

Jingzhang Zhimai · AI Innovation Belt — Site Overview

One spine, three areas, two wings

Zhongzhiyuan
Shenji Wing
Tesheng Wing

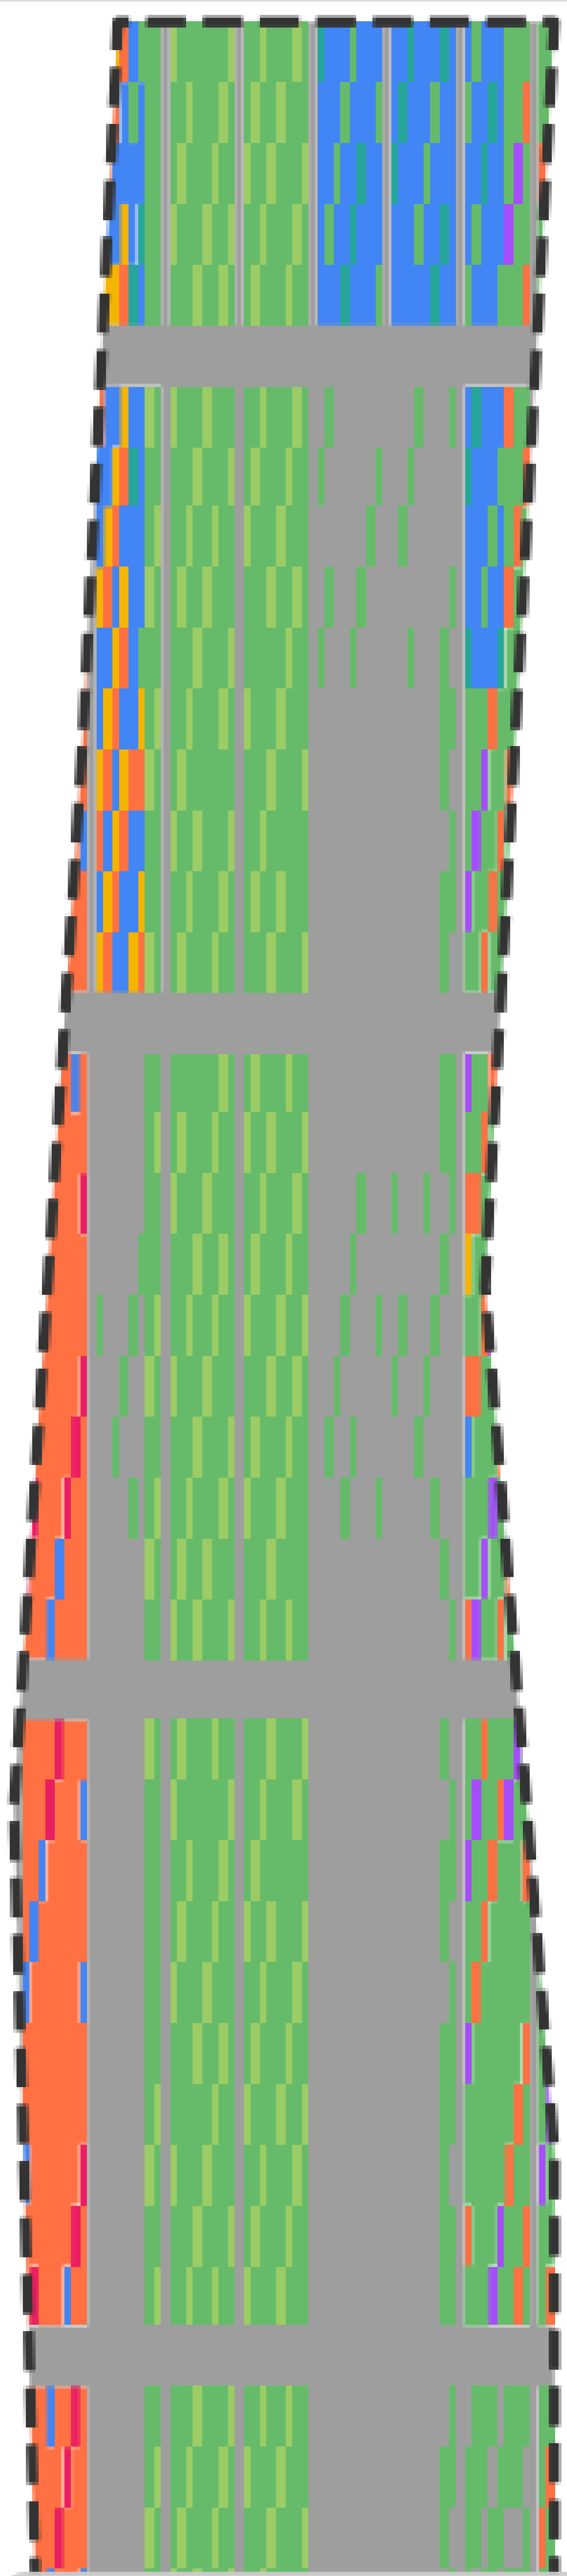

1. Zhongzhiyuan AI Acceleration Area (192.1 ha)
2. Beijing AI Origin Community (104.3 ha)
3. Dazhongsi AI Industry Cluster (72.0 ha)

- Site boundary (provisional)
- Zhimai green spine

Provisional geometry — not official redline

Land-Use Structure (conceptual partition)

