

COMMON TIME JING-ZHANG

清华园老站房 | 2024 | N509FZ

清华园公园成府路入口 | 2024 | N509FZ

清华老站房公园 | 2020 | N509FZ

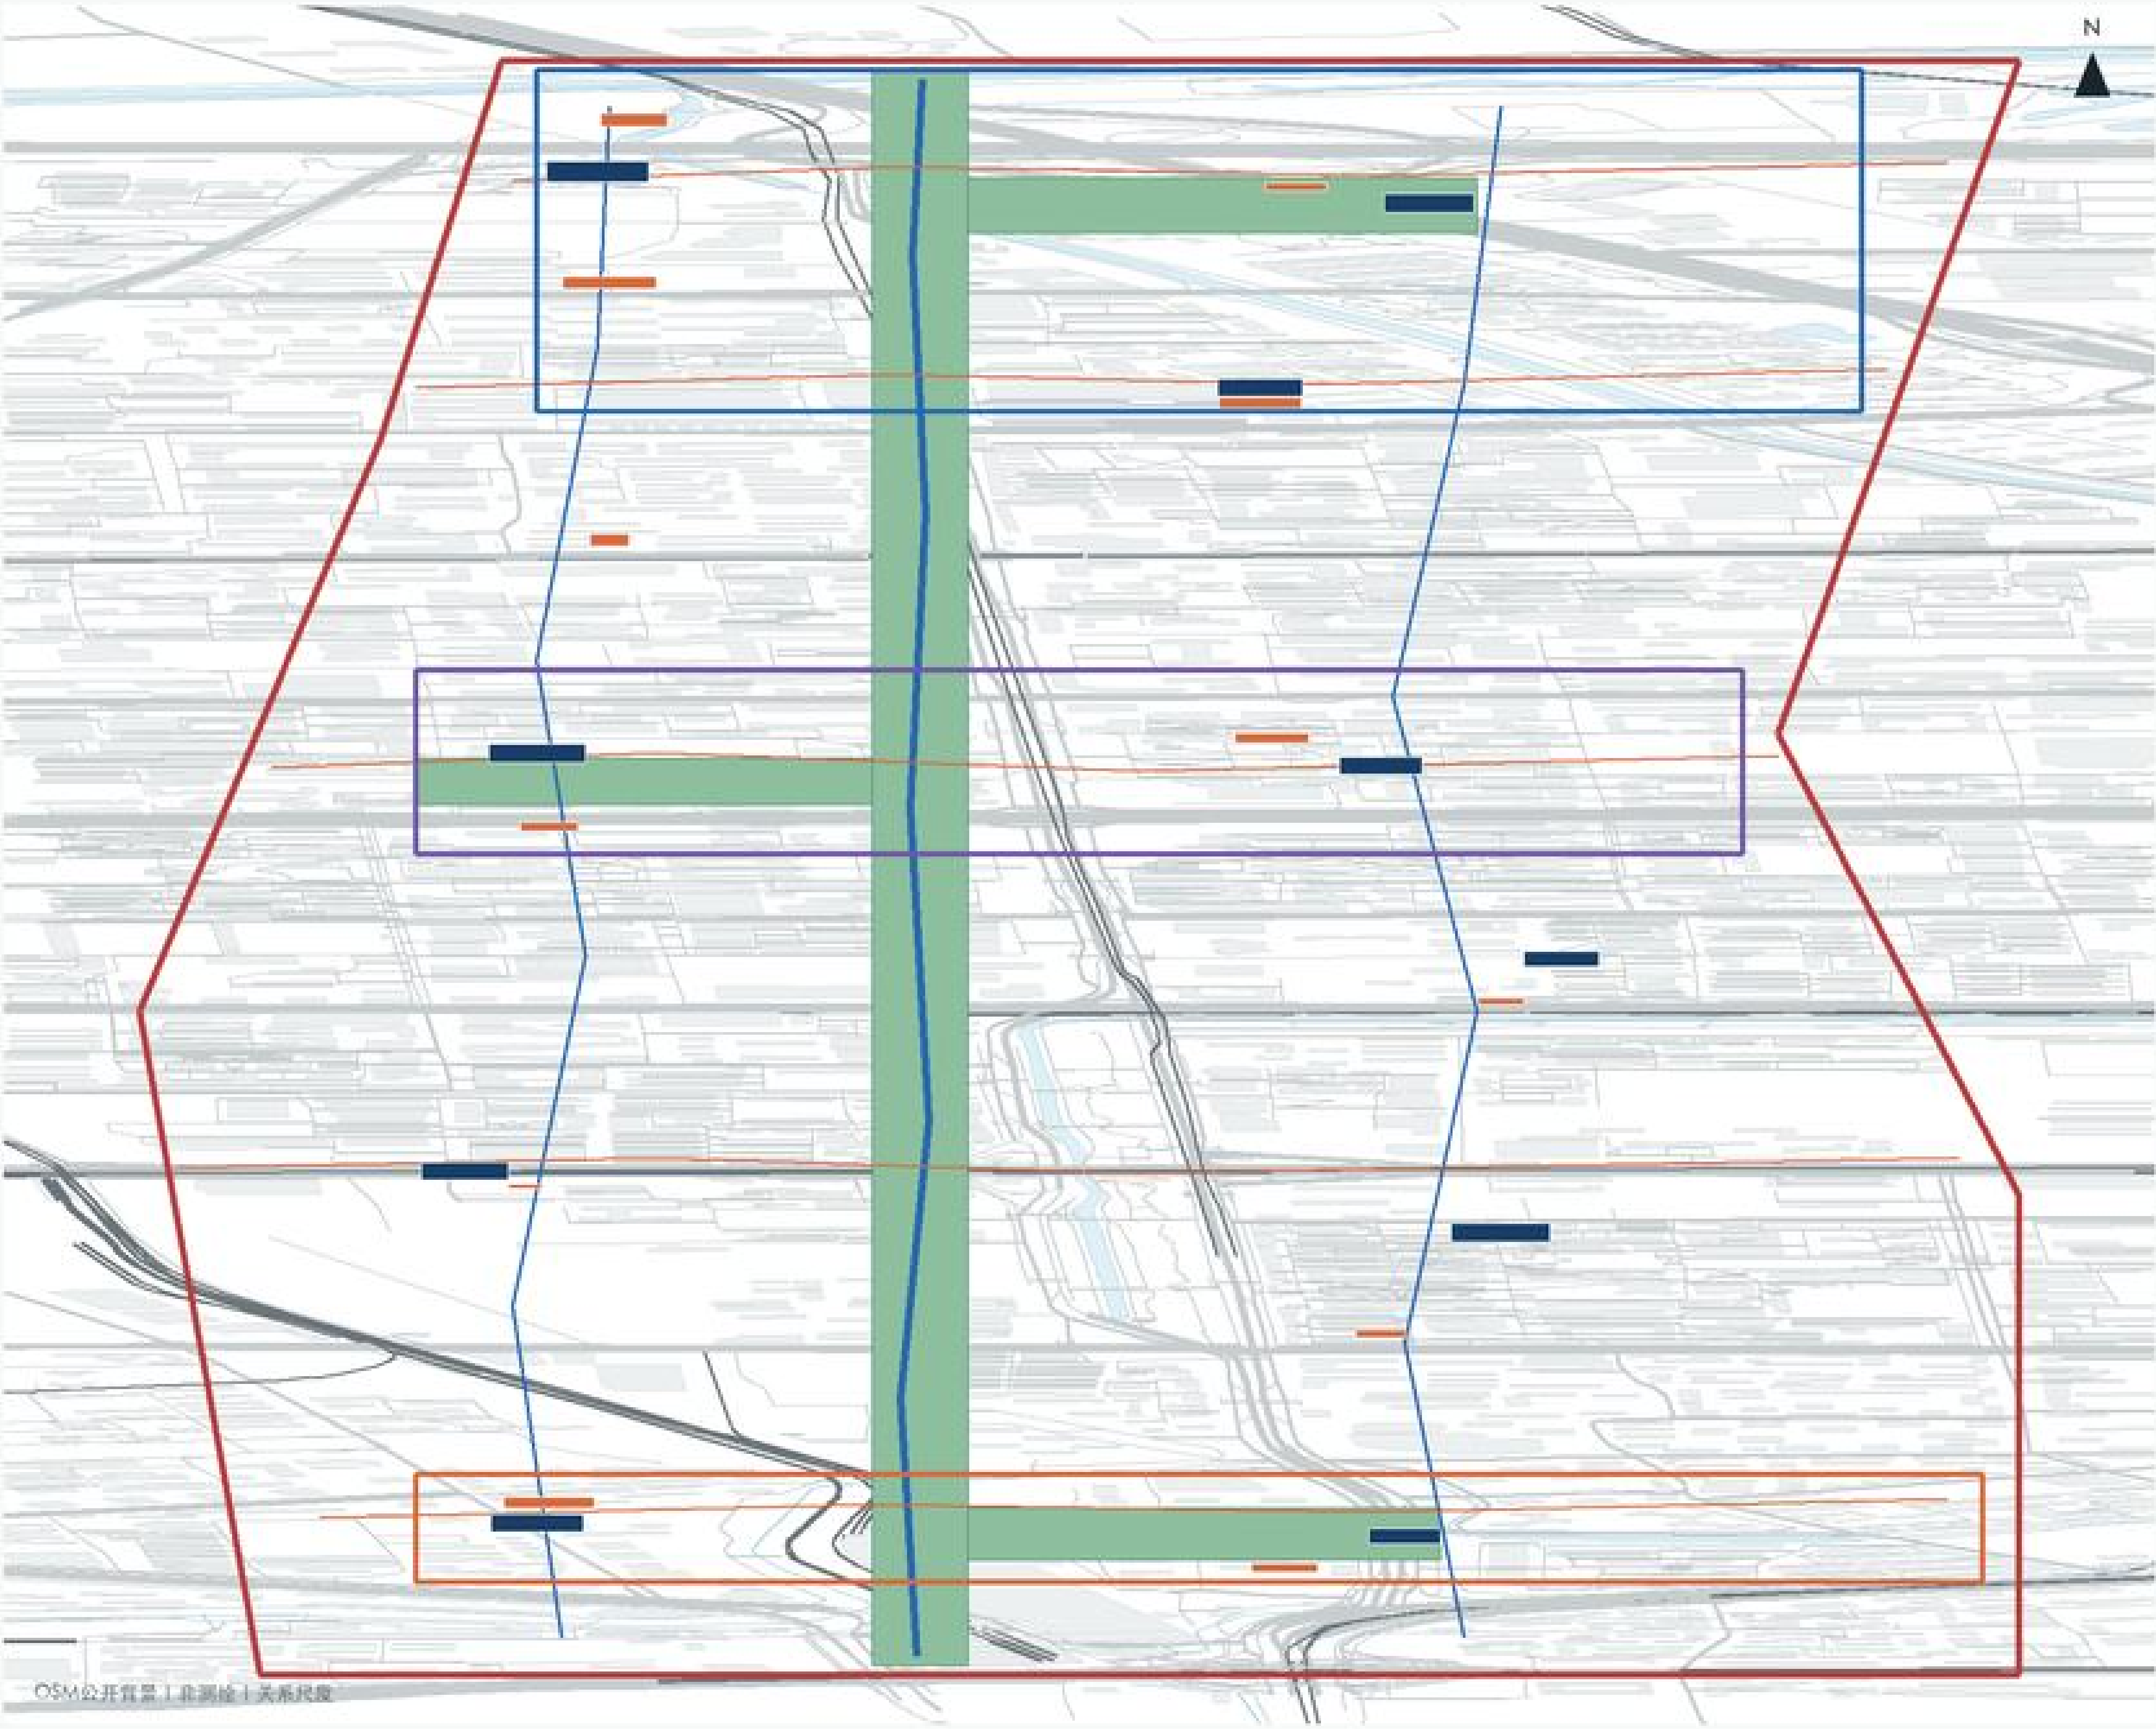

Every deployment starts with a problem owner, independent verification, a human route and an exit contract.

