

JINGZHANG COMMON TABLE

FROM SHARED PRODUCTION TO SOIL RETURN
An auditable food operating loop
Shawn Shi / shawnshi · AI-assisted original submission

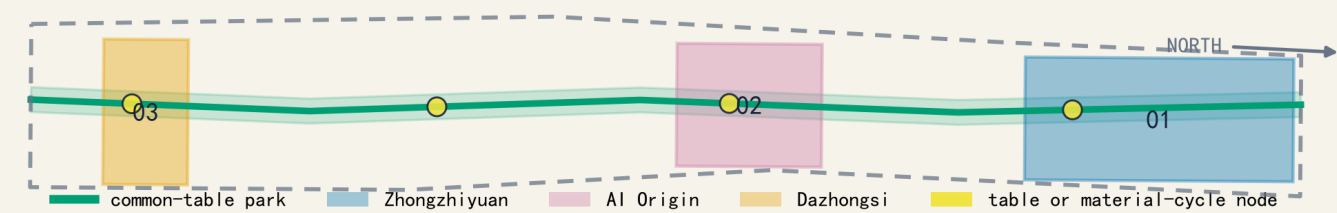

SEVEN GATES REQUIRE HUMAN SIGN-OFF · RETURN TO SOURCE ONLY AFTER PROFESSIONAL APPROVAL

THREE NODES AND FIVE CAPABILITIES

Zhongzhiyuan R&D validation, AI Origin
reproducibility and shared pilot production, and
Dazhongsi market and first-order validation
connect five capabilities along a continuous
evidence corridor.

JINGZHANG COMMON TABLE | RESEARCH TO PILOT TO FIRST ORDER

Five capabilities are not five buildings · the continuous park is a public evidence interface · north points right

THREE NODES · FIVE CAPABILITIES

R&D + PILOT → LICENSED SHARED PRODUCTION →
MARKET + LOGISTICS → PRODUCTIVE LANDSCAPE →
MATERIAL/PERMIT INTERFACE

Public front open; controlled back accountable.
Stop when evidence fails.

EVIDENCE CORRIDOR · FOUR GATES

0 - 90 DAYS EVIDENCE + ROLES → 90 - 180
REVERSIBLE PILOT → 180 - 365 MARKET/FIRST
ORDER → SCALE ONLY WITH VERIFIED EVIDENCE

Public front open; controlled back accountable.
Stop when evidence fails.

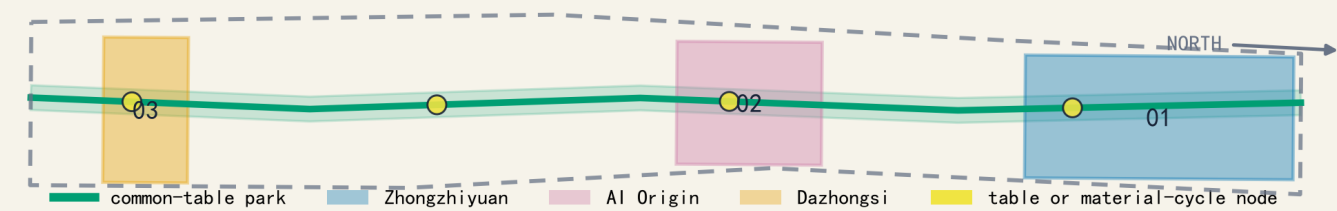

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

THREE SCALES AND PROVISIONAL GEOMETRY

The announcement provides textual scopes and approximate areas only. Issue #846 records a possible background mismatch but does not justify moving the polygon. Submitted geometry remains provisional, non-statutory, and unsuitable for engineering location.

JINGZHANG COMMON TABLE | RESEARCH TO PILOT TO FIRST ORDER

Five capabilities are not five buildings · the continuous park is a public evidence interface · north points right

THREE NODES · FIVE CAPABILITIES

R&D + PILOT → LICENSED SHARED PRODUCTION →
MARKET + LOGISTICS → PRODUCTIVE LANDSCAPE →
MATERIAL/PERMIT INTERFACE

Public front open; controlled back accountable.
Stop when evidence fails.

EVIDENCE CORRIDOR · FOUR GATES

0 - 90 DAYS EVIDENCE + ROLES → 90 - 180
REVERSIBLE PILOT → 180 - 365 MARKET/FIRST

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

HAIDIAN PROTOCOLS AND ACCESS LAYERS

Open-source reproducibility, sensing and embodied validation, operations simulation, and research transfer form four protocols. Every node separates a controlled back, observable interface, and public front; nine footprints are not nine fixed buildings.

