Belt of AI Rule-of-Law Endeavor

First City of AI Rule-of-Law Endeavor

Centennial Jing-Zhang AI Innovation Belt · International Open Call

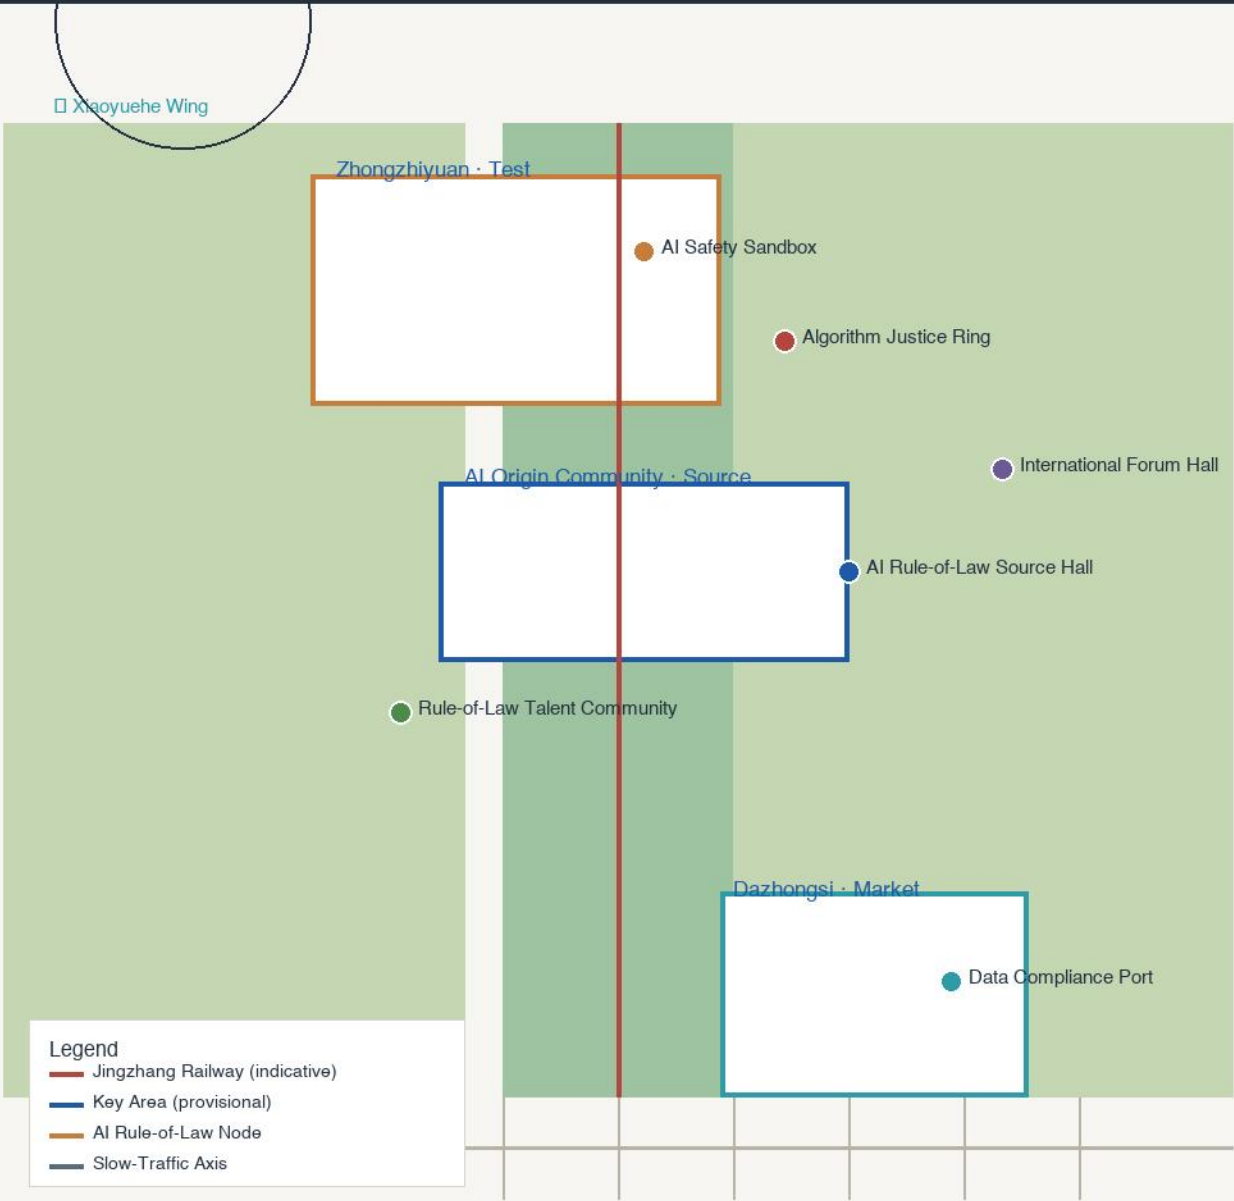

Submission: [submissions/molihuo/ai-rule-of-law-belt](#) · Model: Deepseek-V4-Flash

Note: all boundaries are provisional, not official redlines; concept suggestions.

Zhi-Li Belt, Rule-of-Law Jing-Zhang I Overview

First City of AI Rule-of-Law Endeavor · One Belt / Three Cores / Multi-Node Scenarios / Blue-Green Slow Loop

