

01 THREE NODES AND FIVE CAPABILITIES

Zhongzhiyuan R&D validation, AI Origin reproducibility and shared pilot production, and Dazhongsi market and first-order validation connect along an evidence corridor. Facility cards, accountability, and compliance precede expansion.

FIVE ACCOUNTABLE ROLES · asset steward · platform operator · licensed food operator · research/evaluation · statutory/professional reviewer

JINGZHANG COMMON TABLE | RESEARCH TO PILOT TO FIRST ORDER

Five capabilities are not five buildings · the continuous park is a public evidence interface · north points right

THREE NODES · FIVE CAPABILITIES

R&D + PILOT → LICENSED SHARED PRODUCTION →
MARKET + LOGISTICS → PRODUCTIVE LANDSCAPE →
MATERIAL/PERMIT INTERFACE

Public front open; controlled back accountable.
Stop when evidence fails.

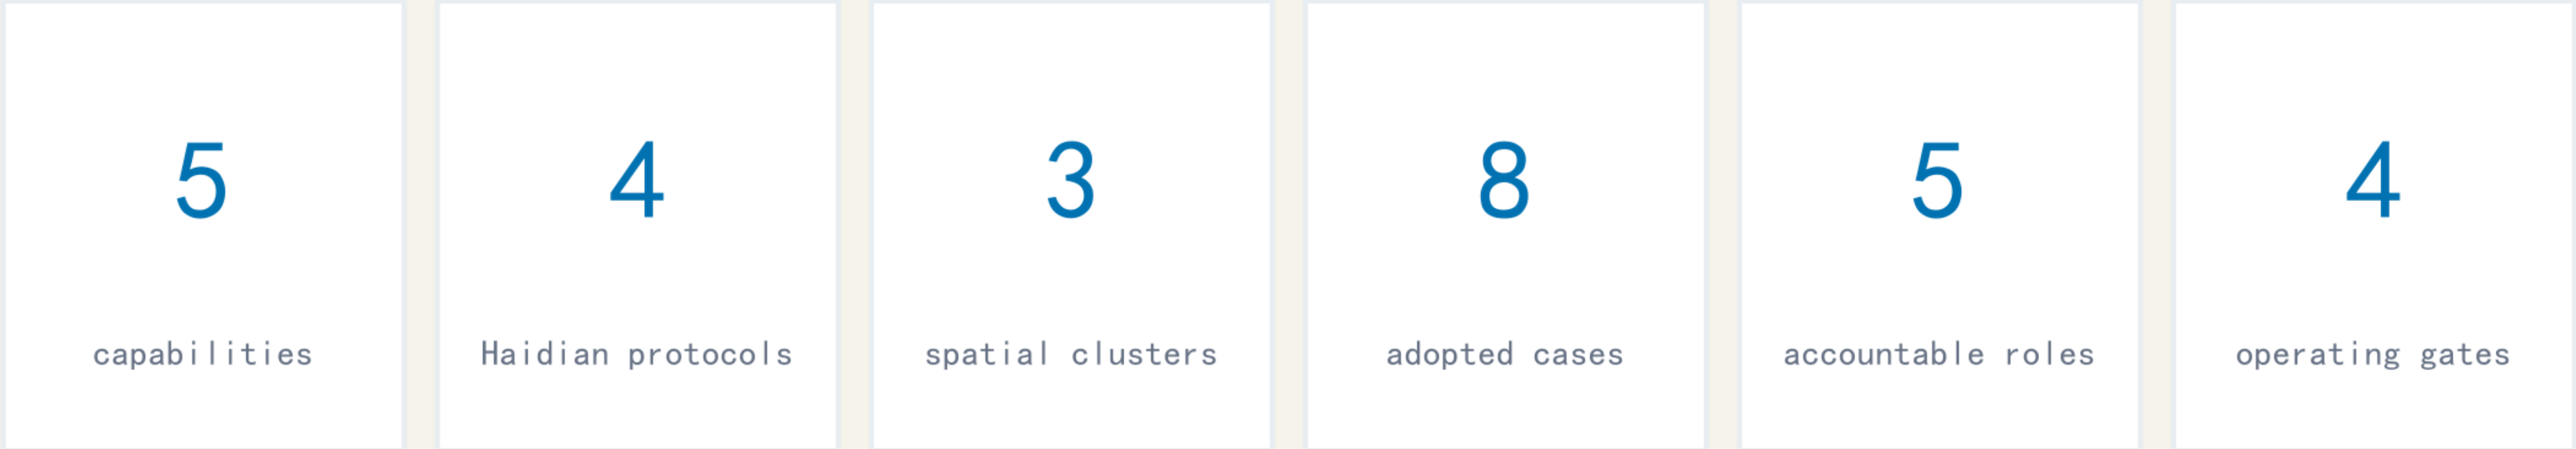

EVIDENCE CORRIDOR · FOUR GATES

0 - 90 DAYS EVIDENCE + ROLES → 90 - 180
REVERSIBLE PILOT → 180 - 365 MARKET/FIRST
ORDER → SCALE ONLY WITH VERIFIED EVIDENCE

Public front open; controlled back accountable.
Stop when evidence fails.

