

JING-ZHANG AI EXPORT BELT

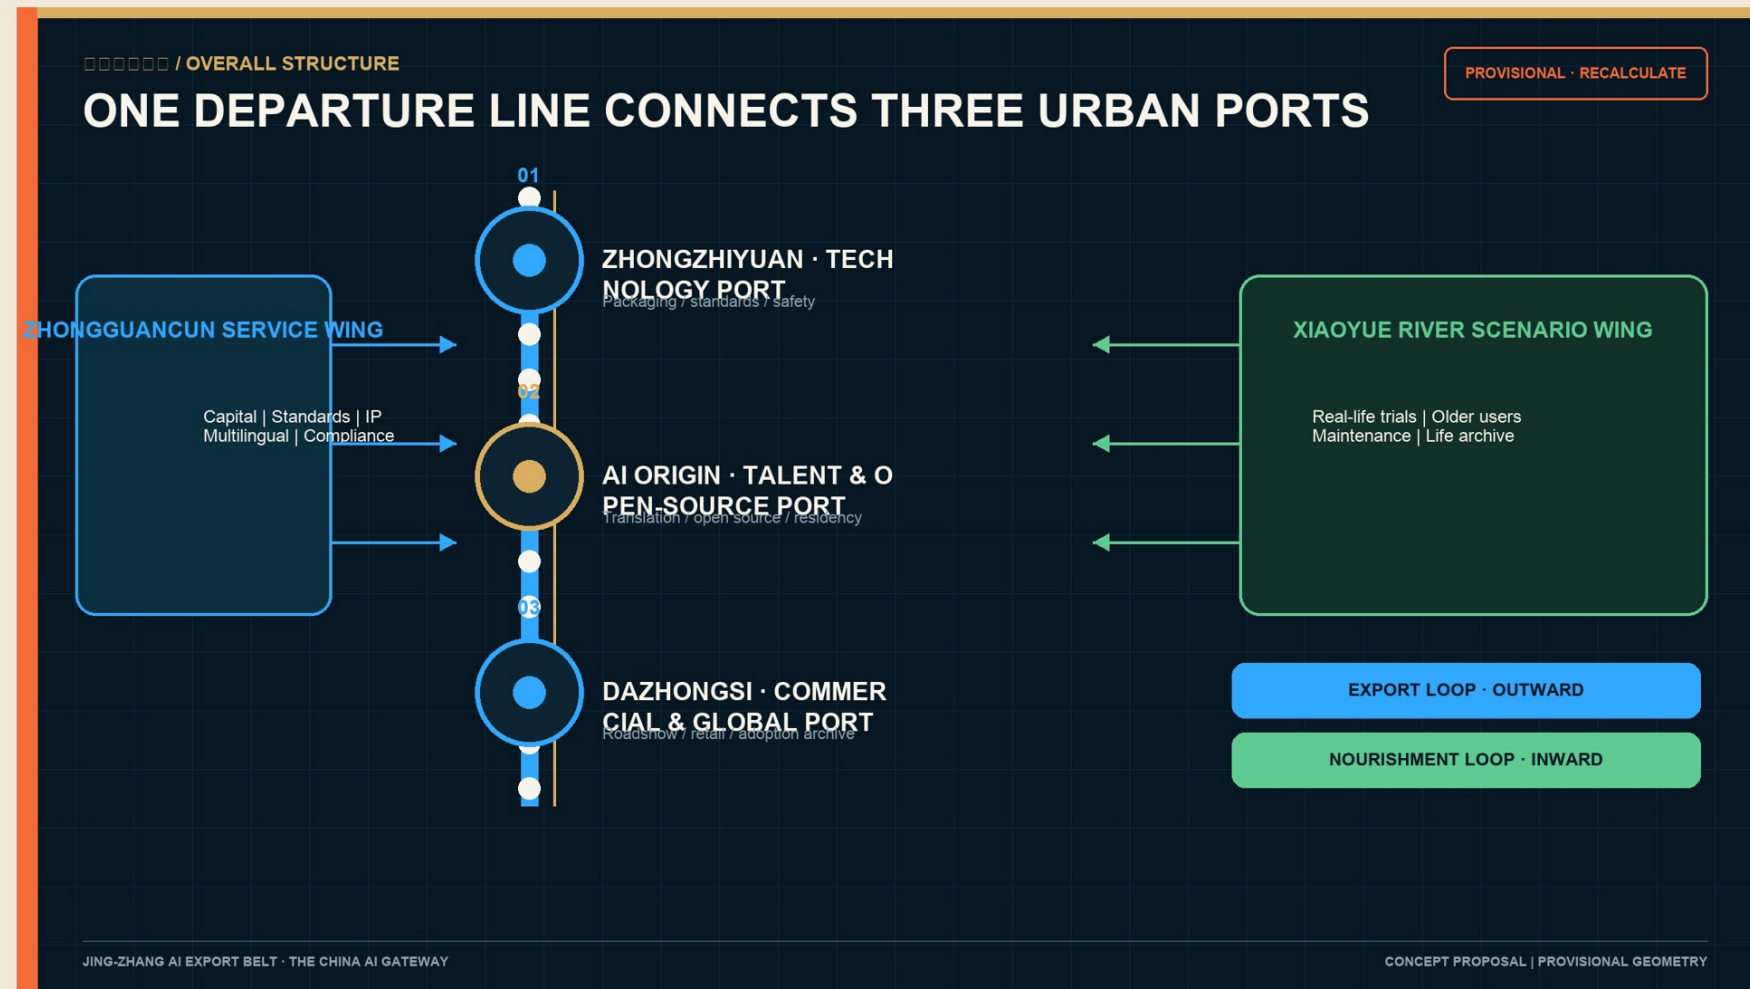

JING-ZHANG AI EXPORT BELT THE CHINA AI GATEWAY

FROM HERE, CHINA AI MEETS THE WORLD.

