

Overall Design Structure Board

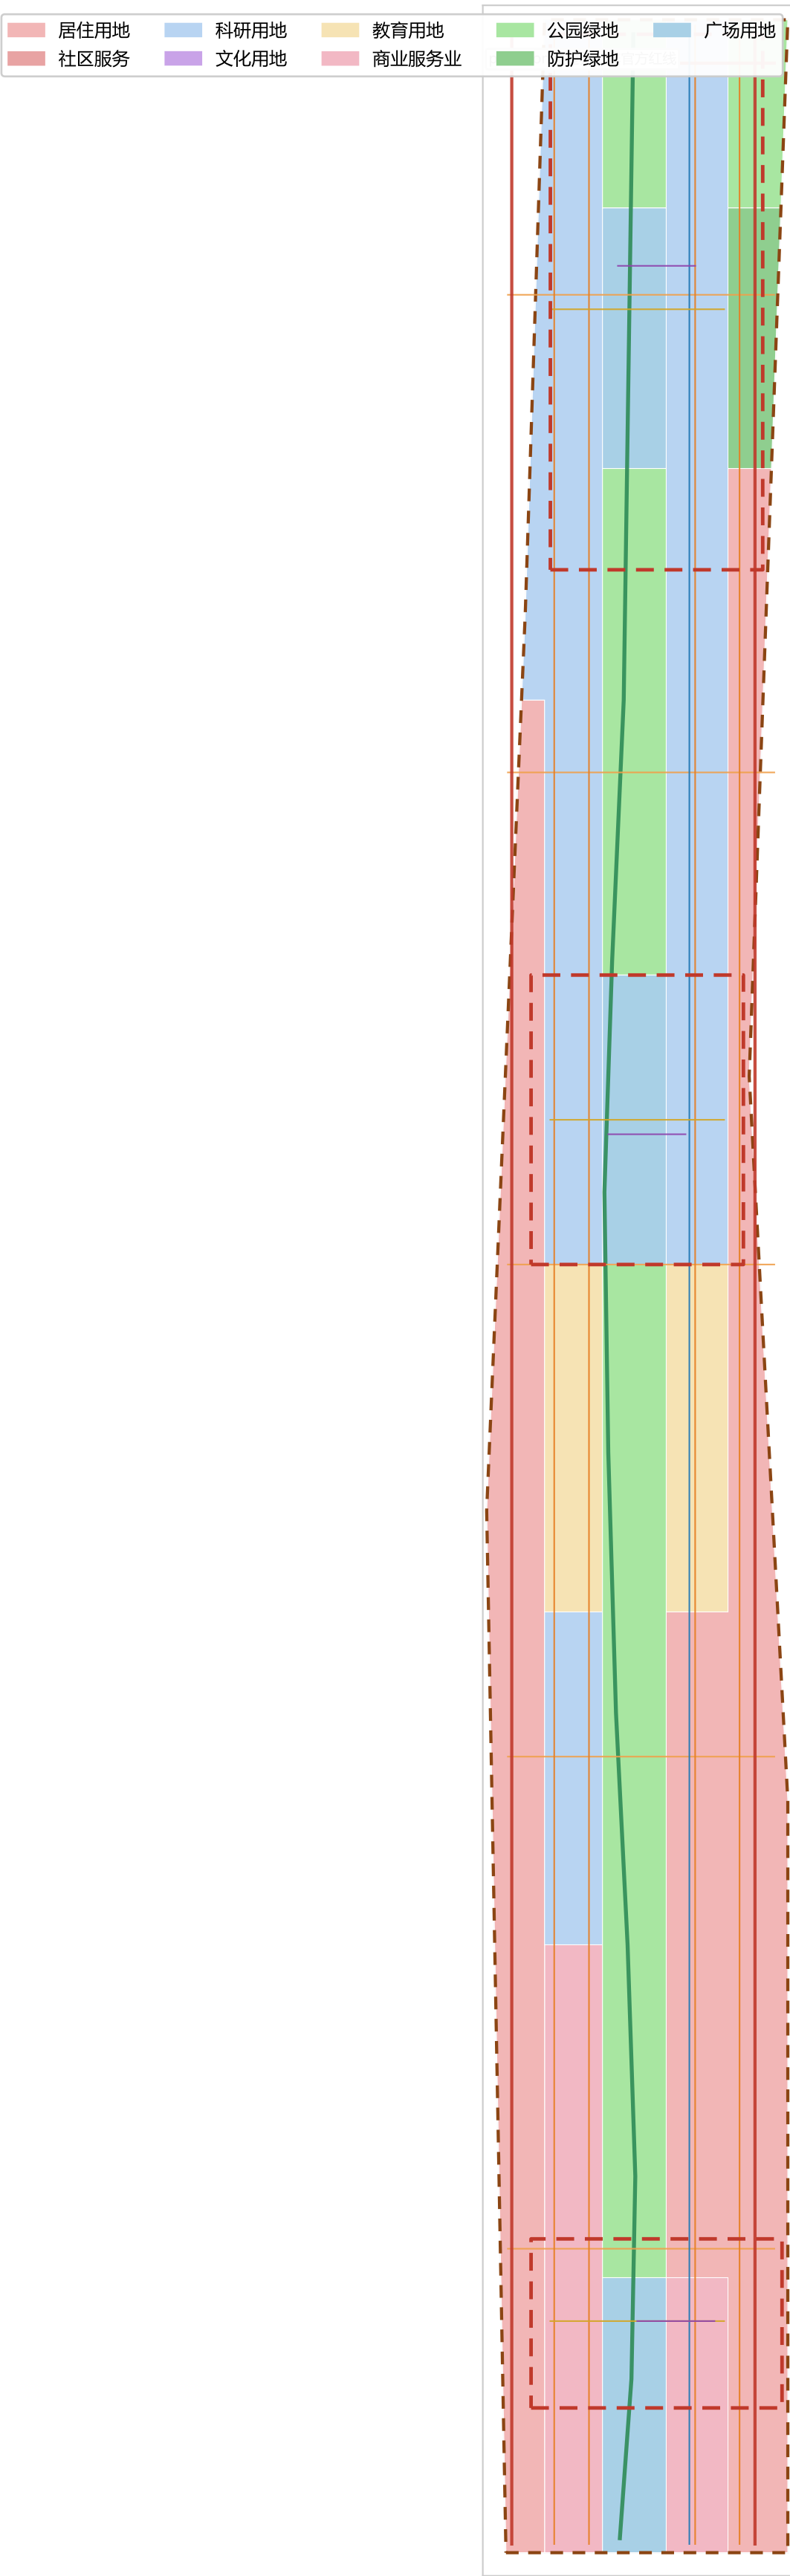