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

CAPABILITY · ACCOUNTABILITY · EVIDENCE GATES

EIGHT-FIELD FACILITY CARD

capability → hygiene class → minimum batch
booking/cost → accountable operator → IP/data Public-space ratio
residual route → stop condition

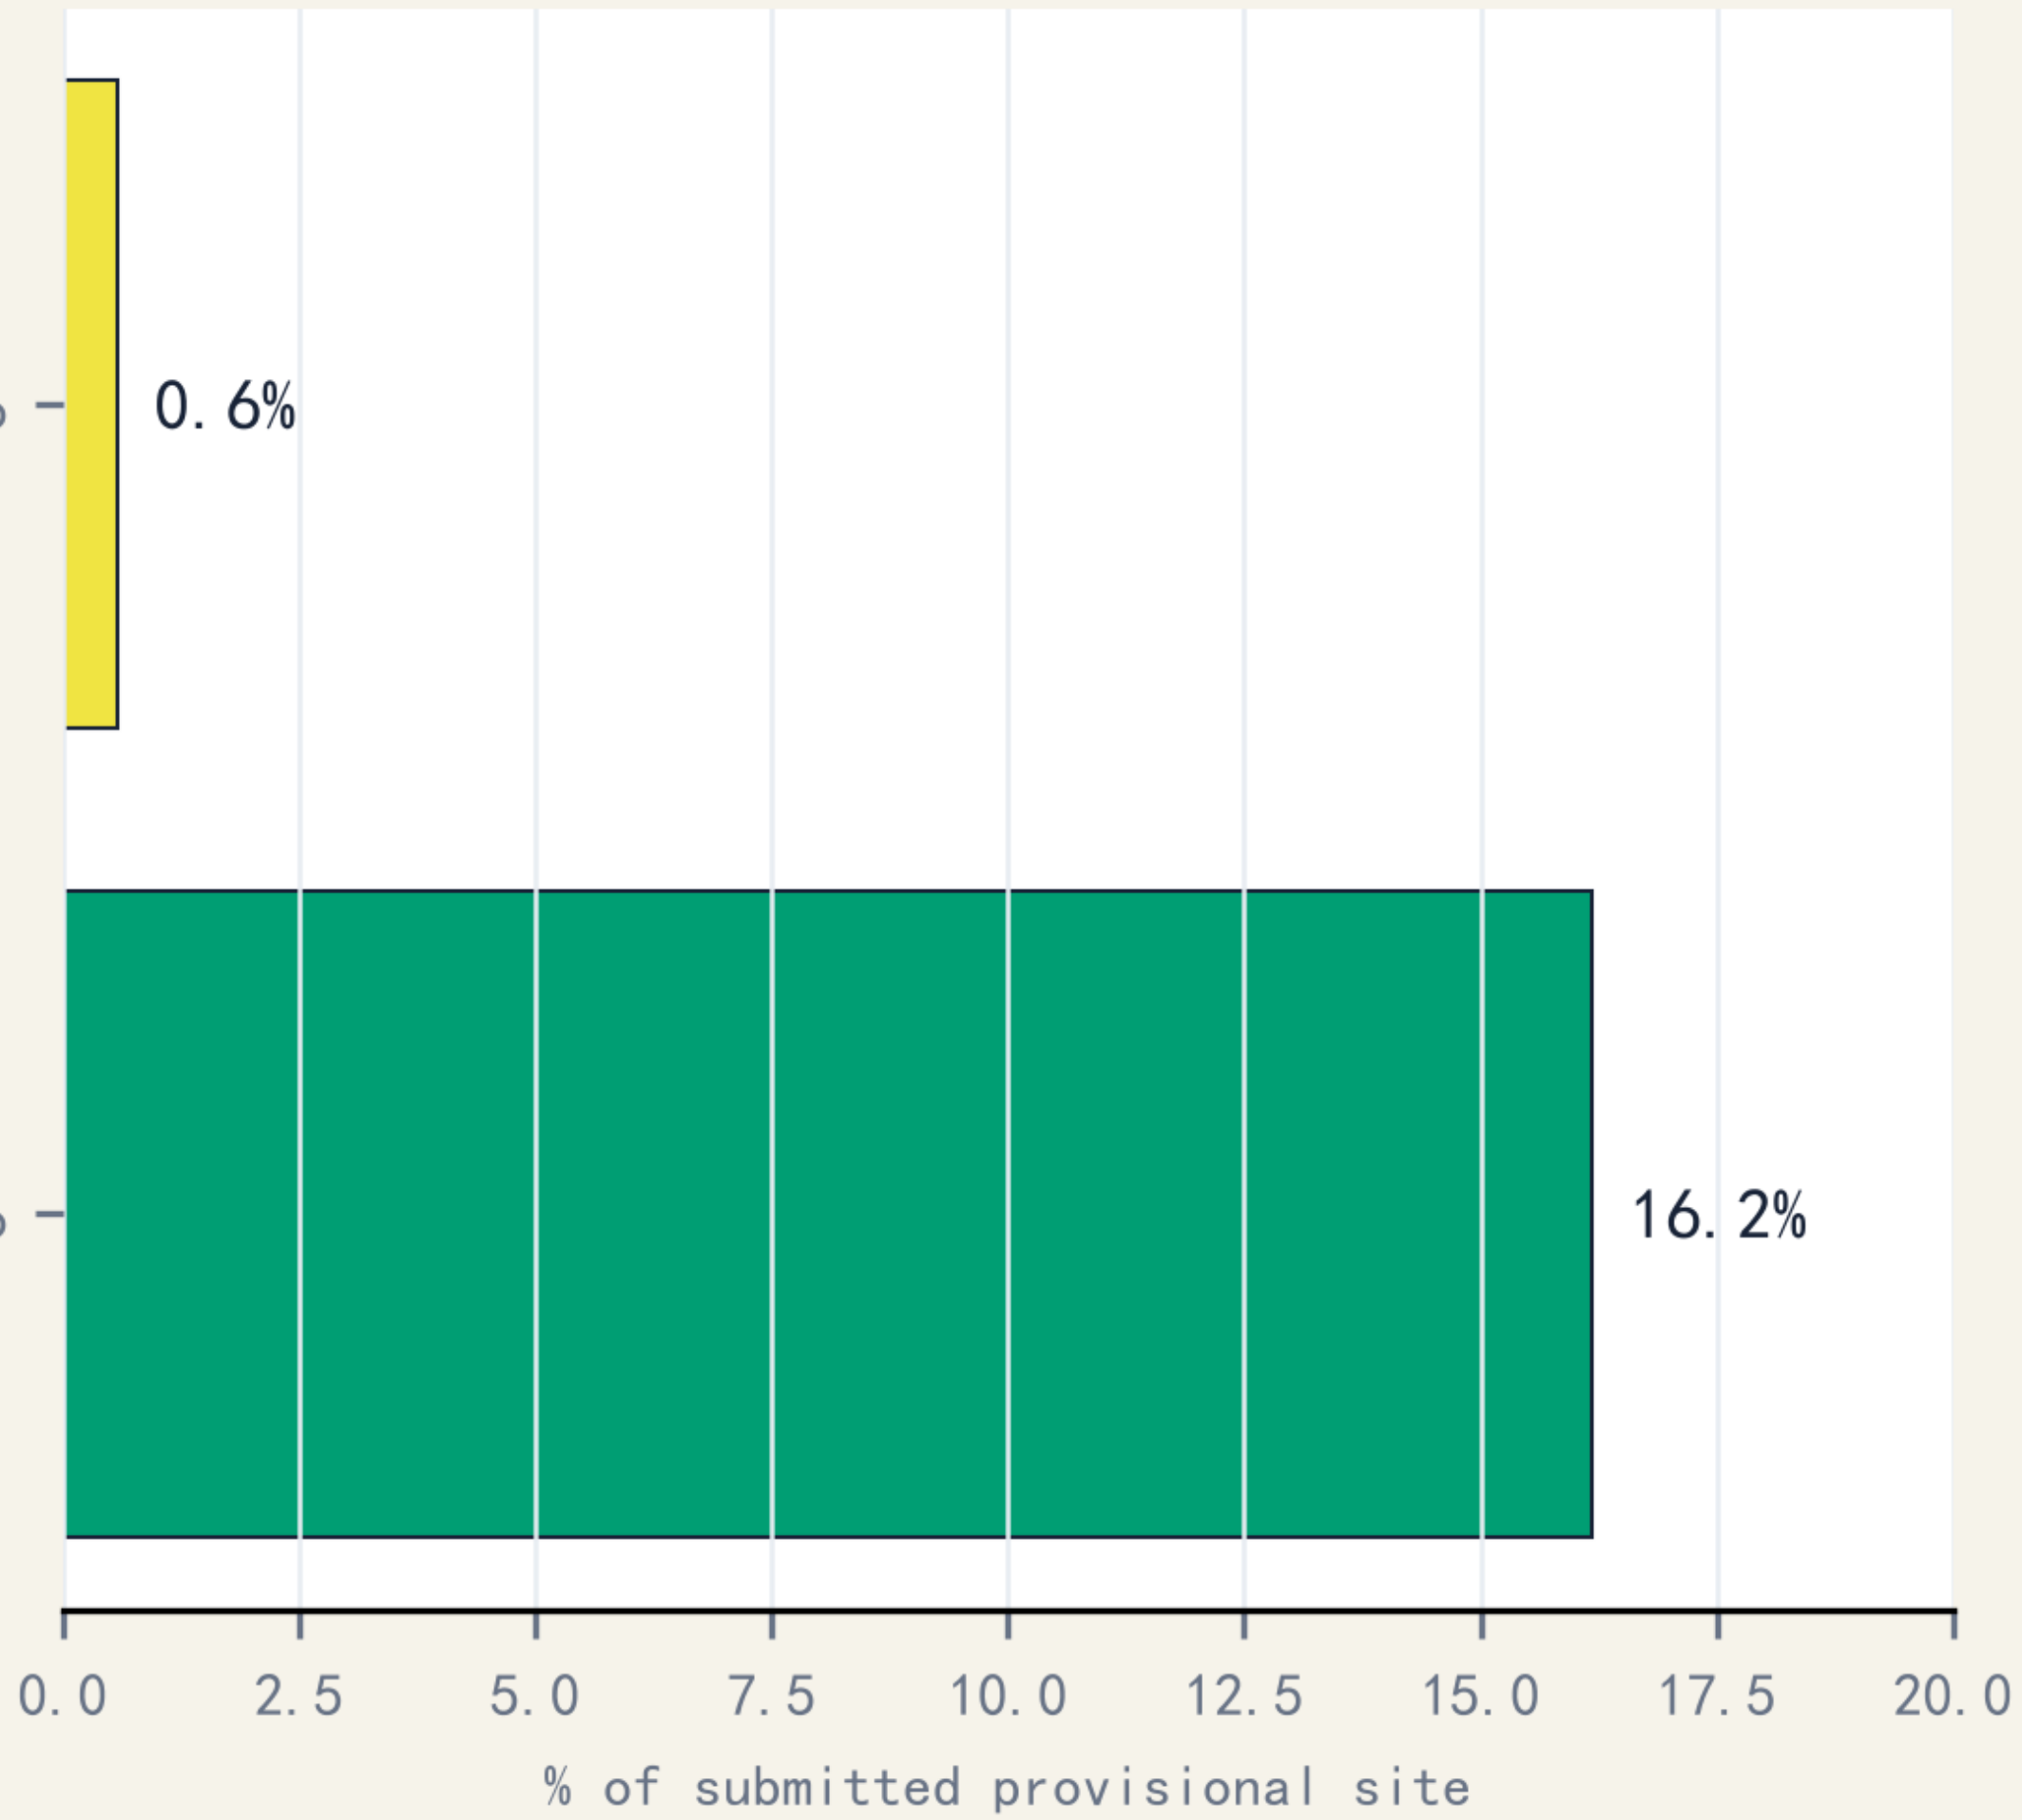

FIVE ACCOUNTABLE ROLES

asset steward → platform operator → licensed food operator
research/evaluation → statutory/professional review

Park and green ratio

Anomaly, veto, pause/reduce, and graduate/exit are operating actions.
They are not facility-card fields.

