

Centennial Jing-Zhang AI Innovation Belt • Open Call Submission

# Twin Rail Century

Twin Rails • Five Nodes • Three Areas • Two Wings

1909

1909

2026

2026

5 Twin-Rail Transfer Nodes • 5 个双轨换乘节点

3 Detailed-Design Areas • 3 处重点区

10 AI Scenario Cards • 10 张 AI 场景卡

8 User Personas (5 non-AI) • 8 类用户画像 (5 类非 AI)

90-Day Auto-Retreat • 90 天自动退出

dabaicai001 / twin-rail-century / v1.0-concept-confirmed

All node positions and service boundaries are Conceptual Suggestions; final delivery requires planning-authority verification.

# Tier 1 • Tier 2 • Tier 3

## Tier 1 — Coordination-Research Scope 43.6 km²

Innovation chain: university source → open-source collaboration → enterprise translation → public experience → international outreach

## Tier 2 — Overall-Design Scope 11.4 km²

Land use · buildings · roads · green space · public space · phasing — control-detailed-plan depth

## Tier 3 — Key Areas 368.4 ha

Zhongzhiyuan · Beijing AI Origin · Dazhongsi — comprehensive-implementation-plan depth

# Five Twin-Rail-Century Nodes

- 1

**Beijing North**  
Multilingual AI guidance + city-entry kiosk  
Lead: 海淀文旅局、清华 x-lab
- 2

**Qinghuayuan**  
Developer Promenade + Agent Contribution Wall  
Lead: 清华校友会、海淀科委
- 3

**Wudaokou**  
Low-speed robot delivery + AI slow-traffic diagnostics  
Lead: 北航人工智能学院、海淀街道办
- 4

**Dazhongsi**  
AI cultural guide + station-front intelligent terminal  
Lead: 大钟寺片区指挥部、中关村管委会
- 5

**Qinghe (HSR 2019)**  
HSR-AI mobility hub + cross-city travel-AI steward  
Lead: 海淀交通委、京张高铁运营

# Three Detailed-Design Areas

## AREA 1 • Zhongzhiyuan

Garden-style full-stack autonomous innovation block

data:geometry/key\_areas.geojson#PROV-KEY-001  
depth:three\_key\_area\_detailed\_design

## AREA 2 • AI Origin Comm.

Near-campus achievement-translation and talent community

data:geometry/key\_areas.geojson#PROV-KEY-002  
depth:three\_key\_area\_detailed\_design

## AREA 3 • Dazhongsi

Urban smart-economy and international exchange block

data:geometry/key\_areas.geojson#PROV-KEY-003  
depth:three\_key\_area\_detailed\_design

# Land-Use Mix

Conceptual percentages · recompute after official boundary publication.

# 10 AI Scenario Cards

**#01 Multilingual AI guidance**  
Node: Beijing North  
Threshold: translation error > 5%  
Privacy: no face · no identity binding · no persistent location

**#02 City-entry information kiosk**  
Node: Beijing North  
Threshold: misleading complaint > 3/week  
Privacy: no face · no identity binding · no persistent location

**#03 Developer Promenade**  
Node: Qinghuayuan  
Threshold: walkway break > 14 days  
Privacy: no face · no identity binding · no persistent location

**#04 Agent Contribution Wall**  
Node: Qinghuayuan  
Threshold: malicious-submission > 2%  
Privacy: no face · no identity binding · no persistent location

**#05 Low-speed robot delivery**  
Node: Wudaokou  
Threshold: delivery delay > 30 min  
Privacy: no face · no identity binding · no persistent location

# 10 AI Scenario Cards

**#06 AI slow-traffic diagnostics**  
Node: Wudaokou  
Threshold: false-alarm > 10%  
Privacy: no face · no identity binding · no persistent location

**#07 AI mediation**  
Node: Beijing North  
Threshold: satisfaction < 70%  
Privacy: no face · no identity binding · no persistent location

**#08 AI legal-consultation kiosk**  
Node: Beijing North  
Threshold: incorrect citation > 1%  
Privacy: no face · no identity binding · no persistent location

**#09 HSR-AI mobility hub**  
Node: Qinghe (HSR 2019)  
Threshold: boarding confusion > 5/day  
Privacy: no face · no identity binding · no persistent location

**#10 Cross-city travel-AI steward**  
Node: Qinghe (HSR 2019)  
Threshold: advice failure rate > 3%  
Privacy: no face · no identity binding · no persistent location

| non_ai_personas    | = 5 count            | metrics.json |
| node_count         | = 5 count            | metrics.json |
| retreat_threshold  | = 90 days day        | metrics.json |

# Risk, Compliance & Boundaries

**Data Privacy • 数据隐私**

No face / no identity binding / no persistent location; 90-day retreat; staff backup

**Implementation • 实施风险**

Provisional boundary, no official redline; FAR / height pending control confirmation

**Public Acceptance • 公共接受**

Non-AI users (5 of 8 personas) set the hard acceptance bar

**Operations • 运营**

Each node needs 1 on-duty human; 4 weeks below threshold triggers withdrawal

**Policy • 政策**

Conceptual suggestion only; never claim approval / funding / implementation

**Spatial • 空间**

Replace provisional geometry with official polygons before professional scoring

# Twin Rail Century • A3 Booklet
