

Jingzhang AI Origin Belt

The Intelligent Origin Corridor on a Century-Old Railway

Jingzhang AI Origin Belt (JAOB) · 1909→2035

Centennial Jing-Zhang AI Innovation Belt Open Call · Conceptual suggestion by an AI agent
All spatial moves are conceptual suggestions, not statutory planning or approved conclusions

One Spine · Three Sources · Two Wings

ial syntax

One spine, three sources, two wings

Spine: the Origin Axis — a linear heritage park and slow mobility spine linking all key areas and AI public spaces.

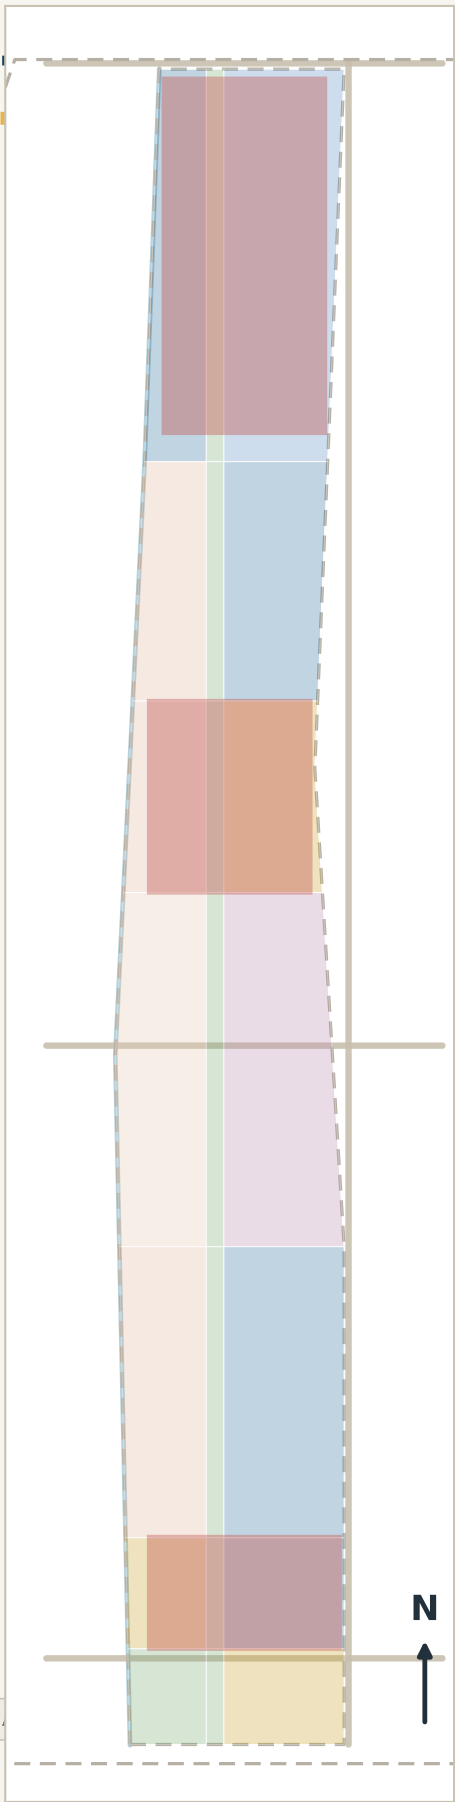

Three sources:

- ① Zhongzhiyuan (192.1 ha) — full-stack AI self-innovation;
- ② AI Origin Community (104.3 ha) — world-class ecosystem;
- ③ Dazhongsi (72.0 ha) — intelligence-native new business.

Two wings:

East: Zhongguancun tech-services wing — capital & IP;
West: Xiaoyuehe scenario wing — AI-enabled city life.

rs = conceptual landmarks.

