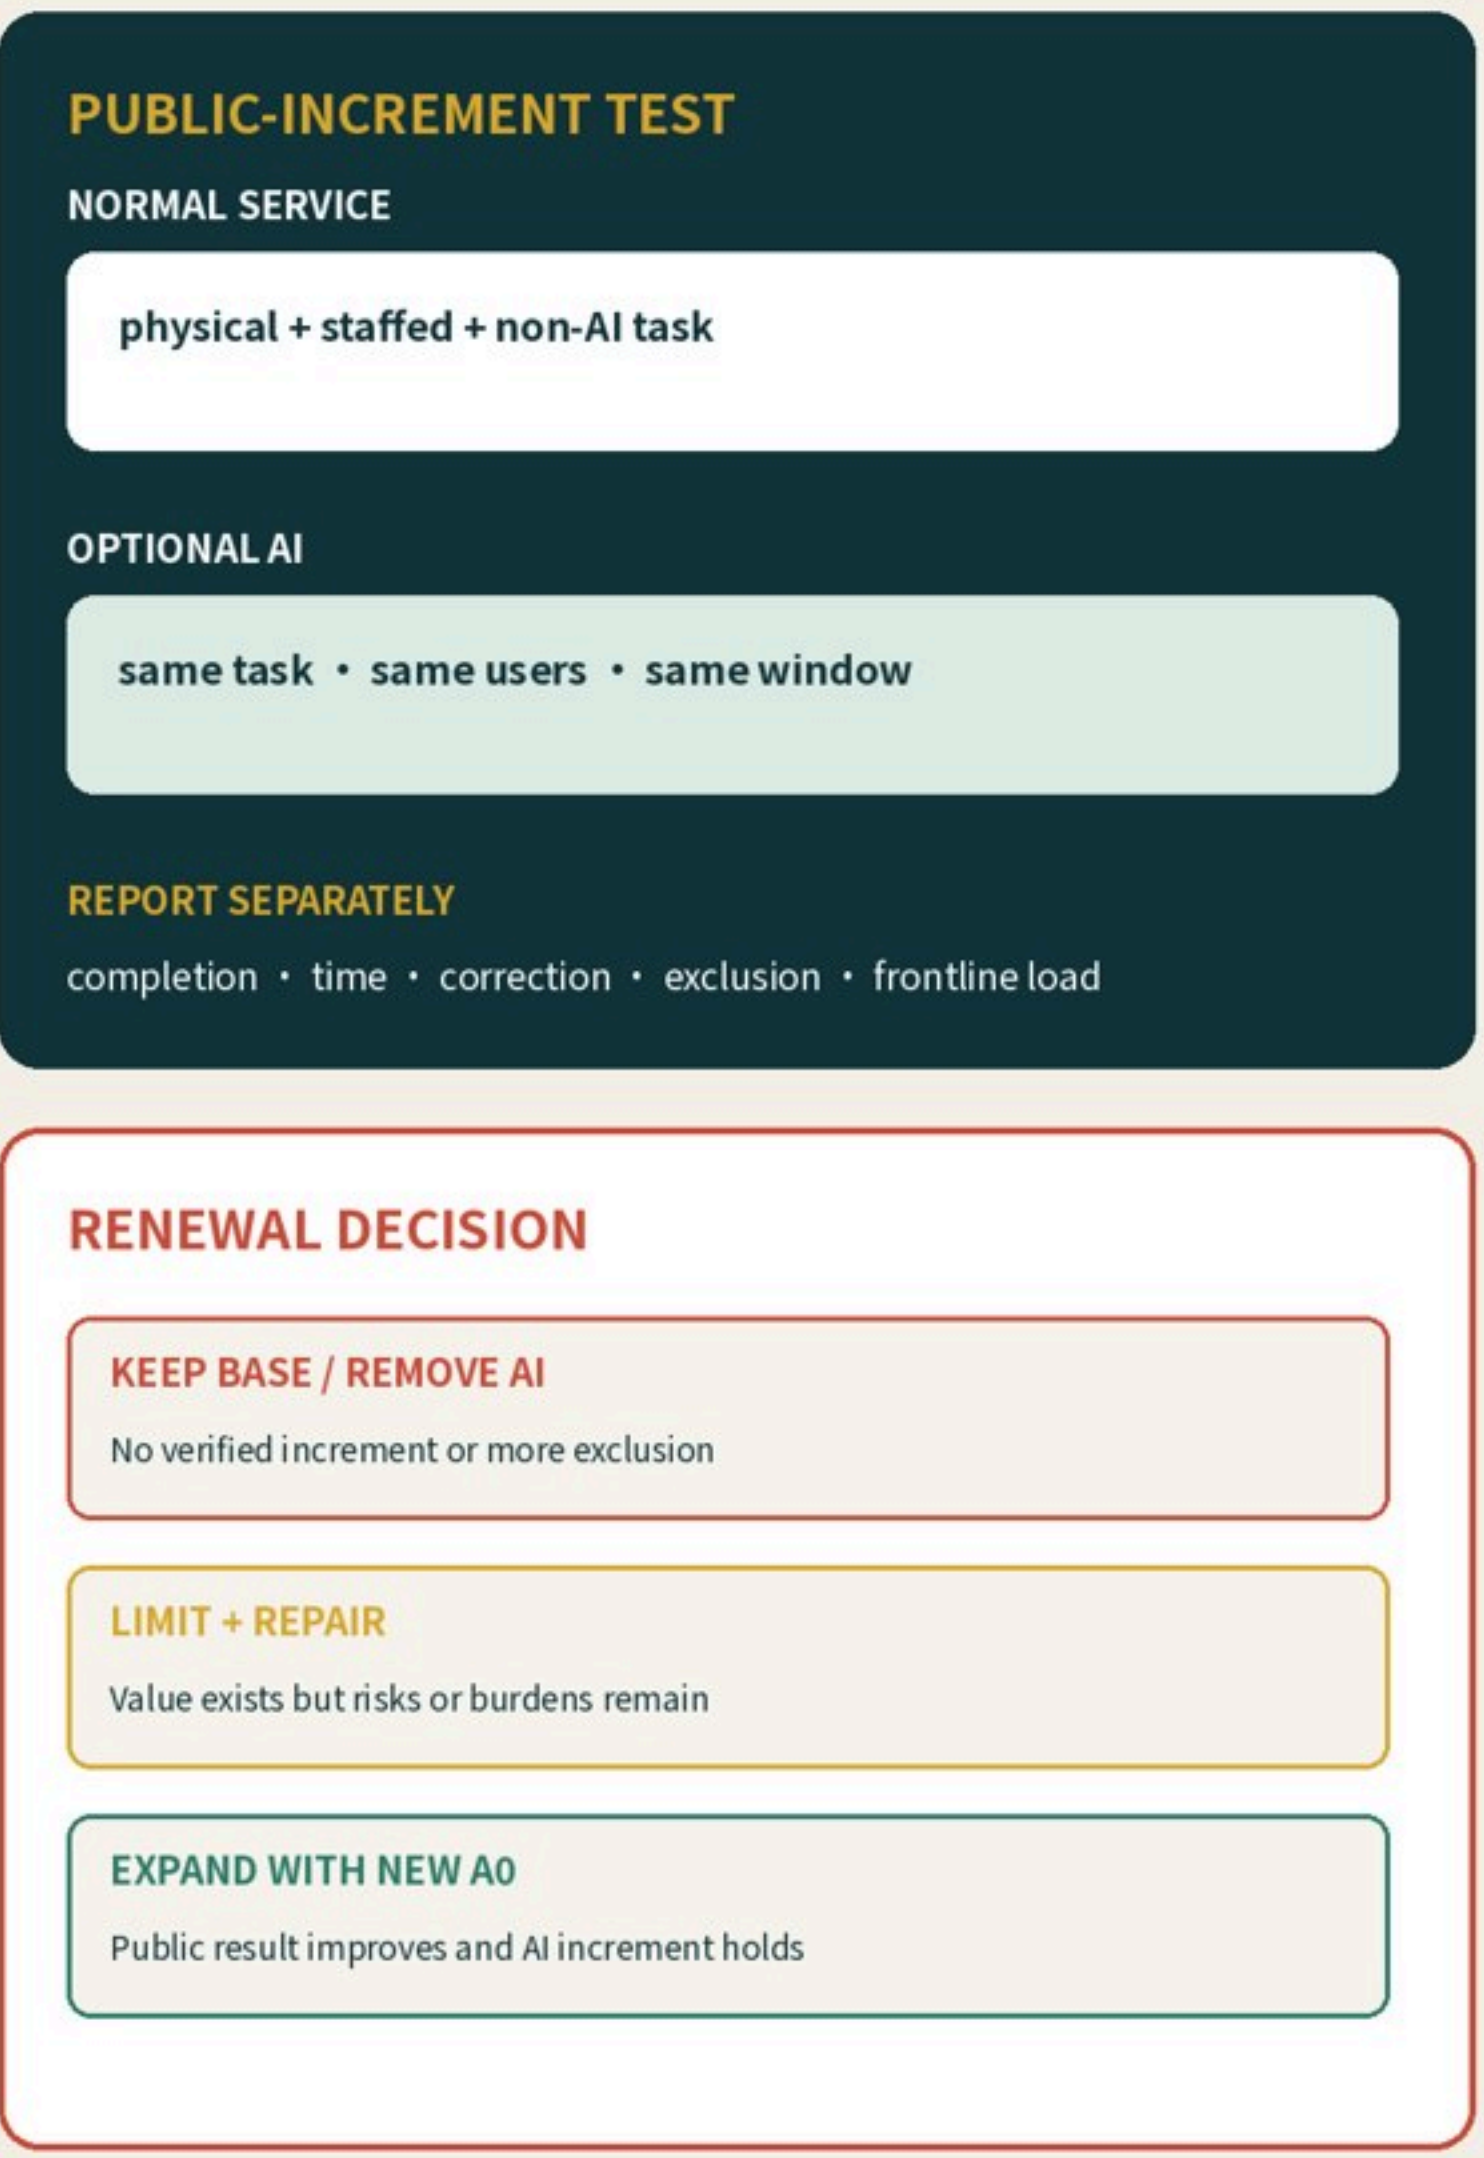

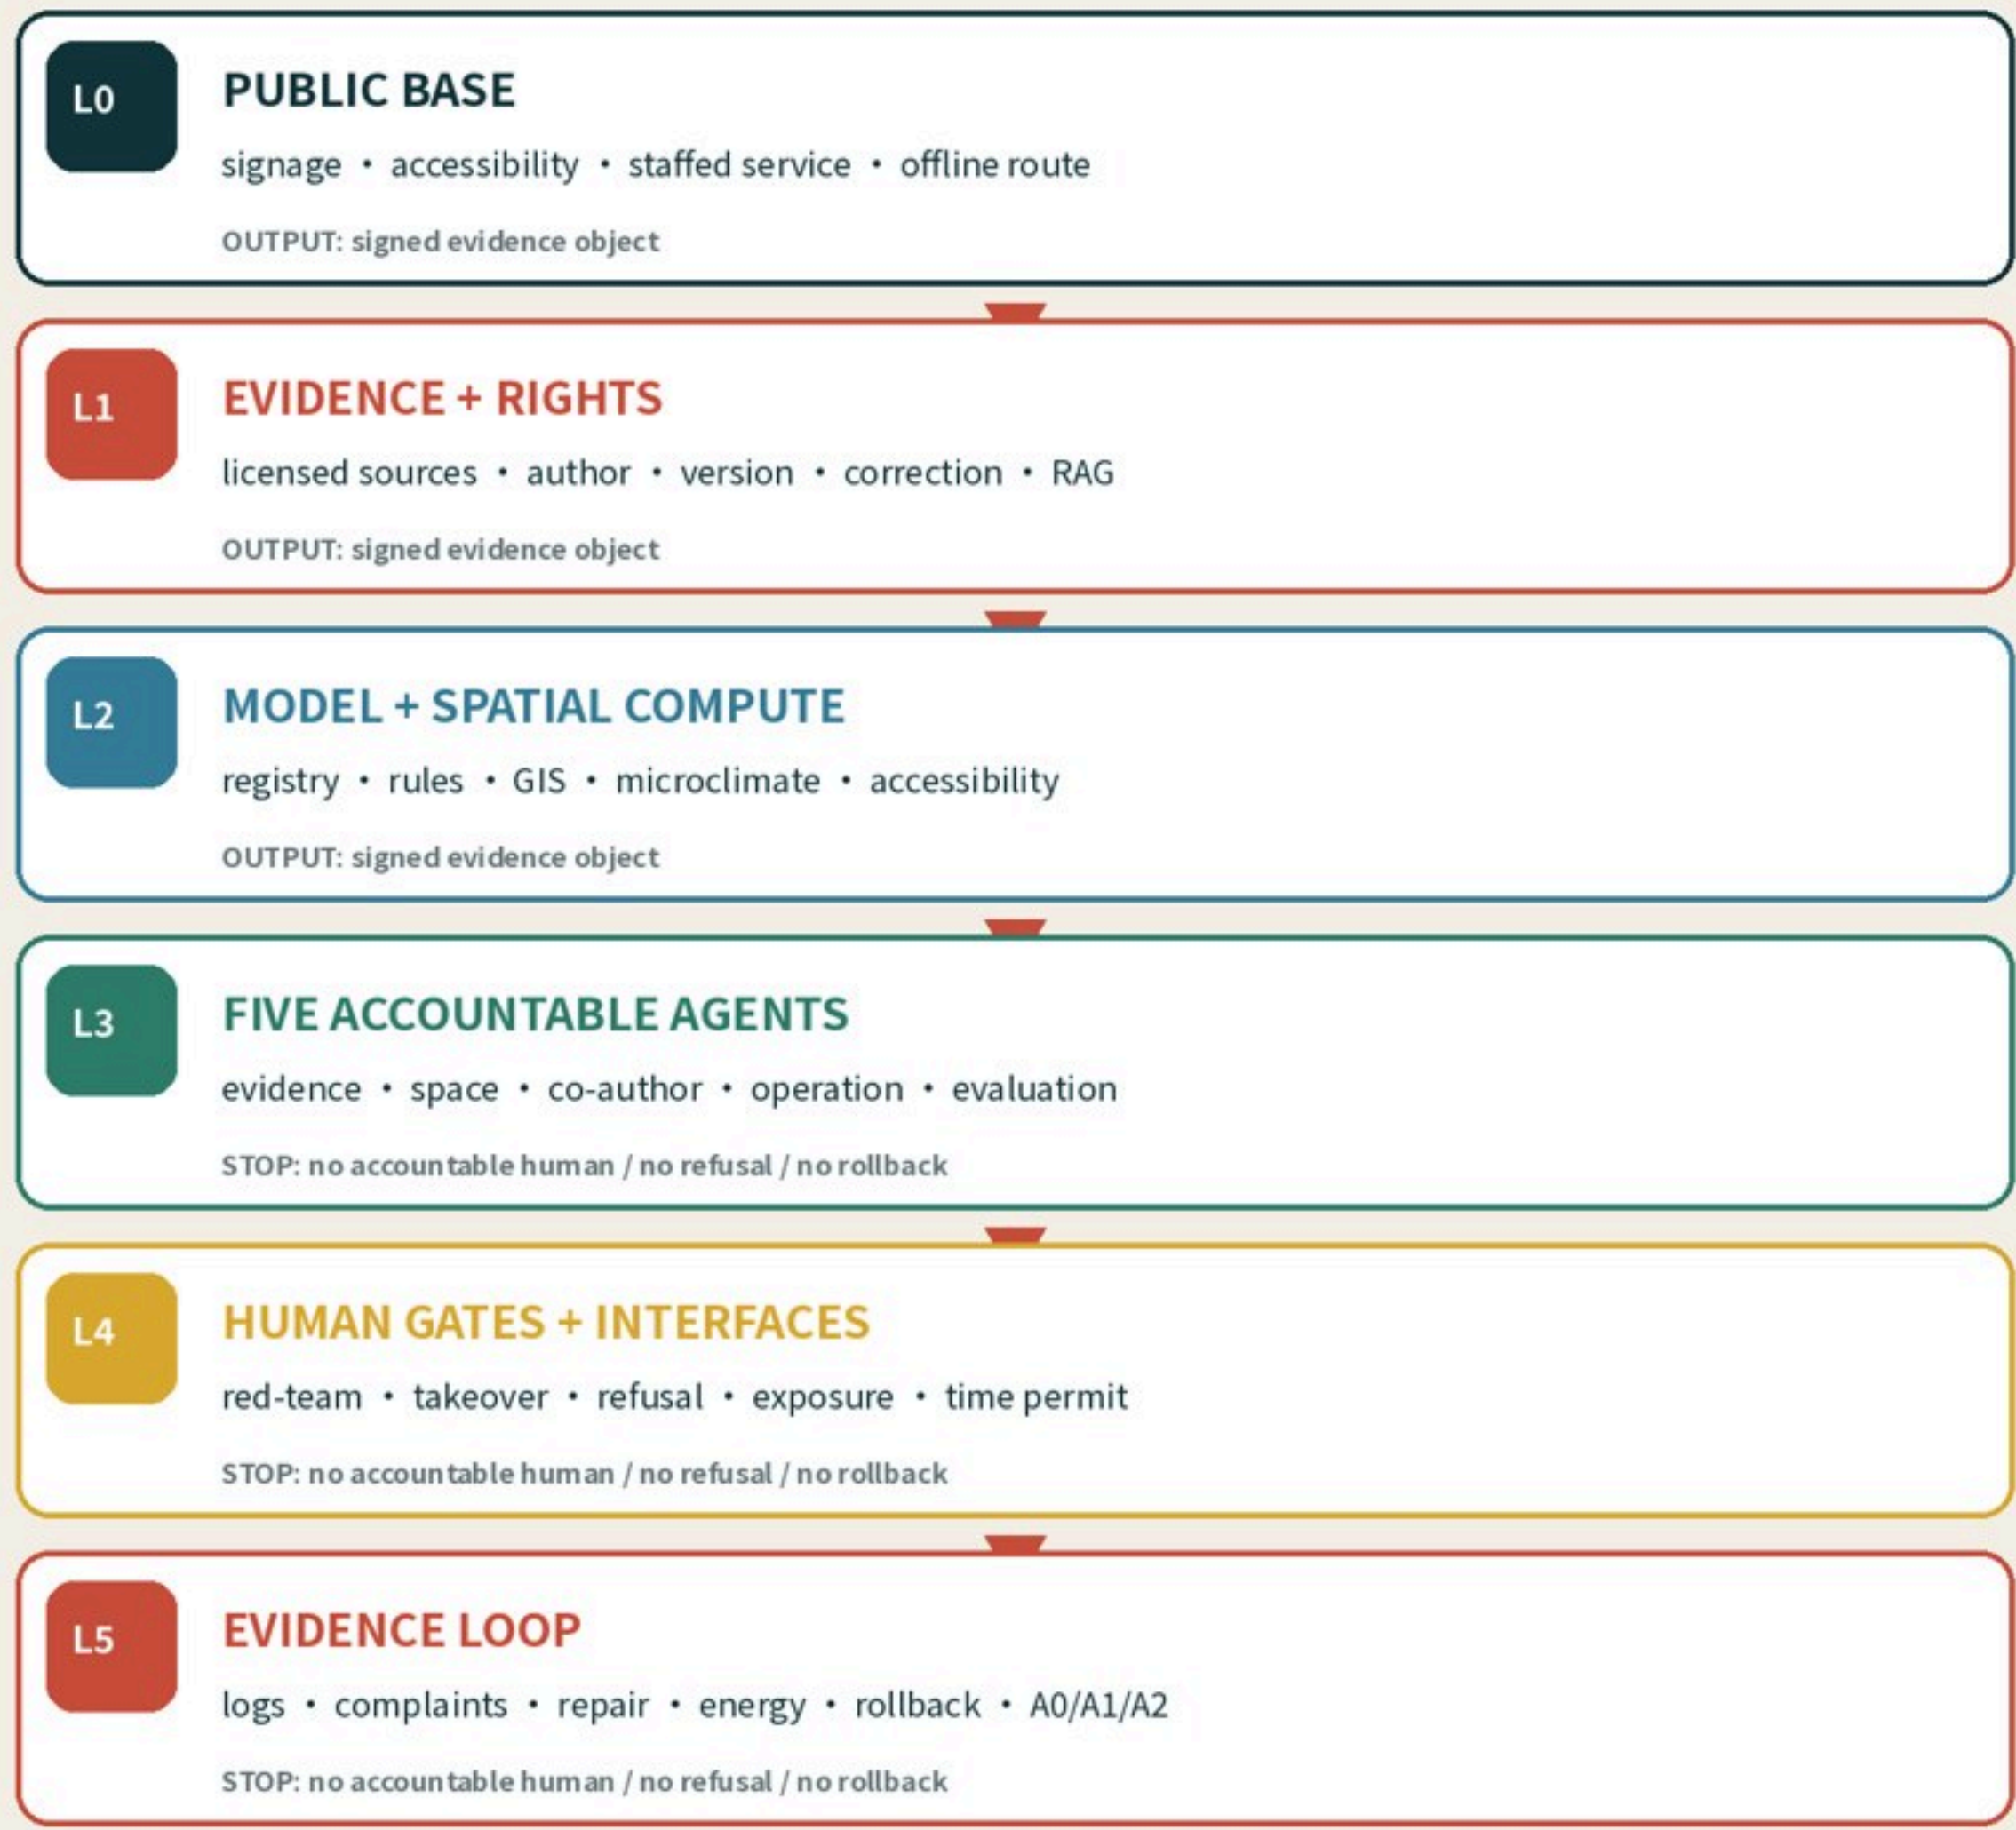

machine-readable and human-auditable

AUDITABLE AI-SPATIAL STACK

V7.4

AI must prove incremental public value

evidence ☒ model ☒ five accountable agents ☒ human gates ☒ spatial interface ☒ feedback

PROVISIONAL GEOMETRY • NOT AN OFFICIAL REDLINE

KINGFLEO × CODEX

Every major claim maps to sources, metrics, drawing scales, signoffs and failure actions.

