

CO-TEMPO FRAME

Three clocks, one public corridor

Dashed outline: provisional reference only; corridors and nodes are conceptual.

CO-TEMPO FRAME

Slow research, daily life, and rapid translation
calibrate one another in walkable public space.

SPATIAL JUDGEMENT

A relationship network used every day,
not a new isolated district

DESIGN MOVE

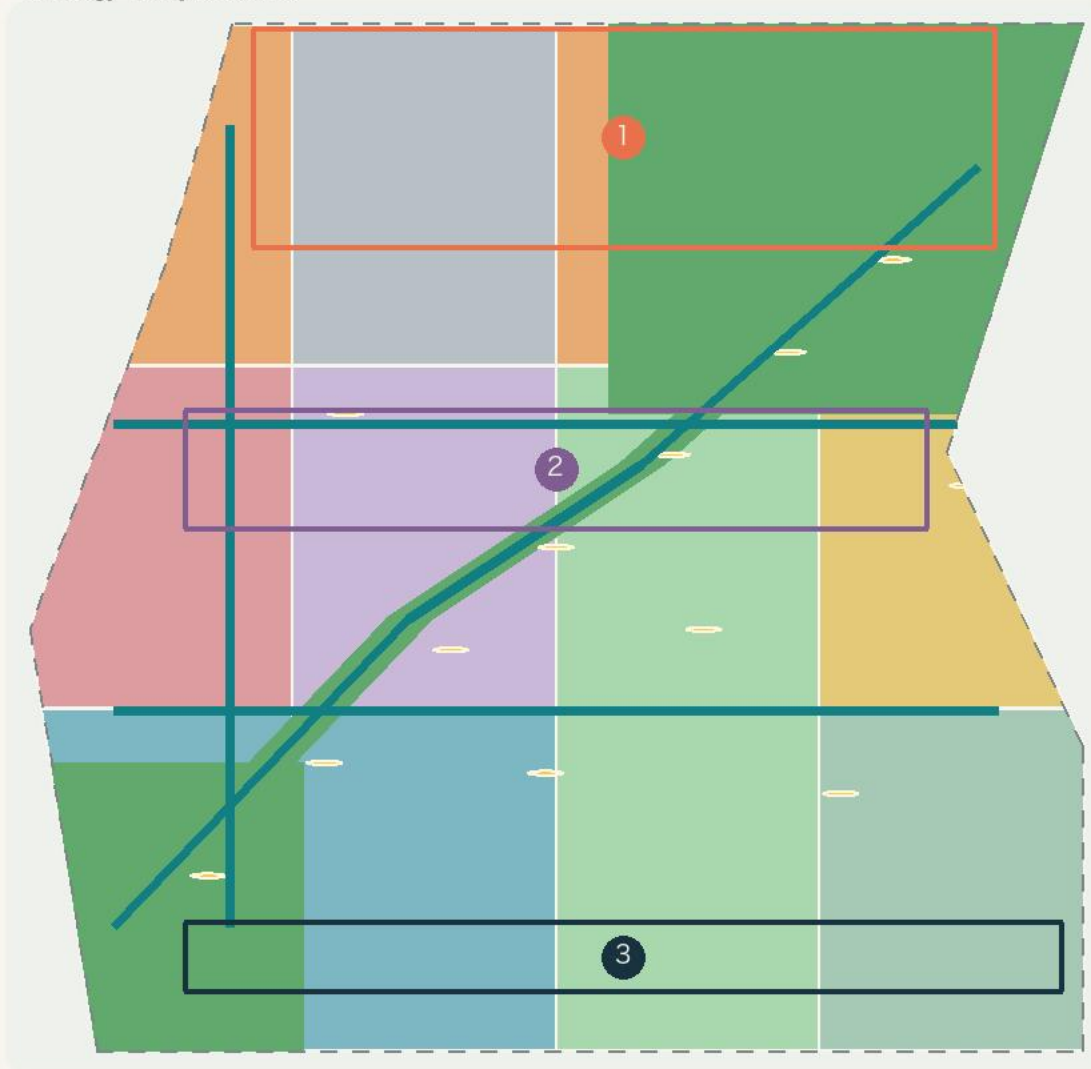

Calibration, Co-Creation, Translation,
and the Co-Tempo Corridor

DATA BOUNDARY

Provisional extent for concept and
self-check only

THREE SCOPE LEVELS

Strategy to city to district

Dashed outline: provisional reference only; corridors and nodes are conceptual.

THREE SCOPE LEVELS

The three work scales form one recalculable chain from ecosystem strategy to district design.