Scope Framework

→ key-area detail

Coordinated research

43.6 km² · regional strategy

Overall design

11.4 km² · regulatory-depth urban design

Key detailed design

3.68 km² · 3 districts, implementation depth

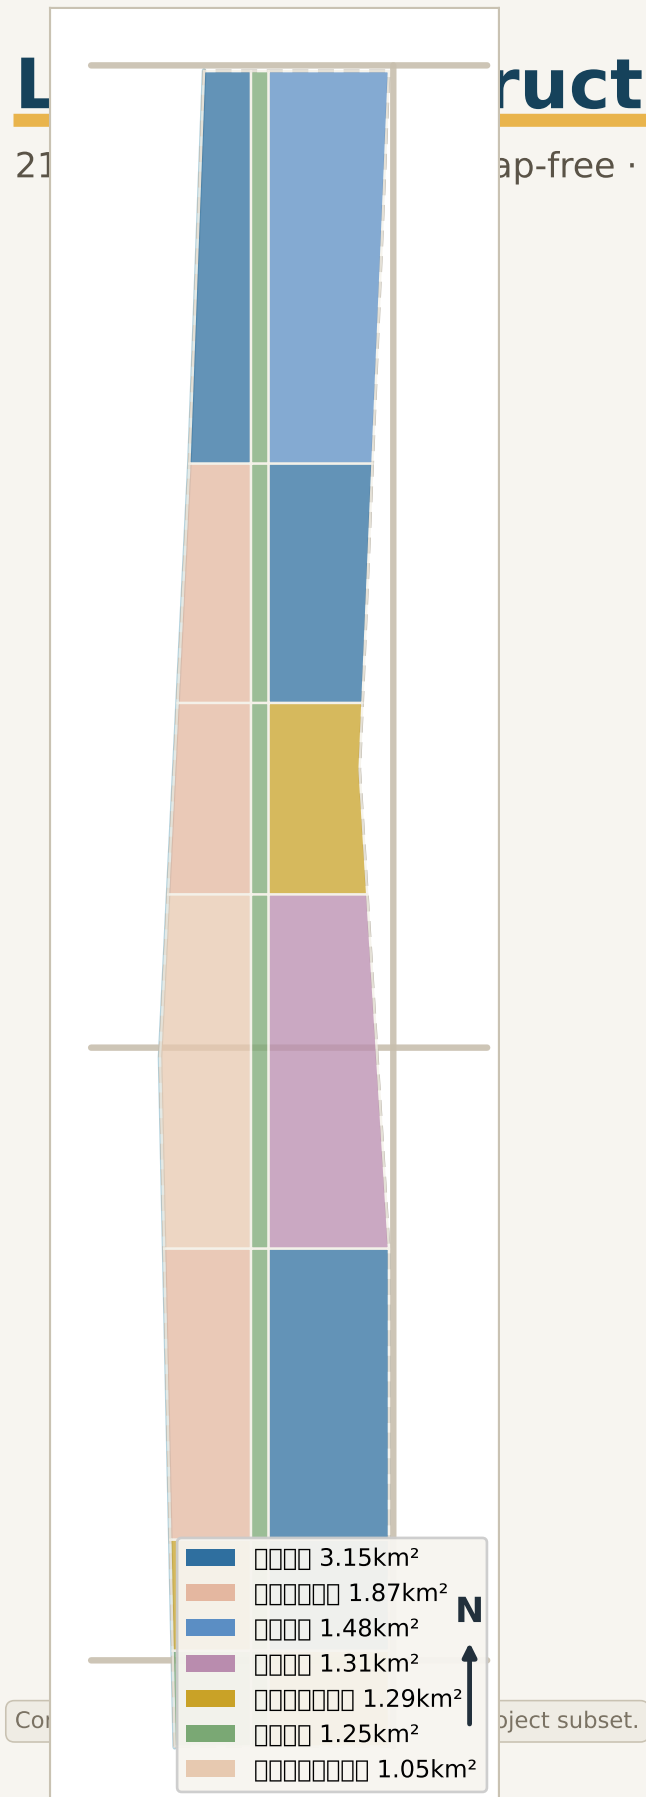

All boundaries are provisional; full recomputation required once official geometry arrives.

