

REVIEW ENTRY

- 97.0M m²·h/week is a designed-supply index, not measured performance.
- Staffed, phone, paper and accessible web routes remain equivalent.
- Every boundary is provisional; official polygons trigger a full-chain recalculation.

168

English evidence edition · v2.0

TZ-01 CITY LOUNGE	BK-01 / BK-02 continuous operating section	5 SCN
TZ-02 KNOWLEDGE TRANSFER	BK-03 / BK-04 continuous operating section	4 SCN
TZ-03 MODEL VALIDATION	BK-05 / BK-06 continuous operating section	3 SCN

Boundaries support design comparison only; official data triggers one replacement, crop and recalculation chain

PROVISIONAL DESIGN GEOMETRY · not an official boundary, approval, or setting-out survey
Source: local submission package · deterministic local layout

SPATIAL CONTRACT

3

zones: city lounge / knowledge transfer / model validation

6

booking segments: an operating section, not an administrative boundary

7

time components: board, gate, bay, quiet, reset, stop, evidence

12

scenario nodes: each binds data, human gate, stop and restore

PROVISIONAL DESIGN GEOMETRY · not an official
boundary, approval, or setting-out survey

DESIGN

reproducible

PROVISIONAL

replace with official evidence

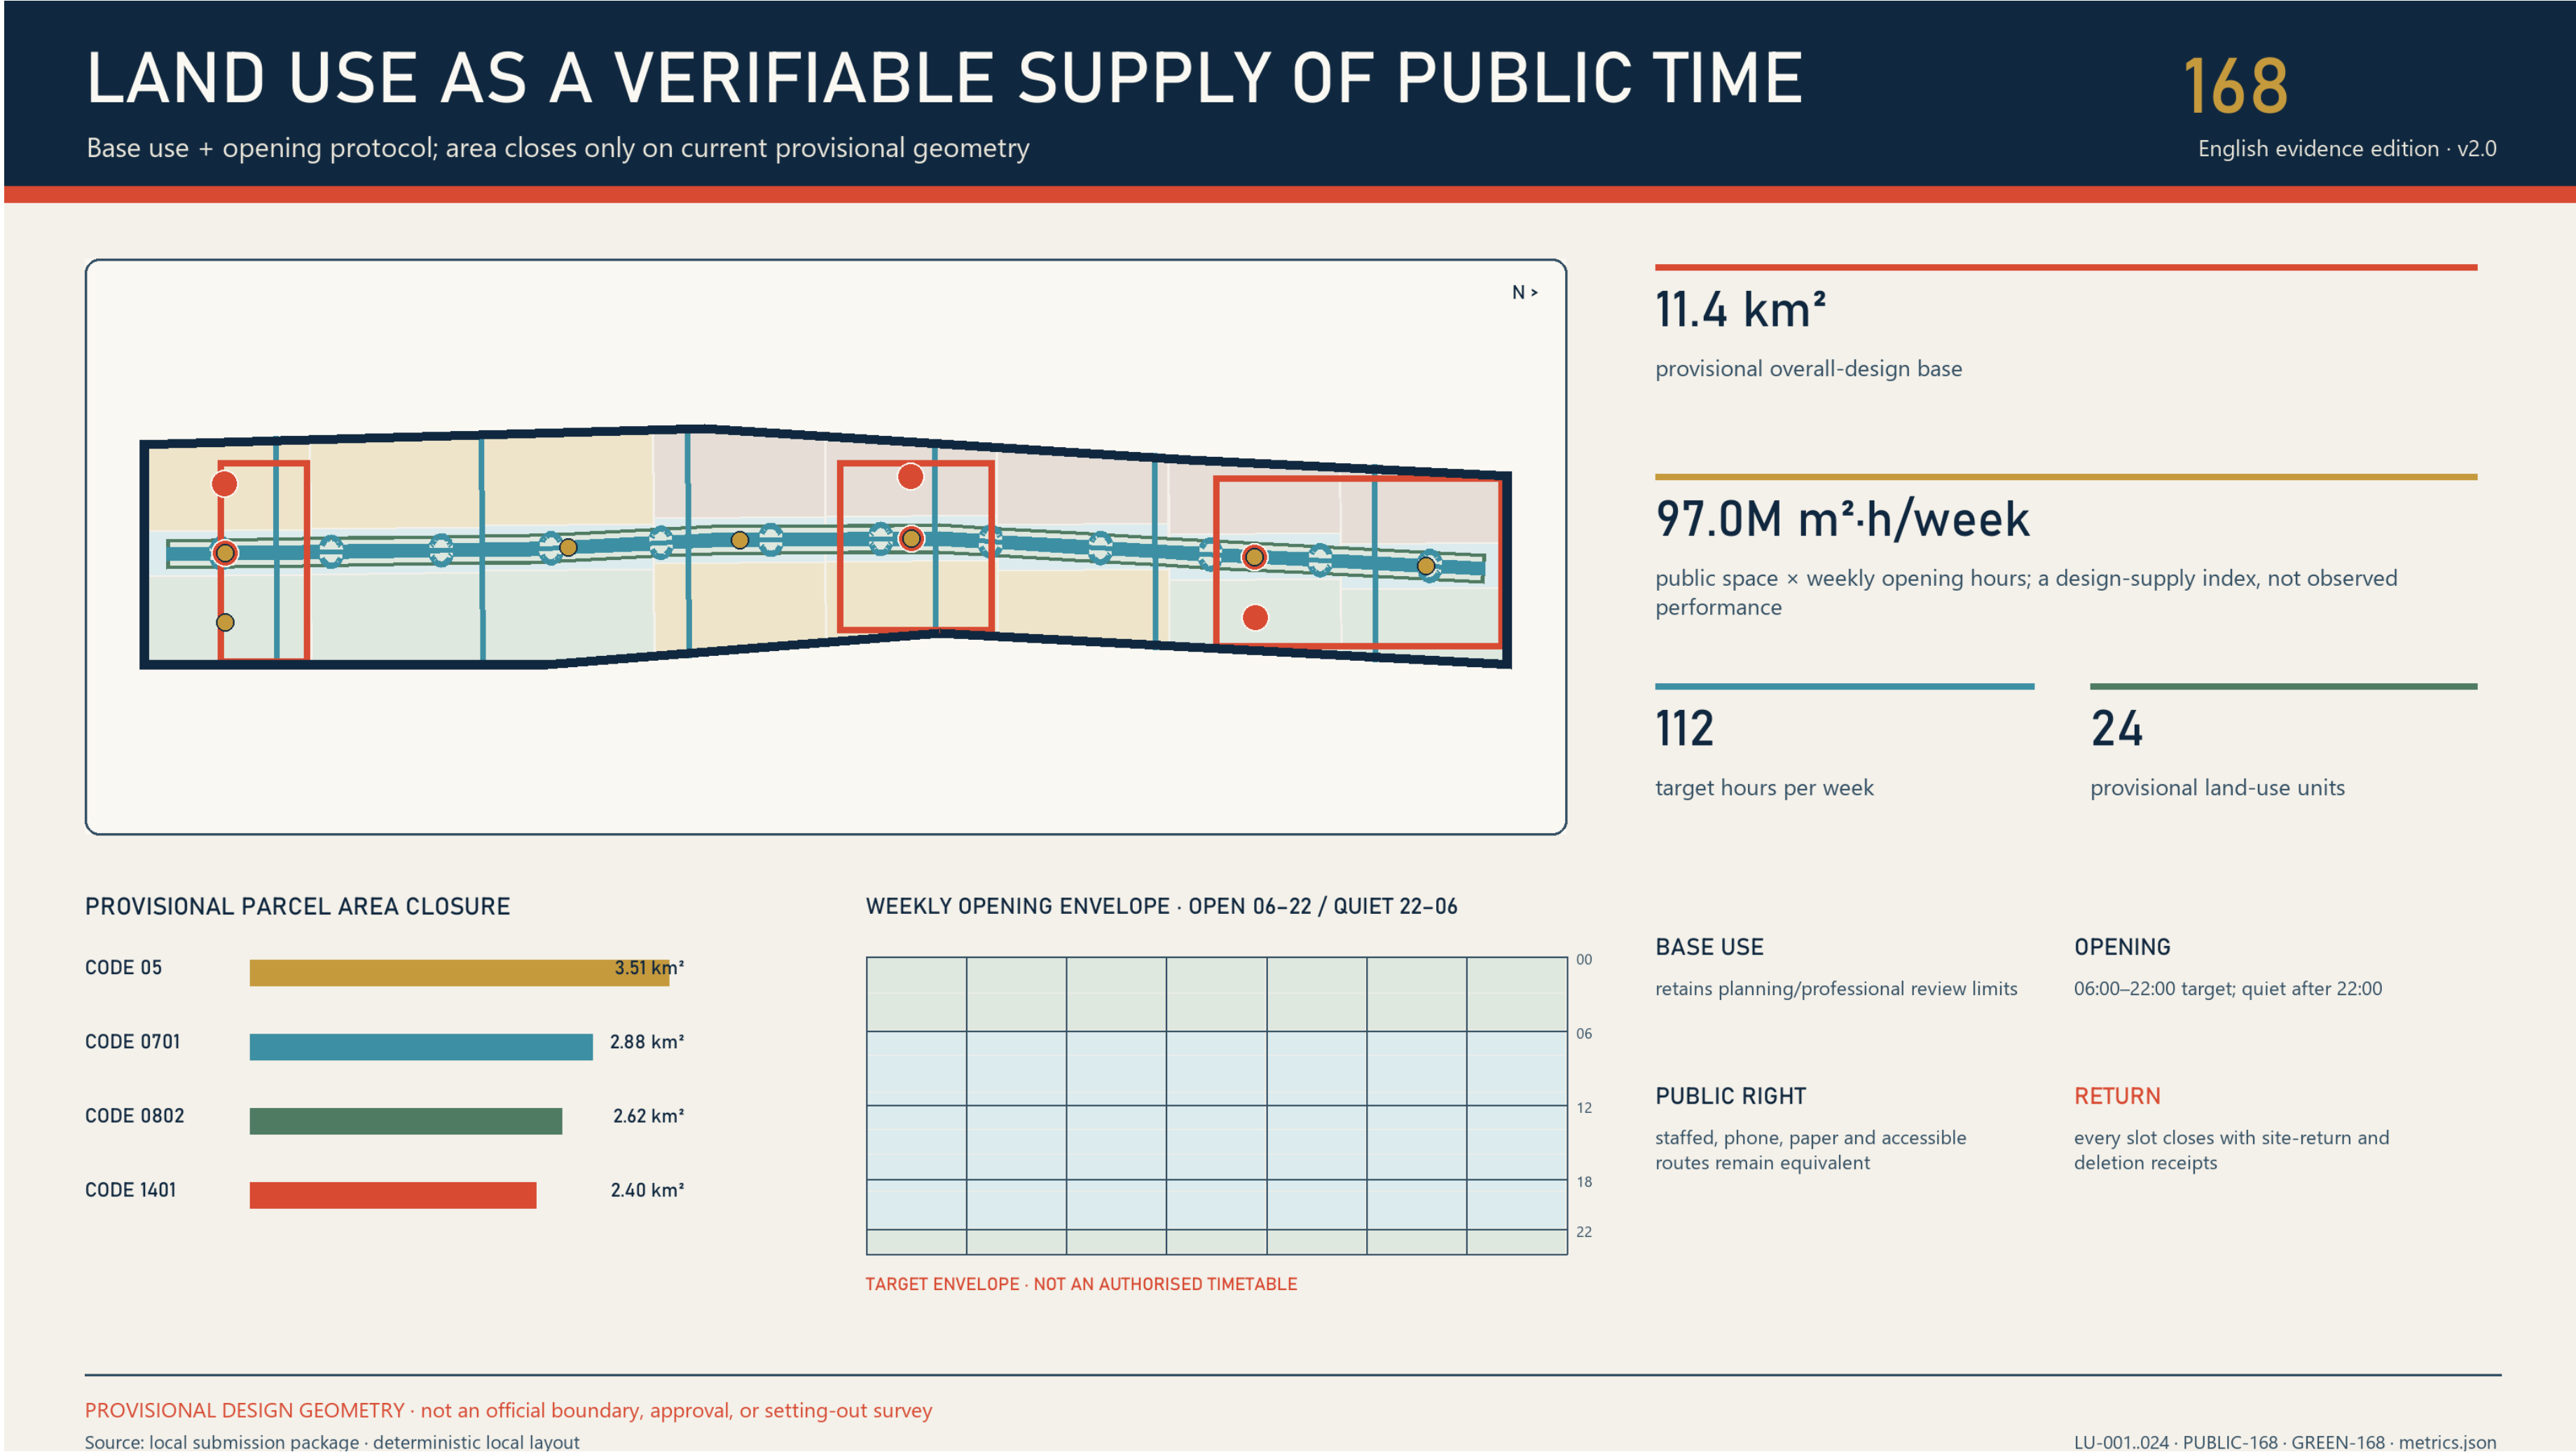

STOP

do not override

RETURNED

restored

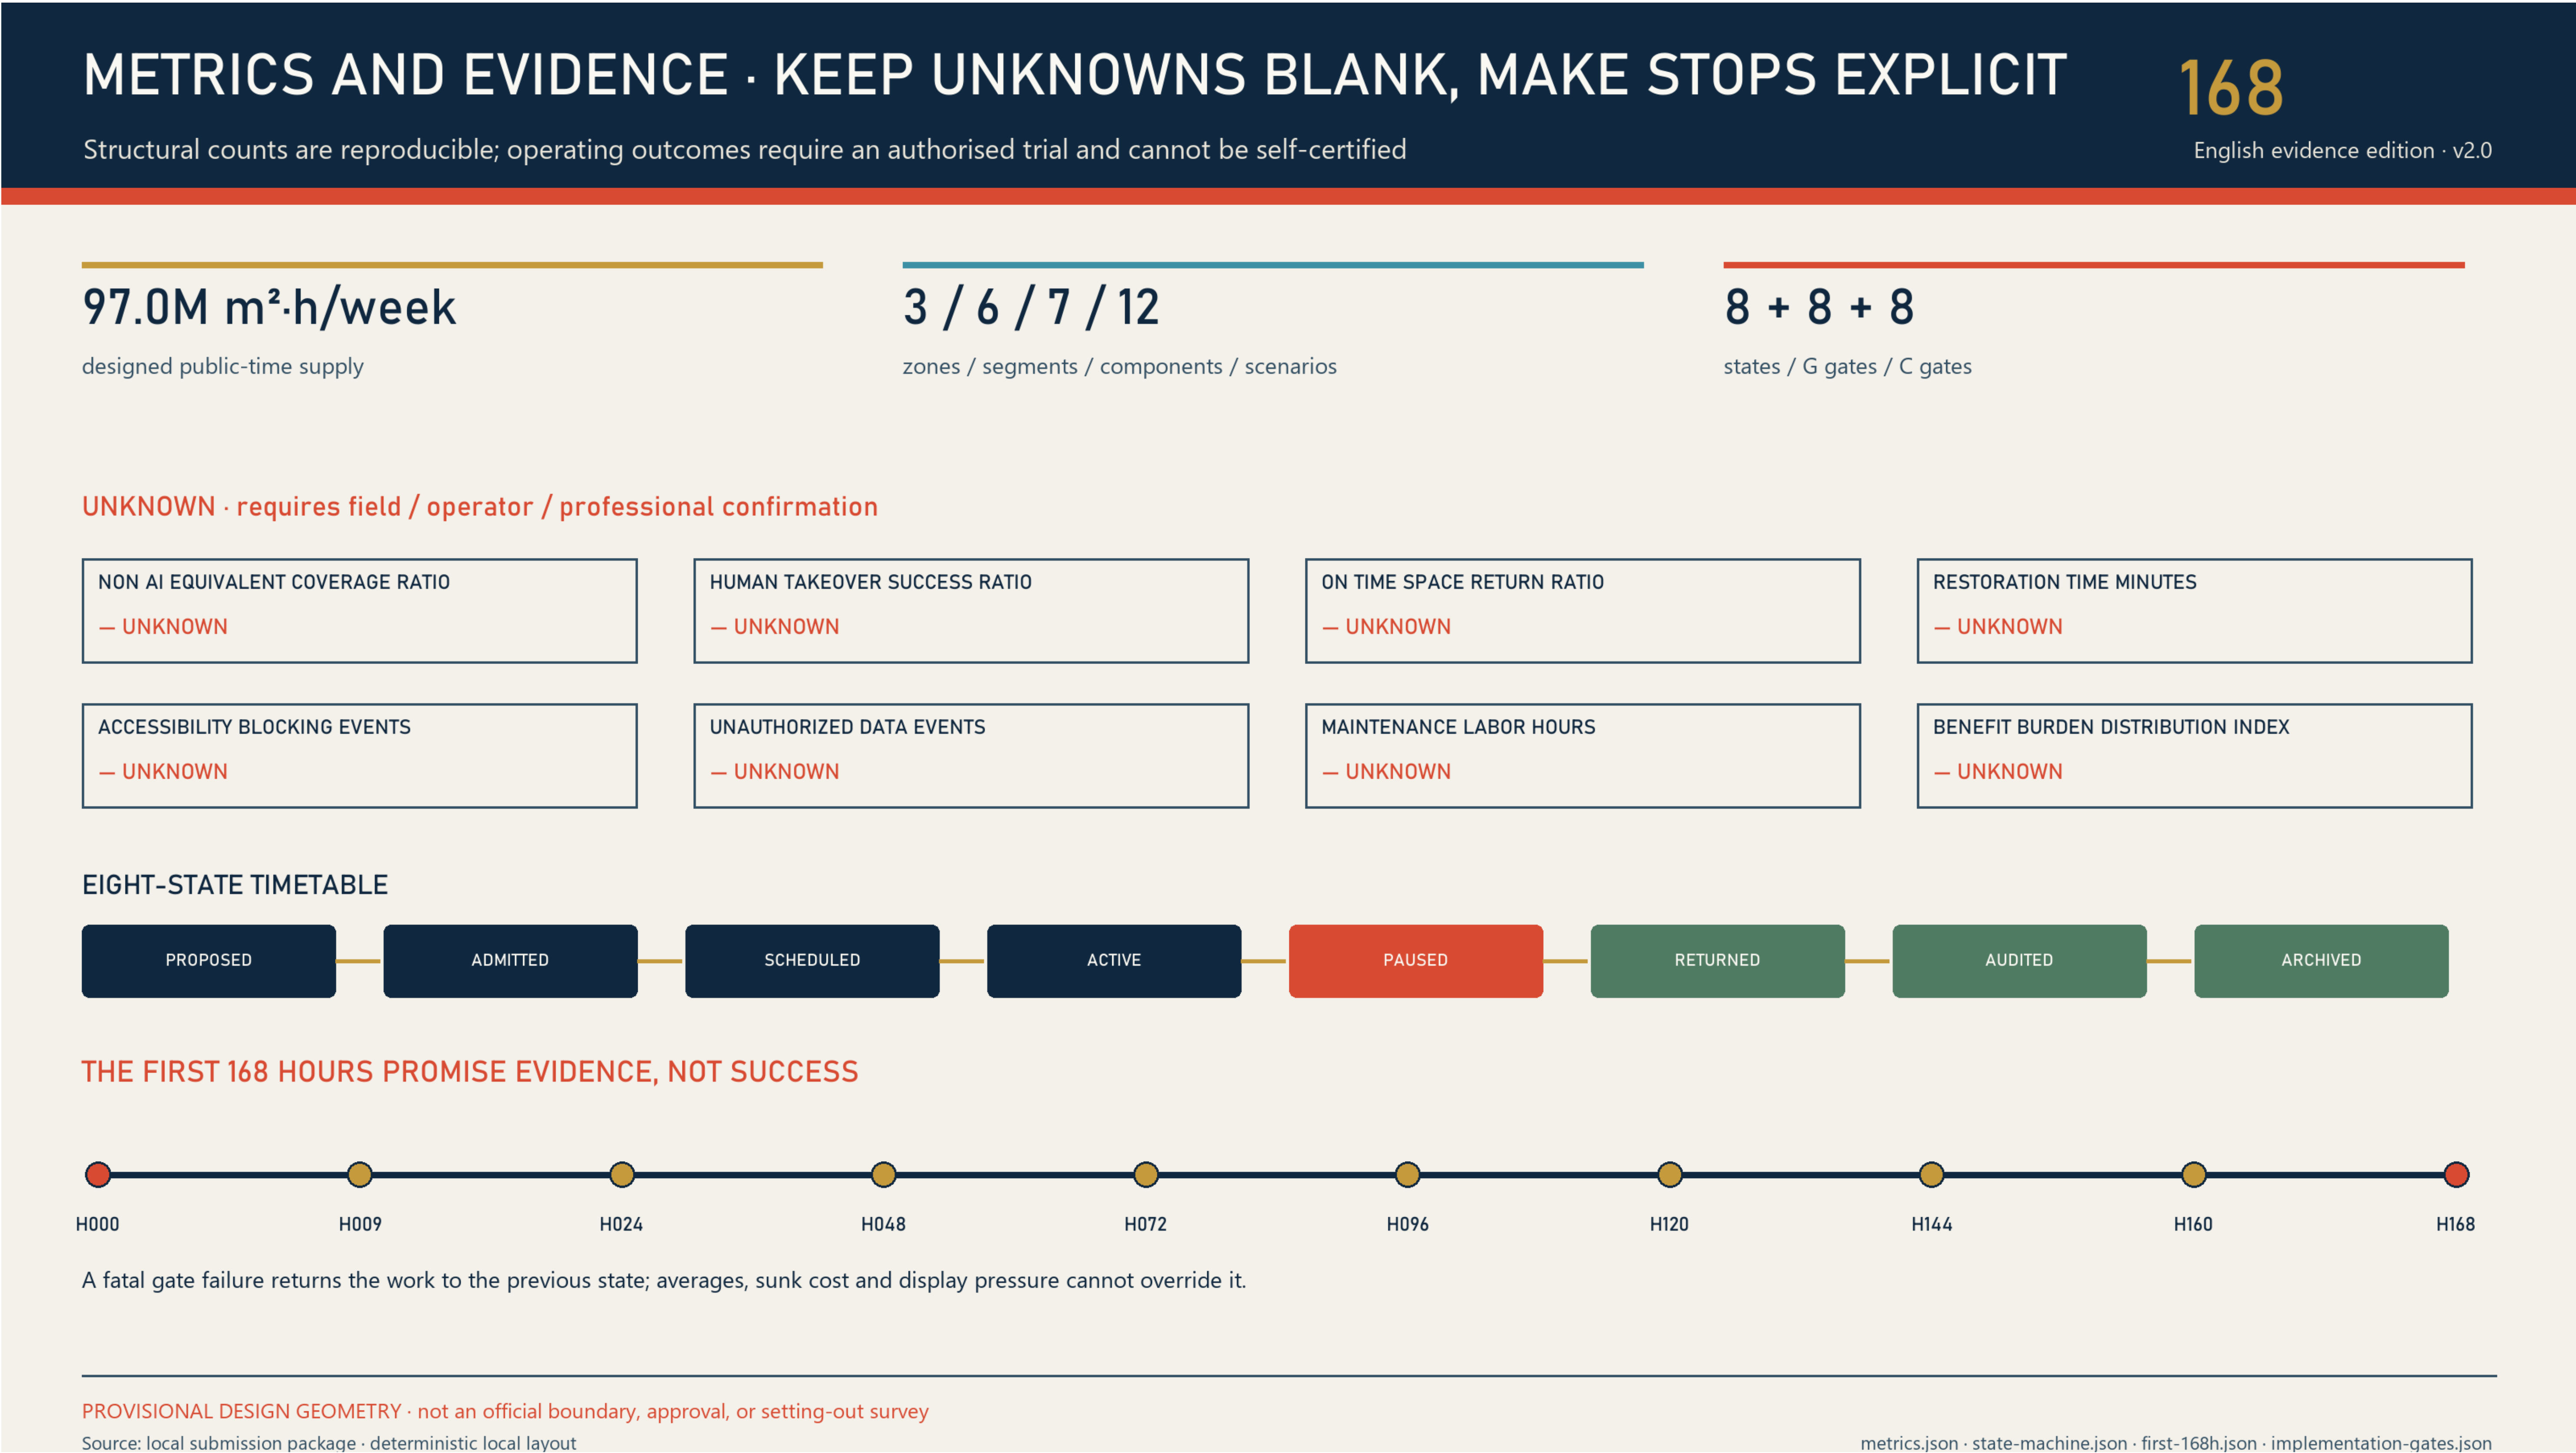

AI never overwrites base use; opening protocols depend on continuous passage, quiet, maintenance and restoration.

