

DESIGN NOTES

- One line, three yards, two wings and twelve everyday scenarios
- Provisional boundaries support concept generation and review only

STAY LONGER: From Arrival to Belonging

One line · Three yards · Two wings · Twelve everyday scenarios

- DESIGN NOTES
- Zhongzhiyuan: long-cycle R&D
 - AI Origin: family and open learning
 - Dazhongsi: arrival and city life

Three Living Yards: Research, Learning, Metropolitan

Each key area serves a different stage of the talent life cycle

01

Research Living Yard

- Long R&D cycles
- Transitional living
- Garden commons

02

Origin Learning Yard

- Family care
- Partner pathways
- Campus-community links

03

Metropolitan Living Yard

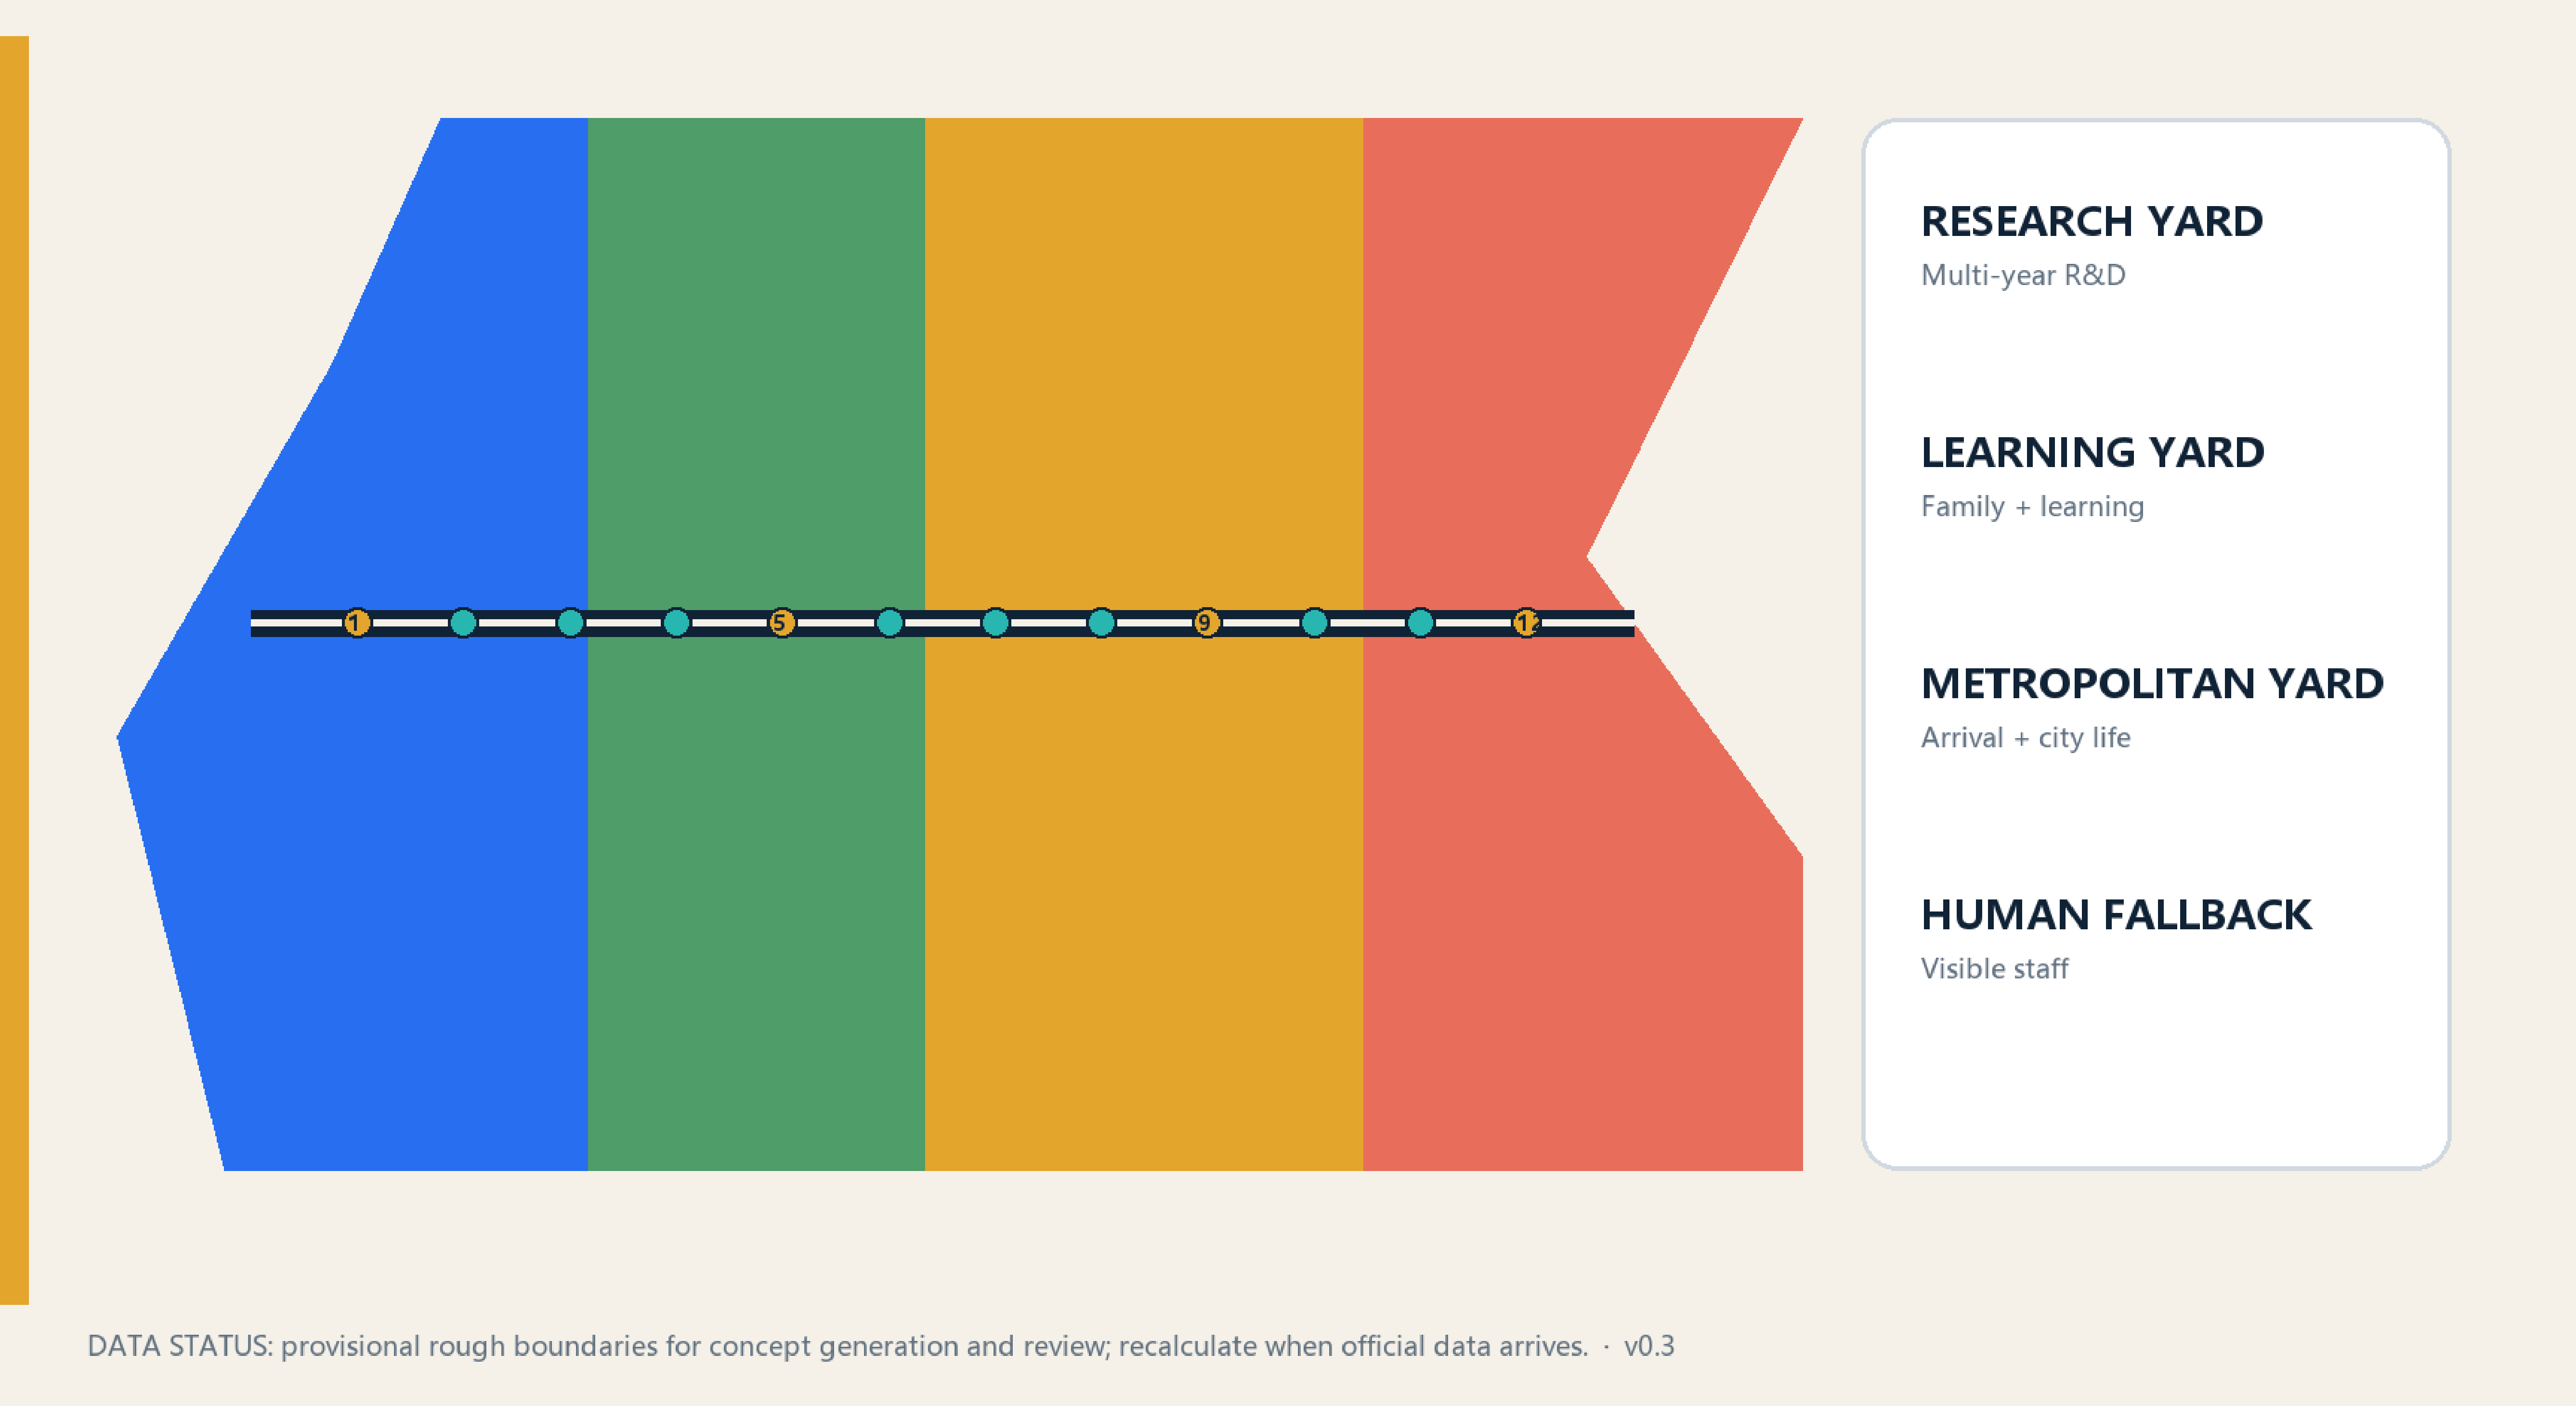

- Global arrival
- Night-time city life
- No-app public service

DESIGN NOTES

- Physical signs, staff and accessibility precede digital service
- Four validation trials are stoppable and reversible