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

02 / RELATIONAL MASTERPLAN

ONE SPINE · THREE CLOCKS · TWO WINGS · TWELVE COMMONS

A relational masterplan: provisional geometry is not a statutory boundary.

COMMON TIME JING-ZHANG / V8.0

STRUCTURE LEGEND

ONE SPINE | memory · ecology · slow mobility
THREE CLOCKS | VERIFY · LEARN · LIVE
TWO WINGS | technology service · urban needs
TWELVE COMMONS | arrival · test · learn · quiet

EVIDENCE GATES

VERIFY | reproducible and controlled testing
LEARN | public translation and correction
LIVE | bounded trial, human takeover and retirement

INTERVENTION ORDER

01 SHARE | measure real additional use
02 RETROFIT | access, ground floor, shade, separation
03 ADD LIGHTLY | movable, maintainable, restorable
04 BUILD ONLY WITH EVIDENCE | boundary, title, heritage, capacity and TCO

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

The relational masterplan organises questions without claiming statutory geometry.

UNKNOWN + SPATIAL ROLES + OPERATING TIME

03 / THREE OVERLAYS

FROM FALSE PRECISION TO UNKNOWN + SPATIAL ROLES + OPERATING TIME

Three aligned layers; land-use codes support topology and are not regulatory recommendations.