Eight states, G0–G7/C0–C7, separated powers and a nine-stage first week make AI service pausable, appealable and returnable.

REVIEW ENTRY

- proposed → admitted → scheduled → active → paused → returned → audited → archived
- The scheduler cannot self-admit; a model cannot hold A in RACI.
- H168 permits only a human archive / readmit / retire decision.

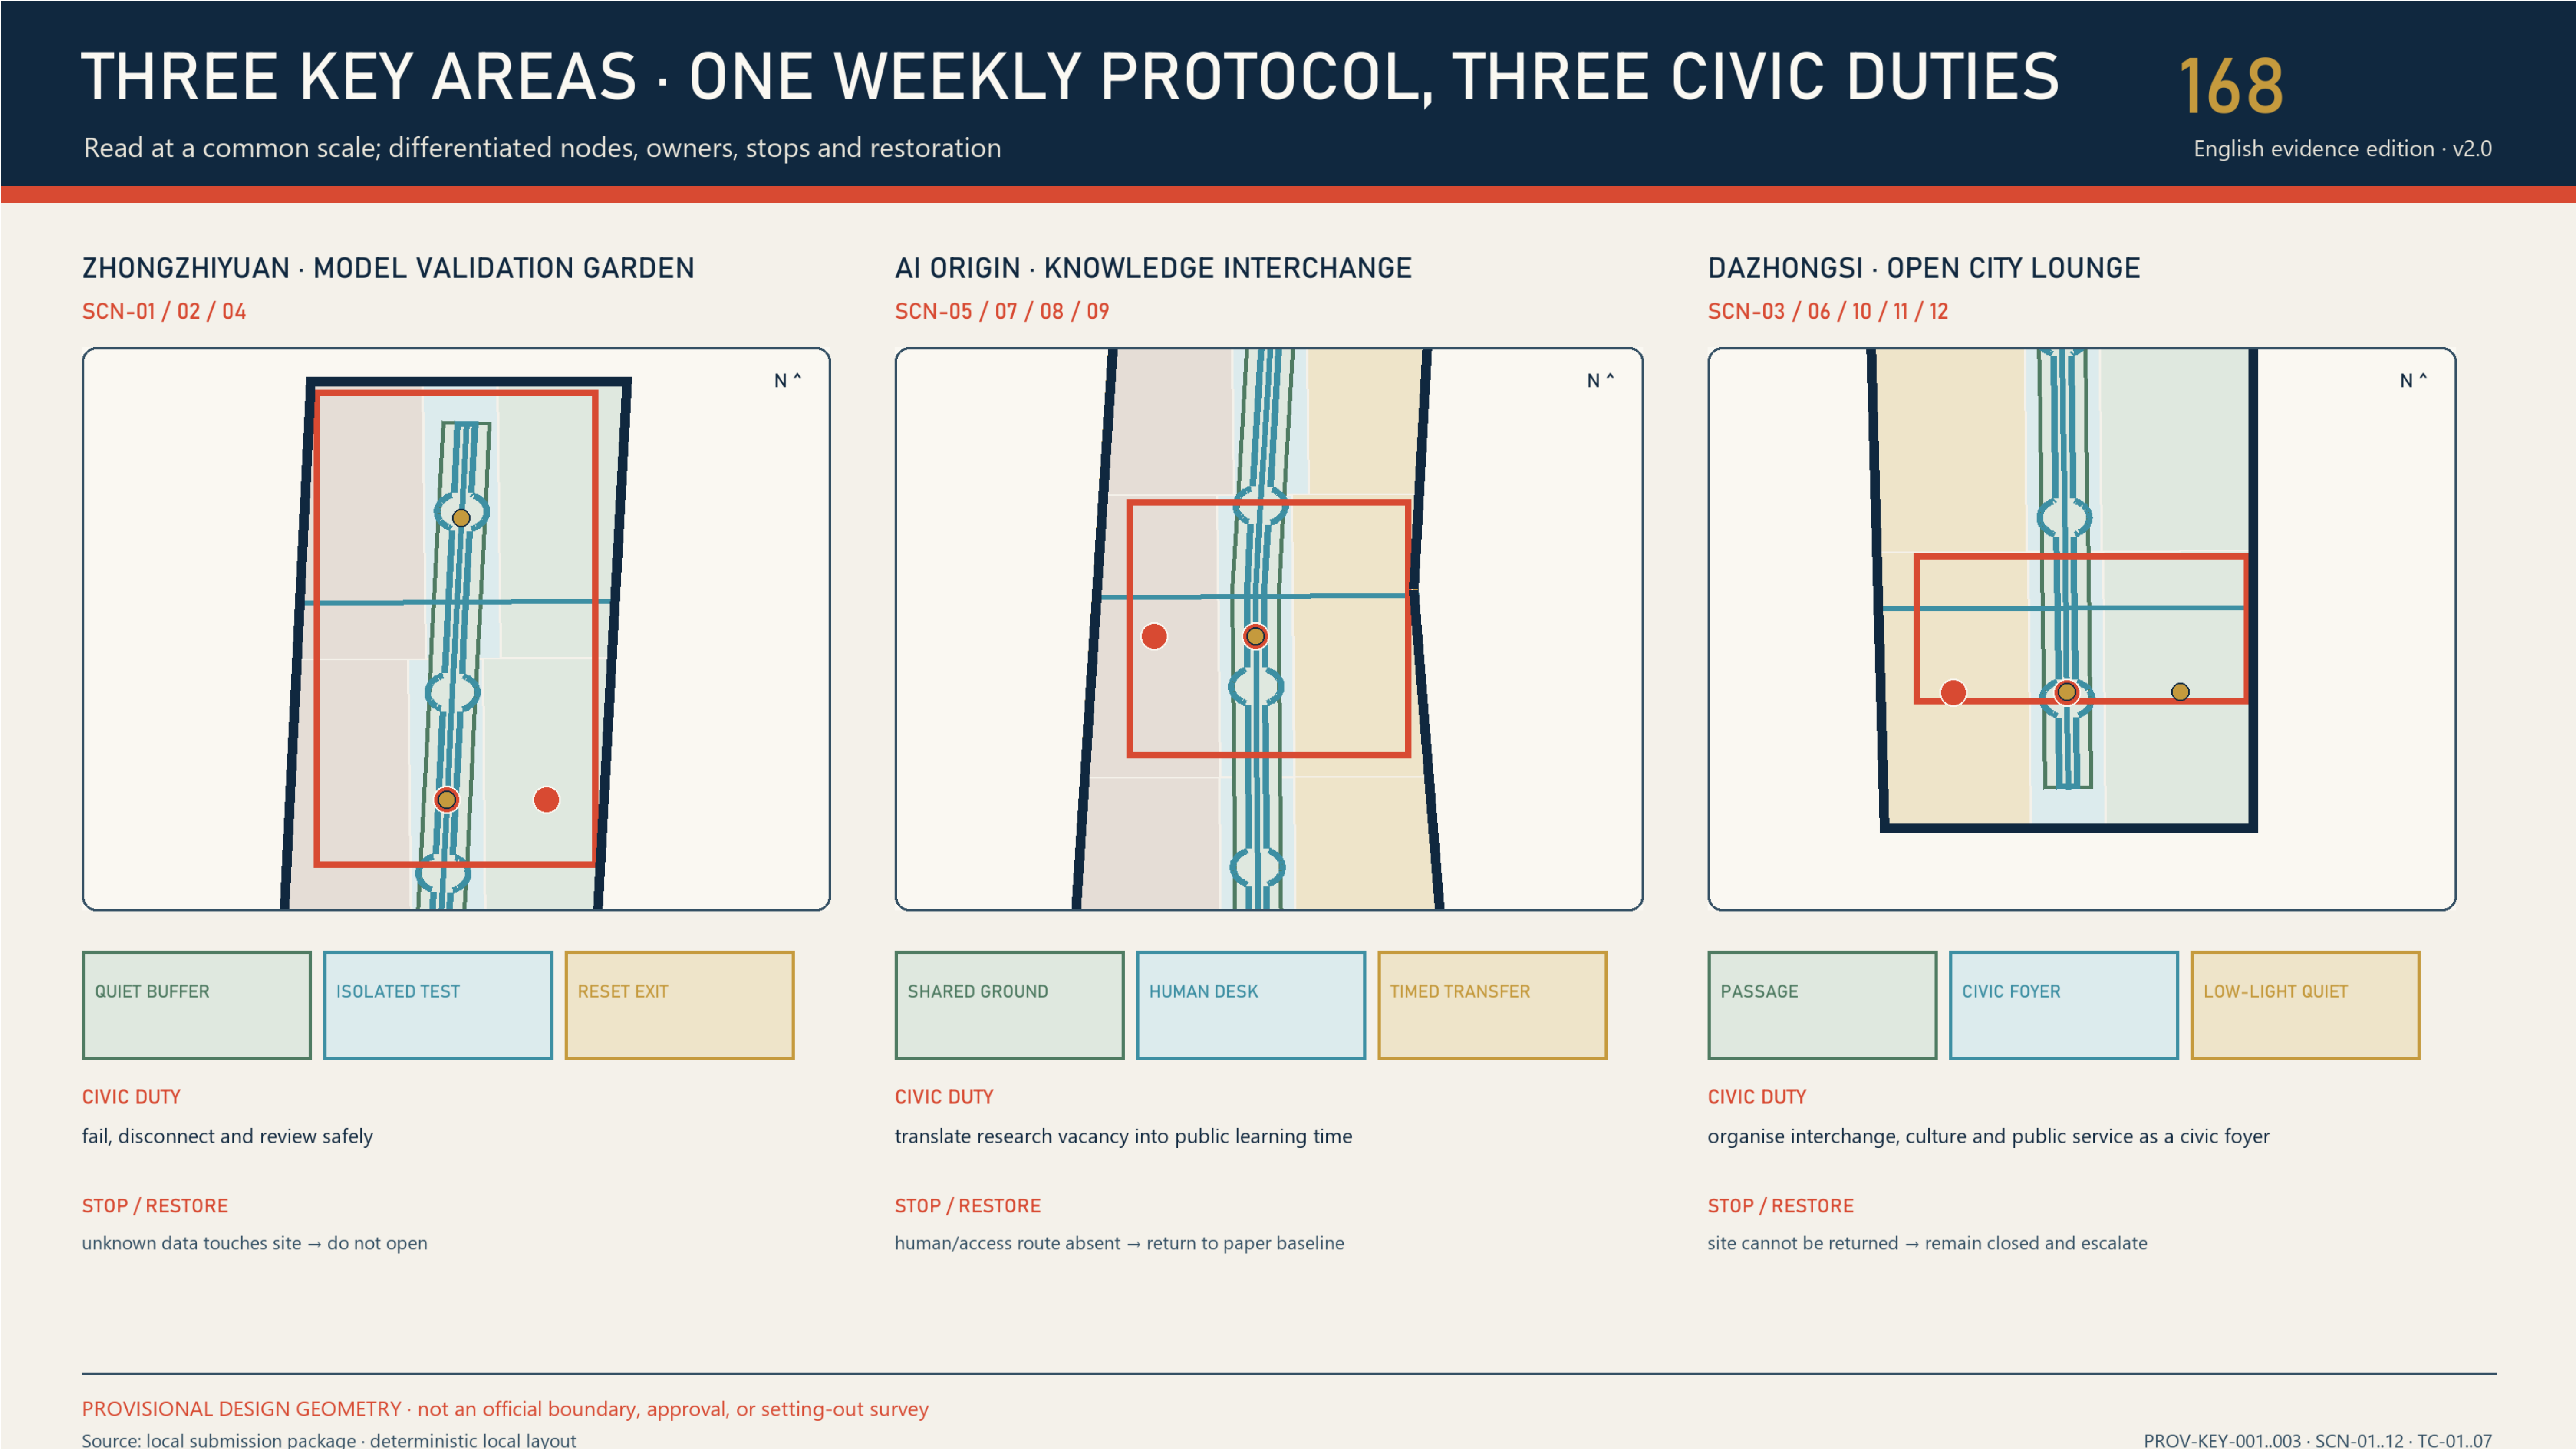

THREE KEY AREAS — COMMON SCALE, DIFFERENT ACCOUNTABILITY

Model Validation Garden, Knowledge Interchange and Open City Lounge carry safety, transfer and civic-foyer duties.

REVIEW ENTRY

- Each binds distinct scenes, data limits, SLOs, stops and restoration.