Full-coverage partition, no gaps/overlaps

Land-use code

05	0806
0701	1207
08	1401
0802	1403
0803	16
0804	

Provisional geometry – not official redline

Three Key Areas — Detailed Design Tasks

North→South: accelerate / originate / cluster

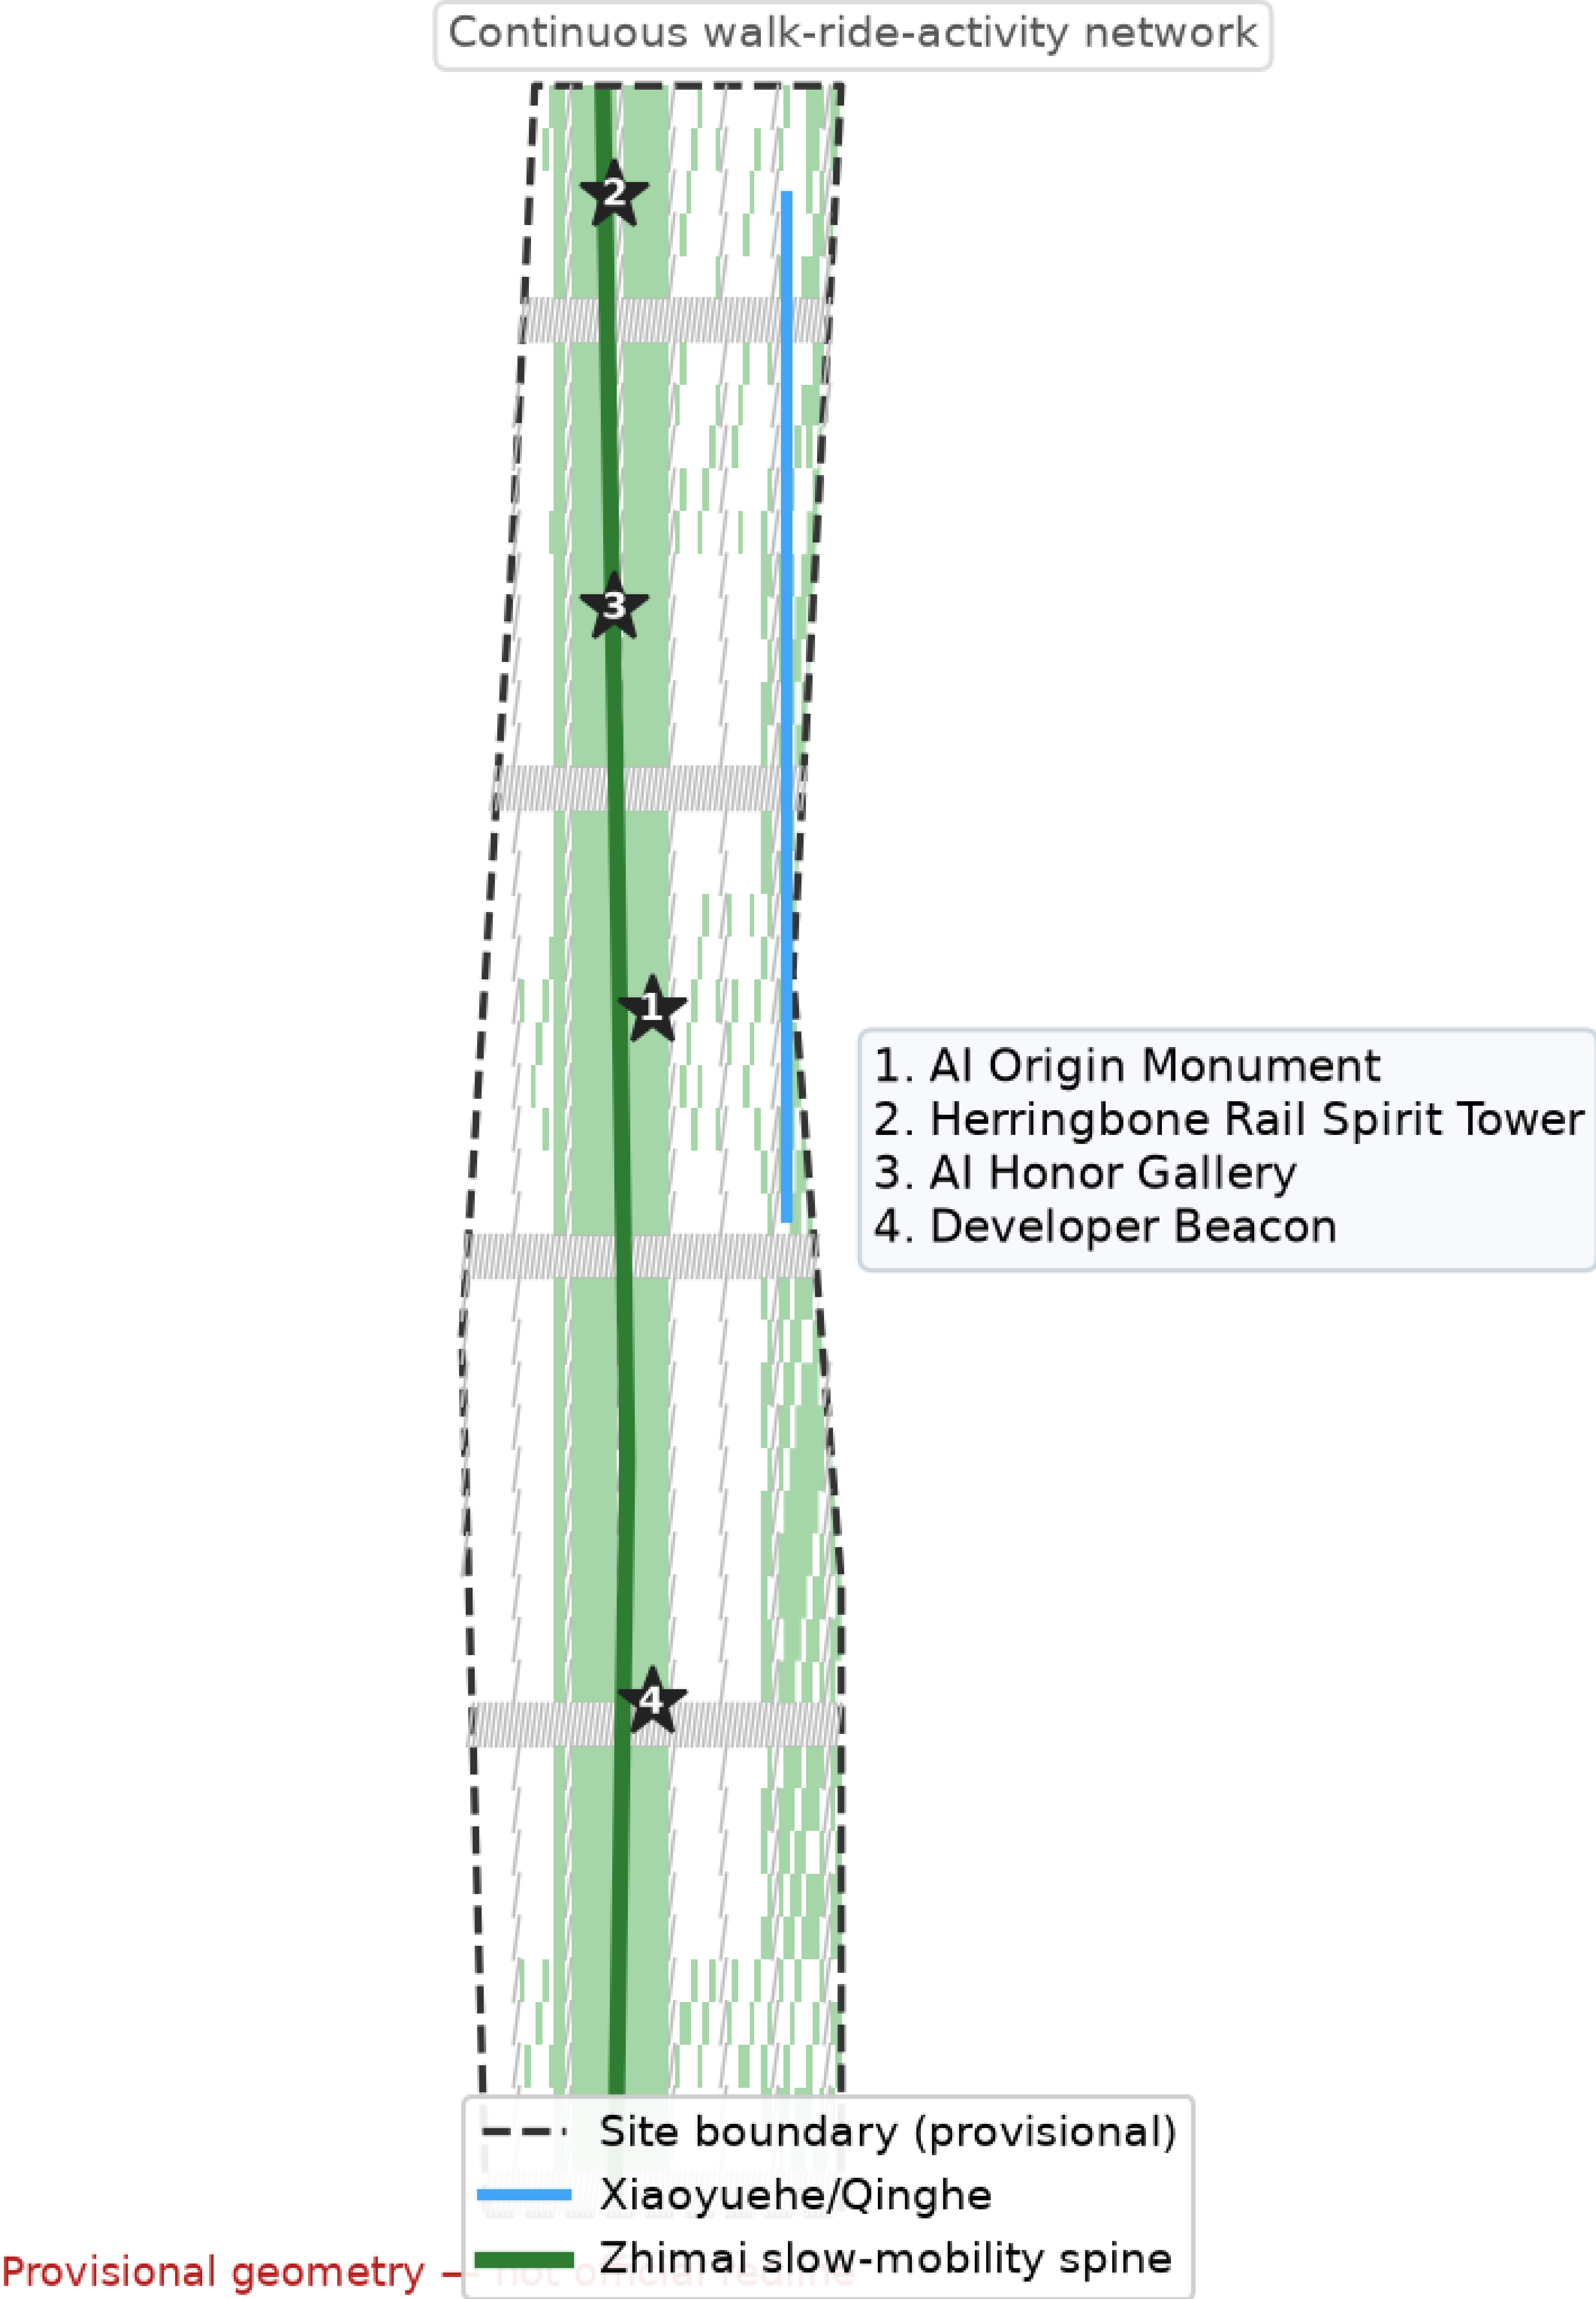

Three key areas & detailed design tasks

Provisional geometry — directional only

