

Overall Structure & Evidence Chain

12 REVERSIBLE INTERFACES

Human takeover · Non-AI equivalent · Recalculation

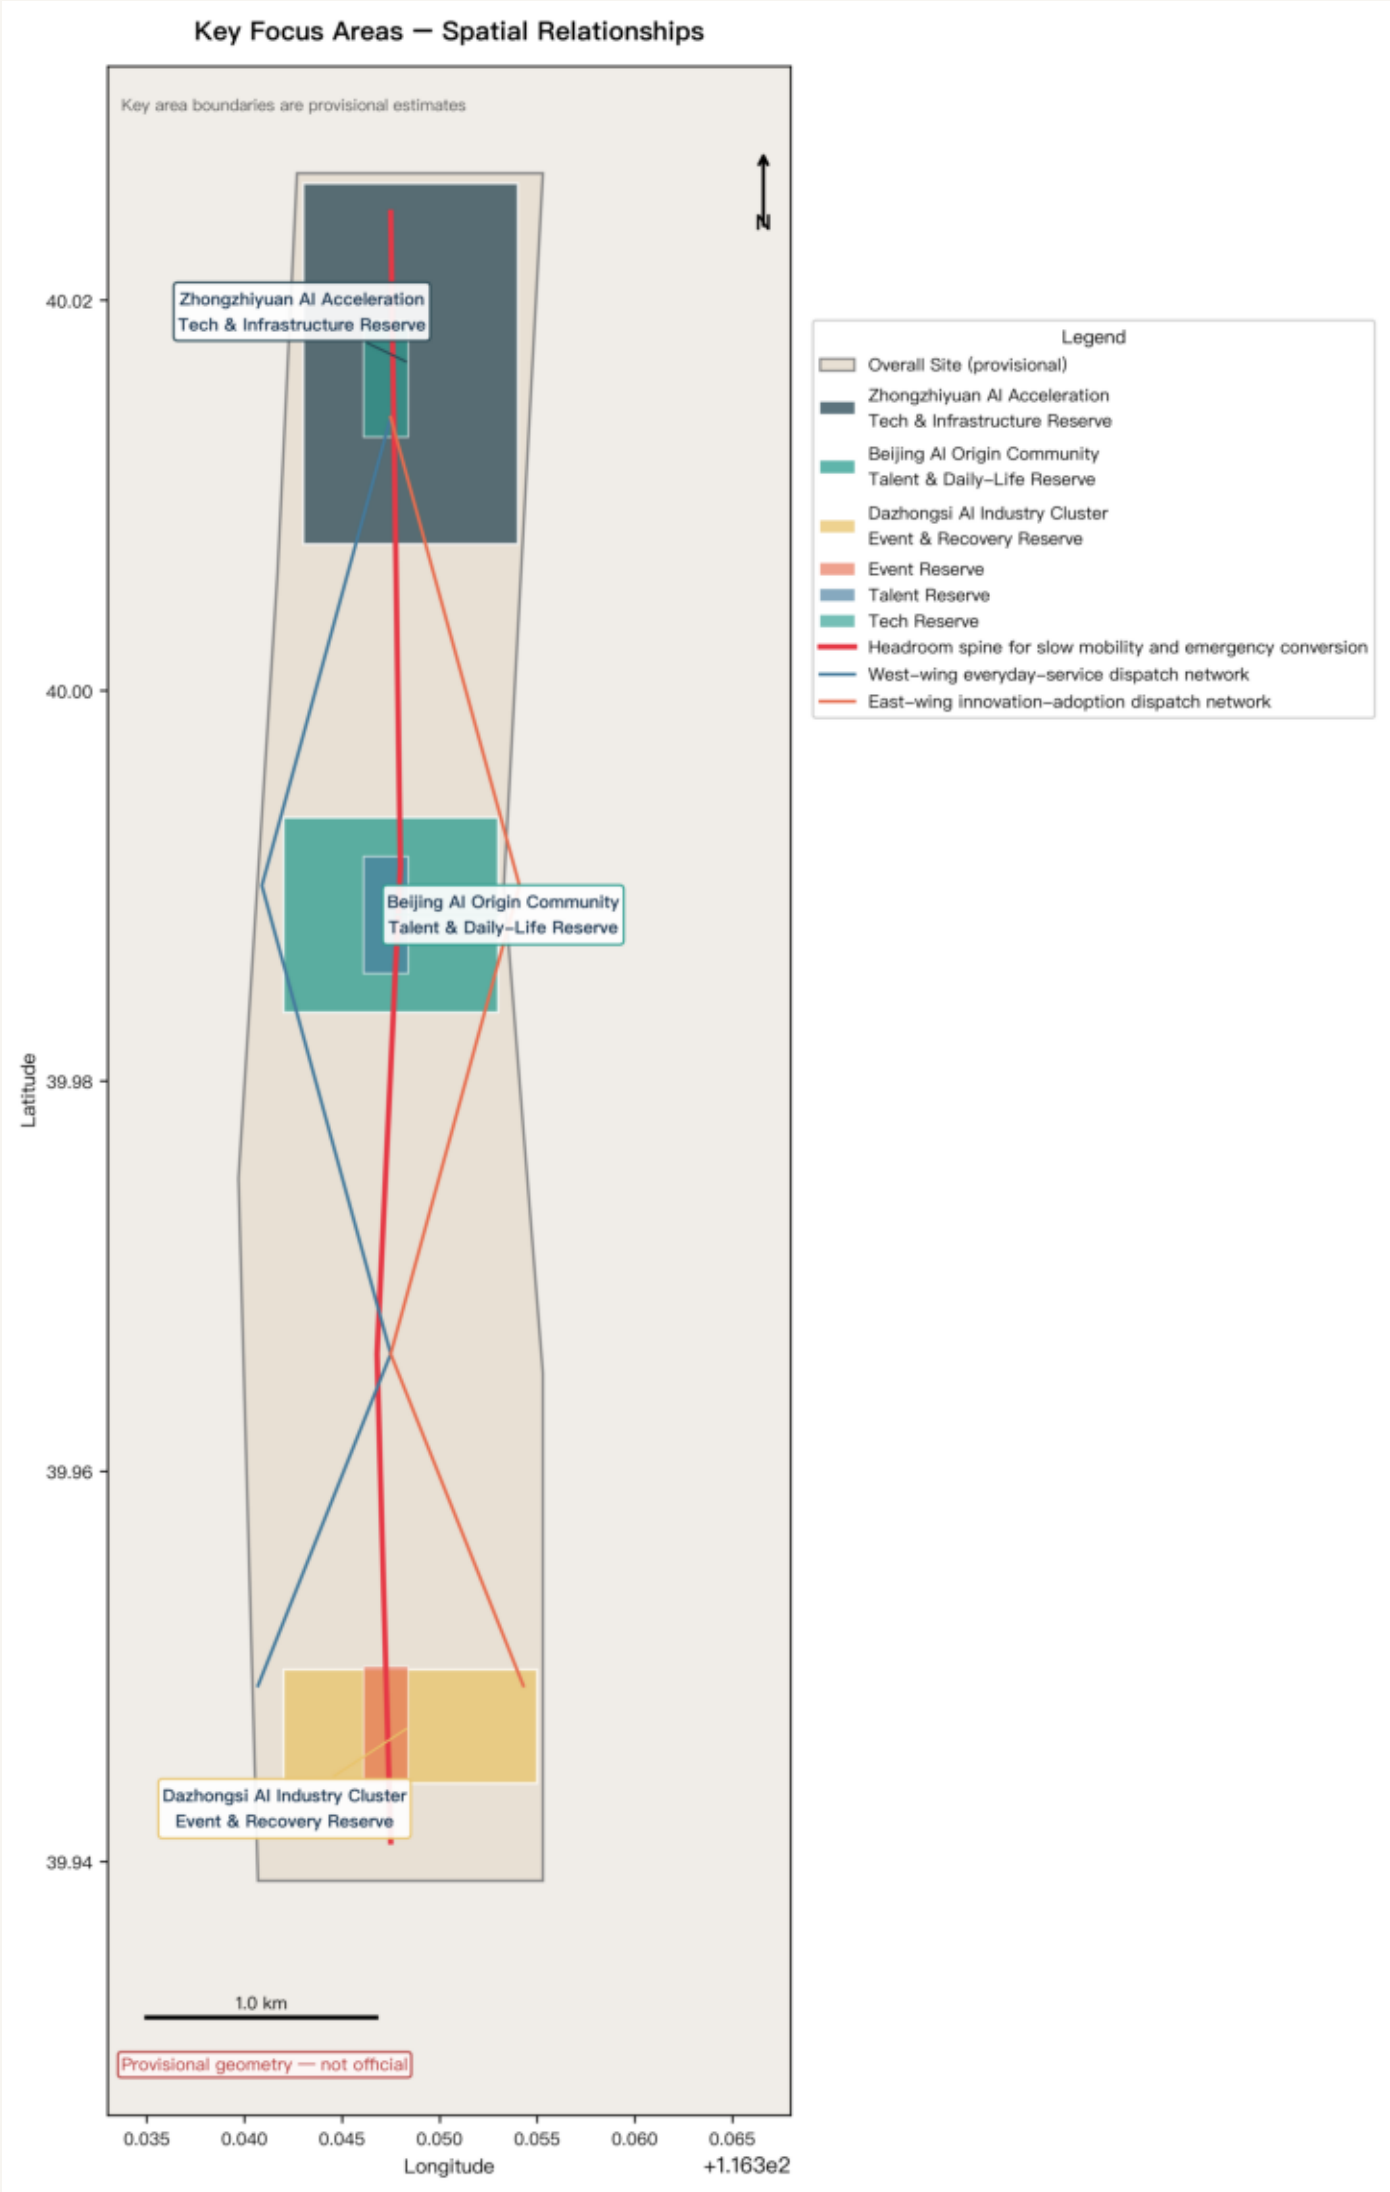

Complete Partition & Headroom Structure

FIVE-BAND PARTITION

Community · R&D · Reversible