

STAY LONGER JING-ZHANG

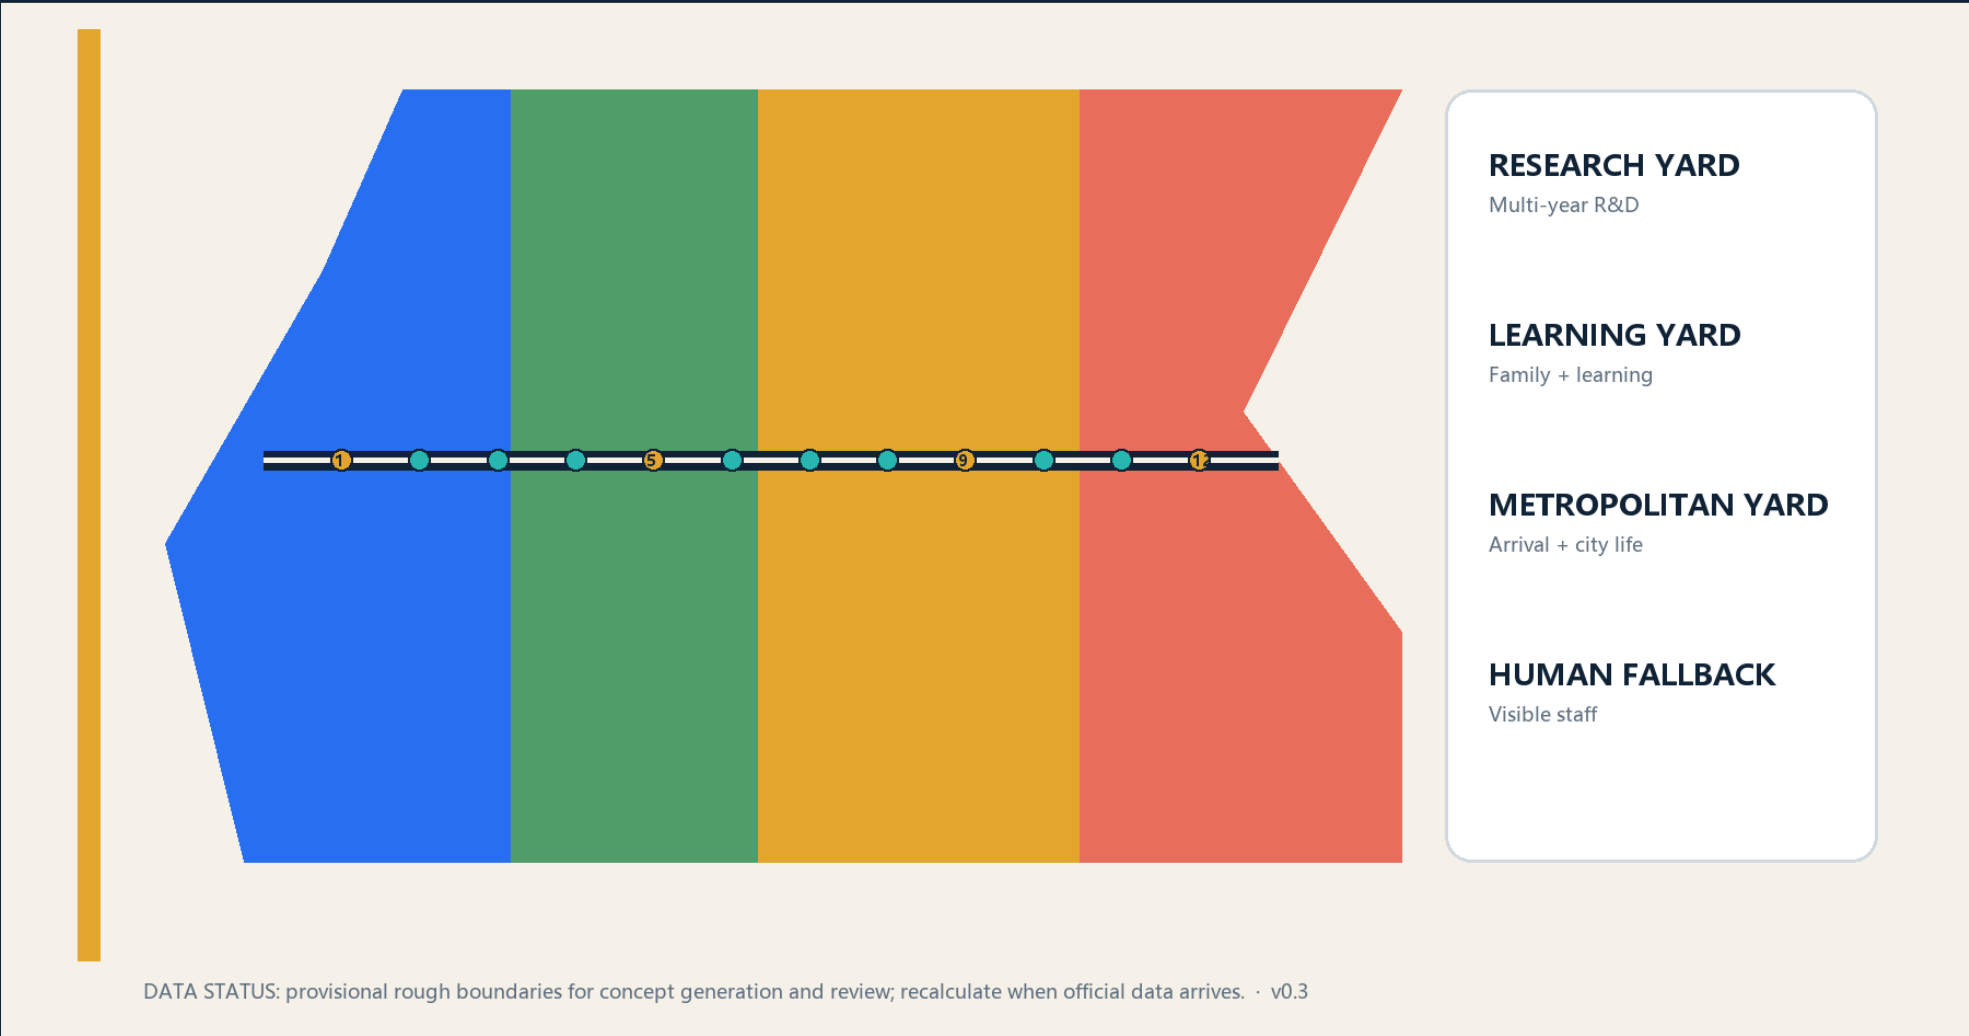

OVERALL CONCEPT

DESIGN NOTES

- One line, three yards, two wings and twelve everyday scenarios
- Provisional boundaries support concept generation and review only

