

CENTENNIAL JINGZHANG AI INNOVATION BELT

PASSAGE BEFORE BARRIERS

京张先通

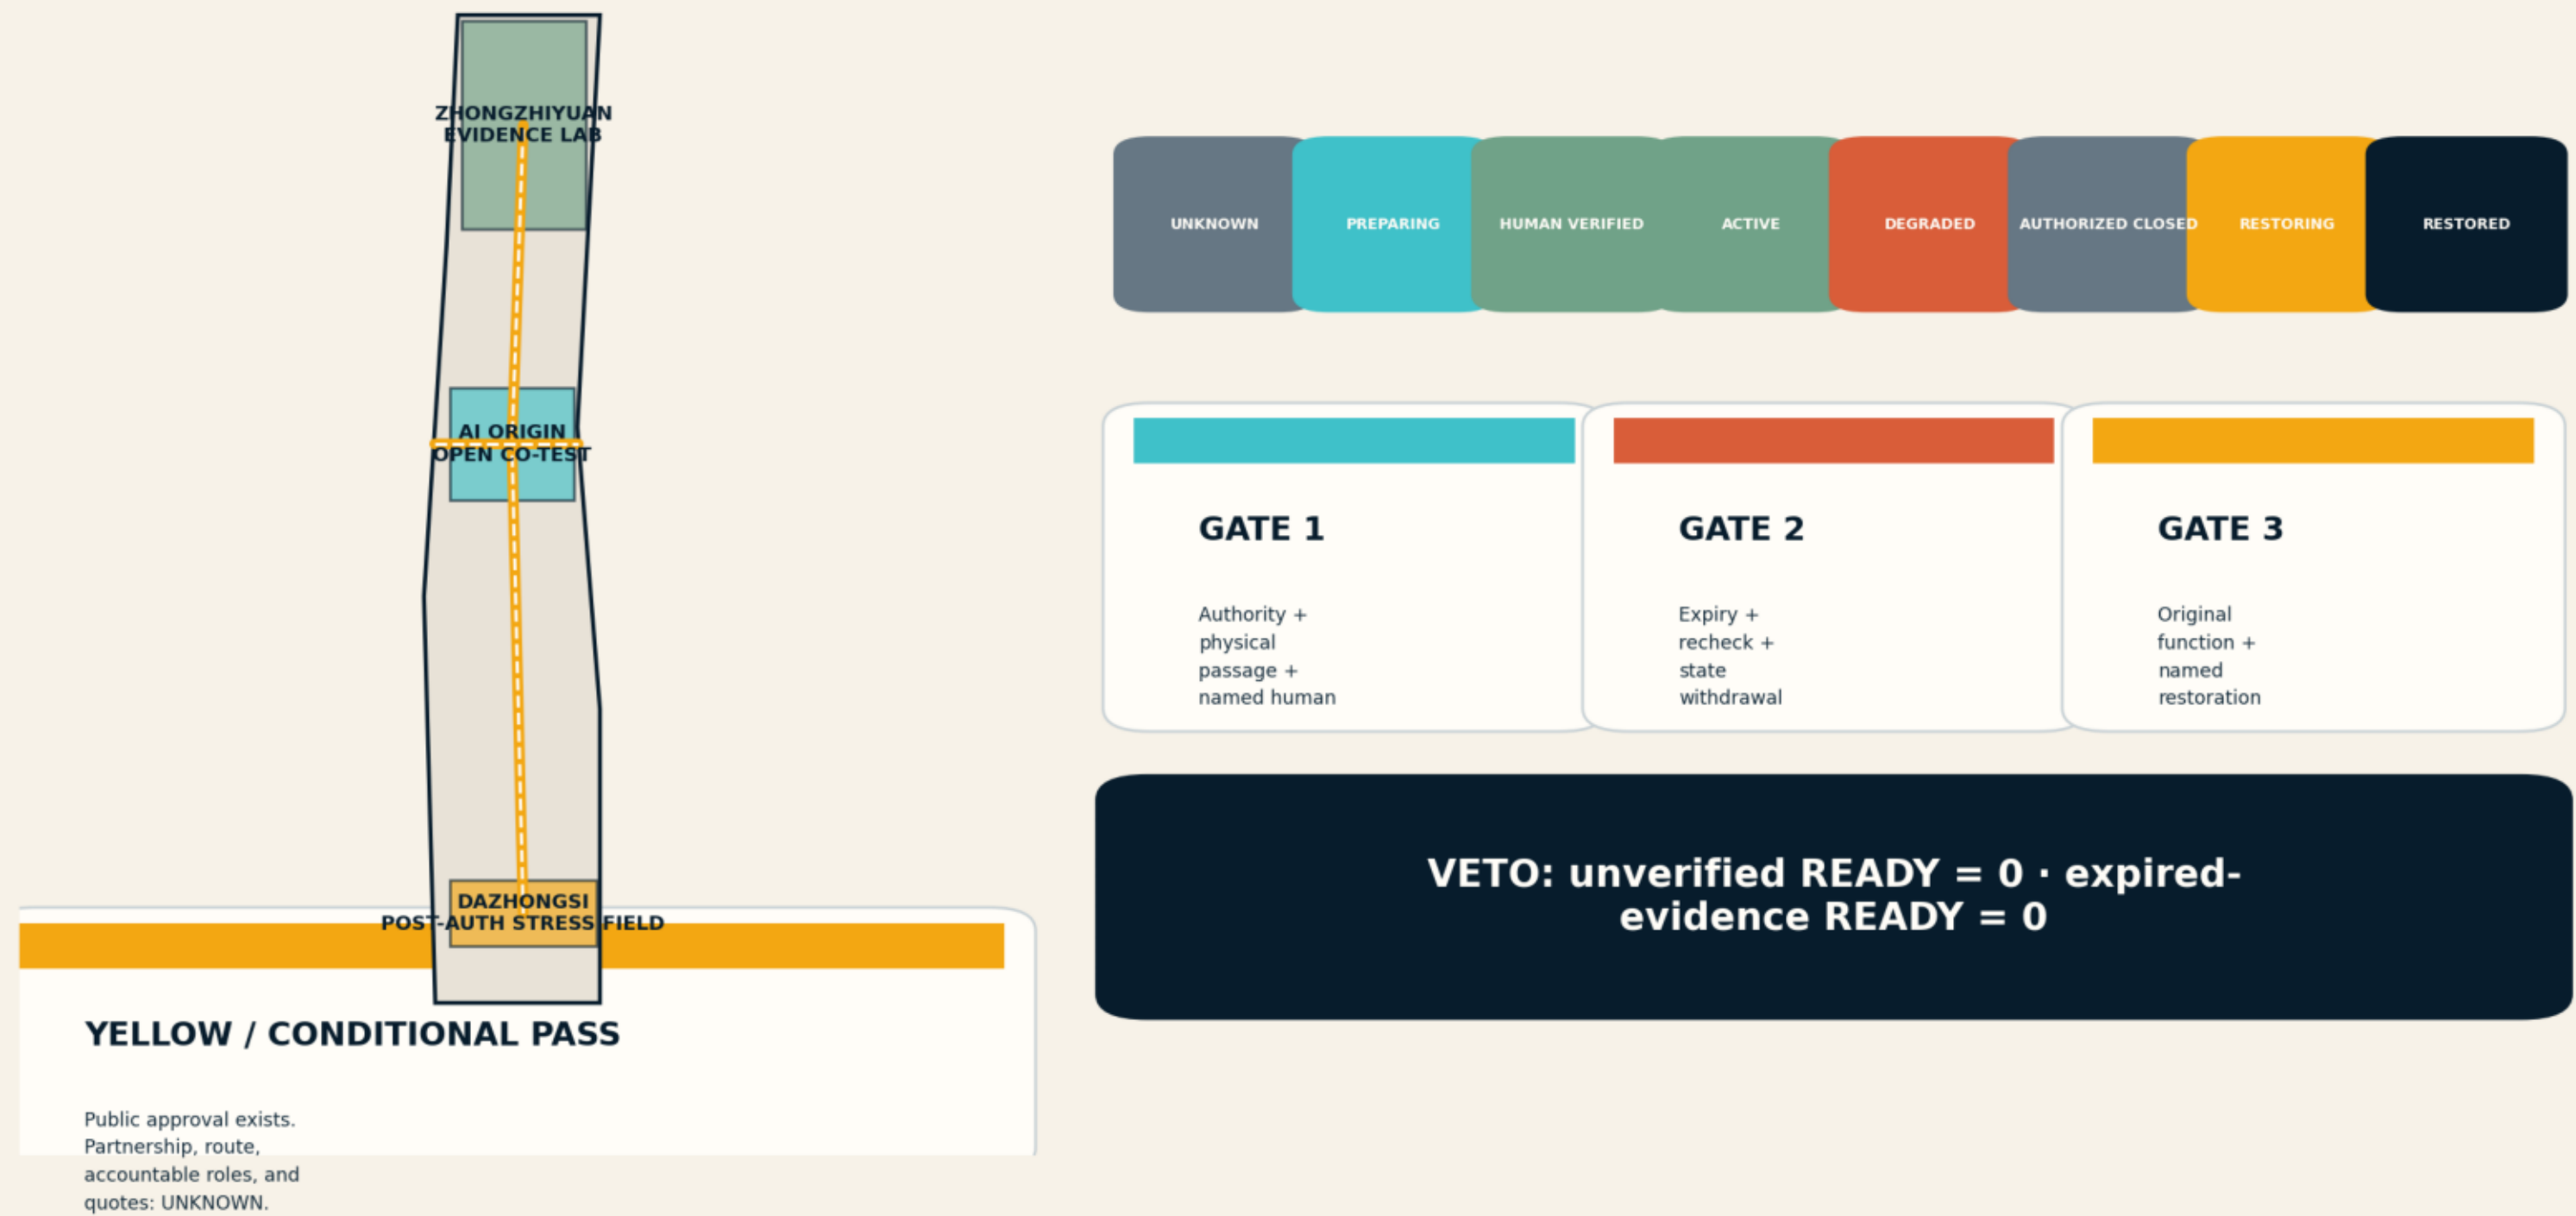

Passage first; barrier second.

An evidence contract for public passage during urban renewal

From “occupy, then detour” to “passage first”