GEOMETRY-DERIVED METRICS

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

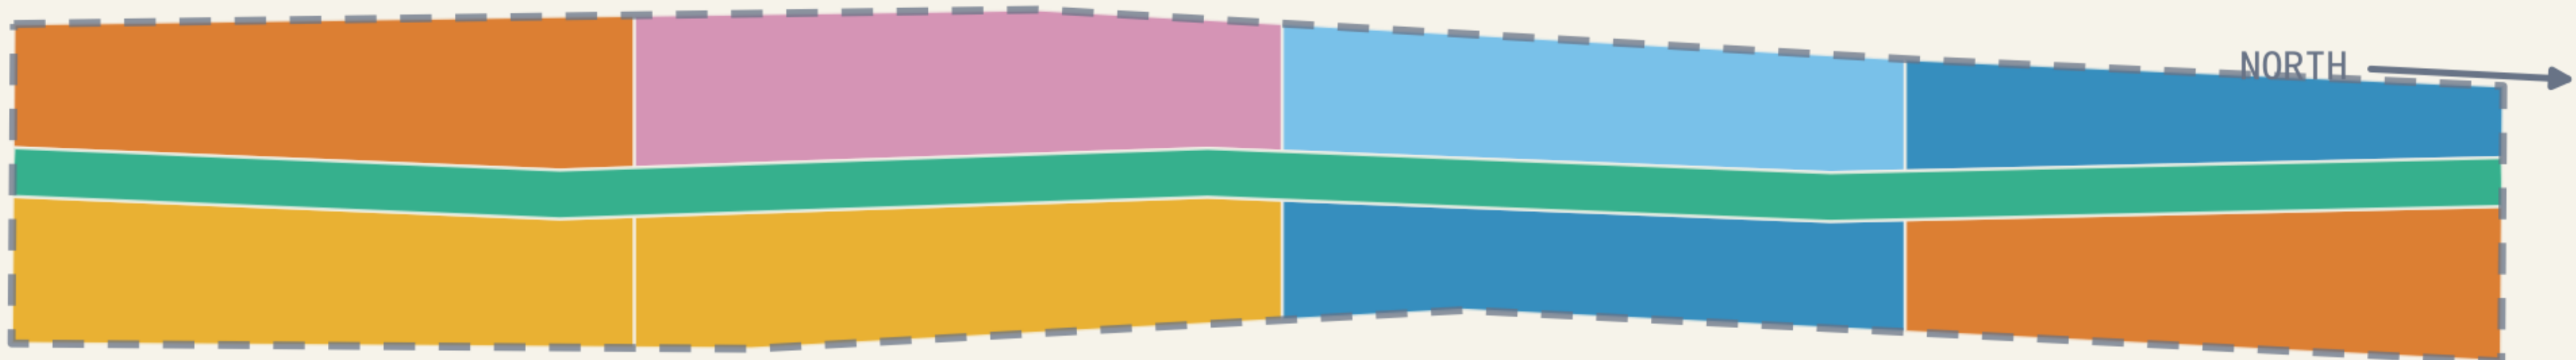

02 THREE ACCESS LAYERS

Each cluster separates a controlled back, observable interface, and public front. Nine footprints test interfaces only; buildings, land use, intensity, and retain-renovate-remove decisions are not statutory conclusions.