Belt-dual-rail-three-cores-two-wings-multi-nodes

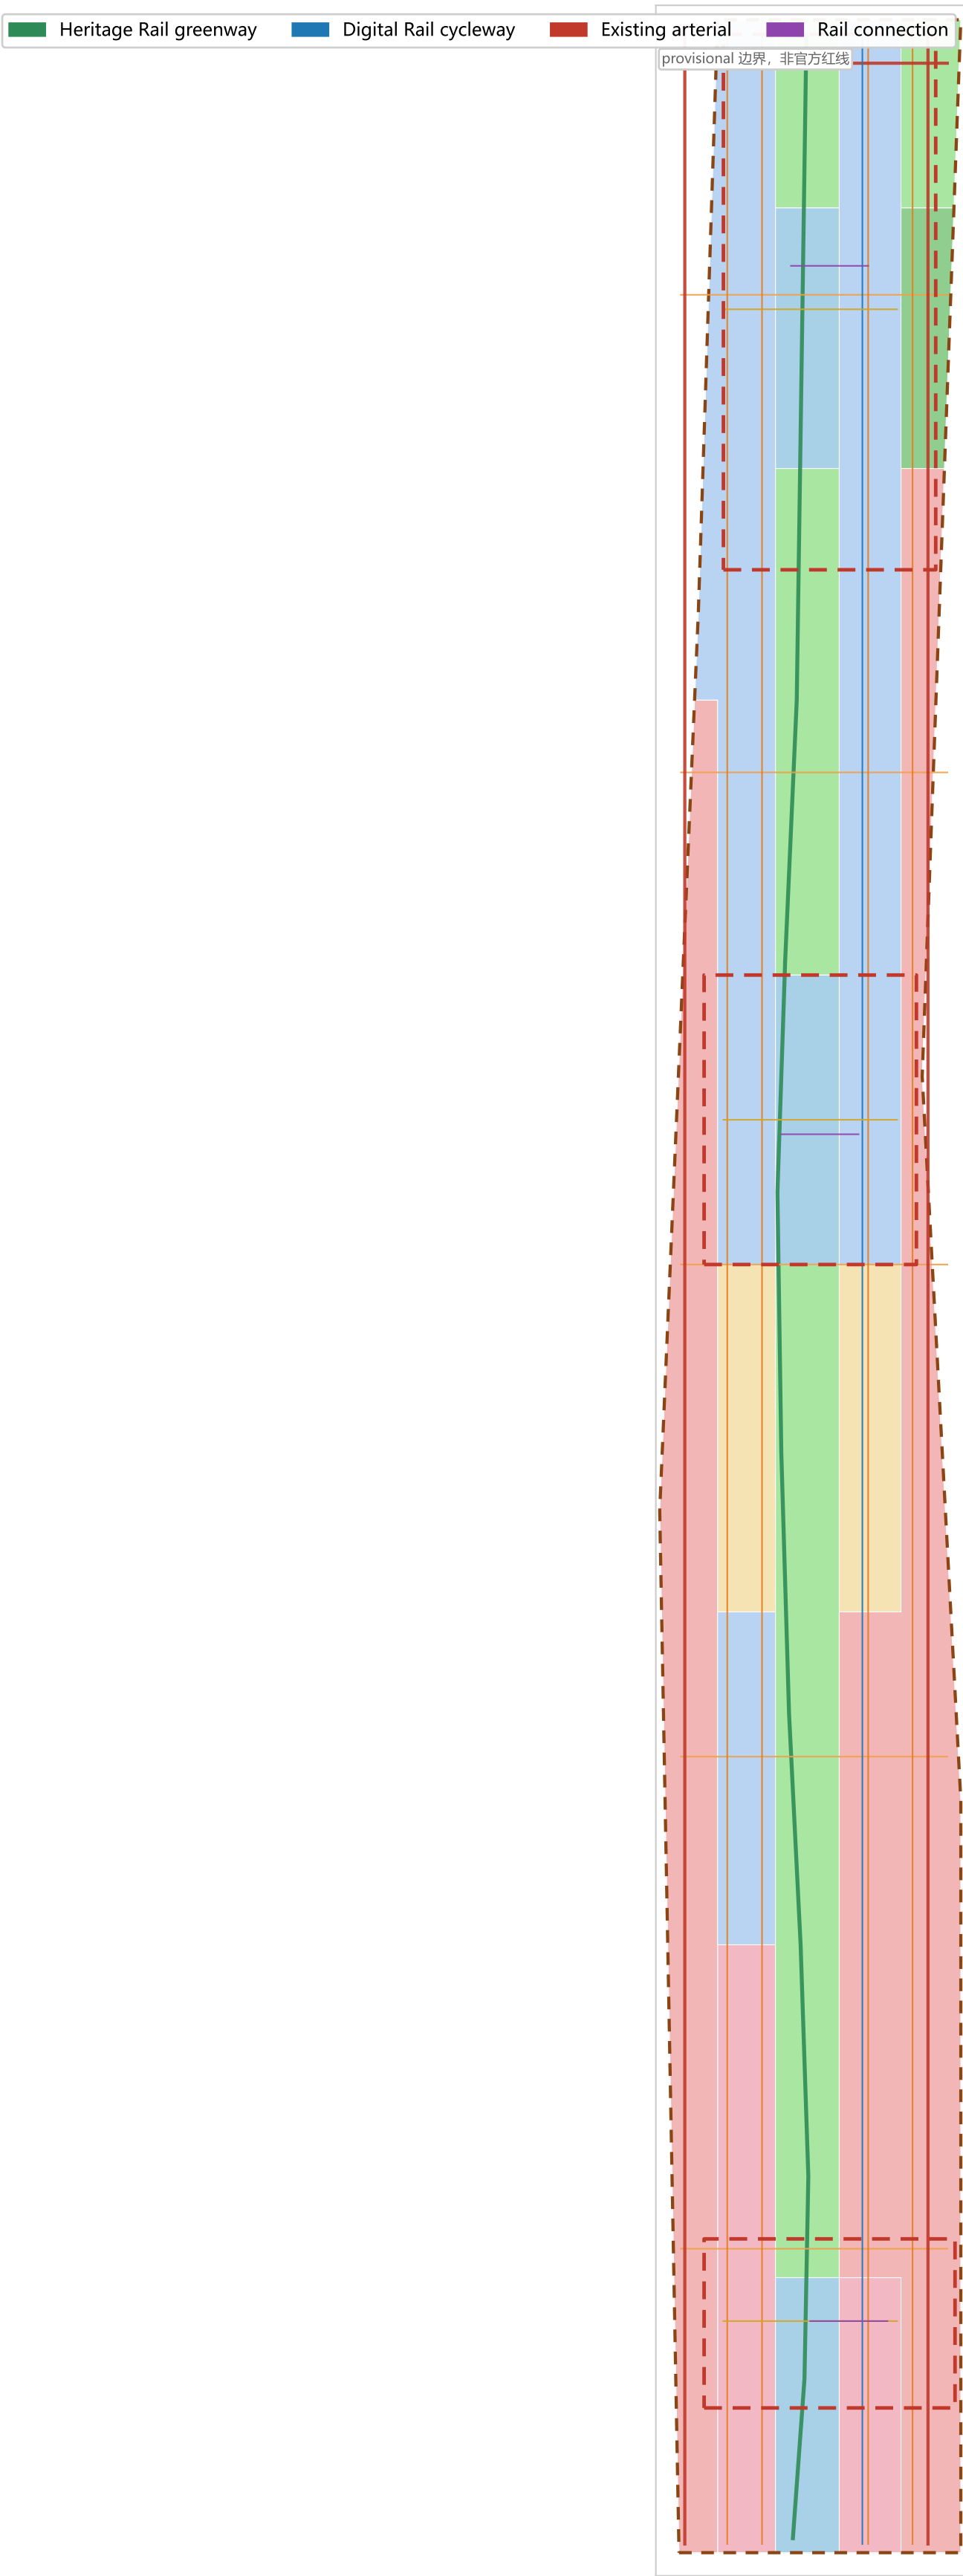

Heritage Rail (culture-public:slow traffic) × Digital Rail (data-compute-open-source-scenarios)