L

21

Structure

ap-free · recomputed

Longzhiyuan

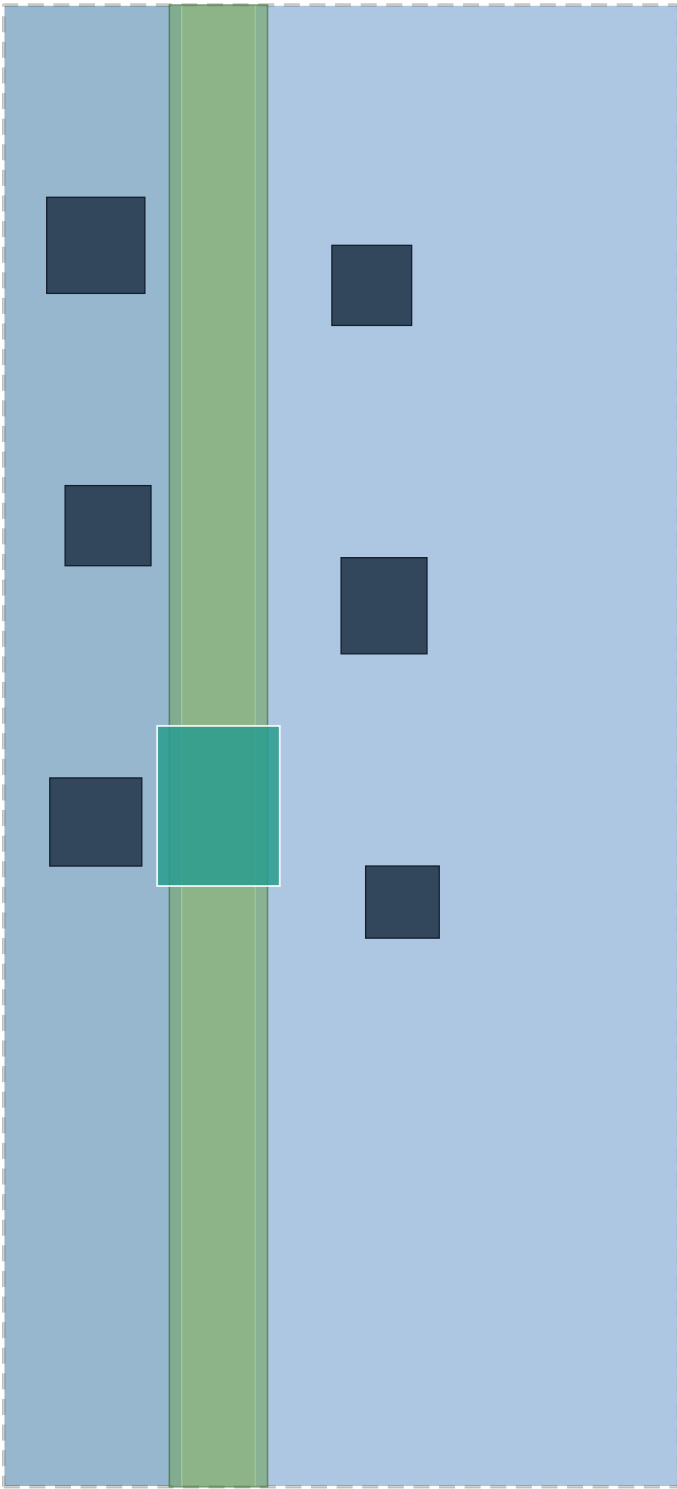

Area

Full-stack campus, talent academy, open compute labs, embodied-AI labs, scholar housing; demo plaza.

Depth: positioning + structure + renewal + mobility
+ public space + AI scenarios + risks

Retain-and-upgrade first; massing is indicative.

