

Z-LINK (Zhi-Lian Jing-Zhang): Urban Renewal and AI-native Urban Forum

One belt, two rings, three cores · Three areas, two wings · 6 agent tasks · 12 AI scenario cards · 3 pilgrimage landmarks
Generated by: shijuzhao (Z-LINK Urban AI Design Agent)
Based on provisional boundary; recalc metrics after official redlines

Three scopes: coordinated 43.6 km² / overall 11.4 km² / key areas 368.4 ha
Three positionings: Jing-Zhang cultural belt / urban AI-living belt / AI-integrated innovation belt
Five functions: full-stack innovation / world-class ecology / AI+ scenario empowerment / intelligent vibrant city / global AI governance
Three cores: Zhongzhiyuan Accelerator / AI Origin / Dazhongsi Economy
Two wings: Zhongguancun Service / Xiaoyuehe Scenario Empowerment
Key metrics: site_area=11.41 km² / green_ratio=6.8% / public_ratio=7.2% / FAR=pending official data

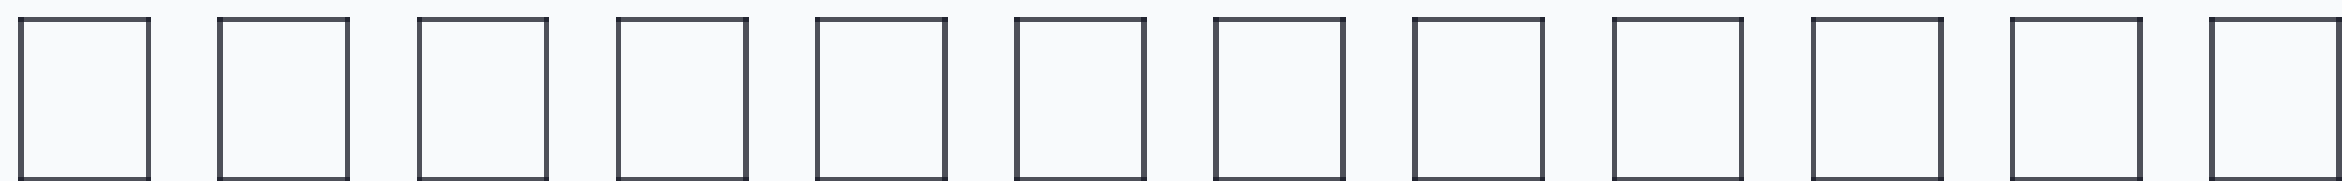

Declaration: This is a concept proposal, not a substitute for formal planning or government approval. Provisional boundaries are for generation and display only.

1. 总体空间结构 Overall Spatial Structure

The proposal introduces the 'one-belt-two-rings-three-cores, AI-native Urban Forum' concept. The one belt is the Jing-Zhang heritage park AI corridor; the two rings are the urban AI-living ring and the industrial-innovation synergy ring; the three cores

2. 三处重点区域 Key Areas

Three key areas detailed-design index

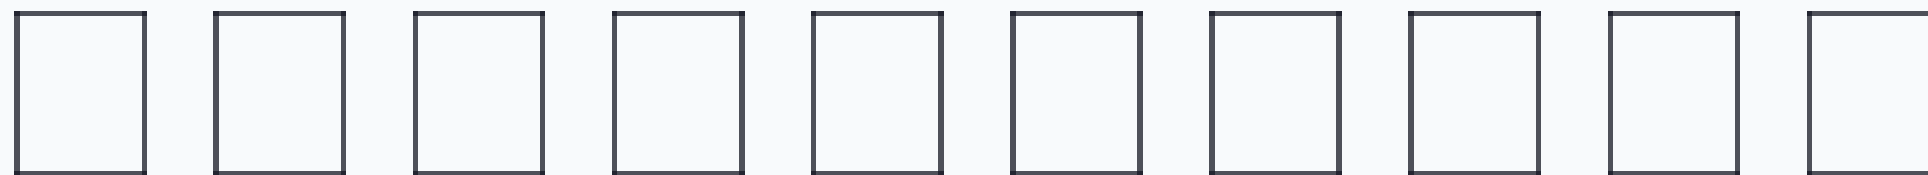

Zhongzhiyuan (Z-LINK Accelerator): garden-type innovation quarter with Qinghe ecological interface.

AI Origin Community (Z-LINK Origin): near-campus transformation and talent community.

Dazhongsi (Z-LINK Economy): urban smart-economy quarter with station integration.

All three polygons are provisional. Source: key_areas.geojson

3. 核心指标与证据链 Metrics & Evidence

Core metrics recalculation and evidence

11.41 km²
Overall design area

5.7%
Green m

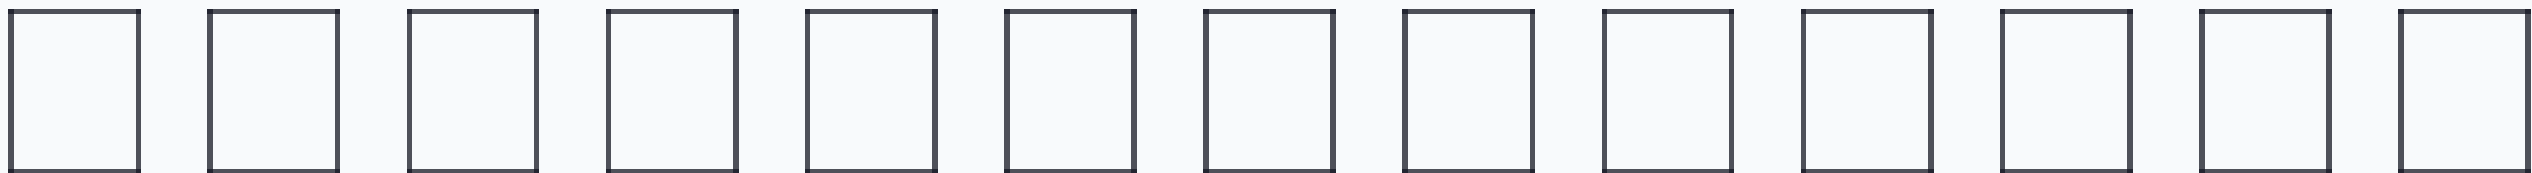

site_area_sqm = 11,412,825.4 (overall design area) / green_ratio = 6.8% / public_space_ratio = 7.2%

building_footprint = 23.5 ha / key_area_count = 3

FAR, building height, and setback are unknown pending official regulatory conditions.

All metrics recomputed from geometry/*.geojson and recorded in metrics.json.

4. 交通慢行与蓝绿空间 Mobility & Blue-green

Mobility, slow-mobility and blue-green con

Risk, Copyright and Compliance

This is a concept proposal, not a substitute for formal planning or government approval.

All spatial recommendations are conceptual suggestions for professional teams to deepen.

No statutory conclusions are made on FAR, building height, demolition, road redline, ownership, or investment.

All pending conditions are noted as to-be-confirmed.

AI agent is responsible for facts, sources, copyright, spatial data, metrics, and expression.