Land Use and Urban Renewal Board

Seamless coverage - retain/renovate/demolish as method and checklist

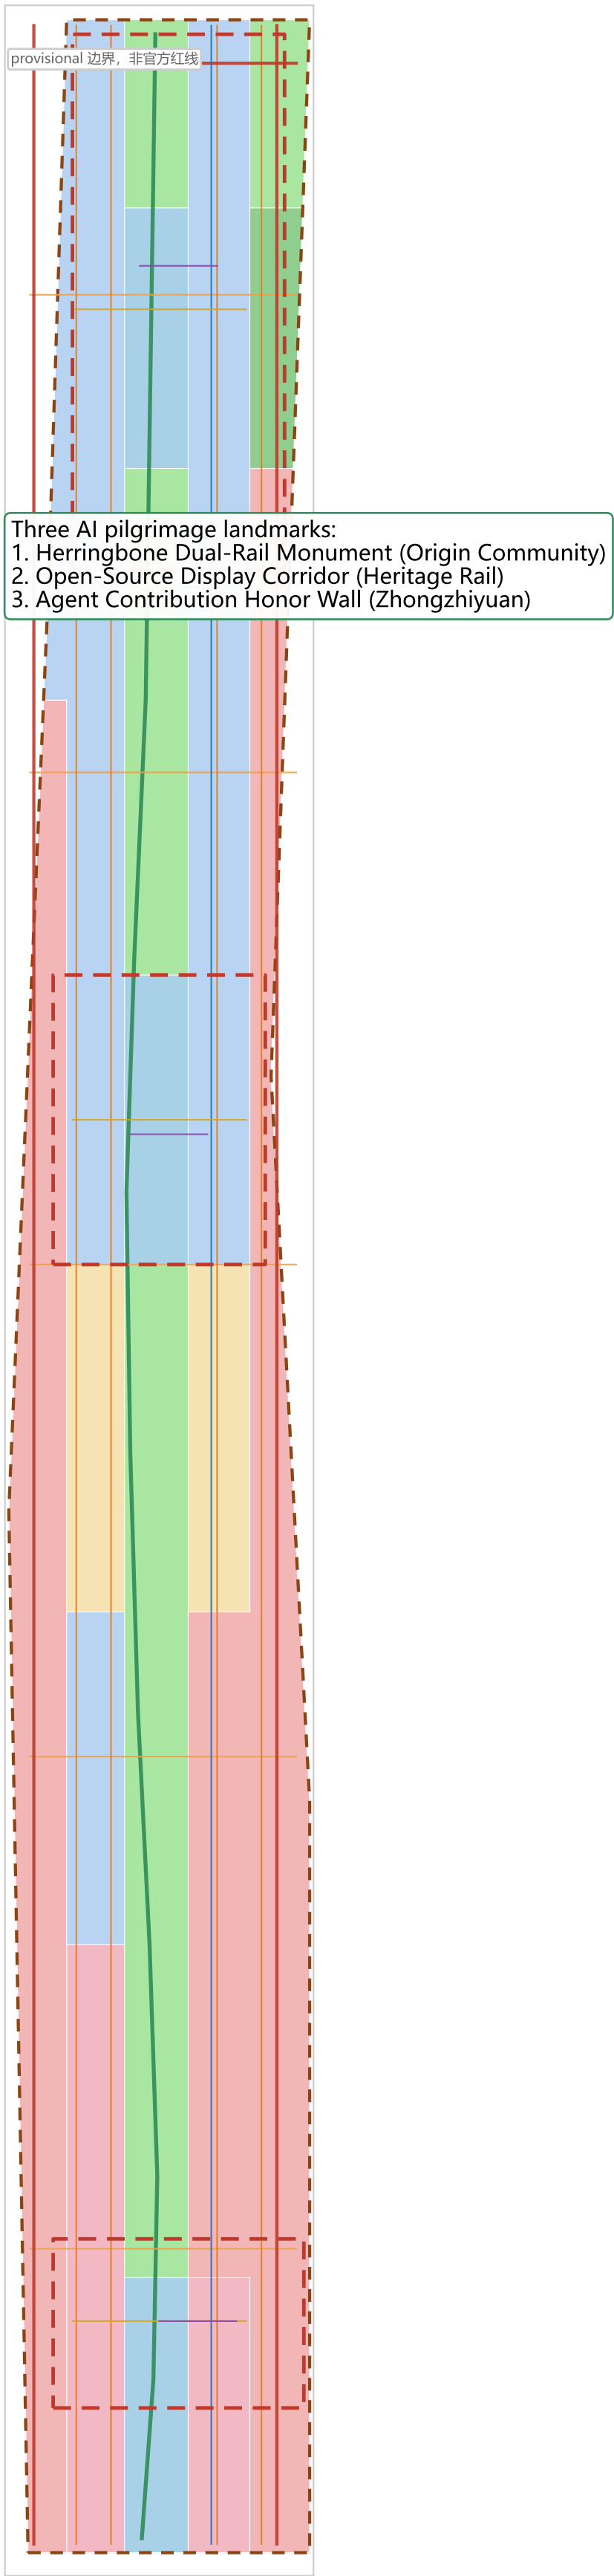

Slow traffic first · rail connection · green priority · edge compute

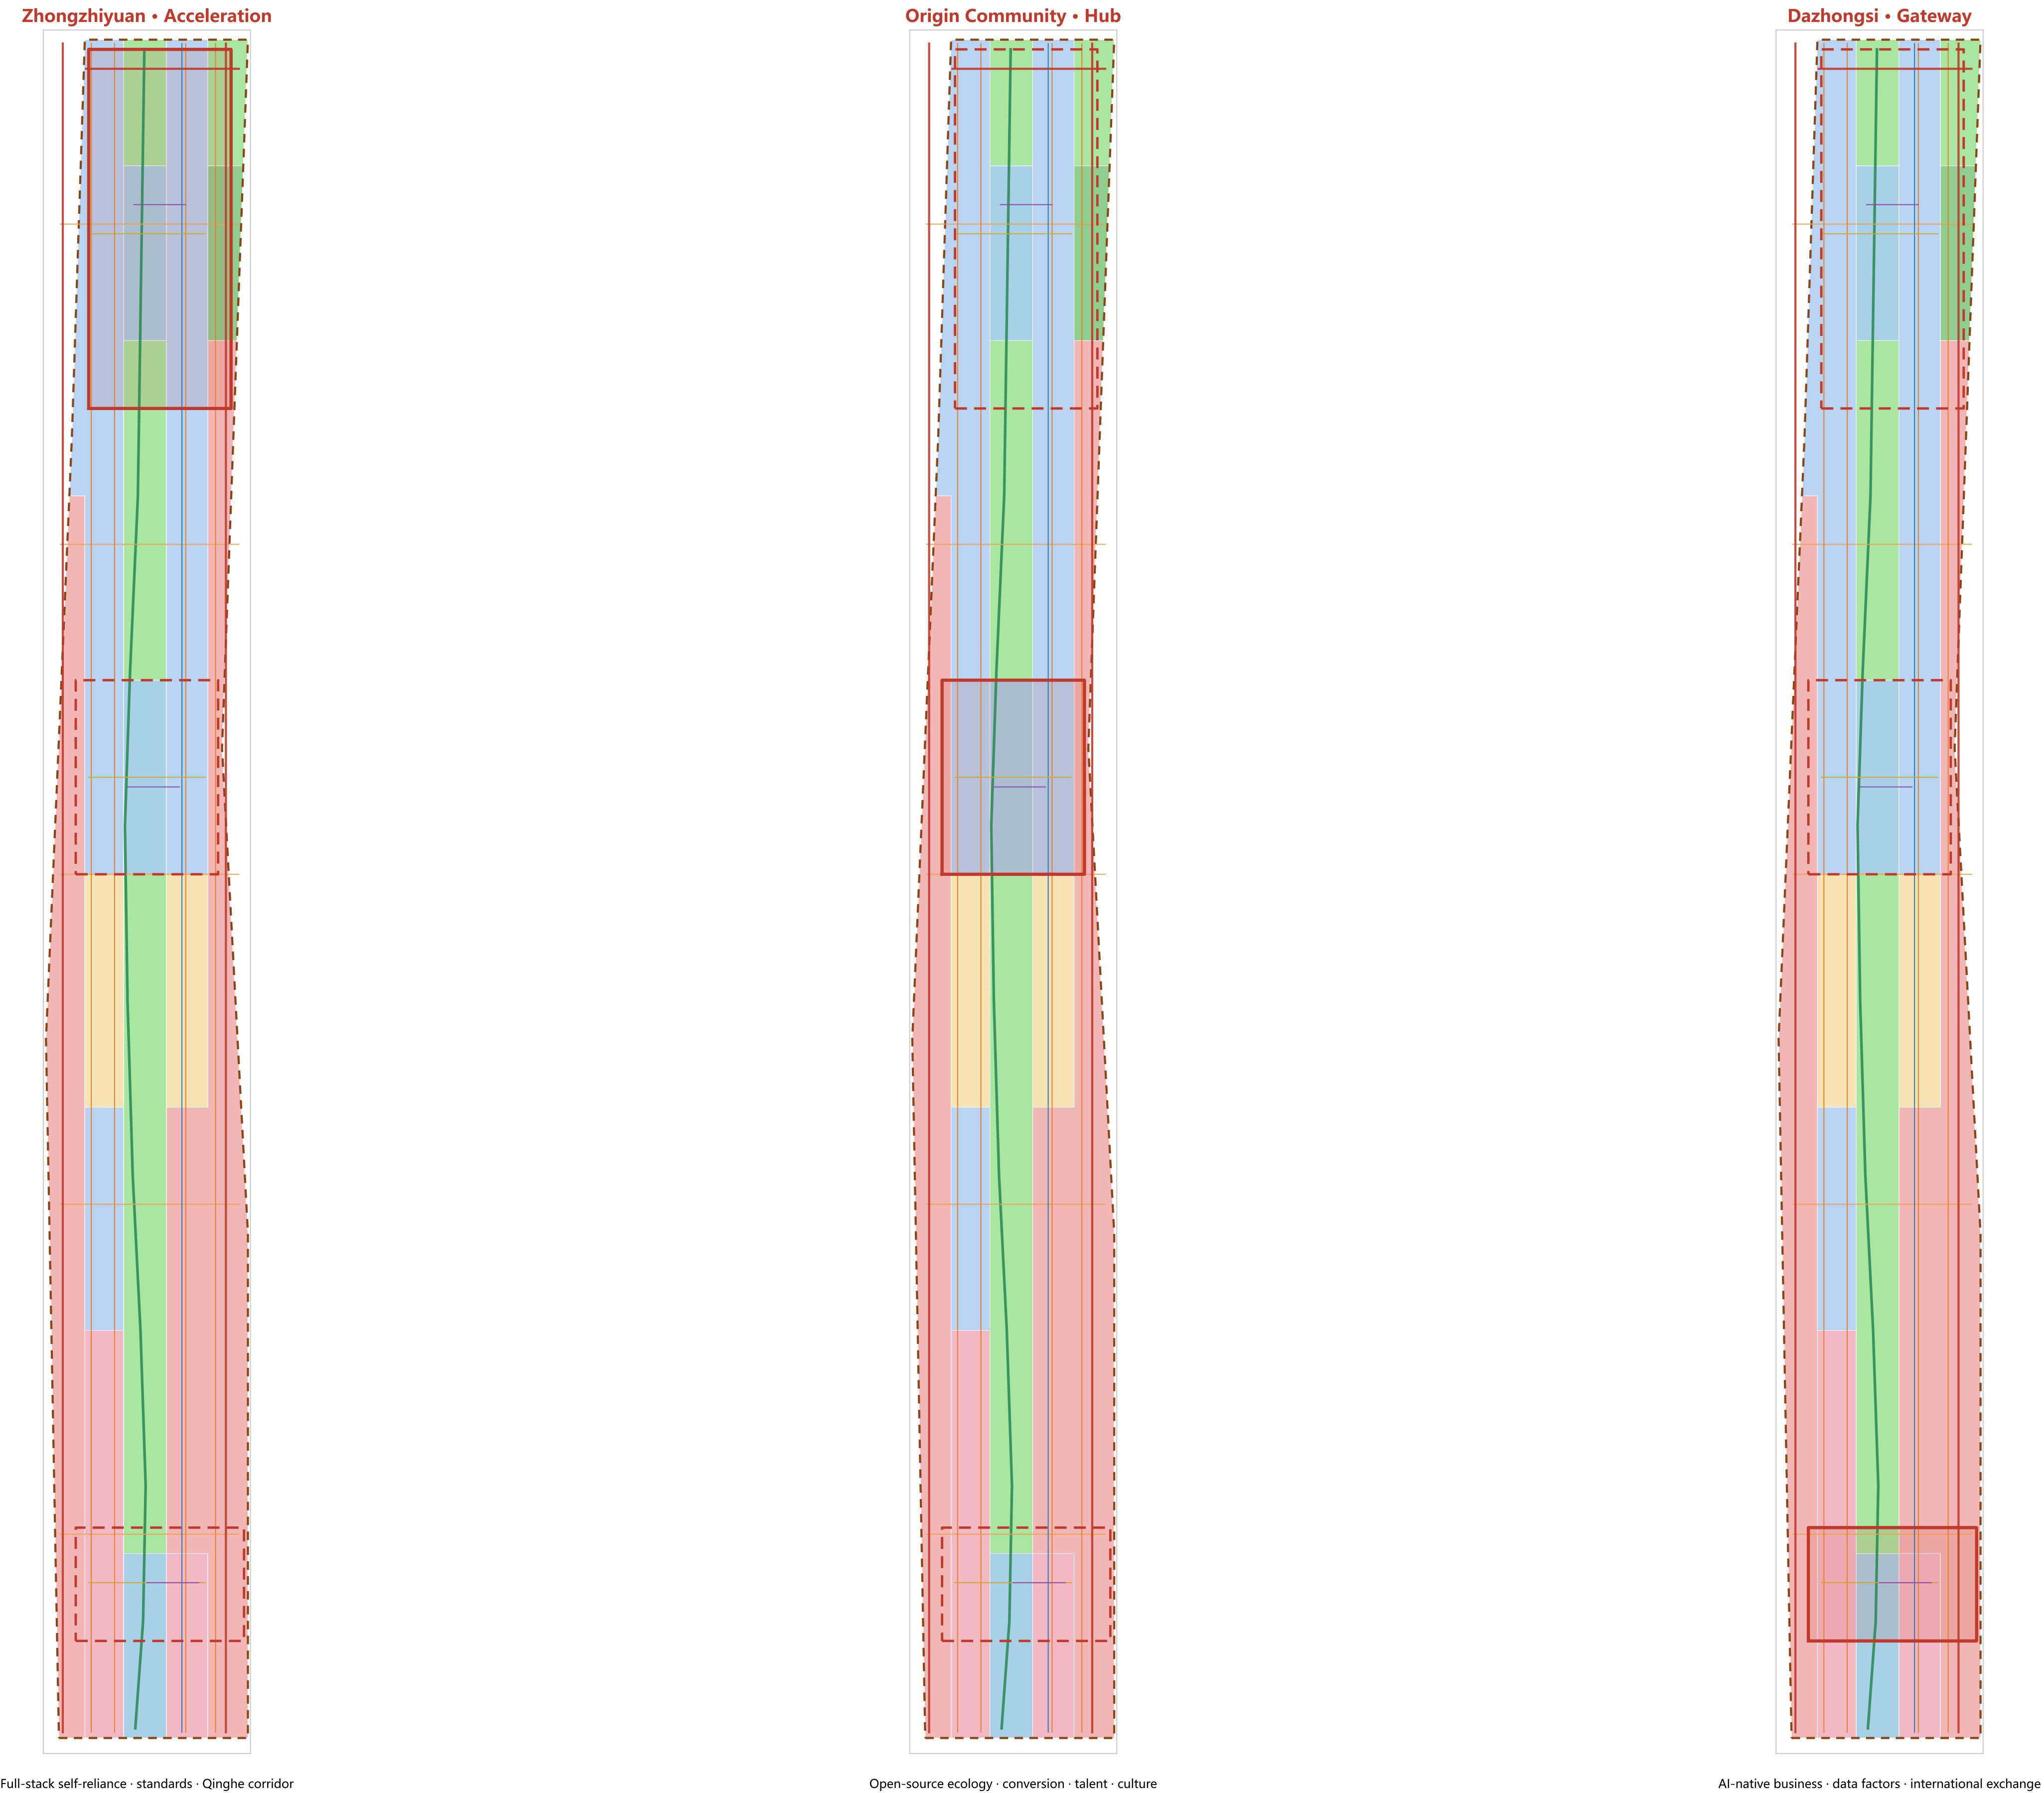

Heritage Park Vitality Belt and Blue-Green Public Space Board

Greenway · plaza · pilgrimage landmarks and honor-display system

Three Key Areas Detailed Design Board (Implementation-Plan Depth)

AI Scenarios and Operation Board

