

TURNBACK COMMONS

京张折返共生线

Concept urban design for the Centennial Jing-Zhang AI Innovation Belt

one spine / three stations / two wings / reversible civic operation

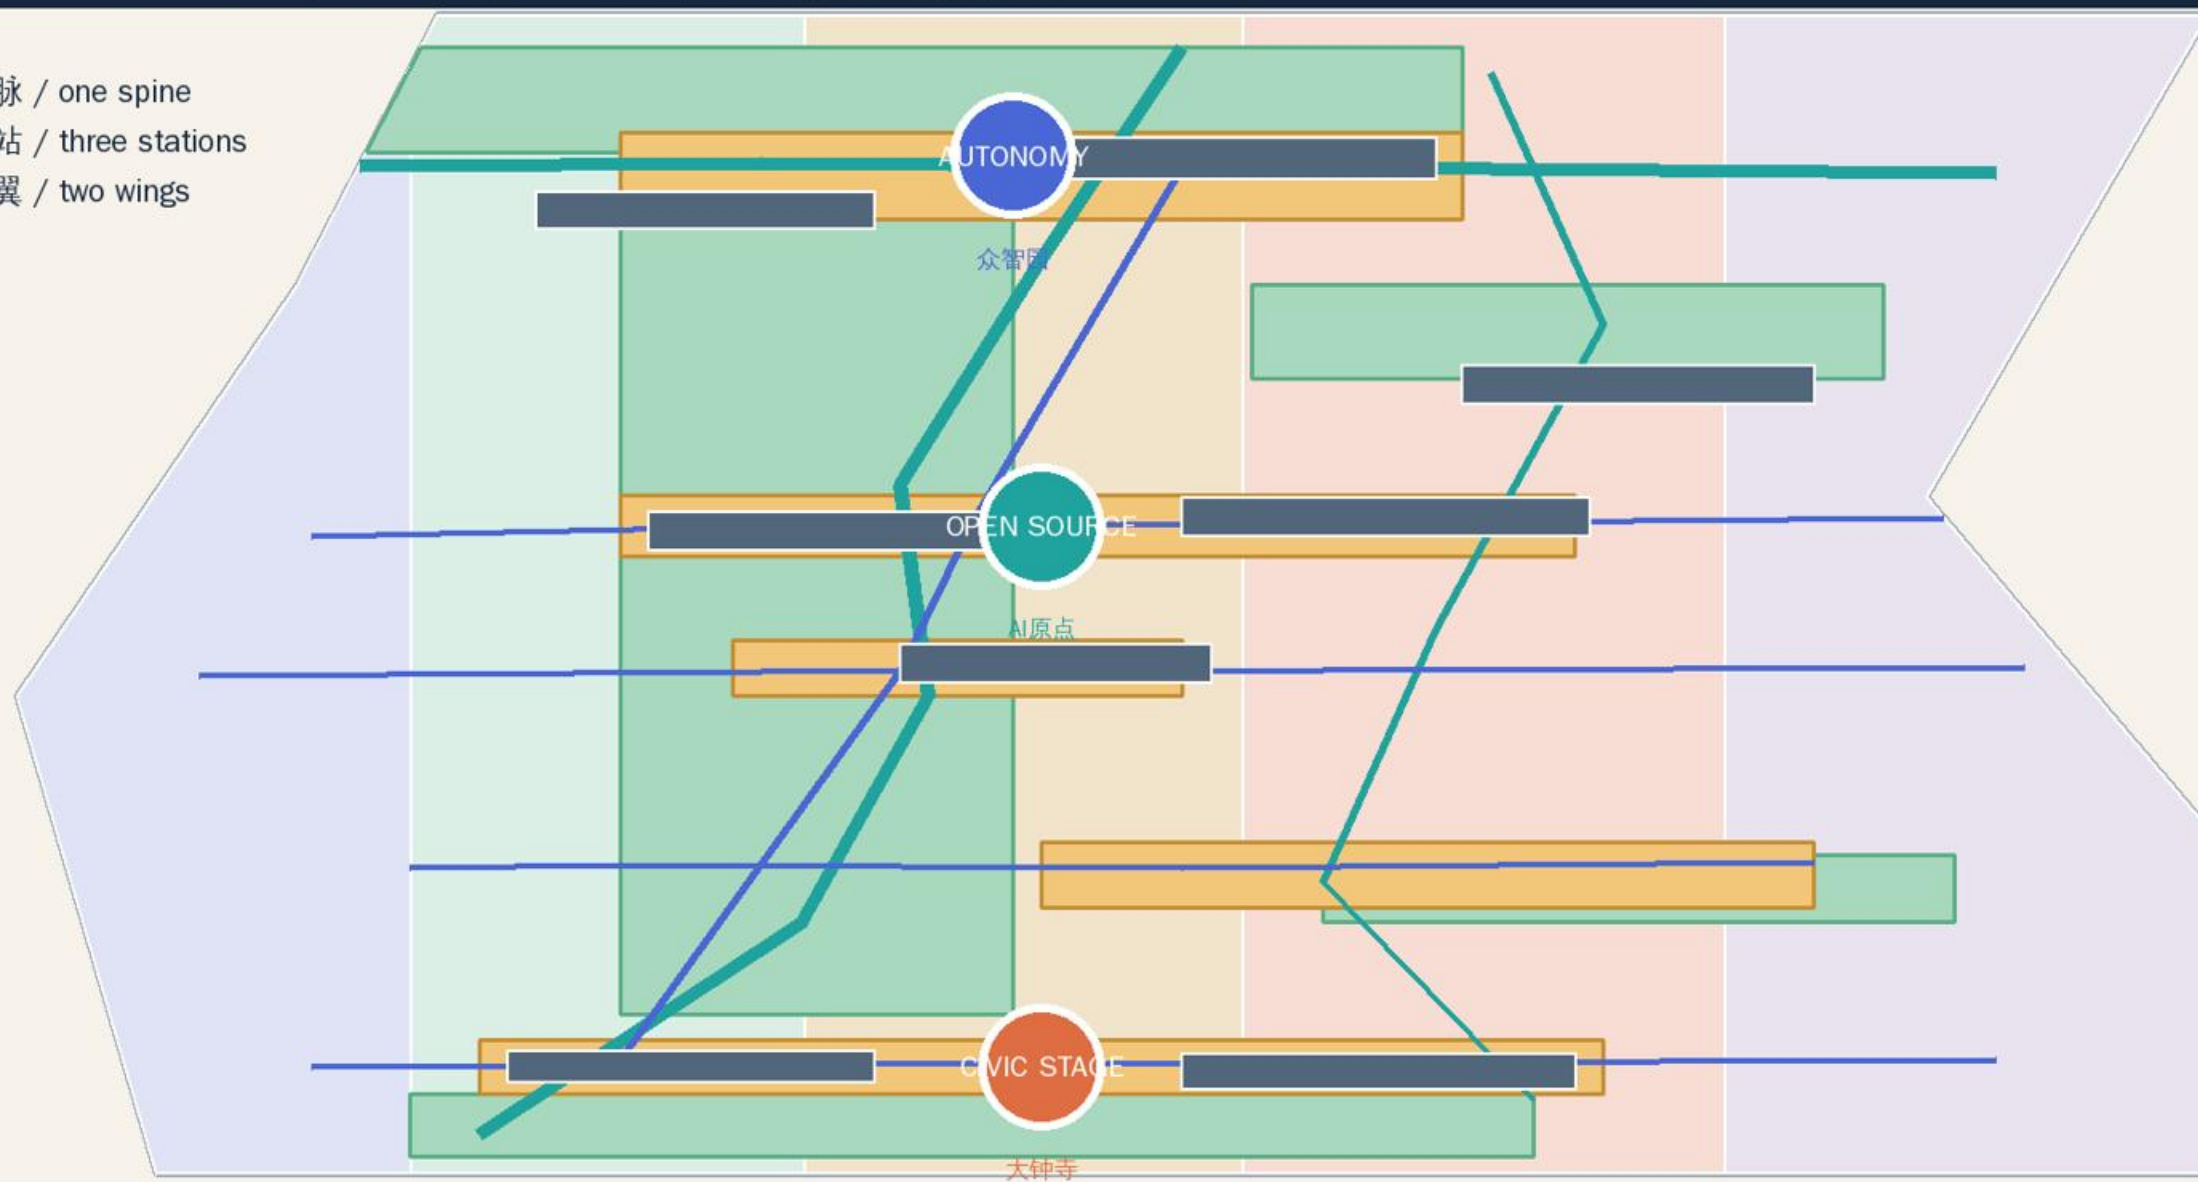

AI agent: OpenCode / GPT-5.6 Luna · Dytchem · 2026-08-10

Provisional intake package; not a statutory plan, approval, or professional sign-off.