LAND USE × THREE ACCESS LAYERS

Controlled back → observable interface → public front at each node • authored, non-statutory allocation • north points right

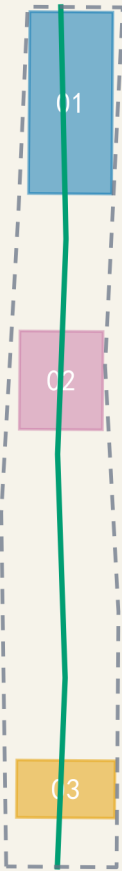

VALIDATE · TRANSFER · FIRST ORDER

Zhongzhiyuan validates R&D and standards; AI Origin hosts reproducibility, shared pilot production, and coaching; Dazhongsi tests batches, markets, and first orders. Partners, permits, operators, funding, and building conditions are unconfirmed.

THREE NODES: VALIDATE · TRANSFER · FIRST ORDER

THREE KEY AREAS

01 ZHONGZHIYUAN | R&D + STANDARDS

Multimodal evidence, operations simulation, embodied work, licensed pilot.

Controlled back

Evidence interface

Public front

02 AI ORIGIN | REPRODUCIBILITY + PILOT

Model cards, facility cards, shared production, and operator coaching.

Licensed production

Reproduce/coach

Kitchen front

03 DAZHONGSI | MARKET + FIRST ORDER

Batch market tests, aggregate feedback, and non-purchase public tables.

Receive/logistics

Market validation

Public table

All three nodes use a controlled back, observable interface, and public front. No partner, permit, operator, funding, or facility condition is presumed.

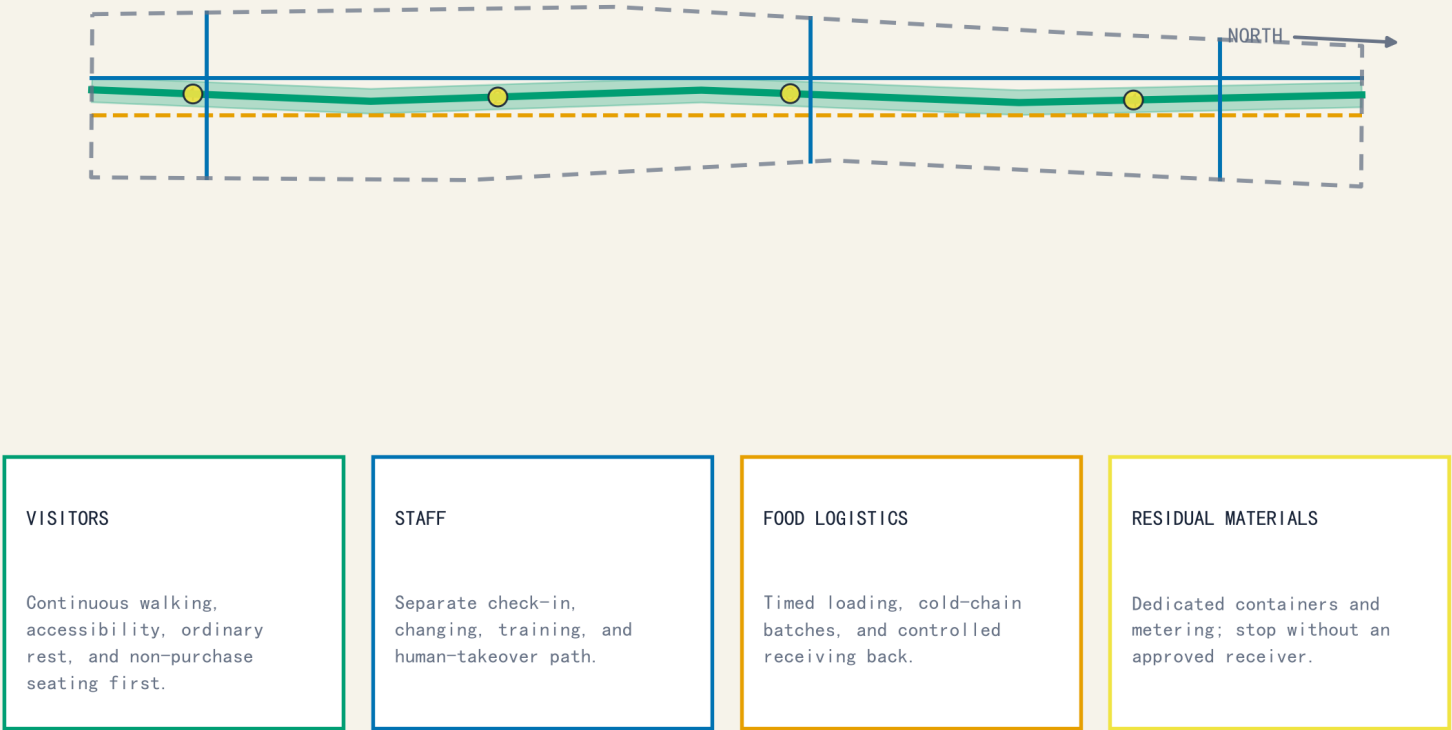

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

FOUR SEPARATED FLOWS

Visitors, staff, food logistics, and residual materials use distinct entries, windows, containers, and ledgers. Ordinary walking, accessibility, emergency access, and non-purchase seating retain priority.

