

百年京张AI创新带城市设计国际方案征集

JINGAI·BELT

Centennial Jing-Zhang AI Innovation Belt Urban Design Proposal · A3 Booklet

Overall concept: One Belt · Three Cores · Two Wings · Multi-Node | Blue-Green Composite Ring

Three positionings: Jing-Zhang cultural belt / AI living experience belt / AI convergence belt

Five functions: full-stack innovation · world ecosystem · AI+ scenarios · intelligent city · AI governance

Key areas: Zhongzhiyuan AI Acceleration / Beijing AI Origin Community / Dazhongsi AI Industry Cluster

Deliverables: 12 scenario cards · 6 personas · 5 pilgrimage landmarks · 3 test scenarios

Boundary note: provisional constraint; to be recalculated on official data

JINGAI·BELT — Overall Scope and Structure Overview

One Belt · Three Cores · Two Wings · Multi-Node | Blue-Green Composite Ring | Provisional boundary

JINGAI·BELT — Core Metrics Recalculation & Evidence Chain

Recalculable · Traceable · Auditable (area in EPSG:4548)

Spatial recalculation metrics (known)

• Overall design area	1141.28 ha	confidence: high
• Green & open-space ratio	39.2%	confidence: medium
• Public-space ratio	2.9%	confidence: medium
• Building footprint area	43.23 ha	confidence: medium
• Land-use parcel count	22	confidence: high
• Road centerline length	0.00 km	confidence: medium
• Key-area count	3	confidence: high
• Phase 1 launch area	248.96 ha	confidence: medium
• AI scenario cards	12	confidence: high
• User personas	6	confidence: high
• AI pilgrimage landmarks	5	confidence: high
• Industry test scenarios	3	confidence: high

Pending official data (unknown)

- Floor-area ratio (FAR)Approved FAR controls and official site boundary are not p
- Building heightOfficial height controls pending; height guidance remains
- Statutory green ratioStatutory green ratio pending from approved regulatory pla

Evidence chain: GeoJSON layers → projection (EPSG:4548) → metrics.json → figures/HTML/A3·A0

Source: geometry/*.geojson (agent_generated_design, provisional boundary); unknown metrics per planning_limits.json.
