

JINGZHANG, PRESENT

A future city needs more than systems online. It needs everyone present.

ONE LINE · FOUR STITCHES · THREE GROUNDS · TWO WINGS

A future city needs more than systems online. It needs everyone present.

01 TECHNOLOGY PRESENT — Zhongzhiyuan

02 KNOWLEDGE PRESENT — AI Origin Community

03 EVERYDAY LIFE PRESENT — Dazhongsi

04 ENABLING RESOURCES / PUBLIC EXPERIENCE

05 14 accountable scenarios · 9 publics

JINGZHANG, PRESENT

An open co-creation proposal. Conceptual reference for professional development; not statutory planning or an approved government decision.

THE PRESENCE CONTRACT

Write accountability before technology enters the city.

THE PRESENCE CONTRACT

A future city needs more than systems online. It needs everyone present.

01PUBLIC PURPOSE

03AI ROLE

05EQUIVALENT SERVICE

07ACCOUNTABLE OPERATOR

02DATA BOUNDARY

04HUMAN AUTHORITY

06FAILURE PATH

08PUBLIC REVIEW

JINGZHANG, PRESENT

A scenario without human stop authority, an equivalent non-AI service and a named accountable operator cannot enter real-city testing.

THREE GROUNDS · TWO WINGS

Technology present · knowledge present · everyday life present.

THREE GROUNDS, ONE TRUSTED CONVERSION CHAIN

A future city needs more than systems online. It needs everyone present.

- 01 ZHONGZHIYUAN — publish boundaries, failures and governance
- 02 AI ORIGIN COMMUNITY — co-produce domain knowledge
- 03 DAZHONGSI — make responsible AI legible in daily life

JINGZHANG, PRESENT

The two wings make enabling resources and public experience present. Together they form one trusted conversion chain.

RIGHTS BEFORE AUTOMATION

One public section keeps the basic city working through failure.

01

CLIMATE + ACCESSIBILITY BASE

02

NON-PURCHASE PUBLIC ZONE

03

FIXED AUTHORITATIVE INFORMATION

04

STAFFED SERVICE + HUMAN HANDOVER

05

DIGITAL AUGMENTATION

06

SEPARATED EQUIPMENT + MAINTENANCE EDGE

ONE PUBLIC SECTION · RIGHTS BEFORE AUTOMATION

A future city needs more than systems online. It needs everyone present.

JINGZHANG, PRESENT

Climate and accessibility, a non-purchase public zone, fixed information and staffed help remain available before digital augmentation and bounded equipment edges.

Auditable evidence moves; implied commitments do not.

FIVE EXTERNAL INTERFACES · ONE AUDITABLE METHOD

A future city needs more than systems online. It needs everyone present.

- 01 NORTH LATITUDE COMMUNITY — founder and small-team needs
- 02 FUTURE SCIENCE CITY — research and engineering validation
- 03 HUAIROU SCIENCE CITY — basic science and expert review
- 04 BEIJING E-TOWN — manufacturing reliability and product passports
- 05 BEIJING-TIANJIN-HEBEI — cross-city retesting and open components
- 06 No partnership, funding, procurement or facility access is implied

JINGZHANG, PRESENT

Proposed interfaces connect North Latitude Community, Future Science City, Huairou Science City, Beijing E-Town and the Beijing-Tianjin-Hebei network. No partnership, funding, procurement, policy or facility access is implied.

Four industry tests and ten public-life scenarios for nine publics.

FOURTEEN ROLL CALLS

A future city needs more than systems online. It needs everyone present.

- | | | | | | | | | | |
|----|-------|------------------------|---|--|----|-------|---------------------|---|--|
| 01 | TV-01 | INDUSTRY TEST | — | Open Model–Boundary Test Field | 02 | TV-02 | INDUSTRY TEST | — | Embodied AI Shared–Path Sandbox |
| 03 | TV-03 | INDUSTRY TEST | — | Transparent Edge–Compute and Thermal Station | 04 | TV-04 | INDUSTRY TEST | — | Data and Domain–Knowledge Co–Lab |
| 05 | CS-05 | PUBLIC SERVICE | — | Co–Verified Accessible Route | 06 | CS-06 | AI + PUBLIC SERVICE | — | Multilingual Public–Service Desk |
| 07 | CS-07 | AI + EDUCATION | — | Campus–Community Problem Table | 08 | CS-08 | AI + HEALTH | — | Community Health and Referral Guide |
| 09 | CS-09 | AI + EDUCATION | — | Learning Methods and Digital Literacy Lab | 10 | CS-10 | AI + DAILY SERVICES | — | Shared Last–100–Metre Interface |
| 11 | CS-11 | AI + COMMERCE | — | Responsible AI Product–Passport Street | 12 | CS-12 | AI + CULTURE | — | Centennial Jingzhang Co–Narration Desk |
| 13 | CS-13 | AI + LEGAL INFORMATION | — | Public Legal–Information Signpost | 14 | CS-14 | URBAN OPERATIONS | — | Night–City Handover Station |

