OPEN STUDIO: EVIDENCE & RELEASE GATES

A recallable production chain links source, rights, space, and named human review before any certainty claim.

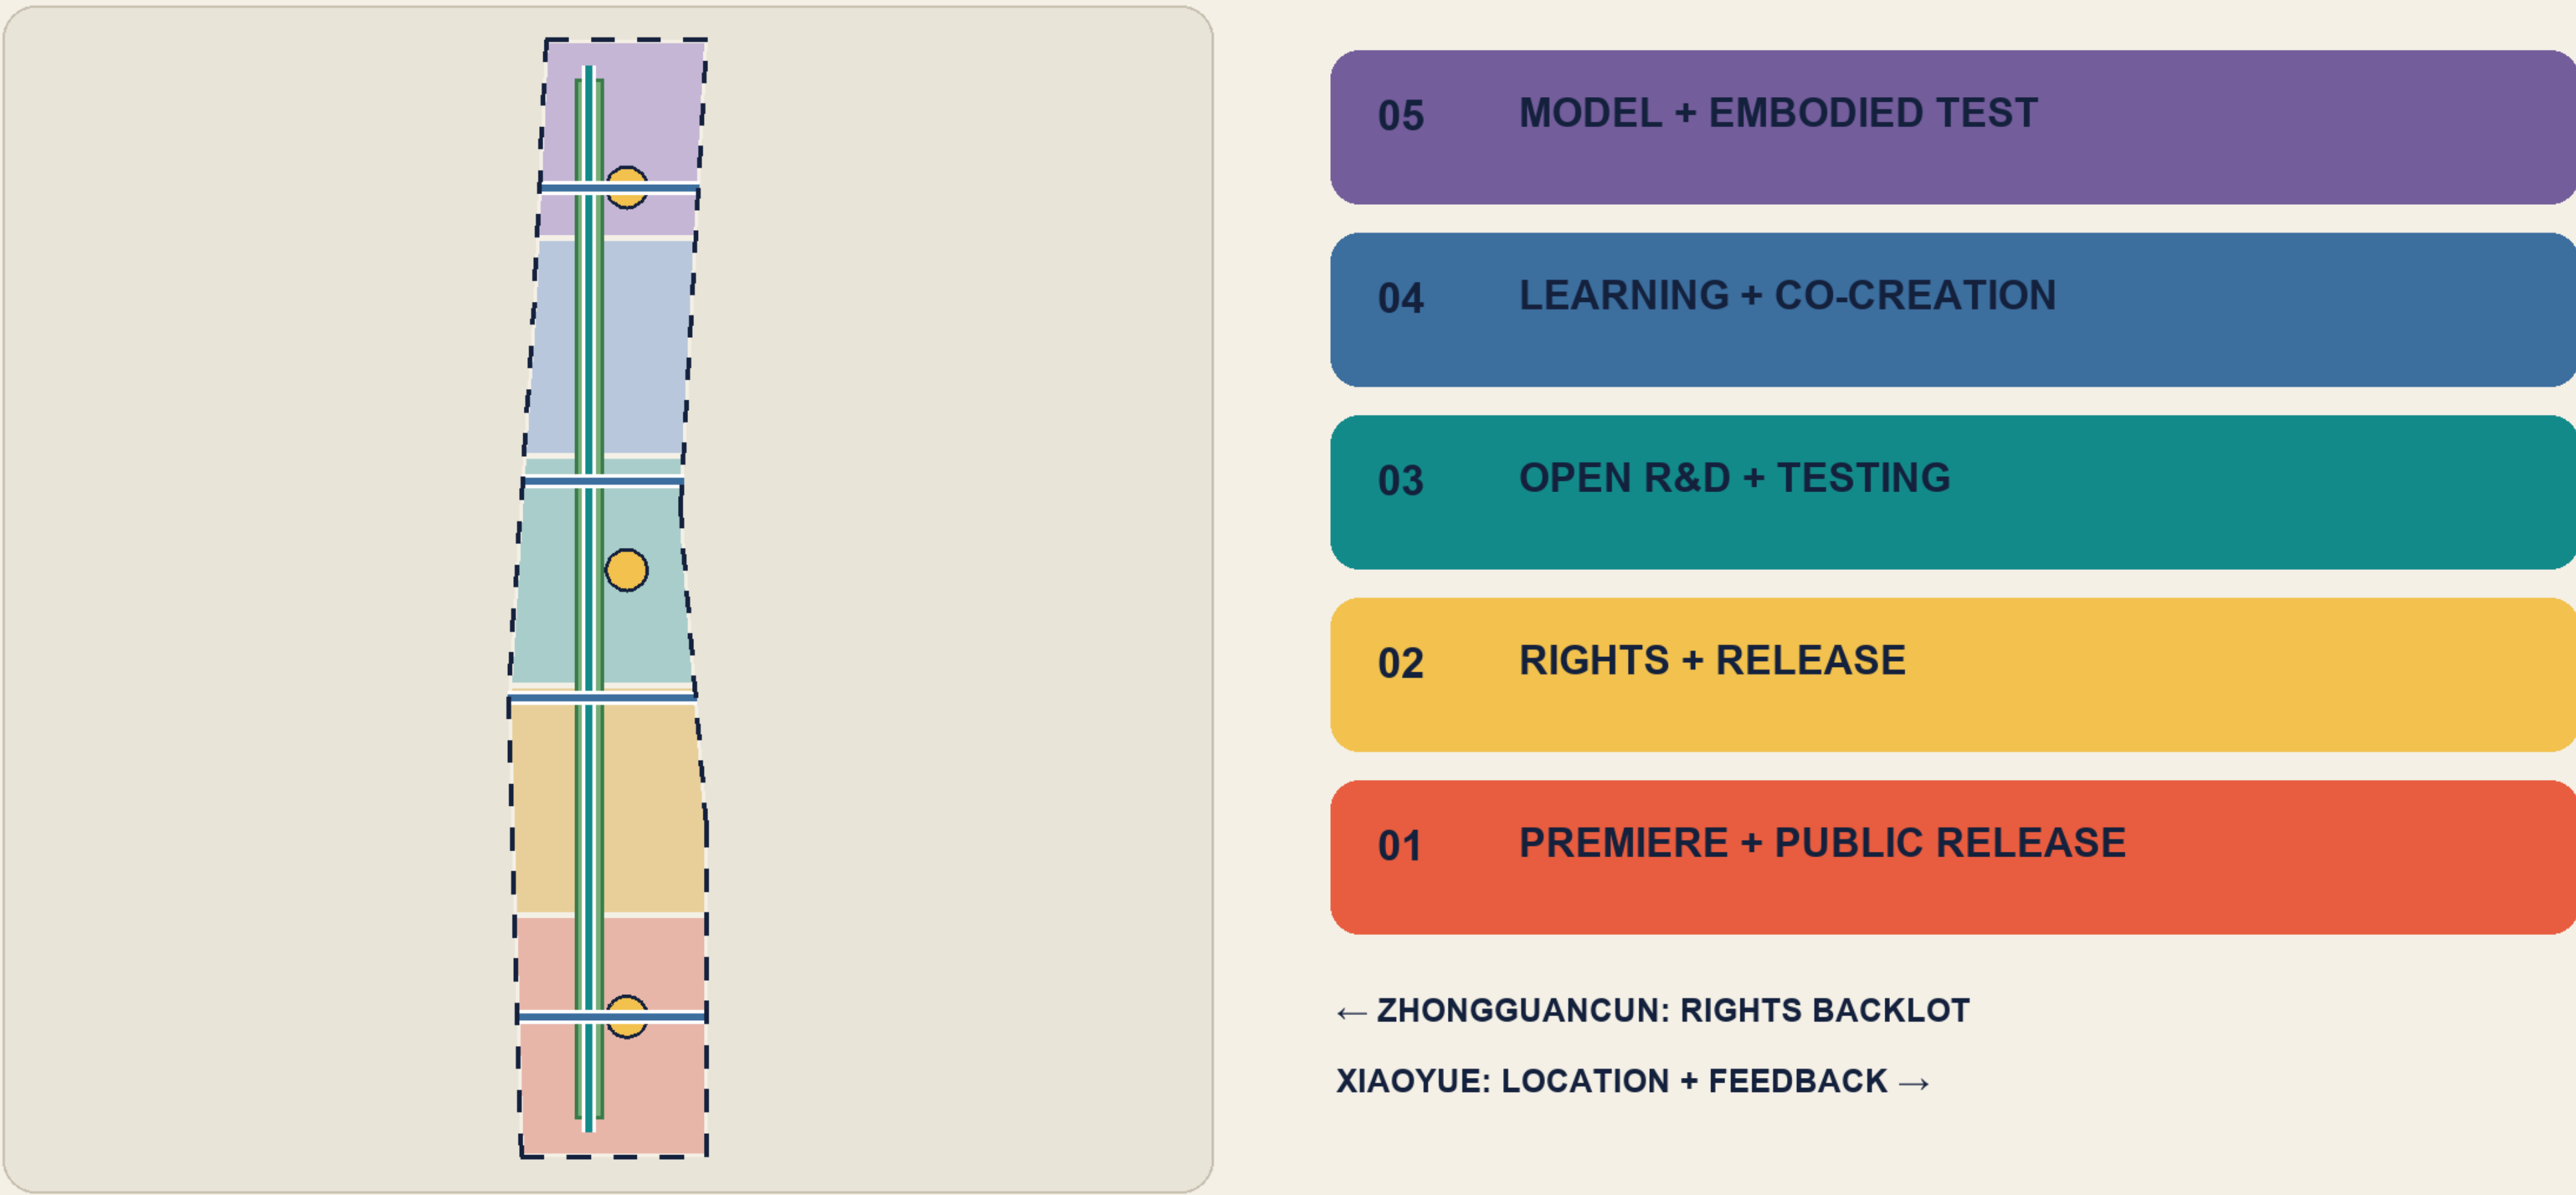

Sources: official announcement, Agent taskbook, repository provisional geometry, and Issue #846. Dashed envelope is not a redline or precision/control/engineering basis.

ONE PACT · THREE STUDIOS · TWO WINGS · TWELVE LENSES

Five gap-free placeholders encode production order; verified controls may rearrange space but not rights or human review.

Codes use the repository-registered MNR subset. Diagram is agent-generated design, not existing or proposed statutory zoning.

RECALC

GEOMETRY → METRICS → TEXT → BOARDS

TEST REPORT → CLEARED ROUGH CUT → PUBLIC FEEDBACK: VERSIONS ARE THE ONLY LEGITIMATE HAND-OFF

ONE CONCEPTUAL WALKING SPINE, FOUR CROSS-LINKS, THREE PUBLIC ROOMS; PRODUCTION YIELDS TO DAILY PASSAGE.

OS / 03

THREE STUDIOS ARE VERSION GATES, NOT THREE SHOWROOMS

Test reports, co-author records, and public feedback are the legitimate hand-offs between areas.