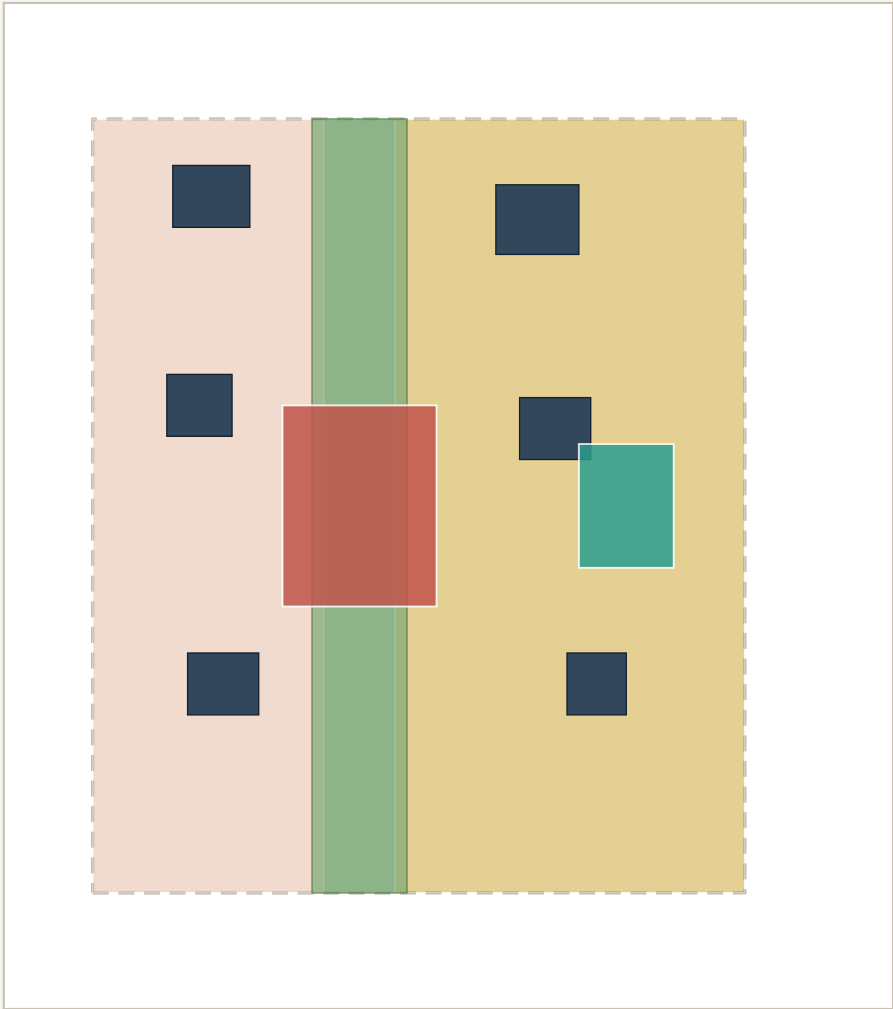

ons only.

Key Area 2 · AI Origin Community

Beijing AI Origin Community

Talent community, open-source offices, AI art museum, smart community center, scenario retail; Origin Plaza.

Depth: positioning + structure + renewal + mobility
1.04 km² · provisional
+ public space + AI scenarios + risks

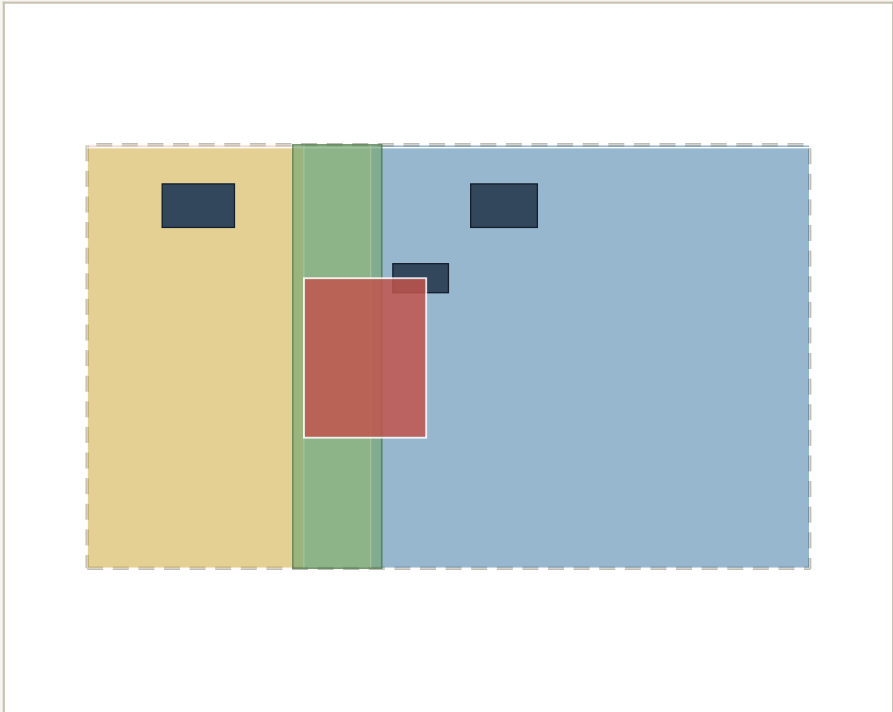

Retain-and-upgrade first; massing is indicative.