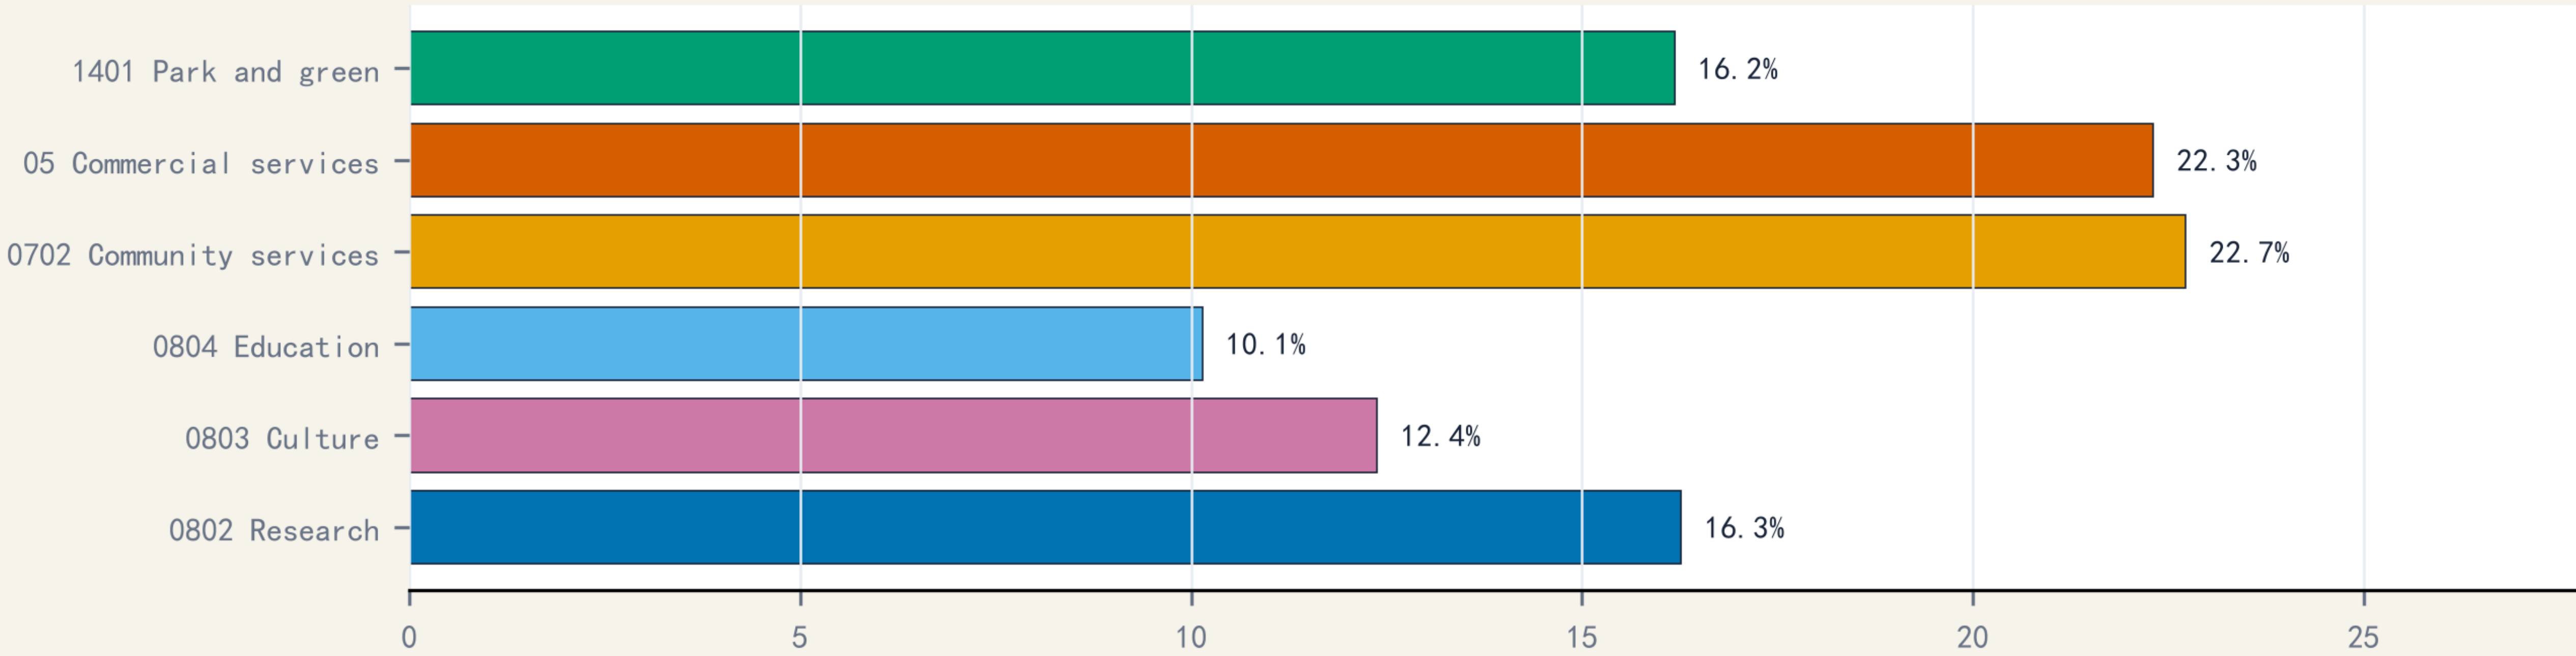

FIVE ACCOUNTABLE ROLES · asset steward · platform operator · licensed food operator · research/evaluation · statutory/professional reviewer

LAND USE × THREE ACCESS LAYERS

Controlled back → observable interface → public front at each node · authored, non-statutory allocation · north points right

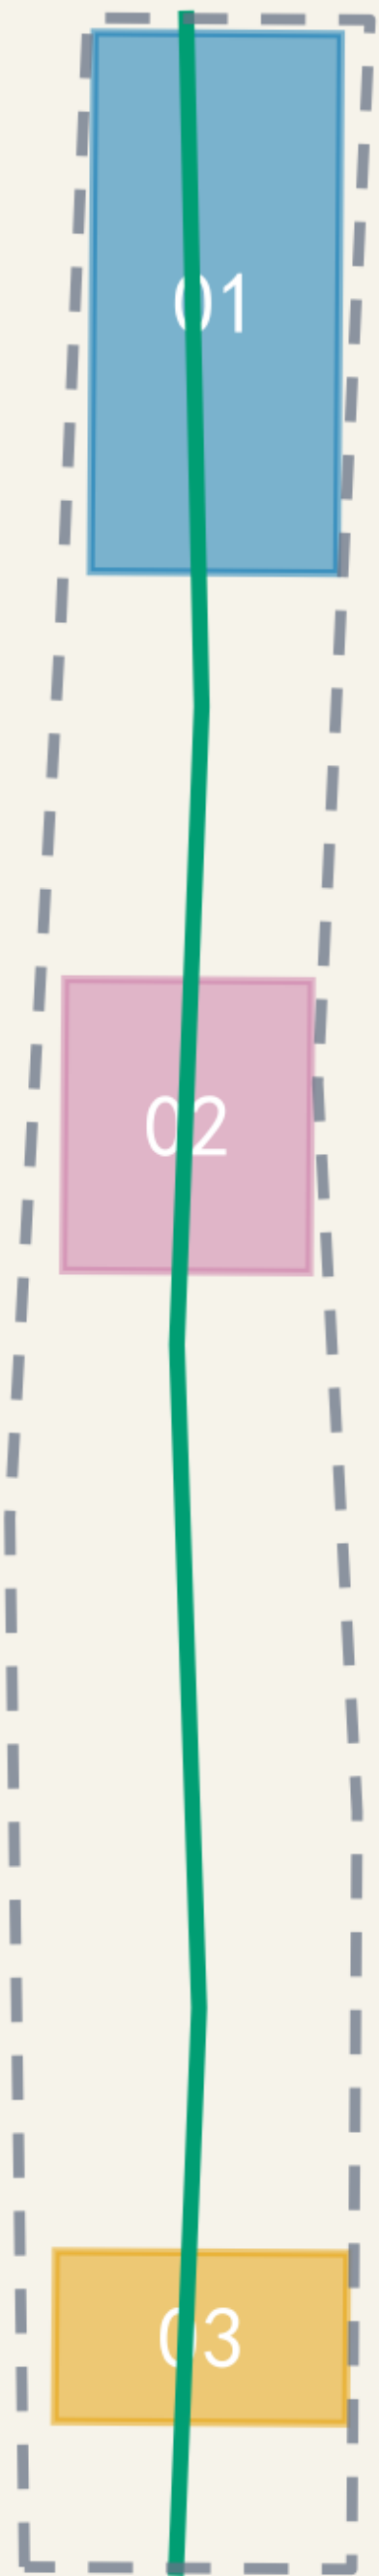

SHARE OF SUBMITTED PROVISIONAL SITE

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

THREE NODES: VALIDATE · TRANSFER · FIRST ORDER

THREE KEY AREAS

01 ZHONGZHIYUAN | R&D + STANDARDS

Multimodal evidence, operations simulation, embodied work, licensed pilot.