FOUR SEPARATED FLOWS × BLUE-GREEN PUBLIC SPACE

Visitors, staff, food logistics, and residual materials have distinct entries, windows, containers, and ledgers • north points right

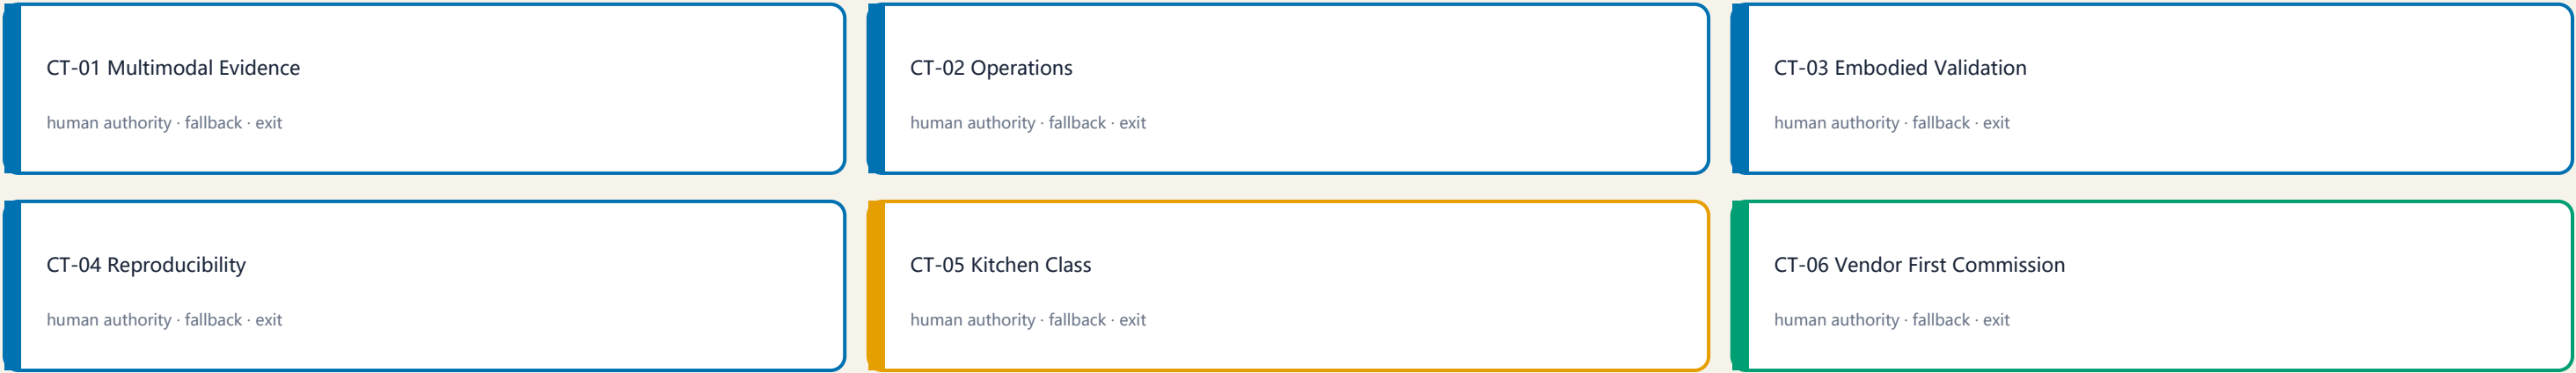

PROVISIONAL ROUGH BOUNDARY • NON-STATUTORY • NOT FOR APPROVAL OR ENGINEERING LOCATION

TWELVE SCENARIOS | 01–06

CT-01 Multimodal Process Evidence; CT-02 Cold-Chain and Delivery Operations; CT-03 Embodied-Work Validation; CT-04 Open-Source Reproducibility; CT-05 Commons Kitchen Class; CT-06 Local Vendor First Commission.

The first four are controlled studios. Every scenario needs accountable humans, fallback service, and exit records.

TWELVE SCENARIOS | 07–12

CT-07 Centennial Table Stories; CT-08 Multilingual Market Guide; CT-09 Screen-Free Common Table; CT-10 Reusable Serviceware Pool; CT-11 Kitchen By-product Exchange; CT-12 Bell-Rail World Market Premiere.

Seven personas test every scenario; no personal dietary profiles.