Provisional key-area boundary; directional suggestions only.

Key Area 3 · Dazhongsi

Dazhongsi AI Industry Cluster

Intelligence-native retail, business acceleration, transit hub; Bell Plaza hosts honor ceremonies.

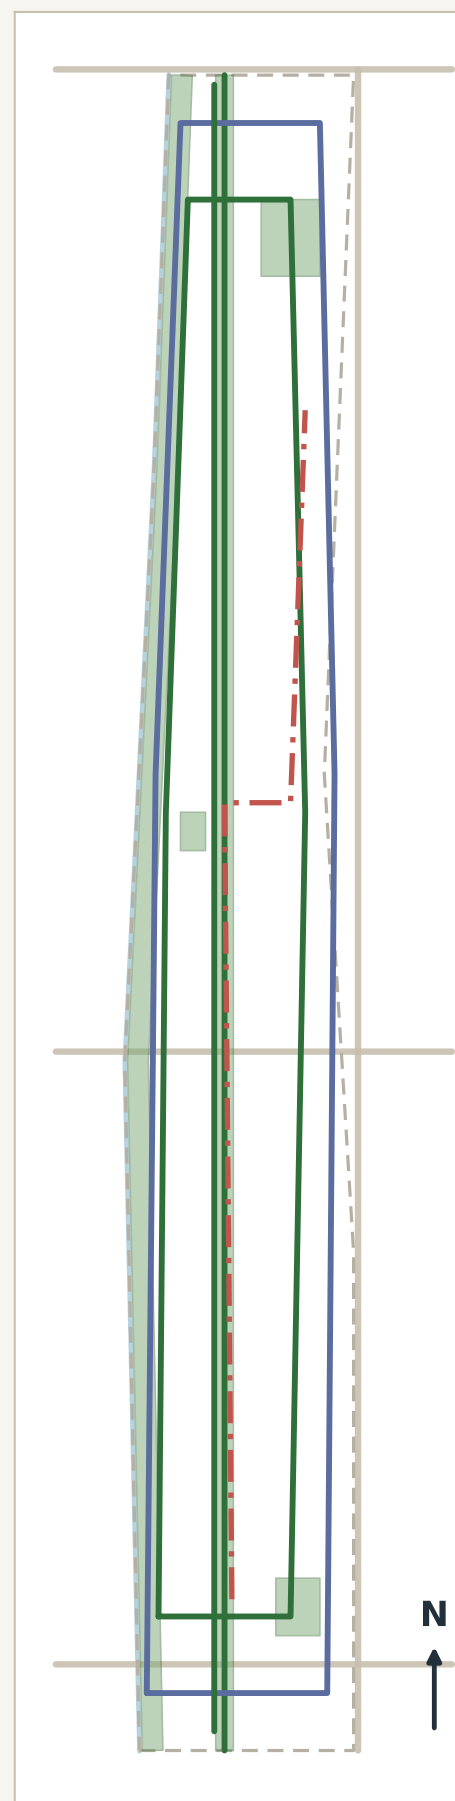

Depth: positioning + structure + renewal + mobility
+ public space + AI scenarios + risks

Retain-and-upgrade first; massing is indicative.

Provisional key-area boundary; directional suggestions only.