CO-AUTHOR STUDIO

open story / rights clinic / accessible localization / community co-making

GATE: CLEARED CUT + CO-AUTHOR RECORD

CIVIC PREMIERE GROUND

public rough cut / named final cut / timed premiere / recall

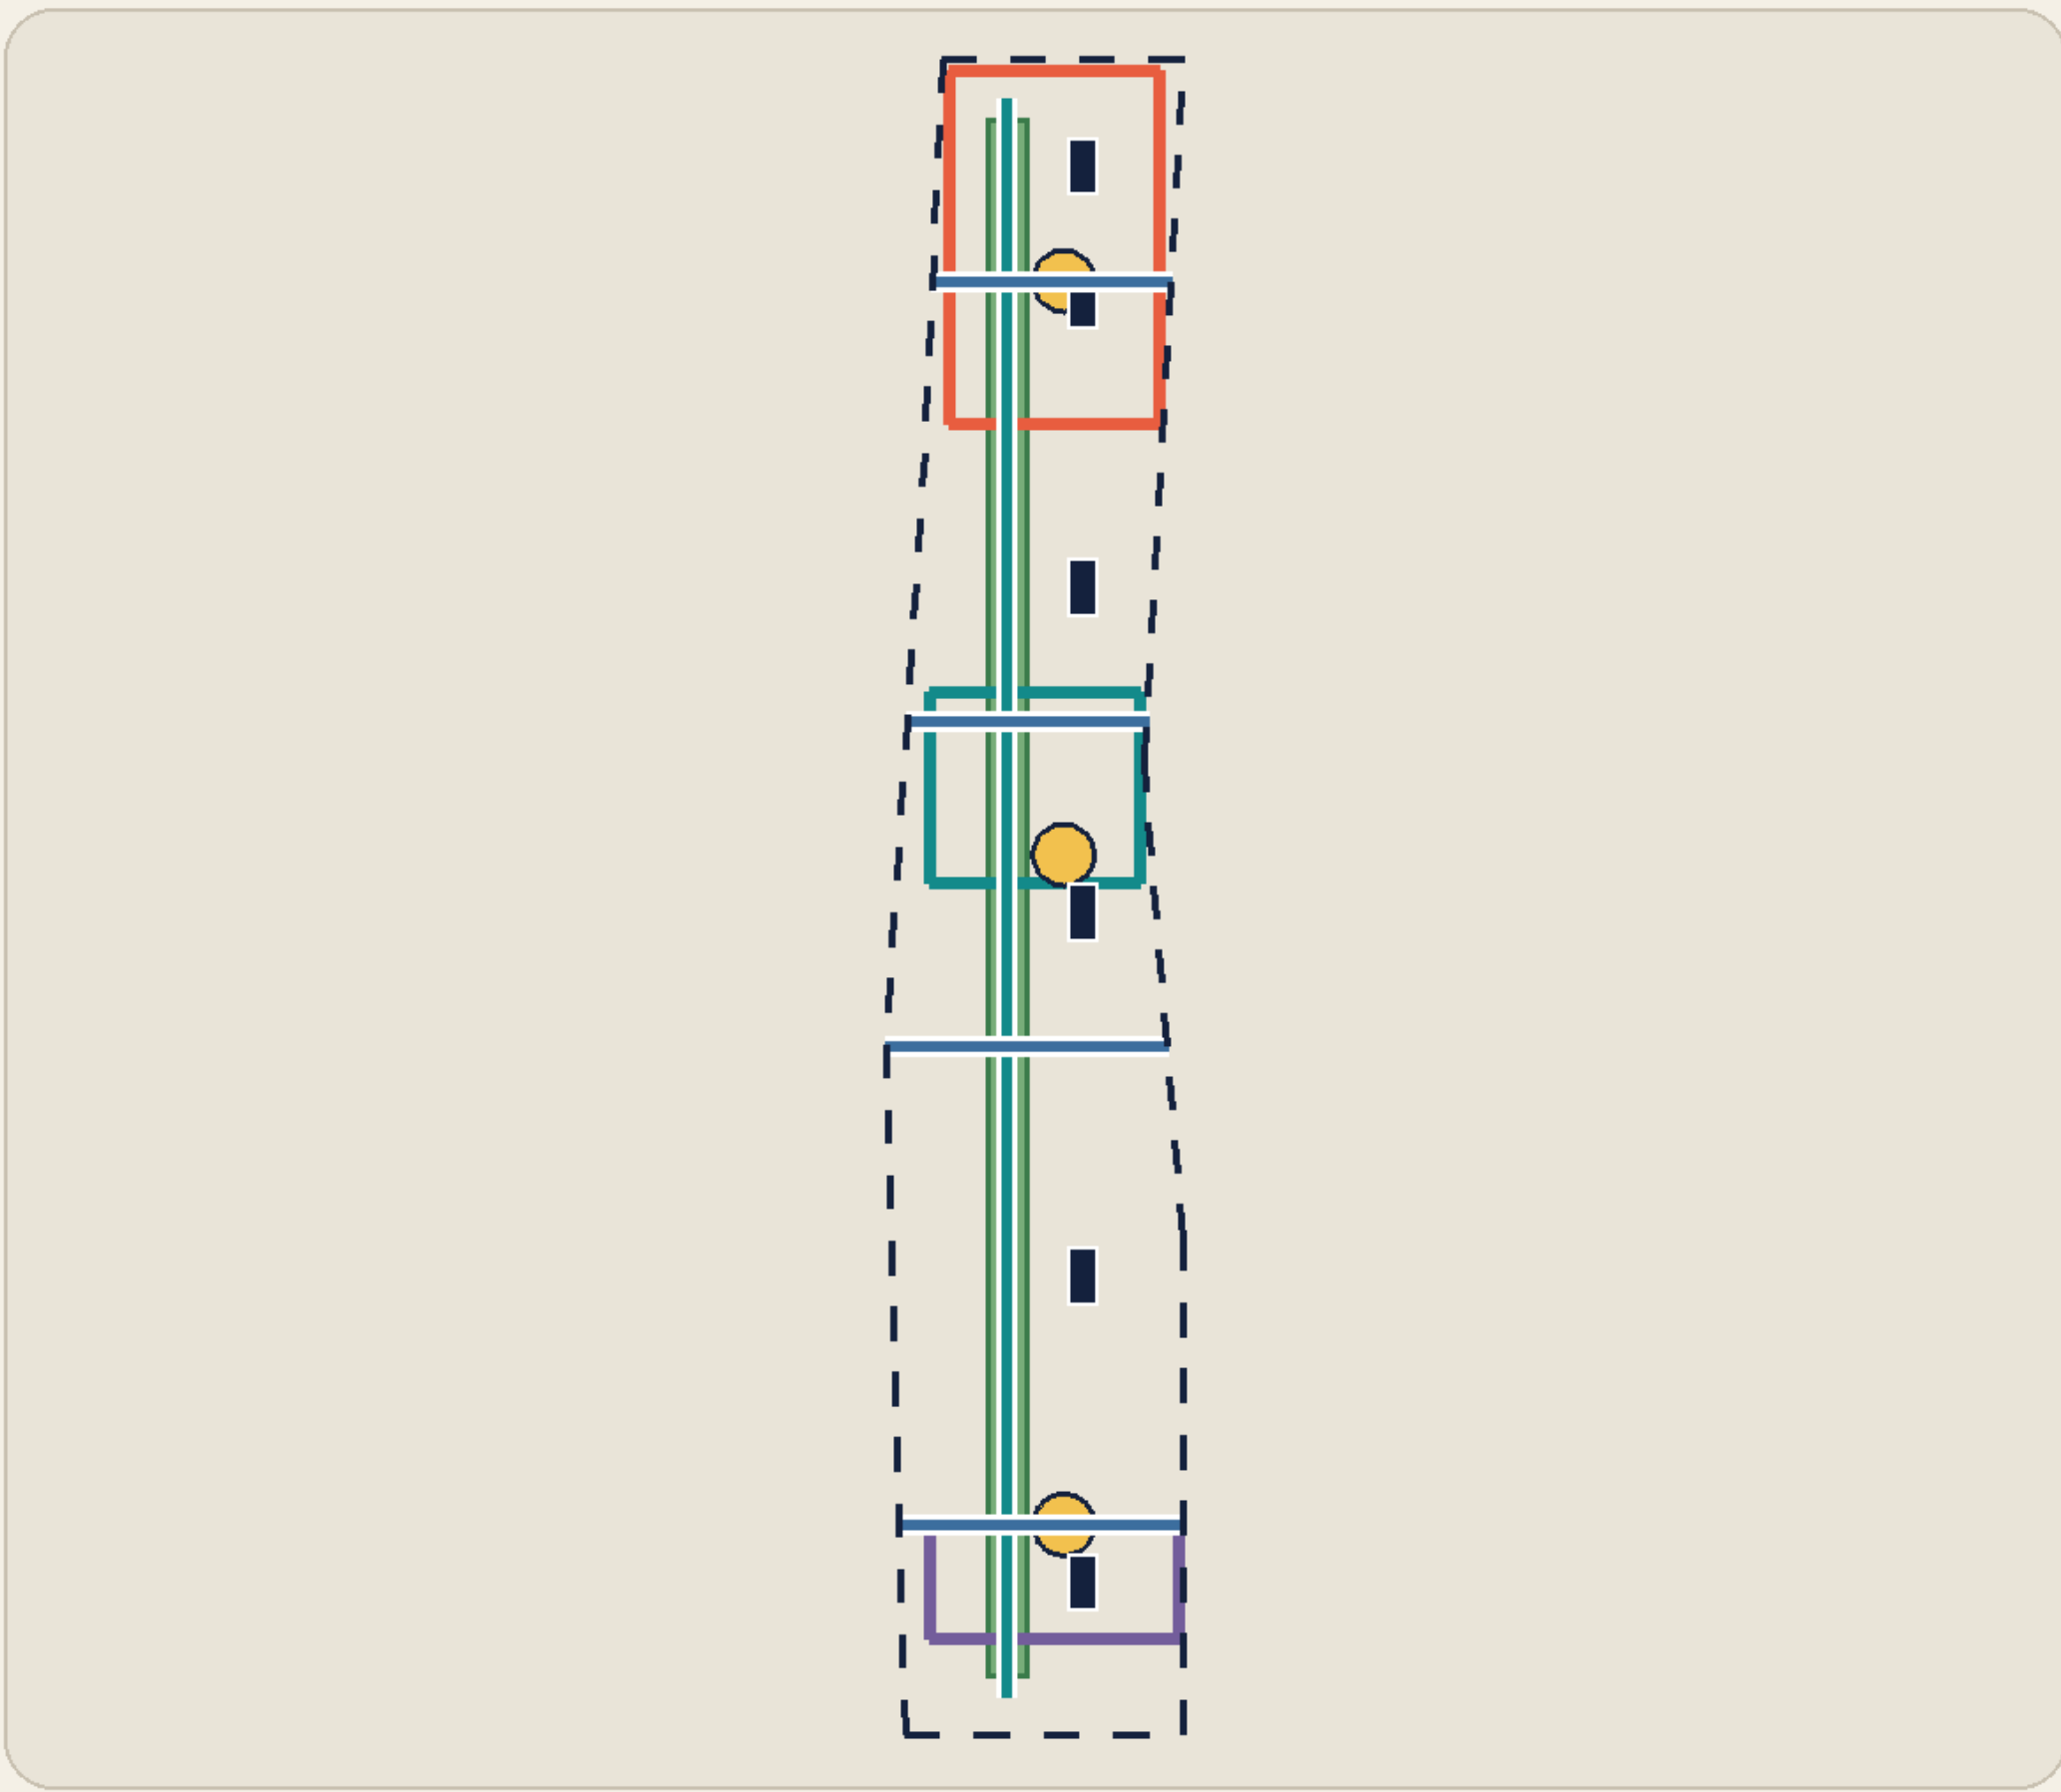

GATE: VERSION + TERM + ACCOUNTABILITY

All three polygons are provisional rough geometry. Confirm official limits, heritage, ownership, buildings, transport, and operators before detailed design.

EVERYDAY PASSAGE HAS FIRST RIGHT OF WAY

Filming, loading, queues, lighting, and robots yield to accessible movement and can retreat indoors or into closed tests.

OPEN STUDIO WALKING SPINE
accessible walking + cycling + daily park use

QUIET BLUE-GREEN COMMONS
habitat, shade, and quiet first

FOUR CROSS LINKS
desired links, not bridge/tunnel claims

THREE PUBLIC ROOMS
visible status, access, complaint, recall

LOGISTICS + ROBOT EXIT GATE
off-peak, low speed, stop, bypass

NO REDLINE / BRIDGE / TUNNEL / STATION CLAIM

Road, rail, flow, parking, utilities, sound/light, ecology, and heritage data are missing; every route and interface is conceptual.

THREE KINDS OF NUMBER: RECALCULATED, HARD GATE, UNKNOWN

Low-confidence spatial values test internal consistency; governance hard gates control public release; missing controls stay blank.

Public-release gate: 100% rights passport + 100% Human Final Cut + 100% valid consent for identifiable people

FAR, total floor area, height: UNKNOWN pending verified controls and existing conditions

Operation: standing clinic + monthly rough cut + quarterly sprint + semiannual red team + annual open week

Exit: pause propagation → isolate → notify → restore space → independent human review