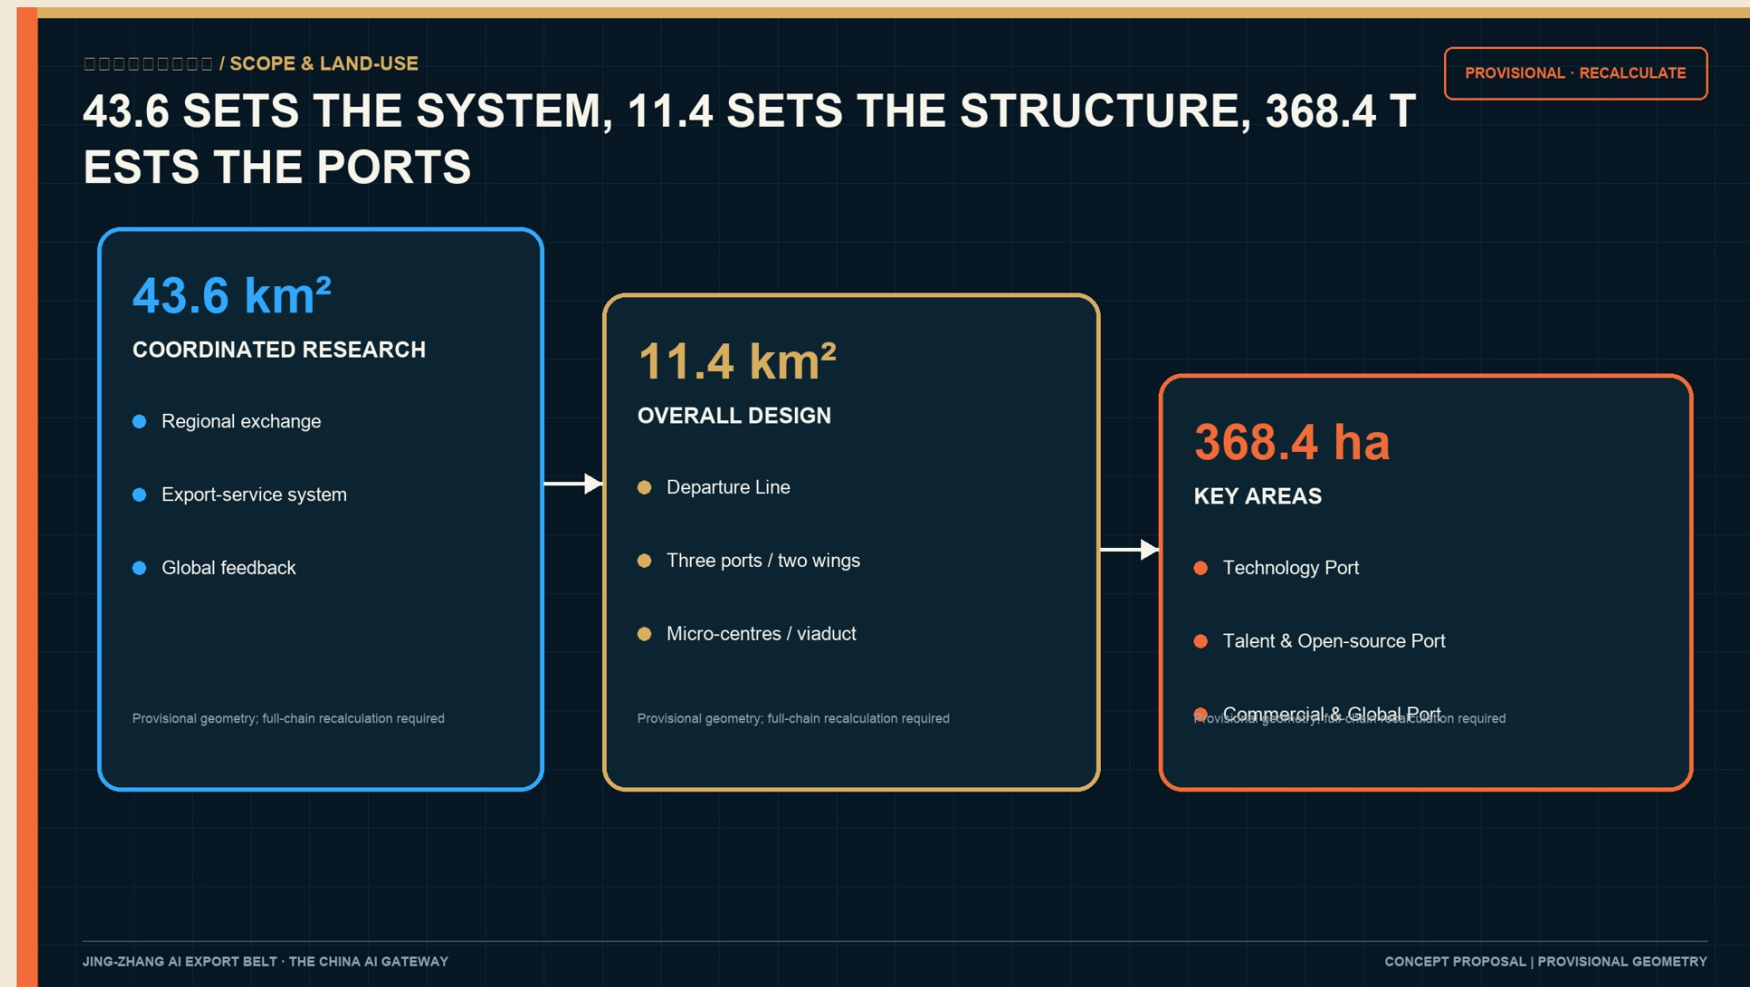

A3 BOOKLET · 18 PAGES

HAIDIAN NEEDS A CITY ROUTE INTO THE WORLD

