

OPENLINE 100 — Concept Board

A Century of Jing-Zhang. The Next Century of Public Intelligence Is Co-Created Here.

A Century of Jing-Zhang · AI Axis

OPENLINE 100

A Century of Jing-Zhang.
The Next Century of Public Intelligence
Is Co-Created Here.
Heritage park as the public display layer of the innovation chain:
Seven axis spaces expand and contract; research enters everyday city life.

Seven spaces / three engines

Zhongzhiyuan verifies
Origin translates
Dazhongsi adopts
West wing = services & capital after the test gate
East wing = demand intake

Seven gates / one passport

Research → PuCIP → Open source → Validation
→ Incubation → Patient capital → City adoption
One project passport across the chain

Seven axis spaces: expand and contract; axis and river interweave

SEVEN SPACES, NOT A CORRIDOR / RAIL → CODE → COMMONS

Seven-space rhythm / SECTION RHYTHM

01 Trusted-test viewing Qinghe test field	A Field · 40m
02 Quiet R&D sanctuary Zhongzhi Quiet Valley	B Canyon · 12m
03 Campus-city interface Campus-town porch	C Porch · 24m
04 Release & translation Origin Rensu Plaza	D Plaza · 36m
05 intergenerational co-creation Complier community lounge	E Lounge · 20m
06 Underpass crossing exhibit Crossing dark exhibit	F Dark exhibit · 10m
07 Pitch-market adoption Dazhongxi Next Station	G Hall · 32m

Field open · canyon narrow · porch roofed · plaza anchored · lounge seated · dark exhibit at crossing · hall opens to night

Five landmarks = five public behaviors

01 Agent Garden	Trusted testing the public can understand
02 Station Zero	From autonomous railway to open-source origin
03 City Commit Wall	Contributions visible — and withdrawable / correctable
04 Commons Compiler	Resident problems and developer responses at one table
05 Next Station Hall	City adoption and order feedback return

≈ 90 MIN COMMIT WALK · Suzhou numeral mileage language (123...)
Verify → Translate → Adopt | seen throughout (Commit Walk)
Bilingual · tactile · captions · paper alternatives | actual duration & mileage historiography pending verification

A blueprint that can be recalculated, stopped, and continued

METRICS × EVIDENCE × DELIVERY

01 11.41 km² provisional-boundary recomputation Not an official red line	02 16.6% Conceptual green share Not a statutory green ratio	03 7 · 3 · 9 Axis spaces / three station forms / stitch interfaces Three strategic + six everyday grades	04 12 / 4 / 3 Scenarios / controlled validation / intensity cases Each item has an exit mechanism
---	--	---	--

One evidence chain / ONE SOURCE OF TRUTH

Three-phase roadmap / START LIGHT, LEARN IN PUBLIC

PHASE 1 2026–2027 concept window Operate first Brand · Pull Request · audit · removable events	PHASE 2 2028–2030 concept window Three stations form a loop Public space · professional pilots · first-order mechanism	PHASE 3 Post-2030 concept window Global nodes Evaluate expansion · deepen engineering · long-term governance
---	---	---

Success criteria	Not how many screens were built — whether research can be verified, public problems closed, and failure honestly recorded. Full recomputation after official boundaries and professional conditions arrive; high-risk decisions stay with accountable humans.
------------------	--

Annual loop

JAN call → MAR residencies → APR Commit Walk
JUN trust test → SEP OPENLINE Week → OCT forum
Monthly failure review · year-round PRs + microgrants

Exit rules

No maintainer for two cycles → leave the pool
Safety threshold missed → stop the pilot
Public space capture → cut event slots and remove

Belt Brand Visual Identity

O-1 locked · four primaries · applications · four-sense patch. Not cultural wayfinding.

OPENLINE 100 Visual Identity

Heritage rails → open ring O · Commit line → stem 1 · Public intelligence, not neon tech.

BELT BRAND VI · NOT DRAWING LAYOUT · agent.1

A Logo construction

- Dual rails close into open ring → letter O
- Umber commit line crosses center → digit 1
- Small sizes keep O-1 only — no gradients, no robots
- Clear space ≥ 0.5x mark radius on all sides

C Naming lockups

B Color system

Rail Ink
#1A1A1A
Industrial skeleton / type hierarchy
1909 steel & ink drawings

Axis Steel
#2F4A5C
Axis, interfaces, structure
Line as civic infrastructure

Signal Umber
#8B5342
Events & interactive only
Signal lamp / commit pulse

Ballast Paper
#F7F6F3
Ground / quiet field
Ballast bed & drawing paper

Four colors max. No neon wash. Umber is a signal — not a wallpaper.

D Vocabulary & type

Station

nodes

Commit

projects

Release

annual outcomes

Space

axis segments

Suzhou + 1-2-3

mileage language

ZH: Song / Heiti stack for space names · EN: geometric sans for OPENLINE

Wayfinding: bilingual · high contrast · braille/tactile · paper fallback

Clear trademark / type / Suzhou-numeral rights before formal use.

E Do / Don't

DO: industrial skeleton · garden base · digital ignition at nodes · failure cases visible · reversible installs

DON'T: neon streets · robot statues · continuous sound-light · fake heritage purple lines · 'shown' = 'verified' · confuse belt Logo with cultural wayfinding (agent.5)

Concept-Vt direction only — not a registered trademark or procured design system.

VI Applications: Sign · Commit Plinth · Passport

Three proof points that the belt brand can live outdoors, on street furniture, and in the mechanism layer.

CONCEPT MOCKUPS · NOT PROCURED PRODUCTS

01 WAYFINDING

Bilingual totem · mileage · tactile

Space layer, naming on face, O-1 mark, paper map pocket

Concept applications only. Not fabrication drawings, procured SKUs, or legal ID documents.

02 COMMIT PLINTH

K04 pedestal · exhibit · withdraw

Umber commit band; low-data QR; braille; owner on base.

03 PASSPORT COVER

Mechanism lockup · Release seal

OPENLINE 100 primary; Chinese axis as secondary line.

VI Patch · Four-Sense Calibration

History thickness · Ecological beauty · Livelihood warmth · Future tech — close the gap left by the industrial-drawing core.

LOCKED: O-1 mark · Rail Ink · Axis Steel · Signal Umber · Ballast Paper

PATCH LAYER · DOES NOT REPLACE CORE VI

A History depth · materials

Keep O-1 geometry. Add felt thickness: paper · sleeper · rail grit.

Ballast Paper

Sleeper Wood

Rail Grit

Use on: sign backs · passport stock · plinth base. Never on O-1 mark fill.

B Ecology · Garden Leaf

Auxiliary only — green corridor / garden rooms. Not a 5th brand primary.

Garden Leaf

Quiet

Rain

Kids

DO: garden rooms · river edge · habitat signs

DON'T: logo fill · neon green · wall paint wash

C Livelihood warmth · street touch

Warmth must be visible: seat · kid height · paper offline — not only Braille notes.

Community proof: elder seat depth · child readable · offline fallback.

D Future tech · signal ignition

One thin pulse at state change. Never continuous neon street wash.

Concept patch for belt brand VI · not procured materials or lighting products.

v0.5.2