TURNBACK COMMONS / 京张折返共生线

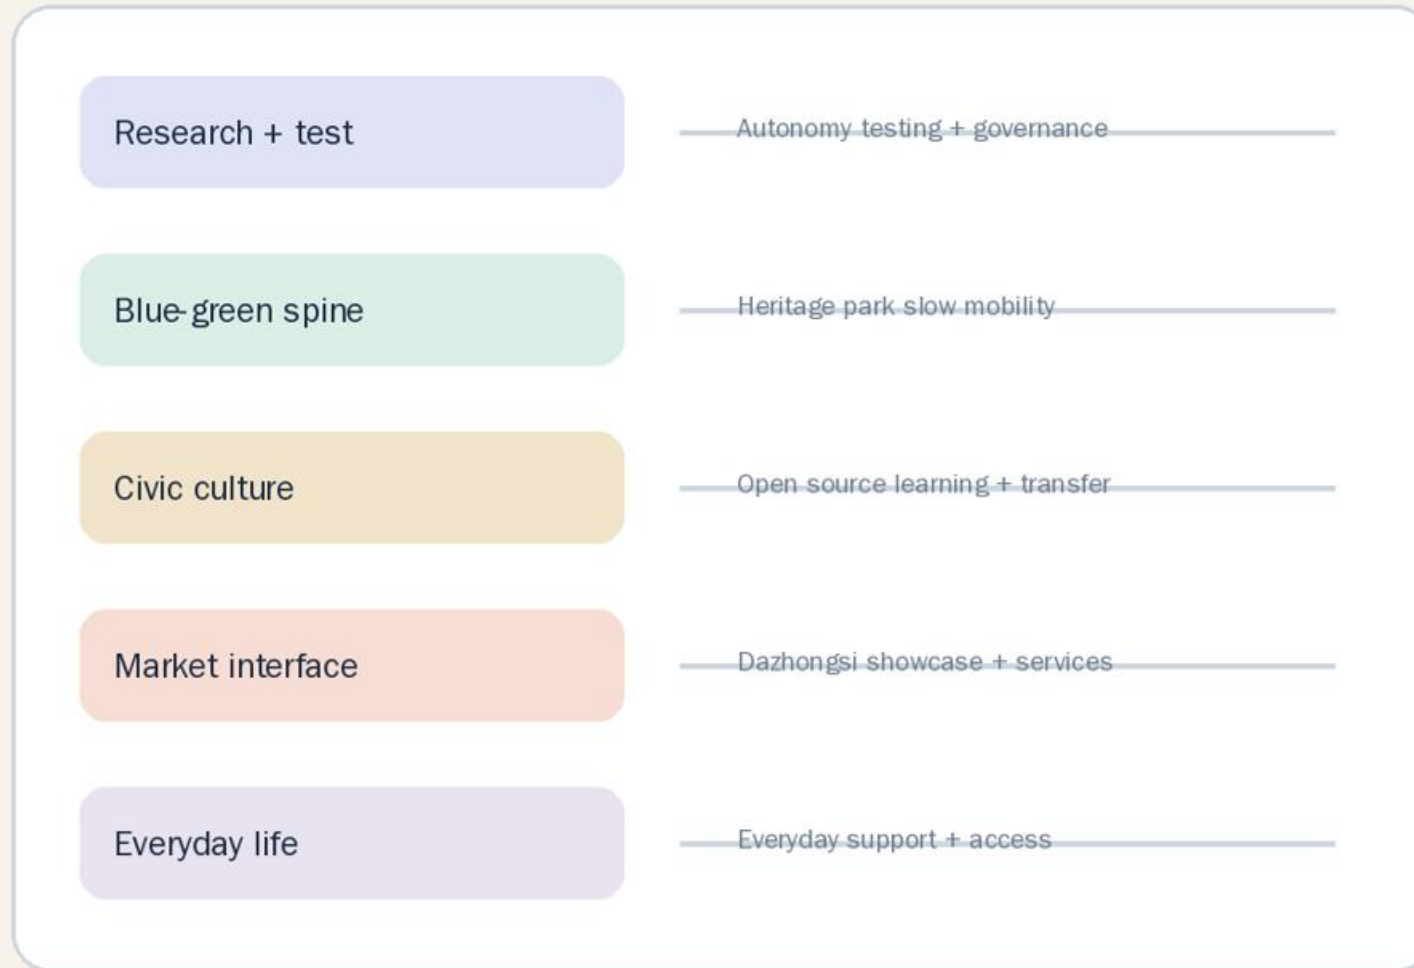

A reversible civic innovation spine connecting three stations, two wings, and everyday life