- Current boundaries support directional design only, never setting-out.

RAIL MEMORY AND SEVEN TIME COMPONENTS

Identity operates through time, sightlines, material and public controls; the concept image carries no evidence.

CONCEPT EXPERIENCE · GPT Image 2 · presentation only · not spatial evidence

REVIEW ENTRY

- Week board · human gate · time bay · quiet edge
- Reset mark · accessible stop · evidence clock
- Navy=accountability; gold=operating time; red=stop/exit.

NINE PROJECTS, RACI AND A TWELVE-WEEK DELIVERY PATH

Each package can stop independently when responsibility, resources, public interest, safety or evidence fail.

REVIEW ENTRY

- PRJ-01 public-time ledger → PRJ-04 seven-component kit.
- PRJ-05 first-168 laboratory → PRJ-07 barrier-free interface.
- PRJ-08 failure/appeal archive → PRJ-09 evidence-to-exit.
- W04 / W08 / W12: continue / narrow / retire; never automatic expansion.

METRICS, EVIDENCE, RISK AND RIGHTS

Structural counts are reproducible; outcomes remain unknown; official and professional gaps form a recalculation/handover list.

REVIEW ENTRY

- Five core figures are deterministic views of local data.
- Four GPT Image 2 images are presentation-only and disclosed asset by asset.
- COMMUNITY-DISPLAY-ONLY; no government adoption, implementation or endorsement is implied.