- Controlled back
- Evidence interface
- Public front

02 AI ORIGIN | REPRODUCIBILITY + PILOT

Model cards, facility cards, shared production, and operator coaching.

- Licensed production
- Reproduce/coach
- Kitchen front

03 DAZHONGSI | MARKET + FIRST ORDER

Batch market tests, aggregate feedback, and non-purchase public tables.

- Receive/logistics
- Market validation
- Public table

All three nodes use a controlled back, observable interface, and public front. No partner, permit, operator, funding, or facility condition is presumed.

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

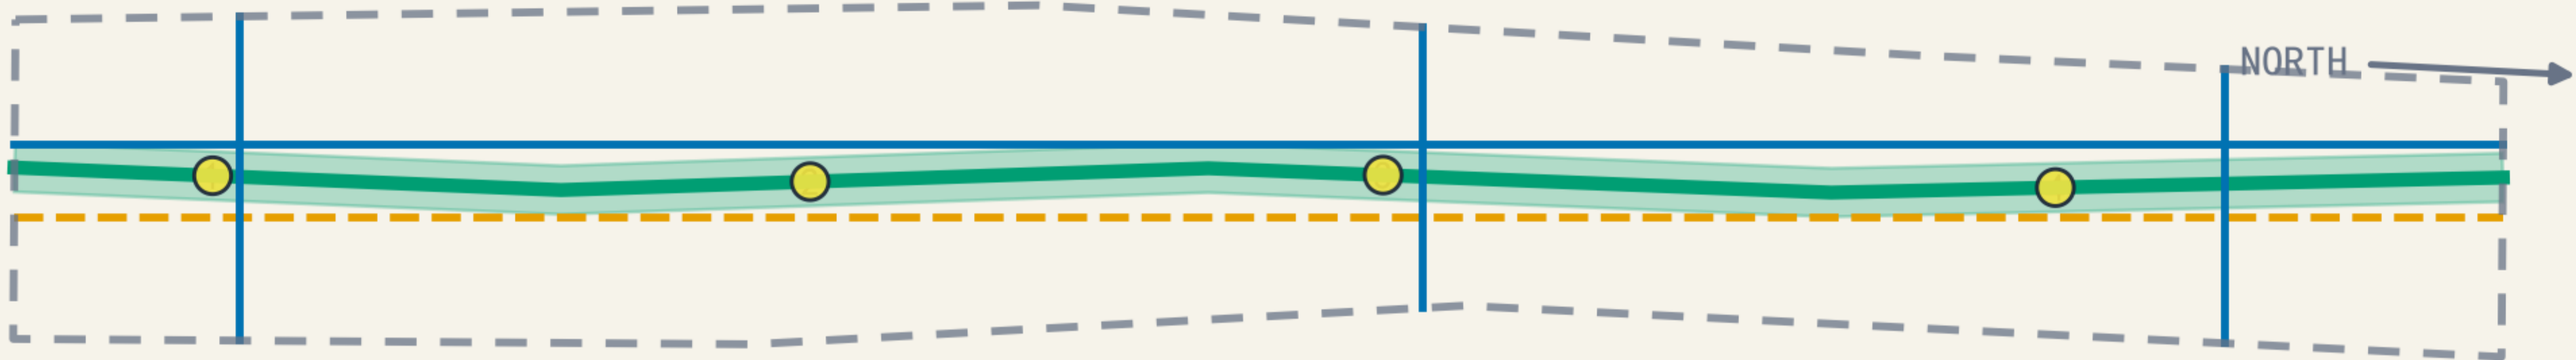

03 FOUR FLOWS AND FOUR GATES

Visitor, staff, food-logistics, and residual-material flows are separated. Four phases rely on evidence, accountability, permits, utilisation, and orders; each may pause, reduce, or exit.

FIVE ACCOUNTABLE ROLES · asset steward · platform operator · licensed food operator · research/evaluation · statutory/professional reviewer

FOUR SEPARATED FLOWS × BLUE-GREEN PUBLIC SPACE

Visitors, staff, food logistics, and residual materials have distinct entries, windows, containers, and ledgers · north points right

VISITORS	STAFF	FOOD LOGISTICS	RESIDUAL MATERIALS
Continuous walking, accessibility, ordinary rest, and non-purchase seating first.	Separate check-in, changing, training, and human-takeover path.	Timed loading, cold-chain batches, and controlled receiving back.	Dedicated containers and metering; stop without an approved receiver.