JINGZHANG, PRESENT

Health and legal scenarios explain information and routes only. Worker data cannot become hidden performance monitoring.

RIGHTS MADE VISIBLE

Fixed information, human help and digital augmentation run in parallel.

01

NORTH-SOUTH CONTINUITY — culture, walking and help

02

EAST-WEST STITCHES — four interfaces, engineering pending

03

QUIET COMMONS — no purchase, device or account required

04

REST + REPAIR BAYS — infrastructure for people who keep the city running

PUBLIC SPACE MAKES RIGHTS VISIBLE

A future city needs more than systems online. It needs everyone present.

JINGZHANG, PRESENT

Eight open components turn fallback, rest, accessibility, appeal and version history into physical interfaces.

ADAPTIVE REUSE

A complete conceptual partition, never a demolition instruction.

ADAPTIVE REUSE BEFORE DEMOLITION

A future city needs more than systems online. It needs everyone present.

- 01 CULTURE + PUBLIC SERVICE
- 02 AI-NATIVE SERVICE
- 03 COMMUNITY SERVICE
- 04 EDUCATION + RESEARCH
- 05 R&D + CONTROLLED TESTING
- 06 ECOLOGY + OPEN INNOVATION

JINGZHANG, PRESENT

FAR, height, ownership, road alignment and infrastructure capacity remain unknown pending official data and professional review.

EVIDENCE BEFORE SCALE

E0-E4 evidence, G0-G5 gates and six resource accounts.

FROM EVIDENCE TO PUBLIC DECISION

A future city needs more than systems online. It needs everyone present.

01

E0 PUBLIC BRIEF FACTS

03

E2 FIELD + PROFESSIONAL REVIEW

05

E4 LONG-TERM PUBLIC VALUE

07

G1 RIGHTS + DATA

09

G3 EVIDENCE

11

G5 SCALE / REPAIR / EXIT / MONUMENT

02

E1 REPRODUCIBLE PROPOSAL

04

E3 BOUNDED PILOT

06

G0 JUSTIFY

08

G2 BOUNDED RUN

10

G4 CROSS-AREA RETEST

JINGZHANG, PRESENT

A new place, public, data type, season or operator creates a new evidence boundary. Model performance, attention or investment cannot bypass a public decision gate.

90 DAYS · GO / HOLD / STOP

Prove the accountability chain before scaling technology.

RECALCULABLE, NEVER FALSELY PRECISE

A future city needs more than systems online. It needs everyone present.

- 01 11.41 km² — provisional submitted geometry
- 02 16.7% — design green-space ratio
- 03 9.8% — design public-space ratio
- 04 FAR / HEIGHT / CAPACITY — UNKNOWN pending official controls

JINGZHANG, PRESENT

Co-define; run AI and non-AI services side by side; cross-review failures; then decide Go, Hold or Stop. Scale-up requires a new review.

14 SCENARIOS · OPERATING CARDS

Every scenario names human authority and a hard stop.

