

1 Three Scopes & Working Framework

Coordinated research area ≈43.6 km² (N: 5th Ring Rd; E: Jingzang Expressway; S: Xizhimen Outer St; W: Wanquanhe Rd) — industry & future-city study; overall design area ≈11.4 km² (1-2 km around the heritage park) — regulatory-plan-depth urban design; key areas 368.4 ha (Zhongzhiyuan 192.1 ha, AI Origin Community 104.3 ha, Dazhongsi 72.0 ha) — implementation-plan depth. The three scopes share the 'One Belt, Five Crossings' spatial grammar.

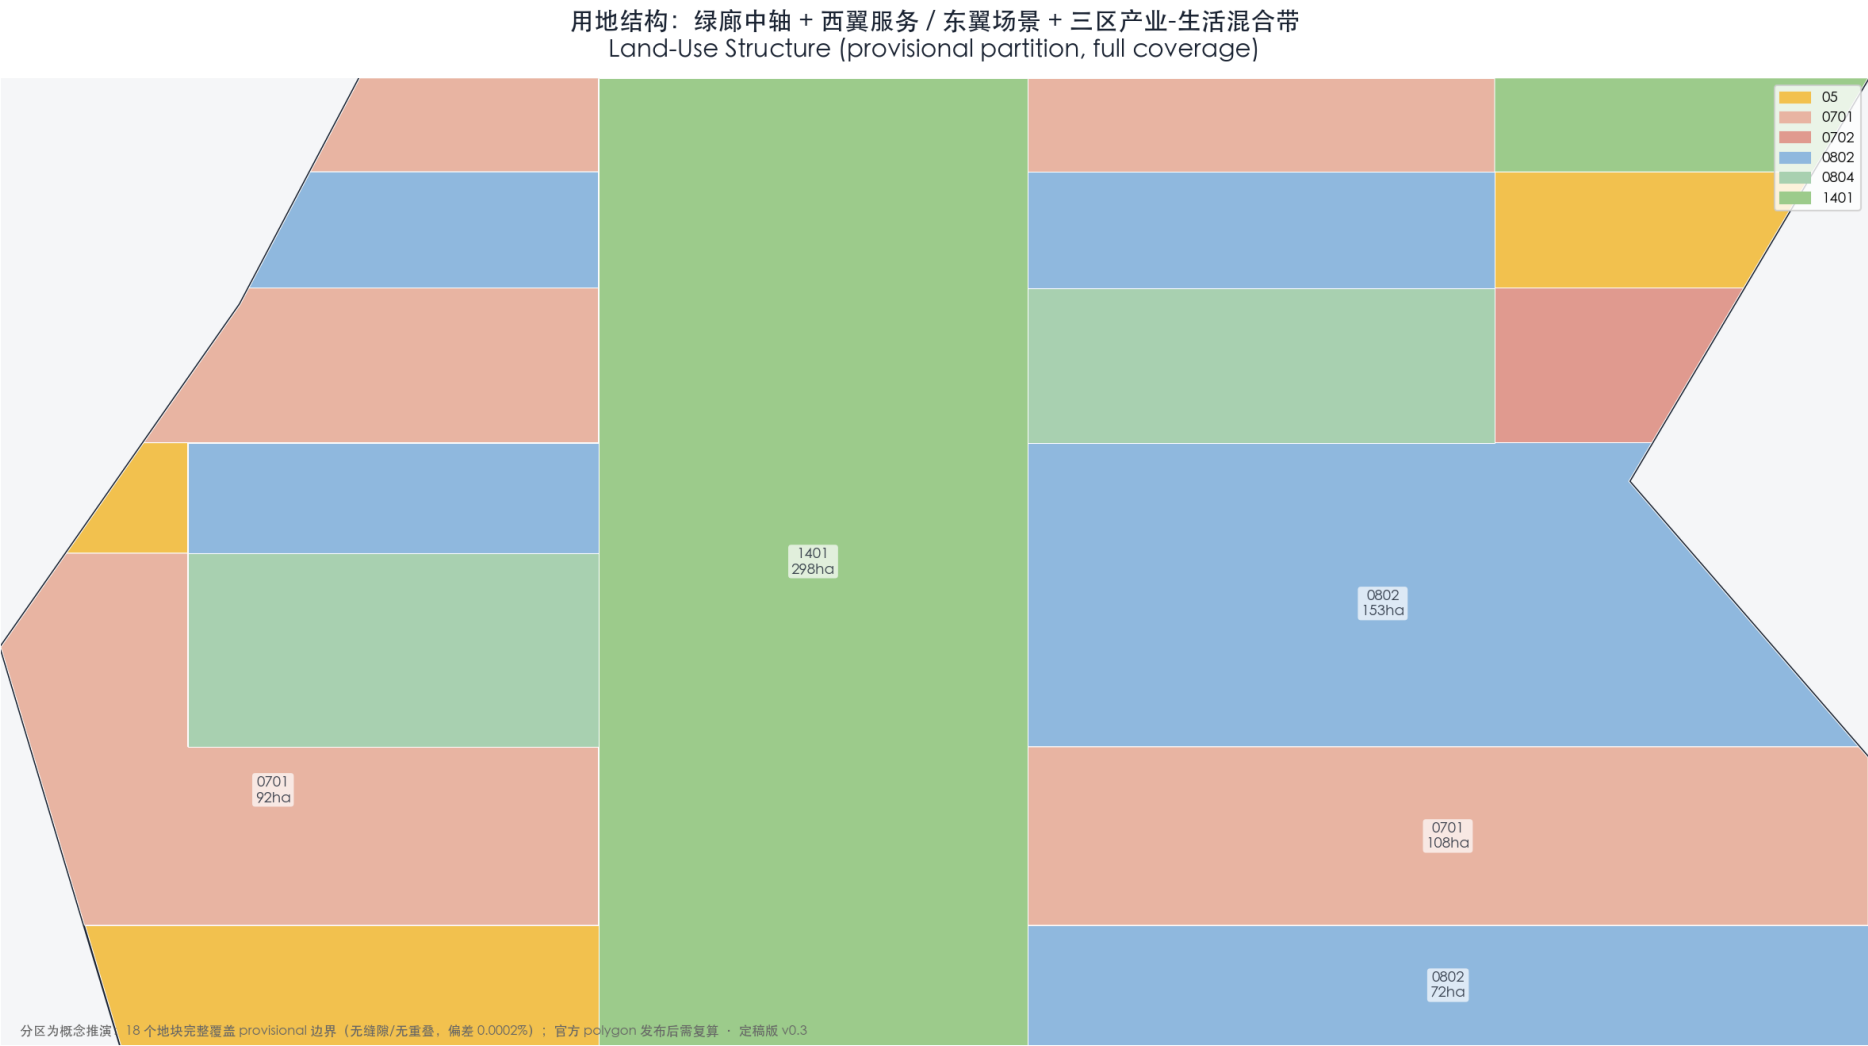

Fig.2 Land use: green spine + west service / east scenario wings + three-area mixed belts (18 parcels, full coverage, no gaps)