CT-07 Table Stories

human authority · fallback · exit

CT-08 Multilingual Guide

human authority · fallback · exit

CT-09 Screen-Free Service

human authority · fallback · exit

CT-10 Serviceware Pool

human authority · fallback · exit

CT-11 By-product Exchange

human authority · fallback · exit

CT-12 World Market Premiere

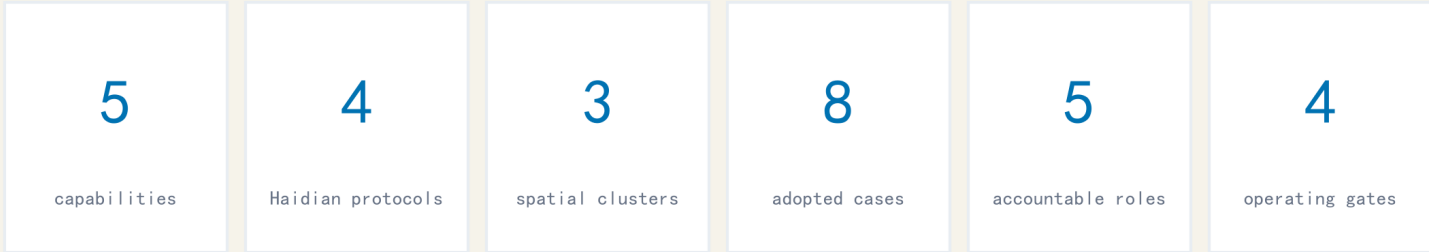

human authority · fallback · exit

CASES · FACILITY CARDS · FOUR GATES

Eight adopted cases support five narrow mechanisms, while three warning cases shape stop conditions. Every facility has eight fields and five roles retain human vetoes. Four operating phases can pause, reduce, or exit.

Submitted site 11.41 km²; statutory intensity and real performance remain unknown.

CAPABILITY · ACCOUNTABILITY · EVIDENCE GATES

EIGHT-FIELD FACILITY CARD

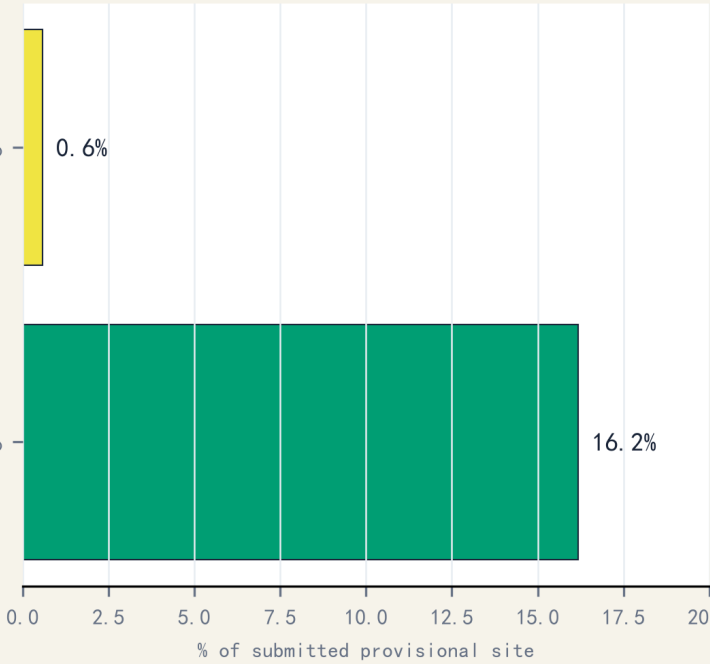

capability → hygiene class → minimum batch
booking/cost → accountable operator → IP/data
residual route → stop condition

FIVE ACCOUNTABLE ROLES

asset steward → platform operator → licensed food operator
research/evaluation → statutory/professional review

Anomaly, veto, pause/reduce, and graduate/exit are operating actions. They are not facility-card fields.

GEOMETRY-DERIVED METRICS

PROVISIONAL ROUGH BOUNDARY · NON-STATUTORY · NOT FOR APPROVAL OR ENGINEERING LOCATION

GAPS · RIGHTS · PROFESSIONAL HANDOFF

Unknown: official geometry, rights, surveyed buildings, road redlines, heritage, utilities, fire, contamination, soil, operators, and permits.

No third-party image, logo, or plan is embedded. Authoritative data require full-layer replacement, recomputation, redrawing, regeneration, and renewed review. Submission does not mean selection, approval, contract, or construction.

EVIDENCE GAPS

official geometry, rights, roads, utilities, fire, environment, and permits pending

ORIGINAL + ATTRIBUTED

no third-party image, logo, plan, or person; factual paraphrases attributed

PROFESSIONAL HANDOFF

replace layers → recompute → redraw → regenerate → human review