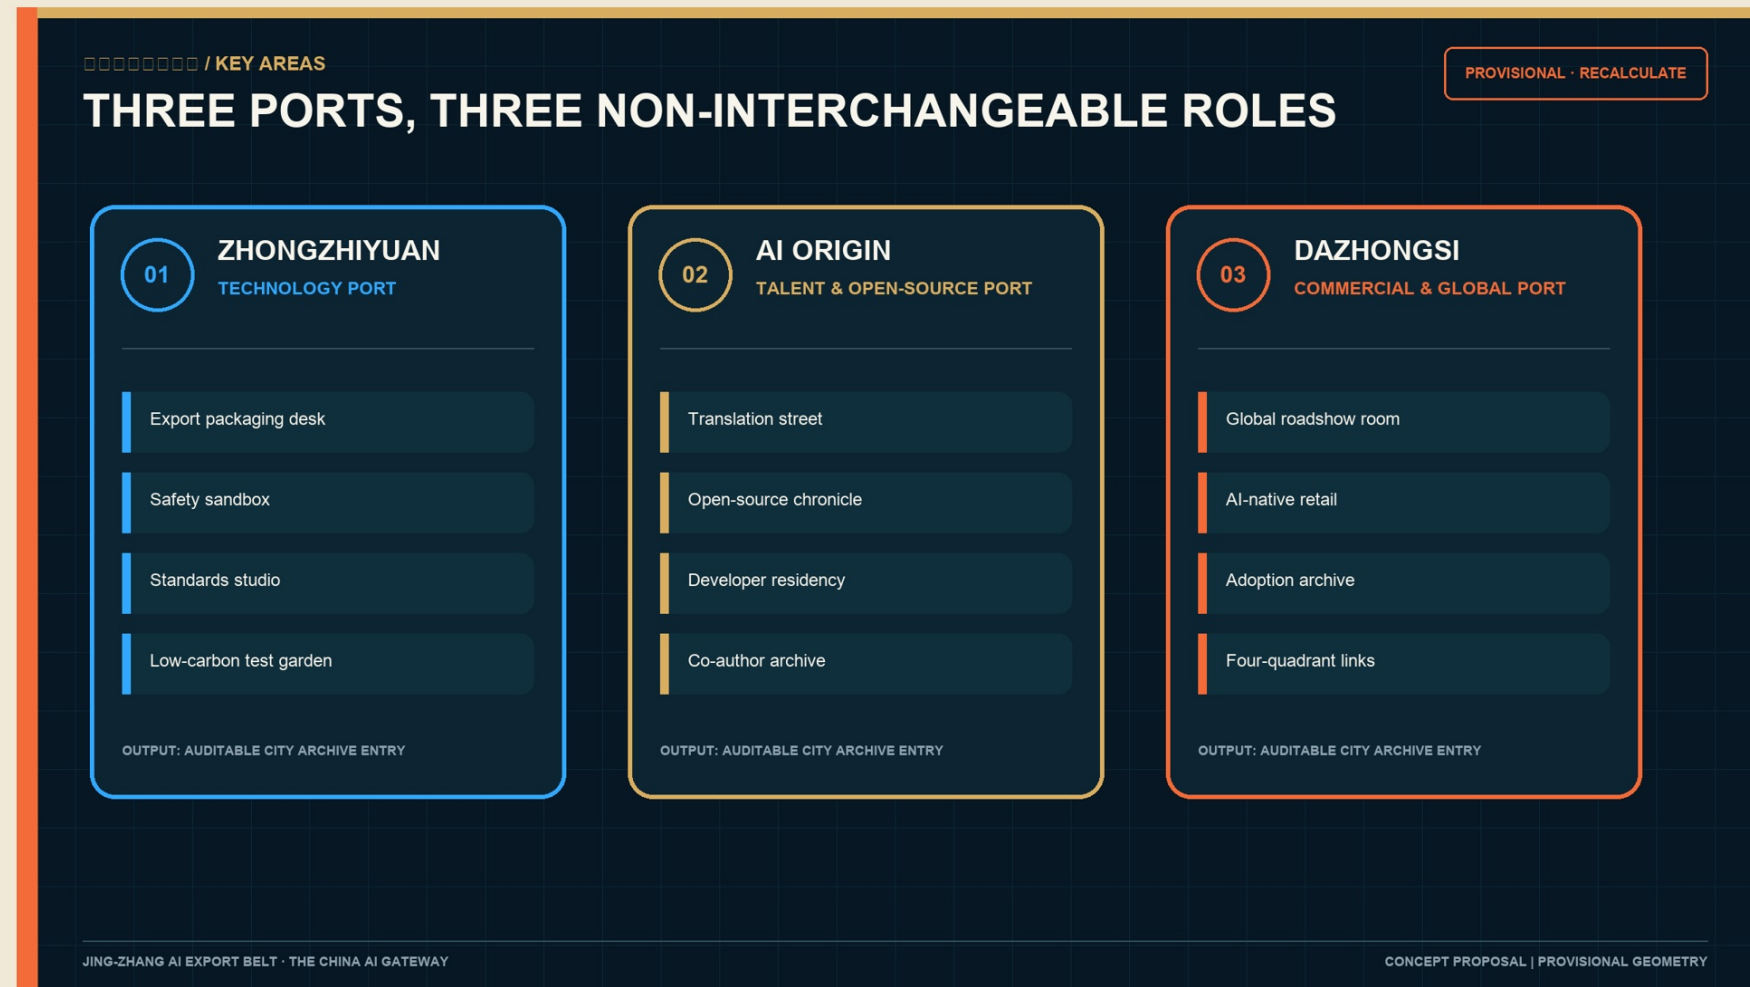

- The city becomes a port, outward to the world and inward to local life.
- The Export Loop meets the Nourishment Loop through an auditable City Archive.