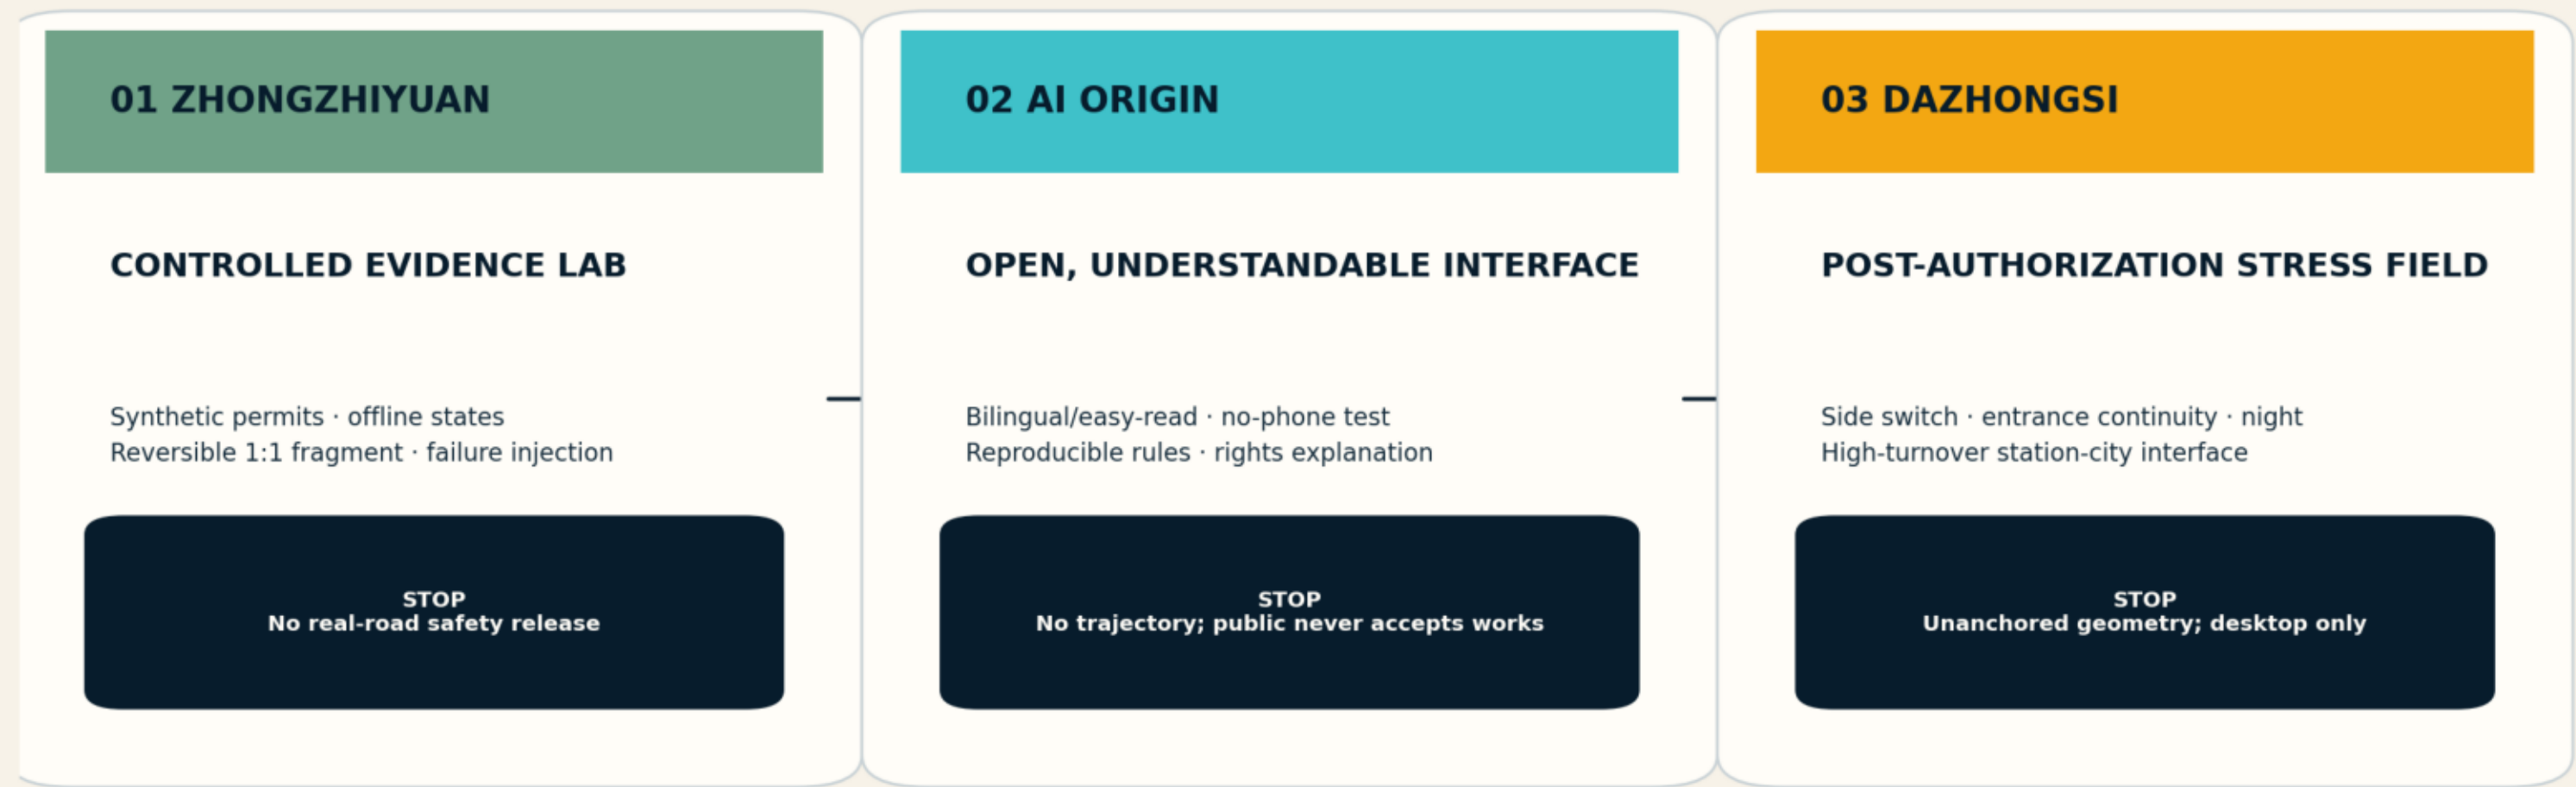

Three key areas share one contract - not a fabricated route

One backbone · two passages · three handover gates

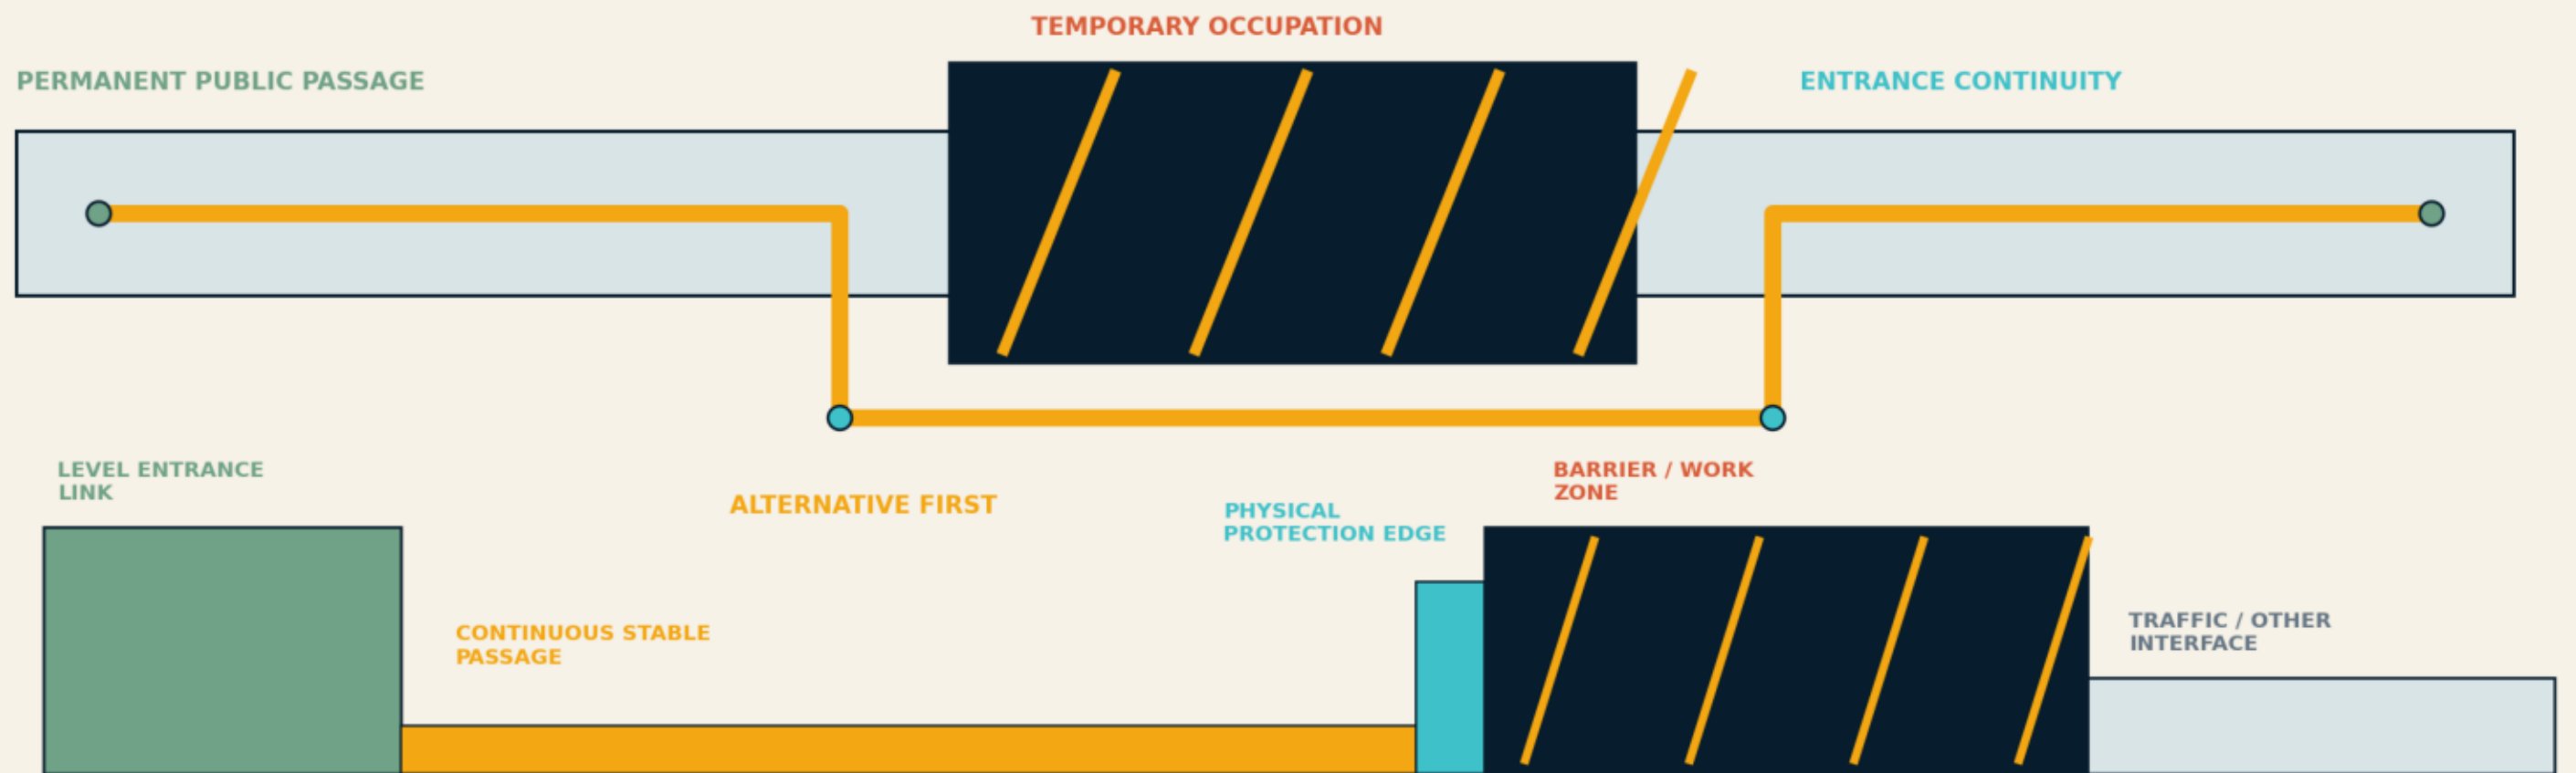

Not three copies: one test-open-adopt evidence chain

REAL CANDIDATE: QINGHUA EAST ROAD SOUTH PROJECT

Public approval, named construction unit, and Jingzhang-Xiaoyue River relation exist. Partnership, works plan, route survey, duty chain, and quotes do not.

A passage is a degradable field relation - not a line

The section shows required relations, not fabricated dimensions. Public clues trigger verification only; a named competent human changes the passable state.

- 01

Same side first

RESTORATION

UNKNOWN → PREPARING → VERIFIED_PASSAGE → ACTIVE → DEGRADED / AUTHORIZED_CLOSED → RESTORING → RESTORED

Claims stop where evidence stops

KNOWN: official task, legal responsibility lever, provisional repository geometry, one public project candidate.

UNKNOWN: official boundary, real route, permit chain, duty chain, field capacity, two quote types, performance.

THEREFORE: formal concept submission allowed; authorized pilot, field readiness, and engineering release prohibited.

YELLOW / CONDITIONAL PASS