COORDINATED LEVEL

Global ecosystem and Three Zones and Two Wings

OVERALL LEVEL

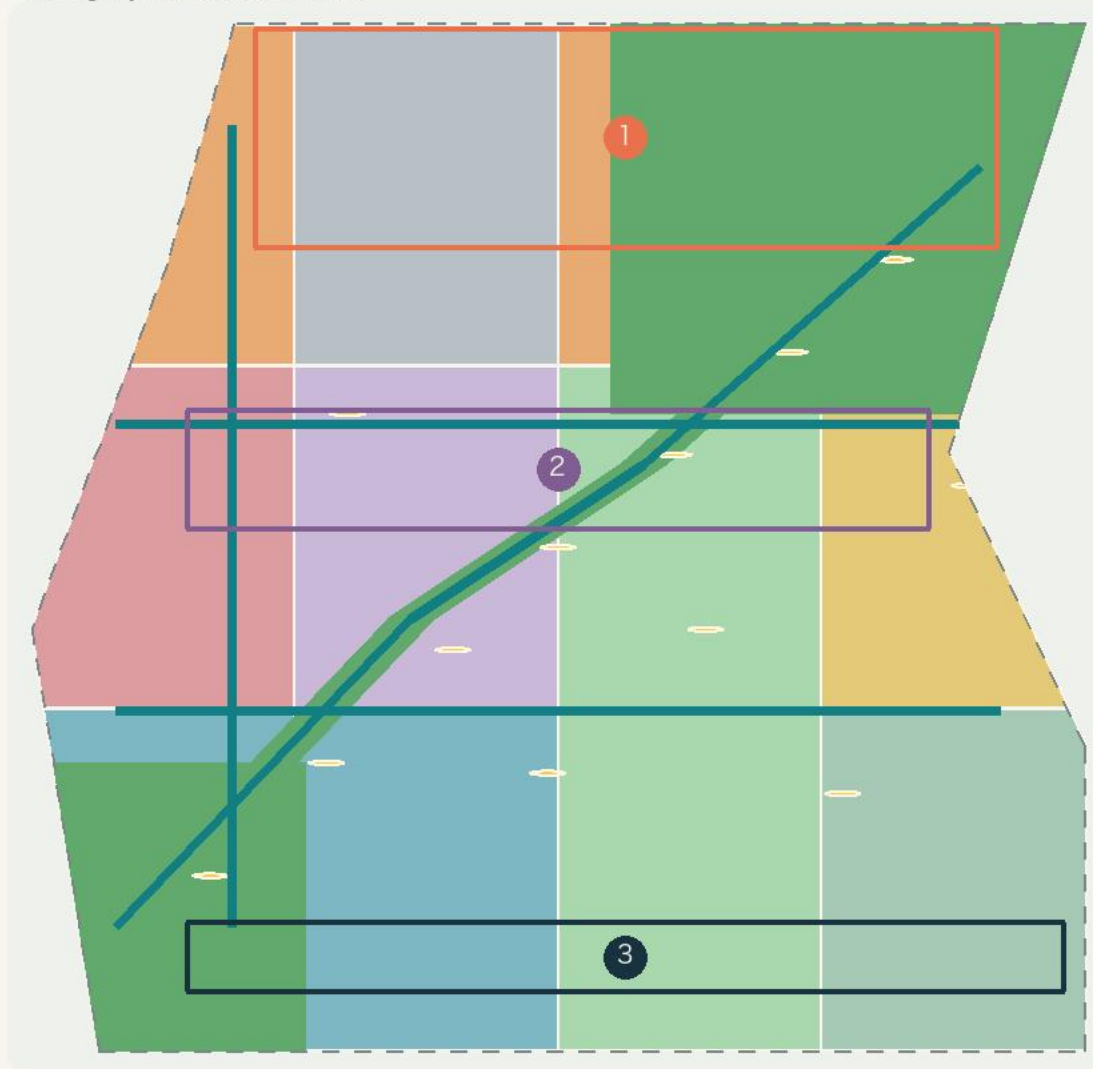

Land use, public space, mobility, and renewal relationships

KEY-AREA LEVEL

Three districts carry different tempos

KEY AREA 01

Zhongzhiyuan: Calibration Field

Dashed outline: provisional reference only; corridors and nodes are conceptual.

KEY AREA 01

Research, standards, safety, and ecological interfaces remain adjacent without being confused.

SPACE

Research courts and public interpretation garden

SCENARIOS

Three controlled industry tests

PENDING DATA

River, transport, energy, and heritage controls
