

MAKER SPINE: AI LIFECYCLES AS CIVIC INFRASTRUCTURE

Provisional scope + OSM context + one-source design network; not a statutory boundary

空间总图 / SPATIAL SYNTHESIS

- Provisional scope
- Maker spine
- Three key areas

一脊·三院·两翼

One public maker spine links learning, prototyping, display, repair and recovery. Three yards provide differentiated platforms; two wings connect campuses, parks, communities and markets through one service protocol.

三层范围 / 3 SCALES

11.43 km²

overall design area

key design areas

12

AI+ scenario cards

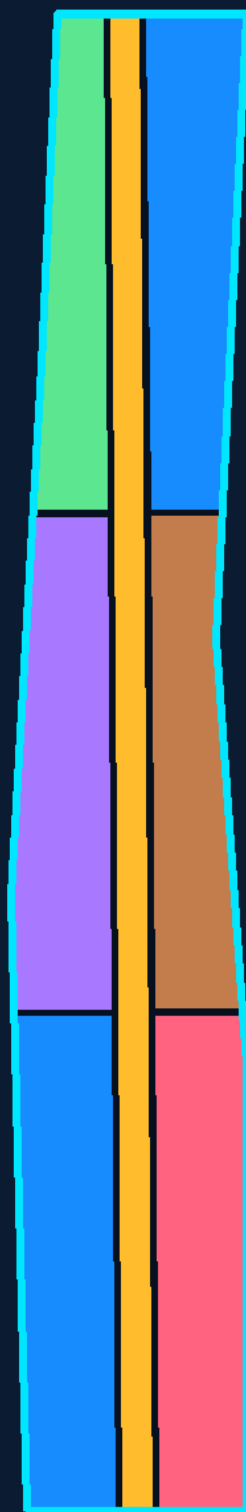

证据边界 / EVIDENCE

OSM is used only as contextual evidence for roads, rail, water, parks, stations and campuses. The overall and three key-area extents remain provisional pending official geometry.

A SHARED-EDGE LAND-USE MOSAIC

Conceptual functions cover the submitted scope without gaps or overlaps; not statutory zoning

六类城市生产功能

功能面积 / PROGRAMME

Rail Heritage and Remanu	178.1 ha
Maker Green Spine and Op	200.3 ha
Repair Market and Indust	169.8 ha
Open Education and Skill	171.4 ha
Mixed Housing and Daily	142.0 ha
AI Research and Controll	116.7 ha

设计逻辑 / DESIGN LOGIC

- 01 SHARED EDGES**
Adjacent polygons reuse one coordinate chain
- 02 SPINE FIRST**
Public realm first, production units second
- 03 REVERSIBLE**
Repair, adaptation and light additions
- 04 RECALCULATE**
Recompute when official geometry arrives

THREE MAKER YARDS: TEST, CO-MAKE, REPAIR

Area-fitted provisional extents over OSM context; recalculate after official polygons