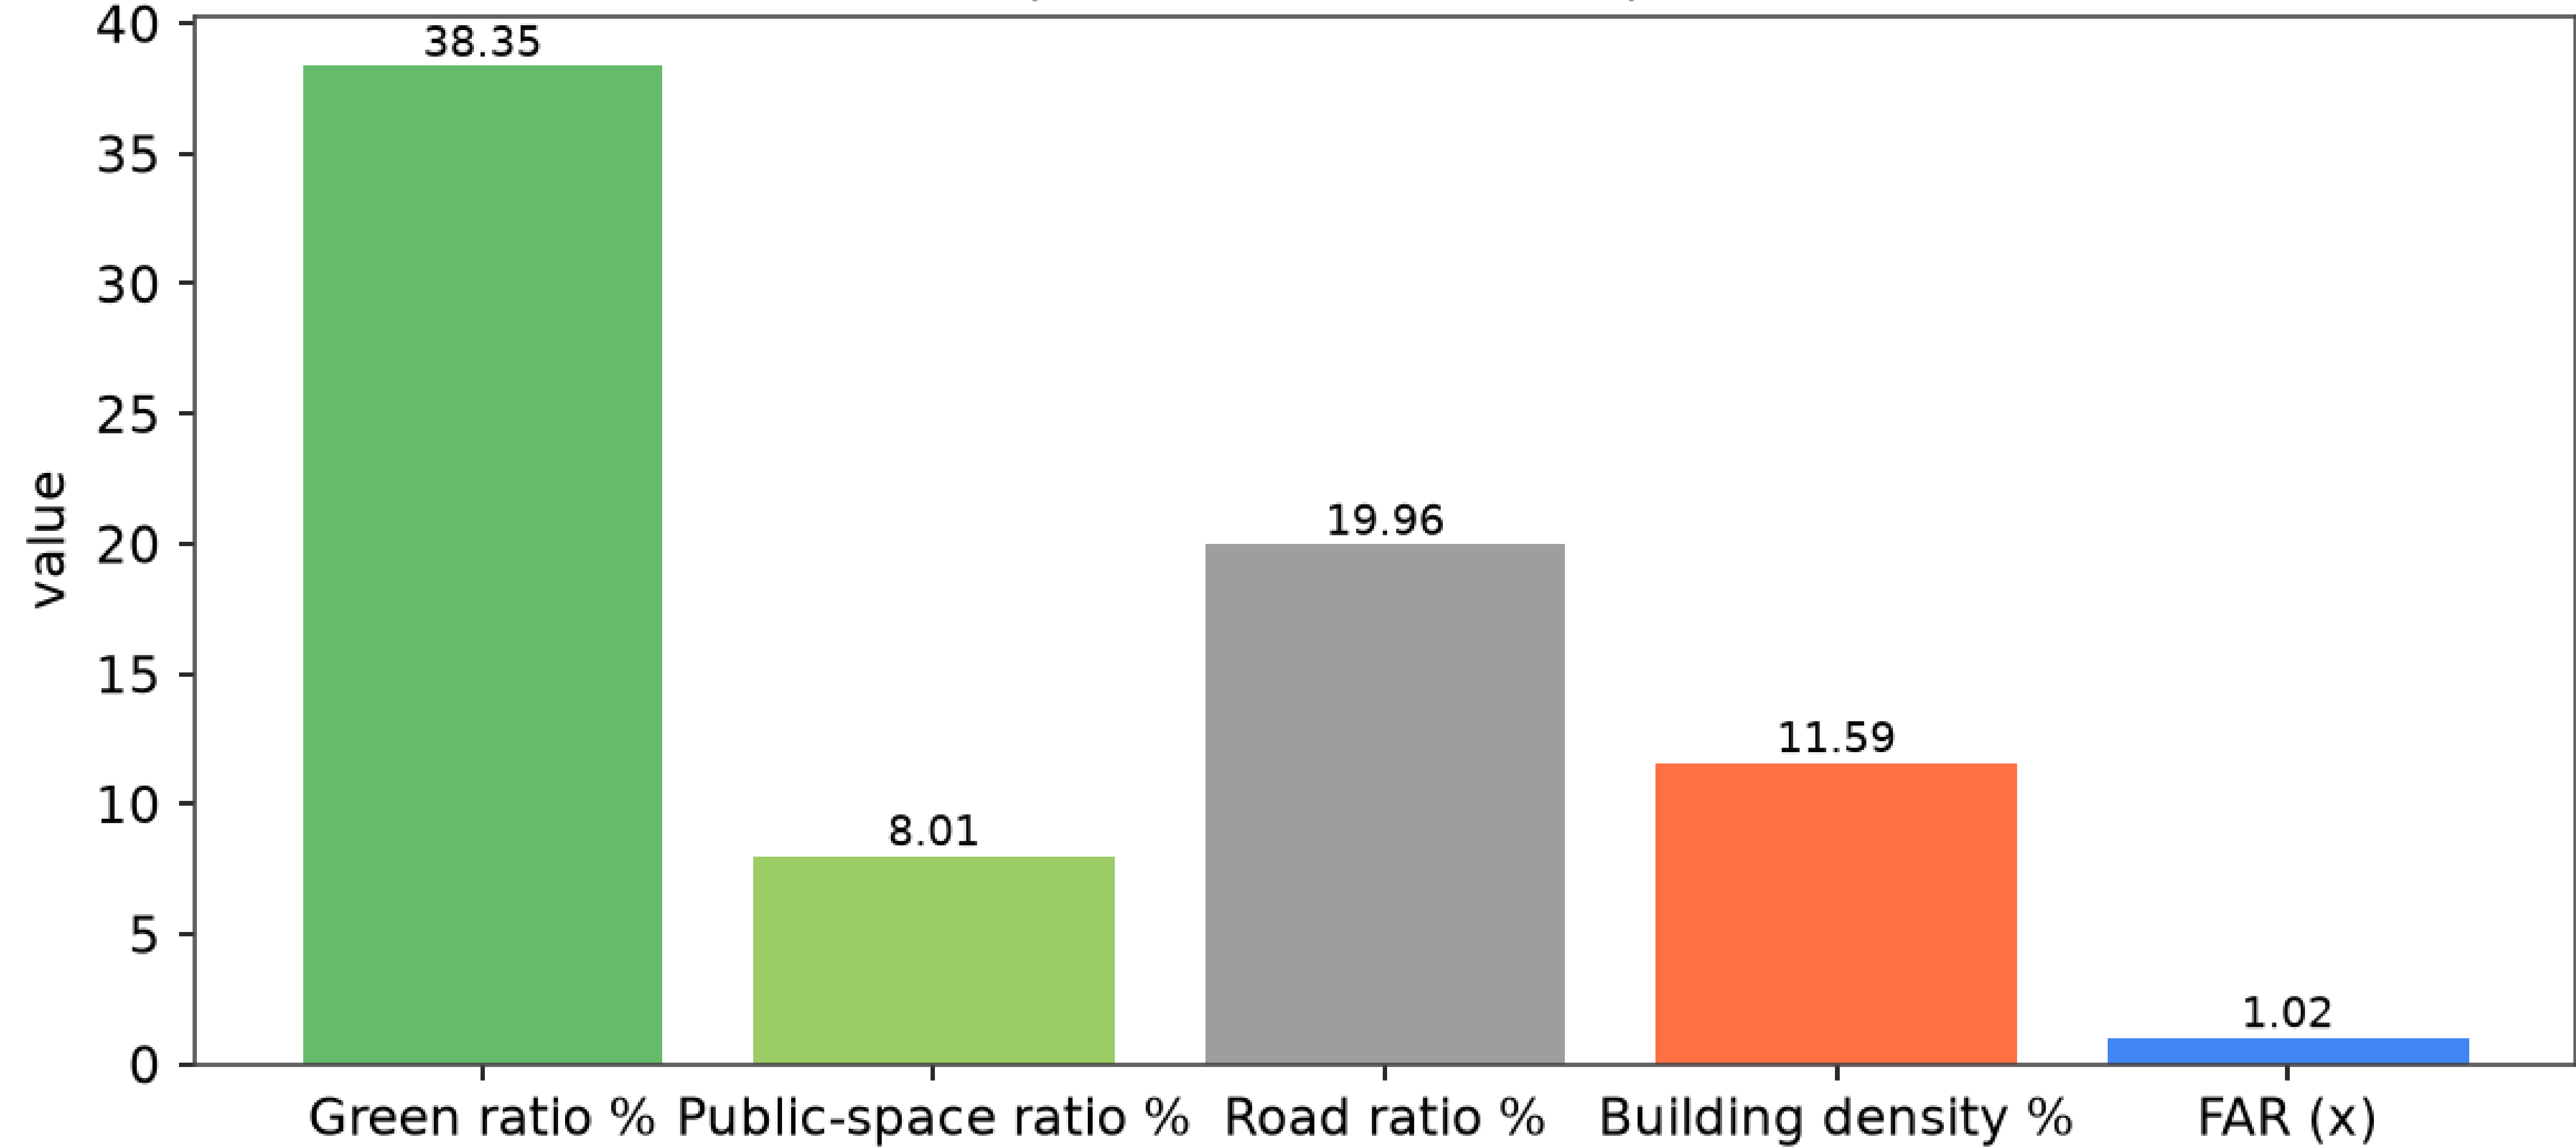

1. Zhongzhiyuan AI Acceleration Area (192.1 ha)
Full-stack autonomy
Open-innovation core
Compute commons
2. Beijing AI Origin Community (104.3 ha)
AI Origin Plaza
15-min living circle
Talent community
3. Dazhongsi AI Industry Cluster (72.0 ha)
AI-native firms
Unmanned-retail test
Temple-front plaza