10 scenario cards · 3 industrial test scenarios · 5 personas

01 Open-source publishing hall

Origin Community Hub

02 Safety-governance sandbox

Zhongzhiyuan Acceleration

03 Edge-compute station

Dual-rail nodes

04 AI slow-traffic navigation

Heritage park belt

05 International roadshow hall

Dazhongsi Gateway

06 Qinghe low-carbon corridor

Zhongzhiyuan waterfront

07 Near-campus conversion street

Origin Community

08 Data-factor living room

Dazhongsi area

09 AI life-service model street

Community-commerce

10 Global AI event-week route

Belt public space

Operation: DualRail Festival, developer community, safety sandbox, edge-compute stations, public route and international communication.

Metrics Recalculation and Compliance Response Board

Known metrics recalculable - statutory indicators pending

Indicator	Recalculated value	Formula/source
Overall design area	11,412,825 m²	polygon_area(site_boundary) in EPSG:4548
Green ratio	19.6%	green_space_area_sqm / site_area_sqm
Public space ratio	7.8%	public_space_area_sqm / site_area_sqm
Building density	12.8%	building_footprint_area_sqm / site_area_sqm
Road centerline length	87,467 m	sum(line_length(roads)) in EPSG:4548
Key area count	3	count(key_detailed_design_areas)
AI scenario nodes	12	design count of AI scenario cards deployed on spatial nodes

Announcement tasks 1.3-1.5 and agent tasks 1-6 covered in the compliance matrix; standard and depth evidence in matrices.
