43.6 km²

RESEARCH: EXCHANGE RULES

11.4 km²

OVERALL: SPATIAL NETWORK

3 KEY AREAS

DETAIL: PUBLIC INTERFACES

Provisional rough boundaries support concept generation and open discussion only; they are not statutory, ownership, or engineering data.

CONCEPT & EVIDENCE LIMIT

■ CONCEPT & EVIDENCE LIMIT

One Heritage Exchange Track, three yards, four public spur types, and twelve touchpoints form an auditable network. Provisional boundaries support concept and internal recalculation only; they are not statutory redlines.

■ PUBLIC RETURN

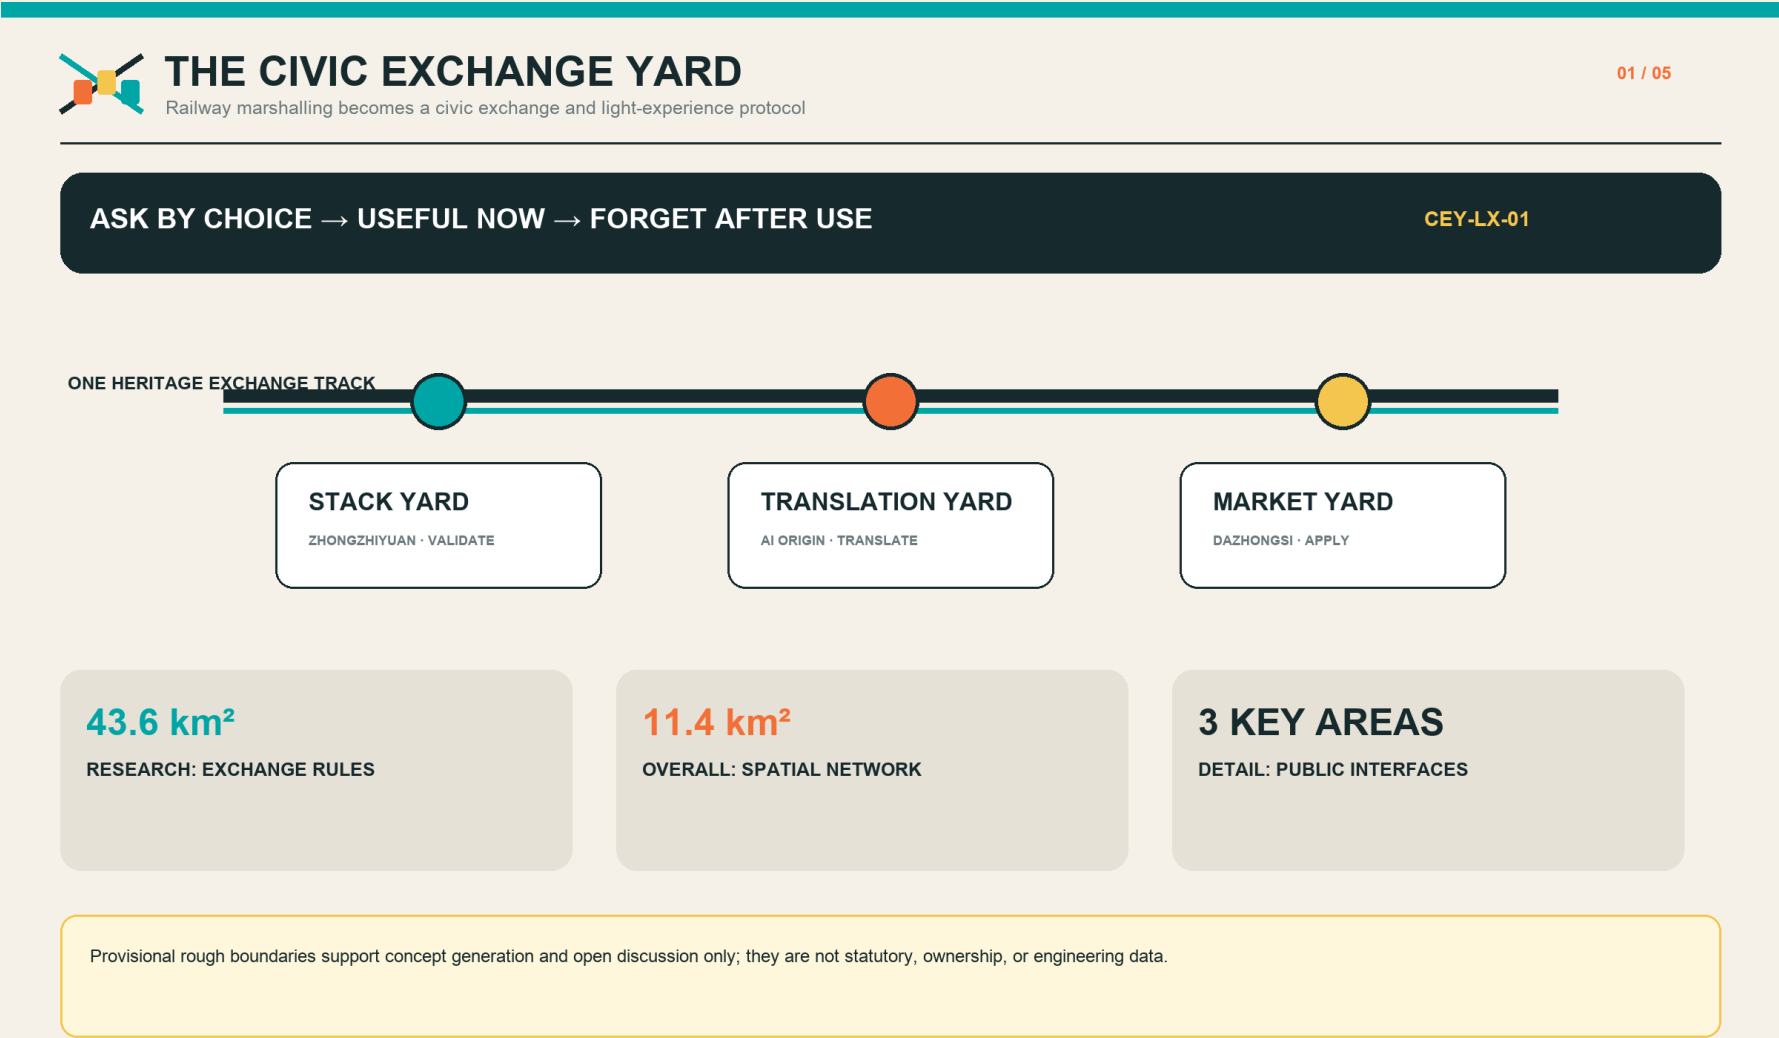

Accessible hours, open documents, supervised service, and environmental improvement.

■ EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

■ STOP RULE

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

THREE SCOPE LEVELS

THREE SCOPE LEVELS

The 43.6 km² research layer defines exchange rules; 11.4 km² organises a spatial network; three key areas test interfaces. The Ticket binds voluntary trigger, present need, return, owner, minimum data, retention, fallback, and stop conditions.

PUBLIC RETURN

Accessible hours, open documents, supervised service, and environmental improvement.

EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

STOP RULE

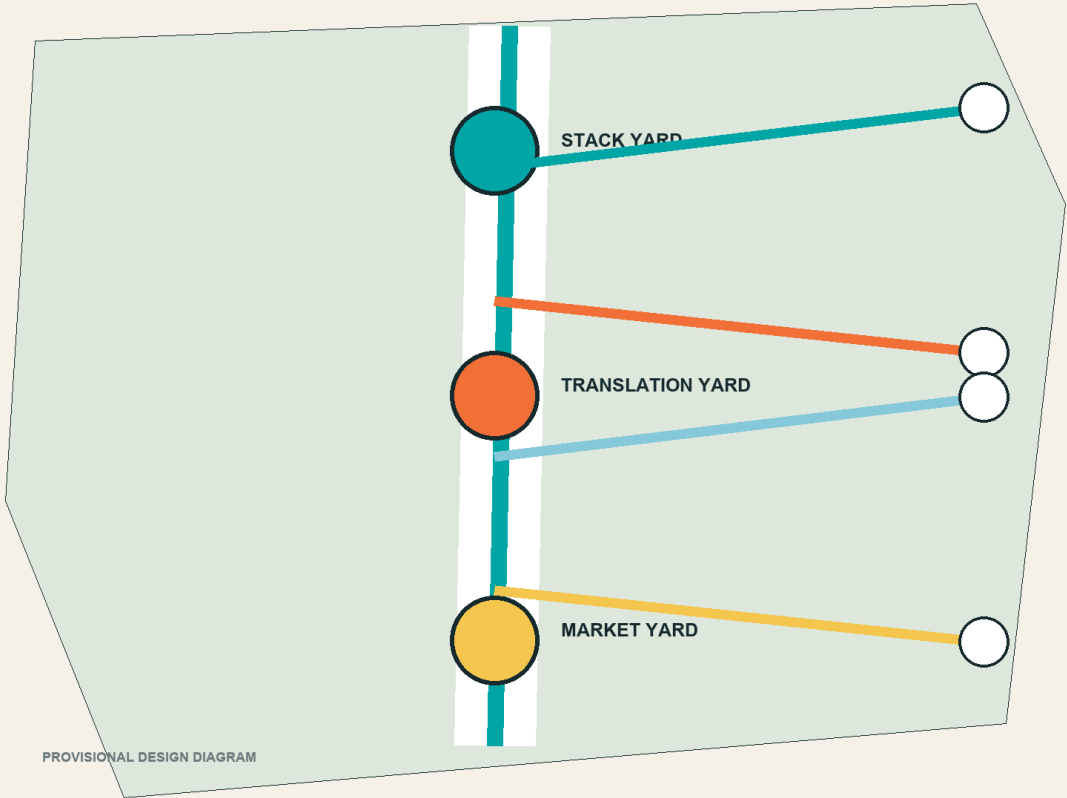

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

1 TRACK · 3 YARDS · 4 SPURS × LIGHT EXPERIENCE

City AI stays quiet, appears by choice, serves one scene, and preserves an exit

02 / 05

01 OPT IN

No call means no recognition or prompt

02 MINIMUM

Only data needed for this task

03 FORGET

Erase temporary preferences at exit

04 FALLBACK

Keep staffed and non-digital routes

THREE EXCHANGE YARDS

THREE EXCHANGE YARDS

Zhongzhiyuan validates stack capabilities, AI Origin translates research, and Dazhongsi tests city applications. Each yard has a Quiet Zone, Trial Zone, staffed service, and public results interface.

PUBLIC RETURN

Accessible hours, open documents, supervised service, and environmental improvement.

EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

STOP RULE

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

THREE EXCHANGE YARDS

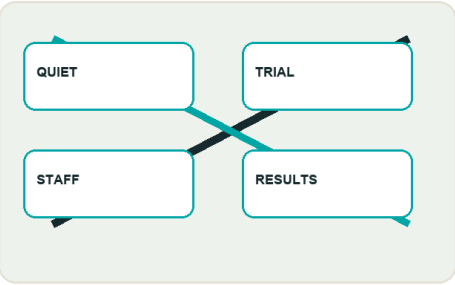

One protocol, three urban conditions, twelve operating touchpoints

LIGHT EXPERIENCE & 12 SCENARIO CARDS

LIGHT EXPERIENCE & 12 SCENARIO CARDS

City AI stays quiet until a person asks for transit, dining, shopping, or another immediate service. One scene, minimum data, and erasure after use. Every card declares trigger, retention, owner, fallback, and stop rule.

PUBLIC RETURN

Accessible hours, open documents, supervised service, and environmental improvement.

EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

STOP RULE

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

MOBILITY & BLUE-GREEN

MOBILITY & BLUE-GREEN

Repair walking, crossings, shade, access, and staffed service before on-demand digital equipment. Signs, timetables, prices, and staff remain usable when data is refused.

PUBLIC RETURN

Accessible hours, open documents, supervised service, and environmental improvement.

EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

STOP RULE

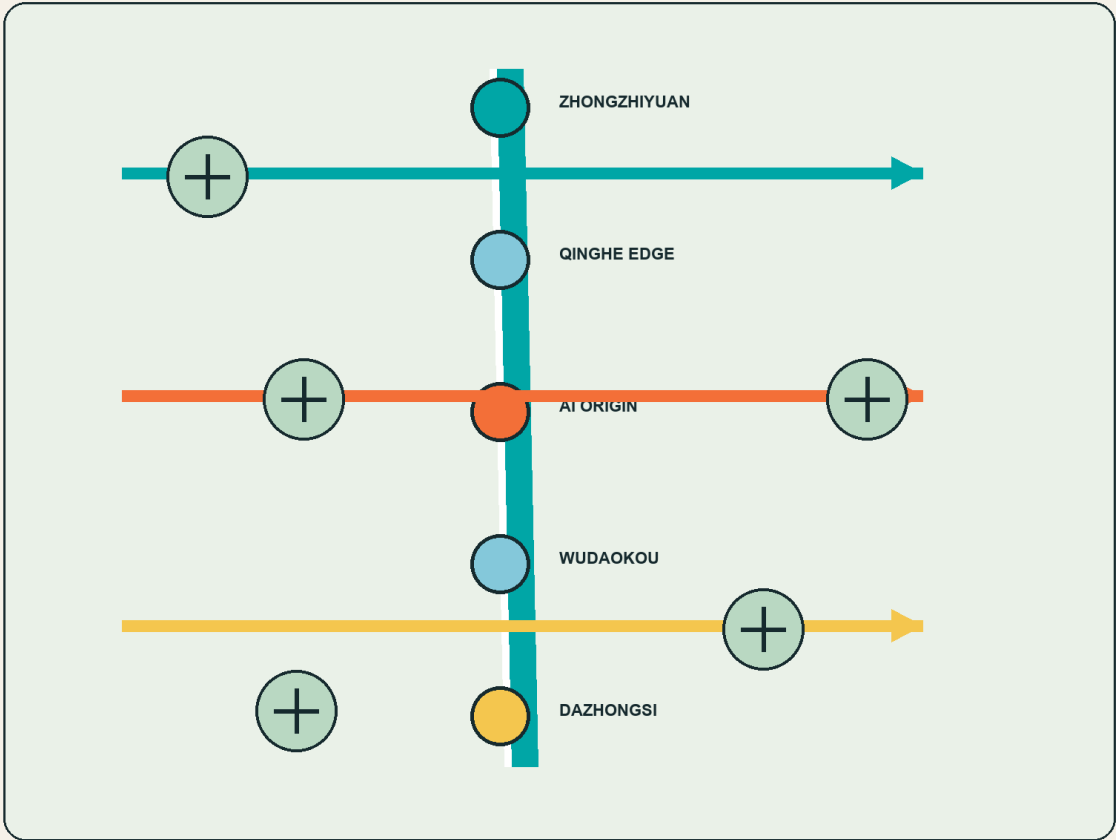

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

EXCHANGE TRACK × BLUE-GREEN STOPS

Repair walking and staffed service first; moment-specific AI appears only when called

04 / 05

WALK
Continuous surface · clear crossing

BLUE-GREEN
Shade · rain · quiet zone

DIGITAL
Default off · one scene

OPERATE
Forget after use · non-digital fallback

IMPLEMENT & GOVERN

■ IMPLEMENT & GOVERN

Months 0–18 test operations and reversible fixtures. Months 18–36 adapt with evidence and confirmed controls. The long term establishes cross-yard exchange and public-return audits. Structural work needs separate review.

■ PUBLIC RETURN

Accessible hours, open documents, supervised service, and environmental improvement.

■ EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

■ STOP RULE

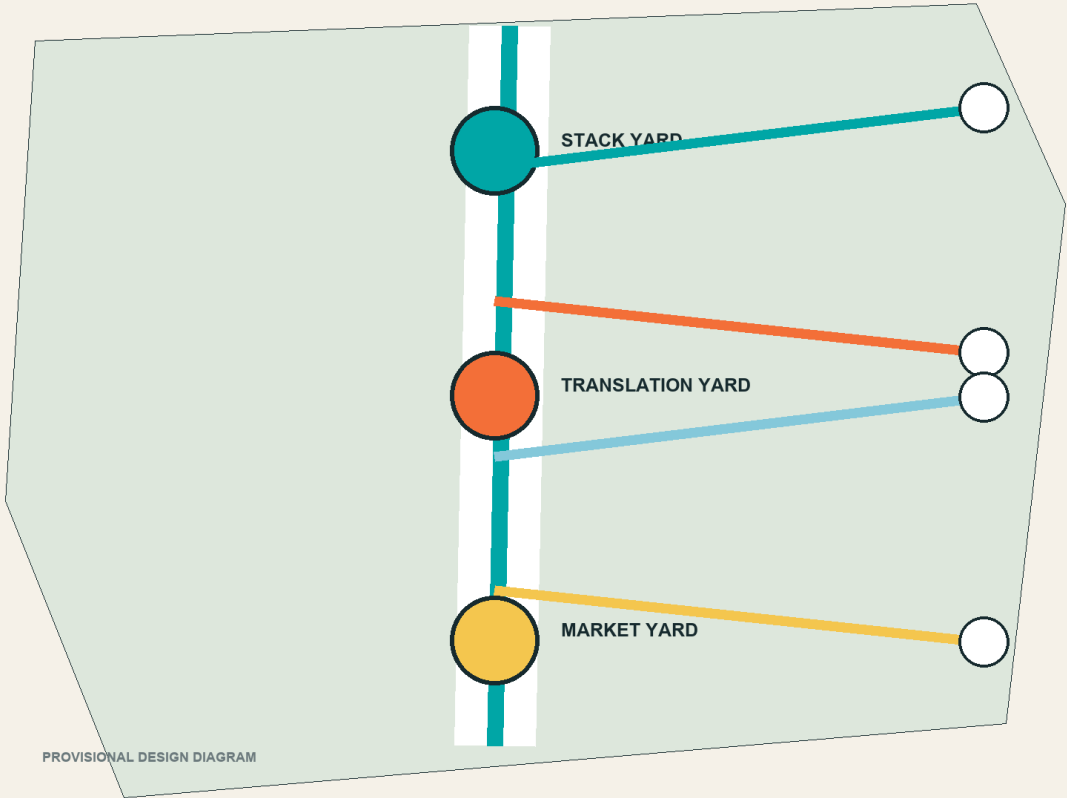

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

03 FORGET

Erase temporary preferences at exit

04 FALLBACK

Keep staffed and non-digital routes

METRICS & RISK

METRICS & RISK

GeoJSON recalculates space; twelve cards include four light-experience scenes and six rights. Continuous tracking, cross-scene profiles, hidden ads, failed erasure, or missing fallback triggers a pause.

PUBLIC RETURN

Accessible hours, open documents, supervised service, and environmental improvement.

EXPERIENCE RIGHTS

Opt in, remain silent, stay anonymous, refuse, understand, and erase.

STOP RULE

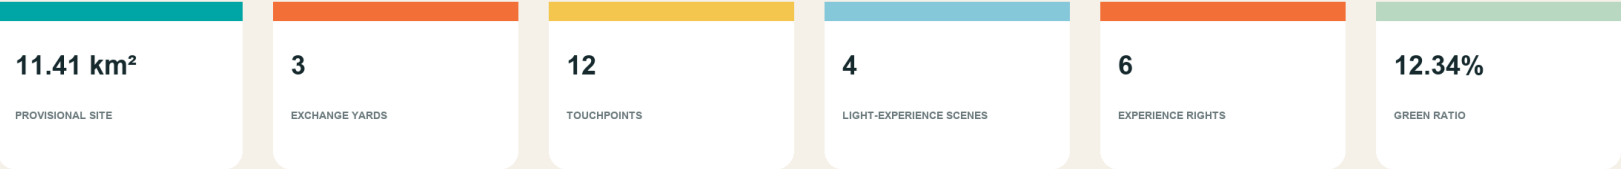

Pause continuous tracking, cross-scene profiling, hidden ads, failed erasure, missing fallback, or absent owner.

METRICS · EXPERIENCE RIGHTS · EVIDENCE

Twelve cards, four light-experience scenes, six rights, and recalculable spatial metrics