Mobility & Blue-Green Composite System

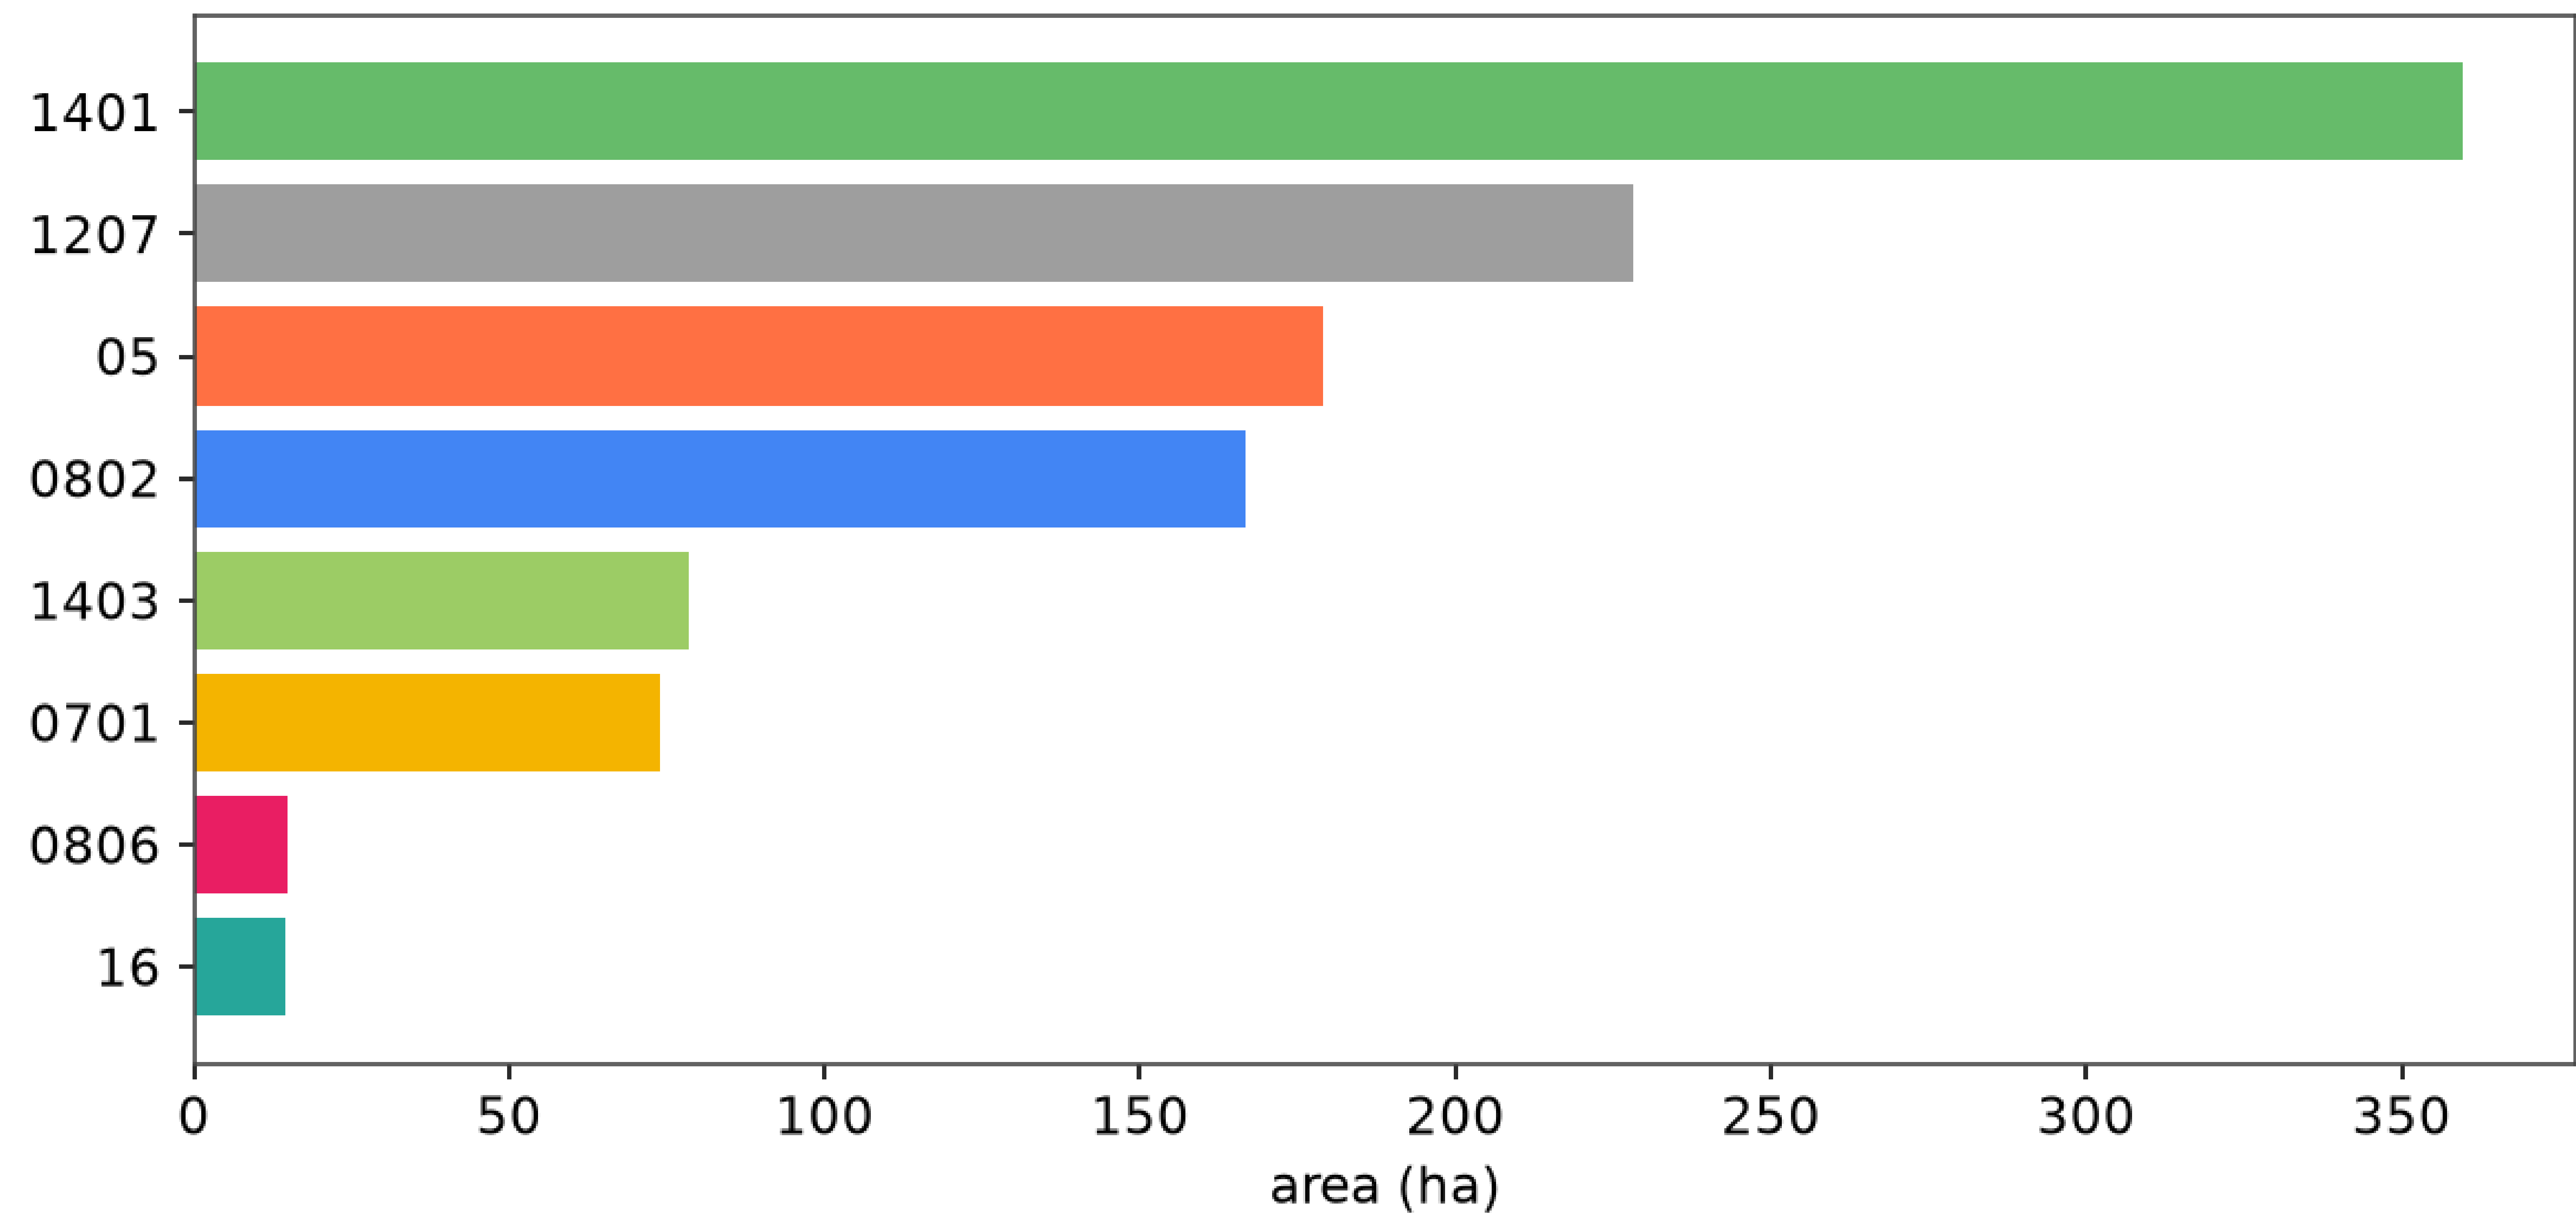

Core Indicators — Recomputation & Evidence Chain

Spatial indicators (conceptual)