PUBLIC GUARANTEE

the place still works when AI is off

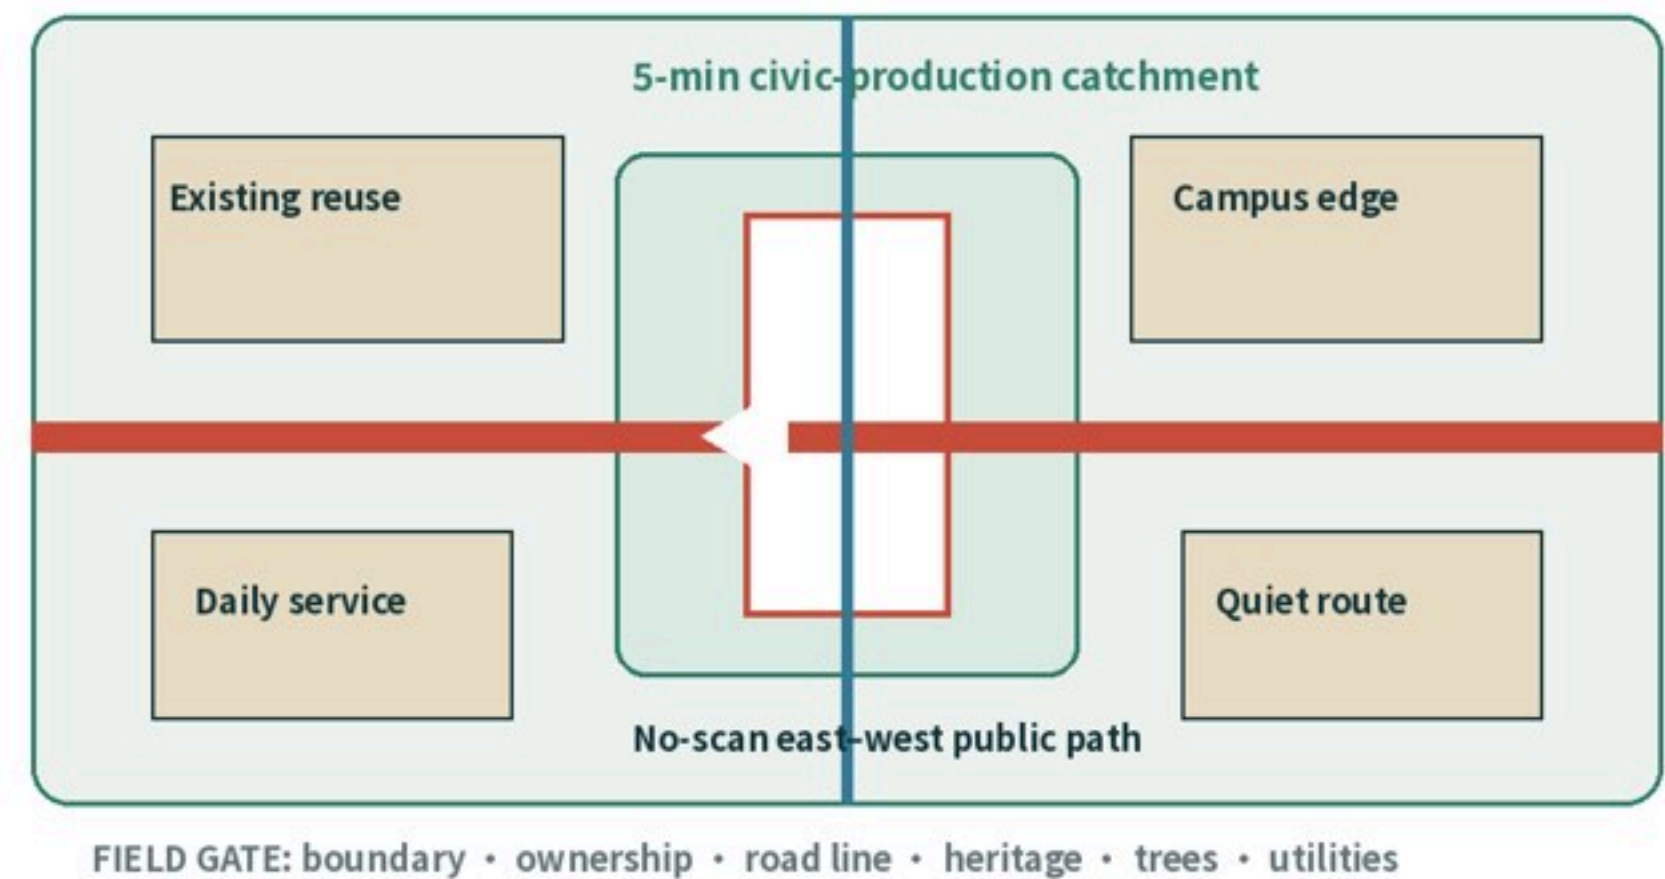

AI ORIGIN PROTOTYPE NODE

V7.4