2 Key Areas Detailed Design

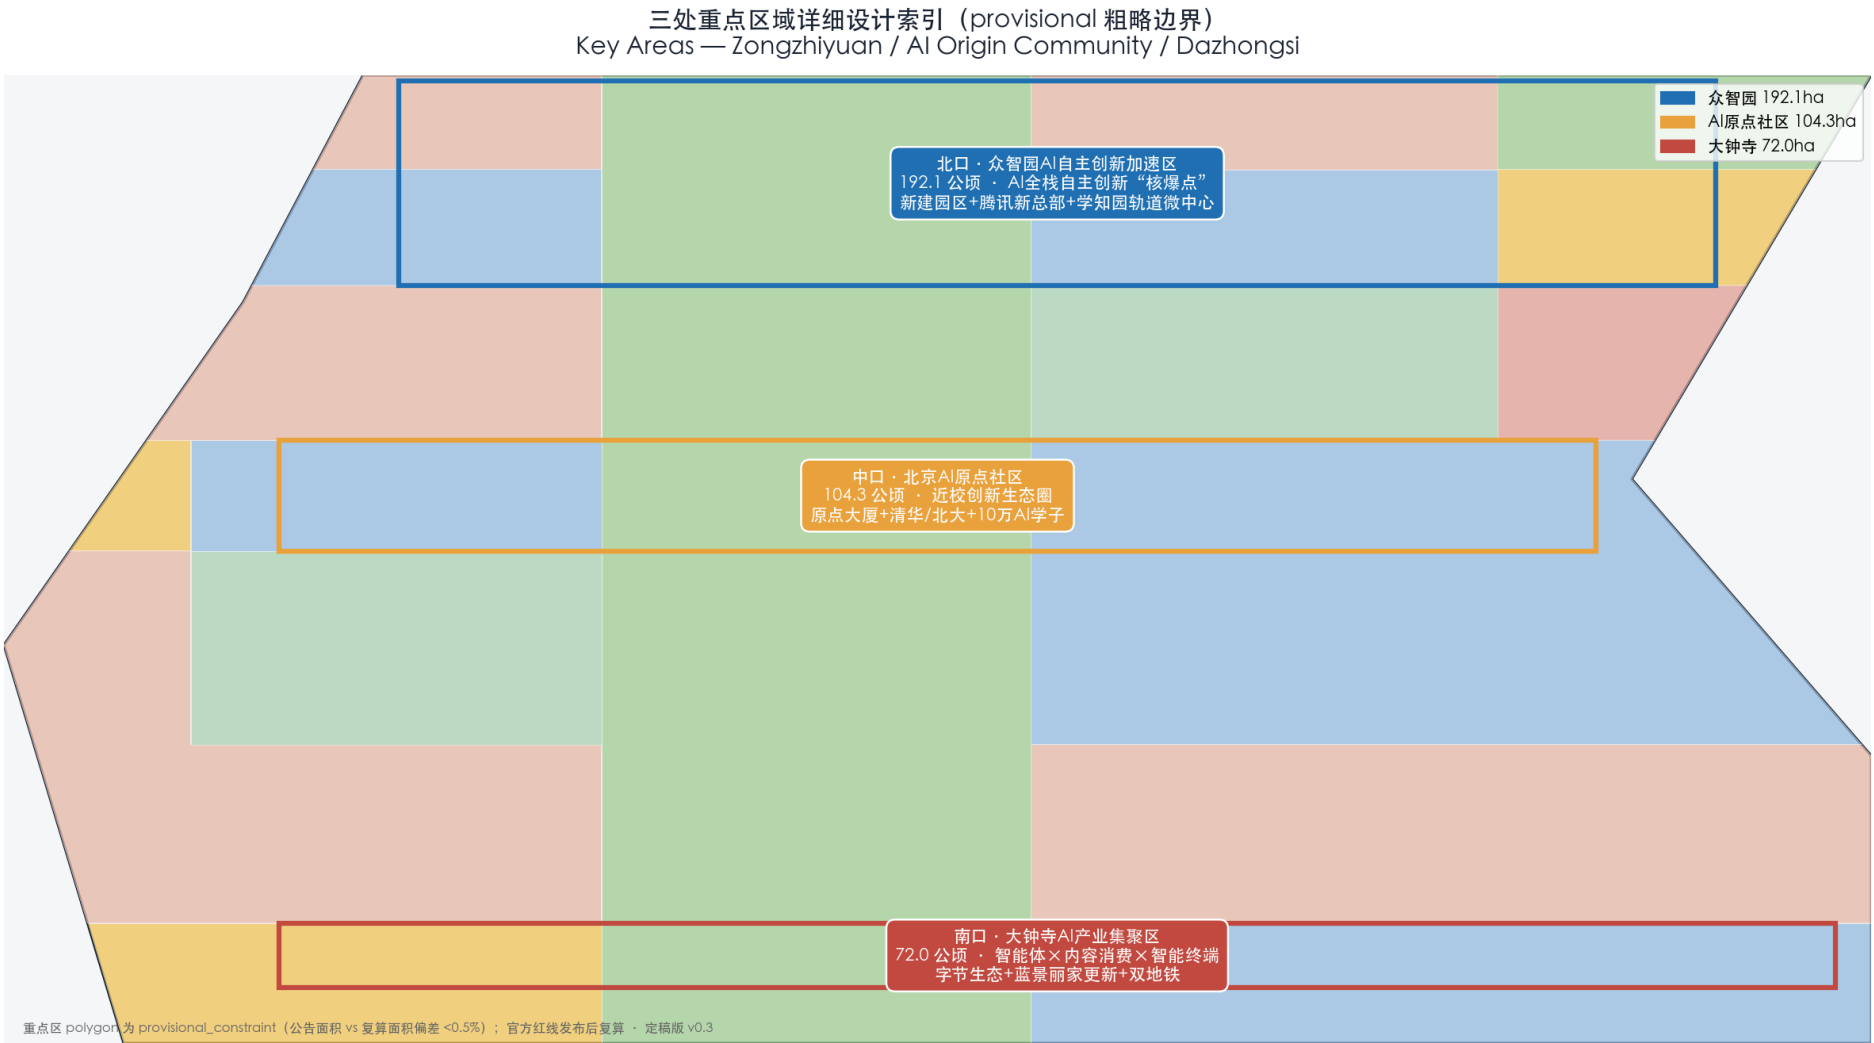

Fig.3 Key areas index (provisional rough boundaries; deviation from announced area <0.5%)

Key area	Positioning metaphor	Area	Core content (conceptual)
North · Zhongzhiyuan AI Acceleration Area	Marshalling yard: AI full-stack × 192.1 ha	192.1 ha	New campus 238,300 m ² + Tencent HQ 460,000 m ² + XueZhiYuan rail micro-center; assembly-line viewing platform concept
Mid · Beijing AI Origin Community	Interchange: talent × innovation	104.3 ha	Origin Tower radiating 3 km ² ; 330+ firms / 230 AI firms / 100k AI students; 'AI Origin Sanctum' (Qinghuayuan Station) concept
South · Dazhongsi AI Industry Cluster	Station-city: agents × consumption	72.0 ha	Metro 13/12 dual stations + Juesheng Temple + ByteDance ecosystem + LJJ renewal; data-element circulation sandbox concept