AGENT.1 Concept

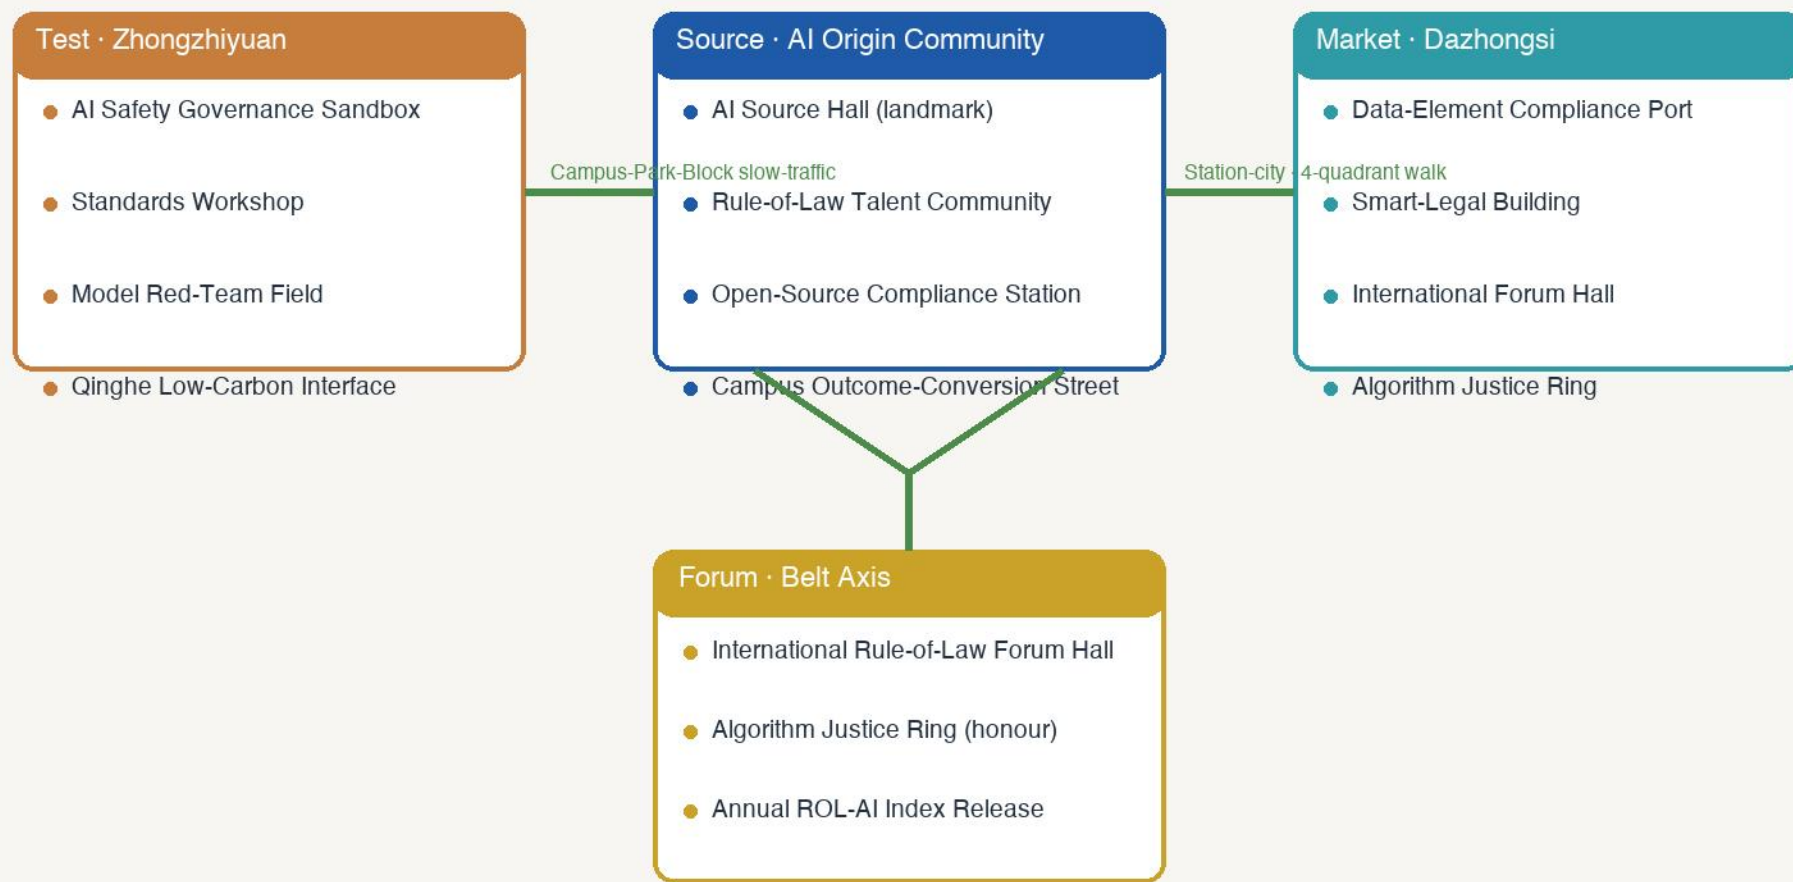

Note: boundary is provisional, not official redline; concept indication only.

Source: brief/site-package + agent-generated design.

Three Key Areas · Concept Plan (Source / Test / Market)

