

Jing-Zhang Civic AI Loop: evidence before precision

Provisional geometry expresses conceptual relationships only; official boundaries, title, controls and engineering inputs must replace it.

Evidence boundary

All quantities derive from one GeoJSON/metrics version. Provisional is not statutory; an empty constraints layer does not mean no constraints.

Acceptance

Field walks, independent evaluation, worst-group performance and traceable receipts decide—not a flattering average.

Hard stop

Pause, repair or exit on unresolved severe harm, failed human takeover or deterioration for a key group.

Everyday tasks shape scenarios and the slow blue-green spine

Twelve scenarios enter space through public problems, trial protocols and exit conditions—not technology display.

KEY AREAS · PERCEPTIBLE SCENARIOS

Three districts, three tangible daily journeys

Not a device list; every place keeps a normal route, AI option, human fallback and stop rule

JING-ZHANG CIVIC AI LOOP · v1.5

All areas provisional; operator, permits and baselines remain pending

MOBILITY + BLUE-GREEN · INCLUSIVE PUBLIC REALM

15-minute public-value loop

Continuous access, cooling landscape and visible conflict management; AI enhances but never gates service

Continuous access

audit slopes, breaks, rest and

Low-speed sandbox

geofenced, timed, takeover-ready;

Blue-green resilience

baseline shade, runoff and heat

Non-digital fallback

paper, phone and on-site staff

JING-ZHANG CIVIC AI LOOP · v1.5

Corridor demand, OD, capacity and engineering conditions require verification

Evidence boundary

All quantities derive from one GeoJSON/metrics version. Provisional is not statutory; an empty constraints layer does not mean no constraints.

