

Title: JingZhang Agent Station (JZ-AS) / ■■■■■■■■■■■■

Structure: 1 corridor + 3 stations + 2 wings + 12 transfer nodes

Positioning: Centennial Jing-Zhang cultural belt · Urban AI life belt · AI fusion innovation belt

Functions: full-stack autonomy · world-class ecosystem · AI+ scenarios · smart city · AI governance voice

Boundary: provisional_constraint only; recalculate after official polygons

Key areas: Zhongzhiyuan Verification Station · AI Origin Transfer Station · Dazhongsi Experience Station

Wings: Zhongguancun service wing · Xiaoyuehe scenario empowerment wing

Evidence: geometry/*.geojson + metrics.json + matrices + self_check

Zhongzhiyuan: garden-type full-stack verification, standards, safety, Qinghe interface
AI Origin: near-campus transfer clinic, open-source hall, talent services, slow mobility stitch
Dazhongsi: station TOD, four-quadrant walkability, intelligent-native retail, international lounge
All RRD / FAR / height statements remain pending official controls
Scenarios: 12 cards including 3 industry validation tests
Landmarks: Verification Tower · Transfer Clock · Experience Plaza (conceptual)
Phasing: Phase-1 protocol/pilot · Phase-2 three-station transfer completion

Metrics recomputed in EPSG:4548 from submitted GeoJSON

Known: site area, green ratio, public space ratio, building footprint, key area count

Unknown: FAR and other statutory controls until official package is cleared

Operations: annual Agent Station Week · developer commons · open scenario days

Risk: provisional geometry, missing redlines/ownership/municipal/heritage layers

Copyright: agent-generated + public/cleared sources listed in sources.json

Status: conceptual reference for professional deepening only