Concept schematic, not plot redline; available for professional deepening

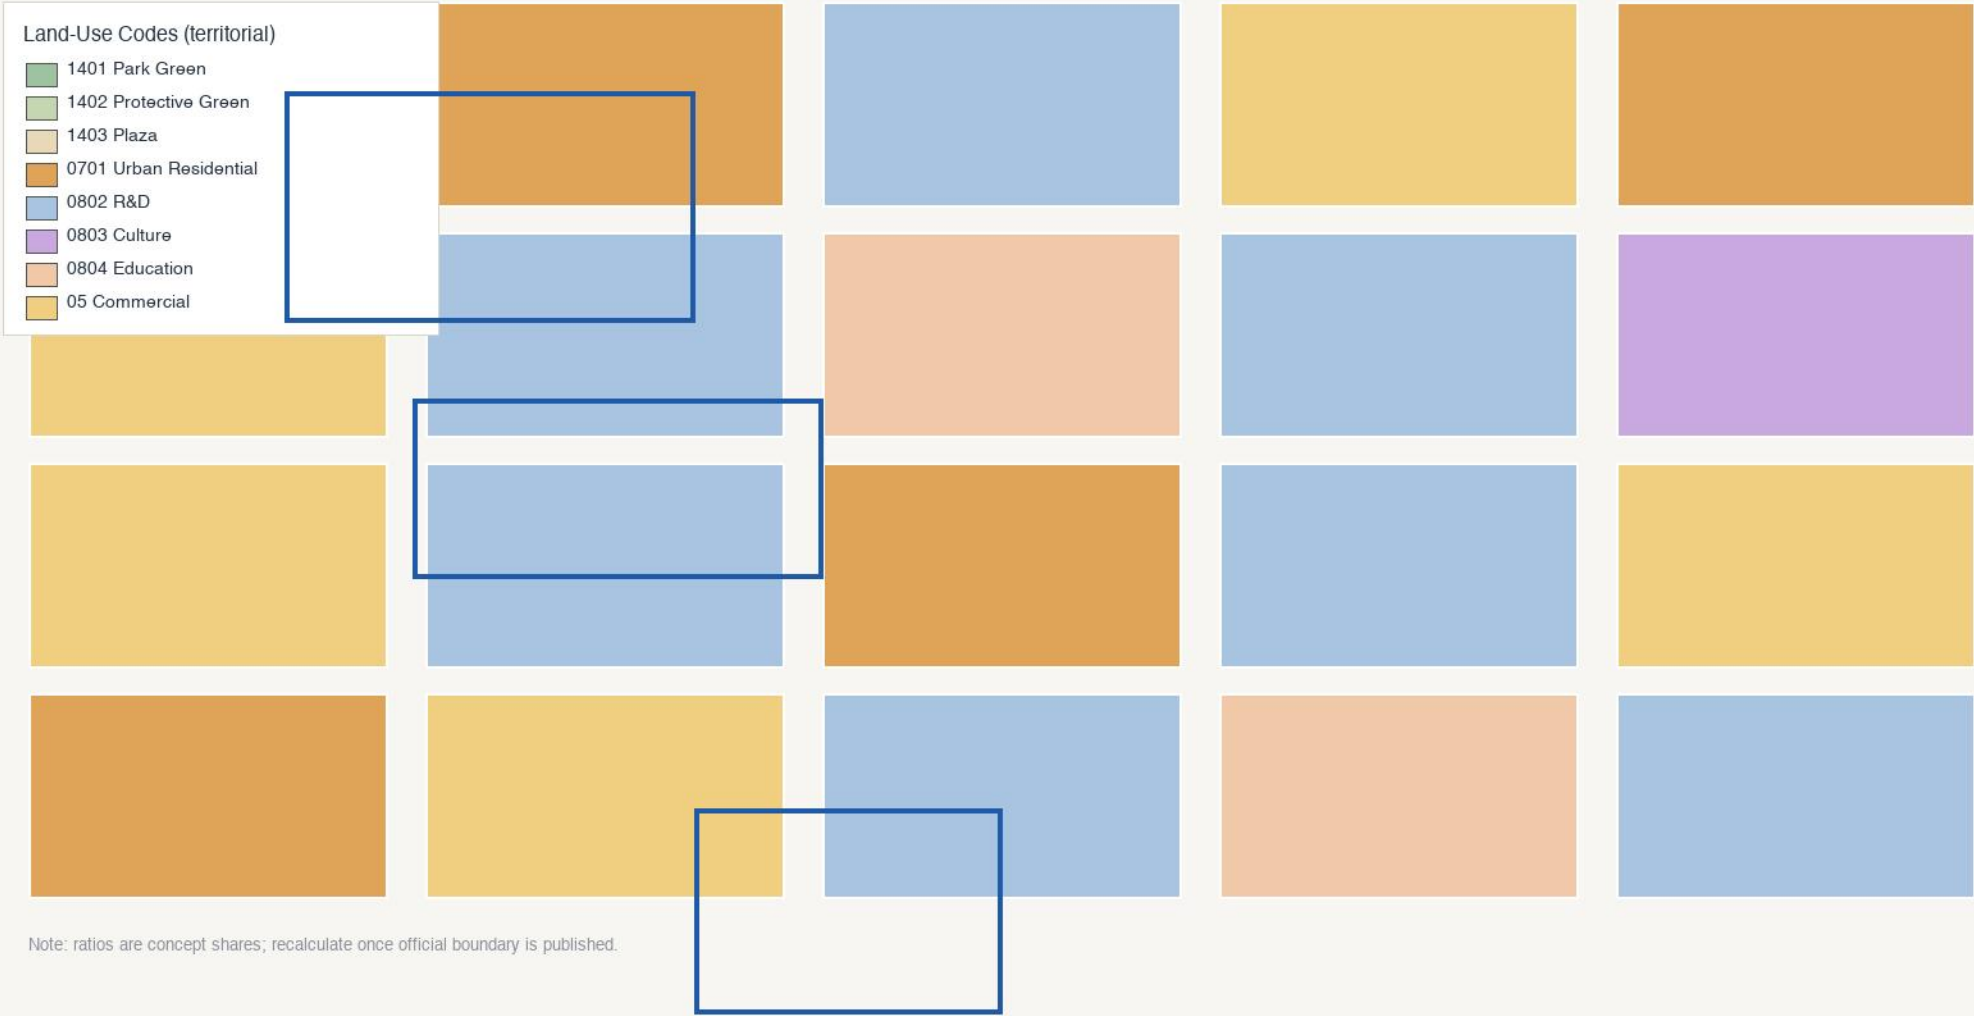

Legend: colour block = concept function | green = slow-traffic stitch | dashed = provisional, not redline

Concept schematic, not official redline or plot boundary.

Overall Design Scope · Land-Use Structure

Territorial classification · 42 seamless parcels · no gaps, no overlaps

AGENT.2 Land Use

Source: geometry/land_use.geojson (agent-generated).

provisional boundary

Three Key Areas · AI Rule-of-Law Differentiation

Test · Source · Market — three landings of the First City concept

AGENT.4 Key Areas

Zhongzhiyuan · Test192.1 ha	AI Origin Community · Source104.3 ha	Dazhongsi · Market72.0 ha
AI Safety & Standards Hub - Algorithm Filing Sandbox - Standards Workshop - Model Red-Team Field - Qinghe Low-Carbon Interface	AI Rule-of-Law Education & Talent - AI Source Hall (landmark) - Rule-of-Law Talent Community - Open-Source Compliance Station - Campus Outcome-Conversion Street	AI Legal Services & Data Compliance - Data-Element Compliance Port - Smart-Legal Building - International Forum Hall - Algorithm Justice Ring

Cross-Section Concept along Belt Axis (Source -> Forum -> Market)

Mobility, Slow-Traffic & Blue-Green Composite

Jingzhang active belt + slow-traffic loop + transit interchange + blue-green network

AGENT.3/4 Scenarios & Space

Stops and rail are indicative; pending official alignment.

Source: geometry/roads.geojson + constraints.geojson

Core Metric Recalculation & Evidence Chain

Area / ratio / counts / items — all recomputable from submitted geometry (EPSG:4548)

AGENT.2/6 Metrics

Overall Design Scope

11,412,825 m²

Notice ~ 11.4 km², deviation +0.11%

Key Areas Total

369.29 ha

Notice ~ 368.4 ha

Zhongzhiyuan / Origin / Dazhongsi

192.92 / 104.32 / 72.05 ha

key_areas.geojson

Green Ratio

47.4%

green_ratio (concept share)

Public-Space Ratio

18.0%

public_space_ratio (spatial union)

Concept Parcels / Buildings / Projects

42 / 24 / 6

land_use + buildings + JZ list

Evidence chain: Notice text □ provisional_boundaries □ derived layers □ metrics □ proposal & figures

Unknown items (FAR / height / density / setback): awaiting official regulatory plan