Acceptance

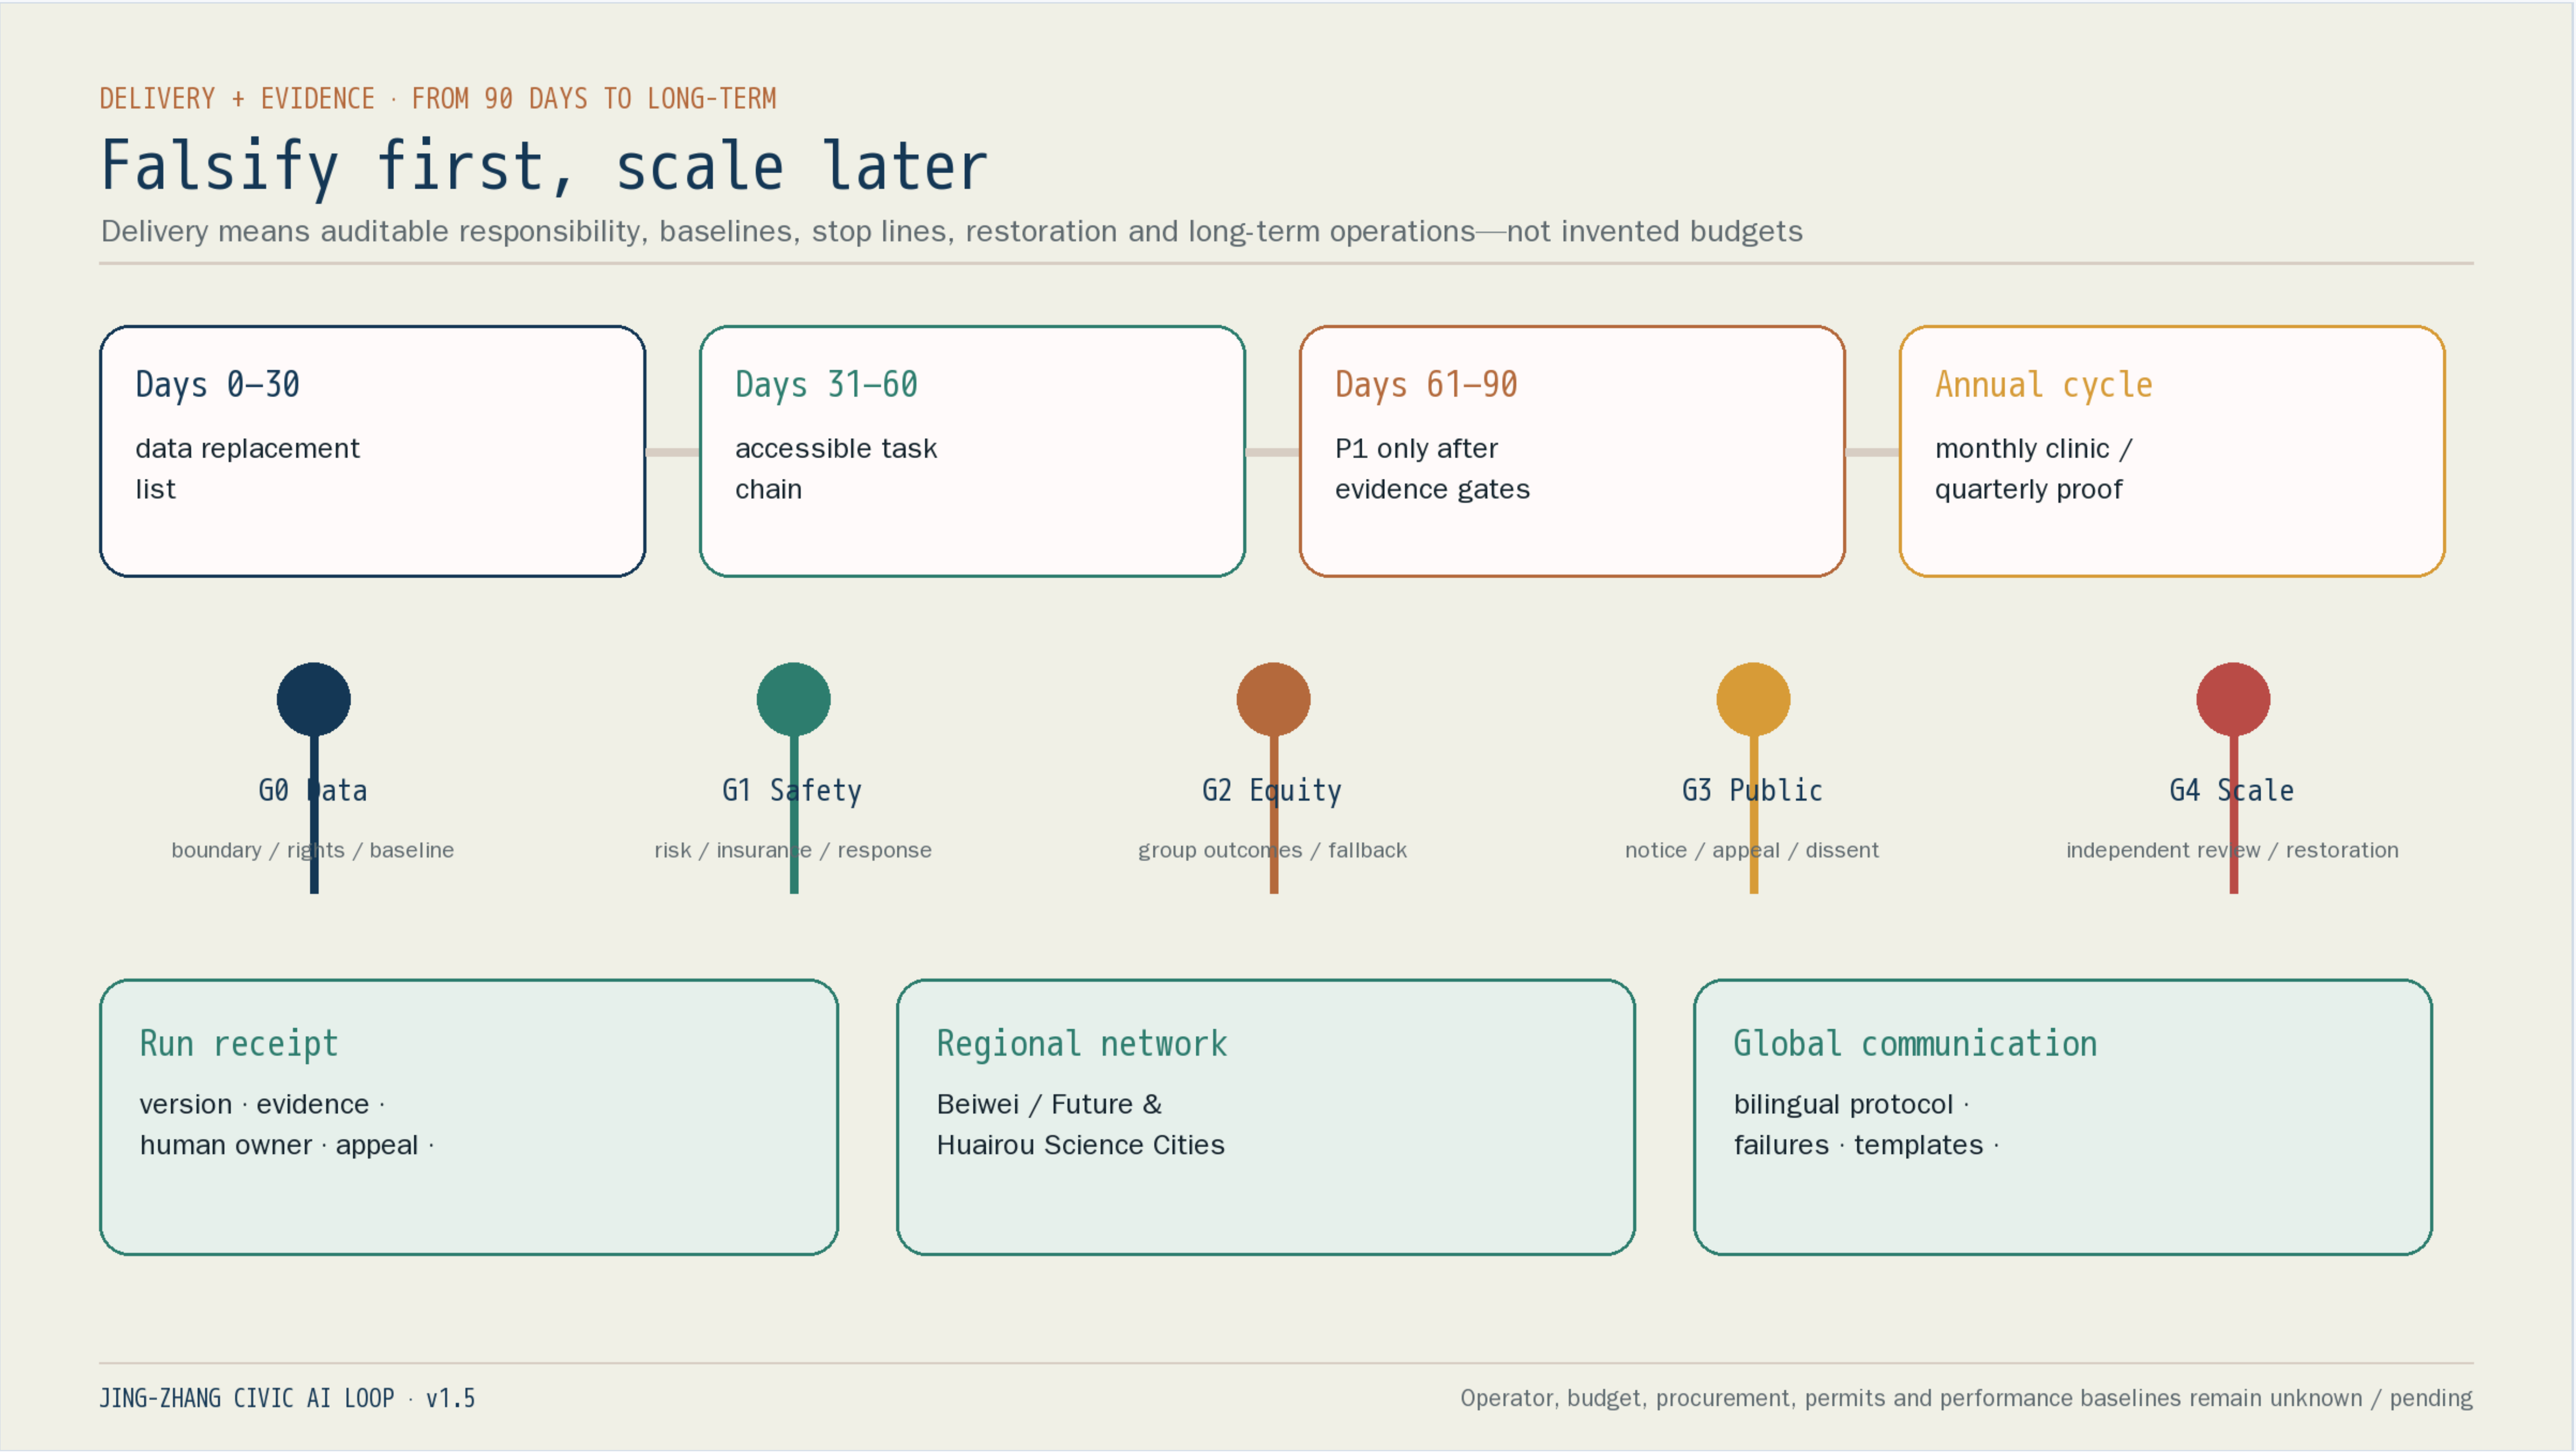

Field walks, independent evaluation, worst-group performance and traceable receipts decide—not a flattering average.

Hard stop

Pause, repair or exit on unresolved severe harm, failed human takeover or deterioration for a key group.

Three AI pilgrimage landmarks and an auditable evidence loop

Honour follows verifiable contribution; unknown metrics prove G1 has not passed rather than inviting invented targets.

Jing-Zhang Proof Signal

PROV-KEY-001 + PUBLIC-001 | Railway signal grammar links reviewed history to public verification.

Dazhongsi Civic AI Forum

PROV-KEY-003 | Residents, developers and operators question AI; human appeal and accessible seats remain visible.

A-LANDMARKS-001

All three are reversible conceptual components. Exact location, boundary, area, FAR, title, budget, operator and government endorsement remain unknown.