STAY LONGER: From Arrival to Belonging

One line · Three yards · Two wings · Twelve everyday scenarios

STAY LONGER JING-ZHANG

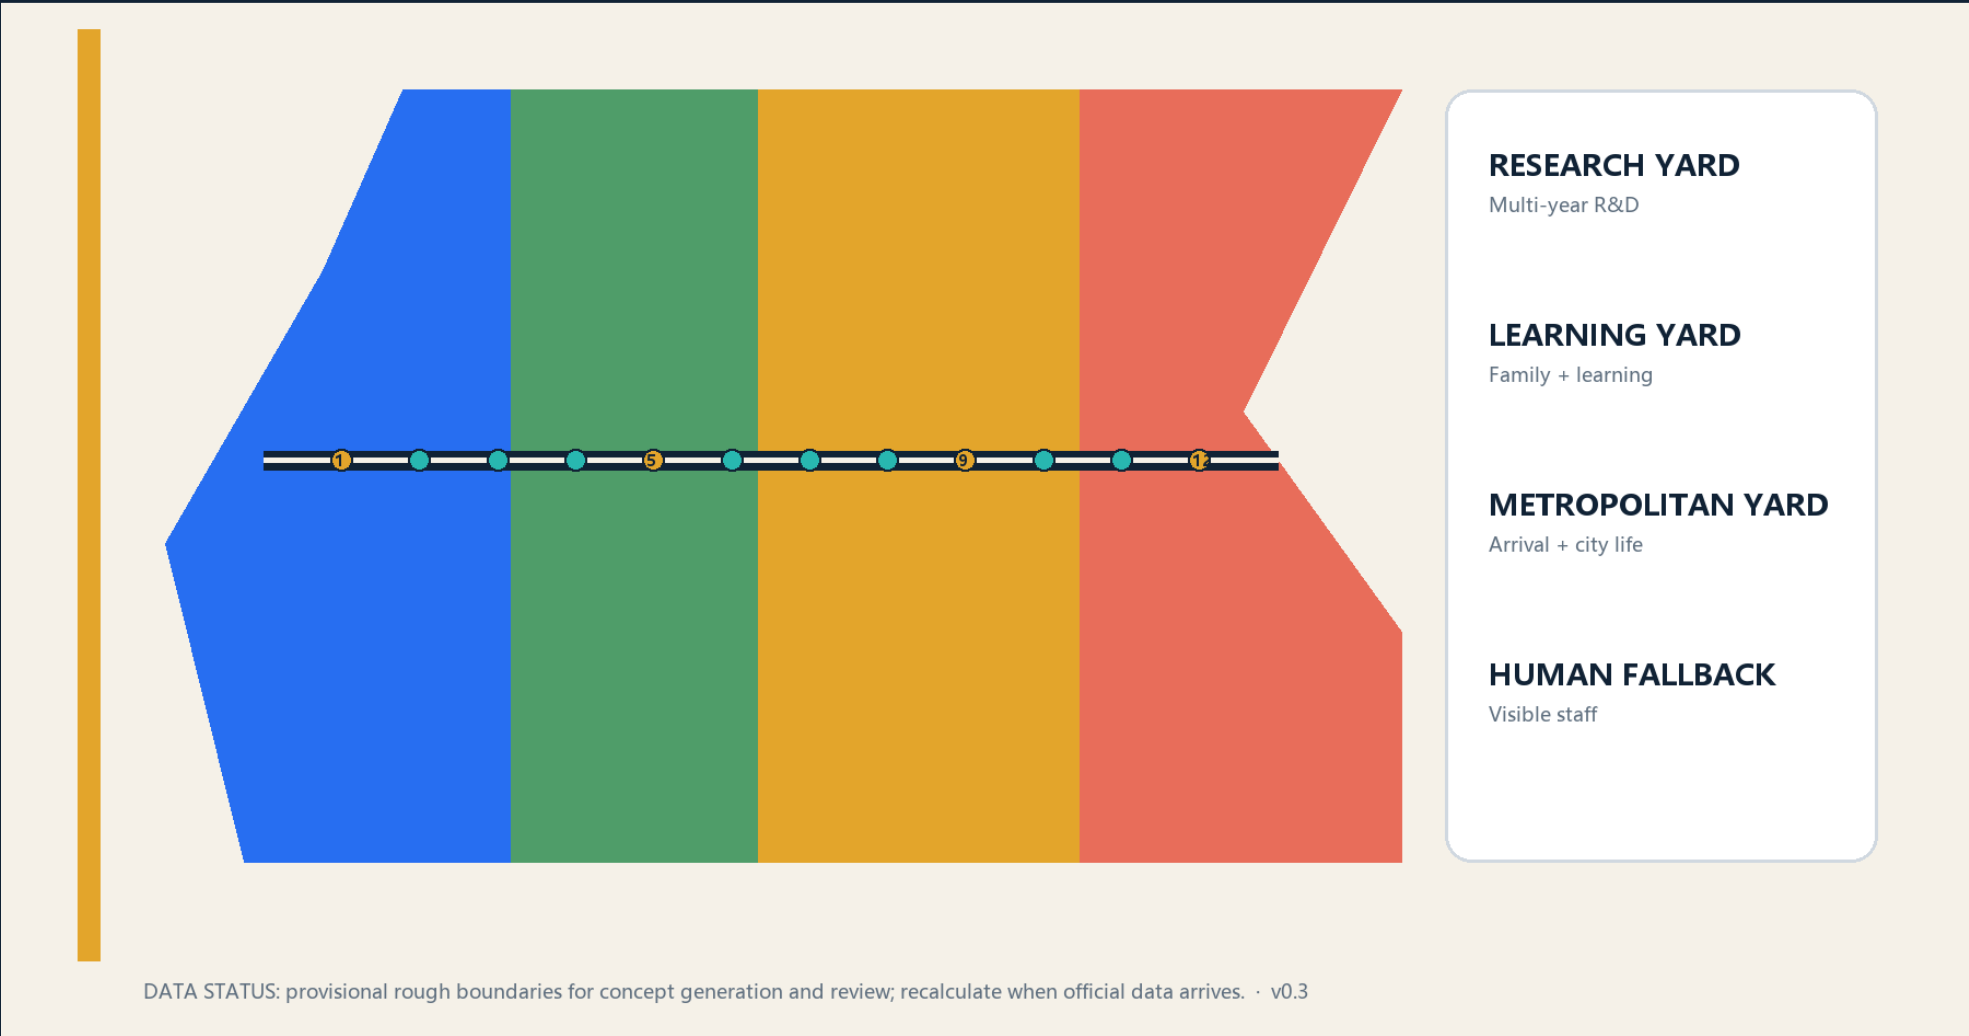

INNOVATION-LIVING STRUCTURE

DESIGN NOTES

- Research, care, learning, living and city life stay adjacent
- Public services first; heavy construction later