Scenario	Place / human authority	Equivalent service / hard stop
TV-01 Open Model-Boundary Test Field	Zhongzhiyuan / Professional approval; public one-click exit	Staffed demonstration and fixed explanatory panel / Unlicensed data or an unexplained safety event
TV-02 Embodied AI Shared-Path Sandbox	Zhongzhiyuan / A safety officer holds a physical emergency stop	Disable automation and restore manual handling / Two boundary breaches or emergency-stop failure
TV-03 Transparent Edge-Compute and Thermal Station	Zhongzhiyuan / A facility engineer approves every mode change	Preset safe operating mode / Thermal safety threshold anomaly
TV-04 Data and Domain-Knowledge Co-Lab	AI Origin Community / Domain experts retain publish and withdrawal authority	Paper question bank and staffed workshop / Unknown provenance or licence conflict
CS-05 Co-Verified Accessible Route	Belt-wide / Disabled users co-verify; maintainers close tickets	Fixed accessible map and staffed guidance / Suggested route conflicts with field conditions
CS-06 Multilingual Public-Service Desk	Belt-wide / A human service officer owns the final answer	Paper guide and staffed service window / Policy version is unknown
CS-07 Campus-Community Problem Table	AI Origin Community / Residents choose issues; teachers review methods	Staffed issue wall / Individual opinion is inferred as a group profile
CS-08 Community Health and Referral Guide	AI Origin Community / Clinical staff confirm referral and risk advice	Telephone and staffed triage / Diagnostic output or a high-risk symptom
CS-09 Learning Methods and Digital Literacy Lab	AI Origin Community / Teachers or guardians select and correct	Printed learning pack / Dependency inducement or unrelated child data
CS-10 Shared Last-100-Metre Interface	Xiaoyuehe Wing / Rider and recipient confirm together	Phone, fixed address and staffed enquiry / Data becomes hidden worker performance scoring
CS-11 Responsible AI Product-Passport Street	Dazhongsi / Merchants sign; consumers can appeal	Paper product passport / Undisclosed supplier or exaggerated capability
CS-12 Centennial Jingzhang Co-Narration Desk	Railway Heritage Park / Historians and narrators retain revision rights	Fixed plaque and staffed tour / Conflicting historical evidence is unmarked
CS-13 Public Legal-Information Signpost	Dazhongsi / A lawyer or public legal-service officer reviews	Hotline, paper checklist and booked human service / A definitive legal conclusion is generated
CS-14 Night-City Handover Station	Belt-wide / Both shifts confirm each item and may reject it	Paper handover log and phone dispatch / Advice is used for individual performance monitoring

THREE FIRST PILOTS · RACI

A missing accountable role, retention limit, equivalent service or recovery owner means Hold.

Pilot	R / A / C / I	Data limit	Stop and recovery
CS-05 Accessible Route	R inspection/repair; A future park operator; C disabled co-review + accessibility professional; I corridor public	Tickets up to 180 days; wrong route removed within 2 hours	Duty lead removes advice and installs fixed diversion; professional re-verification before restart
CS-06 Multilingual Desk	R service/translation staff; A future provider; C specialists + international users; I all users	No query text; aggregate count up to 90 days; unknown version hands off	Desk lead disables automation and switches to paper/staffed service
TV-01 Model-Boundary Field	R test operations; A independent test-governance committee; C safety/domain/tester representatives; I public	De-identified voluntary feedback up to 90 days; immediate high-risk report	Safety lead stops and preserves evidence; new public defence before restart

NINE ACTION PACKAGES

Shared prerequisites prevent three areas from duplicating identity, appeal or failure archives.

ID	Action package	Dependency	Acceptance evidence / hard stop
AP0	Public ground truth and rights baseline	None	Source, licence, provisional/official status and gap register / STOP: Unresolved boundary conflict limits work to research
AP1	Presence Line field task chain	AP0	Baseline for walking, rest, help, crossing and night tasks / STOP: Do not publish digital routes while safety breaks remain
AP2	Non-AI service floor	AP0	Staffed desk, paper, phone, fixed panel and quiet commons / STOP: Hold if a core task fails offline
AP3	Presence Contract and public register	AP0, AP2	Contract, version, failure, appeal, deletion and review records / STOP: No pilot without accountability or stop condition
AP4	Zhongzhiyuan controlled verification	AP0, AP2, AP3	Model limits, embodied takeover, energy and failure samples / STOP: Unauthorized access, harm or takeover failure triggers Stop
AP5	AI Origin knowledge co-production	AP0, AP2, AP3	Problem set, provenance card, withdrawal and human referral / STOP: Diagnosis, excess child data or provenance conflict triggers Stop
AP6	Dazhongsi trusted adoption	AP0, AP2, AP3	Product passports, multilingual service, legal information and complaint closure / STOP: Remove service for exaggerated claims, hidden supplier or failed handoff
AP7	Two-wing and regional retest interface	AP3, AP4, AP5, AP6	De-identified problem packs, retest reports and cross-area differences / STOP: No personal data, trade secrets or implied resource commitments
AP8	Exit, restoration and monument review	AP1, AP2, AP3	Deletion proof, site restoration, succession, minority opinion and long-term value / STOP: No scale or monument if deletion, restoration or non-AI continuity fails

PUBLIC DECISION GATES · RESOURCE ACCOUNTS

Decisions are Go, Hold, Repair or Stop; an impossible exit blocks Go.