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

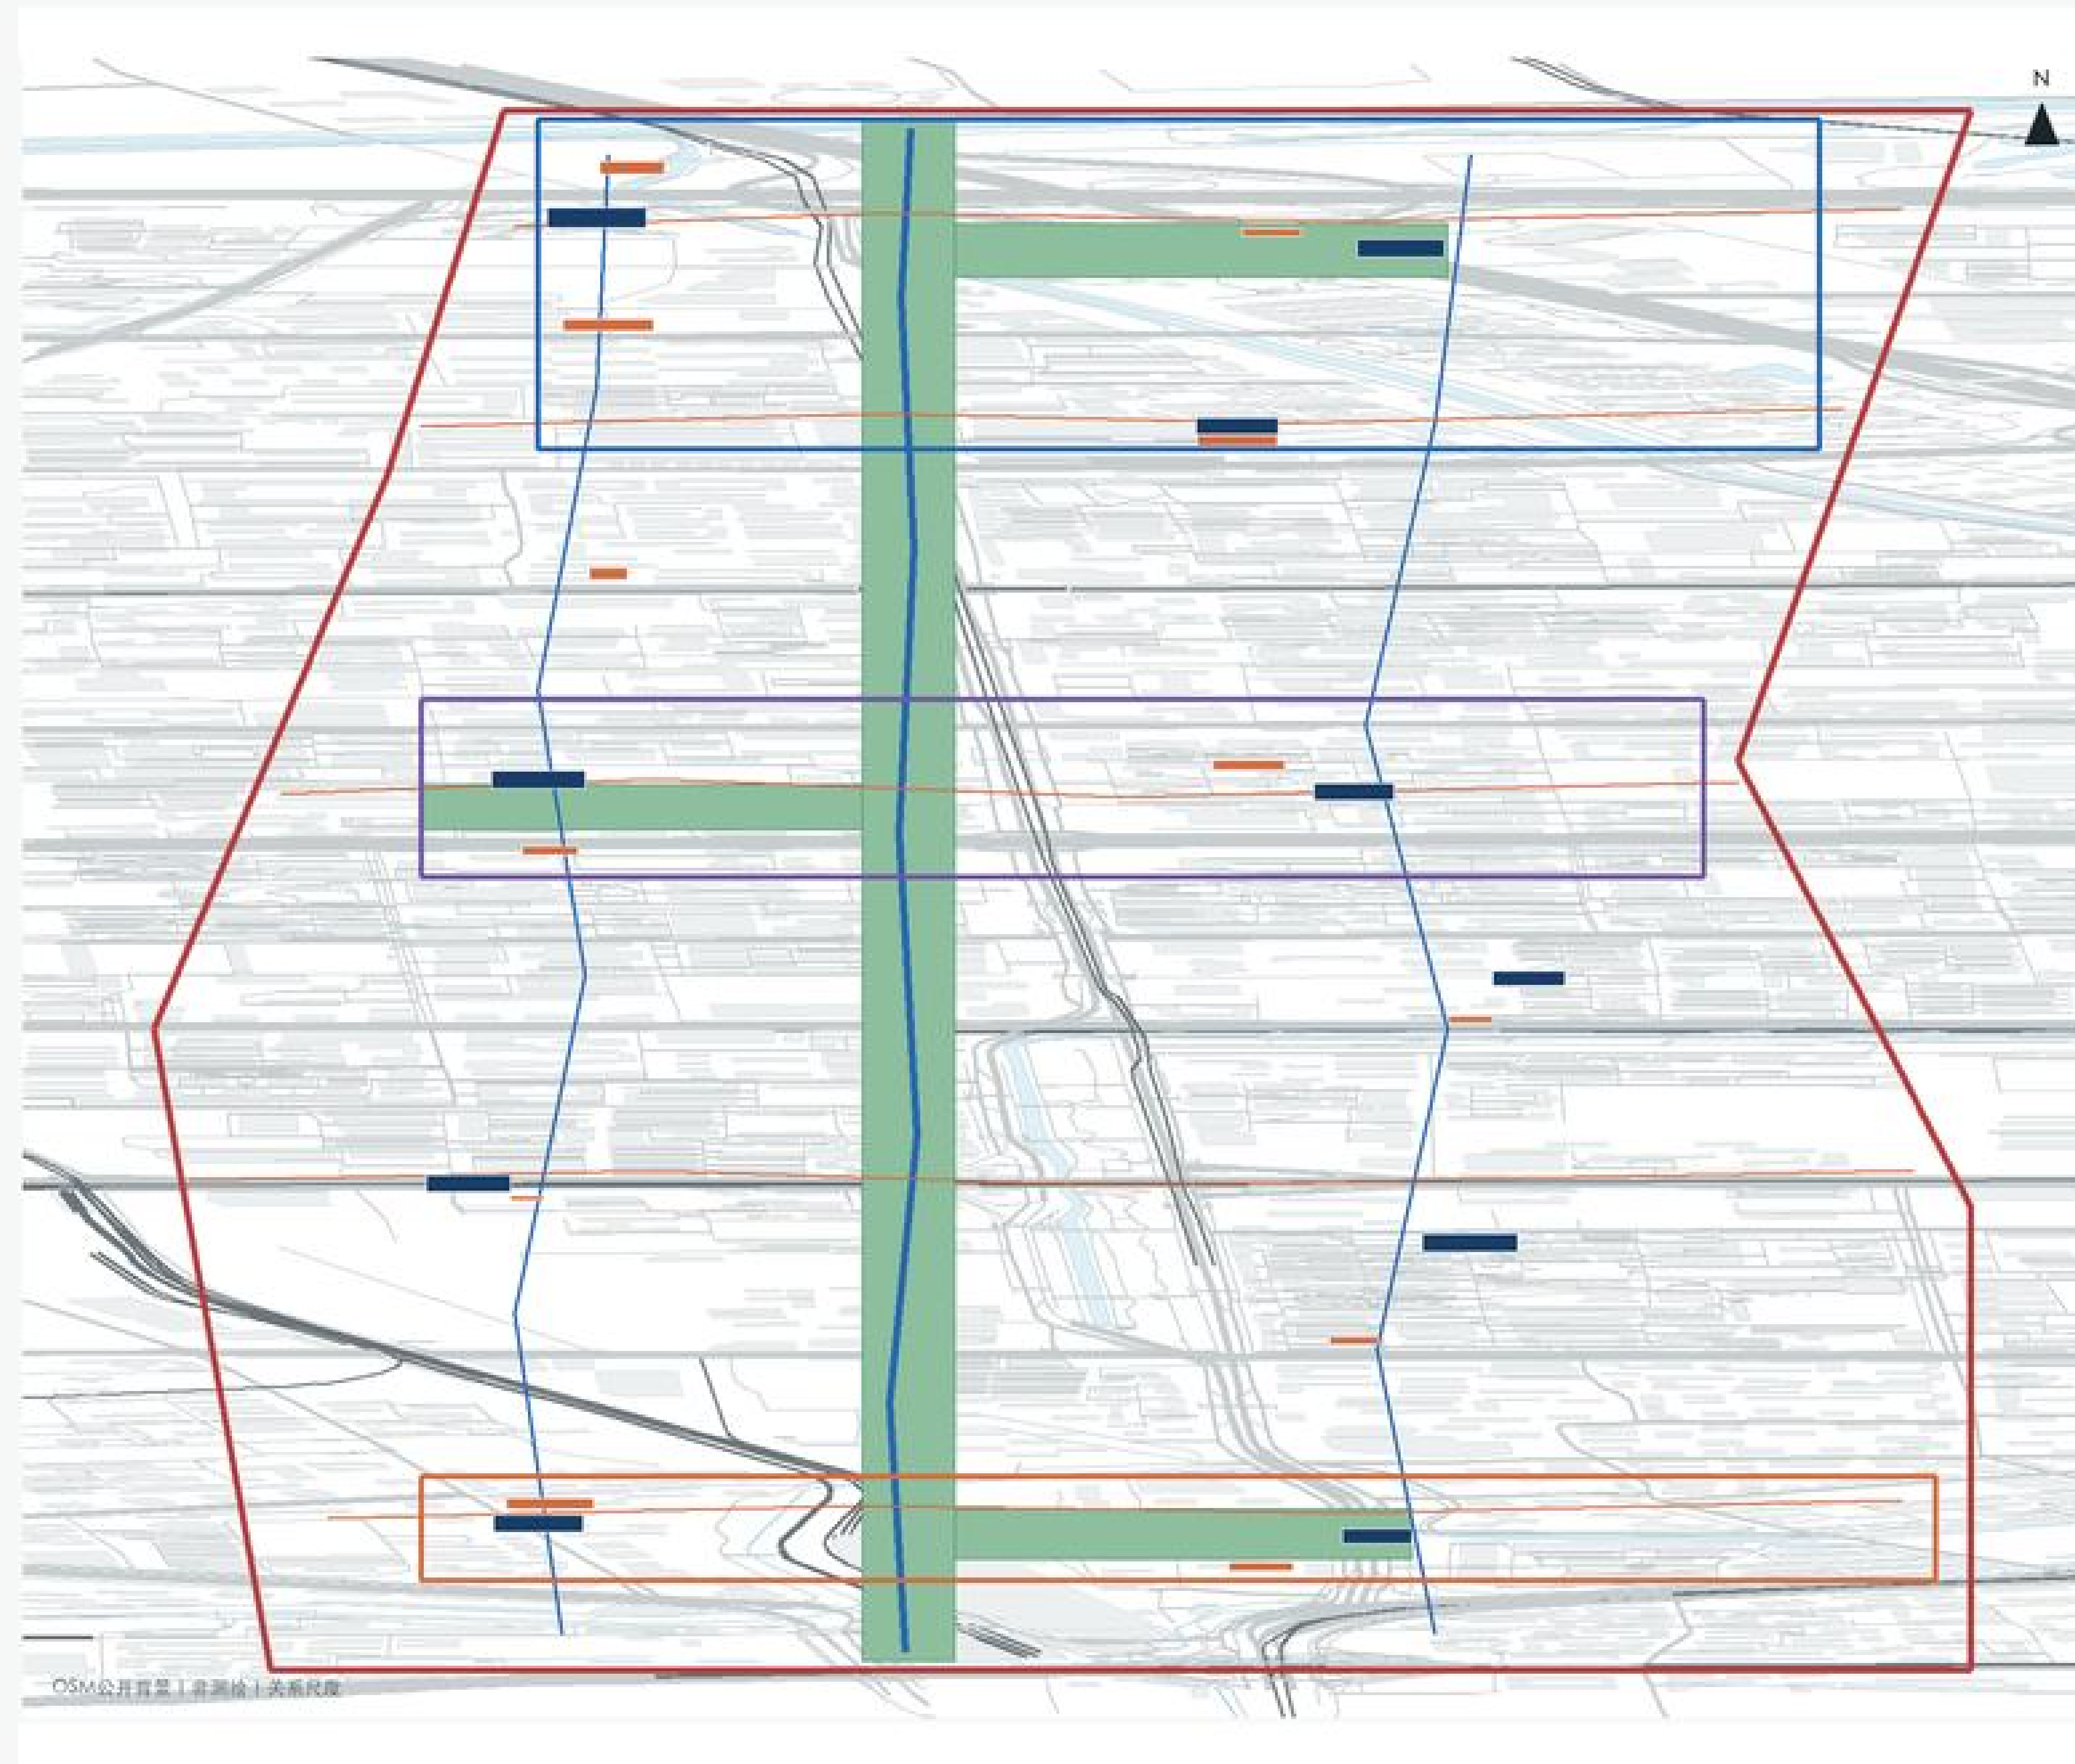

Aligned layers compare missing evidence, conceptual roles and negotiated operating time.

MOBILITY • BLUE-GREEN • UTILITIES • GROUND FLOOR

05 / SYSTEMS + SECTIONS