3 Mobility × Blue-Green Public Space System

4 Metrics & Evidence Chain

指标复算与证据链：所有面积由 geometry 在 EPSG:4548 下复算；FAR/道路红线=待正式数据补齐 · 定稿版 v0.3

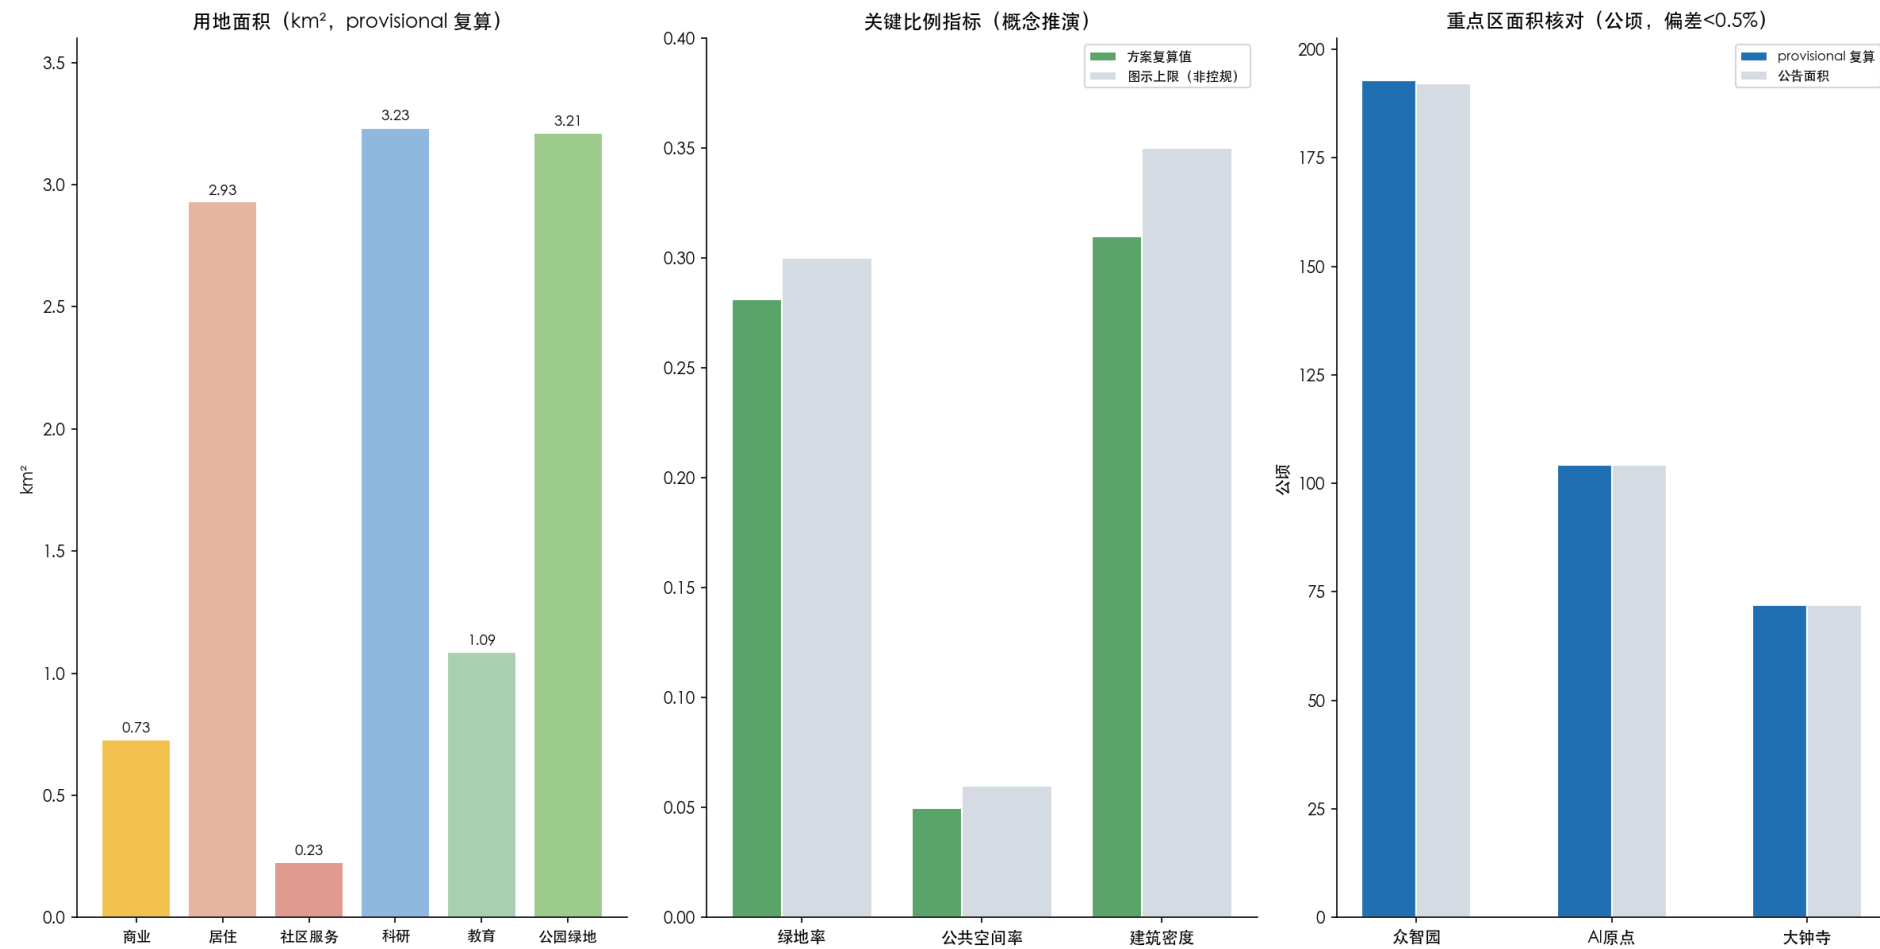

Fig.5 Metric recomputation & evidence: 26 metrics recomputed from geometry in EPSG:4548; FAR/road redlines = pending official data

Metric	Value	Basis
Overall design areaArea	11,412,825 m² (recomputed) / 11,400,000 m² (announced)	deviation 0.11%
Key area■Area	192.92 / 104.32 / 72.05 ha (recomputed)	deviation <0.5%
Green ratio	28.1% (provisional recompute, not official)	conceptual partition
Public space ratio	5.0% (provisional recompute, not official)	conceptual partition
Floor area ratio	pending official data	controls not public
Green belt length	9 km■■■■Basis■	heritage park full line

5 Boundary & Compliance Statement

provisional official_boundary=false polygon Area Metric Floor area ratio "pending official data" Value Sidewalk Labs

This booklet is presentation only; authoritative data resides in geometry/*.geojson, metrics.json and the three matrix files.
