

JING-ZHANG READY BLOCK

One commons spine, three yards, twelve first-phase work packages

JING-ZHANG / READY BLOCK

One route, three first-phase work packages

daily route / three key areas / four decision gates

ZHONGZHIYUAN / TEST

ORIGIN / COMPOSE

DAZHONGSI / DELIVER

READY BLOCK DECISION PACKET

Each package states the problem, users, owner, evidence artifact and stop rule. AI compares options; a named human authorises the next gate.

OWNER

EVIDENCE

STOP RULE

CONCEPT ONLY / PROVISIONAL BOUNDARY / NOT AN APPROVAL BASIS

login256 X Codex

Basic public journeys start in ready-block mode; enhanced services connect identity only at a genuinely necessary step. Each work package is a contract across space, service and operations.

Three yards

TEST / COMPOSE / DELIVER

Three yards, three validations

TEST -> COMPOSE -> DELIVER

01

ZHONGZHIYUAN / TEST

Test offline

offline model / edge robot / data budget / handover

02

ORIGIN / COMPOSE

Compose for people

paper navigator / local translation / youth workshop

03

DAZHONGSI / DELIVER

Deliver on day one

orient / wayfind / pay / pitch

12 gates / 6 personas / 12 scenarios / 3 industrial tests

Zhongzhiyuan tests offline operation and minimum data; Origin composes models into usable tasks; Dazhongsi tests first-hour international adoption.