Blue-Green Network

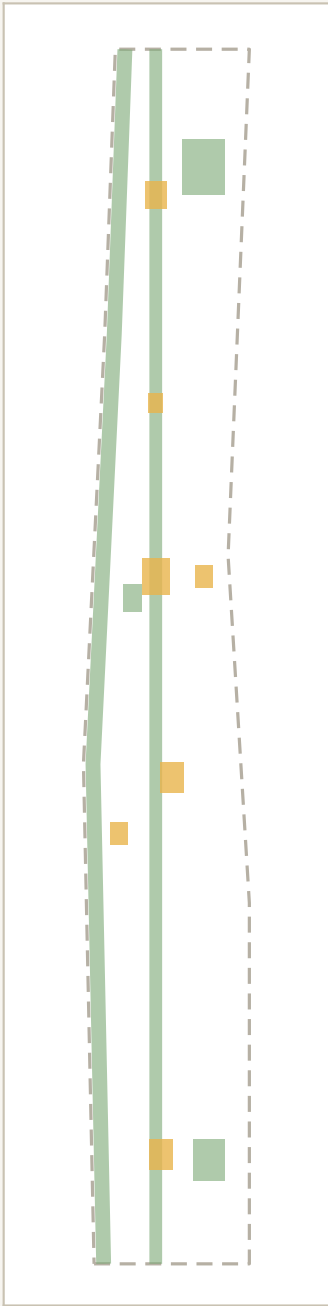

Mobility highlights

- Origin greenway stitches east-west;
- Slow loop links three areas and two wings;
- Shuttle loop ties stations to scenario nodes;
- Rail links: Dazhongsi-Origin-Wudaokou;
- Existing roads shown as reference only.

Slow network 37.1 km.

s are text-located references.

Green & public space

rics & Evidence

ed · metrics.json ↔ GeoJSON

Green	21.3%
Public	2.3%
Slow net	37.1 km
AI Nodes	7
GFA GFA	167.9e4m²
FAR	unknown

All metrics recomputable from GeoJSON in EPSG:4548; missing controls stay unknown.

Concept quantities; recompute after official data.

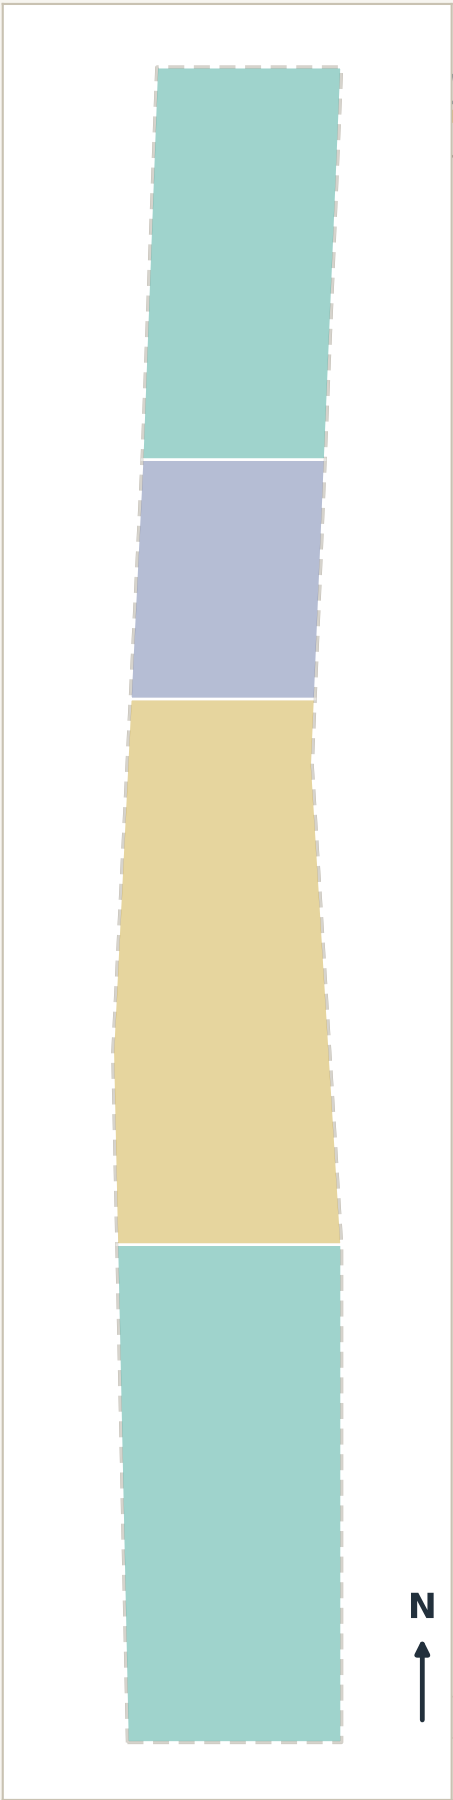

AI Scenario Cards & Personas