NEGOTIATE MOBILITY, BLUE-GREEN, UTILITIES AND GROUND FLOOR TOGETHER

Candidate links register questions; sections expose sequence, conflict and professional handoff.

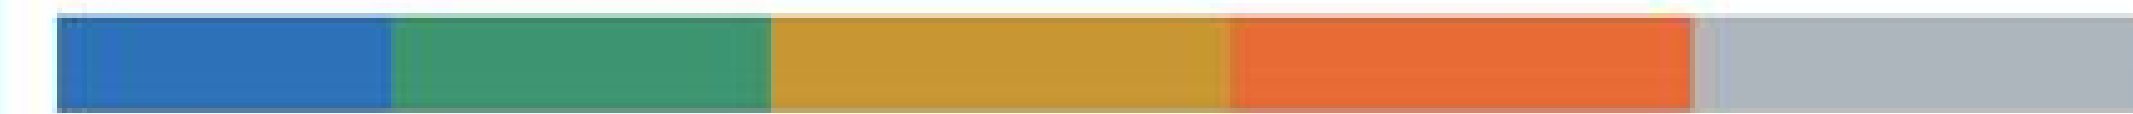

OSM 公开数据 | 来源标注 | 关系网络

COMMON TIME JING-ZHANG / V8.0

T1 QINGHE—VERIFY

river | maintenance | public | separation | controlled
Verify flood, ecology, Fifth Ring and maintenance.

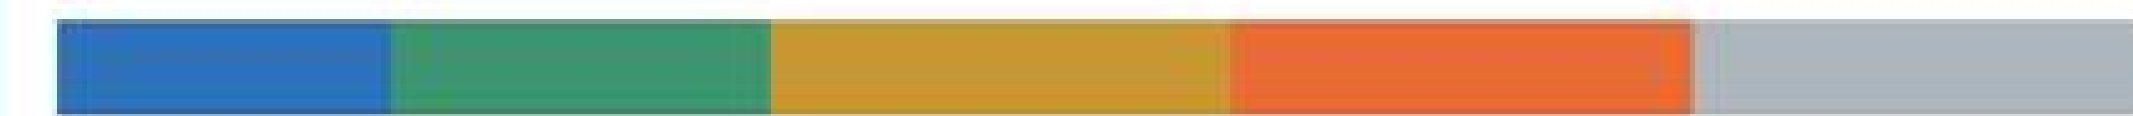

T2 CAMPUS—LEARN

campus | edge | learning | community
Verify heritage, access, roads, fire and IP.