Top land-use codes (ha)

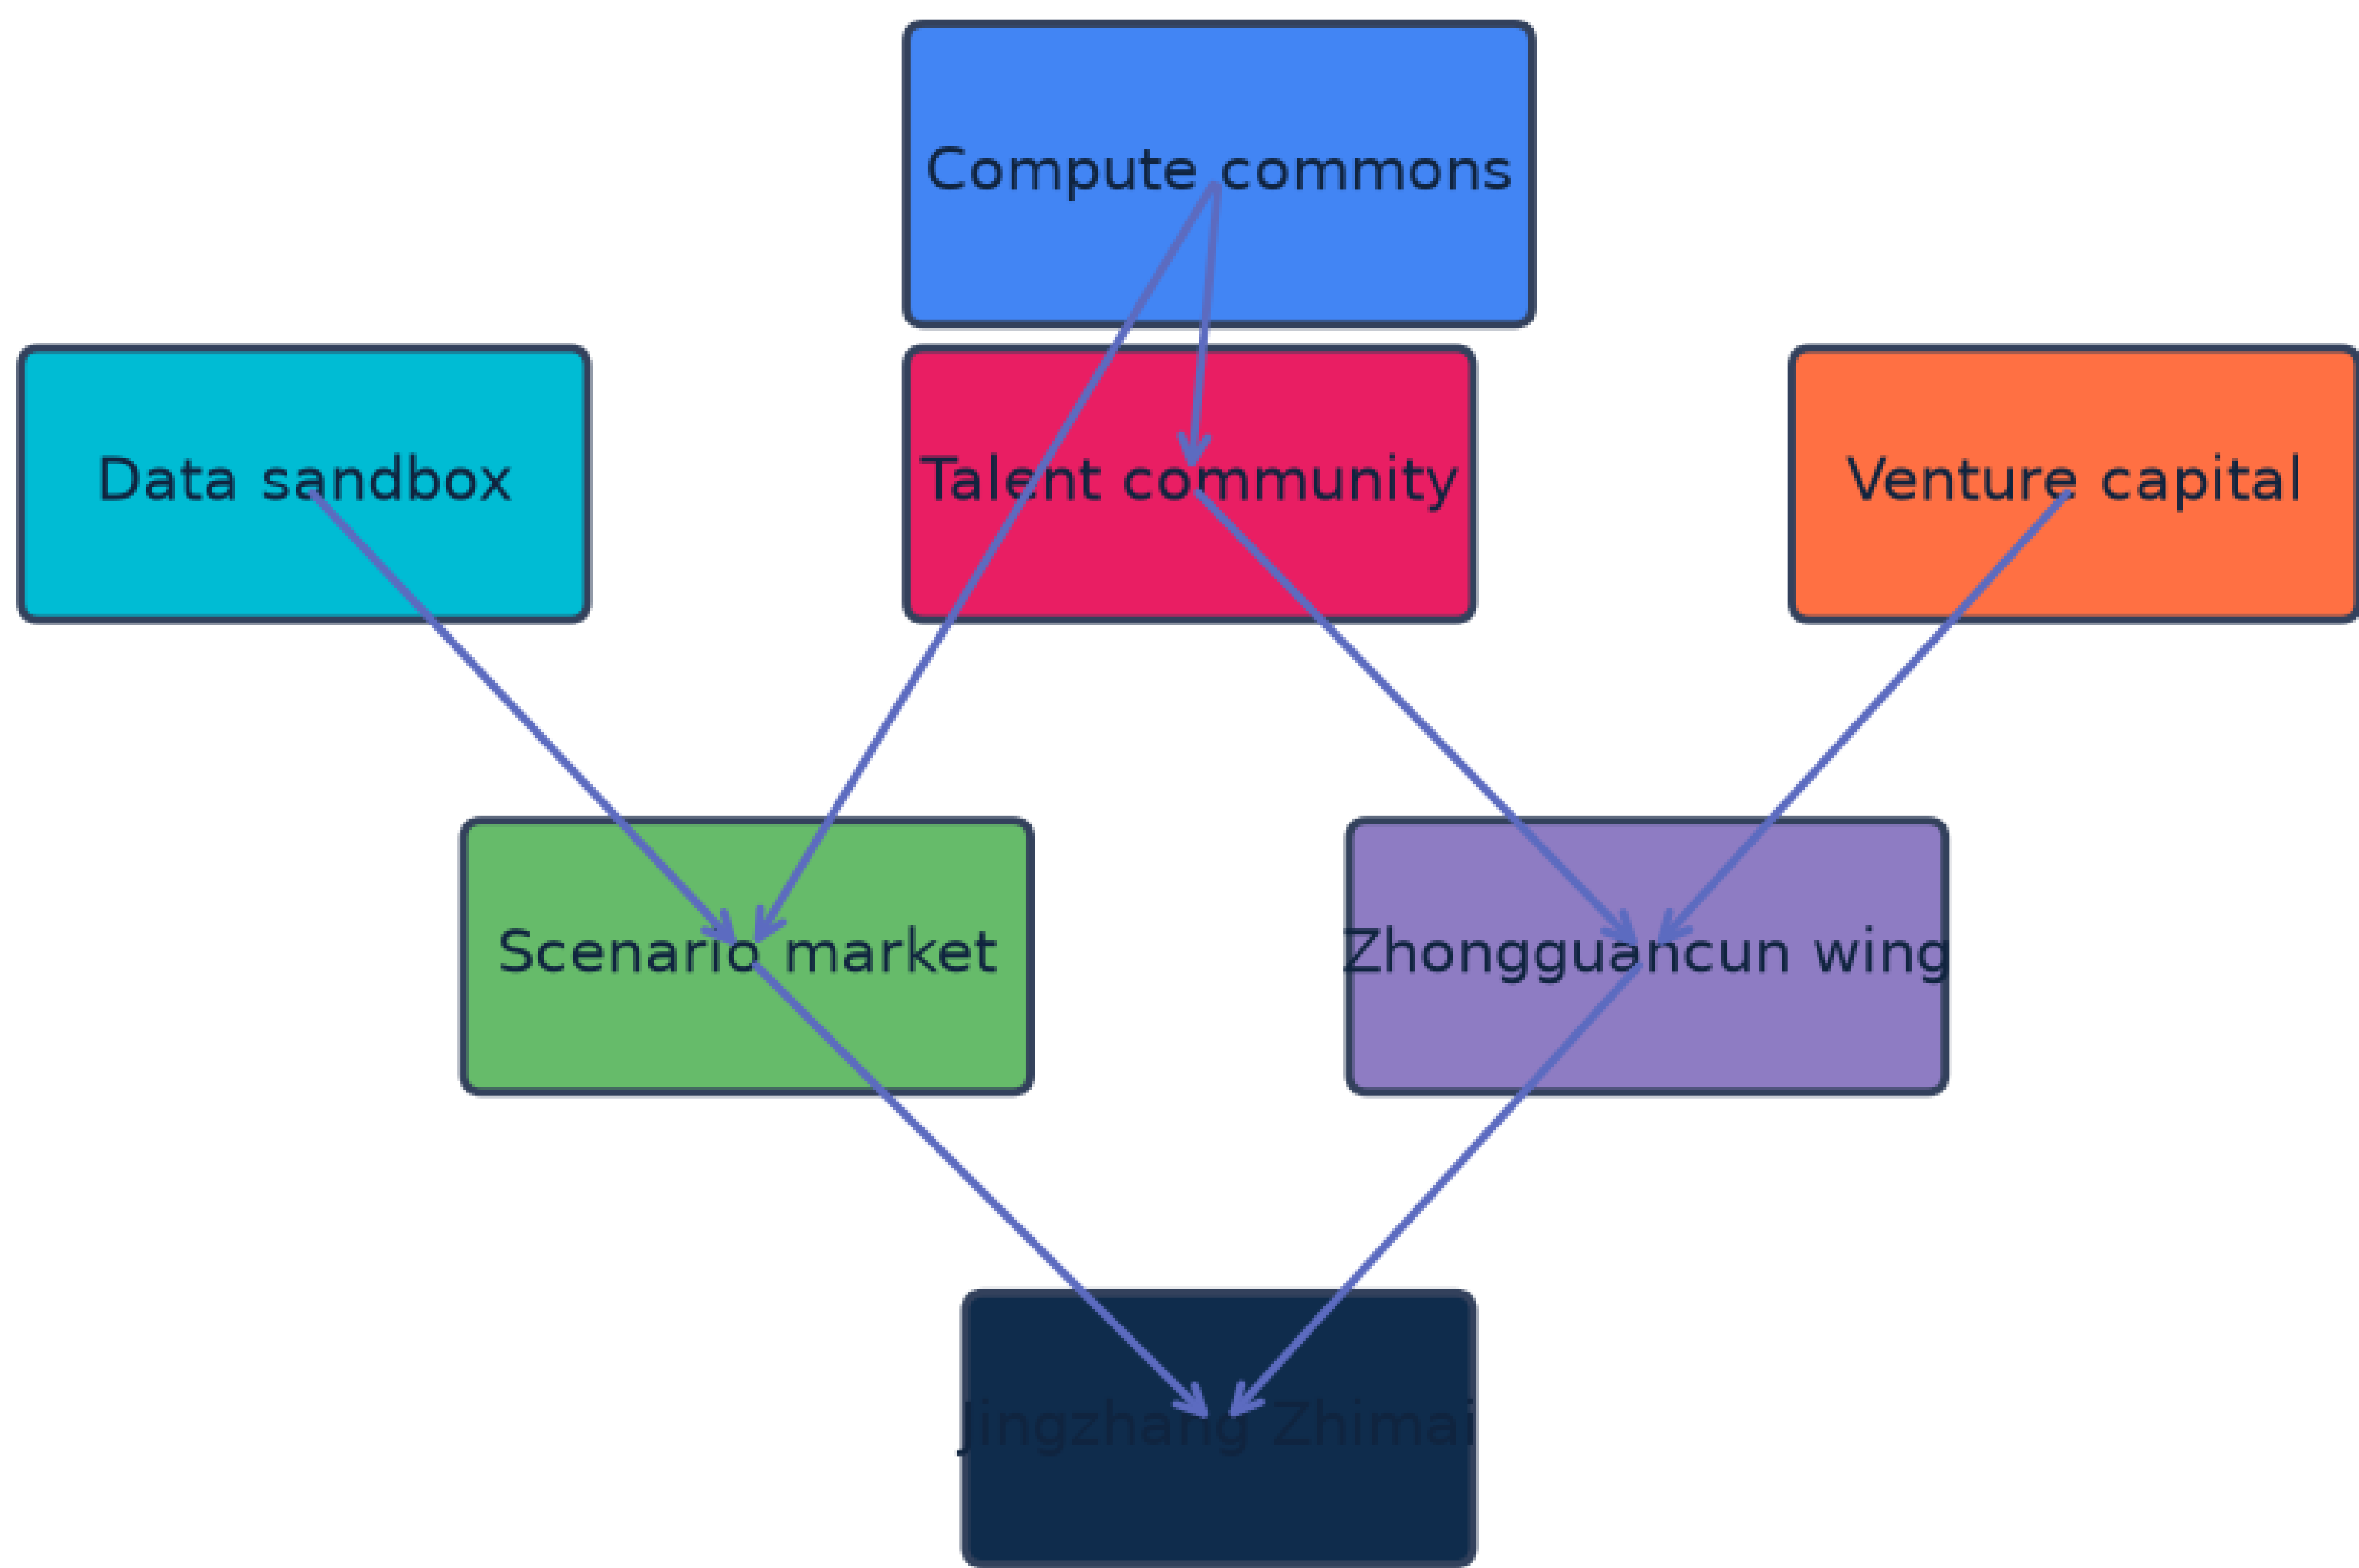

Values recomputed from geometry/land_use.geojson under local metric projection (EPSG:4548 approx). Provisional boundary.

12 AI Scenario Cards

1. Smart commute AI adaptive signals + walk navigation, 15-min walking time	2. Accessible mobility Tactile/ramp/braille audio guidance, age-friendly first	3. AI elder station Facial-inference health alert, human-in-the-loop
4. AI edu lab Open-model training, youth AI literacy	5. Community health Anonymous vitals, on-device privacy	6. Transit synergy Rail-walk-autonomous connecting
7. Public safety Video event detection, no personal ID	8. Developer co-space Compute commons + OSS incubation	9. AI-native retail Unmanned retail / instant delivery test
10. Heritage narrative Herringbone railway AR guide	11. Green energy PV-storage-microgrid optimization	12. Data sandbox Anonymized authorized experiment env