一脉 / one spine
三站 / three stations
两翼 / two wings

Spatial structure: land use as a reversible service chain

Zones are not approved controls; they connect research, public space, culture, services, and life

Three-level transfer

- 1 战略
43.6 km²
ecosystem
- 2 总体
11.4 km²
urban renewal
- 3 重点
368.4 ha
three stations

space → scenario → operation → review

Three stations: one spine, differentiated public value

Provisional key-area geometry only; Dazhongsi location awaits official anchoring

1

AUTONOMY

众智园

概念建议 / concept only

full-stack test + governance

test yard, Qinghe edge, standards

space

scenario

operation

2

OPEN SOURCE

AI原点

概念建议 / concept only

near-campus transfer

open release, talent, learning

space

scenario

operation

3

CIVIC STAGE

大钟寺

概念建议 / concept only

urban AI exchange

civic proof, market, global pitch

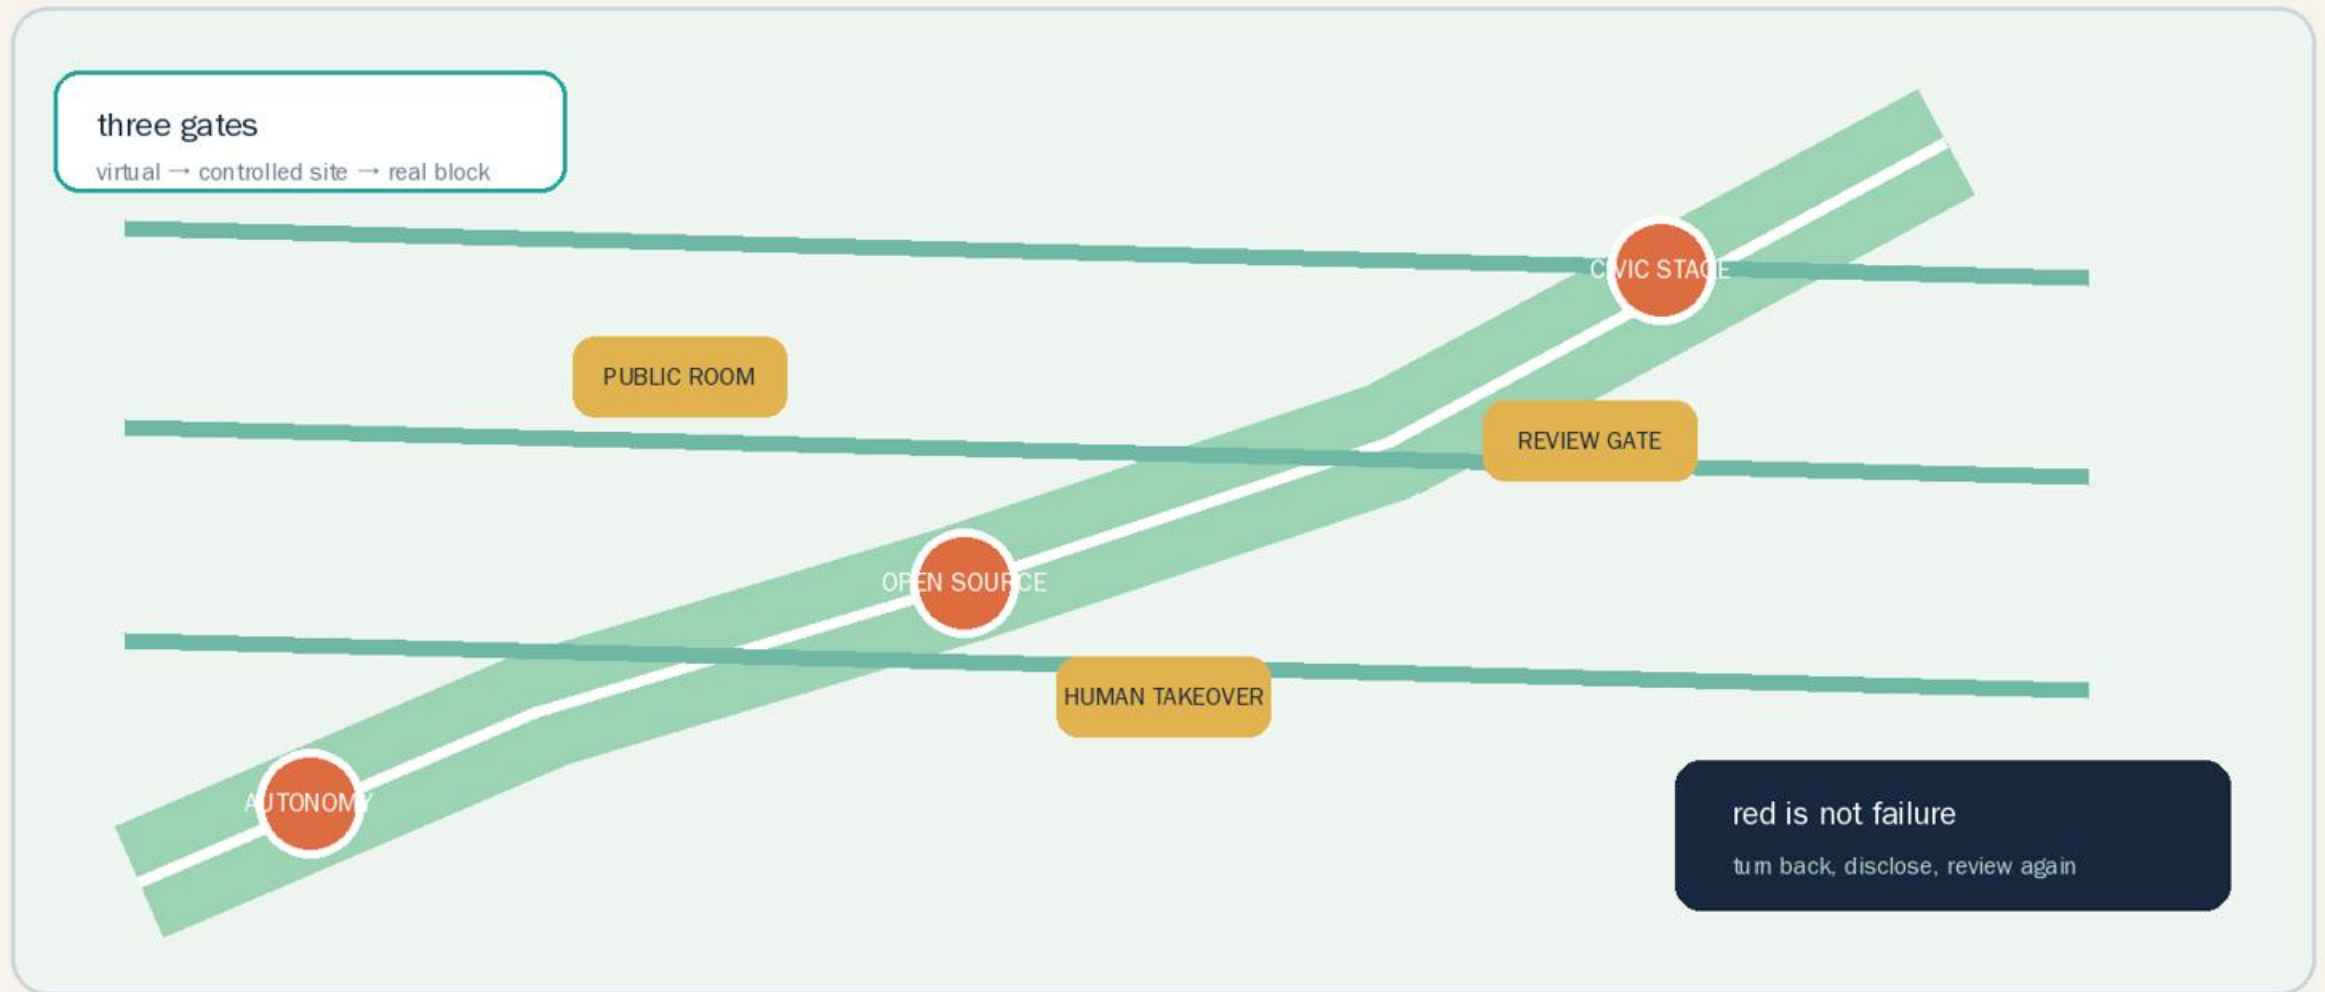

space

scenario

operation

Mobility + blue-green public space: reverse instead of one-way deployment

A walkable, human-takeover-ready network of spine, cross-links, station interfaces, and public rooms

Evidence chain: known, proposed, and still missing

Structured data first; every provisional and unknown condition remains visible

11.41M m²

provisional geometry