Innovation-Living Structure: Work Is Not an Island

Research, care, learning, living and city life stay adjacent; boundaries are provisional

STAY LONGER JING-ZHANG

THREE LIVING YARDS

DESIGN NOTES

- Zhongzhiyuan: long-cycle R&D
- AI Origin: family and open learning
- Dazhongsi: arrival and city life

Three Living Yards: Research, Learning, Metropolitan

Each key area serves a different stage of the talent life cycle

DATA STATUS: provisional rough boundaries for concept generation and review; recalculate when official data arrives. · v0.3

STAY LONGER JING-ZHANG

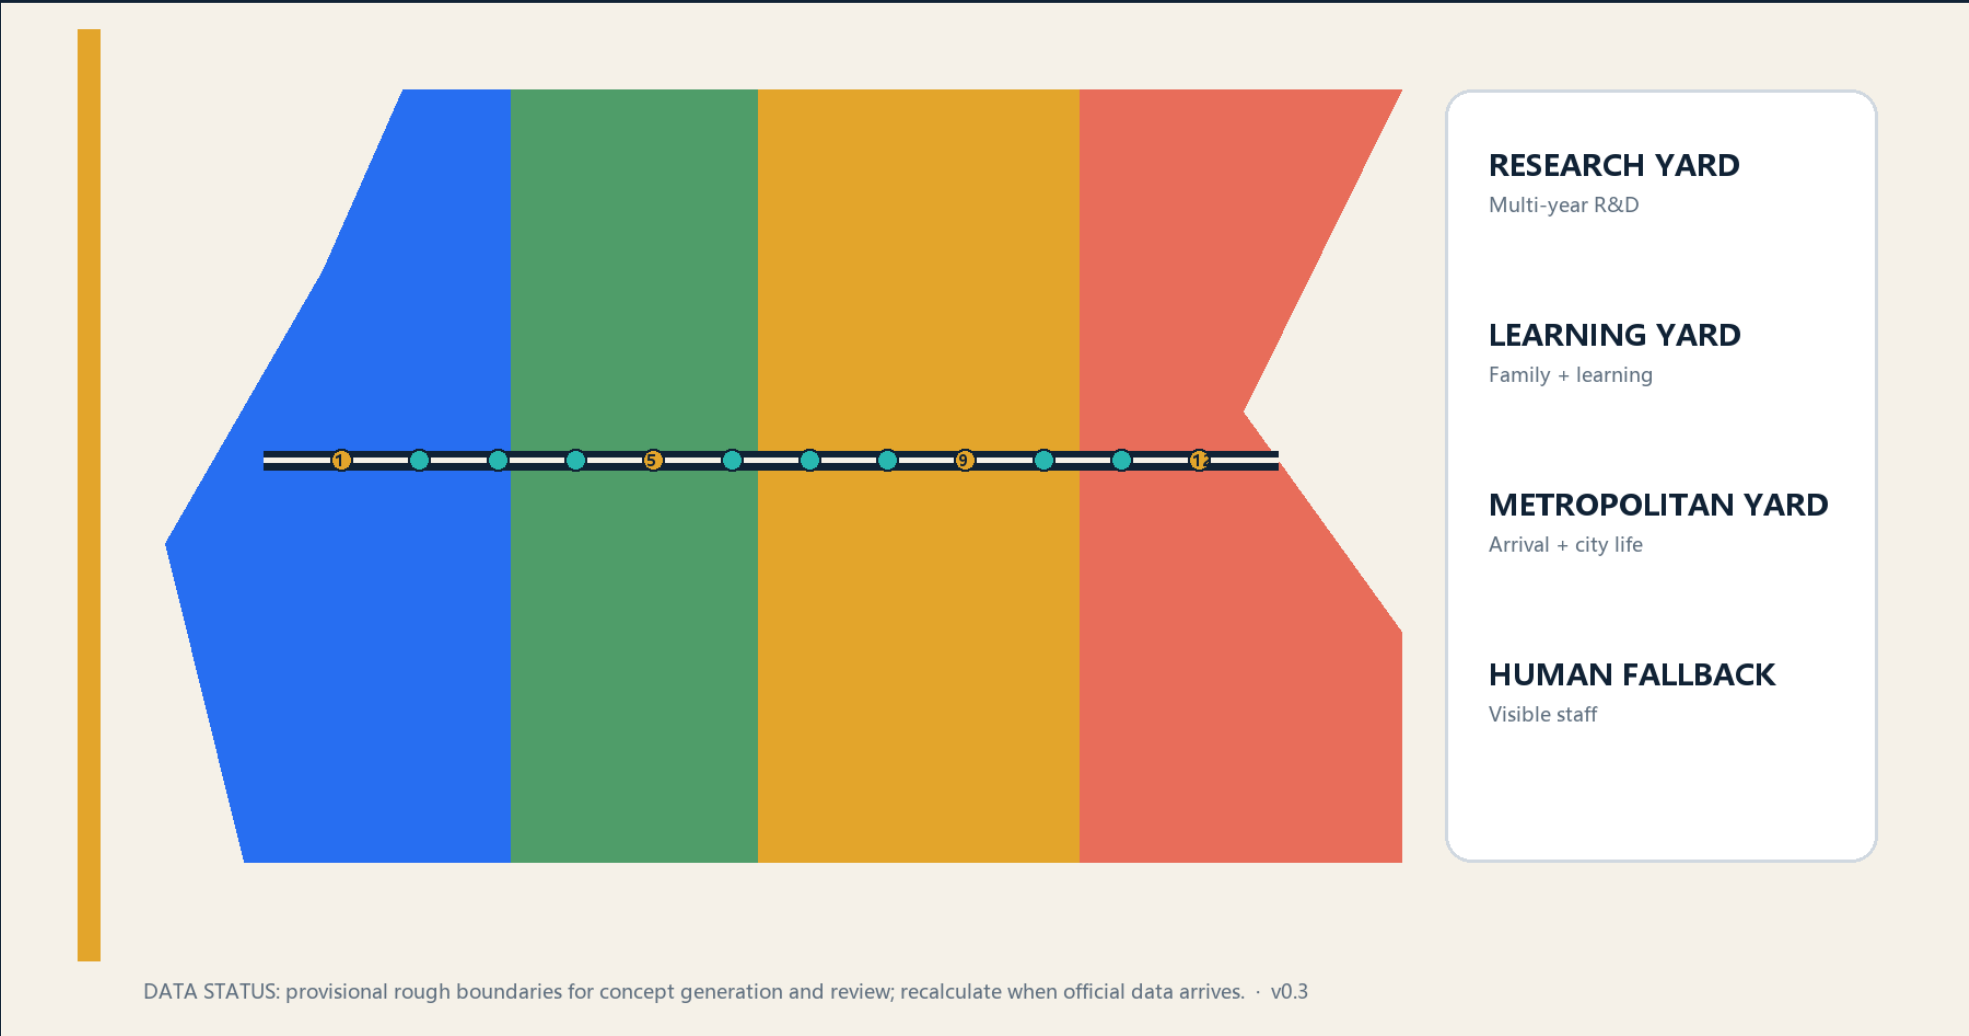

MOBILITY, GREEN AND AI

DESIGN NOTES

- Physical signs, staff and accessibility precede digital service
- Four validation trials are stoppable and reversible

Walkable Green Spine and Twelve Everyday Scenarios

Every digital service has staff, a non-digital route and a stop mechanism

STAY LONGER JING-ZHANG

METRICS AND EVIDENCE

DESIGN NOTES

- Geometry is recomputable but constrained by provisional boundaries
- Housing, rent, childcare, controls and utilities are pending

State the Unknowns Before Claiming Delivery

Geometry is recomputable · Controls pending · Operations need real baselines

12 everyday scenarios

recomputable from package records

6 personas

recomputable from package records

4 validation trials

recomputable from package records

4 public landmarks

recomputable from package records

Pending official data: housing, rent, childcare, planning controls and utility capacity

DATA STATUS: provisional rough boundaries for concept generation and review; recalculate when official data arrives. · v0.3