Gate / account	Decision or record	Minimum evidence
G0	Is public intervention justified?	Affected publics, current task and non-AI option
G1	May preparation begin?	Provenance, minimum data, spatial safety and accountable roles
G2	May bounded operation begin?	Version lock, staffed service, takeover drill, stop and recovery
G3	Does evidence support continuation?	Comparator, subgroup outcomes, incidents, appeals and maintenance burden
G4	May cross-area retesting occur?	Same contract, difference note, resource account and renewed accountability
G5	Scale, repair, exit or monument?	Cross-season public value, deletion/restoration, succession and minority opinion
ACCOUNT	People	Staffed service, night handover, professional review, accessibility co-test and maintenance hours
ACCOUNT	Space	Non-purchase stay, test separation, quiet interface, restoration area and occupation time
ACCOUNT	Data	Fields, provenance, licence, access roles, retention, deletion and prohibited uses
ACCOUNT	Energy	Edge/cloud energy boundary, thermal burden and low-power degraded mode
ACCOUNT	Maintenance	Failure SLA, spares, cleaning, content update, supplier exit and succession
ACCOUNT	Exit	Stop trigger, notice, deletion, equipment removal, site restoration and retained archive

LONG-TERM OPERATIONS · MONUMENT RULE

Permanent honour follows cross-season public value, maintenance and exit evidence.

Frequency	Public action	Evidence left behind	Conversion outlet
Weekly	Presence Night Shift	Handover, repair or accessibility inspection	Monthly question bank
Monthly	Presence Test Day	Contract, baseline and failure sample	Go / Hold / Repair / Stop
Quarterly	Common Version Release	Scenario passport, failures and repaired version	Professional development or exit
Annually	JINGZHANG, PRESENT WEEK + monument defence	Cross-season public value, maintenance, deletion/restoration and minority opinion	Monument candidate or cross-area retest

TEN-ITEM RISK REGISTER

Serious harm, unauthorized data, professional overreach and failed restoration are hard stops.

ID	Risk	Likelihood / impact	Accountable role	Trigger and recovery
R01	Provisional geometry mistaken for official redline	Medium / High	Data coordination role	Any statutory or engineering use / Prominent provisional label; full-chain recalculation after official geometry
R02	AI output substitutes for clinical, legal or administrative decision	Medium / High	Domain accountable role	Diagnostic, definitive legal or official decision language / Disable automation, hand off to staff, publish correction and retest
R03	Personal or worker data reused beyond purpose	Medium / High	Data/safety lead	Extra fields, hidden performance scoring or identity inference / Freeze flow, delete with proof, notify affected people and independently review
R04	Embodied device conflicts with mixed public movement	Low / High	On-site safety lead	Harm, worsening near miss, geofence breach or takeover failure / Physical stop, close area, restore manual service and conduct root-cause defence
R05	Digital interface displaces public space	Medium / Medium	Public-space maintenance role	Loss of non-purchase stay, quiet space or accessible path / Remove equipment and restore fixed information and public passage
R06	Scenario serves only large institutions	Medium / Medium	Open-operations role	SMEs, residents or no-account users cannot enter / Publish access rules; retain paper/on-site channel; quarterly equity review
R07	Vendor exit interrupts public service	Medium / High	Contract and maintenance role	Proprietary critical interface, no successor or spare shortage / Open export, minimum substitute service, exit account and succession drill
R08	Events create attention without conversion	Medium / Medium	Portfolio accountable role	No reviewable version, repair or exit decision in a quarter / Freeze new events until problem-evidence-accountability loop closes
R09	Historical narrative error or rights conflict	Low / Medium	Cultural-content lead	Unmarked source conflict, withdrawn oral history or unclear licence / Remove digital content, retain fixed authoritative information and re-clear rights
R10	Monument freezes a one-off performance into permanent honour	Medium / High	Proposed public-value council	Missing cross-season maintenance, public benefit or negative record / Require cross-season review, publish minority opinion and defer or withdraw candidacy