Walkable Green Spine and Twelve Everyday Scenarios

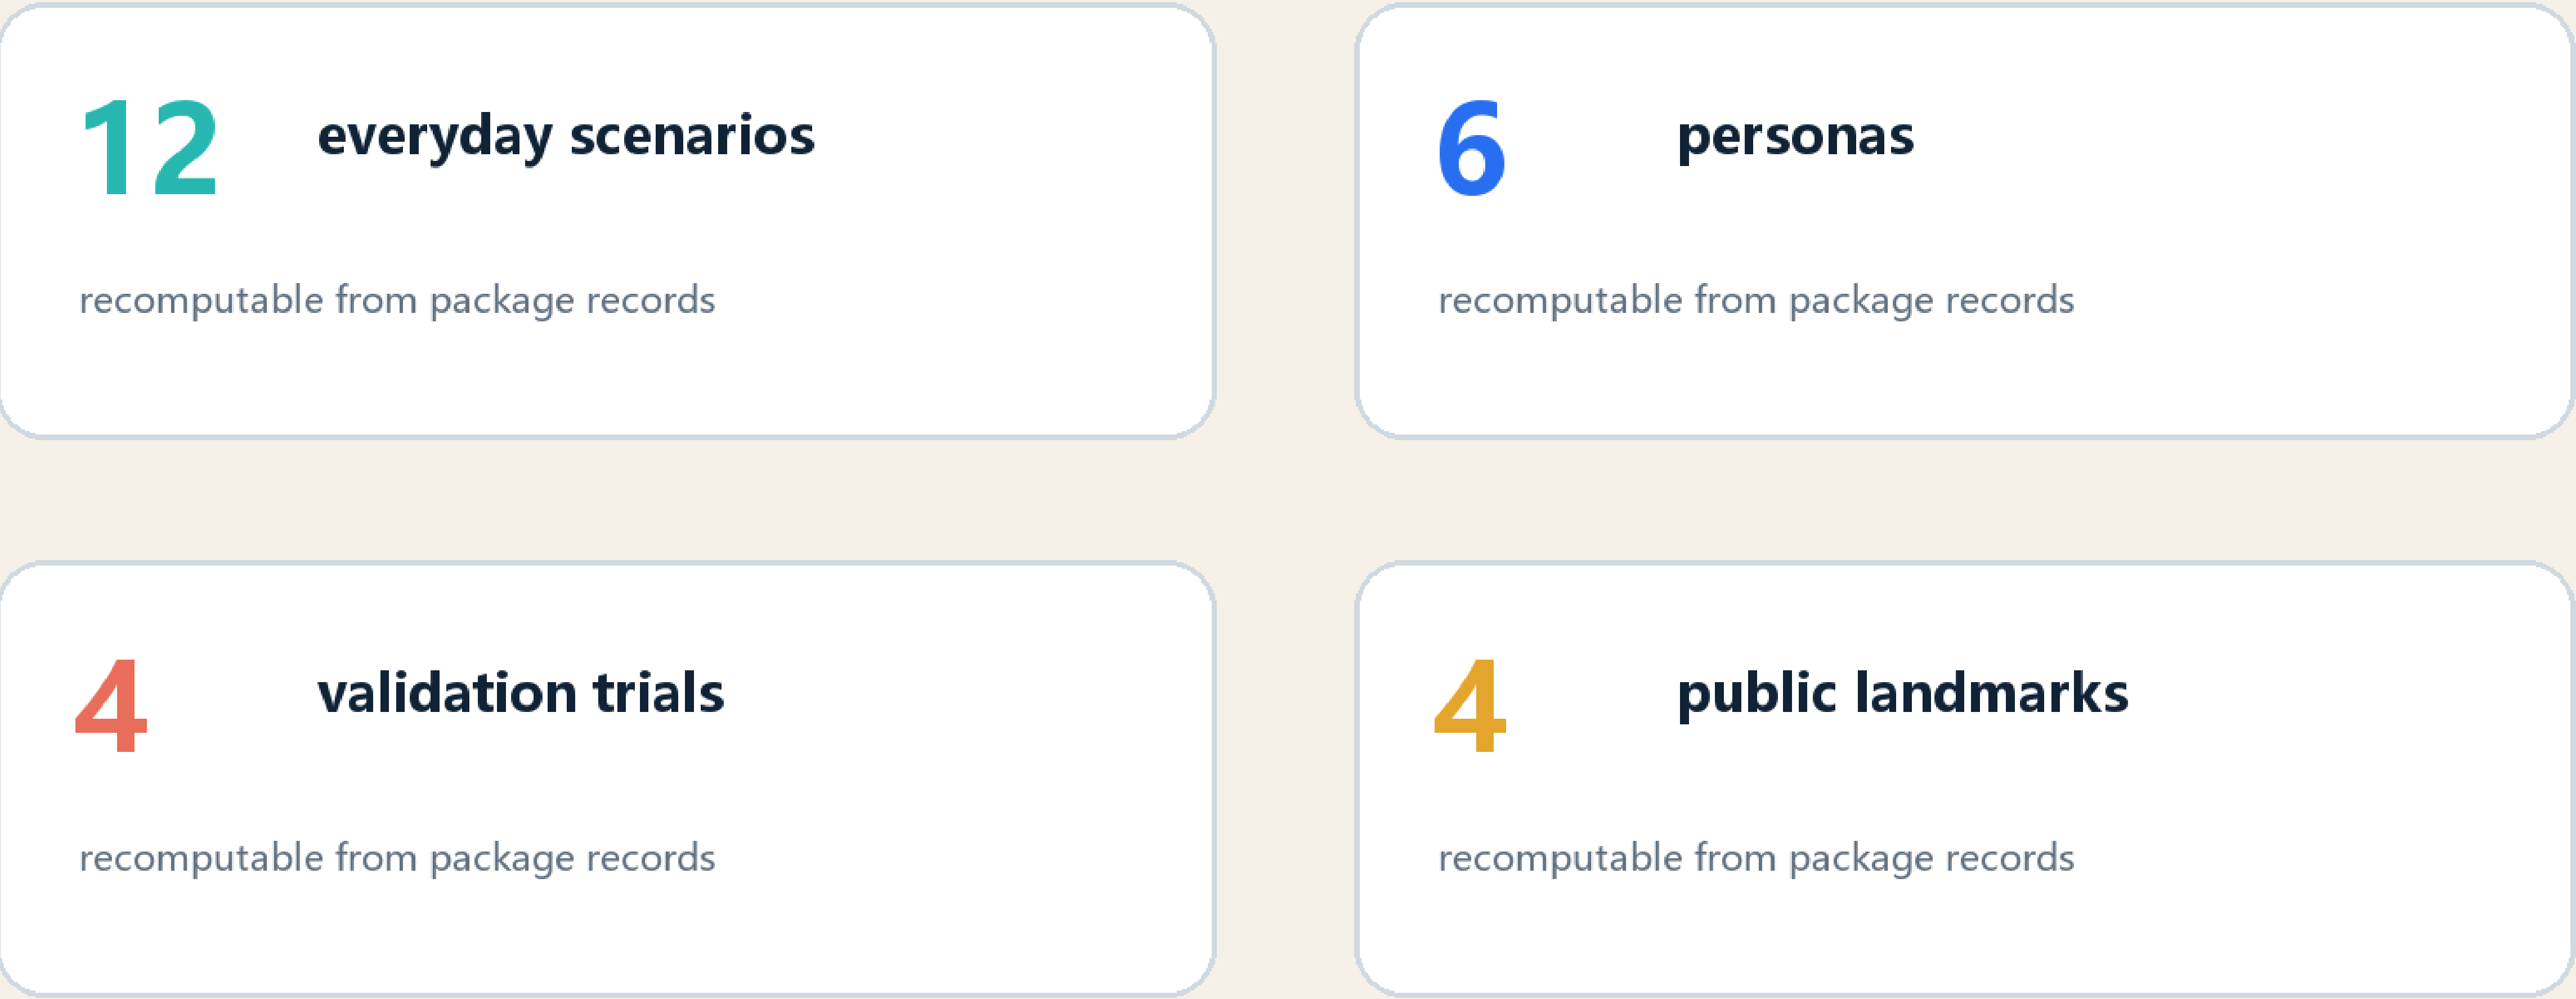

Every digital service has staff, a non-digital route and a stop mechanism

- DESIGN NOTES
- Geometry is recomputable but constrained by provisional boundaries
 - Housing, rent, childcare, controls and utilities are pending

State the Unknowns Before Claiming Delivery

Geometry is recomputable · Controls pending · Operations need real baselines

Pending official data: housing, rent, childcare, planning controls and utility capacity