flex · Blue-green · Industry adoption

Three Key Areas & Twelve Interfaces

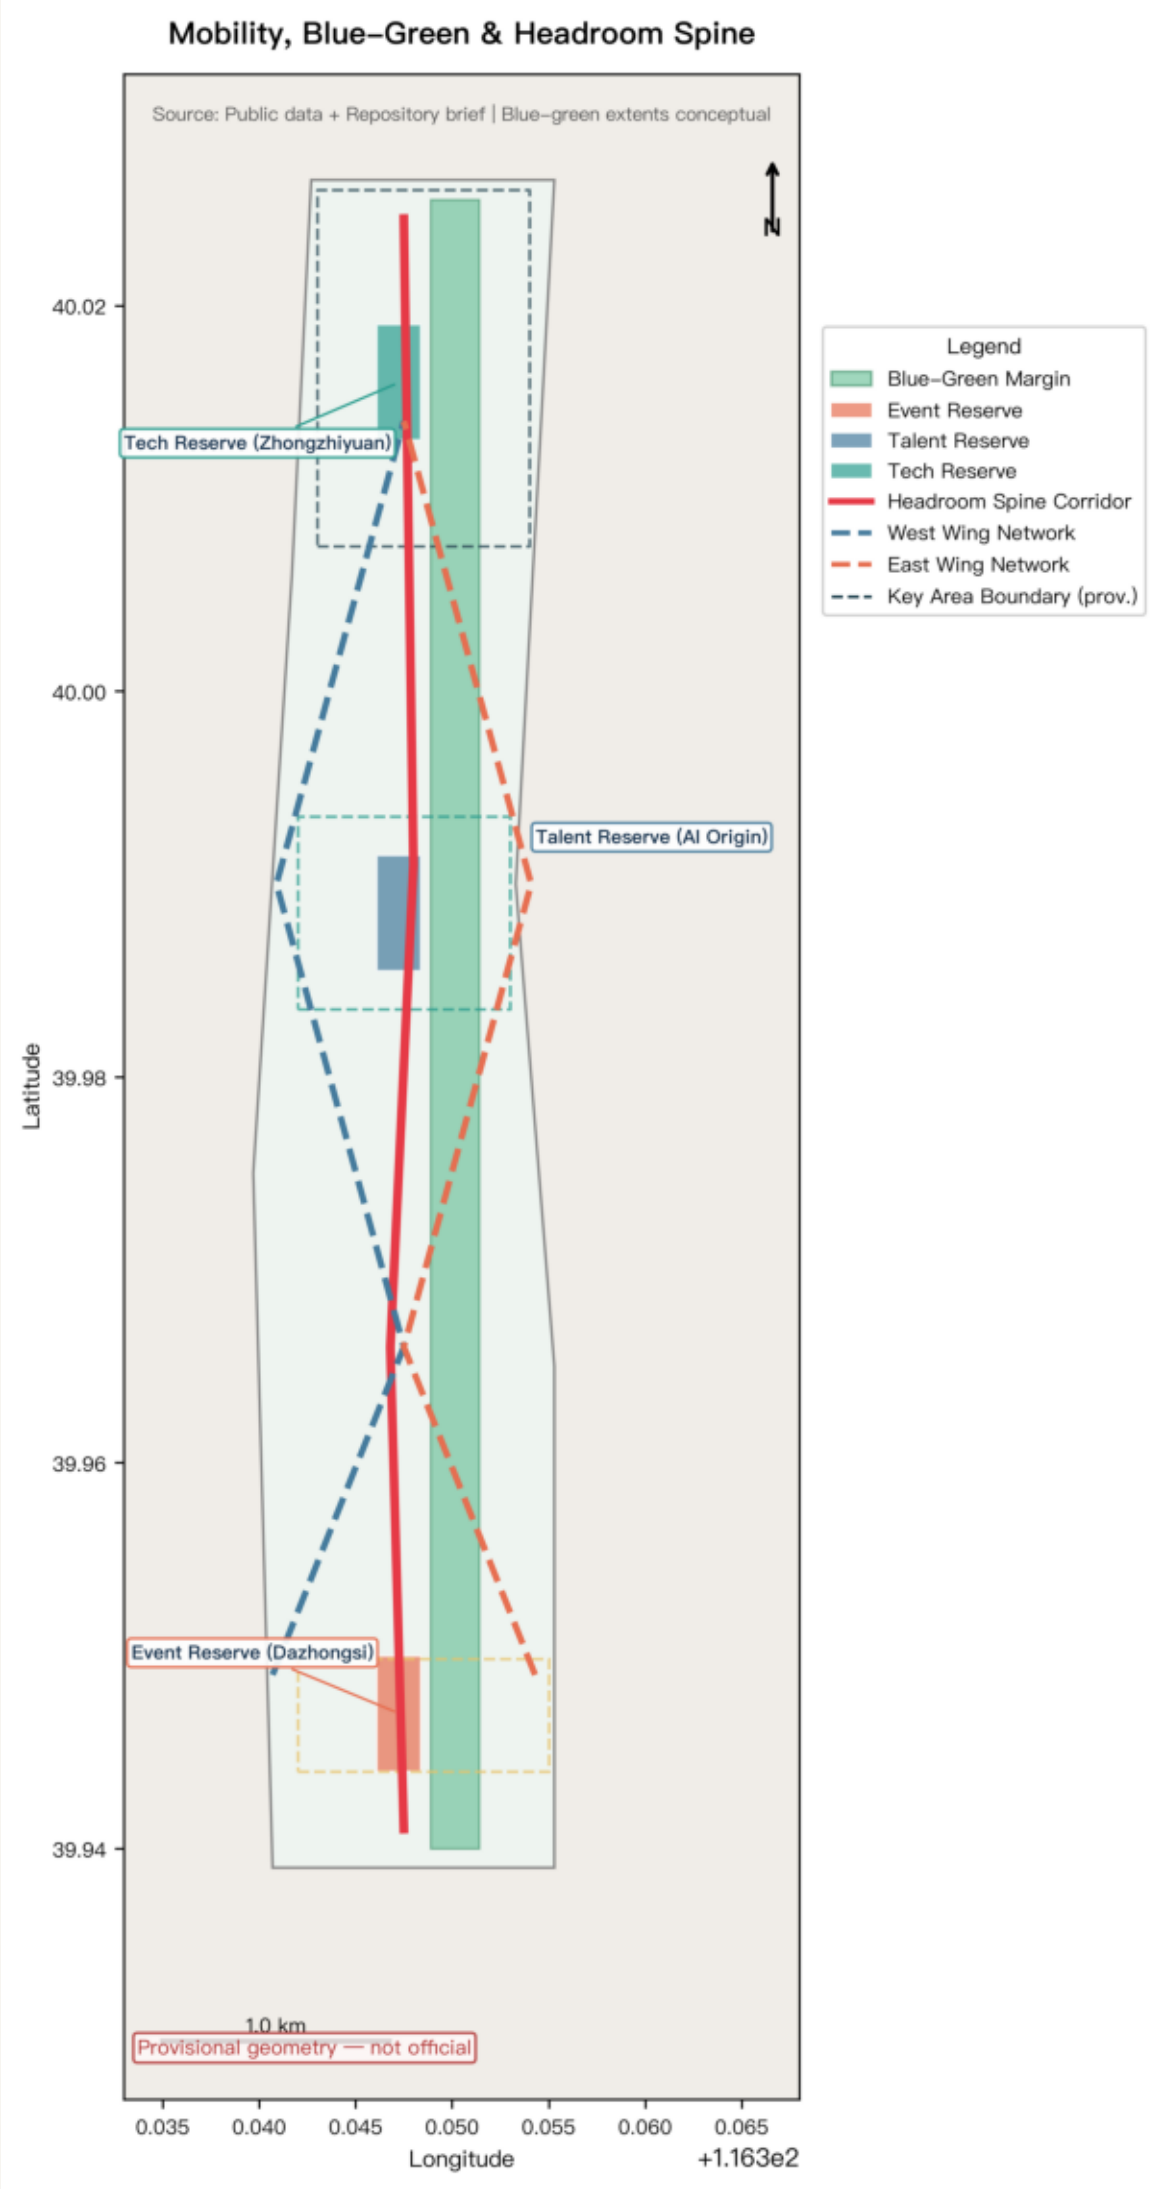

THREE DISTINCT ROLES

Zhongzhiyuan: homegrown innovation & technical infrastructure
· AI Origin: talent & daily service · Dazhongsi: adoption & event recovery

All extents are provisional. Twelve interfaces are professional-design prompts, not approvals.