AI Full-Stack Autonomous Innovation Ecosystem

Six safeguards + Zhongguancun tech-service wing

Conceptual ecosystem — deepen with official data

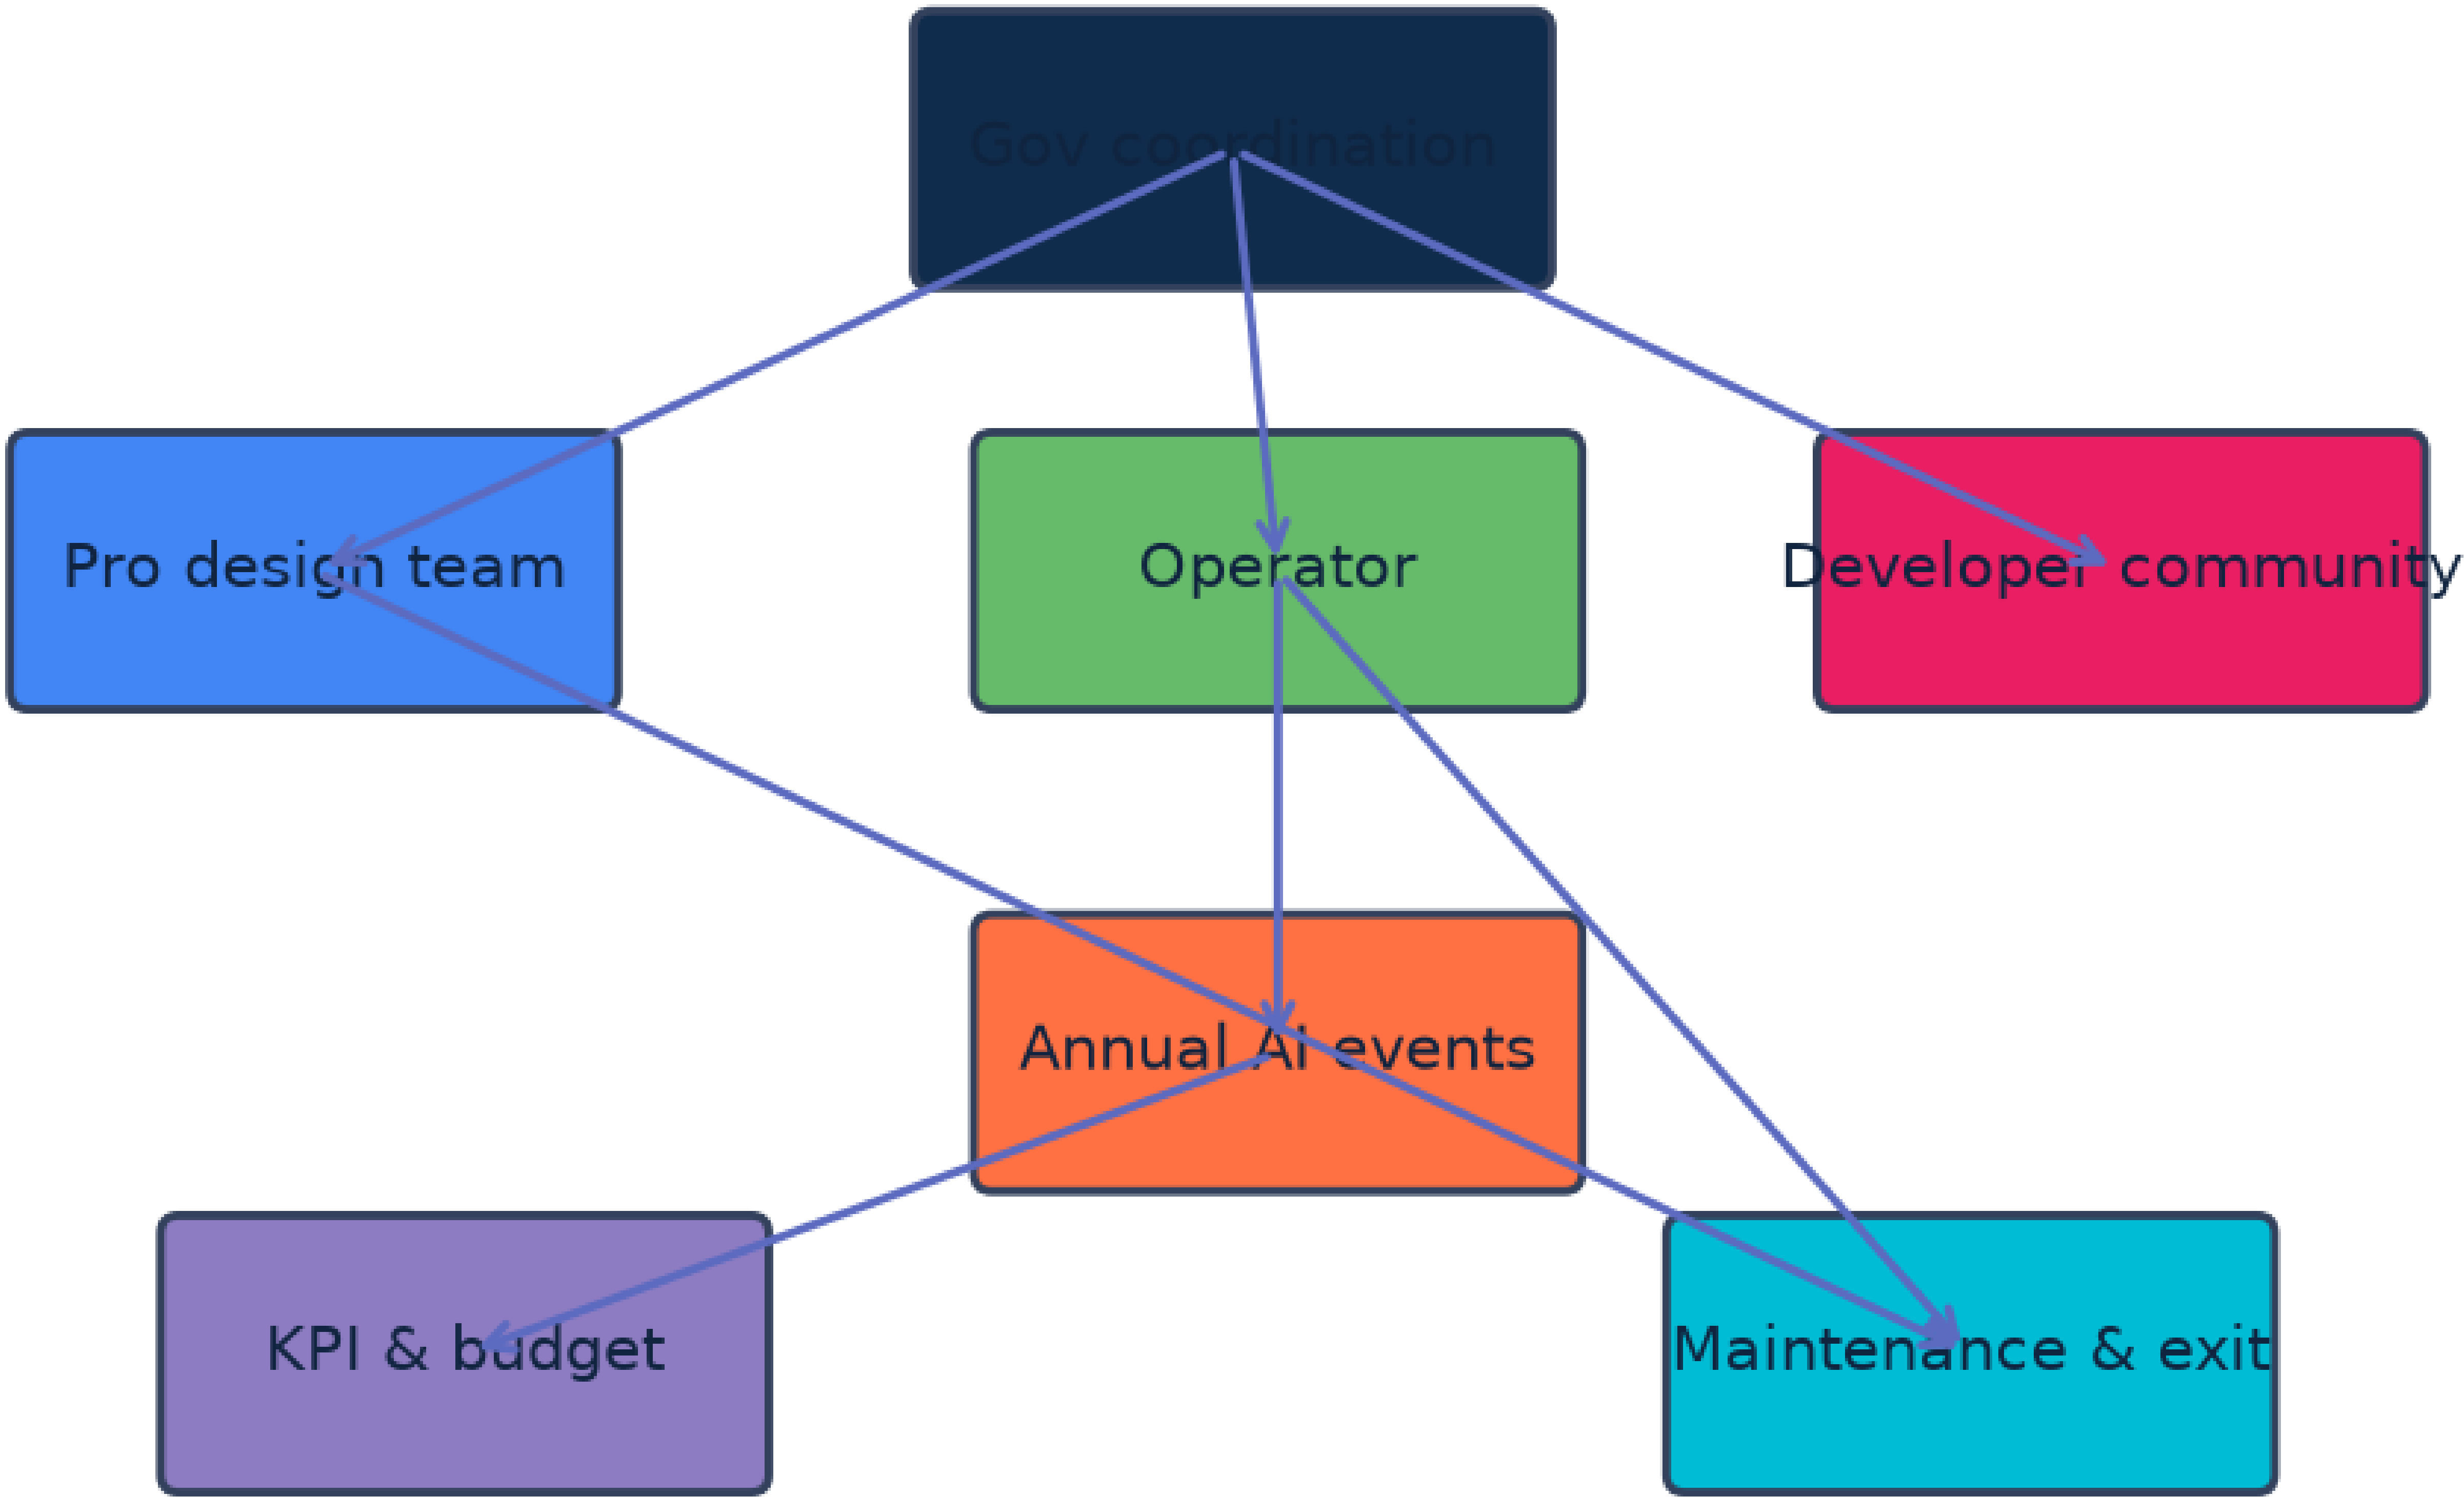

AI full-stack autonomous innovation ecosystem

AI Public-Space Component Library

1 Smart bench	2 Free WiFi	3 Env sensor	4 Vitality plaza
5 Shade pergola	6 Rain garden	7 AI guide screen	8 Accessible ramp
9 Shared charge	10 Night lighting	11 Community garden	12 Jogging track