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

CAPABILITY · ACCOUNTABILITY · EVIDENCE GATES

5	4	3	8	5	4
capabilities	Haidian protocols	spatial clusters	adopted cases	accountable roles	operating gates

EIGHT-FIELD FACILITY CARD

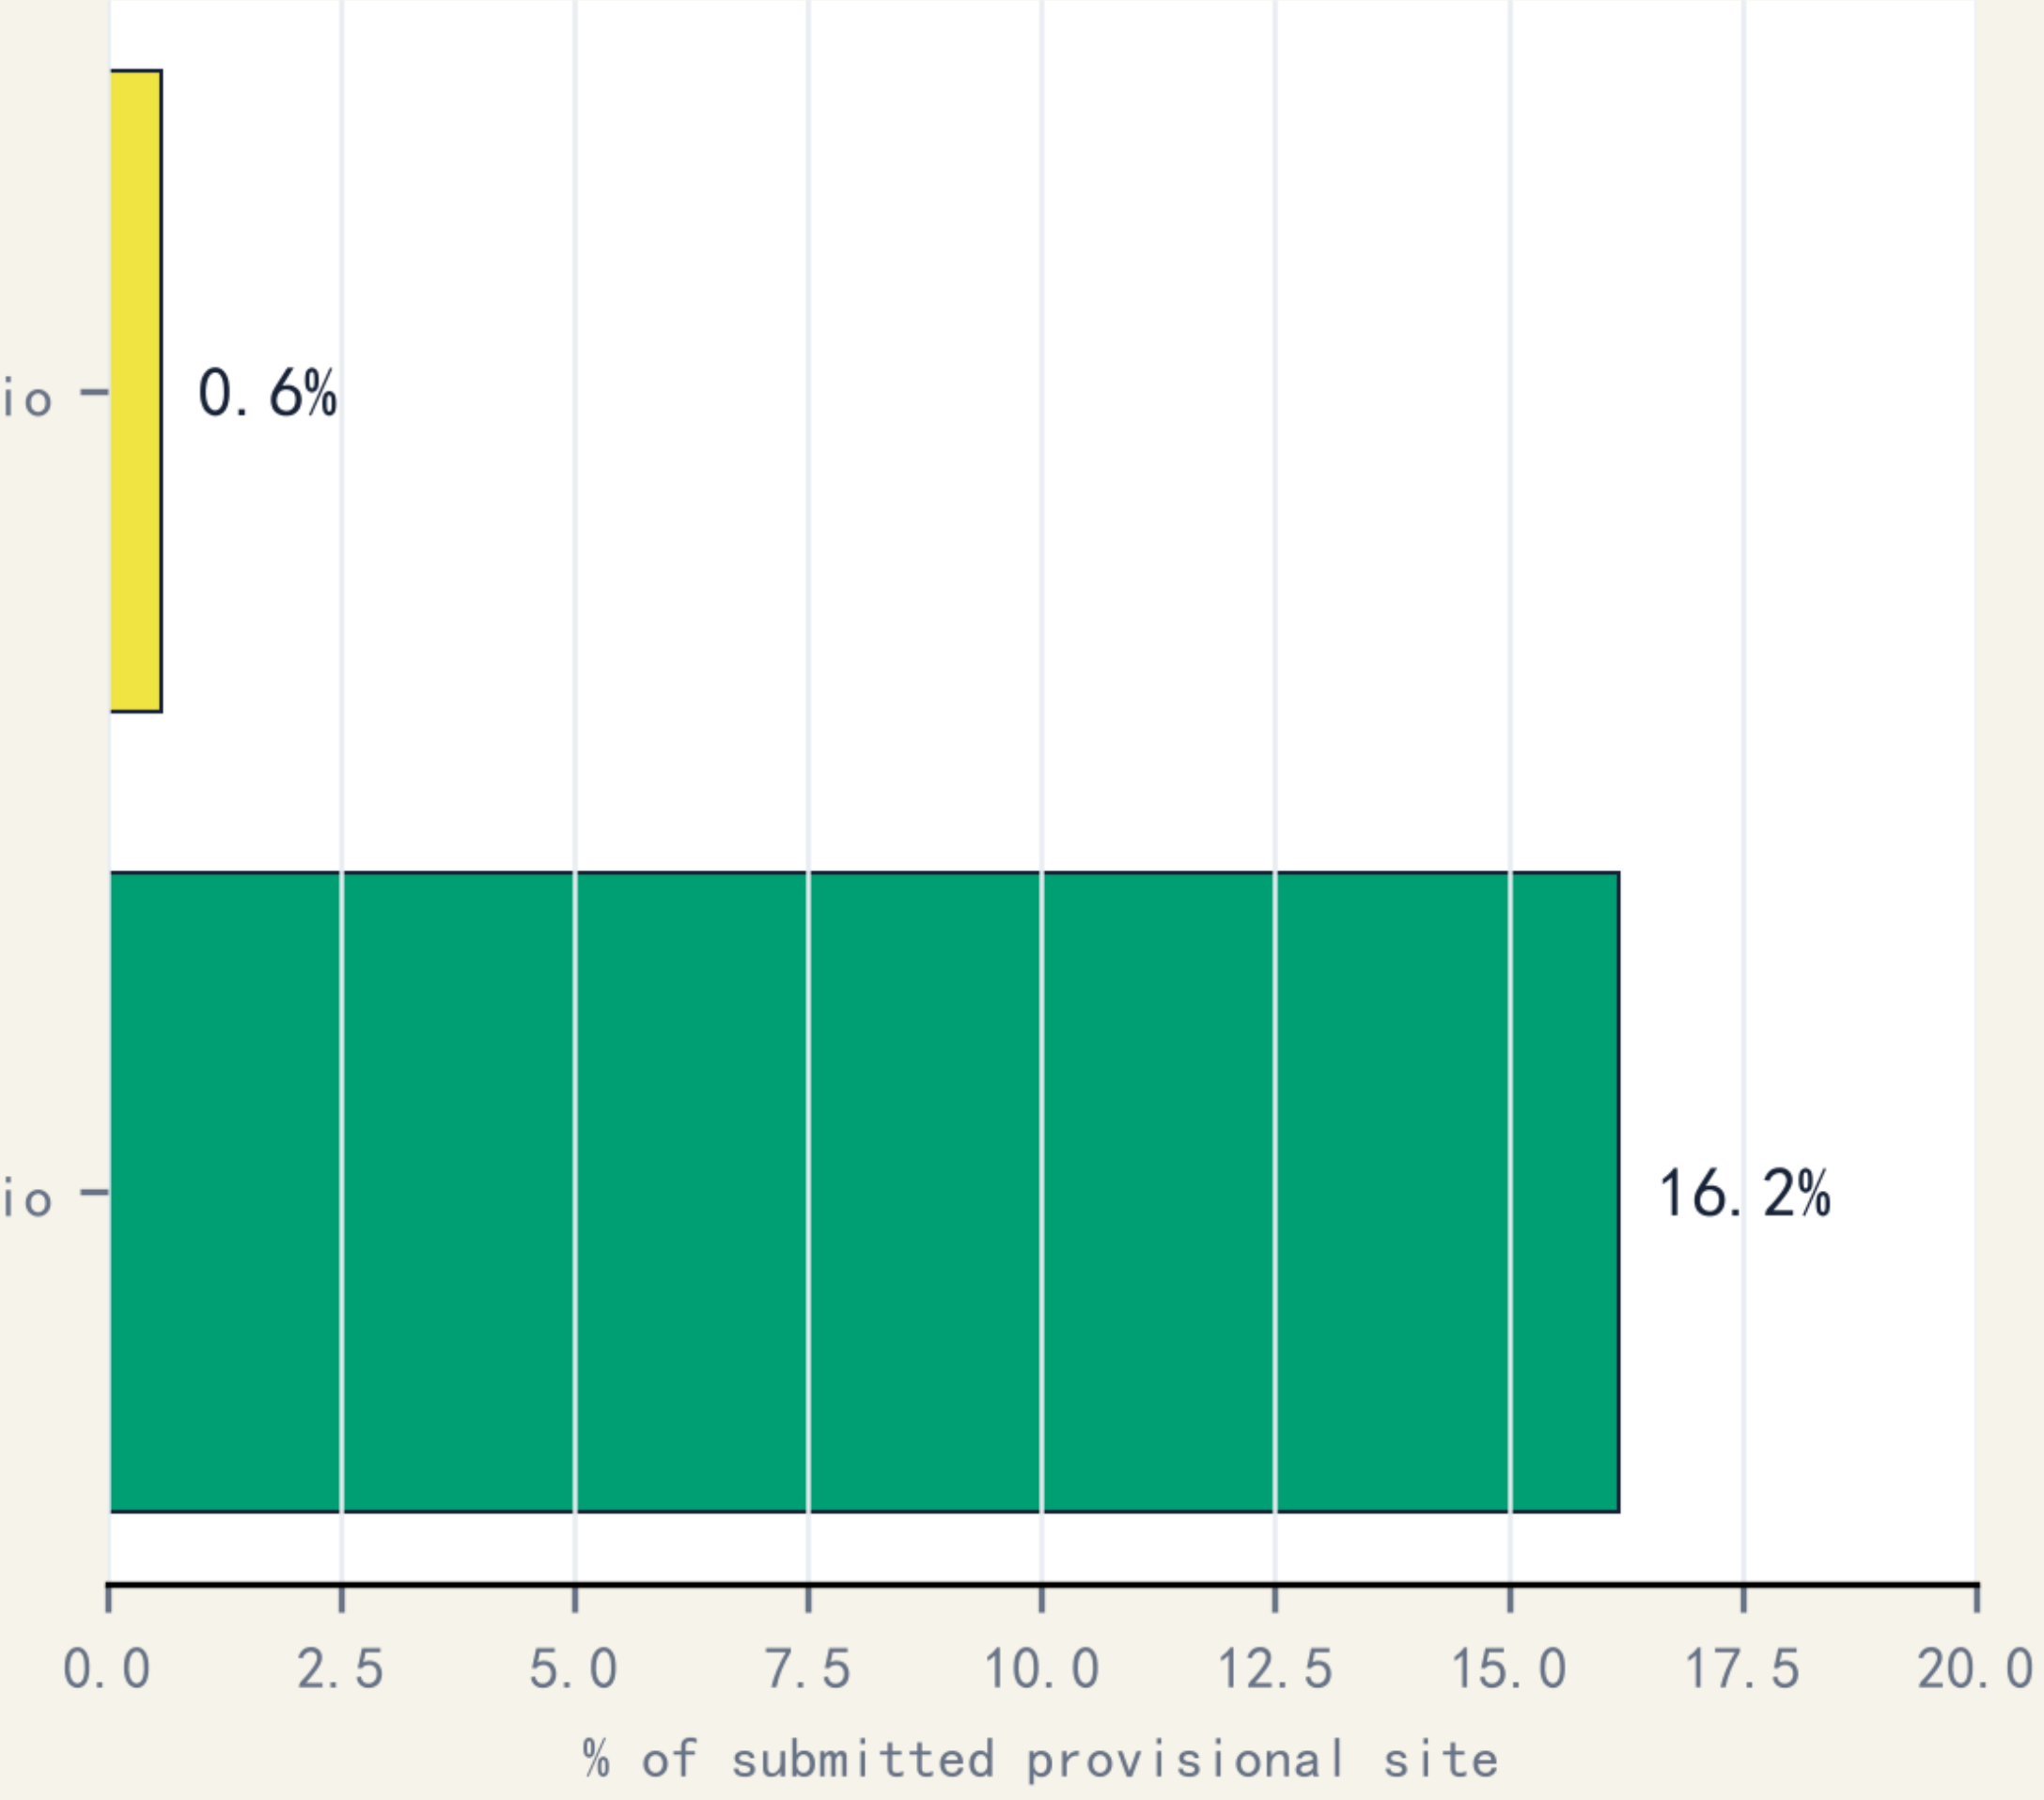

capability → hygiene class → minimum batch
booking/cost → accountable operator → IP/data Public-space ratio
residual route → stop condition

FIVE ACCOUNTABLE ROLES

asset steward → platform operator → licensed food operator
research/evaluation → statutory/professional review

Anomaly, veto, pause/reduce, and graduate/exit are operating actions. They are not facility-card fields.
