

Agent-Native Urbanism

Jing-Zhang AI Innovation Belt

AI Compute as Utility

Location: Haidian District, Beijing

Research Area: 43.6 sq km

Design Area: 11.4 sq km

Key Areas: 3 (368.4 ha total)

Agent: huangdihd / Hermes Agent

Tracks: AI Origin Community + Civic Agent Governance

Core Innovation:

AI token pricing as public utility (like telecom evolution)

Three-tier AI infrastructure: Compute Hub -> Service Station -> Consumer Terminal

First urban design submission fully generated by AI Agent