ZHONGZHIYUAN • CONTROLLED TEST

192.1 ha

PROVISIONAL CONSTRAINT

Pilot tests / compliance sandbox / night logistics

EVIDENCE GATE: maintainable · traceable · reversible

AI ORIGIN • OPEN CO-MAKING

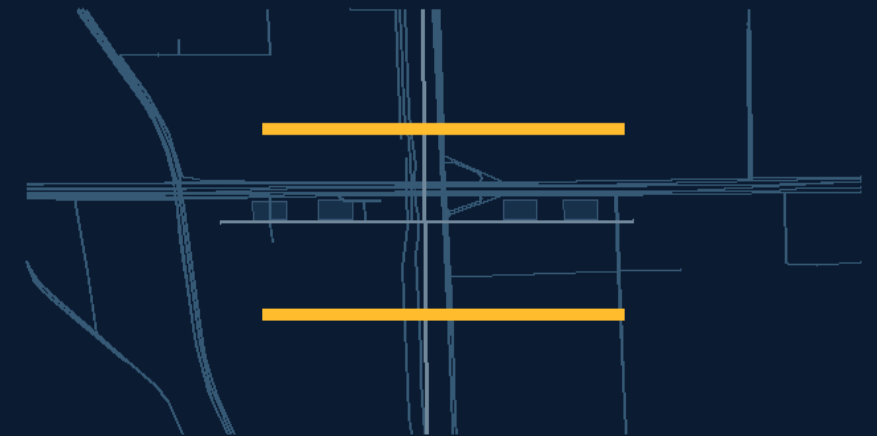

104.3 ha

PROVISIONAL CONSTRAINT

Shared compute / skills / open workshops

EVIDENCE GATE: maintainable · traceable · reversible

DAZHONGSI • EVERYDAY REPAIR

72.0 ha

PROVISIONAL CONSTRAINT

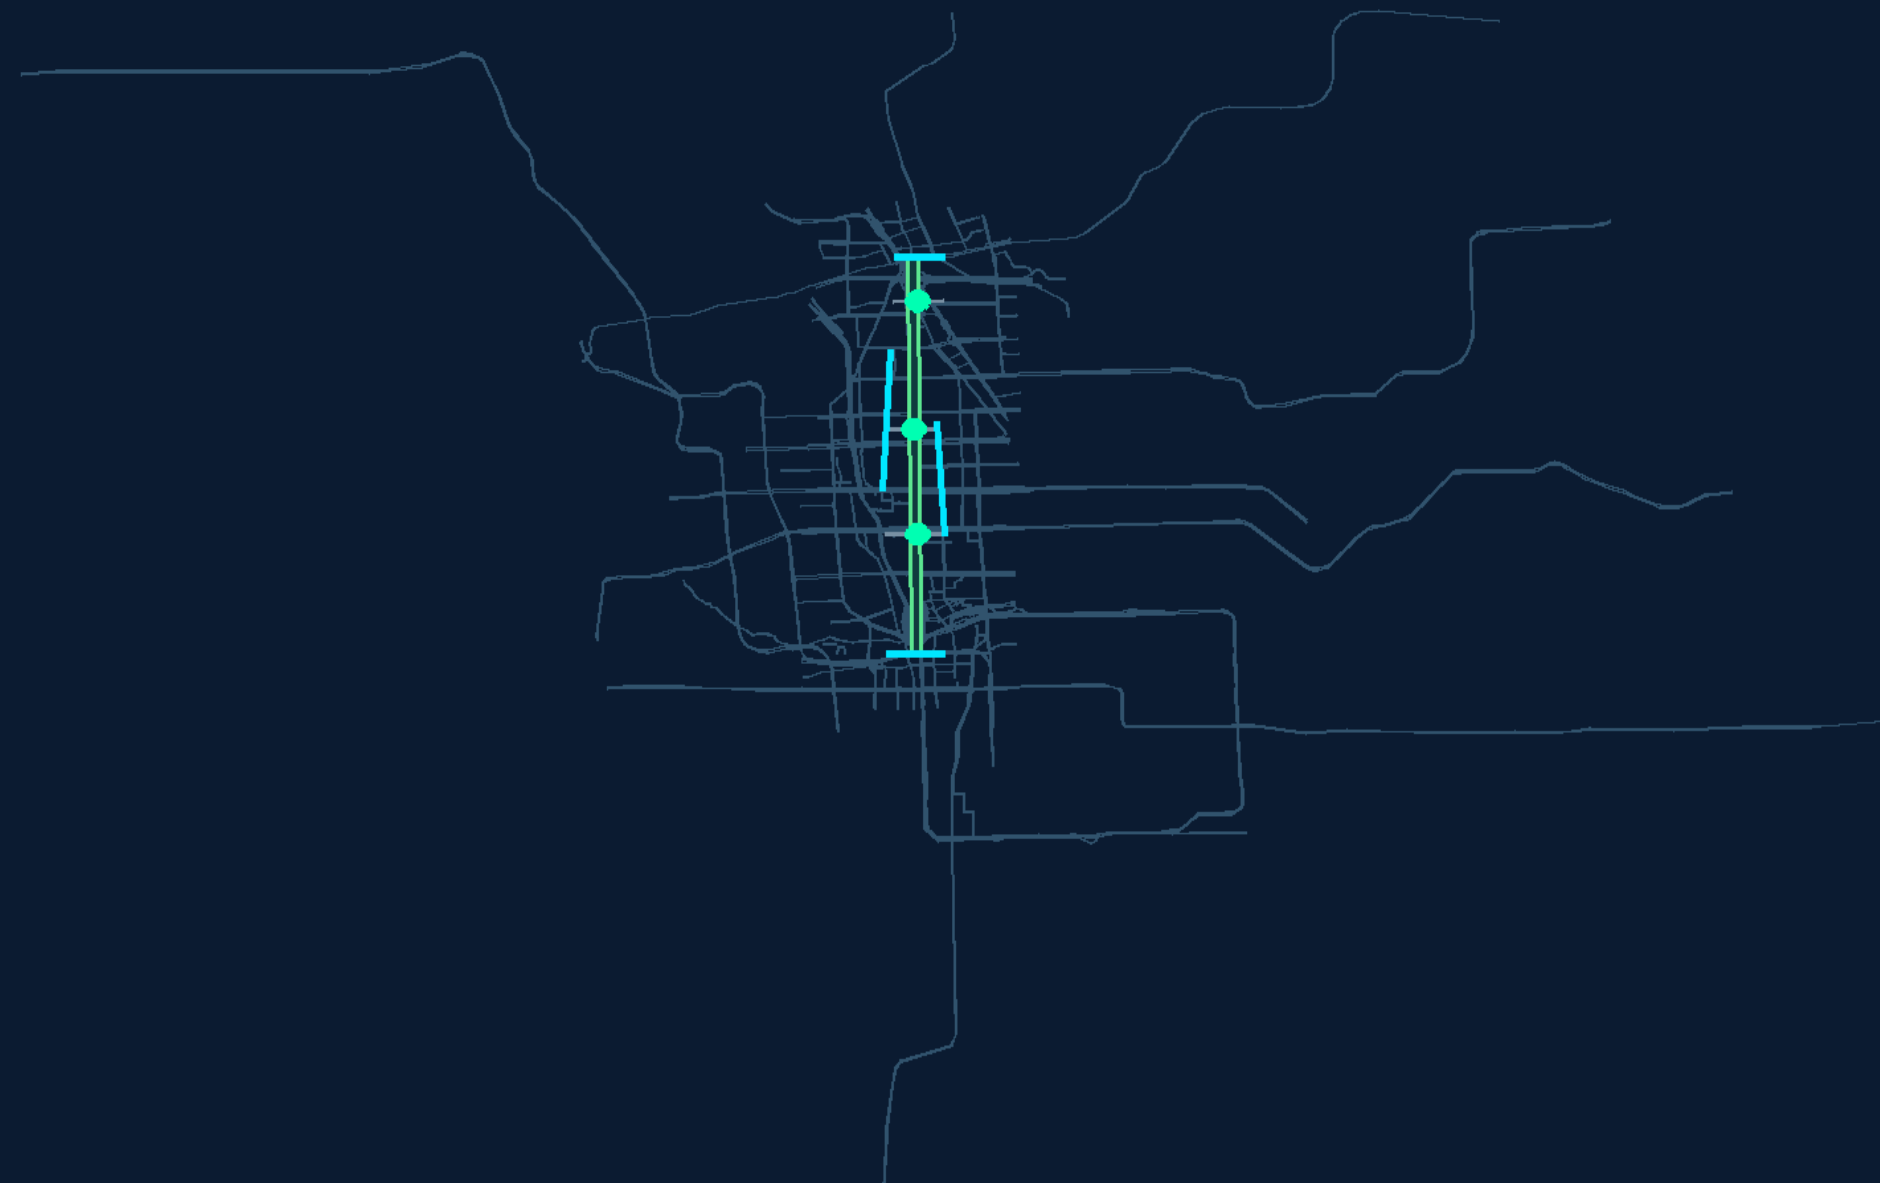

Repair market / parts bank / material recovery

EVIDENCE GATE: maintainable · traceable · reversible

THREE NETWORKS: ACCESS, ECOLOGY, CARE

Rail and stations, slow green spine, and 15-minute services on one auditable map

复合网络图 / COMPOSITE NETWORK

- Public maker spine
- Blue-green spaces
- Rail / road context

网络角色 / ROLES

ACCESS

Last mile from stations to parks and communities

ECOLOGY

Qinghe, parks and pocket spaces cool the corridor

CARE

Device clinics, parts banks and accessible benches

分期动作 / PHASING

1

2026–28

Open workstations and repair nodes

2

2029–32

Connect mobility and data infrastructure

3

2033+

Scale by evidence, retain exit rights

METRICS ARE TRACEABLE TO GEOMETRY AND SOURCES

One data source drives GeoJSON, metrics, matrices, drawings and the offline visual

核心指标 / CORE METRICS

11.43 km² provisional design area

17.55% concept green ratio

1.98% public maker-space ratio

18 standard evidence units

12 AI+ scenarios

4 industrial test fields