Mobility, Blue-Green & Human Takeover

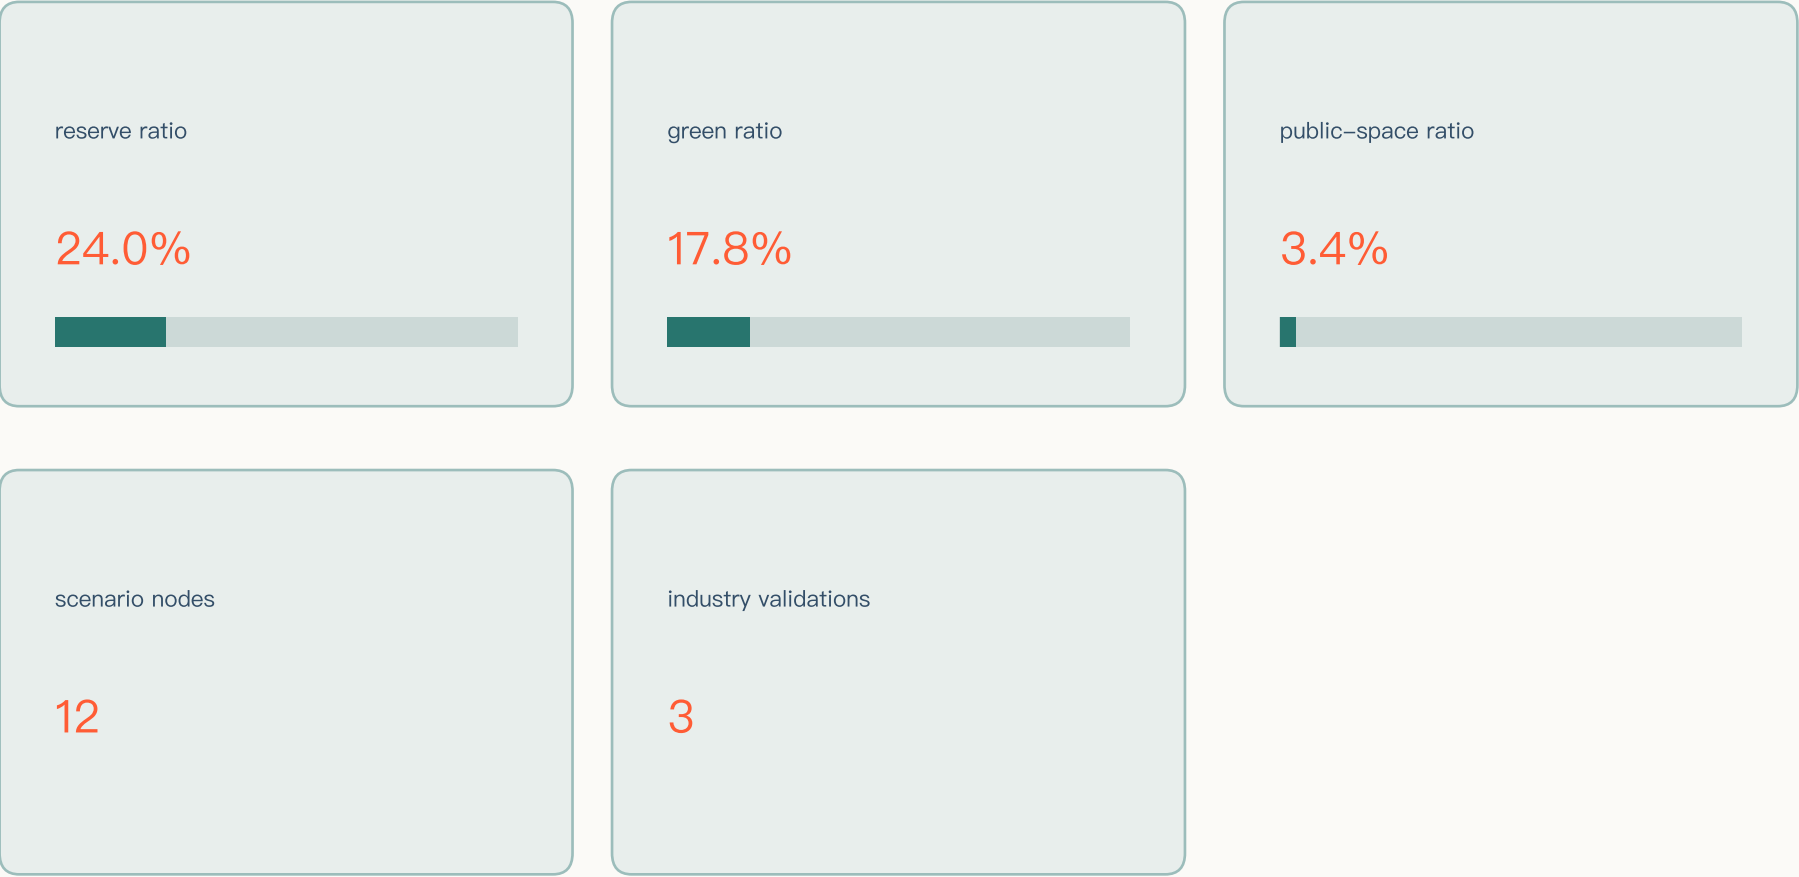

THREE COORDINATED NETWORKS Headroom spine · West dispatch wing · East innovation wing · Blue-green recovery margin

Every AI service retains human takeover and a non-AI equivalent. Alignments await official data.

METRICS ARE RECALCULATION INTERFACES, NOT APPROVALS

Known concept-test values sit beside items pending official data

pending: official boundary / FAR / height / redlines / ownership / utilities / heritage

trigger: replace → clip → EPSG:4548 recompute → redraw → self-check

Provisional rough geometry: generation, display and intake only. Recalculate the full package after official data arrives.