T3 HERITAGE—COMMUNITY

memory | slow mobility | shared ground floor | daily life
Verify identity, noise, light, loading and access.

T4 STATION—CIVIC ROOM

station | cycle | wait | trial | quiet
Verify passengers, evacuation, kerb, utilities and takeover.

CONCEPT PROPOSAL • NOT AN APPROVED PLAN • PROVISIONAL RELATIONSHIPS • PROFESSIONAL VERIFICATION REQUIRED

Four sections expose conflict, professional inputs and human takeover.

VERIFY · LEARN · LIVE

04 / THREE KEY AREAS

THREE KEY AREAS: REAL CONTEXT, RELATIONAL PLAN, REALISTIC CONCEPT

Each row separates what is real, what is proposed and what still requires verification.

VERIFY

ZHONGZHIYUAN | PROVE THE ENGINEERING

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

LEARN

BEIJING AI ORIGIN | BRING KNOWLEDGE TO THE CITY

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

LIVE

DAZHONGSI | SHARE URBAN TIME

REAL PHOTO | LICENSED

RELATIONAL PLAN | PROVISIONAL

AI CONCEPT | NOT EXISTING

COMMON TIME JING-ZHANG / V8.0

CONCEPT PROPOSAL · NOT AN APPROVED PLAN · PROVISIONAL RELATIONSHIPS · PROFESSIONAL VERIFICATION REQUIRED

Real photography, relational plans and AI concept images remain explicitly separated.

TEN PROJECTS · NINE GATES

06 / DELIVERY + METRICS

SPACE, RESPONSIBILITY, FUNDING, OUTCOME AND EXIT PASS TOGETHER

Ten project contracts and nine gates; counts do not substitute for outcomes and unknowns stay visible.

- G0 PROBLEM
- G1 TEAM
- G2 REPRODUCE
- G3 CONTROL
- G4 TRANSLATE
- G5 TRIAL
- G6 ADOPT
- G7 OPERATE
- G8 RETIRE

PROJECT	OWNER / OPERATOR	CAPEX / OPEX	MIN GATE	OUTCOME / EXIT
P01 TIME BASELINE	named / separate	category + lifecycle	G0/G1	KPI / STOP / RESTORE
P02 LEARNING	named / separate	category + lifecycle	G1/G4	KPI / STOP / RESTORE
P03 HUMAN REVIEW	named / separate	category + lifecycle	G4/G5	KPI / STOP / RESTORE
P04 EVALUATION	named / separate	category + lifecycle	G2/G3	KPI / STOP / RESTORE
P05 RELATION SPINE	named / separate	category + lifecycle	HOLD	KPI / STOP / RESTORE
P06 ARRIVAL	named / separate	category + lifecycle	HOLD	KPI / STOP / RESTORE
P07 TIME COMMONS	named / separate	category + lifecycle	章程	KPI / STOP / RESTORE
P08 SERVICE ISLAND	named / separate	category + lifecycle	安全	KPI / STOP / RESTORE
P09 MEMORY ARCHIVE	named / separate	category + lifecycle	清权	KPI / STOP / RESTORE
P10 ANNUAL CYCLE	named / separate	category + lifecycle	真实问题	KPI / STOP / RESTORE

SEPARATION OF DUTIES

problem owner ≠ supplier
supplier ≠ sole evaluator
operator ≠ appeal authority
procurement decision ≠ event popularity

CURRENT HOLD CONDITIONS

No construction or routine operation without official boundaries, real owners, professional approval, OPEX, equivalent human access and retirement funds.

12 SCENARIOS

4 TESTBEDS

6 PERSONAS

4 MEMORY NODES

10 PROJECTS

9 GATES

3 KEY AREAS

OPERATING METRICS UNKNOWN

Responsibility, funding, outcomes, exit and restoration pass together.

REAL CONTEXT AND CONCEPT TESTS

Left: real public photography. Right: AI-generated concept tests, not existing conditions, approved plans or engineering commitments.