ONE PORT SYSTEM WORKS ACROSS THREE SCALES

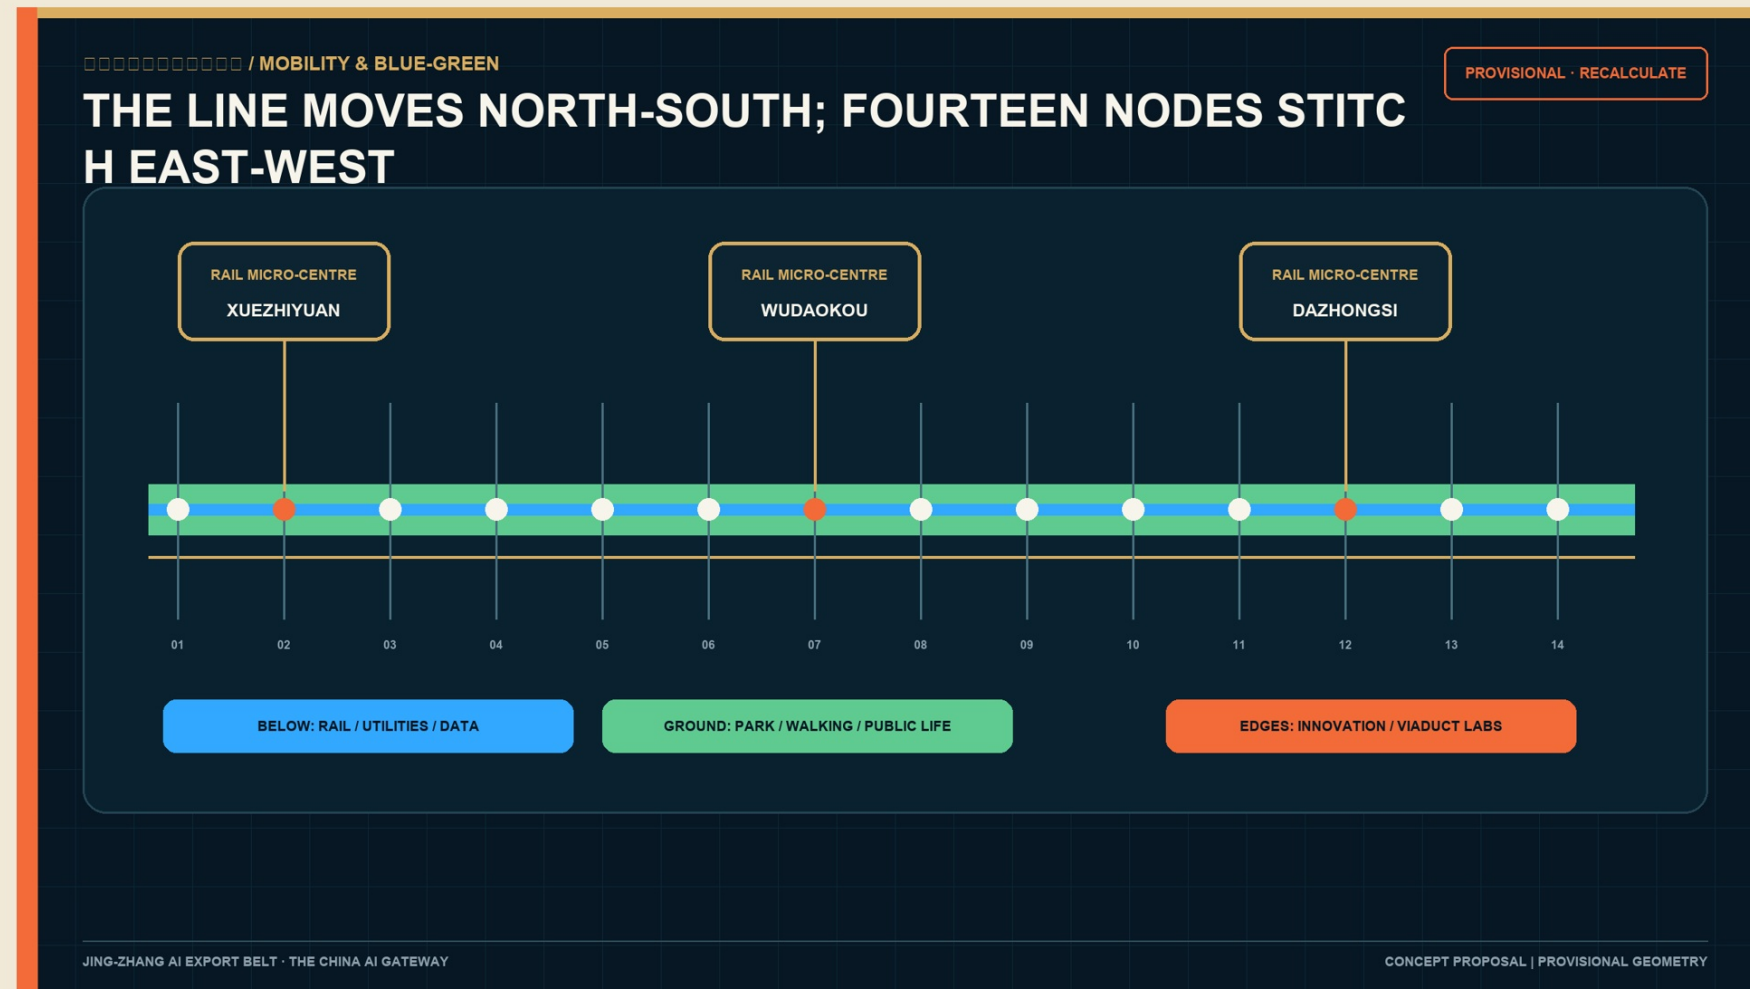

- 43.6 km² defines institutions, 11.4 km² defines structure, 368.4 ha tests three ports.

THREE PORTS HAVE DISTINCT ROLES

- Technology packaging, talent and open source, and commercial/global exchange remain distinct.

NORTH-SOUTH MOVEMENT AND EAST-WEST LINKS USE DIFFERENT SYSTEMS

- A nine-kilometre line, fourteen nodes, three rail micro-centres and viaduct labs work together.

KNOWN, PROVISIONAL AND UNTESTED VALUES STAY SEPARATE

- Provisional geometry supports entry self-check only; official data triggers full-chain recalculation.

SIX CASES, MECHANISMS ONLY

- Six precedents inform proximity, services, public return, collaboration, stewardship and reversible renewal.

EIGHT PERSONAS TEST LONG-TERM VALUE

- Developers, founders, engineers, older residents, children, maintainers, researchers and merchants each have a specific interface.

TWELVE SCENARIOS HAVE STOP CONDITIONS

- Minimum data, human takeover, deletion, exit and staffed alternatives apply to all scenarios.

FOUR LANDMARKS PERFORM PUBLIC DUTIES

- The Century Vault, Open-source Chronicle, Next Century Court and Departure Wall update with evidence.

LAND-USE DECISIONS FOLLOW RETENTION AND REVERSIBILITY

- FAR, height, density, redlines and demolition remain pending official controls and surveys.

EDGE COMPUTE IS SMALL, METERED AND STOPPABLE

- Power, cooling, cybersecurity, fire safety and data permissions require professional review.

A FIVE-LAYER TIMELINE KEEPS HERITAGE HONEST

- 1909 line, 1960 relocation, 2003 viaduct, 2019 underground rail and 2026 park stay distinct.

SIX IMPLEMENTATION PACKAGES INCLUDE EXIT CONDITIONS

- Service catalogue, archive, nodes, port scenarios, repair lab and annual programme advance in phases.

THE CITY ARCHIVE RECORDS WHAT HAPPENS AFTER EXPORT

- Version, licence, adoption, repair, failure, exit and human responsibility form an auditable record.

RENEWAL VALUE RETURNS TO PUBLIC LIFE

- Free hours, accessibility, maintenance jobs and open archives receive priority public return.

THE COPYRIGHT LEDGER RECORDS EVERY ASSET

- No external photography, online tiles, corporate marks, portraits or remote fonts are used.