Long-Term Operation Governance

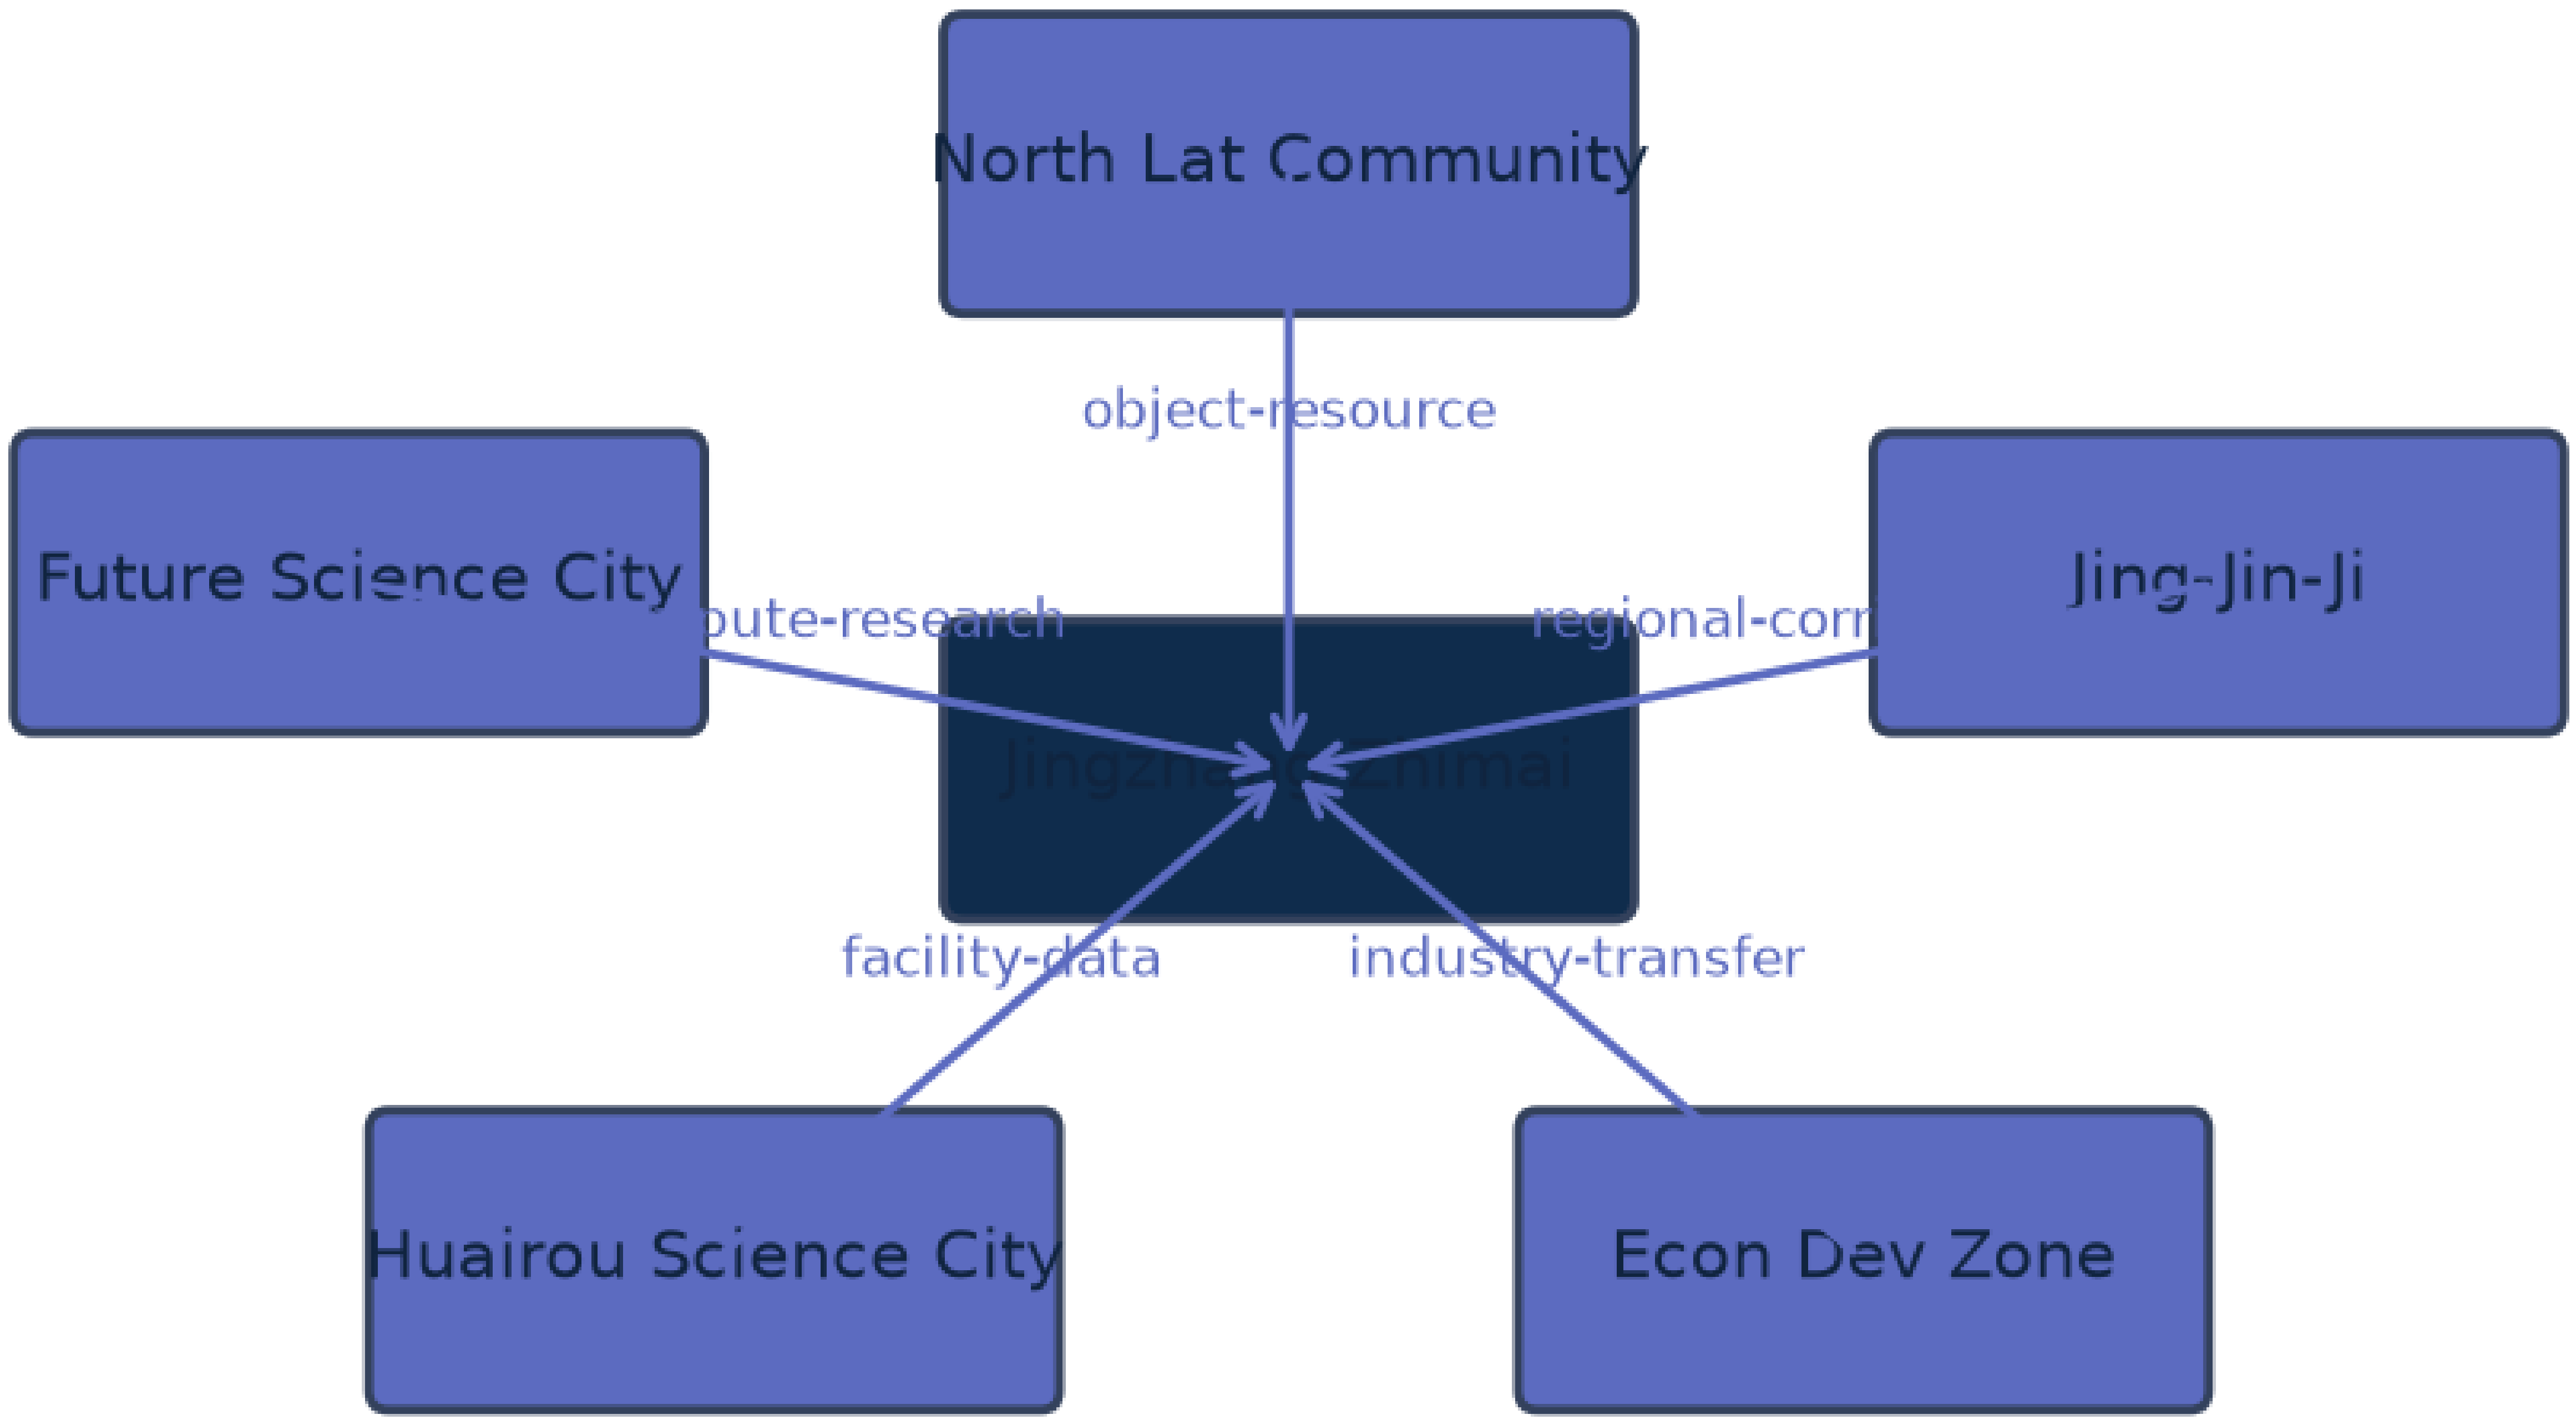

Gov platform + pro team + operator

Governance sketch — mechanisms TBD

Cross-Region Synergy

Jingzhang Zhimai x northern innovation network

Conceptual interface — needs traceable evidence
